Hunting and fishing license sales and federal excise taxes comprise over 90 percent of the TWRA’s hunting and fishing operating revenues.

Thank you for buying a hunting and fishing license. Without your support, Tennessee would not have fish and wildlife management programs.

This publication is not a legal document. It is a summary of Tennessee’s fishing regulations. More detailed information on fishing is available from all TWRA offices.

Equal opportunity to participate in and benefit from programs of the Tennessee Wildlife Resources Agency is available to all persons without regard to their race, color, national origin, sex, age, disability, or military service. TWRA is also an equal opportunity/equal access employer. Questions should be directed to TWRA, Human Resources Office, 5107 Edmondson Pike, Nashville, TN 37211, (615) 781-6594 (TDD 781-6691), or to the U.S. Fish and Wildlife Service, Office for Human Resources, 4401 N. Fairfax Dr., Arlington, VA 22203.

Tennessee Wildlife Resources Agency, Authorization No. 328686, 360,000 copies, January 2020. This public document was promulgated at a cost of $.04 per copy.

WHAT'S NEW
FOR 2020 – 2021

Statewide

Sportfishing
• Wild Trout Streams – removal of the restrictions on fishing time of 1/2 hour before sunrise until 1/2 hour after sunset as well as the restriction of one pole or rod per angler.

Bait
• Addition of streams to the restriction of harvest, use, and possession of crayfish from designated streams, in all their tributaries, and on all adjacent banks (see page 49).
• Addition of streams to the restriction concerning crayfish harvested for bait from designated streams and their tributaries that shall not be possessed away from the waterbody from which they were harvested (see page 49).
• Legal Gear for harvesting bait – removed the restriction on the dimensions of a minnow trap and added crayfish traps to legal gear for the harvest of bait.
• Trout harvested in the following waters shall only be used as bait in the waters from which the trout were harvested:
  1. South Fork Holston River from South Holston Dam to Boone Dam;
  2. Watauga River from Watauga Dam to Boone Dam;
  3. Doe River (Carter Co.); and
  4. North River (Monroe Co.).
• Asian carp have been reclassified to Class D bait fish to provide for the sale of dead Asian carp as dead bait by bait dealers.

Region I

Agency Lakes
• Carroll Lake will reopen on April 4, 2020 and regulations will be reestablished for Large-mouth bass at a 15 inch minimum length limit and 5 fish daily creel limit, Bluegill and Redear sunfish at no minimum length limit and 20 fish daily creel limit in combination, crappie have no length or daily creel limit, and walleye at 16 inch minimum length limit and 5 fish daily creel limit.
• Graham and Glenn Springs lakes will have no daily creel limit for largemouth bass 18 inches or less and only one largemouth bass greater than 18 inches in length.
• Pin Oak Lake in Natchez Trace State Park — Trotlines and limelines prohibited year round. From 1st of April through 30th of September fishing with jug lines will be prohibited on Fridays after 12 noon until 12 midnight on Sundays. Fishing with jug lines is also prohibited on Memorial Day, July 3rd through July 5th, and Labor Day. On days open to jug fishing, each boat is limited to 10 jugs per day.

Region IV

• Fort Patrick Henry Reservoir — the minimum length limit for Smallmouth Bass at Fort Patrick Henry Reservoir was reduced to 15” and a 5 fish daily creel limit.
Asian carp were accidentally released in Arkansas during floods on the Mississippi River in the late 1980s and early 1990s. TWRA first detected substantial numbers of Silver carp in the Mississippi River in the early 2000s. Today, Silver carp (shown jumping to the right) are abundant in reservoirs on the lower Tennessee and Cumberland rivers. They are most widespread in Kentucky and Barkley lakes, but a few fish have spread through locks as far upstream as Chickamauga Lake on the Tennessee River and up the Cumberland River to Cordell Hull Dam. Silver carp have also been found on the Duck River upstream of Columbia Dam.

The expansion of these carp into Tennessee waters is of great concern to the state. At high abundance Asian carp pose a serious threat to fishing and boating. These fish compete for the same resources as our favorite sport and commercial fish, and can cause injury by colliding with boaters. The TWRA is working closely with federal and state partners, including the states of Kentucky, Mississippi, and Alabama, to control the abundance and spread of carp.

Alongside partners, we are currently involved in several projects including the testing of an acoustic barrier at Barkley Dam, and tracking the individual movements of about 250 in the Tennessee and Cumberland rivers. This information will allow us to evaluate the barrier, prioritize additional barrier locations, and pattern fish movements to improve harvest rates.

Since September of 2018 TWRA has supported the commercial fishing industry with incentives that led to the removal of over 3 million pounds of Asian carp from Tennessee waters. These harvest efforts, combined with barriers to prevent more fish from coming into the lakes, should reduce abundance of carp and their impacts.

You are also important in preventing the spread of Asian carp. Please be extra careful about moving bait fish. Young carp look very similar to shad. Learn to tell them apart. It is illegal to have a live Asian carp in your possession. It is always illegal to stock any species of fish into public waters.

Silver and Bighead carp can be harvested. There are no creel or length restrictions. They are a bony fish, but the meat is very tasty. There are several videos online that show techniques for filleting, and even easier methods that allow you to safely serve the fish with bones in (called “carp wings”). Give it a try. For more on carp in Tennessee and how you can help, visit https://www.twrf.net/asian-carp.

ASIAN CARP INVASION

**Regulations**

Asian carp were accidentally released in Arkansas during floods on the Mississippi River in the late 1980s and early 1990s. TWRA first detected substantial numbers of Silver carp in the Mississippi River in the early 2000s. Today, Silver carp (shown jumping to the right) are abundant in reservoirs on the lower Tennessee and Cumberland rivers. They are most widespread in Kentucky and Barkley lakes, but a few fish have spread through locks as far upstream as Chickamauga Lake on the Tennessee River and up the Cumberland River to Cordell Hull Dam. Silver carp have also been found on the Duck River upstream of Columbia Dam.

The expansion of these carp into Tennessee waters is of great concern to the state. At high abundance Asian carp pose a serious threat to fishing and boating. These fish compete for the same resources as our favorite sport and commercial fish, and can cause injury by colliding with boaters. The TWRA is working closely with federal and state partners, including the states of Kentucky, Mississippi, and Alabama, to control the abundance and spread of carp.

Alongside partners, we are currently involved in several projects including the testing of an acoustic barrier at Barkley Dam, and tracking the individual movements of about 250 in the Tennessee and Cumberland rivers. This information will allow us to evaluate the barrier, prioritize additional barrier locations, and pattern fish movements to improve harvest rates.

Since September of 2018 TWRA has supported the commercial fishing industry with incentives that led to the removal of over 3 million pounds of Asian carp from Tennessee waters. These harvest efforts, combined with barriers to prevent more fish from coming into the lakes, should reduce abundance of carp and their impacts.

You are also important in preventing the spread of Asian carp. Please be extra careful about moving bait fish. Young carp look very similar to shad. Learn to tell them apart. It is illegal to have a live Asian carp in your possession. It is always illegal to stock any species of fish into public waters.

Silver and Bighead carp can be harvested. There are no creel or length restrictions. They are a bony fish, but the meat is very tasty. There are several videos online that show techniques for filleting, and even easier methods that allow you to safely serve the fish with bones in (called “carp wings”). Give it a try. For more on carp in Tennessee and how you can help, visit https://www.twrf.net/asian-carp.

**Comparison**

Know the difference between shad and carp

The easiest way to tell them apart is to look at the dorsal (top) fin. Both shad have a long, threadlike fin that extends toward the tail. Asian carp will not have this thread-like fin.

**Threadfin Shad**

**Gizzard Shad**

**Bighead Carp**

**Silver Carp**

You are also important in preventing the spread of Asian carp. Please be extra careful about moving bait fish. Young carp look very similar to shad. Learn to tell them apart. It is illegal to have a live Asian carp in your possession. It is always illegal to stock any species of fish into public waters.

FOLLOW US ON:

TENNESSEE FISH & WILDLIFE COMMISSION INFORMATION IS AVAILABLE ON OUR WEBSITE WWW.TNWILDLIFE.ORG.
Thank you for buying a hunting and fishing license. 100% of your license dollars go to support wildlife conservation in Tennessee. Your license is an investment that also returns your federal excise taxes paid on hunting and fishing equipment to TWRA to support wildlife. Without you, Tennessee would not have the abundance of fish and wildlife that we all enjoy.

