SEE WHAT'S NEW FOR 2017

- All controlled hunt tag numbers have been set. The numbers listed in the '2017 Tags' column of the controlled hunt tables are the tags available to be drawn for the fall 2017 seasons.
- Edible portions of game mammals is now defined and includes the meat from the front quarters, hind quarters, the loins (backstrap), and tenderloins. For elk, the meat of the neck is also included. See page 95.
- There are a number of changes to Wildlife Areas including winter range closures beginning in the fall of 2017. See pages 108-111
- Proposed date changes are under consideration for the Clear Cr. (52A) and Indian Cr.-Gorham Butte (52C) TMAs in the Starkey WMU; closures are proposed to begin 3 days prior to opening of the 2017 general deer and elk archery seasons, see page 105-106. Final regulations will on TMA Maps and available on the ODFW website by August 15, 2017.
- REMINDER: Access to hunting areas changes each year. Access to some private lands is by "fee only", requiring an access permit or lease. For the most current information, hunters should contact the landowner(s) of the area they are interested in hunting.

LICENSE REQUIREMENTS

License Requirements

All Hunters

- Must have a valid hunting license. (See exceptions for youths participating in the Mentored Youth Hunter Program at odfw.com/education/mentored_youth)
 - » Hunting licenses are valid through December 31 of each year. Hunts extending into or beginning in the following calendar year require a new hunting license.
 - » No one may possess more than one valid annual hunting license. **However, for the purpose of acquiring preference points under the controlled hunts system and hunting big game, a youth between the ages of 9 and 12 may hold both a free youth license and a youth hunting license.**
 - » Hunters, 12 years of age and older, who will be hunting predators on public land, and western gray squirrels, unprotected mammals, and unprotected birds on public or private land must have a valid hunting license. No tags are required.

- » Any hunter with a valid Oregon or Idaho hunting license may hunt in the waters or on the islands of the Snake Rvr, where the rvr forms the boundary between the two states. All laws and rules of the respective states apply.
- » To apply for controlled hunts, all hunters must purchase a current hunting license.
- To hunt big game you must have in possession a valid hunting license and a big game tag valid for the dates, area, and species being hunted.
- Licenses, tags, and controlled hunt applications can only be obtained at license agents throughout the state, via the internet (www.odfw.com/online_license_sales), or through the headquarters office by mail, fax, or in person.
 - » Licenses and tags may be purchased for you by a family member or friend.

Oregon Residents

- Obtaining hunting, combination, or Sports Pac license.
 - » A person who has resided in Oregon at least six months immediately prior to the date of making application for a license, tag or permit issued by the State Fish and Wildlife Commission. Temporary absence from the state for a purpose other than establishing residency outside the state shall not be considered in determining whether a person meets the residency requirement.
 - » These requirements are waived for certain active members of the uniformed services and for some foreign exchange students (see OAR 635-010-0015(4) for details). Submitting a false application is a crime.
 - » To qualify for a free disabled veteran license you must have at least a 25% disabled rating from any branch of the Armed Forces of the United States.

Nonresidents (Including Nonresident Members of Uniformed Services)

- Must obtain a valid nonresident hunting license or nonresident youth hunting license if 12 years of age or older.
- Must obtain a valid nonresident tag for each species they will hunt.
- A nonresident license, or a nonresident uniformed services license, and/or tag may be purchased for a person by a family member or friend directly from a license agent or by mail, via the internet (www.odfw.com/online_license_sales), or fax.

Youth (Resident and Nonresident)

- License, controlled hunt application and big game tag requirements.
 - » All hunters 12 years of age and older must purchase a hunting license to apply in the big game controlled hunt drawing, to purchase a tag and hunt in any big

game season and to apply for and receive landowner preference tags.

- » To hunt big game, youth 11 years of age are allowed to purchase a youth hunting license provided they will turn 12 by the time of the hunt.
- » **Youth 9-12 must purchase a hunting license to participate in the point saver program. See page 14.**
- No one 11 years of age and younger may hunt for big game.
 - » See exceptions for youths participating in the Mentored Youth Hunter Program at odfw.com/education/mentored_youth.
- Tags and applications requirements.
 - » Youth 11 years of age and younger are required to obtain a free license in order to purchase turkey tags or apply for sage grouse hunts and waterfowl reservations.
- Hunters 17 years of age or younger can buy a youth hunting license.
- Youth 13 years of age and younger while hunting on property other than land owned by parent or legal guardian must be accompanied by an adult 21 years of age or older.
- Youth 17 and younger must have a Hunter Education Certificate or a department issued document (ex. hunting license) which includes their Hunter Education Certificate Number in their possession to hunt anywhere except on land owned by their parent or legal guardian. See www.dfw.state.or.us/education/hunter/ for Hunter Education information.
- Hunters ages 17 and under must wear a hunter orange exterior garment (shirt, jacket, coat, vest, or sweater) or hat when hunting game mammals or upland birds (except turkey) with any firearm. The exterior garment or hat must have hunter orange visible in all directions (360 degrees).

Landowners

- A resident does not need a license to hunt on land upon which the person resides and is owned by the person or a member of the person's immediate family, unless they are hunting a species for which a tag is required.
- If landowners are purchasing big game tags, applying in the big game controlled hunt drawings or applying for landowner preference tags, a hunting license is required.
- All landowners (residents and nonresidents) eligible for landowner preference must send in appropriate landowner preference forms, purchase a valid hunting license, and apply by specified deadlines to receive landowner preference tags. See page 17 for details.
- A landowner or landowner agent does not need a hunting or trapping license to take predatory animals on land they own, lease, lawfully occupy, possess, or have charge of or dominion over. See page 95 for the definition of a predatory animal.

LICENSES, CONTROLLED HUNT APPLICATIONS AND TAGS

The ODFW POS system and online sales are available 24 hours a day. Check with your local license agent to determine store hours for POS sales.

Note: As a hunter it is your responsibility to:

- Ensure the hunts you apply for (all choices in all series) are hunts you want to participate in.
- Monitor your preference points, tags allocated to specific hunts, and odds of drawing a tag.
- Ensure the actual area you are interested in hunting is within the hunt boundary and is open for hunting access.
- Secure access to any private lands you wish to hunt on within the established hunt area boundary.

ODFW strives to make all information available to all hunters and ODFW will not reinstate preference points or change tags because the tag you drew is not the one you wanted or expected.

Licenses

You can buy a hunting license in person, by mail, via the internet, or by fax. A \$2.00 shipping and handling fee applies. You must have a license to apply for controlled hunts or buy tags (license may be purchased before or at the same time you purchase your controlled hunt applications or general season tags.)

- To purchase in person, go to any license agent.
- To purchase by mail or fax, use the application form at odfw.com/resources/forms_applications.
- To purchase by internet, please visit www.odfw.com/online_license_sales.
- Verify that all information entered is what you requested before the transaction is completed. The license agent will give you an application receipt showing your hunt choices. You should check it for accuracy before you leave the license outlet and keep it for proof of application.

Controlled Hunt Applications

To apply for a controlled hunt, you must have a valid hunting license.

Application fee is \$8.00 per hunt series. Apply at a license agent, via the internet, by mail or by fax.

- To apply by mail or fax, use the application form at odfw.com/resources/forms_applications. A \$2.00 shipping and handling fee applies. If applying in person or via the internet, you may use the application form as a worksheet to speed up the process. License agents will ask for information shown on the application form.
- Available hunt choices are listed in the controlled hunt tables for each species/series.
- Enter at least one complete hunt number choice (3-digit minimum). You may enter up to four additional hunt choices. All hunt choices on one application for a series must have the same first digit.
- Hunters should apply for more than one hunt choice in case a particular hunt is cancelled.

Party Applications

You must indicate if you are applying as an individual, party member or party leader when applying for your controlled hunts. All applicants, including party leader must purchase separate applications. Parties must assign one member as the party leader. Each party member, except party leader, must enter their party leader's Hunter/Angler ID number on their application.

- The party leader's hunt choices will be used for the entire party. All members must list the same choices as the party leader on their individual applications.
- Party-size limitations: 18 hunters for deer and elk; six hunters for black bear; only two hunters for pronghorn antelope. No party applications are permitted for bighorn sheep or Rocky Mt goat.
- All persons in parties that exceed the allowed party size will be considered single applicants in the drawing.
- Parties will not be split to fill hunt quotas.

Colorado is Calling

Answer the call

2017 application deadline is April 4, 2017

This also applies to limits on controlled hunts for nonresidents. If the nonresident maximum is reached, parties composed solely or partially of nonresidents will not receive tags in that particular hunt.

Correcting Errors or Changing Applications

If there is an error on your controlled hunt application (incorrect party leader's license number, hunt choice, etc.), or if you need to change your application, you must contact the Controlled Hunt staff by June 1 to have it corrected. **There is no charge for the first controlled hunt application change for each controlled hunt series (200 Series = Elk, 400 Series = Pronghorn, etc.). There is a \$25.00 fee for subsequent application changes to the same hunt series.** Mail a photocopy of your application with the corrections marked to ODFW- Controlled Hunts, 4034 Fairview Industrial Dr SE Salem, OR 97302, or fax to 503-947-6113 or 6117.

Purchasing Tags

Youths who will turn 12 during a season (controlled or general) must purchase their tag prior to the tag sale deadline but may not hunt until they turn 12.

General Season Tags

You may purchase or claim tags directly from a license agent, by mail, or fax before the tag sale deadline.

To purchase or claim by mail or fax, use the application form odfw.com/resources/forms_applications. Be sure to clearly identify which tags you want to purchase and include appropriate fees. If purchasing by mail, fax or via the internet, please remember to allow time for delivery.

General season tags available are:

- Fall Black Bear
- SW Additional Bear (resident and nonresident)
- Cascade Additional Bear (Nonresident)
- Western Oregon Deer
- Cougar
- Additional Cougar
- Deer Bow
- Elk Bow
- Cascade Elk
- Coast Elk First Season
- Coast Elk Second Season
- Rocky Mt Elk First Season
- Rocky Mt Elk Second Season

Controlled Hunt Tags

- Hunters have the option of deciding whether or not they want to purchase the tag for the hunt choice drawn.

- Successful applicants may purchase or pick up tags directly from a license agent, or purchase by mail or fax by the day before the hunt.
- Telephone purchases are not accepted.
- Check the tag purchase deadline to allow plenty of time to complete this transaction.
- To purchase or pick up tags in person, go to a license agent and buy the tag(s) you drew.
- To purchase tags by mail or fax: Make a photocopy of your license, or write your full name and hunting license number on a piece of paper. Include a check, money order, VISA or MasterCard for the tag fee amount and a \$2.00 shipping and handling fee payable to ODFW. If paying by credit card, include the account number, expiration date and signature to authorize charges. **Do not send cash.**
- Mail to:
 - ODFW-Licensing
 - 4034 Fairview Industrial Dr SE
 - Salem, OR 97302;
- or fax payment if using a credit card to 503-947-6117 or 6113.

Notification

Notifications (successful or unsuccessful) will be made available by Feb. 20 (spring black bear) and June 20 (big game). Check draw results by visiting the website (www.odfw.com click **My Hunter Reporting**), calling the ODFW

LICENSES, CONTROLLED HUNT APPLICATIONS AND TAGS

Controlled Hunts 503-947-6102 or 1-800-708-1782 (In Oregon only), or returning to any license agent. It is the hunter's responsibility to verify success in the drawing (ODFW no longer mails postcard notifications) and purchase or pick up any tags by the earliest opening day before the hunt begins, or by the earliest opening date for hunts with split-season dates, including tags obtained with a Sports Pac.

If successful: Tags must be purchased or picked up by the day before the hunt begins. In the case of a controlled hunt tag that is also good for general season, the tag must be purchased or picked up by the day before the earliest hunt or by the earliest opening date for hunts with split-season dates.

If unsuccessful: Hunters may purchase a general season tag and/or purchase leftover tags if available on a first-come, first-served basis.

Controlled Hunt Deadlines

For controlled hunt deadline information, see page 7.

Preference Point System

- Hunters who apply and do not receive their first choice for pronghorn, deer, elk and spring black bear controlled hunts receive a preference point for future controlled drawings for those species.
- All party applicants will receive one preference point for the species listed above if they do not receive their first hunt choice.
- Hunters DO NOT have to apply for the same hunt number in consecutive years to gain points.
- Preference points will be kept on file under a person's Hunter/Angler ID number.
- Failure to consistently use the same ID number can prevent you from being successful in the drawing.
- Party applicant points shall be determined by totaling preference points of all party members and then calculating the average of this total. Average party preference points will be rounded up from .51 and rounded down from .50 to the next whole number (example: 3.51 to 4; 3.50 to 3).
- Drawing a first choice hunt within a hunt series takes the successful hunter's point total back to zero whether or not they purchase the tag, except for those hunters with a Pioneer Angling/Hunting License. Successful applicants with a Pioneer Angling/Hunting License shall have one preference point when they next apply for a tag in that hunt number series. Hunters who successfully draw second or lower hunt choices still receive a preference point for future drawings except in the case of a first hunt choice that is cancelled. (See page 16). Their existing preference point total will also carry over. Hunters who indicate a Point Saver number, one ending in 99, will receive a preference point that will add to any existing points for that hunt series.
- Hunters will not forfeit their preference points if they do not apply for a hunt series for two or more consecutive years. Preference points remain in the system until they are redeemed by drawing a hunt.
- Applicants who have their license suspended by legal action will forfeit all preference points.
- Youth participating in the Mentored Youth Hunting Program will receive one mentored youth preference point for each year they register for the program. See odfw.com/education/mentored_youth.

Point Saver Hunt Numbers

Point Saver hunt numbers give hunters a preference point and maintain existing preference points. If you do not plan to hunt in a controlled hunt series, you can apply for a Point Saver to gain a preference point. You can still hunt during general seasons and/or purchase leftover tags if available. You can also apply for an emergency hunt in addition to general, controlled hunt and/or leftover tags.

How to Apply: (see odfw.com/resources/hunting/big_game/controlled_hunts/#how for controlled hunt application procedures).

