Member - Jamul

Anthony Williams
Member – Huntington Beach
Valerie Termini
Executive Director

The California Fish and Game Commission is composed of five members appointed by the Governor and confirmed by the California State Senate. The Commission sets hunting and sport fishing regulations, including seasons, bag limits, and methods and areas of take. In addition, the Commission formulates general policies for the California Department of Fish and Wildlife and regulates some types of commercial fishing. Regular meetings are held to consider proposed regulation changes and other actions under the Commission’s authority. The public may make recommendations in writing before a Commission meeting or present its proposals verbally at a meeting. The Commission’s meeting dates, locations, and agendas are posted on its website at www.fgc.ca.gov. Written comments can be sent to the Commission at fgc@fgc.ca.gov or 1416 Ninth Street, Room 1320, Sacramento, CA 95814.

**WHAT’S NEW FOR 2018?**

**OCEAN SALMON, PACIFIC HALIBUT (EFFECTIVE JANUARY 1, 2018)**

The California Fish and Game Commission adopted Section 1.95, Title 14, CCR, which describes a new process through which State recreational fishing regulations for ocean salmon and Pacific halibut will automatically conform to federal regulations for those species. This new process will be used beginning with the 2018 fishing season, and eliminates the need to adopt changes to regulations for these species through the Commission rulemaking process. Anglers who wish to participate in the federal regulation development process for these fisheries should visit the Pacific Fishery Management Council’s website (www.pcouncil.org) for more information on how to get involved.

For the most up-to-date information, anglers are advised to call the National Marine Fisheries Service hotline at (800) 662-9825 or visit the CDFW website for ocean salmon regulations at wildlife.ca.gov/oceansalmon and for Pacific halibut regulations at wildlife.ca.gov/conservation/marine/pacific-halibut.

**RED ABALONE (EFFECTIVE APRIL 1, 2018)**

Because poor environmental conditions have caused major reductions in northern California red abalone populations, the red abalone fishery is closed for 2018. In the coming year, the Fish and Game Commission may approve a new Red Abalone Fishery Management Plan and determine whether or not the closure should be extended beyond 2018.

**FORTHCOMING SUPPLEMENT**

A supplement updating the regulations contained in this booklet will be released by May 2018. The supplement is produced to update the ocean and inland salmon regulations and any other regulations that have changed since the publication of the 2018-2019 Saltwater Sport Fishing regulation booklet. The supplement will not include the complete set of regulations contained in the Saltwater Sport Fishing regulation booklet, so please retain this booklet.

**IT IS UNLAWFUL TO DO THE FOLLOWING**

- Fish without a valid fishing license if you are 16 years of age or older (FGC, Section 7145)
- Fail to return a report card by the deadline printed on the report card. Reporting harvest online at wildlife.ca.gov/licensing/online-sales satisfies the return requirement. (CCR T-14, Section 1.74)
- Use a sport fishing license that is not signed by the licensee. (CCR T-14, Section 705)
- Transfer any license, tag, validation, stamp, permit, application or reservation to another person. (FGC, Section 1052)
- Use or possess any license, validation, tag, stamp, permit, application or reservation that was not lawfully issued to the user. (FGC, Section 1052)
- Alter, mutilate, deface, duplicate or counterfeit any license, tag, validation, stamp, permit, application or reservation. (FGC, Section 1052)
- Fail to exhibit on demand all licenses, validations, tags, stamps, permits, applications or reservations to any peace officer or authorized CDFW employee. (FGC, Section 2012)
- Fish without the required report card on a free fishing day. (CCR T-14, Section 1.74)
- Disturb the legal traps of another person. (CCR T-14, Section 29.80)
- Sell fish taken under the authority of a sport fishing license. (FGC, Section 7121)
- Cause the deterioration or waste of any fish taken in the waters of this state. (CCR T-14, Section 1.87)
- Use explosives in state waters inhabited by fish. (FGC, Section 5500)
- Not allow the inspection, by a warden, of any boat, market, or receptacle, where fish or wildlife may be found. (FGC, Section 1006)
- Litter into or within 150 feet of state waters. (FGC, Section 5652)
- Possess fish in a condition that the size or species cannot be determined. (FGC, sections 5508 and 5509)
- Use or possess any net in state waters except as is authorized. (FGC, Section 8603)
- Possess fish or wildlife taken unlawfully. (FGC, Section 2002)
- Take fish or wildlife in violation of any section of law. (FGC, Section 2000)
Residency
A resident is defined as any person who has resided continuously in California for six months or more immediately before the date of application for a license, or any person on active military duty with the armed forces of the United States or an auxiliary branch, or a Job Corps enrollee (FPG, Section 70).

Identification Required for License Purchase (CCR T-14, Section 700.4)
Any person applying for any license, tag, permit, reservation or other entitlement issued via the Automated License Data System (ALDS) shall provide valid identification. Acceptable forms of identification include:

1. Any license document or GO ID number previously issued via ALDS
2. A valid driver’s license or identification card issued to him or her by the Department of Motor Vehicles or by the entity issuing driver’s licenses from the licensee’s state of domicile
5. A Tribal Identification Card, issued by a sovereign tribal nation
6. Birth Certificate or Passport issued from a U.S. Territory
7. U.S. Passport
8. U.S. Military Identification
9. Certificate of Naturalization or Citizenship
10. A foreign government-issued photo identification

Applicants less than 18 years of age may provide any form of identification described above, or a parent or legal guardian’s identification as described above.

Telephone Number Required for Angler Surveys
Anglers are required to provide their telephone number when purchasing a sport fishing license.

License Format
Licenses issued through the ALDS are printed on durable thermal paper. They are waterproof, stainproof and tear resistant. All licenses are imprinted with your permanent ID number (GO ID). Your GO ID can be used to retrieve your customer information in the future. Report cards issued through ALDS have a different look and size. All the information is printed on one side of the paper, so report cards can be quite long. They can be folded to fit in your wallet. You must use indelible ink to make entries on your report card(s).

Protect Your License from Heat
Licenses subjected to extreme or prolonged heat may darken and become difficult to read. To protect your license, keep it away from heat sources.

Collection of telephone numbers allows California to conform with a federal mandate for purposes of establishing a National Saltwater Angler Registry and will prevent California anglers from having to pay an additional registration fee each year to the federal government (CCR T14, Section 700.3).

- Or order by phone at 1-844-486-7265

eRegulations.com
Purchasing a License for Another Person

Regulations provide that a person may purchase a hunting or sport fishing license, tags, or validations for another person, as long as the licensee's customer identification number issued from the ALDS and date of birth are provided. If a person wishes to purchase a sport fishing license for another person but does not have the required information, a gift voucher may be purchased for that person that may be redeemed for a resident sport fishing license. Gift vouchers are non-redeemable and valid only for the year specified (CCR T-14, Section 700.3).

License Provisions

Any person who is 16 years of age or older must have a sport fishing license to take any kind of fish, mollusk, invertebrate, amphibian or crustacean in California, except when fishing from a public pier in ocean or bay waters. A sport fishing license is required to take reptiles, except for rattlesnakes.

Report Card Requirements

Anglers who are not required to have a sport fishing license, such as anglers who are under 16 years of age and anglers who will be fishing on Free Fishing Days, are required to have report cards to fish for spiny lobster and sturgeon in 2018. The recreational red abalone fishery is closed in 2018.

Important Reminder: Return of Report Cards is Mandatory. Report cards must be reported online at wildlife.ca.gov/reportcards or returned to the CDFW at the address specified on the report card by January 31 of the following year (except Spiny Lobster Report Cards, which must be reported by April 30, following the close of lobster season). Any person who fails to report online or return his or her report card to the CDFW by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year (CCR T-14, Section 1.74).

A $21.60 non-return fee will be charged when purchasing a spiny lobster report card if the previous year’s report card is not returned or reported by the April 30 deadline. To avoid the fee, you may either return or report your card by the deadline, or skip one lobster fishing season. After skipping one season, you can purchase a spiny lobster report card the following season at no extra cost.

Possession of License

Every person, while engaged in taking any fish, amphibian or reptile, shall have a valid sport fishing license on their person in their immediate possession except when diving as provided in FGC Section 7145 and CCR T-14, Section 700.

Persons diving from a boat or shore may have their license on the boat or within 500 yards of shore, respectively (FGC, Section 7145).

Duplicate Sport Fishing Licenses

If you lose your sport fishing license and validations, visit any license agent or CDFW license sales office, or log in to the license sales service at wildlife.ca.gov/licensing/online-sales to obtain a low-cost duplicate and validations. Duplicate Abalone Report Cards and Sturgeon Report Cards may only be purchased at CDFW license sales offices.

Refund Policy

Refunds will not be issued for sport fishing licenses, vouchers, validations or report cards. These items are considered in use from the date issued, and therefore are non-refundable.

Reminders for CPFV Owners, CPFV Operators, and Anglers on CPFVs

The cooperation of owners and operators of commercial passenger fishing vessels (CPFVs) has been critical to the success of the California Recreational Fisheries Survey (CRFS) since its inception in 2004. The data collected by CRFS is used to estimate the catch (total number of fish by species) and effort (total number of fishing trips) of saltwater recreational anglers, and to assist in the establishment of regulations aimed to maximize fishing opportunities while conserving fisheries for future use.

CRFSsamplers interview anglers and crew, and examine catch onboard CPFVs both at sea and dockside. CPFV owners and operators are reminded that accurate catch and effort estimates depend on access to both kept and discarded catch information by CRFS samplers. In addition, CRFS samplers must observe both open party and chartered trips, and must gather effort data frequently to ensure the best possible estimates.

By law (California Code of Regulations T-14, Section 105.5), owners or operators of CPFVs must carry and accommodate CRFS samplers on fishing trips when asked. If sampler coverage of a trip is denied by the owner or operator of the vessel, the CDFW may request a written explanation for the denial, and CPFV owners or operators who deny sampler coverage of a trip may have their fishing permits or licenses revoked.

Anglers are encouraged to answer CRFS samplers’ questions; however, angler participation in the survey is voluntary. CRFS samplers will ask anglers aboard CPFVs about the species they kept and discarded, how often they fish, and their zip code. CRFS samplers will also ask the crew about fishing target(s), descending device usage, and bottom depth. Onboard the vessel, while anglers are fishing, CRFS samplers will collect data on catch rates, species composition, fishing locations, and length of fish that the anglers do not keep. After anglers have completed fishing for the day, CRFS samplers will record the lengths and weights of fish that were kept.

Further information about CRFS, and a link to recreational catch and effort estimates, is available on the CDFW website at www.wildlife.ca.gov/conservation/marine/CRFS.
FREE AND REDUCED-FEE SPORT FISHING LICENSES

CDFW offers reduced-fee sport fishing licenses to honorably-discharged veterans with a service-connected disability rating of at least 50 percent, to recovering service members, and to resident low-income seniors who are at least 65 years of age. The term “recovering service member” means a member of the Armed Forces, including a member of the National Guard or a Reserve, who is undergoing medical treatment, recuperation, or therapy and is in an outpatient status while recovering from a serious injury or illness related to the member’s military service (FGC, Section 7150). Disabled veterans and recovering service members can pre-qualify for reduced-fee sport fishing licenses via e-mail. To pre-qualify, email your CDFW-issued GO ID and a letter from the Veteran’s Administration documenting your service-connected disability rating of 50 percent or greater to LRB@wildlife.ca.gov. After your customer record has been updated, you will be able to purchase a reduced-fee fishing license anywhere licenses are sold.

Free sport fishing licenses are available to eligible persons who are blind, low-income American Indians, developmentally disabled persons, and residents who are so severely physically disabled that they are permanently unable to move from place to place without the use of a wheelchair, walker, forearm crutches, or a comparable mobility-related device.

Eligibility for free and reduced-fee sport fishing licenses will be verified. Applications and additional information are available online at wildlife.ca.gov/licensing/fishing.

LICENSE SALES BY TELEPHONE

Sport fishing licenses, validations, and report cards may be purchased via telephone from Active Network’s telephone license sales line at (800) 565-1458. Items purchased by telephone sales will be delivered by mail within 15 days of purchase.

STAY CONNECTED

Giving CDFW your e-mail address and mobile number will enable us to send you information you can use, such as license renewal and courtesy report card deadline reminders, and California fishing information. When purchasing a license from a license agent or when you log in to the Online License Service, update your communication preferences and provide your e-mail address and mobile number. Fish and Game Code Section 1050.6 and California Government Code Section 11015.5 prohibit CDFW from selling or sharing your personal information with any third party.

PURCHASE LICENSES AND SUBMIT HARVEST INFO ONLINE

You can now purchase California sport fishing licenses and validations and submit report card information online. For more information, visit CDFW’s license sales website at wildlife.ca.gov/licensing/online-sales.

REGULATIONS ON THE GO

Did you know you can now download state ocean fishing regulations to your smartphone or other devices?

By utilizing iBooks on Apple devices or your favorite book reader on the Android platform you can download the regulations booklet for reference at any time. Regulation booklets can be found online at wildlife.ca.gov/regulations.

ON ALERT TO PROTECT CALIFORNIA’S NATURAL RESOURCES

Show your support for California’s Wildlife Officers and buy your 2018 Warden Stamp today! Just $5! Funds support CDFW’s K-9 program and provide equipment and training to help stop wildlife crimes. wildlife.ca.gov/wardenstamp
**LICENSE FEES**

**CDFW OFFICES NO LONGER ACCEPT CASH**

The California Department of Fish and Wildlife does not accept cash at the License and Revenue Branch and regional license offices. Checks, money orders, or any debit or credit card with the Visa or Mastercard logo are accepted. Cash transactions are available for all items sold at authorized local sales agents. Search for a license agent near you at [www.ca.wildlifelicense.com/InternetSales/OutletSearch/FindOutlet](http://www.ca.wildlifelicense.com/InternetSales/OutletSearch/FindOutlet).

* Valid for two consecutive calendar days.
** Valid for ten consecutive calendar days.
DO YOUR PART TO HELP MANAGE CALIFORNIA’S MARINE RECREATIONAL FISHERIES!

You’ve just returned to the dock after a fun (and hopefully rewarding) day of ocean sport fishing. As you tie up the boat and get ready to disembark, a smiling person in a CDFW uniform strolls down the dock, clipboard and measuring board in hand, and asks about your trip. How was the fishing today?

More than likely, you’ve just met a fishery sampler from the California Recreational Fisheries Survey (CRFS), a survey of saltwater sport anglers. The data that you provide to CRFS helps fishery managers set size limits, bag limits and fishing seasons with the goal of maximizing your fishing opportunities while conserving the fish species you caught today for generations to come.

Fishery managers use CRFS data to estimate the total catch (total number of fish caught) and fishing effort (number of fishing trips) of marine recreational anglers in California. CRFS was designed to meet specific management needs for all of California’s diverse recreational marine fisheries, and provide accurate and timely estimates. The accuracy of the estimates generated by CRFS depends heavily on your cooperation!

THERE ARE TWO WAYS THAT YOU CAN CONTRIBUTE TO THE ACCURACY OF THE DATA:

1. Cooperate with the CRFS field samplers conducting the interview: Because every fishing trip is unique – different target species, fishing locations, and catch – we ask that saltwater anglers cooperate each and every time they are approached by a CRFS sampler. Answer the CRFS sampler’s questions about your fishing trip truthfully and to the best of your knowledge, and take the time to allow the sampler to examine, measure and weigh your catch.

2. Say “Yes” when you are contacted by a CRFS telephone survey or receive an email survey: Licensed anglers are contacted randomly throughout the year and asked questions about their fishing experiences. Data collected through telephone and email surveys are used to estimate fishing effort that cannot be estimated through field observations, such as night fishing and fishing from boats that depart from and return to private marinas. Your personal contact information is kept confidential.

Please do your part and say “Yes” when asked to participate in this important survey. Thank you!

For more information about the CRFS, including recreational catch and effort estimates, visit the CDFW website at wildlife.ca.gov/conervation/marine/CRFS.
HARVEST REPORTING:
EASIER THAN EVER

ONLINE HARVEST REPORTING IS AVAILABLE ON THESE DATES:

<table>
<thead>
<tr>
<th>HARVEST REPORT TYPE</th>
<th>REPORTING DATES</th>
<th>LATE REPORTING*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Abalone Report Card</td>
<td>Nov 1 - Jan 31</td>
<td>Feb 1 - Apr 1</td>
</tr>
<tr>
<td>Spiny Lobster Report Card</td>
<td>The day after the last day of the season - Apr 30</td>
<td>May 1 - Jul 1</td>
</tr>
<tr>
<td>Sturgeon Fishing Report Card</td>
<td>Jan 1 - Jan 31</td>
<td>Feb 1 - Apr 1</td>
</tr>
</tbody>
</table>

*Late reporting occurs after the regulatory deadline.
If you have not reported your harvest by the dates listed above, please mail your harvest report card to the address listed on the report card immediately.

- Report your harvest online using the Online License Service at wildlife.ca.gov/Licensing/Online-Sales; or
- Return your report card via mail to the address printed on the card. If you mail your card, consider using certified mail with tracking and retain the tracking number for proof of submittal in case your card is lost in the mail. Cards that are lost in the mail are considered not returned.
- Accurate and complete data is required. If you report online, all entries on the report card must be entered in the electronic form, including sport fishing reports of activity when no catches were made.
- Submission of report card data online must be completed within 20 minutes to avoid a system timeout.
- Sport fishing report cards may be reported online only after the last day of the report card’s validity.
- If you report online, do not mail in your report card. You will be issued a report confirmation number. After reporting, please write your report confirmation number on your report card, and retain it as proof of submittal. Once a report card has been reported, it may no longer be used in the field.

Remember, a $21.60 non-return fee will be charged when purchasing a spiny lobster report card if the previous year’s report card is not returned or reported online by the April 30 deadline! To avoid the fee, you may either return or report your card by the deadline, or skip one lobster fishing season. After skipping one season, you can purchase a spiny lobster report card the following season at no extra cost.

HEALTHY SEABIRDS, HEALTHY OCEANS

Special Closures protect seabirds and marine mammals from close-approaching watercraft.

Know Before You Go! Special Closures are closed to all watercraft.

Please review the table beginning on pg. 44 for Special Closures in your area.