Fishing licenses go on sale February 18 each year and are valid through the last day of February of the following year. Most license types may be purchased at License Agents located at some County Clerk offices, sporting good stores, hardware stores, and boat docks. All licenses can be purchased at TWRA regional offices. Also, many licenses can be purchased remotely using four methods:

**Online:** Log on to [www.gooutdoorsTennessee.com](http://www.gooutdoorsTennessee.com).

**Mobile App:** Visit [gotwra.org](http://gotwra.org) to download the free app. It can be used to purchase most license types. No license will be mailed.

* A collectible hard card license may be purchased for an additional $5.00.

**US mail:** Send your name, address (including zip code), social security number, date of birth, physical features (height, weight, eye and hair color), and enclose the correct fee to: TWRA Sales Office, P.O. Box 41729, Nashville, TN 37204-1729.

**License Agents:** You can also purchase your hunting and fishing licenses from any of our License Agent locations in Tennessee.

All license and permit fees are subject to change. All expire at midnight of last effective date.

Native Tennessean

Nonresidents who were born in Tennessee may apply for Native Tennessean annual licenses. These licenses provide nonresidents born in the state but no longer residing in the state, the opportunity to purchase annual Tennessee hunting/fishing/trapping licenses at the same cost as residents. Available by application only. Details and application available online at www.tnwildlife.org.

Who must have a Tennessee license?

If you take, or attempt to take fish (including crayfish and salamanders) by any method or if you assist someone else to do so, you must have a valid fishing license. There are some exceptions:

- If you are under 13 years of age (resident or nonresident).
- Landowners, their spouses and children, who fish on their farm land which is owned by an individual or a family. Landowners, their spouses and children must be residents of Tennessee but need not reside on the land.
- Tenants, their spouses and dependent children who fish on farm land owned by an individual or a family. Tenants, their spouses and dependent children must be residents of Tennessee and must actually reside on the land and have permission of the landowner to fish. A tenant is a person who, for money, free rent, or other consideration, cares for farmland. The tenancy must be agricultural in nature.
- Resident grandchildren (under 16) and resident great-grandchildren (under 16) who fish on farm land which is owned by their resident grandparents or great-grandparents.
- First cousins who own farmland jointly or in common may fish on the farmland. Their children may fish as well.
- You are on military leave, carrying a copy of your leave orders. A pass does not meet this requirement.
- You are a resident who was born before March 1, 1926. (To qualify for this exemption, you must carry proof of your age and residency to show to a wildlife officer, if requested.)
- It’s Free Fishing Day! This year it falls on June 6 (see page 17).
- It’s Free Fishing Week! All children, ages 15 and younger can fish free between June 6–12 inclusive (see page 17).

NOTE: Giving false information to obtain a license is a misdemeanor punishable by fine and loss of license. Licenses are not transferable.

Great Smoky Mountains National Park

A valid fishing license obtained from the state of Tennessee or the state of North Carolina is required and honored throughout the park for all persons 13 years of age and older. A Tennessee trout license is not required. The National Park Service sets fishing regulations within the park. For detailed fishing information, contact:

Park Headquarters
Gatlinburg, TN 37738
(865) 436-1200

Misplaced a License?

All hunting and fishing licenses including lifetime licenses can be accessed, viewed, emailed, and printed from your home computer at no cost at https://gooutdoorstennessee.com/ any time 24/7/365. You can also purchase a duplicate hard card online, from our TWRA mobile app, or from our license agents for a fee of $8.00. Please verify your address at the time of purchase.
Resident Licenses

Resident licenses can be purchased by:

- Persons who possess a valid Tennessee driver’s license or Tennessee state ID issued by the Department of Safety. Tennessee state law requires drivers to obtain a Tennessee drivers license within 30 days of residency. Out-of-state driver’s license only accepted for Military Personnel and Students meeting the criteria below.
- Persons who do not drive or do not possess a valid driver’s license from another state, but who have lived in Tennessee for 90 consecutive days with the genuine intent of making Tennessee their permanent home, may prove residency by presenting to a TWRA license agent any two of the following documents:
  - current Tennessee voter registration card;
  - current Tennessee vehicle registration or title;
  - Form I-94 issued by the U.S. Citizenship & Immigration Service
  - current rental/mortgage contract or receipt including deed of sale for property or receipt for payment of Tennessee real estate taxes within last year
- Military personnel on active duty in this state and children under 16 years of age who reside with them, regardless of Tennessee resident status.
- Students who are enrolled in a Tennessee school, college or university for at least six months, with an appropriate student ID.
- Nonresidents that were born in the State of Tennessee, upon completion of an application for a Native Tennessean license. See page 9 for details.

NOTE: A Social Security Number is required to purchase a Tennessee hunting or fishing license. Ages 12 and under no license is required, some permits may still apply.

### Resident Permanent Licenses

The following licenses are available only by application. Applications can be located at regional offices and online. Applications can be submitted at your local TWRA office, by email to twramiscapplication@tn.gov, mail or fax (615-837-4262). A doctor’s statement will be required as defined on the application. Licenses are available for a one-time fee and are valid as long as holder remains a resident of Tennessee. These are not Lifetime Sportsman Licenses. Additional permits may be required. A trout license is not required.

STATEWIDE LIMITS & REGULATIONS

Statewide Creel and Length Limits

The following are the creel and size limits that apply statewide. Several waters have exceptions to these limits. Refer to the pages listed in red at the bottom of this page to see exceptions to the statewide regulations. If you are fishing a location that does not have exceptions listed in this guide, then the statewide limits apply.

<table>

HOW TO

Measuring a Fish’s Length

Lay the fish on a flat ruler, close the mouth, and squeeze the lobes of the tail fin to produce the maximum length. The mouth of the fish may not be manipulated or extended.
TWRA's goal is to manage each species of fish with statewide creel and length limits where possible. However, many waters, because of their unique characteristics, require individual creel and length limits. These regulations improve fishing for all anglers.

Minimum Length Limits restrict the harvest of fish below a specified minimum length. For example, a 15-inch minimum length limit allows the angler to keep fish 15 inches or greater. Fish less than 15 inches cannot be harvested.

Slot Limits or Protected Length Ranges (PLRs) allow anglers to harvest fish above and below a specified length range. For example, a 14–18” PLR protects fish in the 14- to 18-inch length group. Anglers may harvest fish that measure less than 14 inches and they may harvest fish that measure over 18 inches. For a protected length range to be effective, anglers must harvest fish below the protected range.

Possession Limits: The total possession limit is twice the daily creel limit. You may not have more than the daily creel limit with you while afield. It is unlawful to have, while afield, any fish which has been altered so that its species and/or total body length cannot be determined.

Pole or Rod Limit: Unless otherwise noted in this guide or by proclamation, there is no limit on the number of poles an angler may fish at one time.

**Statewide Hook Restriction**

Unless otherwise restricted in this proclamation, anglers are restricted to a maximum of 3 hooks per rod, pole or hand-held line. Single, double or treble hooks each count as one hook. The statewide hook restriction does not apply when using a sabiki rig (also known as a piscatore rig) to take shad or herring. A sabiki rig is a set of small lures attached to a single line, typically used to catch baitfish.

**Banned In Tennessee**

It is unlawful to possess or transport live specimens of the following animals:

- Silver carp (Hypophthalmichthys molitrix)
- Bighead carp (Hypophthalmichthys nobilis)
- Black carp (Hypophthalmichthys piceus)
- Blueback herring (Alosa aestivalis)
- Marbled Crayfish (Marmorkreb) (Procambarus fallax f. virginalis)
- New Zealand mud snail (Potamopyrgus antipodarum)
- Round goby (Neogobius melanostomus)
- Rudd (Scardinius erythrophthalmus)
- Ruffe (Gymnocephalus cernua)
- Snakeheads (all members of the Family Channidae)
- Swamp eels (all members of the Family Synbranchidae)
- Zebra mussels (Dreissena polymorpha)

General Information

Reciprocal Agreements

Tennessee has several reciprocal agreements with adjacent states. These agreements have been arranged so that any fishing license from either Tennessee or the corresponding state is valid in the following waters.