- You must have a hunting license.
- Apply by the appropriate deadline (Feb. 10 for 700 series black bear; May 15 for all other hunt series). Or, you may purchase one Point Saver for the current year, for each series from July 1 through Nov. 30 if you did not apply during the controlled hunt drawing for that series.
- Select the Point Saver number for the appropriate hunt series (1 hunt series per application).
199 for Buck Deer
299 for Elk
499 for Pronghorn Antelope
699 for Antlerless Deer
799 for Spring Bear
- You CANNOT apply for other hunt choices within the same series if using the Point Saver number.
- Youth applying for a Point Saver CANNOT apply for a First Time Youth tag in the same series later in the same year.
- Youth nine years of age or older are eligible to apply for point savers provided they have a social security number, a hunter/angler ID number and purchase a hunting license.

How the Drawing Works

- The computer assigns each application a 10-digit random number. Members of the public pick a 10-digit number at random for each hunt series. Those random starting numbers are used by the computer to select successful applicants.
- Hunting parties are maintained by the computer and only the party leader's 10-digit number is used in the drawing.
- The controlled hunt drawing allocates 75% of first choice available tags for a hunt to applicants with existing preference points. The remaining 25% will be drawn randomly from a pool of all applicants. This step ensures that all applicants have some chance of drawing a tag each year they apply.
- All applicants are grouped by preference points and then arranged by 10-digit random number within preference point group. Applicants with the highest number of preference points for each hunt number will be drawn first. Applicants having the next highest number of preference points per hunt number will be drawn next. This tag issuance process will continue through descending numbers of preference points until 75 percent of the tags authorized for the hunt have been issued, or all applicants with preference points have been issued tags.
- Tags are awarded in each preference point group beginning with the applicant whose 10-digit number matches (or is closest to and above) the start number.
- The selection continues with the applicant

having the next higher number and continues until 75% of available tags are awarded or until all first-choice applicants have received tags. Any remaining tags from the 75% will be added to the 25%.

- Then all remaining applicants are rearranged solely by 10-digit random number to award the remaining tags (25% of total available).
- All applicants in a hunt series are grouped by first hunt choice. Tags are assigned to first choice applicants as above until all tags are assigned or all first choices are filled. Tags are only assigned to second choice applicants after all first choices have been filled.
- Selection is still based on the draw numbers described above.
- This sequence is followed for 3rd, 4th and 5th choices. Preference points do not apply to 2nd or lower choices.

Leftover Controlled Tags

Leftover tags for hunts with fewer applicants than there are tags will be sold on a first-come, first-serve basis beginning at 10 a.m. (Pacific time) on Mar. 15 for black bear and July 1 for all other big game series until all tags are sold as follows:

- Hunts having leftover tags may include: Controlled Deer hunts (100 series), Controlled Elk hunts (200 series), Controlled Pronghorn Antelope (400 series), Controlled Antlerless

Deer (600 series) and Controlled Spring Bear (700 series).

- Only hunts with more tags than applicants (including 1st, 2nd, 3rd, 4th and 5th hunt choices) in the Controlled Hunt Drawing will qualify. Tags awarded through the controlled hunt drawing, but not claimed or purchased will not be included or available for sale.
- Tags from "unlimited" tag hunts, hunts where the tag is also valid during a general season and some hunts where access is limited may be excluded from the first-come, first-serve process.
- A list of hunts and available leftover tags for sale on a first-come, first-serve basis will be made available at license agents and ODFW offices by Mar. 15 for spring bear and July 1 for all other big game species.
- Leftover tags except LOP tags may only be purchased in person at license agents or ODFW offices. Mail orders and faxes will not be accepted for leftover tags.
- Leftover LOP tags may only be purchased through the Controlled Hunts office.
- Only one leftover tag may be purchased per person per hunt series.
- Leftover tags are in addition to General Season, Controlled Hunt, or LOP tags you may purchase in a series.
- Leftover tags MUST be purchased by the day

before the earliest opening date.

- Leftover tags purchased by youth do not impact their eligibility for "First Time" tags in that series.
- Leftover tags will be sold at the regular price for the current hunting season. However, leftover tags may be sold at a price up to four times the regular amount in the future.
- No preference points will be given or taken away when purchasing leftover tags.

LICENSES, CONTROLLED HUNT APPLICATIONS AND TAGS

Cancelled Hunts

- Information about any cancelled hunts will be made available to the general public by Apr. 15.
- A postcard will be sent to all applicants who apply for a hunt that is cancelled by Apr. 15, stating the hunt applied for has been cancelled and the following options are available:
 - » Option 1 - The second hunt choice becomes first choice. If a hunter is successful in the draw, no preference points are awarded and existing preference points will return to zero. If unsuccessful, applicants will receive a preference point.
 - » Option 2 - Request an application change for another hunt at no additional cost through the Salem office (submit through mail, fax, etc.), or for a Point Saver at no additional cost.
 - » Option 3 - Withdraw application with refund, receive no preference point.
 - » If ODFW does not receive notification from an applicant, Option 1 will be chosen.

Nonresident Applicants

- A maximum of 3% of tags for pronghorn antelope and black bear hunts and a maximum 5% of tags for controlled deer and controlled elk hunts can be issued to nonresidents. No less than 5% and no more than 10% of all bighorn sheep and Rocky Mt goat tags will be issued to nonresidents. Less than the maximum percentage may be issued, as nonresident applications receive no preference other than existing preference points in the drawings. The Guides and Outfitters Program impacts the number of nonresident tags available in the drawing.
- Parties will not be split if the nonresident maximum is reached for any hunt.
- Parties composed solely or partially of nonresidents will not be eligible to receive tags in a hunt after the nonresident maximum is reached.

Nonresidents Black Bear Application Procedures

1. Applicants must provide the following information: full name, current address, date of birth, Social Security number, Angler/Hunter I.D. (if known) and telephone number. (See [odfw.com/resources/forms_applications](https://www.odfw.com/resources/forms_applications) for mail order form).
2. Applicants must include fees of \$15.50 per tag and \$160.50 for a nonresident hunting license (if not already purchased), with the application.
3. Applicants shall specify areas for which they are applying in order of choice. Nonresident bear hunters may obtain one general season nonresident bear tag for a specified area and one additional nonresident bear tag valid for specified

areas of southwest Oregon.

Controlled Hunt Information

The computer-assisted telephone line allows hunters to access preference point information or to check the status of their applications, by entering their ID number and selecting the type of information desired. You can also access this information on our website at www.odfw.com. Controlled Hunt staff will also be available during regular business hours.

Controlled Hunts

1-800-708-1782 (In Oregon only)

Guides And Outfitters

As enacted by the 1997 Oregon State Legislature, the Guides and Outfitters Program provides guides and outfitters with the opportunity to market nonresident tags. A number of tags equal to one-half the nonresident tags drawn in the previous year are available through this program. Guides certified by the Oregon State Marine Board submitted applications and competed for the right to market these tags. Tags not sold to guides by Apr. 15 are available in that year's big game drawing. Information on Guides and Outfitters can be obtained from Oregon State Marine Board in Salem, 503-378-2519.

Emergency Hunts

An emergency hunt is a hunt held on short notice to address acute agricultural or reforestation damage. Most game damage situations are addressed during the annual big game seasons and ODFW anticipates very few emergency hunts during any year. Emergency hunt bag limits are in addition to any animals harvested during general seasons, controlled hunts, or leftover hunts.

When to Apply: Applications received between July 1 - July 31 will be randomly assigned to lists. After July 31, names will be placed on lists in the order received.

How to Apply: Emergency hunt participants are selected from a list established on a county-by-county basis. You may apply for one county only. Applicants can request an emergency hunt application from the headquarters office, any regional office or some district offices, or apply online at <https://fwpubapps.dfw.state.or.us/EmergencyHunt>. Hard copy applications must be submitted to the headquarters office of ODFW, 4034 Fairview Industrial Drive SE,

Salem, Oregon 97302.

Who May Apply: Hunters 12 years and older at the time of application are eligible. Persons under 18 must be accompanied by a responsible adult (age 21 or older) while hunting.

Disqualification: Applicants submitting more than one application will be disqualified. Application forms that are incomplete or illegible will be disqualified.

Landowners: Landowners are eligible to receive Landowner Preference (LOP) tags to hunt on their land within emergency hunt areas. See the ODFW website for details.

Notification for Emergency Hunts: Individuals listed for a county in which a hunt is to be held will be notified by telephone and given instructions on when and where to check in for the hunt. Individuals unable to meet the time schedule will be bypassed, but will retain their position on the list. Individuals participating in a hunt will be removed from the list.

Emergency Hunt Tags: Hunters must possess a valid hunting license and Emergency Hunt Tag issued by ODFW personnel. Hunters must check in and out of the hunt area as directed by ODFW personnel. Successful hunters must:

- Tag the harvested animal immediately;
- Contact the ODFW office that authorized the hunt; and
- Pay a fee equal to the regular tag fee for that species.

Uniformed Services Active Duty Controlled Hunt Tags

Oregon's active duty members of the uniformed services stationed outside of the state can obtain a controlled deer, elk, or spring bear hunt tag if they return to Oregon on leave during the season so they can hunt with their family and friends. To qualify for these tags the individual must be from Oregon, currently stationed outside of the state, and maintain Oregon residency.

- Tags will be issued on a first-come, first-served basis until the authorized number of tags have been issued.
- All hunt specific regulations for the hunt where a tag is issued will apply.
- Tag recipient must pay the standard resident price for the tag.
- For further information please contact an ODFW District Office to make an appointment.

Landowner Preference Program (LOP)

How to Apply: Landowners must register, file tag distribution forms and purchase controlled hunt applications prior to the deadlines below. Only one representative landowner, or stockholder of a corporation or Limited Liability Company (LLC), or representative partner of a partnership may register. Registration packets may be obtained by contacting any local ODFW office, or by contacting the ODFW Controlled Hunt office in Salem at 503-947-6100.

Landowner tags are not issued automatically upon filing of tag distribution forms. All landowners and eligible applicants must purchase controlled hunt applications prior to the deadlines specified below. Applicants for LOP tags must indicate a landowner preference hunt choice on their applications.

Deadlines for submitting LOP registration and tag distribution forms and LOP controlled hunt applications are in the table below.

If applying for LOP tags in the big game drawing, you have the option of applying for up to five hunt choices plus LOP or applying for LOP only.

If applying for controlled hunt tags, or if applying for a limited landowner deer or elk tag (see following note), all forms and applications must be received by May 15 for the June drawing.

Note: LOP tags are not available for the long duration (August 1 – December 31) or the Melrose 223T (August 1 – March 31) youth elk hunts. In certain hunts LOP tags will be limited. In these hunts LOP tags will be limited to five tags or 10% of the total controlled hunt tags, whichever is greater. **This limitation applies to all mule deer buck hunts in Units that are below population management objective.** The list of affected mule deer buck hunts will be available starting May 1 of each year. Additionally, some elk hunts and some additional buck deer hunts will be limited. The affected elk hunts are: 226R, 226Y, 248A1, 249A1, 250X, 251A, 252A1, 253X, 254R1, 254Y1, 255R1, 255Y1, 256R1, 256Y1, 259Y, 261X, 262X and 263X. The affected additional buck hunts are: 141C, 142B, 154C, 156R2, 165R, 168R2, and 170R3. For more information call Controlled Hunts at 503-947-6100 or online at www.ODFW.com. Pronghorn antelope hunts with an either-sex or a one doe or fawn bag limit occurring on a landowner's registered property are also eligible. If an applicant is successful in receiving a LOP pronghorn antelope tag for a hunt with an either-sex bag limit, the LOP tag is automatically issued with a bag limit of one doe or fawn.

The number of tags allowed per hunt series is based on registered landowner acreage.

TAG	ACREAGE	HUNT TYPES
2	40 ¹	All hunts except pronghorn antelope, eastern Oregon buck or either-sex deer and eastern Oregon bull and either-sex elk hunts

NOTE: It is the applicant's responsibility to be familiar with their local postal service; mail may not be postmarked the same day it is delivered to their local U. S. Post Office.

¹ All landowners must submit tag distribution forms by specific deadlines above to be eligible for LOP tags.

² If hunt begins prior to Sept. 15, controlled hunt applications, registration forms, and tag distribution forms must be received before earliest opening date.

³ For hunts with more than one hunt period, the tag purchase deadline is the day before the earliest opening date.

⁴ LOP tags are only available for hunts with "doe or fawn" or "either sex" bag limits. LOP pronghorn antelope tags are only available to landowner, stockholder(s), partner(s), and their immediate family.

PREMIUM HUNTS

Application Deadline Date: May 15, 2017. No party applications. A separate application is required for each species. Hunters may only submit one hunt application per premium hunt species.

Tag Sale Deadline: The day before the hunt begins.

Hunt Area: Entire Wildlife Management Unit or Units unless indicated with an asterisk (*).

Please refer to hunt descriptions. Additionally, some private lands may be closed to all hunting.

Features:

- Premium Hunt deer tags are good for any species of deer for which there is a hunt in the unit
- Standard application fee for each species
- No Preference Points
- No Landowner Preference tags
- No Guides and Outfitters tags
- Extended season, either sex opportunity.

NOTE: see pages 104-107 for specific area closures.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

Raffle Rules:

- Residents and nonresidents may purchase raffle tickets.
- **Incomplete or altered tickets will not be accepted.** All tickets must include a name, address, and telephone number. If this information is not pre-printed on your ticket, you must write it in. Deer and elk tickets must also include a hunt choice selection.
- **All raffle ticket sales are non refundable.**
- Space will be provided on the raffle ticket to designate the tag to another person. To designate the ticket to another person you must include both the first and last name of the designated tag recipient. If these are not included prior to submitting the ticket, the tag will be automatically designated to the entrant named on the pre-printed portion of the ticket.
- Each tag will be issued to the designated tag recipient on the winning ticket and cannot be transferred.
- All raffle hunts are in addition to controlled and general season tags.
- There is no limit on the number of tickets entered by any one individual.
- One winner and two alternates will be drawn for each raffle hunt.
- If an individual is drawn as the winner of

more than one hunt for the same species, the department will issue that person the first raffle tag drawn for that species.

- Individuals who purchase a deer auction tag are not eligible to win a deer raffle tag (and vice versa); individuals who purchase an elk auction tag are not eligible to win an elk raffle tag (and vice versa).