Follow these tips to minimize your impact:
- Stay at least 1,000 feet from cliffs, rocks and islands
- Dispose of fishing line, hooks, lures and extra bait properly. Do not throw anything overboard
- Steer around, not through floating flocks of seabirds
- If birds begin to flutter wings, move away, you are too close
- Avoid shining bright lights at cliffs and islands where seabirds nest

Why? The productive marine environment off the California coast is a feeding, breeding and resting area for hundreds of thousands of seabirds. Seabirds nest on offshore rocks, islands and steep mainland cliffs in order to avoid predators. Many seabird species lay only one egg a year, or even every other year. This low reproductive rate makes seabirds extremely vulnerable. Getting too close to seabirds in a boat or on foot may disrupt breeding and feeding or harm seabirds and their chicks.
Recreational groundfish fishing regulations are adaptive and based on the latest information about the fishery. Therefore, the CDFW director can change state groundfish regulations during the year to conform to changes in federal regulations. Before engaging in ocean sportfishing for groundfish and associated species, please access one of the following sources for up-to-date information concerning season dates, allowed fishing depths, and other regulations:

- Call the Recreational Groundfish Fishing Regulations Hotline at (831) 649-2801 for the latest groundfish regulations.
- Check the CDFW News Room at wildlife.ca.gov/news or the Marine Region News Page at wildlife.ca.gov/regions/marine/news.
- Go to wildlife.ca.gov/regions/marine/news/subscribe and sign up for e-mail notification of in-season regulation changes.
- Call or drop by your local Marine Region CDFW office (see pg. 2) for the latest information before heading out on a fishing trip.

### CCR T-14, SECTION 27.20(e)

Describes the process CDFW follows to enact in-season regulation adjustments for groundfish:

- Fishery closure and/or rule change: When the department determines, based on the best available scientific information, that an annual harvest limit [optimum yield (OY), annual catch limit (ACL), annual catch target (ACT), recreational harvest guideline, or recreational harvest target] established in regulation by the NOAA Fisheries (National Marine Fisheries Service) for any species of federally-managed groundfish or aggregate group of federal groundfish species has been exceeded or is projected to be exceeded prior to the end of the year or that catches are less than predicted, the following rule changes may occur:
  1. The department may modify the seasons and/or depth constraints for any species of federally-managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. Season and/or depth modifications may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.
  2. The department may adjust existing bag or sub-bag limits or establish additional bag or sub-bag limits as needed for any species of federally-managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. Bag limits may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.
  3. The department may adjust existing size limits or establish additional size limits as needed for any species of federally-managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. Size limits may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.

### CCR T-14, SECTION 27.20(f)

Describes how CDFW notifies the federal government and the public of in-season changes to groundfish fishing regulations:

- Notice of closure and/or rule change: The department shall give the public and the NOAA Fisheries no less than 10 calendar days’ notice of any fishery closure or rule change implemented pursuant to this Section via a department news release. Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.wildlife.ca.gov/regions/marine, or by calling (831) 649-2801 for recorded information, or by contacting a department office.

Note: “Federal Groundfish” is defined in CCR T-14, Section 1.91 (pg. 22).

---

### BLACK ROCKFISH VS. BLUE ROCKFISH

Black rockfish and blue rockfish are often misidentified. Use the features below to differentiate between the two species.

**Black Rockfish**
- Small knob at tip of lower jaw
- Black spots on dorsal fin membrane
- Maxillary extends to back of eye

**Body Color:** Mottled and blotched with black to blue-black and gray

**Blue Rockfish**
- 2 to 4 dark bands around front of head
- No black spots on dorsal fin membrane
- Maxillary extends to near mid-eye
- Rounded anal fin

**Body Color:** Mottled blue-black to bright blue

For more fish identification information, please visit the CDFW website at wildlife.ca.gov/fishing/ocean/fish-ID

For regulations, call the Recreational Groundfish Fishing Regulations Hotline at (831) 649-2801
GROUNDFOISH MANAGEMENT AREAS FOR 2018

Note: Groundfish regulations may change during the year. Before engaging in ocean sportfishing for groundfish and associated species, please access one of the sources listed on page 11 to obtain the most up-to-date groundfish fishing regulations.

Five recreational groundfish management areas have been established by the Fish and Game Commission and the Pacific Fishery Management Council. Each area has a different set of groundfish regulations tailored to meet regional needs.

RECREATIONAL GROUNDFOISH MANAGEMENT AREAS FOR 2018

INTERSTATE WILDLIFE VIOLATOR COMPACT

The Interstate Wildlife Violator Compact (IWVC) is an agreement between 26 states, which allows for the reciprocal recognition of hunting, fishing and trapping license suspensions.

If your license privileges have been suspended by another state, the suspension may be recognized here in California. For example, if your sport fishing, hunting or trapping privileges have been suspended in Colorado for five years, your privileges may also be suspended for five years in California or any of the states participating in the IWVC.

The purchase of licenses or tags during the term of the suspension is a violation of the law and may result in prosecution. Licenses or tags purchased prior to or during a suspension are not refundable.

For further information contact the CDFW Law Enforcement Division at 1416 Ninth Street, Sacramento, CA 95814, or (916) 653-4094.

GET HOOKED ON DESCENDING

Learn more about barotrauma and how to descend rockfish at: www.wildlife.ca.gov/Conservation/Marine/Groundfish/Barotrauma
NORTHERN MANAGEMENT AREA

Ocean waters between 42°00' N. latitude (CA-OR Border) and 40°10’ N. latitude (near Cape Mendocino). Includes all of Del Norte County and most of Humboldt County.

Note: Before engaging in ocean sportfishing for groundfish and associated species, please review one of the resources listed in Footnote 1 to receive the most up-to-date regulations.

1. Subject to in-season change. Call the Recreational Groundfish Fishing Regulations Hotline at (831) 649-2801, visit the Marine Region Web site at www.wildlife.ca.gov/Fishing/Ocean/Regulations/Inseason, send an e-mail to AskMarine@wildlife.ca.gov, or call your nearest CDFW office for the latest information. Some marine protected areas (MPAs) restrict or prohibit sport fishing within MPAs. Check the current ocean sport fishing regulations booklet or the CDFW website at www.wildlife.ca.gov/MPAs/Northern-California, send an e-mail to AskMPA@wildlife.ca.gov, or call your nearest CDFW office for more information.
2. Divers and shore-based anglers are exempt from season restrictions affecting the RCG complex and other federally managed groundfish. However, when spear fishing during a boat-based closure, only spear fishing gear is allowed aboard any vessel or watercraft. Also, when angling from shore during a boat-based closure, no vessel or watercraft may be used to assist in taking or possessing species included in this table. The following definitions describe boat-based and shore-based anglers, and divers:
   • Boat-based anglers are fishermen that fish from boats or vessels of any size or any other type of floating object, including kayaks and float tubes.
   • Shore-based anglers are fishermen that fish from beaches, banks, piers, jetties, breakwaters, docks and other manmade structures connected to the shore.
3. Divers are spear fishermen entering the water either from the shore or from a boat or other floating object.
4. See regulations for information on gear restrictions (Sections 28.65, 28.70, 28.90, 28.91, and 28.95) and fillet lengths (Section 27.65).
5. Total length is the longest straight-line measurement from the tip of the head with the mouth closed to the end of the longest lobe of the tail. A measurement method illustration is available on pg. 23.
6. The sport fishery for leopard shark inside Humboldt Bay is exempt from season and depth restrictions that affect other federally managed groundfish (Section 28.56).”

---

**FOOTNOTE**

1. Subject to in-season change. Call the Recreational Groundfish Fishing Regulations Hotline at (831) 649-2801, visit the Marine Region Web site at www.wildlife.ca.gov/Fishing/Ocean/Regulations/Inseason, send an e-mail to AskMarine@wildlife.ca.gov, or call your nearest CDFW office for the latest information. Some marine protected areas (MPAs) restrict or prohibit sport fishing within MPAs. Check the current ocean sport fishing regulations booklet or the CDFW website at www.wildlife.ca.gov/MPAs/Northern-California, send an e-mail to AskMPA@wildlife.ca.gov, or call your nearest CDFW office for more information.
2. Divers and shore-based anglers are exempt from season restrictions affecting the RCG complex and other federally managed groundfish. However, when spear fishing during a boat-based closure, only spear fishing gear is allowed aboard any vessel or watercraft. Also, when angling from shore during a boat-based closure, no vessel or watercraft may be used to assist in taking or possessing species included in this table. The following definitions describe boat-based and shore-based anglers, and divers:
   • Boat-based anglers are fishermen that fish from boats or vessels of any size or any other type of floating object, including kayaks and float tubes.
   • Shore-based anglers are fishermen that fish from beaches, banks, piers, jetties, breakwaters, docks and other manmade structures connected to the shore.
3. Divers are spear fishermen entering the water either from the shore or from a boat or other floating object.
4. See regulations for information on gear restrictions (Sections 28.65, 28.70, 28.90, 28.91, and 28.95) and fillet lengths (Section 27.65).
5. Total length is the longest straight-line measurement from the tip of the head with the mouth closed to the end of the longest lobe of the tail. A measurement method illustration is available on pg. 23.
6. The sport fishery for leopard shark inside Humboldt Bay is exempt from season and depth restrictions that affect other federally managed groundfish (Section 28.56).
Ocean waters between 40°10’ N. latitude (near Cape Mendocino) and 38°57.5’ N. latitude (Point Arena). Includes a portion of Humboldt County and most of Mendocino County. 

**Note:** Before engaging in ocean sportfishing for groundfish and associated species, please review one of the resources listed in Footnote 1 to receive the most up-to-date regulations.

¹. Subject to in-season change. Call the Recreational Groundfish Fishing Regulations Hotline at (831) 649-2801, visit the Marine Region Web site at www.wildlife.ca.gov/Fishing/Ocean/Regulations/Inseason, send an e-mail to AskMarine@wildlife.ca.gov, or call your nearest CDFW office for the latest information. Some marine protected areas (MPAs) restrict or prohibit sport fishing within MPAs. Check the current ocean sport fishing regulations booklet or the CDFW website at www.wildlife.ca.gov/MPAs/Central-California, send an e-mail to AskMPA@wildlife.ca.gov, or call your nearest CDFW office for more information.

². Divers and shore-based anglers are exempt from season restrictions affecting the RCG complex and other federally managed groundfish. However, when spear fishing during a boat-based closure, only spear fishing gear is allowed aboard any vessel or watercraft. Also, when angling from shore during a boat-based closure, no vessel or watercraft may be used to assist in taking or possessing species included in this table. The following definitions describe boat-based and shore-based anglers, and divers:

- Boat-based anglers are fishermen that fish from boats or vessels of any size or any other type of floating object, including kayaks and float tubes.
- Shore-based anglers are fishermen that fish from beaches, banks, piers, jetties, breakwaters, docks and other manmade structures connected to the shore.
- Divers are spear fishermen entering the water either from the shore or from a boat or other floating object.

³. During the closed season, Pacific sanddab, butter sole, surf sole, flathead sole, rex sole, rock sole, and sand sole (defined as “Other Flatfish” in subsection 1.91(a) (10)) may be taken.

4. See regulations for information on gear restrictions (Sections 28.65, 28.70, 28.90, 28.91, and 28.95) and fillet lengths (Section 27.65).

5. Total length is the longest straight-line measurement from the tip of the head with the mouth closed to the end of the longest lobe of the tail. A measurement illustration is available on pg. 23.

6. The sport fishery for leopard shark inside Elkhorn Slough is exempt from season and depth restrictions that affect other federally managed groundfish (Section 28.56).

**EXCEPTION:** During the open season, groundfish may be possessed in closed areas and in water depths closed to fishing only aboard vessels in transit with no fishing gear in the water (Section 27.20(b)).
Ocean waters between 34°27’ N. latitude (Point Conception) and the U.S.-Mexico Border, excluding the Cowcod Conservation Areas. Includes a portion of Santa Barbara County, and all of Ventura, Los Angeles, Orange, and San Diego counties.

Note: Before engaging in ocean sportfishing for groundfish and associated species, please review one of the resources listed in Footnote 1 to receive the most up-to-date regulations.

KNOW YOUR RESTRICTED ROCKFISH... THEY CAN BE EASILY MISIDENTIFIED

**Yelloweye Rockfish**
- **Body Color:** Orange-red to red
- Smooth chin when rubbed back to front
- Anal fin rounded

**Cowcod**
- **Body Color:** Pink to orange-red
- Dorsal fin has deeply notched spines
- Wide gap between eye and mouth
- Relatively large head and mouth
- Darker vertical bars, may fade with age

**Vermilion Rockfish**
- **Body Color:** Orange-red to red with dark motting
- Tail fin straight
- Rough chin and Maxillary

**Canary Rockfish** *(Limited retention)*
- **Body Color:** Bright orange
- Tail fin slightly forked
- Thick, gray-white band extends from head to tail
- Black spots present on smaller fish
- Smooth chin and Maxillary
- Anal fin slanted

For more information, please contact your local California Department of Fish and Wildlife office.

**ATTENTION: Juvenile Yelloweye Rockfish**
Yelloweye rockfish less than 12 in. long usually have two horizontal white stripes along the sides, which fade with age.

AVOID YELLOWEYE ROCKFISH

CDFW urges anglers to avoid fishing in areas where yelloweye rockfish *(Sebastes ruberrimus)* are known to occur. Take and possession of yelloweye rockfish is prohibited year-round. If taken, yelloweye rockfish should be immediately returned to the water to minimize injury and mortality. CDFW also encourages anglers who encounter them to change fishing locations to prevent catching additional yelloweye rockfish.

Yelloweye rockfish are a long-lived, slow-growing shelf rockfish species that was declared overfished in 2002. They are currently managed under a strict federal rebuilding plan to allow the population to recover, which has required significant cutbacks to West Coast sport and commercial fisheries for over a decade.

For more information regarding groundfish regulations, management, stock status information, fish identification tools, and current catch trends, please visit the CDFW Marine Region groundfish website at: www.wildlife.ca.gov/Conservation/ Marine/ Groundfish

HELP FISH LIKE THIS SURVIVE!

Fish floating at the surface like this can survive... with your help.

When fish that possess swim bladders are brought up from depth, decreasing pressure may injure them (known as pressure shock, or ‘barotrauma’). When released, these fish often float helplessly at the surface. Injured fish that cannot descend on their own are especially easy targets for sea gulls and sea lions. Helping fish to descend significantly increases their chances of survival.

You can transport injured fish down to the sea floor using one of the following:
- A weighted, inverted barbless hook
- A fish-descending device available at your local tackle shop
- An inverted, weighted plastic crate with a rope attached to the bottom

For more information visit the CDFW website at wildlife.ca.gov/conservation/marine/groundfish/barotrauma or pick up an informational brochure at your local CDFW office.
CHAPTER 1: GENERAL PROVISIONS AND DEFINITIONS

All laws or regulations hereunder are either reproduced verbatim from the Fish and Game Code or from Title 14 of the California Code of Regulations (CCR), as adopted by the Fish and Game Commission under authority of the Fish and Game Code.

1.04. Anadromous Waters.
Anadromous waters are inland waters that are accessible to fish migrating from the ocean.

1.05. Angling.
Angling means take of fish by hook-and-line with the line held in the hand, or with the line attached to a pole or rod held in the hand or closely attended in such manner that the fish voluntarily takes the bait or lure inside its mouth.

Fish, amphibians, reptiles, mollusks and crustaceans may be taken only in the amounts, only during the open season and only with the gear authorized and shall not be taken otherwise.

1.17. Bag and Possession Limit.
No more than one daily bag limit of each kind of fish, amphibian, reptile, mollusk or crustacean named in these regulations may be taken or possessed by any one person unless otherwise authorized; regardless of whether they are fresh, frozen, or otherwise preserved. Exceptions: See Sections 7.00, 7.50(a), 27.60(c), and 195, Title 14, CCR.

A fish hook from which the barb or barbs have been removed or completely bent closed, or which is manufactured without barbs.

1.23. Bow and Arrow Fishing Tackle.
Such tackle must have the arrow shaft or the point, or both, attached by a line to the bow or to a fishing reel (includes crossbow).

1.32. Chumming.
Placing any material in the water, other than on a hook while angling, for the purpose of attracting fish to a particular area in order that they may be taken.

1.35. Closed or Closure.
Refers to waters or areas closed to all fishing unless otherwise authorized.

1.38. Closed Season.
That period during which the taking of fish, amphibians, reptiles, mollusks or crustaceans is prohibited.

Coastal pelagic species means any of the following: northern anchovy (Engraulis mordax), Pacific sardine (Sardinops sagax), Pacific mackerel (Scomber japonicus), jack mackerel (Trachurus symmetricus), and market squid (Loligo (Doryteuthis) opalescens).

1.41. Dates.
Dates of seasons and closures are inclusive.

1.42. Dip Net.
Webbing supported by a frame, and hand held, not more than six feet in greatest dimension, excluding handle.

1.46. Finfish Defined.
Finfish are defined as any species of bony fish or cartilaginous fish (sharks, skates and rays). Finfish do not include amphibians, invertebrates, plants or algae.

1.49. Highly Migratory Species Defined.
Highly migratory species means any of the following: albacre, bluefin, bigeye, and yellowfin tuna (Thunnus spp.); skipjack tuna (Katsuwonus pelamis); dorado (dolphinfish) (Coryphaena hippurus); striped marlin (Tetrapturus audax); thresher sharks (common, pelagic, and bigeye) (Alopias spp.); shortfin mako shark (Isurus oxyrinchus); blue shark (Prionace glauca), and Pacific swordfish (Xiphias gladius).

1.53. Inland Waters.
Inland waters are all the fresh, brackish and inland saline waters of the state, including lagoons and tidewaters upstream from the mouths of coastal rivers and streams. Inland waters exclude the waters of San Francisco Bay and the waters of Elkhorn Slough, west of Elkhorn Road between Castroville and Watsonville. See Section 27.00 for the description of San Francisco Bay.

1.59. Limit.
Refers to daily bag limit and possession limit per person, or boat limit authorized in Sections 27.60(c) and 195, Title 14, CCR.