Alabama/Mississippi

Pickwick Lake: Applies to anyone with a valid Sport Fishing License from Tennessee, Alabama or Mississippi. Resident anglers of the three states may fish without purchasing a nonresident license anywhere within the boundaries covered by the agreement. The reciprocal area includes all impounded water from Pickwick Dam upstream to Tennessee River Mile 224.8 at the mouth of Bear Creek but does not include Bear Creek and does not include that portion of Yellow Creek above the Hwy. 25 Bridge. Sport fishing license holders shall abide by the regulations of the state in whose waters they are fishing.

Arkansas

This state agrees to honor either license on the flowing waters of the Mississippi River, adjacent sloughs, bayous and old river runs, which are accessible by boat from the river proper, and the old river chutes forming a common boundary, excluding all wildlife management areas established by either state and the Wolf, Loosahatchie, Hatchie, Forked Deer and Obion rivers. The following common regulations apply:

- Black bass: creel limit 10, no length limit
- Bream: creel limit 50, no length limit
- Crappie: creel limit 50, no length limit
- Striped bass and Hybrid striped bass: creel limit 6, no length limit
- Sauger: creel limit 6, no length limit

All anglers must follow Arkansas regulations governing creel and size limits, trotlines, and other equipment requirements on Ikes Chute, Hopefield Chute, Mosquito Lake, Mound City Lake, Island 40 Chute and Lake Neark.

Kentucky

Dale Hollow Lake: Sportfishing licenses from either state are recognized in Wolf River including Illwill Creek, beginning at a line crossing the Wolf River at its mouth where it joins the Obey River. Creel limits and other regulations of the state where the license was issued apply.

Big South Fork of the Cumberland River: Sportfishing licenses from either state are recognized from Leatherwood Ford Bridge (Hwy. 279) in Tennessee, downstream to the Hwy. 92 bridge at Yamacraw, Kentucky. Creel limits and other regulations of the state where the license was issued apply.

Kentucky Lake: Each state will recognize the sport fishing licenses for the other state on the portion of Kentucky Lake south of the Eggners Ferry Bridge (US 68 & Hwy. 80) in Kentucky and north of the Governor Ned McWherter Bridge (US 79 & Hwy. 76) in Tennessee. This includes all embayments and tributaries within this portion of Kentucky Lake except the Blood River embayment. Blood River embayment shall be defined as a straight line between opposite points where the embayment connects to the main body of Kentucky Lake. A sport fishing license holder from either state may fish from the bank or attach legal sport fishing trot or limb lines in this described portion of Kentucky Lake. Sport fishing license holders shall abide by the regulations of the state in whose waters they are fishing. Wildlife enforcement officials in either state shall have the right to inspect the licenses, permits, catches and equipment of any person on this portion of Kentucky Lake subject to the laws of either state.

Missouri

Persons possessing a valid sportfishing license in either state may fish in the Mississippi River and its backwaters within the boundaries of the other state and any oxbow lakes through which the Missouri-Tennessee boundary passes. They may fish from or attach any device or equipment to land under the jurisdiction of the other state. Persons licensed in only one state may not fish in the Mississippi River tributaries of the other state. Anglers must comply with the fishing regulations of the state where they are fishing and when fishing where they are not licensed will comply with the most restrictive state’s regulation. Persons legally exempted from license requirements of either state are entitled to these privileges and provisions.

Except where it is shown to be elsewhere, the center of the U.S. Army Corps of Engineers navigation channel will be the boundary between Tennessee and Missouri.

North Carolina

Sportfishing licenses from either state are recognized in all of Calderwood Reservoir while fishing from a boat and in that portion of Slickrock Creek which constitutes the boundary between the two states. See pages 26 and 35 for regulations on Calderwood Reservoir and Slickrock Creek, respectively.

Virginia

South Holston Reservoir: Tennessee residents may purchase an annual South Holston Reservoir License (Type 063) to fish the VA portion of South Holston Reservoir. Virginia residents can purchase a similar license from VDGIF to fish the TN portion of the reservoir. Anglers that are not TN or VA residents must abide by the state boundary line unless they purchase other appropriate fishing licenses from both states.

A South Holston Reservoir License is valid for all impounded portions of the reservoir below full pool elevation of 1,730 feet, including the confluence of the Middle Fork and South Fork Holston Rivers and the South Fork Holston upstream to the Route 710 Bridge at Alvarado, VA.

In addition to the South Holston Reservoir License, an angler must have whatever licenses that are required to fish in their home state. A valid resident TN trout fishing license or a valid resident VA trout fishing license is required to fish for trout. All anglers shall abide by the laws of the state in which they are fishing as to manner and means of taking fish. Length and creel limits are listed on page 29 of this guide.
ATTENTION

FREE Fishing Day/Week

Saturday, June 6, is Free Fishing Day in Tennessee and anyone (resident or non-resident) of any age may fish free without a license in Tennessee’s public waters! Even better, if you are 15 years old or younger, you may fish free the entire week, beginning on Free Fishing Day, June 6, and running through the following Friday, June 12.

This day and week are annual events in Tennessee and are great opportunities to introduce children to the joys and excitement of a day on the water catching fish! Not only is fishing a great family activity, it helps make us more aware of our natural environment.

Finding a place to fish is easier than ever. Starting in late spring, all you need to do is go to www.tnwildlife.org to view the 2020 Kid’s Fishing Events. There you will find a variety of activities planned across the state with details as to event locations and times. You can also contact your regional TWRA office to find out what’s going on in your area or let them know you are interested in sponsoring or volunteering to help with an event. Anglers and would-be anglers should check the events list often since more fishing rodeos are frequently added. Whatever you do, don’t miss the fun!

Free Fishing Day and Week apply to Tennessee’s public waters, Agency owned and operated lakes, and state park facilities. Some privately owned pay lakes continue to charge during this special day and week. Please consult with lake operators if you have any questions about the status of a particular facility.
**Notice of inspection law:** It is the duty of every person participating in the privileges of taking or possessing wildlife to permit agency officers to ascertain whether the requirements of this title are being faithfully complied with, including the possession of a proper license. It is a violation of law to refuse such inspection or to interfere with an officer attempting such inspection. TCA 70-6-101(b)(1)

**Basic Laws and Definitions**

- Stocking of any fish, crayfish or salamanders into public waters is strictly prohibited.
- Explosives, chemicals and electrical shocking devices are strictly forbidden, and their use carries heavy penalties.
- Shooting with any type of firearm or air gun to injure or take fish or turtles is prohibited.
- All boaters and passengers must wear a Coast Guard approved life jacket within the area designated and appropriately marked as a hazardous area below any dam and/or lock.
- It is illegal to take any fish, crayfish, salamander, or turtle that is listed as endangered, threatened or in-need-of-management.
- It is illegal to sell or offer to sell fish or turtles without a commercial fishing license.

**Bait:** Any living or dead organism, or prepared substance designed to attract fish by taste or odor. For the purpose of this proclamation bait includes, but is not limited to, fish, fish eggs, crayfish, worms, grubs, crickets, corn, cheese, bread, pork rinds, putty or paste-type products, and flavors or scents applied to or impregnated into artificial lures.

**Frequently Asked Questions**

1. **If I am casting from my own property while I fish, do I need a fishing license to fish in a public lake or reservoir?** Yes. You do not qualify for a landowner exemption because you do not own the waterbody that you are fishing.

2. **Can I stock fish?** No! Releasing fish or any other animal into a stream, river or reservoir can irreversibly ruin the fishing in that location. It is easy to imagine how an exotic species released from an aquarium could harm our native fish populations. But even the release of species such as a bass that might already live in that water body could introduce harmful viruses or diseases. For this reason only TWRA has the authority to stock public waters which includes all streams and rivers, and all public lakes and reservoirs. It is illegal to stock the waters of Tennessee, and only privately owned ponds may be stocked without TWRA approval.

3. **Can I clean/dress my fish in any way, while on the water?** It is unlawful to possess while afield any fish which has been altered to the extent that its species and/or total body length cannot be determined.

4. **Do I need a trout license if I do not plan on keeping trout?** If you are fishing for trout, you need a trout license whether or not you possess trout.