How to Purchase Raffle Tickets:

- Raffle tickets can be purchased from any point of sale agent, online at www.odfw.com/online_license_sales, or by mail/fax using the order form on page 23 by May 1, 2017. Deer and elk 40 and 100 ticket packages will only be available through the Salem headquarters or by mail/fax order.
- Tickets will be pre-printed with the name, address, and telephone number associated with the hunter ID provided to the point of sale agent or entered on the order form. To have these tickets mailed to a different address, you must complete the "mail to" section on the order form.
- For deer and elk tickets: You have the option to pre-print your hunt choice on your raffle tickets.
 - If you choose to have your tickets pre-printed with a hunt choice, the choice

must be made on a per-package basis.

- If you wish to make multiple hunt choices on different tickets from the same package, you must choose "No Hunt Selection". You must then manually mark your hunt choices before submitting the tickets.
- You must indicate the number of packages that you would like to be printed with a particular hunt choice.
- Any raffle ticket submitted without a hunt choice selected (either pre-printed or manually marked) will not be accepted.
- For combination deer & elk, bighorn sheep, pronghorn, or Rocky Mountain goat tickets:
 - There are no regional hunt choices to select for these hunts.
 - The combination deer & elk tag is a statewide hunt. Raffle bighorn sheep, pronghorn and Rocky Mountain goat tags are valid anywhere there is an authorized season and tags for the respective species.
- A summary of raffle tickets sold can be found at: www.OregonRaffleHunts.com. This information will be updated as it is available.

Wolves In Oregon

Gray wolves are currently protected statewide through the Oregon Wolf Conservation and Management Plan. West of Oregon Highways 395/78/95, they are also federally listed as endangered under the federal Endangered Species Act. It is unlawful to kill any wolf in Oregon, except for livestock producers in certain situations.

In December 2015, Oregon's wolf population consisted of a minimum of 110 wolves, including 11 packs in northeastern Oregon and 1 pack in the southern Cascades. As of August 2016, wolves are resident in portions of Baker, Grant, Lake, Jackson, Klamath, Umatilla, Union, and Wallowa counties, but wolves or wolf sign could potentially be observed anywhere in Oregon.

Wolf Sign

Please report wolf sightings or sign online at www.odfw.com/wolves.

Dog, coyote, and cougar paw prints can be mistaken for wolf tracks. Adult wolf prints are much larger than dog and coyote prints. See graphic below.

Wolf scat varies widely, depending on diet. Wolf scat is often cord-like and may contain hair and bone fragments. Wolf scat diameter ranges from 0.5 to 1.5 inches, but is usually greater than an inch. Wolf scat generally tapers to a point at one end.

The howls of wolves tend to be long and drawn-out as compared with the shorter, higher-pitched yapping sounds made by coyotes. Howling is a normal part of wolf communication and does not indicate aggression. Wolf vocalizations can also include growls and barks. Barks are not necessarily a sign of aggression; they may indicate a den or feeding site is nearby. Like other Oregon carnivores, wolves tend to be very timid and avoid detection by humans. See the graphic below to help identify wolves vs. coyotes.

Reduce Conflict Between Wolves and Hunting Dogs

Wolves are by nature territorial and guard their territory from other canids, including domestic dogs. Hunters who use dogs in wolf country can take the following steps to limit potential conflicts between their dog(s) and a wolf:

- Keep dogs within view.
- Place a bell or beeping collar on wider ranging dogs.
- Talk loudly to the dog or other hunters or use whistles.
- Control the dog so that it stays close to you and wolves associate it with a human.
- Place the dog on a leash if wolves or fresh sign are seen.

Feral Swine

Feral swine are an invasive non-native introduced species in Oregon that destroy important wildlife habitat and may prey on

livestock and native wildlife, with potential to transmit diseases to wildlife, livestock and humans.

Feral swine are included in the Oregon Invasive Species Council's list of "100 Worst List" to keep out of Oregon. It is very important to the Oregon Department of Fish and Wildlife, the US Department of Agriculture and the Oregon Department of Agriculture to eliminate this invasive non-native species before they become established.

It is legal to hunt feral swine year round on public land with a hunting license and there is no harvest limit. On private property, feral swine are defined as a "predatory animal". Hunting feral swine on private land does not require a hunting license, but you must have landowner permission to act as their agent. It is your responsibility to determine if any swine found meet the definition of "feral swine" (see definitions page 94).

Drought, Fire and Hunting

ODFW will not close hunting seasons as a result of fire danger or active fires. Fire danger or active fires may cause Rd closures or result in use restrictions that impact camping, burning, wood cutting, hunting and other activities. When drought leads

to severe fire danger, hunters may not be able to camp in their favorite camp site, may have to hike farther to reach favorite hunting areas, or may have to hunt new areas. Those that traditionally cook with open fires should prepare to cook with gas stoves. In the unlikely event that all access for hunting in a hunt area has been closed as a result of fire danger or an active fire, ODFW will evaluate the situation after the season(s) closes. If ODFW determines hunters lost their opportunity to hunt, a number of options may be available to provide compensation. Available options will depend on the season, timing, duration and extent of fire related impacts for individual hunts. For information on fire restrictions and closures of private land, visit Oregon Department of Forestry Fire Restrictions and Closures page (<http://www.oregon.gov/ODF/Fire/Pages/Restrictions.aspx>).

Hunting and ATV's Responsibility or Regulation?

The Choice is Yours! Nobody likes regulations; but if irresponsible ATV use continues to cause unacceptable impacts, then regulations will become necessary to ensure protection

IDENTIFICATION OF WOLVES AND COYOTES

Remember, wolf pups in the mid-summer and fall can closely resemble coyotes, and it can be difficult to tell them apart. While hunting coyote in wolf country, you should not shoot unless you are sure of your target.

Coyotes:

- Weight: 15-30 Pounds
- Shoulder Height: 1 1/2 Feet
- Snout/Muzzle: Long and Pointed
- Ears: Long and Pointed

Wolves:

- Weight: 70-100 Pounds
- Shoulder Height: 2 1/2 Feet
- Snout/Muzzle: Large and Blocky
- Ears: Short and Rounded

of public lands. A better alternative would be for ATV users to recognize the impacts their activity can cause and voluntarily take steps to reduce those impacts. ATV users are not unique in this respect - as more and more people use public lands for recreation, the potential impacts of these activities are growing fast.

Road Closures

There are a number of reasons why some modes of travel are restricted on public lands. Reasons for restricting travel include:

- Wildlife and Habitat Protection
- Minimize Conflict Between Users
- Public Safety
- Resource Protection
- Legal Mandates
- Fire Protection

Oregon Off-Highway Vehicle Laws

All ATVs operating on public lands must display an Oregon ATV Operating Permit. Please refer to the Oregon Parks & Recreation website for more information: www.oregon.gov/OPRD.

Permits can be purchased over the telephone, through many Oregon State Parks and Recreation Dept. offices or at one of their 200 vendors. A current vendor list is available online at www.oregon.gov/oprd/ATV/pages/permit_vendors.aspx. For more information or to purchase a permit over the telephone, call 1-800-551-6949.

Refer to page 27 of this publication for hunting and ATV regulations.

Reduce ATV Impacts

What you can do to reduce ATV impacts:

- Know the vehicle use regulations for the area you are hunting and respect road and area closures.
- Avoid the use of ATVs in wet areas or during wet conditions. Even though the lighter weight and low-pressure tires reduce impacts, ATVs can still do serious damage to wet areas.

US Forest Service (USFS) Motor Vehicle Use Plan

Statewide, the USFS is shifting to new Motor Vehicle Use Plans for each Forest. Under these plans, roads are closed unless designated open on the USFS Motor Vehicle Use Map. In the transition there will be situations where an existing Cooperative Travel Management Area (TMA) open road system does not exactly match the new USFS Vehicle Use Map.

Unless the USFS or Department has vacated a TMA agreement, the TMA as described in the Big Game Regulations remains in affect. As part of the TMA, or for administrative purposes, roads may be posted as closed in addition to those designated as closed on the USFS Motor Vehicle Use Map.

The Department will be working with the

USFS and OSP at State, Region, and District levels for smooth transitions to the new USFS Vehicle Use Plans.

Interesting Facts

- Since 1995, the number of All Terrain Vehicles (ATVs) in Oregon has increased fivefold. There are now over 129,000 valid ATV Operating Permits in the state.
- Studies have shown that the harvest of bull elk increases with increased hunter access. Eventually this can lead to reduced hunter opportunity.
- Elk use declines in areas with adjacent roads open to motorized vehicles.

Objects And Cultural Sites

Many Indian artifacts and all Indian burial sites are considered sacred within Oregon's Native American culture and serve as important links to the past. The Oregon Legislature has recognized the importance of these sites and artifacts by passing laws that specifically protect these areas and items. Digging up cultural sites is against the law. Taking human remains or sacred objects from a site can lead to serious penalties. State and federal laws covers both private and public

land in Oregon. The state law can be found in Oregon Revised Statutes (ORS) Chapters 97, 358 and 390.

If you should find any Native American artifacts while out hunting, stop and look around. **Remember, don't disturb these sites.** Respect and honor these sites for what they mean to Oregon's Native Americans and to Oregon's rich cultural background.

A WILDLIFE AREA PARKING PERMIT IS REQUIRED

Display your parking permit at wildlife areas

Don't forget to display the parking permit that comes with your hunting license on your vehicle at the following wildlife areas:

- | | | |
|------------------|------------------------|-----------------|
| • Coyote Springs | • Irrigon | • Power City |
| • Ken Denman | • Jewell Meadows | • Sauvie Island |
| • EE Wilson | • Klamath | • Summer Lake |
| • Elkhorn | • Ladd Marsh | • White River |
| • Fern Ridge | • Phillip W. Schneider | • Willow Creek |

A free annual permit comes with the purchase of an annual hunting license, combination license, or Sports Pac. All other wildlife area users need to purchase a permit. Permits are available where fishing and hunting licenses are sold and on the ODFW website (www.odfw.com).

HUNTERS: RETURN RADIO TRANSMITTERS

Radio transmitters used on deer, elk and other big game animals are property of ODFW. These transmitters store valuable information and are re-usable. It is legal to harvest an animal with these transmitters. Please call your local ODFW office if you harvest an animal with a transmitter or find a transmitter.

We thank you for your cooperation.

General Weapons Provisions for Hunting Game Mammals:

Centerfire firearm

- Fully automatic firearms prohibited.
- Semiautomatic rifles with a magazine capacity greater than five cartridges prohibited (except for western gray squirrel).
- Military or full-metal jacket bullets in original or altered form prohibited.
- Hunters may use any muzzleloader with any ignition type, except matchlock, any legal sight, any propellant, or any bullet type during centerfire firearm seasons, provided the weapon meets caliber restriction for the species.

Shotgun

- Shotgun is a smooth bore firearm, designed for firing bird shot and intended to be fired from the shoulder, with a barrel length of 18 inches or more and with an overall length of 26 inches or more.
- Shotguns equipped with rifled slug barrels are considered shotguns when used for hunting pronghorn antelope, bear, cougar, deer, or elk when centerfire rifles or shotguns are legal weapons.

Bow

- Broadhead blades must be fixed, unbarbed and at least 7/8" wide (except for western gray squirrel). It is illegal to hunt with or possess mechanical or moveable blade broadheads when hunting game mammals, except western gray squirrel.
- No device secured to or supported by a bow may be used to maintain the bow at full draw.
- No electronic devices may be attached to bow or arrow, except lighted arrow nocks that have no function other than to increase visibility of the arrow are allowed.

GENERAL WEAPONS PROVISIONS FOR HUNTING GAME MAMMALS

- No device that supports or guides the arrow from a point rearward of the bow string when the bow is at rest (undrawn) may be secured to or supported by a bow's riser. Overdraws meeting this restriction are legal during archery seasons.

Muzzleloader

- Scopes (permanent and detachable), and sights that use batteries, artificial light or energy are not allowed during muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only, except for visually impaired hunters who have a visual acuity of $\leq 20/200$ with lenses or visual field of ≤ 20 degrees (a permit is required; please see page 93). Open and peep sights made from alloys, plastic, or other materials that do not have the properties described above are legal sights. Fiber optics and fluorescent paint incorporated into or on open or iron sights are legal.
- During muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only, it is illegal to hunt with jacketed bullets, sabots, and bullets with plastic or synthetic tips or bases. Only the following projectile/bullet types are allowed: a) Round balls made of lead, lead alloy, or federally-approved nontoxic shot material, used with cloth, paper or felt patches; b) Conical bullets made of lead, lead alloy, or federally-approved nontoxic shot material, with a length that does not exceed twice the diameter; c) Lead free copper conical bullets with a length that does not exceed twice the diameter.
- It is illegal to hunt with centerfire primers as an ignition source during muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only.
- It is illegal to hunt with pelletized powders or propellants during muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only. Granular (loose) black powder and black powder substitutes are the only legal propellants during muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only.
- No other firearm may be used for hunting during a muzzleloader-only season. See definition on page 94.
- Muzzleloading firearms with revolving actions are prohibited during muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only.
- For muzzleloader-only seasons and 600 series hunts where there is a weapon restriction of shotgun/muzzleloader only or archery/muzzleloader only, the muzzleloader must have an open ignition. See definition on page 94.

General Hunting Regulations:

Shooting Hours

- Game mammals may only be hunted from 1/2 hour before sunrise to 1/2 hour after sunset.
- Neither landowners nor their agents need a permit from ODFW to spotlight predatory animals (as defined in ORS 610.002) on land they own or lawfully occupy. ODA has authority to define "agent" for purposes of the predatory animal statute. Written documentation is not required. (Predatory Animals means coyotes, rabbits, rodents and feral swine which are or may be destructive to agricultural crops.)

Decoys

- Except for purposes of law enforcement or wildlife management, the use of decoys with moving parts is prohibited for all big game species. This prohibition includes, but is not limited to, decoys with parts that are powered by a motor, battery, human action (for example, cable or pull-string), or the wind. Flexible or adjustable parts that permit placement or adjustment of a decoy but do not otherwise move do not constitute "moving parts". This rule is intended to ban decoys that attract wildlife via movement.

