

CLEAN, DRAIN AND DRY

HELP PROTECT NEVADA'S WATERS
BY STOPPING THE SPREAD OF
INVASIVE AQUATIC HITCHHIKERS!

Inspect and decontaminate your watercraft
and equipment! **CLEAN, DRAIN** and **DRY** your:

| <input checked="" type="checkbox"/> Fishing Gear | <input checked="" type="checkbox"/> Buckets | <input checked="" type="checkbox"/> Fishing Poles |

Here are some methods to minimize your chances of accidentally transporting invasive species. By following these steps you can help protect your valuable fishing and boating resources for the future:

CLEAN Remove all mud, plants and animals from every part of your boat, trailer and equipment.

DRAIN Remove all drain plugs and water from your boat including live-wells, ballast, hull, and engine-cooling water when you leave the waterbody.

DRY Allow boat, equipment, and gear to completely dry before deploying into another waterway.

NOTE: When transferring your watercraft from one water to another or across state borders, you may be required to have your watercraft inspected or decontaminated. For additional information, visit www.westernais.org.

- **NEVER** release plants, fish or animals into a body of water unless they came out of that body of water.
- **AIS DECAL** requirement (NRS 488.536) includes in-state and out-of-state motorized watercraft as well as most non-motorized watercraft including paddle-craft, canoes and kayaks. Watercraft that are capable of retaining water are required to display the decal.