5. **Do I need a fishing license to fish a private farm pond?** Yes, unless you are not required to have a license under a landowner, age, or military exemption. See “Who Must Have a Tennessee License” section on page 9.

6. **What licenses are required to fish on Wildlife Management Areas (WMAs)?** No license is required if you are under the age of 13, or are military personnel on furlough with papers. Otherwise, you only need the proper fishing license. Generally there are no special WMA licenses required. However, a Tellico-Citico permit is required for all ages on certain waters within the Cherokee National Forest (Cherokee WMA). In addition, certain WMAs are periodically closed.

7. **As I was cleaning a fish, I noticed a black, white or yellow grub or worm in them. What are these and are the fish safe to eat?** These are small parasites that are referred to as Trematodes. Commonly known as black spot, yellow grub and white grub, they are very common in many fish species in Tennessee and worldwide. The parasites have a complex life cycle that involves fish, fish-eating birds and other invertebrates such as snails. While the appearance may be unappetizing, fish that are cleaned and completely cooked cannot transmit any parasite or disease to people who eat the fish. The parasites usually do not affect the health of the fish except under unusual conditions.

8. **What is a thermocline and what effect does it have on reservoir fish populations?** As the surface water warms in the late spring, a distinct temperature gradient is formed between the warm surface water and the cool water below. This thermocline does not allow the cold water to mix with the warm, oxygenated water above. The cold water slowly loses oxygen due to the decay of organisms and lack of photosynthesis. In certain reservoirs, the cold water loses enough oxygen during the summer that it can no longer support certain cool water species like striped bass.

9. **When do our reservoirs “turn over”?** Northern reservoirs experience a spring and fall “turn over,” but our lakes destabilize only in the fall. It occurs when the surface water cools sufficiently to mix with the cold water below. Prior to the cooling period, the warm surface water cannot mix with the denser water below because of thermal stratification (see the previous question).

10. **What are those jelly-like masses that are attached to tree limbs, bushes and other objects in the water?** They are colonies of harmless microscopic animals called Bryozoa. They have miniature tentacles to capture prey and are permanently attached to the colony mass. Large colonies can exceed two feet in diameter, but most are less than one foot.
Tennessee's Lake Sturgeon Project

Lake sturgeon are a primitive species that can grow to eight feet in length, weigh up to 300 pounds, and live 150 years. Since 2000, over 281,427 lake sturgeon have been stocked into the French Broad and Holston rivers near Knoxville and the Cumberland River near Nashville. These stocking efforts are part of a long-term program designed to restore reproducing populations of this primitive species to Tennessee waters. This species is known to travel long distances, so it is very likely that anglers could catch lake sturgeon in waters of the state other than where they were stocked. Angler reports are important to TWRA because they provide important movement and growth information needed to monitor the success of Tennessee's lake sturgeon reintroduction program.

Since 2006, TWRA has issued 577 certificates to anglers for reporting the catch and release of lake sturgeon in Tennessee.

If you catch a lake sturgeon, please be as careful as possible not to harm the fish—avoid holding lake sturgeon by their tails and remember that fish cannot breathe while they are out of the water. Lake sturgeon are endangered in Tennessee and should be released immediately. If possible, note an approximate length before the fish is released. Additionally, TWRA would appreciate a picture of your lake sturgeon catch if you can take one without harming the fish.

In appreciation of your report, TWRA will issue you a numbered Lake Sturgeon Certificate (above) that features a color reproduction of a lake sturgeon drawn by renowned wildlife artist Joseph R. Tomelleri. If you catch a lake sturgeon please call the toll free number for your regional office (see page 4 of this fishing guide) or the Fisheries Division at (615) 781-6575. You will be asked to provide your name, address, and phone number and the following information about your catch: when and where you caught it, an approximate length, and what you were using for bait.

You can also email details (including photos) of your catch to sturgeon.reports@tn.gov. Refer to page 6 for your local regional office number.

METHODS OTHER THAN ROD AND REEL

Trotlines, Limelines and Jugs

Trotlines consist of a main line with drop lines to which single hooks are attached. Drop lines must not be closer than 24 inches. Nongame fish, except paddlefish and sturgeon, may be taken without limit. Game fish must be taken according to local limits. There is no limit on catfish, except only one fish may exceed 34 inches. The creel limit for skipjack is 100 fish.

Sportfishing trotlines, limelines and jugs must be tagged and/or marked with the owner’s name and address, or TWRA identification number. Trotlines attached to the bank must be tagged on the line within five feet of the bank. Other trotlines must be tagged within five feet of either end, and floating trotlines must be marked on floats. The holder of a sport fishing license may use one or more trotlines not having a combination of more than 100 hooks. Limelines (including yo-yos) must be tagged above water level and are allowed only one hook per line. Sport anglers are limited to 25 limelines. Sport anglers are allowed only one hook per line. Nongame fish, except paddlefish and sturgeon, may be taken without limit. Game fish may be taken according to local limits. There is no limit on catfish, except only one fish may exceed 34 inches. The creel limit for skipjack is 100 fish.

Exceptions:

- Allen Branch Pond and Chilhowee (McKamy) Pond in Cherokee WMA: Closed to jugs and trotlines.
- Barods Lake on Land Between the Lakes: Closed to trotlines and limelines. Jugs permitted from October 1–March 31.
- Beech River Watershed Development Authority: 20 jugs or blocks per boat. Trotlines prohibited.
- Calderwood: Trotlines and limelines prohibited.
- Danville Railroad Bridge Dikes: Trotlines prohibited within 50 yards of dikes.
- Indian Boundary Lake: Closed to trotlines, jugs and limelines.
- New Johnsonville Steam Plant Harbor: 10 jugs or blocks per angler. Trotlines prohibited.
- Norris Reservoir: From January 1 through April 30, trotlines, limelines and jugs are prohibited between River Mile 32 (Point 15) and Hwy. 25E Bridge on the Powell River arm and between River Mile 137 (Point 31) and the Hwy. 25E Bridge on the Clinch River arm.
- TWRA Lakes: Trotlines and limelines are prohibited. From April 1 through Sept. 30, jug fishing is prohibited on Saturdays, Sundays, Memorial Day, Independence Day and Labor Day. On days open to jug fishing, each boat is limited to 10 jugs or blocks per day.

Slat Baskets

Holders of annual sport fishing license, Sportsman License, Lifetime Sportsman License, Jr. Fishing license, Lifetime Senior Citizens license or residents age 65 and over (prior to March 1, 1991) or under 13 may fish with one slat basket, provided the slat basket is marked with a metal tag, obtainable from the TWRA for an annual fee of $10.00. Possession or use of more than one slat basket is prohibited. A slat basket is defined as a device used for taking nongame fish and catfish only. Slat baskets may have only one outside funnel opening and must be made of wood, plastic or cane slats which are placed lengthwise and so constructed that there must be a minimum of four openings in the catching area, each being at least ½ inch wide and 6 inches long. Fish taken may not be sold.

The slat basket may not be set within 100 yards of the mouth of any river, creek or slough. Slat basket must be checked at least every 72 hours. Applications for metal tags can be obtained by writing to: TWRA Sales Office, P.O. Box 41729, Nashville, TN 37204. If you are applying in person and need directions to the TWRA central office, call 615-532-0476.

Grabbling, Gigging, Grab Hooks, Snagging, Archery, Crossbow, Speargun

Season open year round in all waters except:

a. where closed to fishing or expressly prohibited.

b. within 100 yards below dams. At Pickwick Dam the closed area extends downstream to the first moorage cell across from ramp.

c. At John Sevier Steam Plant the discharge channel is closed.

Nongame fish may be taken without limit. Game fish, sturgeon, and alligator gar may not be taken. Catfish, paddlefish, and skipjack may be harvested according to local limits. Gigging is prohibited in Bedford, Giles, Hickman, Lawrence, Lewis, Marshall, Maury, and Wayne counties. Snagging, grabbling, grabhooks, tubing, archery, speargun, dipping, and cast nets are legal methods in these counties.

Gigging is closed on the East Fork of the Obey River and its tributaries from Jan. 1–April 30.