Aircraft, ATVS, Boats, Drones, Vehicles

No Person Shall:

- Hunt any wildlife from a motor-propelled vehicle. Exceptions: 1) A qualified disabled hunter may obtain an "Oregon Disabilities Hunting and Fishing Permit" to hunt from a motor-propelled vehicle except while the vehicle is in motion or on any public Rd or Hwy, or within Cooperative Travel Management Areas. 2) Landowners and their agents can shoot predatory animals from motorized vehicles on land they own or lawfully occupy.
- Hunt within eight hours of communicating with or receiving information on the location of game mammals from a manned aircraft.
- Use drones for the following purposes related to the pursuit of wildlife:
 - » Hunting, trapping, or angling.
 - » Aiding hunting, trapping, or angling through the use of drones to harass, track, locate or scout wildlife.
 - » Interfering in the acts of a person who is lawfully hunting, trapping or angling.
- Hunt within 8 hours after having been transported by helicopter or fixed-wing aircraft to any point other than an established airport adequate for fixed-wing aircraft.
- Shoot at pronghorn antelope from a point within 50 yards of a motor-propelled vehicle, including aircraft. Exception: A qualified disabled hunter may

- obtain an "Oregon Disabilities Hunting and Fishing Permit" to hunt from a motor vehicle except while the vehicle is in motion or on any public Rd or Hwy, or within Cooperative Travel Management Areas.
- Hunt or harass animals from snowmobile, ATV, or passenger vehicles.
- (1) Operate a snowmobile or ATV while carrying a firearm or a bow unless the firearm is unloaded, or with a bow, unless all arrows are in a quiver. (2) Subsection (1) of this section does not apply to a person who is licensed under ORD 166.291 and 166.292 to carry a concealed handgun. (3) As used in this section, "unloaded" means: (a) If the firearm is a revolver, that there is no live cartridge in the chamber that is aligned with the hammer of the revolver; (b) if the firearm is a muzzle-loading firearm, that the firearm is not capped or primed; or (c) If the firearm is other than a revolver or a muzzle-loading firearm, that there is no live cartridge in the chamber. (Violation of ORS 821.240 is a Class B traffic violation).
- Cast an artificial light from a motor vehicle while in possession of a weapon; or cast an artificial light upon a game mammal, predatory animal, or livestock from within 500 feet of a motor vehicle while in possession of a weapon. Exception: Landowners or their agents hunting predatory animals on land they own or lawfully occupy.

GENERAL HUNTING REGULATIONS

Disguising Sex, Waste, Sale

No Person Shall:

- Disguise the sex or kind of any wildlife while in the field or in transit from the field.
- Possess the meat or carcass of any deer, elk, pronghorn antelope, bighorn sheep, or Rocky Mtn goat without evidence of sex while in the field, forest, or in transit on any of the hwy's or premises open to the public in Oregon, except processed or cut and wrapped meat.

- Evidence of sex for deer, elk, pronghorn antelope, bighorn sheep, or Rocky Mountain goat is:

Option 1- Either the animal's scalp which shall include the attached eyes and ears if animal is female; or ears, antlers or horns, and eyes if the animal is male; or

Option 2 - reproductive organs (testicles, scrotum, or penis, if male; vulva or udder (mammary), if female) naturally attached to one quarter of the carcass or to another major portion of meat.

Applies to option 2 only:

* For Hunts with Antler or Horn

Restrictions: if the head is not attached to the carcass, in addition to leaving the testicles, scrotum, or penis naturally attached to one quarter of the carcass or to another major portion of meat, the head or skull plate with both antlers or horns naturally attached shall accompany the carcass or major portions of meat.

* For White-tailed Deer Only Hunts and for Mule Deer Only Hunts: in addition to evidence of sex, (testicles, scrotum, penis, vulva, udder, mammary), either the head or tail shall remain naturally attached to one quarter of the carcass or to another major portion of meat as evidence of the species taken.

- Waste any game mammals or edible portions thereof, except that meat of cougar need not be salvaged. See definition on page 95.

- Sell, trade, barter, exchange, or offer for sale, trade, barter, or exchange, any game mammal or parts thereof except as identified in Oregon Administrative Rule 635, Division 200. If you have questions relative to the sale of wildlife parts, or would like a copy of Division 200 please call your local ODFW office.

Prohibited Methods

No Person Shall:

- Shoot from or across a public Rd, Rd right-of-way or railroad right-of-way, except that persons legally hunting on closed Rds within Cooperative Travel Management Areas are not violating current prohibitions on shooting from or across a public Rd. The same is true for other Rds closed to use of motor vehicles by the public.
- Hunt for or kill any wildlife for another person. Exceptions: a) a visually impaired hunter may obtain an "Oregon Disabilities Hunting and Fishing Permit" which allows a sighted person to assist the permit holder. The accompanying person must have a valid Oregon hunting license and can assist the permit holder by: selecting a game mammal or game bird, aiming the firearm, advising the hunter when to shoot, or shooting a game mammal or game bird on behalf of the hunter. b) an able-bodied companion may accompany any person with an "Oregon Disabilities Hunting and Fishing Permit" and kill any animal wounded by the permit holder. The wounded animal must be killed using a legal weapon for the season and species designated on the tag. That companion must immediately attach the permit holder's tag to the carcass of the animal. A companion dispatching a wounded animal is not required to possess a hunting license or tag. See page 93. c) See odfw.com/education/mentored_youth

for Mentored Youth Hunter Program exceptions.

- Hunt any game mammal with dogs, Except western gray squirrel.
- Use an artificial light for hunting any wildlife, except raccoon, bobcat and opossum provided the light is not cast from or attached to a motor vehicle. This includes laser sights or any other sights which project a beam to the target. This does not include battery operated sights which only light the reticle.
- Hunt any wildlife with infrared or any other night vision sight.
- Take game mammals with trap or snare.
- Use any poisoning, immobilizing, or tranquilizing drug or chemical to hunt or kill any game mammal.

Trespass

No Person Shall:

- Hunt on cultivated or enclosed land of another without permission. Enclosed land may be bounded by a fence, ditch, water, or any other line indicating separation from surrounding territory. In addition, be aware that under ORS 105.700 you can be liable to the landowner for civil restitution if you trespass on land that has been posted. Refer to the above statute for options landowners may use to post their land.

Hunting Prohibited

No Person Shall:

- Hunt with a centerfire or muzzleloading rifle without a valid used or unused deer or elk tag for that time period and area on your person (see exceptions) during: standard Eastern Oregon controlled buck deer centerfire firearm season (Sept. 30 - Oct. 11), Cascade bull elk centerfire firearm season (Oct. 14 - Oct. 20), Coast bull elk 1st and 2nd centerfire firearm seasons, Rocky Mt bull elk or either sex centerfire firearm seasons, or the standard Rocky Mt antlerless elk centerfire firearm seasons (Nov. 18 - Nov. 26). This does not include the controlled W High Cascade (119A) or Hood White Rvr (141A) buck hunts. **Exceptions:** (1) Hunters who have a tag for one of the hunts listed above, or a valid tag for another game mammal controlled hunt that includes all or a portion of the time period and area of the above hunts, may hunt as authorized by that tag and may continue to hunt bear and/or cougar within the time period and area for which their tag is valid (used or unused) provided they have a valid, unused bear and/or cougar tag; used tags must be on the tagged animal and not on the hunters person. (2) Hunters are not required to have an elk tag to hunt bear or cougar in the Applegate WMU during elk seasons. (3) Landowners, or their agent, hunting predators on lands they own or lease may use centerfire or muzzleloading firearms to hunt on such lands; (4) Hunters

ATTENTION STARKEY EXPERIMENTAL FOREST HUNTERS!

Research designed to evaluate the response of elk and mule deer to ATV activity during the hunting season will continue in the Starkey Experimental Forest and Range enclosure in 2017. Successful applicants for hunts 152B, 252D and 252R1 must agree to participate in the research by having a GPS unit (~1.0 lb) on their person during each 5-day hunting season and 5-day pre-hunt period when inside the Starkey enclosure. Hunters should be aware that only green dot roads will be open to ATV use, and road 2120 will be closed to all motorized access beyond Rock Spring in the north half of Starkey. The new changes in ATV and motorized access will be in effect five days before each hunt and through each hunt period. Hunters should also be aware of camping restrictions, which limit camps to within 300 feet of open (green dot) roads. For further details of the ATV project and other related research or to view a map of roads open during the hunts, please visit the following websites (www.dfw.state.or.us or www.fs.fed.us/pnw/exforests/starkey), or contact Scott Findholt at 541-962-6538 or Brian Dick at 541-962-6539. We thank you for your cooperation.

may use .22 caliber or smaller centerfire firearms for hunting coyotes in Juniper, Beatys Butte, Whitehorse and Owyhee Units, in Wagonfire Unit south of Lk Co Rd 5-14 and those portions of the Beulah Unit in Malheur and Baker Cos. during Rocky Mt bull or either-sex elk centerfire firearm seasons. Legal .22 caliber centerfire firearms include common cartridges such as .222, .223, .22-250, .220 Swift and others less than .23 caliber.

- Hunt on any refuge closed by state or federal government.
- Hunt within corporate limits of any city or town; public park or cemetery; or on any campus or grounds of a public school, college, or university or from a public Rd, Rd right-of-way, or railroad right-of-way.
- Hunt game mammals outside any area designated by a controlled hunt tag when such tag is required for that season.
- Take or attempt to take any game mammals or any protected wildlife species of any size or sex or amount, by any method or weapon, during a time or in any area not prescribed in these rules.

Other Restrictions

No Person Shall:

- Hunt in any Safety Zones created and posted by ODFW.
- Take or hold in captivity any game mammal.
- Hold in captivity any wildlife of this state for which a permit is required without first securing a permit.
- Release without a permit any wildlife brought from another state or country, or raised in captivity in this state.
- Resist game enforcement officers.
- Refuse inspection of any license, tag, or permit by an employee of ODFW, any person authorized to enforce wildlife laws, or a landowner or agent of the landowner on their land.
- Refuse inspection of any gear used for the purpose of taking wildlife by an employee of the Oregon Department of Fish and Wildlife, or any person authorized to enforce wildlife laws.
- Hunt protected wildlife.
- Operate or be transported in a motor-propelled vehicle including aircraft not landing on designated air strips in violation of Cooperative Travel Management Area restrictions. Cooperative Travel Management Areas are listed on pages 104-107.
- Disturb or remove traps or snares of any licensed trapper while that person is trapping on public lands or on other land by landowner's permission.
- Take furbearers, except in compliance with furbearing mammal (pg. 94) regulations.
- Disturb, damage, remove, alter, or possess any official ODFW signs.
- Possess the horns of bighorn sheep that were not taken legally during an authorized season.

- Sell, lend, or borrow any big game tags.
- Knowingly provide false information to the Department or Commission on any report required by law.

Tagging, Possession and Transportation

- The owner of a game mammal tag that kills a game mammal for which a tag is issued, shall immediately remove in its entirety only the month and day of kill and attach the tag in plain sight securely to the game mammal. The tag shall be kept attached to such carcass or remain with any parts thereof so long as the same are preserved.
- No person shall have in possession any game mammal tag from which all or part of any date has been removed or mutilated except when the tag is legally validated and attached to a game mammal.
- When a game mammal or part thereof is transferred to the possession of another person, including a meat processor or taxidermist, a written record describing the game mammal or part being transferred and name and address of the person whose tag was originally attached to the carcass and the number of that tag shall accompany such transfer and shall remain with such game mammal or part so long as the same is preserved (see Wildlife Transfer Record Form form on page 84). The original tag should remain with the portion of the animal retained by the hunter.
- All game mammals in possession in the field or forest or in transit more than 48 hours after the close of the open season for such mammal must be tagged by ODFW or Oregon State Police.
- All game mammals or portions thereof shipped by commercial carrier must be tagged by ODFW or Oregon State Police.
- No person shall receive or have in possession any game mammal or part thereof which: (1) is not properly tagged; (2) was taken in violation of any wildlife laws or regulations; or (3) was taken by any person who is or may be exempt from jurisdiction of such laws or regulations.
- No person shall possess or transport any game mammal or part thereof, which has been illegally killed, found or killed for humane reasons, except shed antlers, unless they have notified and received permission from personnel of the Oregon State Police or ODFW prior to transporting.
- Any person who counsels, aids or assists in any violation of the wildlife laws, or shares in any of the proceeds of such violation by receiving or possessing any wildlife, shall incur the penalties provided for the person guilty of such violation.

Parts Ban

Except for the following parts, no person shall import a cervid carcass or parts of a cervid carcass if the cervid was killed in a state or province with a documented case of Chronic Wasting Disease (CWD):

- Meat that is cut and wrapped commercially or privately;
 - Meat that has been boned out;
 - Quarters or other portions of meat with no part of the spinal column or head attached;
 - Hides and/or capes with no head attached;
 - Skull plates with antlers attached that have been cleaned of all meat and brain tissue (velvet antlers are allowed);
 - Antlers with no tissue attached (velvet antlers are allowed);
 - Upper canine teeth (buglers, whistlers, ivories);
 - Finished taxidermy heads.
 - States or provinces with a documented case of CWD are Alberta, **Arkansas**, Colorado, Iowa, Illinois, Kansas, Maryland, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Texas, West Virginia, Wisconsin, Wyoming, Utah, Virginia, and Saskatchewan.
- The department shall add by temporary rule any additional states or provinces when any new cases of CWD arise.
- Illegal parts of a cervid carcass brought into Oregon will be confiscated.
 - Persons may be subject to paying for appropriate disposal of the illegal parts.

Hunter Orange

No person younger than 18 years of age shall hunt with any firearm for any game mammal or upland game bird (excluding turkey) unless the person is wearing in a manner visible from all directions a hat or exterior garment of hunter orange. "Exterior garment" means a shirt, jacket, coat, vest, or sweater. Hunter orange camouflage patterns are acceptable. "Hat" means any head covering.

BEAR REGULATIONS

General Bear Regulations

- Person may harvest one black bear during specified seasons with a general season black bear tag, one black bear with a SW Additional bear tag, one black bear with a controlled or SW limited spring bear tag and one black bear with a leftover controlled spring bear tag (see page 15), if available.
- It is unlawful to hunt with a centerfire or muzzleloading rifle without a valid (used or unused) deer or elk tag for certain time periods and areas; see page 28.
- The number of limited, controlled hunt, and general season tags issued to nonresident black bear hunters is limited to no more than 3% of all tags.
- Using bait to attract black bear and using dogs to locate and tree black bear is prohibited. Applying a scent or attractant to one's body or clothing while worn is not baiting.