1.62. Minimum and Maximum Size.
No fish, mollusks or crustaceans less than the legal minimum size or greater than the maximum legal size (total, fork or alternate) may be possessed, except as otherwise provided. Total length is the longest straight-line measurement from the tip of the head to the end of the longest lobe of the tail. Fork length is the straight-line distance from the tip of the head to the center of the tail fin. Tip of the head shall be the most anterior point on the fish with the mouth closed and the fish lying flat on its side. Alternate length is the straight-line distance from the base of the foremost spine of the first dorsal fin to the end of the longest lobe of the tail. Unless otherwise provided, all fish, mollusks or crustaceans less than the legal minimum size or greater than the maximum legal size must be returned immediately to the water from which they were taken. (Note: See Invertebrate section for definitions of minimum legal size for mollusks and crustaceans.)

1.63. Movement of Live Fish.
Except as provided in Sections 4.00 through 4.30 and 230, live fin fish may not be transported alive from the water where taken.

1.65. Multiple Hook.
A hook with two or more points.

1.68. Open Season.
That period of time during which the taking of fish, amphibians, reptiles, mollusks and crustaceans is authorized.

1.70. Opening Date and Bag Limit for Boundary Waters.
Waters, exclusive of their tributaries, on the boundary between areas or districts with different opening dates or limits shall open on the earlier date and have the larger limit unless otherwise specified.

1.72. Stream (Includes Creeks and Rivers).
A stream is a body of water that flows at least periodically or intermittently through a bed or channel having banks and that supports fish or other aquatic life. This includes watercourses having a surface or subsurface flow that supports or has supported riparian vegetation.

1.73. Salmon.
(a) Salmon includes Chinook, coho, pink, chum, and sockeye salmon.
(b) Any person in possession of a recreationally taken salmon with a missing adipose fin (the small, fleshy fin on the back of the fish between the back fin and tail) shall immediately relinquish the head of the salmon, upon request by an authorized agent or employee of the department, to facilitate the recovery of any coded-wire tag. The head may be removed by the fish owner or, if removed by the official department representative, the head shall be removed in a manner to minimize loss of salmon flesh and the salmon shall immediately be returned to the fish owner.

1.74. Sport Fishing Report Card and Tagging Requirements.
(a) Purpose. These regulations are designed to improve recreational fishing effort and catch
information in some or all areas where the fisheries operate. Many of these species are of high commercial value, and therefore, additional enforcement mechanisms are needed to improve compliance with existing bag limits and other regulations, and to reduce the potential for poaching.

(b) Report card requirements apply to any person fishing for or taking the following species regardless of whether a sport fishing license is required:

(1) Salmon, in the anadromous waters of the Klamath, Trinity, and Smith river basins. Anadromous waters are defined in Section 1.04 of these regulations.

(2) Steelhead trout.

(3) White sturgeon.

(4) Red abalone. [Season closed for 2018. See Section 29.15 on pg. 35]

(5) California spiny lobster.

(c) General Report Card Requirements.

(1) Any person fishing for or taking any of the species identified in this Section shall have in his immediate possession a valid non-transferable report card issued by the department for the particular species. See special exemption regarding possession of report cards for lobster divers in Section 29.91 of these regulations.

(2) All entries made on any report card or tag shall be legible and in indelible ink.

(3) A report card holder fishing with a one, two, or ten-day sport fishing license, may replace the expired fishing license without purchasing a new report card so long as the report card is still valid.

(4) Report cards are not transferable and shall not be transferred to another person. No person shall possess any report card other than his own.

(5) A person may only obtain one abalone report card and one sturgeon report card per report card period.

(6) Any report card holder who fills in all available lines on his steelhead, salmon or lobster report card shall return or report the card to the department pursuant to subsection 1.74(e) prior to purchasing a second card.

(7) Data recording and tagging procedures vary between report cards and species. See specific regulations in sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 that apply in addition to the regulations of this Section.

(d) Report Card Return and Reporting Requirements

(1) Report card holders shall return or report their salmon, steelhead, sturgeon, or abalone report cards to the department pursuant to subsection 1.74(e) by January 31 of the following year.

(A) Any report card holder who fails to return or report his salmon, steelhead, sturgeon, or abalone report card to the department by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year.

(2) Report card holders shall return or report their lobster report cards pursuant to subsection 1.74(e) by April 30 following the close of the lobster season for which the card was issued.

(A) Any report card holder who fails to return or report his or her lobster report card by April 30 following the close of the lobster season specified on the card shall be subject to a nonrefundable non-return fee specified in Section 701, in addition to the annual report card fee, for the issuance of a lobster report card in the subsequent fishing season.

(e) Report Card Return and Reporting Mechanisms:

(1) By mail or in person at the address specified on the card. A report card returned by mail shall be postmarked by the date applicable to that card as specified in subsection 1.74(d)(1) or 1.74(d)(2).

(2) Online through the department’s license sales website by the date applicable to that card as specified in subsection 1.74(d)(1) or 1.74(d)(2).

(3) If a report card is submitted by mail and not received by the department, it is considered not returned unless the report card holder reports his or her report card as lost pursuant to subsection 1.74(f).

(f) Lost report cards.

(1) Any report card holder who loses his report card shall submit an affidavit, signed under penalty of perjury, to the department license sales office containing all of the following information:

(A) A statement containing the report card holder’s full name confirming the circumstances surrounding the loss of the card.

(B) A statement describing the factual circumstances surrounding the loss of the card.

(2) An affidavit for a lost report card shall be presented at a department license sales office, by the date applicable to that card specified in subsection 1.74(d)(1) or 1.74(d)(2) to be considered returned.

(3) Notwithstanding subsection 1.74(c)(5), any report card holder who loses his report card during the period for which it is valid may replace the lost report card by submitting an affidavit as described in subsection 1.74(f)(1) and payment of the report card fee and replacement processing fee specified in Section 701.

1.76. Spearfishing.

The taking of fish by spear or hand by persons who are in the water and may be using underwater goggles, face plates, breathing tubes, SCUBA or other artificial underwater breathing device.

1.80. Take.

Hunt, pursue, catch, capture or kill fish, amphibians, reptiles, mollusks, crustaceans or invertebrates or attempting to do so.

1.84. Titles and Section Numbers.

All titles and headings used in these regulations are a part thereof. All section numbers cited refer to these regulations unless otherwise specified.

1.87. Waste of Fish.

It is unlawful to cause or permit any deterioration or waste of any fish taken in the waters of this state.

1.88. Public Pier.

A public pier is a publicly owned man-made structure that has the following characteristics: is connected, above the mean high tide, to the main coastline or to the landmass of a named and charted natural island; has unrestricted free access for the general public; and has been built or currently functions for the primary purpose of allowing angling access to ocean waters.

Additionally, publicly owned jetties or breakwaters that are connected to land, as described above, that have free unrestricted access for the general public and whose purpose is it to form the most seaward protective boundary of an ocean harbor are public piers. Jetties, breakwaters, promenades, sea walls, moles, docks, linings, barriers and other structures that are not the most seaward protective boundary of an ocean harbor, are not public piers.

1.90. Nearshore Fish Stocks, Nearshore Fisheries, Nearshore Waters, and Shallow Nearshore Rockfish Defined.

(a) Under the authority of Section 8587.1 of the Fish and Game Code, Section 8586 of the Fish and Game Code is made inoperative.

(b) “Nearshore fish stocks” means any of the following:

(1) black rockfish (Sebastes melanops),

(2) black-and-yellow rockfish (Sebastes chrysomelas),

(3) blue rockfish (Sebastes mystinus),

(4) brown rockfish (Sebastes auriculatus),

(5) cabezon (Scorpaenichthys marmoratus),

(6) calico rockfish (Sebastes dallii),

(7) California scorpionfish (sculpin) (Scorpaena guttata),

(8) California sheepshead (Semicossyphus pulcher),
(a) The species or species groups listed in subsections 1.91(a)(1) through 1.91(a)(12) constitute "federal groundfish" and are managed under the Federal Pacific Coast Groundfish Fishery Management Plan.

(1) "Nearshore Rockfish," which means the following species of rockfish: aurora rockfish (Sebastes aurora), bank rockfish (S. rubens), blackgill rockfish (S. melanostomus), darkblotched rockfish (S. crameri), Pacific ocean perch (S. ultimus), redbanded rockfish (S. babcocki), rougheye rockfish (S. aleutianus), sharpchin rockfish (S. zacentrus), shortrak rockfish (S. borealis), splitnose rockfish (S. diploproa), yellowmouth rockfish (S. reedi)

(2) "California Scorpionfish" (Scorpaena guttata)

(3) "Shelf Rockfish" which means the following species of rockfish: aurora rockfish (S. aurora), bank rockfish (S. rubens), blackgill rockfish (S. melanostomus), darkblotched rockfish (S. crameri), Pacific ocean perch (S. ultimus), redbanded rockfish (S. babcocki), rougheye rockfish (S. aleutianus), sharpchin rockfish (S. zacentrus), shortrak rockfish (S. borealis), splitnose rockfish (S. diploproa), yellowmouth rockfish (S. reedi)

(4) "Slope Rockfish" which means the following species of rockfish: aurora rockfish (Sebastes aurora), bank rockfish (S. rubens), blackgill rockfish (S. melanostomus), darkblotched rockfish (S. crameri), Pacific ocean perch (S. ultimus), redbanded rockfish (S. babcocki), rougheye rockfish (S. aleutianus), sharpchin rockfish (S. zacentrus), shortrak rockfish (S. borealis), splitnose rockfish (S. diploproa), yellowmouth rockfish (S. reedi)

(5) "Thornyheads", which means longspine thornyhead (Sebastolobus alascanus), and shortspine thornyhead (Sebastolobus alutus)

MEASUREMENT METHODS

ALTERNATE LENGTH: Base of foremost spine of dorsal fin, to longest tip of tail.

FORK LENGTH (FL): Tip of head with mouth closed, to fork of tail.

TOTAL LENGTH (TL): Tip of head with mouth closed, to longest tip of tail.

METHOD FOR CLAMS AND ABALONE

Greatest shell diameter.
190. Fishing Activity Records.
(a) Pursuant to sections 7923 and 8026, Fish and Game Code, the owner and operator of a commercial fishing vessel or the holder of a commercial fishing license or permit participating in specified fisheries, and the owner and license holder of a commercial passenger fishing vessel shall keep and submit a complete and accurate record of fishing activities.
(b) Fishing activity records shall be kept on paper forms provided by the department or on the electronic version on the department website at https://apps.wildlife.ca.gov/marinelogs, hereafter referred to as logbook(s) for purposes of this section.
(c) Logbooks shall be kept on the vessel while it is engaged in, or returning from, fishing operations and shall be immediately surrendered upon demand to a peace officer of the department. Unless otherwise specified in Title 14,CCR, logbooks shall be completed immediately with all available information when any of the following first occurs:
(1) Prior to passengers or crew disembarking from the vessel, or
(2) At the time of receipt, purchase, or transfer of fish, or
(3) At the end of the calendar day (24 hour clock) during fishing activity through the night.
(d) If the logbook is kept on paper it shall be delivered to the department at 4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720, or such other department office as may be specified in regulation on or before the 10th day of each month following the month to which the records pertain. Logbooks that are mailed shall be postmarked on or before the 10th day of each month following the month to which the records pertain.
(e) Failure to keep and submit required logbooks may result in revocation or suspension (including non-renewal) of the license or permit for the taking of all fish or for the particular species for which the records are required, by the department, for a period not to exceed one year. Any revocation, suspension or non-renewal may be appealed to the commission.
(f) Other fish species included in specified fisheries shall be handled, bagged and otherwise handled in a manner that they can be identified as an individual operator’s or crew member’s fish. Operator(s) and crew members are also prohibited from giving all or part of their individual limit to any passenger during or after a trip.

195. Report of Fish Taken to be Made by Owner of Barge or Vessel for Hire and Boat Limits.
(a) Pursuant to Section 190 the owner/operator of a commercial passenger fishing vessel shall keep a logbook of fishing activities.
(1) The form entitled Commercial Passenger Fishing Vessel Log, Central and Northern California, DFW 195A (Rev 01/16), incorporated by reference herein, shall be used when the vessel is engaged in fishing north of Point Conception.
(2) The form entitled Commercial Passenger Fishing Vessel Log, Southern California, DFW 195B (Rev 01/16), incorporated by reference herein, shall be used when the vessel is engaged in fishing south of Point Conception.
(b) The owner(s) and/or operator(s) of each vessel required to obtain a license under Section 7920 of the Fish and Game Code shall post a notice in a prominent place on the vessel giving information to fishermen on license requirements, bag limits, and other pertinent information. This notice shall be furnished by the department.
(c) Both the vessel owner(s) and/or operator(s) shall be responsible for keeping accurate records and insuring the vessel is in compliance with sub-sections (a) and (b) above.
(d) All fishing activity records are confidential pursuant to Fish and Game Code Sections 7923 and 8022 and Government Code Sections 6276 and 6276.10.
(e) Boat Limits: When two or more persons licensed or otherwise authorized to sport fish in ocean waters off California or in the San Francisco Bay District, as defined in Section 27.00, are angling for fish in these waters aboard a vessel licensed under Section 7920, fishing by these persons (to include vessel operator(s) and crew members where licensed to sport fish under their own individual limits) may continue until the passenger’s boat limits of those fish are taken and possessed aboard the vessel as authorized under this section.
(1) For purposes of this section, the vessel operator(s) and crew members are not passengers and may not take fish towards obtaining boat limits for passengers except for casting, setting trolling gear, gaffing or netting fish, but may take fish during a fishing trip for their personal use only. Vessel operator(s) and crew members may assist passengers in other activities including, but not limited to, obtaining bait, chumming, baiting and untangling hooks and lines, identifying, dispatching, filleting, counting, bagging and otherwise handling fish taken by passengers. Upon completion of a fishing trip, the vessel operator(s) and crew members may only possess fish that are part of their own personal bag limit not to exceed authorized sportfishing daily bag and possession limits.
(2) Fish taken by operator(s) and crew members for personal use pursuant to (e)(1) above must be separated from fish taken under a boat limit and labeled in a manner that they can be identified as an individual operator’s or crew members fish. Operator(s) and crew members are also prohibited from giving all or part of their individual limit to any passenger during or after a trip.
(3) The authorization for boat limits aboard a vessel does not apply to fishing trips originating in California where fish are taken in other jurisdictions.
(4) A boat limit for a species or species group is equal to the number of passengers aboard the vessel that are licensed or otherwise authorized to sport fish in ocean waters off California or in the San Francisco Bay District multiplied by the individual daily bag limit authorized for a species or species group. For purposes of this section, the number of passengers shall not include the vessel operator(s) and crew members. It is unlawful to exceed the boat limit at any time.
(5) Prior to the departure on a fishing trip of a vessel that is licensed under Fish and Game Code Section 7920, the number of passengers, to include passengers, guests, operators and crew who will be fishing, shall be recorded under “number of passengers” on the logbook for that trip. In addition, the number of vessel operator(s) and crew members who will fish for that trip shall be recorded in the space to the right of the operator’s signature on the logbook.
(6) Upon completion of a sport fishing trip aboard a vessel reporting under this section, each licensed or otherwise authorized angler may not possess more than the daily bag and possession limits. For the purposes of this section, a fishing trip is completed at the time a person disembarks from the vessel and individual possession limits apply.
(7) Species for which no daily bag limit exists are not included in the boat limit.
(f) Where boat limits are provided for in this section, the vessel operator(s) and crew members may be cited for violations occurring aboard the vessel, including but not limited to violations of the following:
(1) Overlimits
(2) Possession of prohibited species
(3) Minimum size limits
(4) Fish taken out of season or in closed areas
(g) Boat limits are not authorized for sturgeon fishing and shall not apply to the take, possession or retention of sturgeon.
CHAPTER 4: OCEAN FISHING

27.00. Definition.
The Ocean and San Francisco Bay District consists of the Ocean and San Francisco Bay, as described herein. The Ocean is the open seas adjacent to the coast and islands and the waters of open or enclosed bays contiguous to the ocean, including the waters of Elkhorn Slough, west of Elkhorn Road between Castroville and Watsonville. San Francisco Bay is the waters of San Francisco and San Pablo bays plus all their tidal bays, sloughs, estuaries, and tidal portions of their rivers and streams between the Golden Gate Bridge and the west Carquinez Bridge. For purposes of this section, waters downstream of the Trancas Bridge on the Napa River, downstream of the Highway 121 Bridge on Sonoma Creek, and downstream of the Payarn Street Bridge on the Petaluma River are tidal portions of the Napa River, Sonoma Creek, and Petaluma River, respectively. Also see Section 1.53.

27.05. Chumming.
Chumming, including chumming with live bait, is permitted.

27.10. Live Bait Restrictions.
Tilapia may not be used or possessed for use as bait in ocean waters.

27.15. Multi-Day Fishing Trips.
The following provisions apply to anglers and to boat owners and operators when a Declaration for a Multi-Day Fishing Trip has been filed with the department.

(a) Provisions related to the angler: Up to three daily bag and possession limits of saltwater fin fish, lobster and rock scallops and up to two daily bag and possession limits of abalone are allowed for a person fishing during a multi-day trip in ocean waters from a boat whose owner or operator has filed a Declaration for Multi-Day Fishing Trip, pursuant to the provisions of sub-section (b) below.

(1) The provisions of this section do not authorize any person to take more than one daily bag limit of fish during one calendar day.

(2) The provisions of this section do not apply to the taking and possession of salmon, steelhead, striped bass and sturgeon.

(b) Provisions related to the boat owner or operator who has filed for a Declaration for a Multi-Day Fishing Trip:

(1) The owner or operator of a boat shall submit to the nearest department office a Declaration for Multi-Day Fishing Trip and payment as specified in Section 701. The Declaration for Multi-Day Fishing Trip shall include the following information:

(A) Place, date and estimated time of return of the boat.

(B) Place, date and estimated time of departure of the boat.

(C) Name of the boat.

(D) Date and hour Declaration mailed or delivered to the department.

(E) Additional requirements for Commercial Passenger Fishing Vessels:

1. The Commercial Boat Registration Number issued pursuant to Fish and Game Code Section 7880.

2. Copy of passenger manifest if fishing within 10 miles of the mainland shore of California.

(2) The Declaration for Multi-Day Fishing Trip must be submitted to the nearest department office in order for any person aboard such boat to possess more than one bag limit of saltwater fin fish, abalone, lobster and rock scallops. If mailed, the Declaration for Multi-Day Fishing Trip must be received at least 48 hours prior to the date of the boat’s departure. If the 48-hours notice is not met, the original copy of the form signed by an authorized department representative must be aboard the vessel during the trip. Forms will be accepted for authorization only during business hours of 8:00 a.m. to 5:00 p.m.