Snagging is prohibited year round on the South Holston tailwater (from South Holston Dam to the headwaters of Boone Reservoir), Center Hill Reservoir, and the Cumberland Fossil Plant discharge channel into Barkley Reservoir, Cherokee Reservoir (Holston River) from Malinda Ferry Road (Hwy. 344) bridge upstream to John Sevier Dam from March 1 through March 31 and April 16 through May 31.

Watts Bar Reservoir: Watts Bar Reservoir from US-321 bridge upstream to Fort Loudon Dam is closed to snagging from March 15 through April 30 and May 16 through May 31.

Grabbling, gigging, grab hooks, snagging, archery, crossbow, speargun is prohibited on the following waters from Jan. 1–Apr. 30:

- Dale Hollow Reservoir: East Fork Obey River and its tributaries.
- Norris Reservoir: between River Mile 32 (Point 15) and the Hwy. 25E Bridge on the Powell River arm and between River Mile 137 (Point 31) and the Hwy. 25E Bridge on the Clinch River arm.
- Elk River in Carter County: From the Hwy. 321 Bridge downstream to River Mile 3.0 (Point 11) on the Elk River arm of Watauga Reservoir.
- Doe Creek: Old Cabin Private Road downstream to Roan Creek.
- Roan Creek: Mountain Lakes Estates Bridge downstream to Doe Creek.
- Row Branch: NC state line downstream to end of Downstown Road.

Show Your Support with a TWRA License Plate!

Money from the sale of specialty plates is available to the TWRA to fund wildlife habitat protection and enhancement programs, provide public hunting and fishing access, support law enforcement efforts, and improve youth education projects.

TWRA’s smallmouth bass license plate is available at county clerk’s offices throughout the state. This plate features a smallmouth bass created by renowned wildlife artist Al Agnew from a print titled “Sunlight on Bronze.”

As with other specialty license plates, such as the ones mentioned above, the new smallmouth bass plate will cost $35.00 above the regular cost of registering a vehicle.
BOATING SAFETY

Boating Safety Checklists

Required by Law
- Approved wearable flotation device for each person readily accessible
- Additional throwable flotation device on boats over 16 feet
- Persons 12 and under must wear a life jacket unless the boat is anchored or docked
- Fire extinguisher if fuel tank or engine is enclosed
- Running lights after sunset or during restricted visibility
- State registration card on board
- Registration number and validation sticker displayed
- Do not operate a boat under the influence of alcohol or drugs
- Observe navigation rules
- Do not overload boat
- Sound signaling device

Other Items
- Do not occupy ramp until boat is ready to launch
- Notify others of your schedule
- Obtain weather forecasts
- Navigation charts
- Bail bucket
- Anchor and line
- Paddle and extra plug
- Secure boat to trailer after loading
- Trailer lights
- Reduce speed at night
- Check for gasoline fumes
- Motor kill switch
- 170 degree wide-angle rear view mirror

Boating Division
Tennessee Wildlife Resources Agency
State 1-800-799-4890
www.tnwildlife.org

Life Jackets Float. You Don’t. Always wear your Life Jacket!
80% of drowning victims in boating accidents were not wearing a personal flotation device.

The 13 lakes and rivers of the Alabama Bass Trail offer easy access and plenty of variety for both serious anglers and those who love to wet a hook on the weekend. Lakes, rivers, dams and deltas offer a mix of open spaces, protected cover, solitude and adventure. There truly is a spot for everyone. COME FIND YOURS.
RESERVOIR REGULATIONS

Full pool elevation is the reservoir/stream boundary for harvest restrictions unless otherwise noted. Statewide regulations apply for any species not mentioned under each listed reservoir section.

REGION 1

Barkley
Includes the following dewatering areas—Barkley Unit I (also known as Dover Bottoms) and Bear Creek WMA. The dewatering areas are closed to fishing 5 days prior to and during the late waterfowl season.

- Largemouth/Smallmouth/Spotted Bass: 5 per day in combination.
- Largemouth Bass: 15 inch minimum length limit.
- Smallmouth Bass: 18 inch minimum length limit.
- Spotted Bass: no length limit.
- Crappie (all species): 30 per day in combination, 10 inch minimum length limit.
- Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
- Striped Bass or Hybrid Striped Bass: 2 per day in combination, 15 inch minimum length limit.
- Walleye: 5 per day, 16 inch minimum length limit.
- White Bass: 15 per day, no length limit.
- Yellow Bass: no creel or length limit.

Kentucky Lake
Includes the following dewatering areas—West Sandy, Big Sandy, Gin Creek, Camden Bottoms, Duck River Bottoms, Busseltown, Perryville, and Gumdale. The dewatering areas are closed to fishing 5 days prior to and during the late waterfowl season.

- Largemouth/Smallmouth/Spotted Bass: 5 per day in combination.
- Largemouth/Smallmouth Bass: 15 inch minimum length limit.
- Spotted Bass: no length limit.
- Crappie (all species): 20 per day in combination, 10 inch minimum length limit—this includes all dewatering areas.
- Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
- Striped Bass or Hybrid Striped Bass: 2 per day in combination, 15 inch minimum length limit.
- White Bass: 15 per day, no length limit.
- Yellow Bass: no creel or length limit.
- Walleye: 5 per day, 16 inch minimum length limit.
- Sauger: 10 per day, 15 inch minimum length limit.
- Paddlefish: 2 per day; season is open from April 24 through May 31. Culling is prohibited.
- Redear Sunfish: 20 per day, no length limit.
- Bluegill/Warmouth and other sunfishes: no creel or length limit.

Pickwick
- Largemouth/Smallmouth/Spotted Bass: 5 per day in combination.
- Largemouth Bass: 15 inch minimum length limit.
- Smallmouth Bass: 15 inch minimum length limit.
- Spotted Bass: no length limit.
- Crappie (all species): 30 per day in combination, 9 inch minimum length limit.
- Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
- Striped Bass or Hybrid Striped Bass: 2 per day in combination, 15 inch minimum length limit.
- White Bass: 15 per day, no length limit.
- Yellow Bass: no creel or length limit.
- Walleye: 5 per day, 16 inch minimum length limit.
- Sauger: 10 per day, 15 inch minimum length limit.
- Paddlefish: 2 per day; season is open from April 24 through May 31. Culling is prohibited.
- Redear Sunfish: 20 per day, no length limit.
- Bluegill/Warmouth and other sunfishes: no creel or length limit.

Reelfoot
Preservation Permit required for lake users except those under 16 years of age, residents 65 years or older, and lifetime or sportsman license holders. The use of gasoline powered boats is prohibited in TWRA posted areas April 1 through May 31.

- Largemouth/Spotted Bass: 5 per day in combination.
- Largemouth Bass: 15 inch minimum length limit.
- Spotted Bass: no length limit.
- Crappie (all species): 30 per day in combination, no length limit.
- Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.

ATTENTION

HELP STOP POACHING
The following telephone numbers are for reporting game violations only. Call between 7:00 a.m. & midnight, seven days a week

**West Tennessee (Region I)**
1-800-831-1173

**Middle Tennessee (Region II)**
1-800-255-8972

**Cumberland Plateau (Region III)**
1-800-241-0767

**East Tennessee (Region IV)**
1-800-831-1174

REPORT FISHING VIOLATIONS
• Yellow Bass: no creel or length limit.
• Paddlefish: 2 per day; season is open from April 24 through May 31. Culling is prohibited.
• Redear Sunfish: 20 per day, no length limit.
• Bluegill/Warmouth and other sunfishes: no creel or length limit.

REGION 2

Barkley and Kentucky Lake
See Region 1, previous page.

Cheatham
Includes Stones River up to J. Percy Priest Dam.

• Largemouth/Smallmouth/Spotted Bass: 5 per day in combination.
• Largemouth Bass: 14 inch minimum length limit.
• Smallmouth Bass: 18 inch minimum length limit.
• Spotted Bass: no length limit.
• Crappie (all species): 30 per day in combination, 10 inch minimum length limit.
• Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
• Striped Bass or Hybrid Striped Bass: 2 per day in combination, 15 inch minimum length limit.
• White Bass: 15 per day, no length limit.
• Walleye: 5 per day, 16 inch minimum length limit.
• Sauger: 10 per day, 15 inch minimum length limit.
• Paddlefish: 2 per day; season is open from April 24 through May 31. Culling is prohibited.
• Rock Bass: 20 per day, no length limit.
• Redear Sunfish: 20 per day, no length limit.