Mandatory Check for All Bears

The skull of any bear taken must be presented to an ODFW office or designated collection site; the person who took the animal is responsible to have it presented, within 10 days of the kill to be checked and marked. The skull is required to be checked in for the purpose of inspection, data gathering, tagging and removal of a pre-molar tooth for aging. Skull must be unfrozen when presented for check-in. Check-in at ODFW offices must occur during normal business hours (Mon.-Fri., 8-5) by appointment. Remember to call ahead to make arrangements. When the bear skull is presented at check-in, information that must be provided includes: 1) date of harvest and location of harvest including Wildlife Management Unit, and 2) complete hunter information including tag number as found on the bear tag. HELP OREGON WILDLIFE

Hunters have a long history of supporting and conserving Oregon's wildlife. Continue that tradition by switching to non-lead ammunition. Non-lead ammunition is available for most rifles, handguns and shotguns.

High performance non-lead bullets have the same stopping power as lead, but leave fewer bullet fragments that can be swallowed by scavengers and other wildlife. Switching to non-lead ammunition means eagles, scavengers, other wildlife and humans will not be exposed to lead fragments in game meat.

Lead can be harmful to wildlife and humans. A nationwide ban on lead shot for waterfowl hunting is credited with saving millions of ducks, geese and waterfowl from lead poisoning. Birds of prey, scavengers and other wildlife can be harmed by eating meat containing lead fragments.

**DO YOUR PART TO HELP OREGON WILDLIFE.
GET THE LEAD OUT.**

is on the bear tag; the bear tag, a copy of the tag, or a completed "Wildlife Transfer Record Form" (page 84) are alternatives for providing information. Hunters must still complete mandatory reporting via the internet (www.odfw.com/resources/hunting/reporting) or call toll free at 1-866-947-ODFW(6339).

By counting rings on sectioned and stained teeth, biologists can estimate the age of each bear, and determine if the bear has been 'marked' as part of ODFW's tetracycline study. This information can then be used to estimate black bear populations.

This information is important for black bear management in Oregon. Hunters providing teeth will be notified of the age of their bear once laboratory analyses are complete in about a year. Removing this small

tooth will not affect any taxidermy work you plan to have done with your trophy.

Please collect the reproductive tract from any female bear harvested. Reproductive tracts help the department estimate reproductive rates and litter size of bear in Oregon. Reproductive tracts are easiest to collect when field dressing your bear (see illustration on page 33). Carry a clean sandwich bag and keep the sample cooled or frozen to maintain the quality of this important sample for the department. Reproductive tracts may be delivered to any ODFW field office when you check in your bear.

FIREARM RIGHTS RESTORATION

Gun rights can be restored for many law-abiding citizens with past convictions. Use Oregon's laws to restore your family's hunting tradition. Call or visit us online to schedule a free consultation.

BLACK BEAR - CONTROLLED

Tag sale deadline: The day before the hunt begins.

Controlled hunt application procedures:

Please read pages 12-16. All spring black bear hunts are controlled hunts. The number of hunters is limited and tags are awarded through a public drawing, except the limited SW Oregon first-come, first-served spring black bear hunt.

Bag limit: One black bear, except that it is unlawful to take cubs less than one year old or sows with cubs less than one year old.

Hunt area: Entire wildlife management unit

unless indicated by an asterisk(*). Please refer to hunt descriptions below. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Regulations: Mandatory check for all bears, see page 30. Using dogs to locate and tree black bear is prohibited. Baiting black bear is prohibited.

Note: The “2016 1st Choice Applicants” column is not influenced by preference points; it only indicates the number of first choice applicants for each hunt. Successful individuals may also purchase a 2017 general season black bear tag and a 2017 Southwest Additional bear

tag. Controlled black bear tags not drawn in the February drawing will be sold first-come, first-served beginning Mar. 15 at 10 a.m. Tags purchased in this manner are in addition to other bear tags purchased. Hunters purchasing a SW Oregon spring bear tag prior to the drawing will not be eligible to apply for other controlled spring bear tags or utilize the Point Saver option for spring bear hunts. Hunters planning to apply for other controlled spring bear hunts or a Point Saver should wait until after the drawing to purchase a SW Oregon spring bear tag. Please note there is a limited number of SW Oregon spring bear tags available. **Tag numbers listed are the 2017 tag numbers authorized by the Fish and Wildlife Commission.**

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

COLLECTING THE REPRODUCTIVE TRACT FROM A FEMALE BLACK BEAR OR COUGAR

1. Label a plastic bag with: Tag Number, Date of Kill, Unit Number and Name, County, and Your Name and Address. Ziplock type kitchen or freezer bags work very well for this purpose.
2. Locate the "Y" shaped reproductive tract beneath and slightly ahead of the pelvis or hip bones. It usually is necessary to move some of the intestines and other organs aside to locate the entire tract, including both ovaries and the uterus.
3. Cut the uterus immediately forward of the bladder. Use caution when handling the bladder and cutting the reproductive tract from the body cavity to insure the meat is not contaminated with urine from the bladder.
4. Place the entire reproductive tract in the labeled plastic bag and seal.
5. Preserve specimens by freezing as soon as possible and submit to any ODFW district office or check station.

*Please refer to Cougar Quota Mortality Zones below

General statewide season: Jan. 1 - Dec. 31 or until Zone Mortality Quotas have been met, whichever occurs first.

Open area: Entire state is open. However, specific Quota Zones (defined in table above) will be closed if mortality quotas for the year are met in that zone. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Additional cougar (requires an additional cougar tag): Entire state is open Jan. 1 - Dec. 31 or until Zone Mortality Quotas have been met, whichever occurs first. An "additional" tag may be purchased throughout the season; however, hunters must purchase the general season tag (see tag sale deadlines on page 7) to be eligible for the additional tag.

Bag limit: One cougar per tag, except that it is unlawful to take spotted kittens or females with spotted kittens.

Cougar Hunting Regulations:

No person shall use dogs for the taking or pursuit of cougar. It is unlawful to hunt with a centerfire or muzzleloading rifle without a valid (used or unused) deer or elk tag for certain time periods and areas; see page 28.

Any cougar taken must be presented at a Department of Fish and Wildlife office within 10 days of the kill to be checked and marked. The person who took the cougar is responsible to have it presented for check-in. The hide with skull and proof of sex attached are required. Hide and skull must be unfrozen when presented for check-in. Hunters are also required to submit the reproductive tract of any female cougar taken (see illustration on page 33). Check-in must occur during normal business hours (8 a.m. to 5 p.m., Monday-Friday). Please call ahead to make an appointment. When the required parts are presented at check-in, information that must be provided includes: 1) date of harvest and location of harvest including Wildlife Management Unit, and 2) complete hunter information including tag number as found on the cougar tag. Hunter information is on the cougar tag; the cougar tag, a copy of the tag, or a completed "Wildlife Transfer Record Form" (page 84) are alternatives for providing information. Hunters must still complete mandatory reporting via the internet (www.odfw.com/resources/hunting/reporting) or call toll free at 1-866-947-ODFW(6339). See page 4 for more information.

Cougar hunters are reminded that it is mandatory to provide the reproductive tract of

any female cougar taken. The reproductive tract provides valuable information on the number and frequency of kittens born annually in Oregon and is a critical part of ODFW's cougar population models. Carrying a clean, empty sandwich bag while hunting, and keeping the sample cooled or frozen in an ice chest or refrigerator after collection, is an easy way to maintain the quality of this important sample for the department. Reproductive tracts may be delivered to any ODFW field office when you check in your cougar.

Cougar Zones

Refer to WMU boundary descriptions on pages 96-101 for exact boundary locations of each Wildlife Management Unit.

Hunt Zone A, Coast/North Cascades: All of wildlife management units 10-12, 14-18, 20, 24-27, 39, 41 and 42. There are specific weapon restrictions in the parts of the hunt area. See pages 104-107.

Hunt Zone B, Southwest Cascades: All of wildlife management units 19, 21-23 and 28-31.

Hunt Zone C, Southeast Cascades: All of wildlife management units 32-35 and 75-77

Hunt Zone D, Columbia Basin: All of wildlife management units 38, 40 and 43-45.

Hunt Zone E, Blue Mountains: All of wildlife management units 37 and 46-64.

Hunt Zone F, Southeast Oregon: All of wildlife management units 36 and 65-74

Mortality Quotas: Hunt zones will be closed early to cougar hunting if individual zone mortality quotas are reached. For information on quotas that may have been reached, contact an ODFW office near you.

Hunter Ethics

As a hunter, you are responsible to adopt and follow a **personal code of ethics** that reflects your values

and your respect for wildlife, hunting and pass on the sport of hunting to those who come after you. Remember the following points to help ensure the future of Oregon's hunting heritage.

Respect Landowners

- Ask for permission to hunt well before you plan on hunting.
- Leave all gates the way you find them.
- Follow all landowner restrictions.
- Offer to share part of your harvest with the landowner.

Respect the Resource

- Leave the land better than you found it.
- Adhere to fair chase rules.
- Know your capabilities and limitations as a marksman.
- Harvest no more than you will use, and take care of what you take.
- Abide by game laws and regulations.

Report hunting violations to the Oregon State Police at 1-800-452-7888 or dial *OSP (*677).

Respect Others

- Follow safe firearm handling practices and insist your hunting partners do the same.
 - Know what is beyond your target. Shot pellets can be fatal to both people and dogs.
 - Don't interfere with another persons hunt.
 - If mentoring a youth hunter, be sure to pass on safe, responsible and ethical knowledge and skills.
 - Wear hunter orange when hunting.
- Be Safe - Be Seen.**

Cougar management and big game in Oregon

Photo by Brian Wolfer.

Cougar population growth rates have slowed since the 2006 Cougar Management Plan was put into effect

Cougar target areas to help big game

ODFW removed 291* cougars in Heppner, Steens Mtn, Ukiah, Warner, and Wenaha Units to benefit deer or elk populations (*does not include cougar taken by hunters or on damage complaints). The most dramatic results have been in the Heppner and Ukiah Target Areas:

- Elk calf survival doubled
- Ukiah elk population grew by 500 since 2010
- Heppner elk population grew by 2,200 since 2007

Four cougar target areas were implemented in 2016 and will continue in 2017. The East Umpqua target area is addressing conflict with livestock and human safety. The Warner, Steens Mts. and Interstate are designed to help mule deer populations that are continuing to struggle.

OREGON COUGAR MANAGEMENT PLAN

- The 2006 Oregon Cougar Management Plan was reviewed and updated in 2016.

The Heppner Unit elk population rebounded dramatically after the first year of cougar removals. In the last five years, the elk population has risen to slightly above the management objective.

Steve Cherry, District Wildlife Biologist

Cougar research to support management

The ODFW research team has recently published peer-reviewed research on cougar kill rates and prey selection in northeast Oregon, cougar survival rates, and estimating cougar densities using dogs. *Some of what these researchers found in northeast Oregon:*

- Deer and elk made up 95% of the animals preyed on by cougar. Of the deer and elk kills examined:
 - More than 2/3 (69%) were deer, just under 1/3 (31%) were elk
 - Almost 1/2 (47%) of the deer killed were fawns, 3/4 (75%) of the elk killed were calves
 - On average, an adult cougar kills one deer or elk per week (Oregon has an estimated 4,000 adults out of a total cougar population of 6,000)
- High levels of hunter harvest can reduce local cougar populations
- Benefits of target areas can last for several years

Don't forget to buy your cougar tag! most cougar are taken when hunters are pursuing other species. buy a cougar tag and be ready.

PRONGHORN ANTELOPE - CONTROLLED

Tag sale deadline: The day before the hunt begins.

No more than two persons may apply as a party for pronghorn antelope.

Controlled hunt application procedures: Please read pages 12-16. All pronghorn antelope hunts are controlled hunts where the number of hunters is limited and tags are awarded through a public drawing. Hunters should apply for more than one hunt choice. If your first choice hunt is cancelled, you will receive a postcard describing your hunt choice options. See page 16 for further information.

Hunt area: Entire wildlife management unit unless indicated by an asterisk(*). Please refer to hunt descriptions. A map will be sent

if indicated in hunt description by [MAP]. Please note additional closure areas listed on pages 104-107 that may affect your hunt area. Additionally, some private lands may be closed to all hunting.

Other regulations: No person shall shoot at a pronghorn antelope from a point within 50 yards of a motor vehicle including aircraft, except persons that have an "Oregon Disabilities Hunting and Fishing Permit" (see page 93).

Landowner preference tags: Pronghorn antelope hunts with an either-sex or a one doe or fawn bag limit occurring on a landowner's registered property are also eligible. If an applicant is successful in receiving a LOP pronghorn antelope tag for a hunt with an either-sex bag limit, the LOP

tag is automatically issued with a bag limit of one doe or fawn. See page 17 for further information.

Notes:

- The "2016 1st Choice Applicants" column is not influenced by preference points; it only indicates the number of first choice applicants for each hunt in 2016.
- **Tag numbers listed are the 2017 tag numbers authorized by the Fish and Wildlife Commission.**

Pronghorn antelope hunters: See pages 22 for information on the pronghorn antelope raffle hunting opportunity. Nonresidents may purchase raffle tickets.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

BIGHORN SHEEP - CONTROLLED

Tag sale deadline: The day before the season end date. Party applications are not allowed.

Controlled hunt application procedures: Please read pages 12-16.

All bighorn sheep hunts are controlled hunts where the number of hunters is limited and tags are awarded through a public drawing. You may draw only one controlled bighorn sheep ram tag in a lifetime. Hunters previously holding any Oregon bighorn sheep tag (controlled, raffle, or auction) may obtain either the bighorn raffle tag or bighorn auction tag for additional bighorn hunting opportunity. Details on purchasing raffle tickets and auction date/location are listed on pages 20-23.

Hunters should apply for more than one hunt

area. If your first choice hunt is cancelled, you will receive a postcard describing your hunt choice options. See page 16 for further information.

Bag limit: One bighorn sheep ram.

Hunt area: Entire wildlife management unit unless indicated by an asterisk (*). Please refer to hunt descriptions on following page. A map will be sent out if hunt description indicates [MAP]. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Other Regulations: Bighorn sheep taken by hunters must have one horn marked (pinned) by ODFW personnel.

All hunters must check out through the local ODFW office in the district where the hunt

occurs within 72 hours after completing their hunt. Checkout must occur during normal business hours (Mon.-Fri., 8-5) unless prior arrangements have been made. Please call the local ODFW office to make arrangements for checkout.