(3) A Declaration for Multi-Day Fishing Trip may not be filed for a trip unless the trip is continuous and extends for a period of 12 hours or more on the first and last days of the trip and no berthing or docking is permitted within five miles of the mainland shore.

(4) The owner or operator of a boat filing a Declaration for Multi-Day Fishing Trip shall prepare such form in duplicate, and shall require the duplicate to be posted in full view of the passengers aboard the boat.

(5) All passengers must disembark at place of return as stated on the Declaration for Multi-Day Fishing Trip.

FIN FISH — MINIMUM SIZE LIMITS, BAG AND POSSESSION LIMITS, AND SEASONS

Regulations that follow in sections 27.25 through 27.50 define fishing seasons and depth constraints that are effective within each Groundfish Management Area. These sections apply to take and possession of federally-managed groundfish species as defined in Section 1.91 and California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos, which are state-managed species known to associate with federal groundfish.

(a) Depth Constraints: A depth constraint means that during the open season, the aforementioned species may not be taken or possessed in water depths deeper than the specified depth. Two specific definitions of “depth” apply off California. In waters shallower than 30 fathoms, “depth” is defined by general depth contour lines. In waters equal to or deeper than 30 fathoms, “depth” is defined by approximating a particular depth contour by connecting the appropriate set of waypoints adopted in Federal regulations (50 CFR Part 660, Subpart C).

(b) General Provisions.

(1) Take and Possession: During any open season in any Groundfish Management Area, in waters deeper than where fishing is authorized or within special closure areas established within a Groundfish Management Area, it is unlawful to take or possess the aforementioned species except as provided in subsections (b)(1) through (b)(1)(D) below and sections 27.25 through 27.50 of these regulations.

(A) Transit: The aforementioned species may be possessed aboard a vessel in transit through a closed area with no fishing gear deployed in the water.

(B) “Other Flatfish” as defined in subsection 1.91(a)(10), petrale sole and starry flounder may be taken or possessed in all depths year-round.

(C) Shore Based Angling: When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man-made structures connected to the shore), all species may be taken or possessed year-round (See 27.50(b)(1) for exceptions in the Cowcod Conservation Areas). No vessel or watercraft (motorized or non-motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.
(D) Diving or Spearfishing: When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed year-round (See 27.50(b)(2)) for exceptions in the Cowcod Conservation Areas). When boat-based groundfish fishing is closed, all types of fishing gear, except spearfishing gear, are prohibited to be aboard the vessel or watercraft (motorized or non-motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

(c) Closed Season: During any closed season in any Groundfish Management Area, it is unlawful to take or possess the aforementioned species regardless of depth, except as provided in subsections (b)(1)(A) through (b)(1)(D) above and sections 27.25 through 27.50 of these regulations.

(d) California Rockfish Conservation Area: Within any Groundfish Management Area, waters that are closed for these species during specified times and/or closed in specified depths shall be known as the California Rockfish Conservation Area. See Section 27.51.

(e) Fishery closure and/or rule change: When the department determines, based on the best available scientific information, that an annual harvest limit (optimum yield (OY)), annual catch limit (ACL), annual catch target (ACT), recreational harvest guideline, or recreational harvest target] established in regulation by the NOAA Fisheries (National Marine Fisheries Service) for any species of federally-managed groundfish or aggregate group of federal groundfish species has been exceeded or is projected to be exceeded prior to the end of the year or that catches are less than predicted, the following rule changes may occur:

(1) The department may modify the seasons and/or depth constraints for any species of federally-managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. Season and/or depth modifications may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.

(2) The department may adjust existing bag or sub-bag limits or establish additional bag or sub-bag limits as needed for any species of federally-managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. Bag limits may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.

(3) The department may adjust existing size limits or establish additional size limits as needed for any species of federally-managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. Size limits may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.

(f) Notice of closure and/or rule change: The department shall give the public and the NOAA Fisheries no less than 10 calendar days’ notice of any fishery closure or rule change implemented pursuant to this Section via a department news release. Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department’s website at: www.wildlife.ca.gov/regions/marine or by calling (831) 649-2801 for recorded information, or by contacting a department office.

27.25. Northern Groundfish Management Area.
This Section applies to take and possession of federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Northern Groundfish Management Area means ocean waters between 42° 00’ N. lat. (the Oregon/California border) and 40° 10’ N. lat. (near Cape Mendocino, Humboldt County).

(b) Seasons and depth constraints (except as provided in subsection (c) below):

(1) January 1 through April 30: Closed.
(2) May 1 through October 31: Take of all species is prohibited seaward of a line approximating the 30-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 30-fathom depth contour is defined by straight lines connecting the set of 30-fathom waypoints as adopted in Federal regulations (50 CFR Part 660, Subpart G).
(3) November 1 through December 31: Open for all species with no depth restrictions.

(c) Leopard shark may be taken or possessed in Humboldt Bay year-round.

27.30. Mendocino Groundfish Management Area.
This Section applies to take and possession of federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Mendocino Groundfish Management Area means ocean waters between 40° 10’ N. lat. (near Cape Mendocino, Humboldt County) and 38° 57.50’ N. lat. (at Point Arena, Mendocino County).

(b) Seasons and depth constraints (except as provided in subsection (c) below):

(1) January 1 through April 30: Closed.
(2) May 1 through October 31: Take of all species is prohibited seaward of 20 fathoms in depth as described by general depth contour lines along the mainland coast and along islands and offshore seamounts.
(3) November 1 through December 31: Open for all species with no depth restrictions.

(c) California scorpionfish

(1) May 1 through August 31: Take is prohibited seaward of 20 fathoms in depth as described by general depth contour lines along the mainland coast and along islands and offshore seamounts.
(2) September 1 through December 31: Closed.

27.35. San Francisco Groundfish Management Area.
This Section applies to take and possession of federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The San Francisco Groundfish Management Area means ocean waters between 38° 57.50’ N. lat. (at Point Arena, Mendocino County) and 37° 11’ N. lat. (at Pigeon Point, San Mateo County).

(b) Seasons and depth constraints (except as provided in subsection (c) below):

(1) January 1 through April 14: Closed.
(2) April 15 through December 31: Take of all species is prohibited seaward of a line approximating the 40-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 40-fathom depth contour is defined by straight lines connecting the set of 40-fathom waypoints as adopted in Federal regulations (50 CFR Part 660, Subpart G).

(c) Special exceptions to subsection (b) above:

(1) Leopard shark may be taken or possessed in Drake’s Bay, Bolinas Bay, Tomales Bay, Bodega Harbor, and San Francisco Bay year-round.

(2) California scorpionfish

(A) April 15 through August 31: Take is prohibited seaward of a line approximating the 40-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 40-fathom depth contour is defined by straight lines connecting the set of 40-fathom waypoints as adopted in Federal regulations (50 CFR Part
27.40. Central Groundfish Management Area.
This Section applies to take and possession of federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Central Groundfish Management Area means ocean waters between 37° 11' N. lat. (at Pigeon Point, San Mateo County) and 34° 27' N. lat. (at Point Conception, Santa Barbara County).

(b) Seasons and depth constraints (except as provided in subsection (c) below):
(1) January 1 through March 31: Closed.
(2) April 1 through December 31: Take of all species is prohibited seaward of a line approximating the 50-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 50-fathom depth contour is defined by straight lines connecting the set of 50-fathom waypoints as adopted in Federal regulations (50 CFR Part 660, Subpart G).
(c) Special exceptions to subsection (b) above:
(1) Leopard shark may be taken or possessed year-round.
(2) California scorpionfish
(A) April 1 through August 31: Take is prohibited seaward of a line approximating the 50-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 50-fathom depth contour is defined by straight lines connecting the set of 50-fathom waypoints as adopted in Federal regulations (50 CFR Part 660, Subpart G).
(B) September 1 through December 31: Closed.

27.50. Cowcod Conservation Areas.
This Section applies to take and possession of federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Cowcod Conservation Areas are special closure areas within the Southern Groundfish Management Area.
(b) Seasons and depth constraints (except as provided in subsection (c) below)
(1) January 1 through the last day in February: Closed.
(2) March 1 through December 31: Take of all species is prohibited seaward of a line approximating the 60-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 60-fathom depth contour is defined by straight lines connecting the set of 60-fathom waypoints as adopted in Federal regulations (50 CFR Part 660, Subpart G).
(c) Special exceptions to subsection (b) above:
(1) Regulations that apply to the Cowcod Conservation Areas are specified in Section 27.50.
(2) Leopard shark may be taken or possessed in Newport Bay, Alamitos Bay, Mission Bay, and San Diego Bay year-round.
(3) California scorpionfish
(A) January 1 through August 31: Take is prohibited seaward of a line approximating the 60-fathom depth contour along the mainland coast and along islands and offshore seamounts. The 60-fathom depth contour is defined by straight lines connecting the set of 60-fathom waypoints as adopted in Federal regulations (50 CFR Part 660, Subpart G).
(B) September 1 through December 31: Closed.

27.45. Southern Groundfish Management Area.
This Section applies to take and possession of federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Southern Groundfish Management Area means ocean waters between 34° 27' N. lat. (at Point Conception, Santa Barbara County) and the U.S./Mexico border. The Cowcod Conservation Areas are special closure areas within the Southern Groundfish Management Area.

(b) Seasons and depth constraints (except as provided in subsection (c) below)
(1) January 1 through the last day in February: Closed.
(2) March 1 through December 31: Open for only the species or species groups listed in (A) through (G) below, and only in waters shallower than 20 fathoms in depth as described by general depth contour lines.
(A) Nearshore rockfish, as defined in subsection 1.91(a)(1)
(B) Cabezon
(C) Greenlings of the genus Hexagrammos
(D) California sheephead
(E) Ocean whitefish
(F) Lingcod
(G) Shelf rockfish, as defined in subsection 1.91(a)(3), except bronzespotted rockfish, cowcod, and yelloweye rockfish which may not be taken or possessed within the Cowcod Conservation Area.
(c) Special exceptions to subsection (b) above:
(1) California scorpionfish
(A) January 1 through August 31: Take is prohibited seaward of 20 fathoms in depth, as described by general depth contour lines along the mainland coast and along islands and offshore seamounts.
(B) September 1 through December 31: Closed.
(2) Notwithstanding subsection 27.20(b)(1)(C), when angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man-made structures connected to the shore), only the species identified in (b)(2) above and California scorpionfish may be taken or possessed year-round. No vessel or watercraft (motorized or non-motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.
(3) Notwithstanding subsection 27.20(b)(1)(D), when diving or spearfishing, as authorized in Section 28.90, only the species identified in (b)(2) above and California scorpionfish may be taken or possessed year-round. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non-motorized) while spearfishing for the purpose of taking or possessing these species under this provision.
27.51. California Rockfish Conservation Area.
California Rockfish Conservation Area (CRCA) means the ocean waters that are closed to recreational groundfish fishing at specified times, or closed in specified depths or areas. CRCA serves to minimize interaction with particular species of overfished groundfish that cannot be selectively avoided and thus must be protected from overharvest by closing times, depths or areas to recreational fishing for federal groundfish and associated species managed by California. See Section 27.20.
(a) In the CRCA, take and possession is prohibited for federally-managed groundfish species as defined in Section 1.91, California sheephead, ocean whitefish, and all greenlings of the genus Hexagrammos.
(b) This regulation does not apply in cases where these species are possessed aboard a vessel in transit with no fishing gear deployed in the water.

27.60. Limit.
(a) General. No more than 20 finfish in combination of all species with not more than 10 of any one species, may be taken or possessed by any one person except as otherwise provided or as defined in sub-section (c) below or in Section 195. See sections 27.70 through 28.62 for special bag limits, minimum size limits and poundage restrictions for certain species that apply in addition to the general bag limit.
(b) There is no limit on the following species: anchovy, grunion, jacksmelt, topsmelt, Pacific butterfish (pompano), queenfish, sanddabs, skipjack, jack mackerel, Pacific mackerel, Pacific staghorn sculpin, round herring, Pacific herring, Pacific sardine, petrale sole and starry flounder.
(c) Boat limit. When two or more persons that are licensed or otherwise authorized to sport fish in ocean waters off California, or in waters of the San Francisco Bay District, defined in Section 27.00, are angling for finfish aboard a vessel in these waters, fishing by all authorized persons aboard may continue until boat limits of finfish are taken and possessed aboard the vessel as authorized under this section or Section 195, Title 14, CCR.
(1) The authorization for boat limits aboard a vessel does not apply to fishing trips originating in California where fish are taken in other jurisdictions.
(2) A boat limit for a species or species group is the number of persons aboard a vessel that are licensed or otherwise authorized to sport fish in ocean waters off California, or in waters of the San Francisco Bay District, (see special conditions of Section 195, Title 14, CCR, applicable to operator and crew members of vessels licensed pursuant to Fish and Game Code 7920) multiplied by the individual daily bag limit authorized for a species or species group in those waters. With the exception of species listed in sub-section (b) above, the total fish aboard a boat may not exceed the aggregate per-person daily bag limit of 20 finfish in combination of all species times the number of anglers licensed or otherwise authorized to sport fish aboard the vessel. It is unlawful to exceed the boat limit at any time.
(3) All persons aboard a vessel may be cited where violations involving boat limits are found, including, but not limited to the following violations:
(A) Over limits
(B) Possession of prohibited species
(C) Violation of size limits
(D) Fish taken out of season or in closed areas.
(4) Upon completion of a fishing trip aboard a vessel, each licensed angler or person otherwise authorized to sport fish may not possess more than the individual daily bag and possession limits. For purposes of this section, a trip is completed at the time a person disembarks from a vessel and individual possession limits apply. Special boat limit provisions apply to persons fishing aboard commercial passenger fishing vessels reporting pursuant to Section 195, Title 14, CCR.
(5) Species for which no daily bag limit exists are not counted as part of a boat limit.
(6) Boat limits are not authorized for sturgeon fishing and shall not apply to the take, possession or retention of sturgeon.

27.65. Filleting of Fish on Vessels.
(a) Definition of Fillet: For the purpose of this section a fillet is the flesh from one side of a fish extending from the head to the tail which has been removed from the body (head, tail and backbone) in a single continuous piece.
(b) Fish That May be Filleted: No person shall fillet on any boat or bring ashore as fillets any fish, except in accordance with the following requirements:
(1) Kelp bass, barred sand bass, and spotted sand bass: All fillets shall be a minimum of seven and one half inches in length. Each fillet shall bear intact a one-inch square patch of skin.

(2) Barracuda: Fillets must be a minimum of 17 inches in length. Each fillet shall bear intact a one-inch square patch of skin.

(3) Lingcod: Lingcod fillets must be a minimum of 14 inches in length. Each fillet shall bear intact a one-inch square patch of skin. The minimum size and minimum fillet size for lingcod may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

(4) White sea bass: Fillets must be a minimum of 19 inches in length. Each fillet shall bear intact a one-inch square patch of skin.

(5) Pacific bonito: No more than 10 fillets of any length may be possessed. All bonito fillets possessed shall be considered a part of the allowable undersized tolerance of five bonito per day less than 24 inches fork length or weighing less than five pounds as provided in Section 28.32 of these regulations. All fillets shall bear intact a one-inch square patch of skin.

(6) California halibut: Fillets must be a minimum of 16 and three-quarter inches in length and shall bear the entire skin intact. A fillet from a California halibut (flesh from one entire side of the fish with the entire skin intact) may not be cut in half fillets. However, a fillet may be cut lengthwise in a straight line along the midline of the fillet where the fillet was attached to the vertebra (backbone) of the fish only if the two pieces of a fillet remain joined along their midline for a length of at least two inches at one end of the fillet.

(7) Yellowtail: Fillets must be a minimum of 17 inches in length, except not more than 10 fillets may be less than 17 inches. Each fillet shall bear intact a one-inch square patch of skin.

(8) Rockfish: Fillets must have the entire skin attached. The minimum size and minimum fillet size for rockfish may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

(9) California scorpionfish (commonly termed "sculpin"): Fillets must be a minimum of 5 inches. Each fillet shall bear intact a one-inch square patch of skin. The minimum size and minimum fillet size for California scorpionfish may be changed during the year or in-season by the department under the authority of sub-section 27.20(e). See subsection 27.20(f) for additional information.

(10) Ocean whitefish: Fillets must be a minimum of 6 and one half inches in length and shall bear the entire skin intact.

(11) For all species of tuna filleted on any boat or brought ashore as fillets south of a line running due west true from Point Conception, Santa Barbara County (34° 27” N. lat.) each fish must be individually bagged as follows:

(A) The bag must be marked with the species’ common name.

(B) The fish must be cut into six pieces with all skin attached. These pieces are the four loins, the collar removed as one piece with both pectoral fins attached and intact, and the belly fillet cut to include the vent and with both pelvic fins attached and intact.

(12) All other species except those listed in subsection (c) of this section: Each fillet shall bear intact a one-inch square patch of skin. The fillets may be of any size.

(c) Fish That May Not be Filleted, Steaked or Cut into Chunks: No person shall fillet, steak or cut into chunks on any boat or bring ashore as fillets, steaks or chunks the following: any species of silver skin.

27.70. Trout in the Ocean.

(a) Methods of take: The trout must voluntarily take the bait or lure in its mouth.

(b) Limit: Three, except the take of steelhead rainbow trout in the ocean is prohibited.

27.75. Salmon Closures.

(a) No salmon may be taken at any time in ocean waters at the Smith River mouth bounded on the north by 41°53’30” N. lat. (approximately 3 nautical miles north of the Smith River mouth), on the west by 124°16’24” W. long. (approximately 3 nautical miles offshore), and on the south by 41°53’30” N. lat. (approximately 3 nautical miles south of the Smith River mouth).

(b) No salmon may be taken at any time in ocean waters at the Klamath River mouth bounded on the north by 41°35’30” N. lat. (approximately 3 nautical miles north of the Klamath River mouth), on the west by 124°08’54” W. long. (approximately 3 nautical miles offshore), and on the south by 41°29’24” N. lat. (approximately 3 nautical miles south of the Klamath River mouth).

(c) No salmon may be taken during the months of August and September in ocean waters at the Eel River mouth bounded on the north by 40°40’24” N. lat. (approximately 2 nautical miles north of the Eel River mouth), on the west by 124°21’24” W. long. (approximately 2 nautical miles offshore), and on the south by 40°36’24” N. lat. (approximately 2 nautical miles south of the Eel River mouth).