Want Better Fishing in Your Stream?

By restoring streamside habitat to trees, shrubs and native grasses, you stabilize the streambank, reduce soil erosion and cool the water temperature by shading the stream. The result? An improved stream that better supports fish and other aquatic life.

In many cases the U.S. Department of Agriculture will pay for stream and streamside habitat restoration. Contact a local TWRA Private Lands Biologist:

TOURNAMENT

Are You a Bass Tournament Angler?

- What is the average size bass weighed in for tournaments?
- How many hours does it take tournament anglers to catch a 5 pound bass?
- What lake in Tennessee has the highest bass catch rate for tournament anglers?
- How many bass does the average tournament angler catch?

If you would like to know the answers to these questions and more, have your bass club join the TWRA B.I.T.E. program!

BITE Program
Tennessee Wildlife Resources Agency
Fishing Management District
5107 Edmondson Pike
Nashville, TN 37211
(615) 781-6575 or www.tnwildlife.org
SPECIAL RESTRICTIONS:
A closed fishing zone will be in effect from July 15 through Sept. 15. This zone is enclosed by lines from the boat ramp at the south end of the dam across the lake to Point 2, from Point 2 to Point 3, and from Point 3 back across the lake to the TWRA boat ramp at the north end of the dam. All bank fishing will be open and the coves along the southeast shoreline will be open to boat fishing, but no fishing for any species will be allowed by boat in the described zone from July 15 through Sept. 15.

STOP AQUATIC HITCHHIKERS

What can you do to prevent the spread of whirling disease?
- CLEAN. DRAIN. DRY. Clean all equipment, such as waders, fishing gear, boats, trailers, and float tubes of mud before leaving an area when fishing. Careful cleaning using disinfectants such as bleach will kill this parasite and many other aquatic nuisance species. Drain water from all motor units, live wells and buckets.
- DO NOT transport live fish from one waterbody to another.
- DO dispose of fish parts carefully when cleaning fish (dry disposal in garbage is best).
- CONTACT US if you observe signs of whirling disease in fish.

TWRA.WhrirlingDisease@tn.gov
Please provide a location and picture of the fish if possible.
• Muskellunge: 1 per day, 36 inch minimum length limit.
• Bluegill/Warmouth and other sunfishes: 30 per day, no length limit.

South Holston (TN + VA Rules)
An additional South Holston Reservoir License (Type 063) is available for TN residents that want to fish Virginia portion of reservoir. See page 16. Restricted to 15 limb lines per angler.
• Largemouth/Smallmouth Bass: 5 per day in combination.
• Smallmouth Bass: 15 inch minimum length limit.
• Spotted Bass: 15 per day, no length limit.
• Crappie (all species): 15 per day in combination, 10 inch minimum length limit.
• Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
• White Bass: No harvest allowed.
• Redear Sunfish: 20 per day in combination.
• Trout: 7 per day, only two may be lake trout.

Tellico
Restrictions extend upstream on Tellico River to Big Creek Boat Ramp.
• Largemouth/Smallmouth Bass: 5 per day in combination.
• Largemouth Bass: 14 inch minimum length limit.
• Smallmouth Bass: 18 inch minimum length limit.
• Spotted Bass: 15 per day, no length limit.
• Crappie (all species): 15 per day in combination, 10 inch minimum length limit.
• Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
• White Bass: 15 per day, no length limit.
• Yellow Bass: no creel or length limit.
• Walleye/Sauger: 10 per day in combination but no more than 5 may be walleye. 15 inch minimum length limit. One walleye may be 24 inches or larger. Includes tributaries.
• Paddlefish: 2 per day; season is open from April 24 through May 31. Culling is prohibited.
• Rock Bass: 20 per day, no length limit.
• Redear Sunfish: 20 per day, no length limit.
• Bluegill: 50 per day, no length limit.
• Warmouth and other sunfishes: no creel or length limit.
• Trout: 7 per day, no length limit.

Watauga
• Largemouth/Smallmouth Bass: 5 per day in combination.
• Largemouth Bass: 12 inch minimum length limit.
• Smallmouth Bass: 15 inch minimum length limit.
• Spotted Bass: 15 per day, no length limit.
• Crappie (all species): 15 per day in combination, 10 inch minimum length limit.
• Catfish (all species): No creel limit for fish 34 inches and less in length; only one fish over 34 inches in length may be harvested per day.
• White Bass: 15 per day, no length limit.
• Redear Sunfish: 20 per day, no length limit.
• Bluegill/Warmouth and other sunfishes: no creel or length limit.
• Trout: 7 per day, no length limit, only two may be lake trout.
TWRA FISHING LAKES

INFORMATION

Eighteen TWRA managed lakes, located in Middle and West Tennessee, are open year-round. Some of these lakes are operated by private concessionaires under contract and offer complete services for the fishing public.

Hours

The lakes are open to fishing all week. Lakes will open one-half hour before official sunrise and close one-half hour after official sunset, except Garrett Lake which is open 24 hours a day. Thanksgiving Day and Christmas Day the following lakes are closed: Carroll, Gibson Co., Glenn Springs, Herb Parsons, and Lake Graham.

Permits

A daily lake permit of $6.00 (available at most lakes), in addition to the regular fishing license, is required to use these lakes. A lake permit is not required at Garrett and Whiteville lakes. All residents 16 through 64 years of age, and non-residents 16 years of age or older must have this permit. Sportsman license and lifetime license holders do not need a lake permit. Resident anglers 65 years of age and older do not need a lake permit, but do need a fishing license. A $48.00 Annual Lake Permit may also be purchased at many of the lakes with concessionaires, and is good at all TWRA fishing lakes. For Coy Gaither-Bedford Lake, a daily lake permit should be purchased from a license agent in the surrounding area before going to the lake.

Alcoholic beverages are prohibited at all agency lakes.

Boats used for any activity other than fishing are prohibited, except for hunting on specific lakes during the regular hunting season as listed in the Tennessee Hunting Guide. Speed boating, personal water craft, water skiing, and swimming are prohibited. Houseboats, sailboats and inboard cruisers are prohibited. On Coy Gaither-Bedford, Marrowbone, VFW and Williamsport lakes, only trolling motors can be used.

Boats may be rented for $10.00 per day at some lakes on a seasonal basis. There is no charge for paddles.

Tackle

Only rods and reels, poles, hand-held lines, and jugs may be used (see page 20 for jug fishing rules at TWRA lakes). Snagging is prohibited.

TWRA Fishing Lakes Locations And Facilities

**TWRA Fishing Lakes Information**

**Statewide regulations apply for any species not listed.**

**Brown's Creek Lake**
- **Largemouth Bass**: 5 per day, 18–24 inch PLR. Only one (1) fish longer than 24 inches may be harvested.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: 30 per day, 8 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Carroll Lake**
- **Largemouth Bass**: 5 per day, 15 inch minimum length limit.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: No creel limit; no length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.
- **Walleye**: 16 inch minimum length limit, 5 fish creel limit.

**Coy Gaither-Bedford Lake**
- **Largemouth Bass**: 5 per day, 14–18 inch PLR. Only one (1) fish longer than 18 inches may be harvested.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: 15 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, 14 inch minimum length limit.

**Davy Crockett Lake**
- **Largemouth Bass**: 10 per day, no length limit.
- **Bluegill**: no creel or length limit.
- **Redear**: 2 per day, 15 inch minimum length limit.
- **Crappie (all species)**: 30 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Garrett Lake**
- **Largemouth Bass**: 5 per day, no length limit.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: 30 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Gibson County Lake**
- **Largemouth Bass**: 10 per day, 18–24 inch PLR. Only one (1) fish longer than 24 inches may be harvested.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: 30 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Glenn Springs Lake**
- **Largemouth Bass**: No creel limit for fish 18 inches and less in length, only one fish over 18 inches in length may be harvested per day.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: 30 per day, 8 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Herb Parsons Lake**
- **Largemouth Bass**: 10 per day, 14–18 inch PLR. Only one (1) fish longer than 18 inches may be harvested.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: No creel or length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.
- **Hybrid Striped Bass**: 15 inch minimum length limit, 2 fish per day creel limit.