Notes:

- No less than 5% and no more than 10% of all bighorn sheep tags can be issued to nonresidents.
- Nonresident tags will be issued for the following hunts in 2017: Hart Mt Refuge, E Beaty's Butte/Alvord Peak No 2, S Central No 1, E. John Day Rvr No 2, W John Day Rvr No. 2, Lookout Mt No. 2.
- **Tag numbers listed are the 2017 tag numbers authorized by the Fish and Wildlife Commission.**

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

BUCK DEER SEASONS

 Controlled rifle buck hunting. Closed to all hunting except by controlled tag. See pages 45-48 for controlled hunt opportunities.

 Cascade buck area (General Western Centerfire Firearm Season) Sept. 30 - Oct. 13 and Oct. 21 - Nov. 3. Closed during Cascade bull elk centerfire firearm season.

 Coast buck area - (General Western Rifle Season) Sept. 30 - Nov. 3.

 There are no hunting seasons on NP lands or allotted and/or Tribal lands in these areas.

Note: White-tailed deer are protected in all units west of the eastern boundaries of Santiam, McKenzie, Indigo, Dixon and Rogue units, except for the Umpqua hunts (123A, 123R1) and North Bank Habitat hunts (123B, 123M2, 123R2, 623T1) listed on pages 45, 49, 50, 63.

Note: Tag sale deadline is day before the earliest opening day for a season.

ATTENTION YOUTH HUNTERS: EXTENDED WESTERN OREGON DEER SEASON

To increase youth hunting opportunity, the Western Oregon general buck deer firearm season is extended two days for youth 12-17 years of age. Youth hunters with an unfilled Western Oregon general season deer tag, an unfilled W. High Cascade (119A), or an unfilled Hood-White River (141A) controlled hunt tag may hunt the area of the Western Oregon general deer season Nov. 4-5, 2017. This opportunity is not available to Mentored Youth Hunt Program participants as each youth hunter must have their own tag to participate. The tag sale deadline is Sept. 29. Bag limit: One buck having not less than a forked antler.

DEER - CONTROLLED 100 SERIES HUNTS

Tag sale deadline: The day before the hunt begins.

Controlled hunt application procedures: Please read pages 12-16.

Hunters: Please be sure you have access to a place to hunt before you apply for a tag. Always ask permission first to hunt on private lands, respect these properties and be sure to leave gates as you found them. Many units have road closures that will be in effect during hunting seasons. See pages 104-107 for road closure information.

Controlled deer hunts: You may submit only one application for the 100 series hunt numbers on pages 45-51. Successful applicants who purchase their controlled hunt tag may not purchase a general season deer tag. The W High Cascade (119A) or Hood-White Rvr (141A) centerfire firearm buck hunt, tags allow hunting in general seasons as described in the hunt area descriptions of those hunts.

Hunters should apply for more than one hunt choice. If your first choice hunt is cancelled, you will receive a postcard describing your hunt choice options. See page 16 for further information.

Notes: The “2016 1st Choice Applicants” column is not influenced by preference points; it only indicates the number of first choice applicants for each hunt.

Regulations: It is unlawful to hunt with a centerfire or muzzleloading rifle without a valid (used or unused) deer or elk tag for certain time periods and areas; see page 28.

Note: As a hunter it is your responsibility to ensure the hunts you apply for (all choices in all series) are hunts you want to participate in. It is your responsibility to monitor your preference points, tags allocated to specific hunts, odds of drawing a tag and to ensure the actual area you are interested in hunting is within the hunt boundary and is open

for hunting access. ODFW strives to make all information available to all hunters and ODFW will not reinstate preference points or change tags because the tag you drew is not the one you wanted or expected.

Tag numbers listed are the 2017 tag numbers authorized by the Fish and Wildlife Commission.

Hunt area: Entire wildlife management unit unless indicated by an asterisk(*). A map will be sent if indicated in hunt description by [MAP]. Landowner preference tags available, see page 17.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

Black-tailed Deer Hunters!

The Oregon Department of Fish and Wildlife needs your help by providing teeth from the black-tailed deer you harvest.

The age of the deer taken (as determined by analyzing the teeth) will provide critical information used to develop a population estimate for black-tailed deer in Oregon.

Please be sure to pick up an envelope at any ODFW office or POS license agent to submit teeth from any black-tailed deer you harvest this year.

Instructions on how to properly remove the correct teeth are printed on the tooth envelope.

Thank you for your cooperation in providing this important information.

For more information, the Oregon Black-tailed Deer Management Plan is available on the department Web site: <http://www.dfw.state.or.us/wildlife/>.

The USFS requires a Wilderness Entry Permit for anyone entering the Three Sisters, Mt Jefferson and Mt Washington wilderness areas between Memorial Day and Oct. 31. These permits are free and can be obtained at some trailheads or from offices of the Willamette and Deschutes NFs. Contact the Willamette or Deschutes NF for more information.

Hunt 141A: Hood-White Rvr - 100% public lands. Successful applicants will receive one tag valid for both the Hood-White Rvr hunt and Western Oregon General Deer Rifle season. Hunters who harvest a deer in the Hood-White Rvr hunt may not hunt in the Western Oregon General Deer Centerfire Firearm season. Hunt area: All of units 41 and 42 within the Mt Hood Forest Boundary.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

CONTROLLED 100 SERIES DEER MUZZLELOADER FIREARM HUNTS

Tag sale deadline is day before the hunt begins. For hunts with more than one hunt period, the tag sale deadline is day before the earliest opening date.

Hunt area: Entire wildlife management unit unless indicated by an asterisk(*). A map will be sent if indicated in hunt description by [MAP]. Landowner preference tags available, see page 17. Please note additional closure areas listed on pages 104-111 that may affect your hunt area.

Big Game Firearms Hunts Scheduled During General Bow Seasons

Please be aware that there are big game firearm hunts and upland game bird hunts occurring during archery season. This includes some pronghorn antelope hunts, W High Cascade and Hood-White Rvr deer hunts, most youth elk hunts, general black bear season, general cougar season, most bighorn sheep hunts, all Rocky Mt goat, all Access and Habitat auction and raffle hunts, and all Premium hunts. Consult hunt tables for hunts scheduled during archery seasons.

*Hunt Descriptions

Hunt 123R1: Umpqua Bow - 50% public lands. All of Unit 23 and portions of Units 21, 22 and 24 within Douglas Co (not including the BLM North Bank Habitat Mgt Area). If tag is unfilled after Sept. 25 hunters may continue to hunt in Western Oregon late season bow hunts and must follow the bag limit as outlined on pages 54-55.

Hunt 123R2: N Bank Habitat Bow - 100% public lands. No motorized vehicles allowed within the hunt area. N Bank Habitat Mgt Area (Dunning Ranch) - 6,500 acres located approximately 8 mi northeast of Roseburg. Open Area: BLM lands located in T25S, R5W,

sections 35 and 36; T26S, R5W, sections 1, 2, 11, 12, 13, 14; T25S, R4W, sections 31, 32, 33; T26S, R4W, sections 4, 5, 6, 7, 8, 18. If tag is unfilled after Sept. 25, hunters may continue to hunt in Western Oregon late season bow hunts and must follow the bag limit as outlined on pages 54-55. [MAP]

Hunt 131R: Keno Unit Bow - 41% public lands. All of Unit 31. This tag is not valid for the General Deer Bowhunting Season. This would be your only archery season deer opportunity.

Hunt 156R2: N Wenaha Bow - 90% public lands. That part of Unit 56 beginning at Troy; southwest on Grande Ronde Rvr to Alder Cr; northwest on Alder Cr to FR 62; north on 62 to FR 6413; west on 6413 to FR 64; north on FR 64 to Oregon-Washington state line; east on state line to Grande Ronde Rvr; southwest on Grande Ronde Rvr to Troy, point of beginning.

Hunt 168R1: Trout Cr Mts Traditional - 95% public lands. That part of Unit 68 south of Whitehorse Ranch Rd and west of US Hwy 95. Restricted to long bows and recurve bows only. Compound bows prohibited. [MAP]

Hunt 168R2: SE Whitehorse - 95% public lands. That part of Unit 68 south of the

mainstem of the Owyhee River and east of Hwy 95. This tag is not valid for the General Deer Bowhunting Season. This would be your only archery season deer opportunity.

Hunts 170R1, 170R2, and 170R3: Hart Mt - That part of units 70 and 71 within the boundaries of Hart Mt NAR. Within the refuge boundary are scattered private inholdings; landowner permission is required to hunt these private inholdings. These tags are not valid for the General Deer Bowhunting Season. This would be your only archery season deer opportunity.

Hunt 174R1: N Warner - 60% public land. That part of Unit 74 north of State Hwy 140.

Hunt 174R2: S Warner - 35% public land. That part of Unit 74 south of State Hwy 140.

Vehicles on BLM-managed lands in sage-grouse habitat areas are limited to existing roads, primitive roads, and trails, including existing Special Recreation Management Areas. Areas currently designated closed in applicable management plans will remain closed. Contact your local BLM District office for more information.

DEER REGULATIONS

Columbian White-tailed Deer

Past, Present and Future

Columbian white-tailed deer were first described by early pioneers as a common animal throughout the valleys of western Oregon and Washington.

The Columbian white-tailed deer was first recognized as endangered in 1967 and listed under the Federal Endangered Species Act in 1973 and under the Oregon Endangered Species Act in 1987. Two populations remain; one in the Umpqua Basin near Roseburg and one along the lower Columbia River. Oregon populations recovered sufficiently since listing to be removed from the state Endangered Species list in 1995. Efforts by ODFW, other state and federal agencies, Douglas County and private landowners have led to the removal of the Roseburg population of the Columbian white-tailed deer from the federal Endangered Species List. Management authority for this population has been moved from the federal government to Oregon Department of Fish and Wildlife and continues to be monitored after delisting.

There are no changes to regulations regarding protection of Columbian white-tailed deer at this time. In 2017, six (6) controlled hunts (2 rifle, 1 muzzleloader, 2 archery and 1 youth), which allow the taking of Columbian white-tailed deer will be offered in the Roseburg area. A very limited

number of tags will be offered. White-tailed deer continue to be protected in all Western Oregon except for the Umpqua controlled hunt numbers 123A, 123R1 and North Bank Habitat controlled hunt numbers 123B, 123M2, 123R2, 623T1.

Oregon Department of Fish and Wildlife continues to live trap and transplant Columbian white-tailed deer from Douglas County into parts of their historic range in unoccupied areas of Western Oregon. All of Western Oregon will continue to be closed to hunting Columbian white-tailed deer, except

in the controlled hunt areas near Roseburg. The department anticipates that additional hunting opportunity may be offered in future years if populations remain healthy and new populations are re-established in historic range. For additional information contact the ODFW Roseburg office at 541-440-3353.

A MESSAGE FROM THE OREGON DEPARTMENT OF FORESTRY

Oregon's State Forests are welcoming destinations for a wide variety of hunters. The Oregon Department of Forestry would like to partner with hunters to promote stewardship of forest resources and a positive image of hunting. You can help by planning your visit so that you:

- Leave your campsite better than you found it. Pack out garbage and straw materials used in your campsite, disperse your fire pit, move carcasses into the brush, and make sure any human waste is removed or buried at least 6 inches below the top layer of soil.
- Schedule your trip within State Forest stay limits. The stay limit in State Forests is 21 days out of any 35 day period, with a maximum of 60 camping days within a calendar year. Your stay limit countdown starts when you set up your trailer, tent, or leave personal possessions at a campsite.
- Remember homesteading is for private property. Temporary structures such as canvas outfitter tents are fine but State Forest regulations prohibit building trails, roads and permanent structures such as cabins and outhouses.

Thank-you for partnering with the Oregon Department of Forestry to protect the valuable natural resource that are Oregon's State Forests for all who visit them to enjoy.

DEER REGULATIONS

Controlled 600 Series Deer Hunts

Application Deadline Date: May 15, 2017
Applicants may apply singly or as a party of no more than 18 persons

Tag sale deadline: The deadline is the day before the hunt begins. For hunts with more than one hunt period, the tag sale deadline is the day before the earliest opening date. Favorable winter weather conditions may lead to deer populations exceeding population management objectives in many units. In that case, biologists will recommend antlerless deer hunts where deer exceed the ecological and/or social carrying capacity of a unit. Antlerless deer hunting is an important management tool to keep populations and their habitats healthy. Unanticipated hunts in response to populations exceeding objective will be publicly announced by Apr. 15. All such hunts will have a unique hunt number and will be available for the big game drawing if approved by the Oregon Fish and Wildlife Commission. Most of the antlerless deer hunts recommended for eastern Oregon are in response to specific animal damage situations.

Controlled Hunt Application Procedures: Please read pages 12-16. All antlerless deer hunts are controlled hunts where the number of hunters is limited and tags are awarded through a public drawing. Hunters should apply for more than one hunt choice. If your first choice hunt is cancelled, you will receive a postcard describing your hunt choice options. See page 16 for further information.

Youth Controlled Hunts for Deer: Controlled deer hunts for youth are listed on pages 63-64.

Caution to Hunters: Obtaining a tag does not guarantee a place to hunt! Some hunts in these regulations are composed mostly or entirely of private lands and are printed in red. ODFW tries to design hunts to provide public access; however, in some areas this is not possible. It is the hunter's responsibility to obtain access to hunt on private property. In areas with high percentages of private land, please make sure you have a place to hunt before you apply for a tag.

Hunt Area: Entire wildlife management unit unless indicated by an asterisk(*). A map will

be sent if indicated in hunt description by [MAP]. Landowner preference tags available, see page 17. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Notes:

- The "2016 1st Choice Applicants" column is not influenced by preference points; it only indicates the number of first choice applicants for each hunt.
- White-tailed deer are protected in all units west of the eastern boundaries of Santiam, McKenzie, Indigo, Dixon and Rogue units, except for the Umpqua hunts (123A, 123R1) and North Bank Habitat hunts (123B, 123M2, 123R2, 623T1) listed on pages 45, 49, 50, 63.
- **Tag numbers listed are the 2017 tag numbers authorized by the Fish and Wildlife Commission.**

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

NORTHWEST AREA HUNTS

NOTE: White-tailed deer are protected in all units west of the eastern boundaries of Santiam, McKenzie, Indigo, Dixon and Rogue units, except for the Umpqua hunts (123A, 123R1) and North Bank Habitat hunts (123B, 123M2, 123R2, 623T1) listed on pages 45, 49, 50, 63.