The 2018 ocean salmon fishing regulations have yet to be determined, and are not printed in this booklet. Pending review of 2017 spawning escapements, 2018 ocean abundance forecasts, annual management objectives, or other relevant issues, the Pacific Fishery Management Council (PFMC) may take action in March 2018 to open areas between Horse Mountain and the U.S./Mexico Border to ocean salmon fishing during April 2018. The remaining 2018 ocean salmon season, effective on or after May 1, 2018, for all ocean waters between the California-Oregon border and the U.S.-Mexico border and in Humboldt Bay will be decided by the PFMC in April 2018. New in 2018, the recreational ocean salmon fishing regulations in state waters will be amended through an automatic conformance process, as defined in Section 1.95, Title 14, CCR. For more information on this process, see “What’s New for 2018” on pg. 4.

The 2018 ocean salmon regulations will be announced on the CDFW website (wildlife.ca.gov/oceansalmon) and will be available in the 2018-2019 Sport Fishing Supplemental Regulations booklet available in May.
27.90. White Sturgeon.
(a) Open season: All year.
(b) Daily and annual bag limit: One fish per day.

Three fish per year statewide.
(c) Size limit: No fish less than 40 inches fork length or greater than 60 inches fork length may be taken or possessed.
(d) Methods of take: Only one single point, single shank, barbless hook may be used on a line when taking sturgeon. The sturgeon must voluntarily take the bait or lure in its mouth. No sturgeon may be taken by trolling, snagging or by the use of firearms. Sturgeon may not be gaffed, nor shall any person use any type of firearm or snare to take any sturgeon. For the purposes of this section, a snare is a flexible loop made from any material that can be tightened like a noose around any part of the fish.
(e) Removal from water. Any sturgeon greater than 68 inches fork length may not be removed from the water and shall be released immediately.

(f) Report card required: Any person fishing for or taking sturgeon shall have in their possession a non-transferable Sturgeon Fishing Report Card issued by the department and shall adhere to all reporting and tagging requirements for sturgeon defined in Sections 1.74 and 27.92, Title 14, CCR.

(g) For regulations on take and possession of sturgeon in inland waters as defined in Section 1.53, see Section 5.80 and Section 5.81.

(2) South of Pt. Conception, no minimum size limit.
(b) Limit: Two.
(c) Minimum size:
(1) North of Pt. Conception, 18 inches total length.
(2) South of Pt. Conception, no minimum size limit.
(d) Methods of take: No striped bass may be taken while using a sinker weighing over four pounds, or while using any power-driven gurdy or winch. Striped bass may only be taken by angling as defined by Section 1.05. Title 14, CCR, spearfishing pursuant to Section 1.76, and bow and arrow fishing tackle; snagging is an illegal method of take.

27.91. Green Sturgeon.
(a) Green sturgeon may not be taken or possessed.
(b) Green sturgeon may not be removed from the water and shall be released immediately.
(c) Green sturgeon taken and released incidentally to white sturgeon fishing shall be reported on a Sturgeon Fishing Report Card issued by the department, in accordance with procedures defined in Sections 1.74 and 27.92, Title 14, CCR.

(2) Immediately after recording the information above, the cardholder shall remove and completely detach the tag from the card and affix it to the white sturgeon. Cardholders shall not wait until completion of fishing activity to tag any white sturgeon in possession.

(3) The tag shall be securely fastened to the fish. To affix the tag, a “zip tie”, string, line or other suitable material shall be passed through the tag at the location specified on the sturgeon tag and attached to the fish.

(4) Tags shall not be removed from the report card until immediately prior to affixing to a white sturgeon. Any tags detached from the report card and not affixed to a white sturgeon shall be considered used and therefore invalid. No person shall possess any used or otherwise invalid sturgeon tags.

(5) Records of Prior Activity. All tags must be accounted for at all times by entry of a record on the Sturgeon Fishing Report Card corresponding to all tags that are not in the cardholder’s possession. Any tag that was lost or destroyed shall be recorded as such on the corresponding line on the Sturgeon Fishing Report Card.

(6) If the sturgeon has a department reward disk attached, write the reward disk number in the space provided on the report card.

27.92. White Sturgeon Report Card and Tagging Requirements for Ocean Waters.
(a) Sturgeon Fishing Report Card Required. All anglers must have a valid Sturgeon Fishing Report Card in their possession while fishing for or taking white sturgeon. Cardholders must complete and return the card pursuant to regulations in this Section and in Section 1.74 of these regulations.

(b) Tagging and Recording Requirements for Retained Fish. A Sturgeon Fishing Report Card includes detachable tags that shall be used to tag any white sturgeon that is taken and retained in the sport fishery. Any white sturgeon possessed by any person shall be tagged.

(1) Upon taking and retaining a white sturgeon, the cardholder shall immediately record the following information:
(A) The fishing location, time of catch and length of the fish shall be recorded legibly and permanently in the appropriate spaces on the tag. The cardholder shall immediately and completely punch out the date of catch (month and day) on the sturgeon tag. Tags shall be used in sequential order.
(B) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the Sturgeon Fishing Report Card which corresponds to the number on the tag.

(2) Methods of take: Only one single point, single shank, barbless hook may be used on a line when taking sturgeon. The sturgeon must voluntarily take the bait or lure in its mouth. No sturgeon may be taken by trolling, snagging or by the use of firearms. Sturgeon may not be gaffed, nor shall any person use any type of firearm or snare to take any sturgeon. For the purposes of this section, a snare is a flexible loop made from any material that can be tightened like a noose around any part of the fish.

(3) Ocean salmon possession limit: No more than two daily bag limits may be possessed when on land. On a vessel in ocean waters, no person shall possess or bring ashore more than one daily bag limit. See Section 28.65(e).

(4) One Rod Restriction north of Point Conception. Salmon may be taken by angling with no more than one rod in ocean waters north of Point Conception. See Section 28.65(e).

(b) Statewide coho (silver) salmon restrictions: No coho (silver) salmon may be retained.

(c) Ocean salmon possession limit: No more than two daily bag limits may be possessed when on land. On a vessel in ocean waters, no person shall possess or bring ashore more than one daily bag limit. See Section 1.17 and 27.60(e) of these regulations.

(d) Barbless Hooks. No more than two (2) single point, single shank barbless hooks shall be used in the ocean north of Point Conception (34° 27’00” N. lat.) when salmon fishing or fishing from any boat or floating device with salmon on board.

(e) Other Hook Restrictions. When fishing with bait in the ocean between Horse Mountain (40°05’00” N. lat.) and Point Conception, if angling by any means other than trolling, then no more than two (2) single point, single shank, barbless circle hooks shall be used. The distance between the two hooks must not exceed five inches when measured from the top of the eye of the top hook to the inner base of the curve of the lower hook, and both hooks must be permanently tied in place (hard tied). A circle hook is defined as a hook with a generally circular shape, and a point which turns inwards, pointing directly to the shank at a 90 degree angle. Trolling is defined as angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions. See Section 28.65(e).

(3) Removal from water. Any sturgeon greater than 68 inches fork length may not be removed from the water and shall be released immediately.

(4) Report card required: Any person fishing for or taking sturgeon shall have in their possession a non-transferable Sturgeon Fishing Report Card issued by the department and shall adhere to all reporting and tagging requirements for sturgeon defined in Sections 1.74 and 27.92, Title 14, CCR.

(f) For regulations on take and possession of sturgeon in inland waters as defined in Section 1.53, see Section 5.80 and Section 5.81.

(g) Boat limits, as defined in sub-section 27.60(e) and Section 195, are not authorized for sturgeon fishing and shall not apply to the take, possession or retention of white sturgeon.
processed for immediate consumption.

(a) The annual fee for the Sturgeon Fishing Report Card is specified in Section 701 of these regulations

27.95. Sturgeon Closure.
Green sturgeon and white sturgeon may not be taken in the following described area between January 1 and March 15: That portion of San Francisco Bay included within the following boundaries: A direct line between Pt. Chauncey (National Marine Fisheries Laboratory) and Pt. Richmond, the San Francisco-Oakland Bay Bridge and a direct line between Pt. Lobos and Pt. Bonita.

28.00. Grunion, California.
May be taken June 1 through March 31.

28.05. Garibaldi.
May not be taken or possessed.

28.06. White Shark.
White shark may not be taken, except under permit issued by the Department pursuant to Section 1002 of the Fish and Game Code for scientific or educational purposes.

28.10. Giant (Black) Sea Bass.
(a) May not be taken off California. All fish taken incidental to other fishing activity shall be immediately returned to the water where taken.
(b) Limit: Two per angler per trip when fishing south of United States-Mexico border. A valid fishing permit or license from the Mexican government constitutes proof that fish were taken legally.

May not be taken or possessed.

28.15. Halibut, California.
(a) Limit: Five in waters south of a line extending due west magnetic from Point Sur, Monterey County, and three in waters north of a line extending due west magnetic from Point Sur, Monterey County.
(b) Minimum size: Twenty-two inches total length.

28.20 Halibut, Pacific.
(a) Season:
[Note: The season for Pacific halibut has not been set as of the printing of this booklet, and is not included in here. See additional information about the Pacific halibut season in the box to the right.]
(b) Limit: One.
(c) Minimum size: None.
(d) Methods of Take:
(1) When angling, no more than one line with two hooks attached may be used.
(2) A harpoon, gaff, or net may be used to assist in taking a Pacific halibut that has been legally caught by angling. See Section 28.95 of these regulations for additional restrictions on the use of harpoons.
(3) Take by spearfishing is allowed pursuant to Section 28.90 of these regulations.

28.25. Barracuda, California.
Minimum size: Twenty-eight inches total length or seventeen inches alternate length.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:
(1) Northern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.25.
(2) Mendocino Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.30.
(3) San Francisco Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.35.
(4) Central Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45.
(5) Southern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45.
(6) Cowcod Conservation Areas: Open and closed dates and depth constraints as defined by Section 27.50.
(b) Limit: Two.
(c) Minimum size: 22 inches total length.
(d) Method of take: When angling, gear is restricted to not more than two hooks and one line. For purposes of this section, a hook is a single hook, or double or treble hook with multiple points connected to a common shank.
(e) Fishing rules for lingcod may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

28.27. Lingcod
(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:
(1) Northern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.25.
(2) Mendocino Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.30.
(3) San Francisco Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.35.
(4) Central Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45.
(5) Southern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45.
(6) Cowcod Conservation Areas: Open and closed dates and depth constraints as defined by Section 27.50.

PACIFIC HALIBUT INFORMATIONAL NOTE

As of press time, the 2018 recreational Pacific halibut fishing season regulations (Section 28.20(a)) have yet to be determined, and are not printed in this booklet. Following the determination of the 2018 California recreational quota amount in late January 2018, CDFW will formulate and provide a recommendation to the National Marine Fisheries Service on the desired 2018 season structure in time for inclusion in the federal regulations, to be effective prior to the start of the fishing season. The 2018 recreational Pacific halibut season dates will be published in the Federal Register and available on the NMFS Halibut Hotline: (800) 662-9825. They will also be provided on the CDFW website and printed in CDFW’s 2018-2019 Sport Fishing Regulations Supplement available in May, 2018.

CDFW Pacific Halibut Web Page
california-wildlife.ca.gov/conservation/marine/pacific-halibut
(2) Mendocino Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.30.
(3) San Francisco Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.35.
(4) Central Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.40.
(5) Southern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45.
(6) Cowcod Conservation Areas: Open and closed dates and depth constraints as defined by Section 27.50.
(b) Limit: Three fish, within a Rockfish, Cabezon, and Greenling complex (RCG complex, as defined in Section 1.91) bag limit of 10 fish.
(c) Minimum size: 15 inches total length.
(d) Method of take: When angling, gear is restricted to not more than two hooks and one line. For purposes of this section, a hook is a single hook, or double or treble hook with multiple points connected to a common shank.
(e) Fishing rules for cabezon may be changed during the year or in-season by the department under the authority of subsection 27.20(e) or Section 52.10. See subsection 27.20(f) for additional information.

(a) Minimum size: Fourteen inches total length or ten inches alternate length.
(b) Limit: Five in any combination of species.

28.32. Pacific Bonito.
(a) Limit: Ten.
(b) Minimum size: Twenty-four inches fork length or five pounds except that: Five fish less than twenty-four inches fork length or weighing less than five pounds may be taken and possessed.

28.35. White Seabass.
(a) Minimum size: Twenty-eight inches total length or twenty and one-half inches alternate length.
(b) Season: Open all year.
(c) Limit: Three, except that only one fish may be taken in waters south of Pt. Conception between March 15 and June 15.

(a) Limit: Ten.
(b) Minimum size: Twenty-four inches fork length except that: Five fish less than twenty-four inches fork length may be taken or possessed.

28.38. Tunas.
(a) Albacore:
(1) South of a line running due west true from 34°27’N. lat. (at Point Conception, Santa Barbara County) – The special limit for albacore is 10, which may be taken or possessed in addition to the overall general daily bag limit of 20 finfish specified in sub-section 27.60(a).
(2) North of a line running due west true from 34°27’N. lat. (at Point Conception, Santa Barbara County) – The special limit for albacore is 25, which may be taken or possessed in addition to the overall general daily bag limit of 20 finfish specified in sub-section 27.60(a).
(b) Bluefin tuna - The special limit for bluefin tuna is 2, which may be taken or possessed in addition to the overall general daily bag limit of 20 finfish specified in sub-section 27.60(a).
(c) There is no limit on skipjack tuna.
(d) For yellowfin tuna, bigeye tuna, and other tunas not listed above, the limit is 10. Unlike albacore and bluefin tuna, fish taken under this limit shall apply toward the overall general daily bag limit of 20 finfish specified in sub-section 27.60(a).

28.40. Broadbill Swordfish.
(a) Limit: Two.

28.41. Sixgill Shark, Sevengill Shark.
Limit: One of each species.

28.42. Shortfin Mako Shark, Thresher Shark, and Blue Shark.
Limit: Two of each species.

28.45. Surf Smelt (Night Smelt, Day Fish, Whitebait Smelt).
(a) Limit: Twenty-five pounds in combination.

28.47. Petrale Sole and Starry Flounder.
Petrale sole and starry flounder are federal groundfish, as defined in subsection 1.91(a), and are subject to special regulations as follows. Regulations of this Section do not apply to other species of flounders or sole.
(a) Open year-round
(b) There is no limit on petrale sole or starry flounder.
(c) Petrale sole and starry flounder may be taken in all depths.
(d) Fishing rule for petrale sole and starry flounder may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

Pacific sanddab, rock sole, sand sole, butter sole, curlfin sole, rex sole, and flathead sole are federal groundfish, also known in the aggregate as “other flatfish” pursuant to subsection 1.91(a)(10) and are subject to special regulations as follows. Regulations of this Section do not apply to other species of sanddabs, flounders, or sole.
(a) Open year-round.
(b) Limit: There is no limit on Pacific sanddab. The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to rock sole, sand sole, butter sole, curlfin sole, rex sole, and flathead sole.
(c) Fishing rules for Pacific sanddab, rock sole, sand sole, butter sole, curlfin sole, rex sole, and flathead sole may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

28.49. Soupfin Shark, Dover Sole, English Sole, Arrowtooth Flounder, Spiny Dogfish, Skates, Ratfish, Grenadiers, Finescale Codling, Pacific Cod, Pacific Whiting, Sablefish and Thornyheads.
Soupfin shark, Dover sole, English sole, arrowtooth flounder, spiny dogfish, all skates, ratfish, all grenadiers, finescale codling, Pacific cod, Pacific whiting, sablefish, longspine thornyhead, and
shortspine thornyhead are federal groundfish, as defined in subsection 1.91(a), and are subject to special regulations as follows.

Regulations of this Section do not apply to other species of flounders, sole, sharks, or codlings unless otherwise specified.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.25.

(2) Mendocino Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.30.

(3) San Francisco Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.35.

(b) Limit: Five.

(c) Minimum size: 10 inches total length.

(d) Fishing rules for California scorpionfish may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

28.56. Leopard Shark.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.25, except that take and possession is authorized year-round in Humboldt Bay.

(2) Mendocino Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.30.

(3) San Francisco Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.35, except that take and possession is authorized year-round in Drake’s Bay, Bolinas Bay, Tomales Bay, Bodega Harbor, and San Francisco Bay.

(4) Central Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.40, except that take and possession is authorized year-round in Elkhorn Slough.

(5) Southern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45, except that take and possession is authorized year-round in Newport Bay, Alamitos Bay, Mission Bay, and San Diego Bay.

(6) Cowcod Conservation Areas: Closed.

(b) Limit: Three.

(c) Minimum size: 36 inches total length.

(d) Fishing rules for leopard shark may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.25.

(2) Mendocino Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.30.

(3) San Francisco Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.35.
(4) Central Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.40.
(5) Southern Groundfish Management Area: Open and closed dates and depth constraints as defined by Section 27.45.
(6) Cowcod Conservation Areas: Open and closed dates and depth constraints as defined by Section 27.50.

(b) Limit: The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to ocean whitefish.

(c) Fishing rules for ocean whitefish may be changed during the year or in-season by the department under the authority of subsection 27.20(e). See subsection 27.20(f) for additional information.

(a) For the purposes of this section, the term “surfperch” refers to all species of the family Embiotocidae, in any combination.

(b) Open Season: Open all year, except surfperch may not be taken or possessed by a person in San Francisco Bay and San Pablo Bay between April 1 and July 31, inclusive. Shiner surfperch (Cymatogaster aggregata) are exempt from this seasonal closure and may be taken and possessed up to their daily bag limit in these areas during the closure period.

(c) Daily bag limits:
(1) In San Francisco Bay and San Pablo Bay, the aggregate limit is five surfperch, not including shiner surfperch. For all other areas, the aggregate limit is 20 surfperch, not including shiner surfperch. Not more than 10 surfperch may be of any one species.

(2) The special limit for shiner surfperch is 20, which may be taken or possessed in addition to the overall daily bag limit of 20 finfish specified in sub-section 27.60(c).

(d) Minimum size: redtail surfperch, ten and one-half inches total length. All other surfperch: none.