**Lake Graham**
- **Largemouth Bass**: No creel limit for fish 18 inches and less in length, only one fish over 18 inches in length may be harvested per day.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: 30 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.
- **Trout**: 7 per day, no length limit.

**Laurel Hill Lake**
One embayment is for juvenile fishing, only youths 16 and under may fish. Nursery ponds may be closed as posted.

- **Largemouth Bass**: 10 per day, 13–18 inch PLR. Only one (1) fish longer than 18 inches may be harvested.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: 15 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, 14 inch minimum length limit.

**Maples Creek Lake**
- **Largemouth Bass**: 5 per day, no length limit.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: 30 per day, 8 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Marrowbone Lake**
- **Largemouth Bass**: 5 per day, 14–18 inch PLR. Only one (1) fish longer than 18 inches may be harvested.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: 15 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.
- **Trout**: 7 per day, no length limit.

**VFW Lake**
- **Largemouth Bass**: 5 per day, no length limit.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: 15 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, 14 inch minimum length limit.

**Whiteville Lake**
- **Largemouth Bass**: 5 per day, no length limit.
- **Bluegill**: no creel or length limit.
- **Redear**: 20 per day, no length limit.
- **Crappie (all species)**: 30 per day, 8 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, no length limit.

**Williamsport Lakes (4 lakes)**
Whippoorwill Lake is for juvenile fishing, only youths 16 and under and an accompanying adult may fish. Two wetland ponds, Egret and Heron, are closed to fishing.

- **Largemouth Bass**: 1 per day, 20 inch minimum length limit.
- **Bluegill/Redear**: 20 per day in combination, no length limit.
- **Crappie (all species)**: 15 per day, 10 inch minimum length limit.
- **Blue/Channel Catfish**: 5 per day in combination, 14 inch minimum length limit.

**DEFINITION**

**Protected Length Range (PLR)**
PLR is a Protected Length Range. Fish in this length range may not be harvested. To promote growth of bigger bass in these lakes, anglers are encouraged to harvest their daily limit of bass shorter than the listed PLR.
EXCEPTIONS
TO STATEWIDE REGULATIONS

Small Impoundments

Allen Branch Pond (Cocke County)
- Catfish: 5 per day.

Beech River Watershed Lakes
- Catfish: 5 per day, 15 inch minimum length limit.
- Crappie: 30 per day, no length limit.

Pine Lake
- Largemouth Bass: 10 per day.

Dogwood Lake
- Largemouth Bass: 12- to 16-inch PLR, 10 per day.

Redbud Lake
- Largemouth Bass: 12- to 16-inch PLR, 10 per day.

Bridgestone/Firestone Centennial Wilderness WMA Ponds
Designated as youth fishing ponds. Fishing is permitted for youths 16 years of age or younger who are accompanied by a non-fishing adult (18 years of age or older). Youths are limited to using one (1) pole or rod while fishing. Fishing is permitted from one-half hour before official sunrise to one-half hour after official sunset.

- Bluegill: 10 per day, no length limit.
- Channel Catfish: 5 per day.
- Largemouth Bass: catch and release only.
- Catfish: 5 per day, 14-inch minimum length limit.
- Redear Sunfish: 20 per day, no length limit.
- Crappie (all species): 30 per day in combination, no length limit.

Campbell Lake (Maury County)
- Largemouth Bass: 1 per day, 12 inch minimum length limit.
- Catfish: 5 per day, 14 inch minimum length limit.
- Bluegill/Redear Sunfish: 20 per day in combination, no length limit.
- Crappie (all species): 30 per day in combination, no length limit.
- Grass Carp: No harvest allowed.

Carroll County Lake
- Largemouth Bass: 5 per day, 14- to 18-inch PLR. Only one bass over 18 inches.
- Bluegill/Redear Sunfish: 20 per day in combination, no length limit.
- Crappie (all species): 30 per day in combination, 10 inch minimum length limit.
- Blue/Channel Catfish: 5 per day in combination, no length limit.

Casper Lake (Shelby County)
- Largemouth Bass: 2 per day, 16 inch minimum length limit.

Catsoosa Wildlife Management Area
All streams and ponds are open from Apr. 1–Dec. 31, except on the dates of managed big game and turkey hunts.

Davy Crockett Lake (Greene County)
- Crappie: 30 per day, no length limit.
- Smallmouth/Largemouth Bass: 5 per day in combination.
- Smallmouth Bass: 13–17 inch protected length range, only one over 17 inches.
- Spotted Bass: 15 per day, no length limit.

Dickson City Lakes (Dickson County)
- Catfish: 5 per day, no length limit.

Doakes Pond (on Norris Reservoir)
The portion of Norris Reservoir known as Doakes Pond, located adjacent to Hwy. 63 approximately 9 miles NE of Lafollette, is closed to fishing.

Indian Boundary Lake (Cherokee NF)
- Largemouth Bass: 2 per day, 14 inch minimum length limit.
- Catfish: 5 per day, no length limit.
- Crappie: 30 per day, no length limit.

Lake Kefauver (Madisonville, Monroe County)
- Bass: 2 per day, 14 inch minimum length limit.
- Catfish: 5 per day, no length limit.

Land Between the Lakes
All waters are open year round with the following provisions:
- Farm ponds are open to fishing unless otherwise posted.
- Bards Lake: Trotlines and limblines are prohibited. Jugs are permitted from Oct. 1–Mar. 21, with a limit of 10 jugs per person.

Liberty Park Lake (Clarksville)
- Catfish: 5 per day, no length limit.

New Lake (Lewisburg City Lake)
- Largemouth Bass: 5 per day, 15 inch minimum length limit.
- Catfish: 5 per day, no length limit.
- Crappie: 15 per day, no length limit.

Open one-half hour before official sunrise to one-half hour after official sunset. Only rods and reels and cane poles permitted.

Reelfoot Watershed Lake #18
- Largemouth Bass: 5 per day, 15 inch minimum length limit.

WMAs/Refuges

Douglas Reservoir
Henderson Island WMA Rearing Pond is closed to fishing year-round.

Federal Refuges
Some federal wildlife refuges have closed seasons. For details contact the office of the national wildlife refuge where you wish to fish.

Gooch Unit E Lake
- Largemouth Bass: 5 per day, 15 inch minimum length limit.

Hiwassee Refuge
Trespassing and fishing are prohibited in embayments and sub-impoundments from Nov. 15–Feb. 28. Boats must remain within the river channel defined by navigational buoys.

State Park Lakes

State Park Lakes are managed by the Department of Environment and Conservation. Unless otherwise posted, statewide fishing regulations apply with the following exceptions:

Pin Oak Lake in Natchez Trace State Park
- Trotlines and limblines prohibited year round.
- From 1st of April through 30th of September fishing with jug lines will be prohibited on Fridays after 12 noon until 12 midnight on Sundays. Fishing with jug lines is also prohibited on Memorial Day, July 3rd through July 5th, and Labor Day. On days open to jug fishing, each boat is limited to 10 jugs per day.
Exceptions TO STATEWIDE REGULATIONS

**Crappie** (all species combined):
- All lakes: 15 per day, no length limit, except:
  - Pin Oak Lake, Natchez Trace State Park: 30 per day, no length limit.

**Channel or blue catfish** or in combination:
- All lakes: 5 per day, no length limit.

**Black bass from the following lakes must be a minimum of 15 inches:**
- Lake Lindsey, David Crockett State Park.
- Byrd Lake, Cumberland Mountain State Park.
- Acorn Lake, Montgomery Bell State Park.
- Creech Hollow Lake, Montgomery Bell SP.
- Kelly (Standing Stone) Lake, Standing Stone State Park.

**Black bass from:**
- Lake Lajoie and Lake Placid, Chickasaw State Park: 14–18 inch PLR (slot limit). Daily creel limit 10 bass per day, only one bass over 18 inches may be harvested.
- Big Ridge Lake, Big Ridge State Park: 14 inch minimum length limit.
- Poplar Tree Lake, Meeman-Shelby Forest State Park: 14–18 inch PLR (slot limit).
- Travis McNatt Lake, Big Hill Pond State Park: 10 bass per day, no length limit.