WALLOWA COUNTY IS A HAY QUARANTINE AREA

It is unlawful to transport uncertified hay, straw, or grass (whether baled, chopped, or cubed) into or within, Wallowa County for use on public lands or private lands, except if you have permission from the landowner.

To be legal, feed must meet the certification requirements of the North American Weed Management Association (NAWMA).

The reasons for this ordinance are: noxious weeds are being introduced to big game and livestock ranges; farmers, the county, ODFW, and other landowners area are spending thousands of dollars for weed control/ an effort is being made to reduce

chemical use; and weeds have destroyed major wildlife habitat areas in surrounding states and counties.

Wallowa Co is asking all hunters, campers, and landowners to cooperate in this effort. Hay will be available at the Hay Station in Minam, at Wallowa, Enterprise, and Joseph. The Hay Station will be open three days prior to the Controlled Buck Deer, Second Season Bull Elk, and Controlled Antlerless Elk seasons and four days prior to the First Bull Elk season. For more information call the Wallowa Co Vegetation Manager 541-426-3332; Wallowa Co Extension 541-426-3143; or the Wallowa Mt Visitor Center 541-426-4978.

OREGON DEPARTMENT OF FISH AND WILDLIFE

Youth Controlled Deer Hunts

Tag Sale Deadline: The deadline is the day before the hunt begins. For hunts with more than one hunt period, the tag sale deadline is day before the earliest opening date. The deer hunts listed on pages 63-64 and elk hunts listed on pages 88-89, are part of a program to encourage youth participation in big game hunting.

Controlled Hunt Application Procedures: Please read pages 12-16. Hunters should apply for more than one hunt choice. If your first choice hunt is cancelled, you will receive a postcard describing your hunt choice options. These hunts

are designed to provide young hunters with a safe, well-supervised, low-stress setting where they can enjoy the hunt while building fundamental skills. Youths must be accompanied by an adult at least 21 years of age. Adults may not accompany more than two youths. To apply, hunters must be 12-17 years old at the time they hunt, have completed a hunter education class by the time they hunt (see www.dfw.state.or.us/education/hunter/ for **Hunter Education Requirement**) and possess a hunting license. Youth selected for these hunts will be provided with additional information and recommendations about preparing for the hunt.

See pages 12-15 for application procedures. Hunters should apply for more than one hunt area. use complete hunt number when applying.

Hunt Area: Entire wildlife management unit unless indicated by an asterisk(*). A map will be sent if indicated in hunt description by [MAP]. Landowner preference tags available, see page 17. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

YOUTH CONTROLLED HUNTS

NOTE: White-tailed deer are protected in all units west of the eastern boundaries of Santiam, McKenzie, Indigo, Dixon and Rogue units, except for the Umpqua hunts (123A, 123R1) and North Bank Habitat hunts (123B, 123M2, 123R2, 623T1) listed on pages 45, 49, 50, 63.

Youth First Time Hunt Program

Application Period Begins July 1

(Use application form at dfw.state.or.us/resources/hunting/youth_hunting_opportunities.asp)

Guaranteed Big Game Hunting Opportunities for Youth 12-17 Years Old

The "First Time" program guarantees that youth hunters will be eligible to receive up to three tags: one buck deer (100 series), one antlerless deer (600 series) and one antlerless elk (200 series). It is one of many programs ODFW has in response to increased demand for youth hunting opportunities.

Who May Apply:

- Oregon residents age 12 to 17. See www.dfw.state.or.us/education/hunter for Hunter Education requirements. Youths 11 years old may apply if they will be 12 by the time they hunt. Youths may not hunt with "First Time" tags once they turn age 18.
- To qualify for the "Youth First Time Hunt Program" the youths must have applied in the Controlled Hunt Drawing for a hunt in hunt series 100, 200, or 600 (deadline May 15; see page 12) and been unsuccessful in the drawing. Qualified applicants must submit a "First Time Hunt Application," see dfw.state.or.us/resources/hunting/youth_hunting_opportunities.asp or call 503-947-6100 for application and details. **If in a previous year, the youth has been successful in one of the following hunt series 100, 200 or 600 they are no longer eligible to participate in the "Youth First Time Hunt Program" for that hunt series.**

Important: The youth "first time" hunt program is not limited to just controlled youth hunts; however not all hunts are included in the program. Each hunt must meet a minimum tag allocation to be available to "First Time" hunters:

Hunt Series.....	Min. Tag Level
Buck Deer (100 series)	at least 201 tags
Elk (200 series)-antlerless only.....	at least 51tags
Antlerless deer (600 series).....	at least 51 tags

How it Works:

- If youth meet the criteria above, mail or fax a Youth "First Time" Program Hunt application (see dfw.state.or.us/resources/hunting/youth_hunting_opportunities.asp for application) to request a tag of their choice (TAG NUMBERS FOR THE HUNT MUST MEET THE MINIMUM TAG AUTHORIZATION LEVEL). No additional fee is required for this application.
- Applications must be received before the hunt begins.
- Enter up to five hunt choices per hunt series to ensure receipt of an eligible hunt (see min. tag level, per hunt series above).
- Youth will be assigned a tag in the first eligible hunt listed and be able to purchase the tag from a license agent a few days after their application is processed.
- Tags must be purchased by the day before the season starts.

Important Things to Know:

- A youth loses eligibility for a "First Time" tag in a hunt series once they are successful for any hunt choice in that series (including

youth hunts and LOP tags), except for leftover tags.

- Preference points will not be lost if participating in the "First Time" program.
- Youth that have applied for Point Savers in the same hunt series for the same year are NOT eligible for a guaranteed "First Time" tag.
- Applications must be received before the hunt begins.
- Adults who apply in a party with a youth in the controlled hunt drawing and are unsuccessful will not receive tags if the youth requests a "First Time" tag.
- Youth can use their "First Time" options in any combination (all in one year, one per year, skip years between tags).
- Youth can hunt in general seasons and use leftover tags if available without losing eligibility for "First Time" tag. However, "First Time" tags are not extra tags. Youth are still limited to the maximum number of tags per species (series) per year. For example, a youth can possess only one controlled buck deer tag or one general rifle deer tag or one general bow deer tag and one leftover tag if available.
- Other hunters with appropriate tags may hunt with youth.
- **Youths participating in the "First Time" program are not eligible to participate in the Mentored Youth Hunter Program for that particular hunt for that year.**
- For more information, call 503-947-6100.

ELK REGULATIONS

A "spike only" bag limit applies in some hunts. The sketches below show some antler configurations you may encounter in the field. Please use caution and judgement when selecting your target.

ELK REGULATIONS

Controlled 200 Series Elk Centerfire Firearm

Application deadline date: May 15, 2017
Applicants may apply singly or as a party of no more than 18.

Tag sale deadline: The day before the hunt begins.

Controlled hunt application procedures: Please read pages 12-16. Hunters should apply for more than one hunt choice. If your first choice hunt is cancelled, you will receive a postcard describing your hunt choice options. You may submit only 1 application for elk (200 series) hunts. This may include bull, either-sex, or antlerless elk (200 series) hunts. Successful applicants who purchase their controlled elk hunt tag may not purchase a general season elk tag.

Caution to hunters: Obtaining a tag does not guarantee a place to hunt! Some hunts in these regulations are comprised mostly or entirely of private lands and are highlighted in red. ODFW

tries to design hunts to provide public access; however, in areas where this is not possible, it is the hunter's responsibility to obtain access to hunt on private property. Refer to pages 104-107 for Rd closure information.

Note: The "2016 1st Choice Applicants" column is not influenced by preference points; it only indicates the number of first choice applicants for each hunt.

Regulations: It is unlawful to hunt with a centerfire or muzzleloading rifle without a valid elk tag for that time period and area during: Cascade bull elk centerfire firearm season, Coast bull elk centerfire firearm seasons, or Rocky Mt bull elk or either-sex centerfire firearm seasons or standard Rocky Mt antlerless elk centerfire firearm seasons (Nov. 18 - Nov. 26). See page 28 for exceptions.

NOTE: As a hunter it is your responsibility to ensure the hunts you apply for (all choices in all

series) are hunts you want to participate in. It is your responsibility to monitor your preference points, tags allocated to specific hunts, odds of drawing a tag and to ensure the actual area you are interested in hunting is within the hunt boundary and is open for hunting access. ODFW strives to make all information available to all hunters and ODFW will not reinstate preference points or change tags because the tag you drew is not the one you wanted or expected.

Tag numbers listed are the 2017 tag numbers authorized by the Fish and Wildlife Commission.

Hunt area: Entire wildlife management unit unless indicated by an asterisk(*). A map will be sent if indicated in hunt description by [MAP]. Landowner preference tags available, see page 17. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

ELK HUNTERS— DON'T SHOOT A MOOSE!

Moose continue to expand their range through out the western states including Oregon. A resident population of 50-60 moose now occupies portions of the Walla Walla and Wenaha Wildlife Management Units north of Elgin. Moose are also frequently sighted in adjacent management units particularly the Sled Springs, Chesnimnus, Snake River, Imnaha and Pine Creek Wildlife Management Units. Moose are generally larger than elk and vary in color from dark brown to black; nevertheless, moose are occasionally mistaken for other big game species, particularly elk. There are no hunts for moose, but moose occur where there are elk hunts. ODFW is reminding hunters to be sure of their target.

ELK HOOF DISEASE

ODFW is asking hunters to watch for limping or elk with abnormal hooves hoof disease. Report sightings to the ODFW's elk hoof disease online reporting page http://www.dfw.state.or.us/wildlife/health_program/elk_hoof_disease/ or call or email ODFW's Wildlife Health Lab (1-866-968-2600 / Wildlife.Health@state.or.us). Hoof Disease is often related to a bacterial infection causing severe lameness in elk resulting in deformed, overgrown, infected, or sloughed hooves (www.dfw.state.or.us/wildlife/health_program/elk_hoof_disease/ see more photos at http://www.dfw.state.or.us/wildlife/health_program/docs/ElkHoofDiseaseFactSheetFinal.pdf). Hunters finding hoof abnormalities in their harvested animals are asked to take pictures and save all hooves of elk with hoof deformities. Hoof disease does not affect the meat of elk harvested by hunters and poses no risk to human health. However, lame elk may be in poorer body condition and appear thin.

ELK REGULATIONS

Youth-Controlled Elk Hunts

Application Deadline: MAY 15, 2017. Use complete hunt numbers when applying.

Tag Sale Deadline is day before the hunt begins. **For hunts with more than one hunt period, the tag sale deadline is day before the earliest opening date.**

The elk hunts listed below and the deer hunts listed on pages 63-64, are part of a program to encourage youth participation in big game hunting. These hunts are designed to provide young hunters with a safe, well

supervised, low-stress setting where they can enjoy the hunt while building fundamental skills. Youths must be accompanied by an adult at least 21 years of age. Adults may not accompany more than two youths.

To apply, hunters must be 12-17 years old at the time they hunt, have completed a hunter safety class by the time they hunt (see www.dfw.state.or.us/education/hunter/ for Hunter Education Requirement) and have a hunting license. Youths selected for these hunts will be provided with additional

information and recommendations about preparing for the hunt. See pages 12-16 for application procedures. Hunters should apply for more than one hunt area.

Hunt Area: Entire wildlife management unit unless indicated by an asterisk(*). A map will be sent if indicated in hunt description by [MAP]. Landowner preference tags available, see page 17. Please note additional closure areas listed on pages 104-107 that may affect your hunt area.

Private lands will limit access for highlighted hunts. Do not apply unless you have access to a place to hunt.

DISABILITIES HUNTING AND FISHING PERMIT INFORMATION

In order to be considered a person with a disability under the wildlife laws, a person shall provide either:

1. Written certification from a licensed physician, licensed physician assistant or certified nurse practitioner which states that the applicant:
 - a. Is permanently unable to walk without the use of, or assistance from, a brace, cane, crutch, prosthetic device, wheelchair, scooter or walker;
 - b. Is restricted by lung disease to the extent that the person's forced expiratory volume for one second, when measured by a spirometer, is less than 35 percent predicted, or arterial oxygen tension is less than 55 mm/Hg on room air at rest;
 - c. Has a cardiac condition to the extent that the person's functional limitations are classified in severity as Class III or Class IV, according to standards established by the American Heart Association;
 - d. Has a permanent, physical impairment that prevents the person from holding or shooting a firearm or bow or from holding a fishing rod in hand; or
 - e. Has central visual acuity that

- permanently does not exceed 20/200 in the better eye with corrective lenses, or the widest diameter of the visual field is no greater than 20 degrees; or
2. Written proof that the last official certification of record by the United States Department of Veterans Affairs or any branch of the Armed Forces of the United States shows the person to be at least 65 percent disabled (ORS 496. 018).

Note that disabilities listed in 1 and 2 above must be permanent. A Disabilities Hunting and Fishing Permit will not be issued for temporary disabilities.

A person who is not visually impaired and who accompanies a hunter who is visually impaired (1)e. that possesses an "Oregon Disabilities Hunting and Fishing Permit" may:

- assist the hunter in selecting a game animal or bird;
- assist the hunter aiming or sighting a firearm;
- advise the hunter when to fire a firearm;
- shoot a game animal or bird on behalf of the hunter while in the immediate presence of

the hunter; and

- tag and retrieve game animals and birds on behalf of the hunter.

The person accompanying a hunter who is visually impaired:

- Is required to possess a valid hunting license. May also hunt game animals or birds if the person possesses the appropriate tags, permits, validations and stamps for the area and time period.

An "Oregon Disabilities Hunting and Fishing Permit" holder may:

- Hunt from a parked motor-propelled vehicle except on any public road or Hwy, or within Cooperative Travel Management Areas. A public road is the entire right of way of any road over which the public has a right of use. Public roads include, but are not limited to, road related structures that are in the right of way such as tunnels, bridges, or similar structures. Roads on federal, state, or local government lands are public roads. Hunting from a parked motor-propelled vehicle is allowed on private land with the landowner's permission and on public land where offroad travel is permitted.
- Have an able-bodied companion accompany them and kill any animal wounded by the permit holder. The wounded animal must be killed using a legal weapon for the season and species designated on the tag. The companion must immediately attach the permit holder's tag to the carcass of the animal. The companion is not required to possess a hunting license or tag, except a person accompanying a visually impaired hunter is required to possess a valid hunting license (OAR 635-065-0090(3))

DEFINITIONS

“Adult Hunting License” is a resident or non-resident hunting license, resident combination angler’s and hunting license, disabled veteran’s angling and hunting license, pioneer’s angling and hunting license, or senior citizen’s angling and hunting license.