28.60. Herring Eggs.
(a) Limit: Twenty-five pounds (including plants) wet weight.

GEAR RESTRICTIONS

28.65. General.
Except as provided in this article, fin fish may be taken only on hook-and-line or by hand. Any number of hooks and lines may be used in all ocean waters and bays except:

(a) San Francisco Bay, as described in Section 27.00, where only one line with not more than three hooks may be used.

(b) On public piers, no person shall use more than two rods and lines, two hand lines, or two nets, traps or other appliances used to take crabs.

(c) When rockfish (genus Sebastes), lingcod (Ophiodon elongatus), cabezon (Scorpaenichthys marmoratus), or kelp or rock greenlings (Hexagrammos decagrammus and Hexagrammos lagocephalus) are aboard or in possession, where only one line with not more than two hooks may be used pursuant to Sections 28.55, 28.27, 28.28 or 28.29, respectively.

(d) No gaff hook shall be used to take or assist in landing any finfish shorter than the minimum size limit. For the purpose of this section a gaff hook is any hook with or without a handle used to assist in landing fish or to take fish in such a manner that the fish does not take the hook voluntarily in its mouth. No person shall take finfish from any boat or other floating device in ocean waters without having a landing net in possession or available for immediate use to assist in landing undersize fish of species having minimum size limits; the opening of any such landing net shall be not less than eighteen inches in diameter.

(e) North of Point Conception (34°27’00” N. lat.), where only one rod and line may be used by any angler fishing for salmon, or fishing from any boat or floating device with salmon on board.

(f) Mousetrap gear prohibited: It is unlawful to use, assist in using, or to possess aboard any vessel, hook-and-line gear commonly termed “mouse traps” constructed of a hook(s) or lure(s), attached to one end of a line that is attached to a float, or floats at the other end, and that when fished, is not attached directly to a person or vessel. Possession of such gear aboard a vessel shall be prima facie evidence that the gear is being used in violation of this regulation.

(g) North of Point Conception to Horse Mountain, Section 27.80(a)(3) applies to each angler fishing for salmon or fishing from any boat or floating device with salmon on board.

28.70. Weight, Power Driven Gurdies or Power Driven Winches.
(a) No sinker or weight weighing more than four pounds, nor any power driven gurdy or power driven winch, may be used in any ocean waters or saltwater bays north of Point Arguello. This regulation does not apply to:

(1) Power gurdies or power winches used solely for handling crab nets or traps;

(2) The use of downriggers where the downrigger line is not used as a fishing line but is attached to the fishing line by a breakaway line; or

(3) The use of electric fishing reels manufactured for sport fishing use.

In San Francisco and San Pablo bays and their saltwater tributaries, and in the open ocean and the contiguous bays of Mendocino, Sonoma and Marin counties, traps not over three feet in greatest dimension may be used to take shiner surfperch, Pacific staghorn scalpin and longjaw mudsuckers. Any other species taken shall be returned to the water immediately.

28.80. Dip Nets and Hawaiian Type Throw Nets.
Dip nets of any size and baited hoop nets not greater than 36 inches in diameter may be used to take herring. Pacific staghorn scalpin, shiner surfperch, surf smelt, topsmelt, anchovies, shrimp and squid. Hawaiian type throw nets may be used north of Point Conception to take such species.

28.85. Beach Nets.
Beach nets not over 20 feet in length with meshes at least 7/8 of an inch in length may be used to take surf smelt north of Point Conception.

28.90. Diving, Spearfishing.
Persons who are floating or swimming in the water may use spearfishing gear and skin or SCUBA diving equipment to take fin fish other than giant (black) sea bass, garibaldi, gulf grouper, broomtail grouper, trout, salmon, or broadbill [swordfish], except that:

(a) No person may possess or use a spear within 100 yards of the mouth of any stream in any ocean waters north of Ventura County.

(b) When spearfishing for or in possession of federal groundfish species or associated species as authorized pursuant to subsection 27.20(b) (1)(D), in an area or during a season closed to the take of these species, no fishing gear except spearfishing gear may be aboard the vessel or watercraft.

28.91. Slurp Guns.
Slurp guns may be used to take finfish except that bag and possession limits shall not be exceeded wherever they apply and no species of finfish may be taken for which a minimum size limit has been established (see Sections 27.60 and 28.00-28.55).

28.95. Spears, Harpoons and Bow and Arrow Fishing Tackle.
Spears, harpoons and bow and arrow fishing tackle may be used for taking all varieties of skates, rays, and sharks, except white sharks. Harpoons may be used to assist in taking Pacific halibut as specified in Section 28.20. Such gear may not be possessed or used within 100 yards of the mouth of any stream in any ocean waters north of Ventura County, nor aboard any vessel on any day or on any trip when broadbill swordfish or marlin have been taken. Bow and arrow fishing tackle may be used to take finfish other than giant (black) sea bass, garibaldi, gulf grouper, broomtail grouper, trout, salmon, broadbill [swordfish] and white shark.

29.00. Gear Used in Taking Grunion.
No appliances of any kind may be used to take grunion, and no holes may be dug in the beach to entrap them.
INVERTEBRATES

29.05. General.
(a) Except as provided in this article there are no closed seasons, closed hours or minimum size limits for any invertebrate. The bag limit on all invertebrates for which the take is authorized and for which there is not a bag limit otherwise established in this article is 35. In San Francisco and San Pablo bays and saltwater tributaries east of the Golden Gate Bridge invertebrates may not be taken at night except from the shore.
(b) Take of all invertebrates is prohibited within state marine reserves. Take of certain invertebrates may be prohibited within state marine parks and state marine conservation areas as per sub-section 632(b). In addition, tidal invertebrates may not be taken in any tidepool or other areas between the high tide mark (defined as Mean Higher High Tide) and 1,000 feet seaward and lateral to the low tide mark (defined as Mean Lower Low Water) except as follows:
(1) Except where prohibited within state marine reserves, state marine parks, state marine conservation areas, or other special closures only the following may be taken: red abalone, limpets, moon snails, turban snails, chiones, clams, cockles, mussels, rock scallops, native oysters, octopuses, squid, crabs, lobsters, shrimp, sand dollars, sea urchins and worms except that no worms may be taken in any mussel bed, unless taken incidental to the harvesting of mussels.
(c) Measuring Devices. Every person while taking invertebrates which have a size limit shall carry a device which is capable of accurately measuring the minimum legal size of the species taken.
(d) In all ocean waters skin and Self Contained Underwater Breathing Apparatus (SCUBA) divers may take invertebrates as provided in this article except that in all ocean waters north of Yankee Point (Monterey Co.), SCUBA may be used only to take sea urchins, rock scallops and crabs of the genus Cancer. For the purpose of this section, breathing tubes (snorkels) are not SCUBA.

MOLLUSKS

29.10. General.
(a) Except as otherwise provided in this article, saltwater mollusks, including octopus, may be taken only on hook-and-line or with the hands.
(b) The size of a mollusk is measured in greatest shell diameter.

29.15. Abalone.
(a) Effective April 1, 2019: Open Area: Except in the area described in subsection (a)(1) below, abalone may only be taken north of a line drawn due west magnetic from the center of the mouth of San Francisco Bay. No abalone may be taken, landed, or possessed if landed south of this line.
(1) No abalone may be taken in the Fort Ross area bounded by the mean high tide line and a line drawn due south true from 38° 30.63’ N, 123° 14.98’ W (the northern point of Fort Ross Cove) and a line drawn due west true from 38° 29.45’ N, 123° 11.72’ W (Jewel Gulch, south boundary Fort Ross State Park).
(b) Effective April 1, 2019: Open Season and Hours:
(1) Open Season: Abalone may be taken only during the months of May, June, August, September and October.
(2) Open Hours: Abalone may be taken only from 8:00 AM to one-half hour after sunset.
(c) Effective April 1, 2019: Bag Limit and Yearly Trip Limit: Three red abalone, Haliotis rufescens, may be taken per day. No more than three abalone may be possessed at any time. No other species of abalone may be taken or possessed. Each person taking abalone shall stop detaching abalone when the limit of three is reached. No person shall take more than 12 abalone during a calendar year. In the Open Area as defined in subsections 29.15(a) and 29.15(a)(1) above, not more than 9 abalone of the yearly trip limit may be taken south of the boundary between Sonoma and Mendocino Counties.
(d) Minimum Abalone Size: All red abalone must be seven inches or greater measured along the longest shell diameter. All legal size abalone detached must be retained. No undersized abalone may be brought ashore or aboard any boat, placed in any type of receiver, kept on the person, or retained in any person’s possession or under his control. Undersize abalone must be replaced immediately to the same surface of the rock from which detached. Abalones brought ashore shall be in such a condition and free of sharp edges. Knives, screwdrivers and sharp instruments are prohibited.
(e) Special Gear Provisions: The use of SCUBA gear or surface supplied air to take abalone is prohibited. Abalone may not be taken or possessed aboard any boat, vessel, or floating device in the water containing SCUBA or surface supplied air. Abalone may be taken only by hand or by devices commonly known as abalone irons. Abalone irons must be less than 36 inches long, straight or with a curve having a radius of not less than 18 inches, and must not be less than 3/4 inch wide nor less than 1/16 inch thick. All edges must be rounded and free of sharp edges. Knives, screwdrivers and sharp instruments are prohibited.
(f) Measuring Device. Every person while taking abalone shall carry a fixed caliper measuring gauge capable of accurately measuring seven inches. The measuring device shall have fixed opposing arms of sufficient length to measure the abalone by placing the gauge over the shell.
(g) Abalone Possession and Transportation: Abalones shall not be removed from their shell, except when being prepared for immediate consumption.
(1) Individuals taking abalone shall maintain separate possession of their abalone. Abalone may not be commingled in a float tube, dive board, dive bag, or any other container or device, until

RED ABALONE SEASON CLOSED FOR 2018

Because poor environmental conditions have caused major reductions in northern California red abalone populations, the red abalone fishery is closed for 2018. In the coming year, the Fish and Game Commission may approve a new Red Abalone Fishery Management Plan and determine whether or not the closure should be extended beyond 2018.

For health advisories related to domoic acid in California crab and other advisories for crustaceans, finfish, and shellfish:
Call the California Department of Public Health at 1-800-553-4133
When circumstances arise, warnings, quarantine information and health advisories generated by the California Department of Public Health concerning consumption of California’s ocean finfish, shellfish and crustaceans will also be posted online at:

HEALTH ADVISORY: DOMOIC ACID
properly tagged. Only after abalones are properly tagged, as described in Section 29.16(b), Title 14, CCR, may they be commingled with other abalone taken by another person.

(h) Report Card Required: Any person fishing for or taking abalone shall have in their possession a nontransferable Abalone Report Card issued by the department and shall adhere to all reporting and tagging requirements for abalone defined in Sections 1.74 and 29.16, Title 14, CCR.

(i) Effective April 1, 2018: All ocean waters are closed to the take of abalone. Abalone may not be taken or possessed. The following exceptions are for abalone in possession prior to April 1, 2018:

(1) Minimum Abalone Size: All red abalone must be seven inches or greater measured along the longest shell diameter.

(2) Abalone Possession and Transportation: It shall be unlawful to possess any untagged abalone or any abalone that have been removed from their shell, except when they are being prepared for immediate consumption.

(j) This subdivision and subdivision (i) shall remain in effect only until April 1, 2019, and as of that date is repealed, unless a later enacted amendment deletes or extends that date.

29.16. Abalone Report Card and Tagging Requirements. [Season closed for 2018. See Section 29.15 on pg. 35]

(a) Abalone Report Card Required. All individuals including divers must have an Abalone Report Card in their immediate possession while fishing for or taking red abalone. Individuals must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Tagging Requirements. An Abalone Report Card includes detachable tags that shall be used to tag any abalone that is taken and retained in the sport fishery. Any red abalone possessed by any person shall be tagged.

(1) Cardholders shall tag any red abalone either immediately upon exiting the water or immediately upon boarding a vessel, whichever occurs first. For the purposes of this section a vessel is defined as any watercraft used or capable of being used as a means of transportation on water (reference Section 9840(a) CVC). Cardholders shall not wait to return to their vehicle, beach site or other location to tag any abalone in possession.

Exception: Cardholders who dive from a non-motorized vessel such as a kayak that is in the water may wait until immediately after disembarking from the non-motorized vessel to tag and record any abalone in possession, but shall not transfer any abalone from his or her immediate possession unless they are first tagged and recorded on the report card.

(2) The cardholder shall fill in the month, day, time of catch, and fishing location on the abalone tag, remove and completely detach the tag from the card, and affix it to the shell of the abalone.

(3) The tag shall be securely fastened to the shell of the abalone. To affix the tag, a “zip tie”, string, line or other suitable material shall be passed through a siphon hole on the abalone shell and through the tag at the location specified on the abalone tag.

(4) Tags shall be used in sequential order, and shall not be removed from the report card until immediately prior to affixing to an abalone. Any tags detached from the report card and not affixed to an abalone shall be considered used and therefore invalid.

(5) No person shall possess any used or otherwise invalid abalone tags not attached to an abalone shell.

(c) Reporting Requirements. Immediately upon tagging all abalone in possession, the cardholder shall record the month, day, time of catch, and fishing location in the appropriate spaces on the numbered line on the Abalone Report Card which corresponds to the number on the tag attached to the abalone.

(d) Records of Prior Activity. All tags must be accounted for at all times by entry of a record on the Abalone Report Card corresponding to all tags that are not in possession. Any tag that was lost or destroyed shall be recorded as such on the corresponding line on the Abalone Report Card. Any tag that was inadvertently removed and is still in possession shall be recorded as void on both the tag and the corresponding line on the Abalone Report Card.

(e) Abalone tags must be left affixed to the shell, including while stored at a residence or non-transient location, until the abalone is processed for immediate consumption.

(f) The annual fee for the Abalone Report Card is specified in Section 7149.8 of the Fish and Game Code.

29.17. Kellet’s Whelk

(a) Open Season: From July 1 through the first Wednesday after the 15th of March.

29.20. Clams General.

(a) Except as provided in this article, there are no closed seasons, bag limits or size limits on saltwater clams.

(b) Fishing hours: One-half hour before sunrise to one-half hour after sunset.

(c) Special gear provisions: Spades, shovels, hoes, rakes or other appliances operated by hand, except spears or gaff hooks, may be used to take clams. No instrument capable of being used to dig clams may be possessed between one-half hour after sunset and one-half hour before sunrise, on any beach of this state, except tools and implements used in the work of cleaning, repairing or maintaining such beach when possessed by a person authorized by appropriate authority to perform such work.

(d) Clams ashore: Clams which have a size limit when being taken must be brought ashore above the high water mark in such a condition that the size can be determined. Such clams not in the shell may not be transported or possessed, except when being prepared for immediate consumption. Clams which have a size limit and are not retained shall be immediately reburied in the area from which dug.

29.25. Gaper Clams (Horse Clams and Horseneck Clams) and Washington Clams.

(a) Limit: Ten of each species, except in Humboldt Bay the limit is fifty in combination; however, no more than 25 gaper clams may be taken or possessed. In Elkhorn Slough the limit is twelve in combination. All gaper clams and Washington clams dug, regardless of size or broken condition, must be retained until the bag limit is reached. For purposes of this section, clams commonly termed horse clams or horseneck clams are gaper clams, not geoduck clams regulated pursuant to Section 29.30.

29.30. Geoduck Clams.

(a) Limit: Three. The first three geoduck clams dug must be retained as the bag limit regardless of size or broken condition. For purposes of this section, clams commonly termed horse clams or horseneck clams are not geoduck clams.

29.35. Littleneck Clams, Soft-Shell Clams, Chiones, Northern Quahogs, and Cockles.

(a) Limit: Fifty in combination.

(b) Minimum size: One and one-half inches in greatest diameter, except there is no size limit for soft-shell clams. All soft-shell clams dug, regardless of size or broken condition, must be retained until the bag limit is reached.

29.40. Pismo Clams.

(a) Open season: May be taken in Santa Cruz and Monterey counties September 1 through April 30. In all other counties, except in state marine reserves or other marine protected areas which prohibit the take of clams (see Section 632), Pismo clams may be taken at any time of the year.

(b) Limit: Ten.

(c) Minimum size: Five inches in greatest shell diameter north of the boundary between San Luis Obispo and Monterey counties; four and one-half inches in greatest shell diameter south of the boundary, between San Luis Obispo and Monterey counties.

(d) Clam preserves: No clams shall be taken within state marine reserves or other marine protected areas which prohibit the take of clams (see Section 632).
29.45. Razor Clams.
(a) Open season:
(1) Clam Beach (also known as Little River Beach) in Humboldt County: Between Mad River and south of the boundary line due west from the Clam Beach south parking lot trailhead (40° 59.67’ N. lat.) open only during even-numbered years; between Moonstone Beach and north of the boundary line due west from the Clam Beach south parking lot trailhead (40° 59.67’ N. lat.) open only during odd-numbered years.
(2) In Del Norte County: North of Battery Point open only during odd-numbered years; south of Battery Point open only during even-numbered years.
(3) All other areas: Open all year.
(b) Limit: Twenty. The first twenty clams dug must be retained as the bag limit regardless of size or broken condition.

29.55. Mussels.
(a) Limit: Ten pounds (in the shell) of California sea mussels and bay mussels in combination.

29.60. Rock Scallops.
(a) Limit: Ten.
(b) Methods of take: Rock scallops may be taken only by hand, by the use of dive knives, or by devices commonly known as abalone irons in compliance with provisions of Section 29.15(e) of these regulations.

29.65. Speckled (Bay) Scallops.
May not be taken or possessed.

29.70. Market Squid, Jumbo Squid.
Squid may be taken with hand-held dip nets. There is no limit.

29.71. Moon Snails.
(a) Limit: Five.
(b) Open season: All year except that moon snails may not be taken north of the Golden Gate Bridge.

CRUSTACEANS

29.80. Gear Restrictions.
(a) General Provisions:
(1) Saltwater crustaceans may be taken by hand.
(2) Nets, traps or other appliances may not be used except as provided in this Section.
(3) It is unlawful to disturb, move, or damage any trap, or remove any saltwater crustacean from a trap, that belongs to another person without written permission, including permission transmitted electronically, in possession from the owner of the trap. Any person with written permission from the owner of a crab trap will be in compliance with subsection (c)(3) if the written permission contains the owner’s GO ID number that matches the GO ID number on the buoy of the crab trap being fished.
(b) Hoop nets may be used to take spiny lobsters and all species of crabs. Between Point Arguello, Santa Barbara County, and the United States-Mexico border, not more than five hoop nets, as defined in (b)(1)(A) or (b)(1)(B), shall be possessed by a person when taking spiny lobster or crab, not to exceed a total of 10 hoop nets possessed when taking spiny lobster or crab, per vessel. The owner of the hoop net or person who placed the hoop net into the water shall raise the hoop net to the surface and inspect the contents of the hoop net at intervals not to exceed 2 hours.
(1) Hoop Net Defined: There are two types of hoop nets allowed for use. They shall be defined as:
(A) Type A: Fishing gear that is comprised of one to three rigid ring(s), with each ring measuring no greater than 36 inches in inside diameter nor less than 10 inches in inside diameter, which is/are connected to soft mesh thereby forming a circular-shaped net with an enclosed bottom. Lift lines shall be attached only to the top ring. A second and third rigid ring(s) may be connected by soft mesh to the top ring; however, each ring must be equal in size to or smaller than the ring above it. When the net is being raised the top ring shall be above and parallel to all other rings, with the enclosed bottom portion of the soft mesh even with or hanging below all other rings. All parts of the hoop net shall collapse and lie flat when resting on the ocean floor in such a manner that the gear does not entrap or restrict the free movement of crustaceans until lifted. When suspended from lift lines, the entire hoop net shall measure no taller than 36 inches. The ring material shall not be thicker than one inch in any dimension.
(B) Type B: Fishing gear that is comprised of two to three rigid rings (not including the bait ring), with each ring measuring no greater than 36 inches in inside diameter and the top ring measuring no less than 15 inches in inside diameter. The upper ring or rings shall be connected to the bottom ring and supported by no more than six rigid support arms, and the assembled frame shall measure no more than 10 inches tall. The rings and support material shall not be thicker than one inch in any dimension. All rings shall be connected by soft mesh, thereby forming a net with an enclosed bottom, and lift lines shall be attached only to the top ring. When suspended from lift lines the enclosed bottom portion of the net shall be even with or hanging below all other rings, and the entire net shall measure no taller than 30 inches. A bait ring may be attached to the net as long as the ring is not part of the rigid frame.
(2) Any hoop net abandoned or left unchecked for more than 2 hours shall be considered abandoned and may be seized by any person authorized to enforce these regulations.
(3) Hoop nets used south of Point Arguello, Santa Barbara County, shall be marked with a surface buoy. Except as provided in subsections (b)(3)(A) and (b)(3)(B), surface buoy shall be legibly marked to identify the operator’s GO ID number as stated on the operator’s sport fishing license or lobster report card. This section does not apply to hoop nets deployed by persons on shore or manmade structures connected to the shore.
(A) The surface buoy of hoop nets deployed from commercial passenger fishing vessels shall be legibly marked to identify the commercial boat registration number of the vessel.
(B) The surface buoy of hoop nets provided by a licensed guide to clients for use on guided trips shall be legibly marked to identify the guide license number of the accompanying guide.
(c) Crab traps:
(1) Crab traps shall have at least two rigid circular openings of not less than four and one-quarter inches inside diameter so constructed that the lowest portion of the trap contains the owner’s GO ID number that matches the GO ID number on the buoy of the crab trap being fished.

The razor clam season has been closed in Del Norte and Humboldt counties since April 26, 2016 because of high levels of domoic acid in the clams. As of January 1, 2018, the season remains closed. Check the CDFW Domoic Acid Fishery Closure Information Line at (831) 649-2883 to determine whether the season has been reopened, and the CDPH Biotoxin Information Line at 1(800) 553-4133 to determine whether the domoic acid warning has been lifted before harvesting.
Crab traps shall contain at least one destruct device of a single strand of untreated cotton twine size No. 120 or less that creates an unobstructed escape opening in the top or upper half of the trap at least five inches in diameter when the destruct attachment material corrodes or fails. Every crab trap except those used under authority of subsection 29.85(a)(5) of these regulations shall be marked with a buoy. Each buoy shall be legibly marked to identify the operator's GO ID number as stated on his/her sport fishing license.

Crab traps shall not be deployed and used in ocean waters seven days prior to the opening of the Dungeness crab season. Crab loop traps may have up to six loops.

Crab trap areas: Crab traps, including crab loop traps, may be used north of Point Arguello, Santa Barbara County to take all species of crabs (see regulations for take of Dungeness crabs in traps from commercial passenger fishing vessels in Section 29.85, Title 14, CCR). Shrimp may be taken with dip nets and Hawaiian type throw nets: Shrimp may be taken with dip nets and Hawaiian type throw nets north of Point Conception.

Shrimp traps: Shrimp beam trawls may be used to take shrimp only in San Francisco Bay waters east of the Golden Gate Bridge, and in San Pablo Bay. The beam trawl frame from which the net is hung may not exceed 24 inches by 18 inches. The trawl may be towed by motorized vessels but may not be retrieved by mechanical devices. Sand crabs and shrimp, caught in the trawl must be returned immediately to the water.

Hand-operated appliances: Spades, shovels, hoes, rakes or other appliances operated by hand may be used to take sand crabs and shrimp.

Dip nets and Hawaiian-type throw nets: Shrimp may be taken with dip nets and Hawaiian type throw nets north of Point Conception.

Diving for crustaceans: In all ocean waters, except as provided in Section 29.05, skin and scuba divers may take crustaceans by hand only. Divers may not possess any hooked device while diving or attempting to dive. Divers may be in possession of spearfishing equipment so long as possession of such equipment is otherwise lawful and is not being used to aid in the take of crustaceans.

Diving for crustaceans: In all ocean waters, except as provided in Section 29.05, skin and scuba divers may take crustaceans by hand only. Divers may not possess any hooked device while diving or attempting to dive. Divers may be in possession of spearfishing equipment so long as possession of such equipment is otherwise lawful and is not being used to aid in the take of crustaceans.

The first 20 pounds taken, regardless of size or condition, shall constitute a daily bag and possession limit.

To learn more about conserving water, visit www.SaveOurWater.com.
29.90. Spiny Lobsters.
(a) Open season: From 6:00 a.m. on the Saturday preceding the first Wednesday in October through the first Wednesday after the 15th of March.
(b) Limit: Seven.
(c) Minimum size: 3 and 1/4 inches measured in a straight line on the mid-line of the back from the rear edge of the eye socket to the rear edge of the body shell. All lobsters shall be measured immediately and any undersize lobster shall be released immediately into the water. Divers shall measure lobsters while in the water and shall not remove undersize lobsters from the water. Hoop netters may measure lobsters out of the water, but no undersize lobster may be placed in any type of receiver, kept on the person or retained in any person’s possession or under his or her direct control.
(d) Report Card Required: Any person fishing for or taking spiny lobster shall have in their possession a non-transferable Spiny Lobster Report Card issued by the department and shall adhere to all reporting requirements for lobster defined in Sections 1.74 and 29.91, Title 14, CCR.
(e) Spiny lobsters shall be kept in a whole, measurable condition, until being prepared for immediate consumption.

29.91. Spiny Lobster Report Card Requirements for Ocean Waters.
(a) Spiny Lobster Report Card Required. All individuals must have a Spiny Lobster Report Card in their possession while fishing for or taking lobster. In the case of a person diving from a boat, the report card may be kept in the boat, or in the case of a person diving from the shore, the report card may be kept within 500 yards from the point of entry. Individuals must complete and return the card pursuant to regulations in this Section and in Section 1.74.
(b) Prior to beginning fishing activity, the cardholder must record the month, day, location, and gear code on the first available line on the report card.
(c) When the cardholder moves to another location code, or finishes fishing for the day, he or she must immediately record on the card the number of lobster kept from that location.
(d) In the event an individual fills in all lines and returns a Spiny Lobster Report Card, an additional card may be purchased. See Section 1.74.
(e) The annual fee for the Spiny Lobster Report Card is specified in Section 701, Title 14, CCR.

30.00. Kelp General.
(a) Except as provided in this section and in Section 30.10 there is no closed season, closed hours or minimum size limit for any species of marine aquatic plant. The daily bag limit on all marine aquatic plants for which the take is authorized, except as provided in Section 28.60, is 10 pounds wet weight in the aggregate.
(b) Marine aquatic plants may not be cut or harvested in state marine reserves. Regulations within state marine conservation areas and state marine parks may prohibit cutting or harvesting of marine aquatic plants per sub-section 632(b).

30.10. Prohibited Species.
No eel grass (Zostera), surf grass (Phyllospadix), or sea palm (Postelsia) may be cut or disturbed.
SELECTED SALTWATER FISH OF CALIFORNIA

Barred sand bass

Spotted sand bass (also known as calico bass)

Kelp bass

White seabass

Redtail surffish
High peak in dorsal fin

Barred surffish

Calico surffish

Striped seaperch

Lingcod

Kelp greenling

Female Male

Rock greenling

California scorpionfish (also known as sculpin)

Cabezon

Ocean whitefish

California corbina

California halibut
High arch in lateral line
Large mouth w/ sharp teeth

Pacific halibut

California sheephead

Female Male

Yellowtail

Giant sea bass (also known as black sea bass)

Juvenile giant seabass

Garibaldi

MONKEYFACE PRICKLEBACK
(also known as Monkeyface eel)

TAKE AND POSSESSION OF THESE SPECIES IS NOT ALLOWED
See Section 28.10(b) for possession requirements for giant sea bass taken off Mexico

SEE SECTIONS 28.05 and 28.10 — BAG LIMIT: ZERO FISH

Note to Anglers: The illustrations in this booklet do not show all color variations or characteristics for each type of fish. Anglers are ultimately responsible for identifying the fish they catch. Illustrations are not to scale
SELECTED ROCKFISH OF CALIFORNIA

- Gopher
  - Pinkish blots
  - Bright white belly

- Copper
  - White band on lateral line

- Black-and-yellow
  - Yellow blotsches

- China
  - Bluish-white speckles
  - Bright yellow stripe

- Yellowtail
  - Light brown to gray mottling on side
  - Bright white belly

- Olive
  - Whitish blotsches on back

- Quillback
  - High, spiny dorsal fin

- Blue
  - Mouth extends to mid-eye
  - Straight-edged anal fin

- Treefish
  - Color varies from orange to deep red
  - Rough chin when rubbed back to front

- Vermillion
  - Slightly forked tail fin

- Kelp
  - Longer gill rakers
  - Brownish or greenish mottling

- Grass
  - Shorter gill rakers
  - Black or gray mottling

- Bocaccio (also known as Salmon grouper)
  - Mouth extends to rear of eye

- Chilipepper
  - Mouth extends to mid-eye

- Brown
  - Dark brown spot

- Greenspotted
  - Jaw upturned
  - (Rarely seen in recreational catch)

- Rosy

- Starry

THESE SPECIES HAVE SUB-BAG LIMITS

- Canary
  - Lateral line clear/white
  - Straight-edged anal fin

- Black
  - Black spots on dorsal fin

STATEWIDE BAG LIMIT: TWO FISH

STATEWIDE BAG LIMIT: THREE FISH

TAKE AND POSSESSION OF THESE SPECIES IS NOT ALLOWED

- Yelloweye
  - Smooth chin

- Cowcod
  - Deeply notched dorsal fin

- Bronzespotted
  - Jaw upturned

SEE SECTIONS 28.55(b)(1) — BAG LIMIT: ZERO FISH

CALIFORNIA’S MARINE PROTECTED AREAS

632. Marine Protected Areas (MPAs) Marine Managed Areas (MMAs) and Special Closures.

(a) General Rules and Regulations: The areas specified in this section have been declared by the commission to be marine protected areas (MPAs), marine managed areas (MMAs), or special closures. Public use of marine protected areas, marine managed areas, or special closures shall be compatible with the primary purposes of such areas. MPAs, MMAs, and special closures are subject to the following general rules and regulations in addition to existing Fish and Game Code statutes and regulations of the commission, except as otherwise provided for in sub-section 632(b), areas and special regulations for use. Nothing in this section expressly or implicitly precludes, restricts or requires modification of current or future uses of the waters identified as marine protected areas, special closures, or the lands or waters adjacent to these designated areas by the Department of Defense, its allies or agents.

(1) Protection of Resources in MPAs and MMAs, as defined in Public Resources Code Section 36710:

(A) State Marine Reserves: In a state marine reserve, it is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource, except under a scientific collecting permit issued by the department pursuant to Section 650 or specific authorization from the commission for research, restoration, or monitoring purposes.

(B) State Marine Parks: In a state marine park, it is unlawful to injure, damage, take, or possess any living or nonliving marine resource for commercial purposes. Any human use that would compromise protection of the species of interest, natural community or habitat, or geological, cultural, or recreational features, may be restricted by the commission as specified in sub-section 632(b), areas and special regulations for use. The department may issue scientific collecting permits pursuant to Section 650. The commission may authorize research, monitoring, and educational activities and certain recreational harvest in a manner consistent with protecting resource values.

(C) State Marine Conservation Areas: In a state marine conservation area, it is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for commercial or recreational purposes, or a combination of commercial and recreational purposes except as specified in sub-section 632(b), areas and special regulations for use. The department may issue scientific collecting permits pursuant to Section 650. The commission may authorize research, education, and recreational activities, and certain commercial and recreational harvest of marine resources, provided that these uses do not compromise protection of the species of interest, natural community, habitat, or geological features.

(D) State Marine Recreational Management Areas: In a state marine recreational management area, it is unlawful to perform any activity that would compromise the recreational values for which the area may be designated. Recreational opportunities may be protected, enhanced, or restricted, while preserving basic resource values of the area. No other use is restricted unless specified in sub-section 632(b), areas and special regulations for use.

(2) Finfish. Finfish, for the purpose of this section, are defined as any species of bony fish or cartilaginous fish (sharks, skates and rays). Finfish do not include amphibians, invertibrates, plants or algae. The definition of finfish provided in Section 159 does not apply to this Section.

(3) Pelagic Finfish. Pelagic fish, for the purpose of this section, are a subset of finfish defined as: northern anchovy (Engraulis mordax), barracudas (Sphyraena spp.), billfishes* (family Istiophoridae), Pacific herring (Coryphaena hippurus), Pacific herring (Clupea pallasi), jack mackerel (Trachurus symmetricus), Pacific mackerel (Scomber japonicus), salmon (Oncorhynchus spp.), Pacific sardine (Sardinops sagax), blue shark (Prionace glauca), salmon shark (Lamna ditropis), shortfin mako shark (Isurus oxyrinchus), thresher sharks (Alopias spp.), swordfish (Xiphias gladius), tunas (family Scombridae) including Pacific bonito (Sarda chilensis), and yellowtail (Seriola lalandi). *Marlin is not allowed for commercial take.

(4) Access. Access into marine protected areas or marine managed areas for non-consumptive uses including but not limited to swimming, surfing, diving, boating, hiking and walking is allowed unless otherwise specified in sub-section 632(b), areas and special regulations for use.

(5) Introduction of Species. Unless authorized by the commission or as a result of authorized fishing activities, the release of any fish or wildlife species, including domestic or domesticated species, or the introduction of any plant species, is prohibited. The department may reintroduce endemic species to marine protected areas or marine managed areas for management purposes.

(6) Feeding of Fish and Wildlife. The feeding of fish and wildlife is prohibited except permitted scientific collection pursuant to Section 650 or as a result of authorized fishing within state marine conservation areas, state marine parks, and state marine recreational management areas, or unless feeding of fish is specifically authorized in sub-section 632(b) for purposes of marine life viewing.

(7) Anchoring. Vessels shall be allowed to anchor in any marine protected area or marine managed area with catch onboard unless otherwise specified in sub-section 632(b), areas and special regulations for use. Fishing gear shall not be deployed in the water while anchored in a state marine reserve. Fishing gear, except legal fishing gear used to take species identified as allowed for take in sub-section 632(b), shall not be deployed in the water while anchored in a state marine recreational management area, state marine park or state marine conservation area. Anchoring regulations shall be consistent with federal law and allowances made for anchoring required by emergency or severe weather.

(8) Transit or Drifting.

(A) Vessels shall be allowed to transit through MPAs and MMAs with catch onboard. Fishing gear shall not be deployed in the water while transiting through a state marine reserve. Fishing gear, except legal fishing gear used to take species identified as allowed for take in sub-section 632(b), shall not be deployed in the water while transiting through a state marine recreational management area, state marine park or state marine conservation area.

(B) Spearfishermen with or without catch shall be allowed to transit through MPAs and MMAs. While transiting MPAs and MMAs that prohibit spearfishing or while in possession of species not identified as allowed for take in the MPA or MMA being transited, spearfishing gear
shall be in an unloaded condition, not carried in hand, and the diver shall remain at the surface.

(9) Water Quality Monitoring. Sampling of water, sediment and marine life, for water quality monitoring or pollution research, or as required in a Monitoring and Reporting Program of a National Pollutant Discharge Elimination System (NPDES) Permit and Waste Discharge Requirements issued by the State or Regional Water Boards pursuant to the United States Clean Water Act and the California Water Code, is allowed within state marine reserves, state marine conservation areas, state marine parks, and state marine recreational management areas pursuant to a valid scientific collecting permit issued by the department.

(10) Public Safety. Public safety activities, including installation, maintenance and/or seasonal placement and removal of safety-related artificial structures, including but not limited to lifeguard towers, are allowed within any MPA classification pursuant to any required federal, state and local permits, or as otherwise authorized by the department.

(11) Tribal Take. For purposes of this regulation, "federally recognized tribe" means any tribe on the List of Indian Entities Recognized and Eligible to Receive Services from the United States Bureau of Indian Affairs, published annually in the Federal Register. Any member of a federally recognized tribe authorized to take living marine resources from an area with area-specific take restrictions in sub-section 632(b), when engaging in take within an authorized area shall possess on his person, in his immediate possession, or where otherwise specifically required by law to be kept, any valid license, report card, tag, stamp, validation, permit, or any other entitlement that is required in the Fish and Game Code, or required by other state, federal, or local entities, in order to take living marine resources. Members shall possess a valid photo identification card issued by a federally recognized tribe that contains expiration date, tribal name, tribal member number, name, signature, date of birth, height, color of eyes, color of hair, weight, and sex; and display any of the items listed above upon demand to any peace officer. Members taking living marine resources under this provision are subject to current seasonal, bag, possession, gear and size limits in existing Fish and Game Code statutes and regulations of the commission, except as otherwise provided for in sub-section 632(b). No member, while taking living marine resources pursuant to this section, may be assisted by any person who does not possess a valid tribal identification card and is not properly licensed to take living marine resources. Nothing in the regulation is intended to conflict with, or supersede, any state or federal law regarding the take of protected, threatened or endangered species.