“Agricultural Lands” are lands not less than 10 acres in extent that have been cultivated and planted or irrigated to domestic crops that are currently in use. Isolated home gardens, abandoned farmsteads, logged lands, range lands and tree farms are not included in this definition.

“Antler Point” is a point at least 1 inch in length measured from tip of point to nearest edge of beam. This definition applies only to the 3-point elk and spike only elk bag limits.

“Antlerless Deer” means doe (female deer) or deer fawn (young of the year).

“Antlerless Elk” means cow (female elk) or elk calf (young of the year).

“Bait” for hunting game mammals means any substance placed to attract an animal by its sense of smell or taste, including, but not limited to, food items or minerals (such as salt). Applying a scent or attractant to one’s body or clothing while worn is not baiting.

“Brace Height” is the distance from the back of the bow’s riser at the handgrip to the string when the bow is at rest.

“Broadhead” see Unbarbed Broadhead.

“Buck deer” means a male deer with at least one visible antler.

“Buck Pronghorn” means a male pronghorn antelope with visible horns and a dark cheek patch below the ear.

“Bull elk” for the purposes of a bag limit definition, means a male elk with at least one visible antler.

“Carcass” means the skinned or unskinned body, with or without entrails, of a game bird or game mammal.

“Cervid” means any member of the family cervidae (deer), including gametes or hybrids.

“Closed Season” is any time and place when it is not authorized to take a specific species, sex, or size of wildlife.

“Controlled Hunt” is a season where the number or distribution of hunters is limited through a public drawing or other means.

“Doe or fawn pronghorn”, for the purpose of pronghorn bag limits, means a female pronghorn without a dark cheek patch below the ear, or a pronghorn fawn (young of the year) of either sex.

“Drone” means an unmanned flying machine; an unmanned water-based vehicle; or any other vehicle that is able to operate in the air, in or under the water or on land, either remotely or autonomously, and without a human occupant.

“Eligible Hunter” is someone who will be 12 years of age by the time they hunt.

“Established Airport” is one that the Oregon Department of Aviation has licensed as a public-use airport, registered as a personal-use airport, or specifically exempted from either licensing or registration.

“Feral Swine” are animals of the genus *Sus* which meet the following conditions: (1) The animals are free roaming on public or private lands and not being held under domestic management confinement; (2) No notification to the land owner, manager, or occupant has been made by the swine owner or their representative of specifically identified and described swine having escaped domestic management confinement within a radius of five miles during the past five days; (3) The swine under consideration do not appear to be domesticated and are not tame; and (4) The swine under consideration do not meet the identification and description of escaped swine in section (2) above.

“Furbearers” are beaver, bobcat, fisher, marten, mink, muskrat, otter, raccoon, red fox and gray fox. Bobcat and Fox Hunters: Bobcat and fox are defined as furbearers. A Furtaker’s License or a Hunting License for Furbearers is required to take furbearers including bobcat and fox. In addition, a bobcat record card is required prior to hunting, trapping, or harvesting bobcats. For more information please refer to the current Oregon Furbearer Trapping and Hunting Regulations, available at any ODFW office or by contacting Oregon Department of Fish and Wildlife, Trapper Education, 4034 Fairview Industrial Dr SE, Salem, OR 97302; 503-947-6000.

“Game Birds” are any waterfowl, snipe, band-tailed pigeon, mourning dove, pheasant, quail, partridge, grouse, or wild turkey.

“Game Mammals” are pronghorn antelope, bighorn sheep, black bear, cougar, deer, elk, moose, Rocky Mt goat and western gray squirrel.

“General Season” is any season open to the holder of a valid hunting license and

appropriate game mammal tag without restriction as to the number of participants.

“Hunt” means to take or attempt to take any wildlife by means involving the use of a weapon or with the assistance of any mammal or bird. Informational Note: As per ORS 161.405 “Attempt” described: A person is guilty of an attempt to commit a crime when the person intentionally engages in conduct which constitutes a substantial step toward commission of the crime.

“Immediate Family” means a landowner’s spouse, domestic partner, children, father, mother, brother, sister, step-children and grandchildren. For the purpose of Landowner Preference, “immediate family” also includes brother-in-law and sister-in-law.

“Inedible” means unfit for human consumption.

“Landowner” means a person who holds title in trust or in fee simple to 40 or more contiguous acres of land provided that a recorded deed or contract of ownership shall be on file in the county in which the land is located; and/or a corporation or Limited Liability Company (LLC) holding title in fee simple to 40 or more contiguous acres of land provided that the corporation or LLC shall be registered with the State of Oregon; and/or a partnership holding title in fee simple to 40 or more contiguous acres of land. Persons who hold title as part of a time share are not eligible for landowner preference.

“Muzzleloader” is any single barreled (shotguns may be double barreled) long gun meant to be fired from the shoulder and loaded from the muzzle with an open ignition system and open or peep sights. This definition applies to muzzleloader-only seasons and 641B, 644A1, 644A2, 644A3, 644T1, 649B and 652T2 and includes: open ignition in-line percussion; sidelock, under-hammer, top-hammer and mule ear percussion; sidelock flintlock and wheellock ignition systems. Matchlock ignition systems are not allowed.

“One deer” means a buck, doe, or fawn deer.

“One elk” means a bull, cow, or calf elk.

“Open Ignition” is an ignition system where the percussion cap, frizzen, or flint is visible and exposed to the weather at all times and is not capable of being closed or covered by any piece of the weapon.

“Point-of-Sale” (POS) is a computerized licensing system available at all locations that sell Oregon’s hunting and angling licenses. Licenses and tags are generated and issued

directly to customers from a POS machine at the time of sale.

“Possession” means holding any wildlife or parts thereof in custody and any person who counsels, aids, or abets another person holding such wildlife is deemed equally in possession.

“Predatory Animals” means coyotes, rabbits, rodents and feral swine which are or may be destructive to agricultural crops.

“Protected Mammals and Birds” are any game mammal, game bird, furbearer, Threatened or Endangered species, fisher, ringtail cat, fringed myotis, Townsend’s big-eared bat, pallid bat, silver-haired bat, western small-footed myotis, long-eared myotis, long-legged myotis, yuma myotis, pika (cony), pygmy rabbit, white-tailed jackrabbit, white-tailed antelope squirrel, Washington ground squirrel, northern flying squirrel, chickaree (pine squirrel), golden-mantled ground squirrel, chipmunks, white-footed vole, all marine mammals and all nongame birds except European starling, house sparrow, Eurasian collared dove, and rock pigeon.

“Pursue” means the act of trailing, tracking, or chasing wildlife in an attempt to locate, capture, catch, tree, or kill any game mammal, game bird or furbearer.

“Resident” is any person who has; (a) has resided in Oregon for a period of at least six consecutive months immediately prior to the date of making application for a license, tag, or permit; (b) Members of the uniformed services of the United States who: (i) Are permanently assigned to active duty in this state, and their spouse and dependent children, (ii) Reside in this state while assigned to duty at any base, station, shore establishment or other facility in this state, (iii) Reside in this state while serving as members of the crew of a ship that has an Oregon port or shore establishment as its home port or permanent station. (c) Aliens attending school in Oregon under a foreign student exchange program.

“Sabot” is a carrier, bushing or device in which a projectile of a smaller caliber is centered so as to permit firing the projectile within a larger caliber weapon. Cloth, paper or felt patches used with round balls are not considered a sabot.

“Shotgun” is a smooth bore firearm, designed for firing birdshot and intended to be fired from the shoulder, with a barrel length of 18 inches or more and with an overall length of 26 inches or more. **Exception:** Shotguns equipped with rifled slug barrels are

considered shotguns when used for hunting pronghorn antelope, black bear, cougar, deer, or elk when centerfire rifles or shotguns are legal weapons.

“Spike Deer” is a deer with spike (unbranched) antlers.

“Spike only elk” for the purposes of a bag limit definition, means a bull elk with at least one visible unbranched antler (a brow tine is not considered an antler branch under spike only elk regulations).

“Tag” is a document authorizing the taking of a designated kind of mammal at a specified time and place.

“Take” means to kill or obtain possession or control of any wildlife.

“Three (3) point plus (+) elk” for the purposes of a bag limit definition, means a bull elk having 3 points or more on 1 antler including the brow tine.

“Unbarbed Broadhead” means a fixed position arrowhead where the rear edge of the blade(s) forms an angle with the arrow shaft to which it is attached of 90° or greater. Both of the dashed lines (Figure 1) designate an unbarbed broadhead. Blades with rear edges that form an angle of less than 90 degrees in the direction of the arrow tip (Figure 2, for example) are not legal.

Figure 1 (legal)

Figure 2 (illegal)

“Uniformed Services” means Army, Navy, Air Force, Marine Corps and Coast Guard, or their reserve components; the National Guard or Oregon National Guard, commissioned corps of the National Oceanic and Atmospheric Administration, and the Public Health Service of the United States Department of Health and Human Services detailed with the Army or Navy.

“Unprotected Mammals and Birds” means European starling, house sparrow, Eurasian collared dove, rock pigeon and any mammal species for which there are no closed seasons or bag limits. However, all general hunting regulations and licensing laws still apply.

Common unprotected mammals include coyote, badger, gophers, moles, mountain beaver, marmots, porcupine, skunks, cottontails, black-tailed jackrabbit, rats, mice, opossum, nutria and weasels.

“Visible Antler” means a velvet or hardened antler that is visible above the hairline on the skullcap and is capable of being shed.

“Waste” means to allow any edible portion of any game mammal (except cougar) or game bird to be rendered unfit for human consumption, or, to fail to retrieve edible portions except internal organs of such game mammals or game birds from the field. Entrails, including the heart and liver, are not considered edible. **“Edible portion” of game mammals means 1) the meat of the front quarters as far down as the knees (the distal joint of the radius-ulna), 2) meat of the hindquarters as far down as the hocks (the distal joint of the tibia-fibula), the meat along the backbone including the 3) loins (back-strap), and 4) tenderloins, for elk it also includes 5) the meat of the neck. See figure below.**

“Weapon” means any device used to take or attempt to take wildlife.

“Wildlife” means fish, wild birds, amphibians, reptiles, wild mammals and feral swine.

“Wildlife Unit” means a geographic area described in the section, Wildlife Management Unit Boundary Descriptions, pages 96-103.

“Youth” is any “resident” of Oregon or nonresident 12 through 17 years of age.

“Youth hunting license” means a resident, nonresident hunting license or resident combination angling and hunting license for persons 9 to 17 years of age to hunt wildlife.

WESTERN OREGON WILDLIFE MANAGEMENT UNIT BOUNDARY DESCRIPTIONS

Wildlife Management Units

HUNTERS — GET THE STATEWIDE WILDLIFE MANAGEMENT UNIT MAP

A statewide hunting unit map is available from the Oregon Department of Fish and Wildlife. Cost of the unit map is \$5.

This map includes big game unit boundaries and denotes land ownership and landmarks. This map includes a written description of each management unit, along with additional information hunters will find helpful. It is printed in color on high quality, durable paper.

This map can be ordered by phone at 1-800-845-9448. VISA and MasterCard only! (add \$1.25 for shipping and handling)

HUNT SAFELY HUNT RESPONSIBLY

Every hunter has the responsibility to enter the field well prepared to hunt in a safe ethical manner; the future of our hunting heritage depends on it.

THE FOUR PRIMARY RULES OF FIREARM SAFETY

- MUZZLE-** Control the direction of your muzzle at all times
- TRIGGER-** Keep your finger outside of the trigger guard until ready to shoot
- ACTION-** Treat every firearm as though it were loaded-open the action and visually check if it is loaded
- TARGET-** Be sure of your target and what is in front of it and beyond it

WEAR HUNTER ORANGE

Most firearm incidents during big game hunting are vision related - a hunter is shot because they were not seen. Hunter orange clothing makes it much easier for one hunter to recognize another hunter because nothing in nature matches this color. All hunters ages 17 and below must wear a hunter orange hat or vest while hunting big game and upland game birds (except turkey) with any firearm. ODFW strongly encourages you to wear **HUNTER ORANGE**.

WESTERN OREGON UNIT MAP

Map Availability

ODFW produced a statewide map showing wildlife management units. The map is available for sale at ODFW Salem and regional offices and some sporting goods stores. To order the statewide map showing all wildlife management units, including land ownership, please call 1-800-845-9448. MasterCard and VISA only.

Hunters successful in the controlled hunt drawing, for a hunt for which a map is provided, will be mailed a map prior to the hunt. The department is beginning to make maps for some controlled hunts available for viewing on the ODFW website. Hunters may periodically check the department website for an updated listing of controlled hunt maps.

Each of the following sources produce and stock their own maps. Some maps are free. Others have a slight charge. A number of maps prepared by private commercial companies are available at sporting goods stores and other commercial outlets.

COOPERATIVE TRAVEL MANAGEMENT AREAS

Through cooperative agreement, motor vehicle use is limited to specific roads for dates and areas listed below. Maps of most areas will be available by Sept. We do not carry maps of areas that are easily plotted on forestry maps. Old maps should not be relied on because roads open to vehicles may change. There are two methods of posting roads for motorized travel:

1. Negative marking in which closed roads are marked by signs, gates, berms, designated on maps, etc.
2. Positive marking in which open roads are marked by round green reflectors (areas below where round green reflectors are used are highlighted in **green**), orange carsonite posts, designated on maps, etc.

Note: A TMA may use more than one method, for example TMAs with positive markings may also use signs for some situations, such as confusing intersections. No person shall shoot from or across a public Rd or railroad right-of-way, except that persons legally hunting on closed Rds within Cooperative Travel Management Areas (TMAs) are not violating current prohibitions on shooting from or across a public Rd. The same is true for other Rds closed to use of motor vehicles by the public (See WA Regs. pages 108-111). There are additional travel management programs being implemented by other public agencies and private landowners. ODFW has no information for Rd closures not listed on these pages. Hunters need to contact the land management agency or landowner to determine the extent of such closures before going hunting.