(12) Shore Fishing. Take from shore, or shore fishing, for purposes of this section, means take of living marine resources from shore, including beaches, banks, piers, jetties, breakwaters, docks, and other man-made structures connected to the shore. Unless specifically authorized in sub-section 632(b), no vessel, watercraft (motorized or non-motorized), or floating device may be used to assist in the take, transport or possession of species taken while shore fishing, except that a float tube or similar flotation device may be used when taking abalone only.
There are numerous areas along the California coast that have regulations more restrictive than the general fishing regulations. These areas, known as marine protected areas (MPAs) are designated in part to protect, conserve, or enhance marine life. The following table lists all existing MPAs in ocean and estuarine waters that regulate sport fishing, species permitted or prohibited for take, and detailed boundary descriptions. **Only regulations that pertain to sport fishing are included here.** For further information, please contact the CDFW’s Marine Region in Eureka at (707) 445-6493, Monterey at (831) 649-2870 or Los Alamitos at (562) 342-7100, or email AskMPA@wildlife.ca.gov.

**Note:** The following regulations are from CCR T-14, Section 632(b). Within each county, the areas are arranged generally from north to south. Special closures and marine managed areas are also included in this table. While technically they do not meet the definition of a marine protected area, their restrictions differ significantly from the surrounding areas, so they are included here for ease of identification by the public. For more information please see the CDFW website at [wildlife.ca.gov/MPAs](http://wildlife.ca.gov/MPAs).

### SPORT FISHING SPECIAL ALERT FOR CALIFORNIA SALMON FISHERIES

The California coast coho (silver) salmon has been designated as an endangered species under the federal Endangered Species Act (ESA). It is unlawful to fish for, capture, keep, or possess under any circumstances any (marked or unmarked) coho salmon. Violation of the ESA may result in civil or criminal penalties.

Large numbers of coho salmon have been contacted in California’s ocean waters. Although it is likely that many of these salmon originated from hatcheries in the Northwest, some of the fish are California coast coho salmon which are protected under the ESA. Thus, the retention of any coho salmon is PROHIBITED in all California ocean fisheries. Please take the time to correctly identify each salmon caught before removing it from the water.

To avoid contact with coho salmon:
- Fish near shore for Chinook – coho are usually more offshore.
- Use larger lures that select for large Chinook and reduce the coho catch.

| **Vizcaino Rock Special Closure** | Special restrictions on boating and access apply to Vizcaino Rock located in the vicinity of 39° 43.618’ N. lat. 123° 49.950’ W. long. as follows.  
(A) A special closure is designated from the mean high tide line to a distance of 300 feet seaward of the mean lower low tide line of any shoreline of Vizcaino Rock westward of 123°49.887’ W. longitude, during the period of March 1 to August 31.  
(B) Except as permitted by federal law or emergency caused by hazardous weather, or as authorized by sub-section ...(C), no vessel shall be operated or anchored from the mean high tide line to a distance of 300 feet seaward of the mean lower low tide line of any shoreline of Vizcaino Rock westward of 123° 49.887’ W. longitude during the period of March 1 to August 31.  
(C) No person except department employees or employees of the United States Fish and Wildlife Service, National Oceanic and Atmospheric Administration, or United States Coast Guard, in performing their official duties, or unless permission is granted by the department, shall enter the area defined in sub-section ...(B) during the period of March 1 to August 31. | |
| Ten Mile State Marine Reserve | It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for... recreational purposes. | |
| Ten Mile Beach State Marine Conservation Area | It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for... recreational purposes, with the following specified exceptions:  
1. The recreational take of Dungeness crab by trap, hoop net or hand is allowed.  
2. The following federally recognized tribes (listed alphabetically) are exempt from the area and take regulations for Ten Mile Beach State Marine Conservation Area [sub-section 632(b)(20)] and shall comply with all other existing regulations and statutes: SEE FOOTNOTE 2 | This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed except where noted:  
39° 35.900’ N. lat. 123° 47.243’ W. long.;  
39° 35.900’ N. lat. 123° 51.479’ W. long.; and  
39° 33.300’ N. lat. 123° 46.015’ W. long. |
| Ten Mile Estuary State Marine Conservation Area | It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for... recreational purposes, with the following specified exceptions:  
1. The following federally recognized tribes (listed alphabetically) are exempt from the area and take regulations for Ten Mile Estuary State Marine Conservation Area [sub-section 632(b)(21)] and shall comply with all other existing regulations and statutes: SEE FOOTNOTE 2  
2. Waterfowl may be taken in accordance with the general waterfowl regulations [sections 502, 550, 551, and 552]. | This area consists of waters below the mean high tide line within the Ten Mile Estuary, eastward of a line connecting the following two points:  
39° 32.400’ N. lat. 123° 44.785’ W. long.; and  
39° 32.382’ N. lat. 123° 44.769’ W. long. |
### Conservation Area
- **Point Arena State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. All recreational take is allowed in accordance with current regulations.

- **Navarro State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. All recreational take is allowed in accordance with current regulations.

- **Russian Gulch State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. All recreational take is allowed in accordance with current regulations.

- **Big River Estuary State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. The recreational take of surfperch (family Embiotocidae) by hook-and-line from shore only; and Dungeness crab by hoop net or hand is allowed.
    2. The following federally recognized tribes (listed alphabetically) are exempt from the area and take regulations for Big River Estuary State Marine Conservation Area [sub-section 632(b)(25)] and shall comply with all other existing regulations and statutes: SEE FOOTNOTE 2
    3. Waterfowl may be taken in accordance with the general waterfowl regulations [sections 502, 550, 551, and 552].

- **Van Damme State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. All recreational take is allowed in accordance with current regulations.

- **Navarro River Estuary State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. The recreational take of salmonids by hook-and-line is allowed consistent with salmonid regulations in Section 7.50.
    2. The following federally recognized tribes (listed alphabetically) are exempt from the area and take regulations for Navarro River Estuary State Marine Conservation Area [sub-section 632(b)(27)] and shall comply with all other existing regulations and statutes: SEE FOOTNOTE 2
    3. Waterfowl may be taken in accordance with the general waterfowl regulations [sections 502, 550, 551, and 552].

- **Point Arena State Marine Reserve**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes.

- **Point Arena State Marine Conservation Area**
  - It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
    1. The recreational take of salmon by trolling [sub-section 27.80(a)(3)] is allowed.

## Morro Bay State Marine Recreational Management Area

Recreational hunting of waterfowl is allowed unless otherwise restricted by hunting regulations [sections 502, 550, 551, and 552].

- It is unlawful to perform any activity that would compromise the recreational values for which the area may be designated.
- Recreational opportunities may be protected, enhanced, or restricted, while preserving basic resource values of the area, with the following specified exceptions allowed north of latitude 35° 19.700' N:
  1. The recreational take of finfish.
  2. Storing finfish taken outside the Morro Bay State Marine Recreational Management Area in a receiver for bait purposes.

This area includes the area below mean high tide within Morro Bay east of the Morro Bay entrance breakwater and west of longitude 120° 50.340' W.

## Morro Bay State Marine Reserve

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource.

This area includes the area below mean high tide line within Morro Bay east of longitude 120° 50.340' W.

## Point Buchon State Marine Reserve

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource.

This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed:
- 35° 15.250' N. lat. 120° 53.817' W. long.; and
- 35° 15.250' N. lat. 120° 56.000' W. long.; and
- 35° 11.000' N. lat. 120° 52.400' W. long.; and
- 35° 13.348' N. lat. 120° 52.400' W. long.

## Point Buchon State Marine Conservation Area

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions: the recreational take of salmon and albacore is allowed.

This area is bounded by straight lines connecting the following points in the order listed except where noted:
- 35° 15.250' N. lat. 120° 56.000' W. long.; and
- 35° 15.250' N. lat. 120° 56.000' W. long.; and
- 35° 15.250' N. lat. 120° 56.000' W. long.; and
- 35° 15.250' N. lat. 120° 56.000' W. long.

## Santa Barbara County

### Vandenberg State Marine Reserve

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource. Public entry into the Vandenberg State Marine Reserve may be restricted at the discretion of the department to protect wildlife, aquatic life, or habitat, or by the Commander of Vandenberg Air Force Base to protect and provide safety for base operations.

This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed except where noted:
- 34° 44.650' N. lat. 120° 37.750' W. long.; and
- 34° 44.650' N. lat. 120° 40.000' W. long.; and
- 34° 33.250' N. lat. 120° 40.000' W. long.; and
- 34° 33.250' N. lat. 120° 37.407' W. long.

### Point Conception State Marine Reserve

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource.

This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed except where noted:
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.

### Kashayit State Marine Conservation Area

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
  1. The recreational take of finfish [sub-section 632(a)(2)], invertebrates except rock scallops and mussels, and giant kelp (*Macrocystis pyrifera*) by hand harvest is allowed.

This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed:
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.

### Naples State Marine Conservation Area

- It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for recreational purposes, with the following specified exceptions:
  1. The recreational take by spearfishing [Section 1.76] of white seabass and pelagic finfish [subsection 632(a)(3)] is allowed.

This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed:
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.; and
- 34° 28.130' N. lat. 120° 14.460' W. long.

<tbody>
<tr>
<td>San Miguel Island Special Closure</td>
<td>Special restrictions on recreational boating and access apply to San Miguel Island as follows.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>(A) Boating is allowed at San Miguel Island except west of a line drawn between Judith Rock (34° 01.500’ N. lat. 120° 25.300’ W. long.) and Castle Rock (34° 03.300’ N. lat. 120° 26.300’ W. long.) where boats are prohibited closer than 300 yards from shore.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1. Notwithstanding the 300-yard boating closure between Judith Rock and Castle Rock, ...boats may approach San Miguel Island no nearer than 100 yards from shore during the period(s) from March 15 through April 30, and October 1 through December 15.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. The department may rescind permission for boats to enter waters within 300 yards between Judith Rock and Castle Rock upon finding that impairment to the island marine mammal resource is imminent. Immediately following such closure, the department will request the commission to hear, at its regularly scheduled meeting, presentation of documentation supporting the need for such closure.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>(B) Other Requirements:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1. Boats traveling within 300 yards of the shoreline or anchorages shall operate with a minimum amount of noise and shall not exceed speeds of five miles per hour.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. Except as permitted by federal law or emergency caused by hazardous weather, boats may be anchored overnight only at Tyler Bight and Cuyler Harbor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3. Landing is allowed on San Miguel Island only at the designated landing beach in Cuyler Harbor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>4. No person shall have access to all other offshore rocks and islands at San Miguel Island.</td>

<td><strong>Tijuana River Mouth State Marine Conservation Area$^a$</strong></td>
<td>It is unlawful to injure, damage, take, or possess any living, geological, or cultural marine resource for... recreational purposes, with the following specified exceptions: 1. The recreational take of coastal pelagic species$^b$ [Section 1.39], except market squid, by hand-held dip net [Section 1.42] only is allowed.</td>
<td>This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed except where noted: 32° 34.000' N. lat. 117° 07.980' W. long.; 32° 34.000' N. lat. 117° 09.000' W. long.; 32° 31.970' N. lat. 117° 09.000' W. long.; thence eastward along the U.S.–Mexico Border to 32° 32.064' N. lat. 117° 07.428' W. long.</td>
</tr>
</tbody>
</table>

$^a$ This area includes a state MPA and a federal MPA with identical regulations. For complete boundaries and rules, see CCR T-14, Section 632 for state MPAs, and Code of Federal Regulations, Federal Register 15 CFR Part 922 and 50 CFR Part 662 for federal MPAs.

3. Existing activities and operations permitted by CDFW and other federal, state, or local entities, such as dredging, wastewater outfall operations, maintenance of artificial structures, scientific collecting, and sand replenishment and other sediment management activities have been identified as occurring within this MPA, which may result in take of marine resources incidental to the activity. Operations or activities identified at the time of designation are included within the regulation to make explicit that MPA designation is not intended to interfere with these permitted activities.

4. This area is designated as a SMCA, and could subsequently be designated an SMP at the discretion of the State Parks and Recreation Commission.

5. Pelagic finfish are defined in CCR T-14, Section 632(a)(3) as: northern anchovy (Engraulis mordax), barracudas (Sphyraena spp.), billfishes (family Istiophoridae), dolphinfish (Coryphaena hippurus), Pacific herring (Clupea pallasii), jack mackerel (Trachurus symmetricus), Pacific mackerel (Scomber japonicus), salmon (Oncorhynchus spp.), blue shark (Prionace glauca), salmon shark (Lamna ditropis), shortfin mako shark (Isurus oxyrinchus), threshers sharks (Alopias spp.), swordfish (Xiphias gladius), tunas (family Scombridae), including Pacific bonito (Sarda chilensis), and yellowtail (Seriola lalandii).

6. This MPA is designated as an SMCA that does not allow take, except as associated with activities regulated by other agencies, pursuant to any valid permits.

7. A preliminary wave energy permit has been granted by the Federal Energy Regulatory Commission at Catalina that includes part of the Farnsworth Offshore SMCA, which may need to be included in future regulations for this MPA.

8. Coastal pelagic species are defined in CCR T-14, Section 1.39 as: northern anchovy (Engraulis mordax), Pacific sardine (Sardinops sagax), Pacific mackerel (Scomber japonicus), jack mackerel (Trachurus symmetricus), and market squid (Loligo Doryteuthis opalescens).
PUBLIC HEALTH ADVISORIES AND GUIDANCE ON SPORT FISH CONSUMPTION

Fish are an excellent source of protein and beneficial fats, and are recommended as part of a healthy, balanced diet. It is important, however, to choose the fish you eat wisely.

The Office of Environmental Health Hazard Assessment (OEHHA) provides the guidelines below. For more information, visit the OEHHA website at www.oehha.ca.gov/fish or call (916) 324-7572.

The U.S. Food and Drug Administration and the U.S. Environmental Protection Agency issued a joint “Federal Advisory for Mercury in Fish” for fish you buy at stores and restaurants. The federal advisory can be found online at https://www.fda.gov/food/foodborneillnesscontaminants/metals/ucm351781.htm.

FISH PREPARATION AND CONSUMPTION

Eat only the fillet portions of fish and the meat of crabs. Cook the fish thoroughly and allow juice to drain away. Do not eat the guts or internal organs because chemicals usually concentrate in these parts. Also, avoid frequent consumption of any reproductive parts such as eggs or roe. If you make stews or chowders, use fillet parts.

Many chemicals are stored in the fat. When advisories are based on PCBs or pesticides (DDTs or dieldrin), skin the fish, when possible, do not eat the skin, and trim any visible fat to reduce the levels of these chemicals. Removing fat will not reduce mercury levels.

SAFE EATING GUIDELINES

OEHHA gives special guidelines for women ages 18-45 years and children 1-17 years because children and fetuses are more sensitive to chemicals. Women over 45 years and men have less risk and can safely eat more fish, as shown in the following tables.

The consumption guidelines in the tables are based on the chemicals noted in each table. Fish consumption recommendations in the following tables are provided as the number of servings per week. A serving is about the size and thickness of your hand. Give children smaller servings.

WHAT IS A SERVING?

For Adults

For Children

The recommended serving of fish is about the size and thickness of your hand.

Give children smaller servings.

The guidelines for each species and area assume that no other fish are being eaten in the same week.

These safe eating guidelines are for fish from marine and anadromous waters only. OEHHA’s guidelines for freshwater fish can be found in the CDFW’s Freshwater Sport Fishing regulations booklet, available wherever sport fishing licenses are sold, at your local CDFW office, and online at wildlife.ca.gov/regulations.

If you do not see your specific location in these tables, follow OEHHA’s Eating Fish from California Coastal Locations Without Site-Specific Advice located online at oehha.ca.gov/advisories/state-wide-advisory-eating-fish-california-coastal-locations-without-site-specific-advice or OEHHA’s Advisory for Fish that Migrate located online at oehha.ca.gov/advisories/advisory-fish-migrate.

"-" indicates that this requirement for this species is covered under the General regulations of CCR T-14, Section 29.05(a).

Note: Except for the species listed above (see Section 29.05(b)(1)), “tidal invertebrates may not be taken in any tidepool or other areas between the high tide mark (defined as Mean Higher High Tide) and 1,000 ft. seawards and lateral to the low tide mark (defined as Mean Lower Low Water).”

**CALIFORNIA FISHING PASSPORT**

Capture a Lifetime of Great Catches in your Free California Fishing Passport

Available from your local CDFW office or California Fishing Passport stamping agent or sponsor.

For program details visit: [www.wildlife.ca.gov/fishing/passport](http://www.wildlife.ca.gov/fishing/passport)

---

**EVEN THE BEST FISHERMEN CAN ACCIDENTALLY HOOK SEABIRDS**

In the unfortunate event of a hooked seabird, don’t cut or break the line. If the bird is injured or severely tangled, the bird could easily drown, die of starvation or succumb to a predator attack. If you do accidentally hook a seabird while fishing, do the following to avoid further injury to the bird or yourself:

- Reel the bird in slowly and gently. Don’t lift the bird by the line; instead use a dip net if available.
- Get control of the bird’s bill before taking it from the net to prevent being pecked. Cover its head and eyes with a cloth to calm it (do not obstruct breathing), and keep the wings folded in their normal closed position. Always maintain control of the bird’s head and body.
- When removing the hook from a seabird, never simply grab the hook and yank it out! Grasp the hook and carefully snip off the barb. You can back the hook out without causing further injury. Cut off and remove any tangled fishing line, and carefully release the seabird.
- If the bird has swallowed the hook, untangle the bird while removing as much line as possible. Cut the fishing line as close to the hook as you can, and leave the hook in place.
- If the bird is seriously injured, is deeply hooked, or a hook has been swallowed, keep the bird calm and restrained. Call a local wildlife care facility. You can visit the CDFW website at [www.wildlife.ca.gov/Conservation/Laboratories/Wildlife-Investigations/Rehab/Facilities](http://www.wildlife.ca.gov/Conservation/Laboratories/Wildlife-Investigations/Rehab/Facilities) for a list of regional wildlife rehabilitation facilities.