**Pin Oak Lake, Natchez Trace State Park:** 12 to 16 inch PLR, 10 per day.

**Bluegill and redear sunfish in combination:**
- Poplar Tree Lake, Meeman-Shelby Forest State Park: 20 per day, no length limit.
- Fall Creek Lake, Fall Creek Falls State Park: 20 per day, no length limit.

**Rivers and Streams**

**Buffalo Creek (Grainger County)**
Closed to all fishing and minnow seining upstream from the mill dam.

**Calfkiller River and tributaries**
- Muskellunge: 1 per day, 50 inch minimum length limit.

**Caney Fork River (above Center Hill Dam)**
Walleye run regulation in effect on the upper end of Center Hill Reservoir, including the Caney Fork River beginning at the boat ramp at Rock Island State Park and extending upstream to Great Falls Dam. Anglers restricted to use of one hook having a single barb or lure containing a single hook with one barb from Jan. 1–April 30. No more than 3 rods and reels or poles may be used.

**Caney Fork River (headwaters of Center Hill Reservoir)**
Walleye run regulation in effect on the upper end of Center Hill Reservoir, including the Caney Fork River beginning at the boat ramp at Rock Island State Park and extending upstream to Great Falls Dam. Anglers restricted to use of one hook having a single barb or lure containing a single hook with one barb from Jan. 1–April 30. No more than 3 rods and reels or poles may be used.

**Clear Creek (tributary to the Clinch River – Anderson County)**
Closed to fishing and minnow seining from Hwy. 441 upstream to the second dam (adjacent to the city of Norris water tower), as posted from Nov. 1–Mar. 31.

**Clinch River**
- Norris Reservoir upstream to Grissom Island: Walleye/Sauger: 5 per day in combination, 15 inch minimum length limit.
- Hwy. 25E upstream to state line: 13- to 17-inch PLR for Smallmouth Bass, with a creel limit of 5 black bass, allowing only one smallmouth bass in creel to be greater than 17 inches.

**Collins River and tributaries**
- Muskellunge: 1 per day, 50 inch minimum length limit.

**East Fork of the Obey River (headwaters of Dale Hollow Reservoir)**
Walleye run regulation in effect on the East Fork of the Obey River from Compton Boat Ramp upstream to the Hwy. 52 bridge. Anglers restricted to use of one hook having a single barb or lure containing a single hook with one barb from Jan. 1–April 15.

  - Black Bass: 5 per day in combination; 13–17 inch PLR for Smallmouth bass, only one Smallmouth bass over 17 inches per day.

- **North Fork Holston River (confluence with South Fork Holston River upstream to state line)**
  - Black Bass: 5 per day in combination; 13–17 inch PLR for Smallmouth bass, only one Smallmouth bass over 17 inches per day.

- **Pigeon River (from Hwy 321 bridge at Newport upstream to NC state line)**
  - Smallmouth Bass: 1 per day, 20 inch minimum length limit.
  - Walleye/Sauger or Walleye/Sauger Hybrids: 5 per day in combination.

- **Powell River (Gap Creek confluence upstream to state line)**
  - Black Bass: 5 per day in combination; 13–17 inch PLR for Smallmouth bass, only one Smallmouth bass over 17 inches per day.

- **Rocky River and tributaries**
  - Muskellunge: 1 per day, 50 inch minimum length limit.

- **South Fork Holston River (confluence with North Fork Holston River upstream to Fort Patrick Henry Dam)**
  - Black Bass: 5 per day in combination; 13–17 inch PLR for Smallmouth bass, only one Smallmouth bass over 17 inches per day.

- **Stones River (confluence with Cumberland River upstream to J. Percy Priest Dam)**
  - Regulations for Cheatham Reservoir apply (page 23).

- **Tellico River (Tellico Reservoir Boundary upstream to state line)**
  - Black Bass: 5 per day in combination; 13–17 inch PLR for Smallmouth bass, only one Smallmouth bass over 17 inches per day.

- **Wolf River (South Ford Road Bridge downstream into Dale Hollow Reservoir)**
  - Smallmouth Bass: 2 per day, 16–20 inch PLR (one under 16 inches and one over 21 inches).
TROUT REGULATIONS

Statewide Regulations

Any combination of trout species:
- **Daily Limit:** 7.
- **Minimum Length Limit:** None.

Exceptions:
- Only 2 trout in a creel may be lake trout
- See the following specific regulations

Delayed Harvest Areas

In the areas listed below, the harvest or possession of trout is prohibited during the catch-and-release season. During the catch-and-release season, only artificial lures are permitted and the use or possession of bait is prohibited.

**Buffalo Creek:** Mill dam downstream to Buffalo Springs WMA boundary.

**Doe River:** Roan Mountain State Park boundaries.
- Catch-and-release season is Nov. 1–last day of Feb.

**Hiwassee River:** Appalachian Powerhouse downstream to L&N Railroad Bridge
- Catch-and-release season is Oct. 1 through last day of Feb.
- From March 1 through Sept. 30, trout creel limit is 7 trout of all species combined and only 2 may be brown trout.

**Paint Creek:** Paint Creek Campground downstream to mouth at French Broad River
- Catch-and-release season is Oct. 1 through last day of Feb.

**Piney River:** Cumberland Trail State Park downstream to Highway 27 Bridge
- Catch-and-release season is Nov. 1 through last day of Feb.

**Tellico River:** Mouth of North River upstream to the Tennessee - North Carolina state line
- Catch-and-release season is Oct. 1 through the last day of February.

**Special Trout Regulations**

**Caney Fork River:** Center Hill Dam to Cumberland River, including tributaries
- Total daily creel of all trout (rainbow, brown and brook) in combination is 5 fish.

**Elk River:** Tims Ford Dam to I-65 bridge, including tributaries.
- **Brown Trout:** 20 inch minimum length limit, 1 per day.
- **Total daily creel limit of all trout species in combination is 7 trout.**

**Clinch River:** Norris Dam, downstream to Hwy. 61 bridge, including tributaries
- **Brown Trout:** 20 inch minimum length limit, 1 per day.
- **Total daily creel limit of all trout species in combination is 7 trout.**

**Clear Creek:** tributary to Clinch River—Anderson Co.
- Closed to fishing and minnow seining from Hwy. 441 upstream to the second dam (adjacent to the city of Norris water tower), as posted from Nov. 1–Mar. 31.

**Hiwassee River:** Appalachian Powerhouse downstream to L&N Railroad Bridge
- March 1 through Sept. 30: 7 trout creel limit, only one trout may be greater than 20 inches.
- Oct. 1 through last day of February: see delayed harvest areas.

**South Fork Holston River:** South Holston Dam to Hwy. 37 Bridge at Bluff City
- **Brown Trout:** 20 inch minimum length limit, 1 per day.
- **Total daily creel limit of all trout species in combination is 7 trout.**

**Watauga River:** Quality Trout Fishing Area Smallings bridge downstream to CSX railroad bridges
- **Rainbow Trout:** 5 per day, 14–20 inch PLR, only one fish over 20 inches may be harvested.
- **Brook Trout:** 5 per day, 14–20 inch PLR, only one fish over 20 inches may be harvested.
- **Brown Trout:** 1 per day, 24 inch minimum length limit.

**Watauga River:** Quality Trout Fishing Area Smallings bridge downstream to CSX railroad bridges
- **Rainbow Trout:** 5 per day, 14–20 inch PLR, only one fish over 20 inches may be harvested.
- **Brook Trout:** 5 per day, 14–20 inch PLR, only one fish over 20 inches may be harvested.
- **Brown Trout:** 1 per day, 24 inch minimum length limit.

**Slickrock Creek:** That portion of Slickrock Creek which constitutes the boundary between the states of Tennessee and North Carolina.
- **Appropriate licenses from TN or NC are valid.**
- **Rainbow, Brown and Brook Trout:** Daily limit of 4 in combination with a 7 inch minimum length limit.
- **Only single-hook artificial lures are permitted.** Use or possession of bait or multiple hook lures is prohibited. One single-hook artificial lure separated from a legal lure by a length of line (for example, a dropper fly) is also permitted.

**Dillard Ponds:**
- 4 trout per day.
- Each angler limited to one rod or pole.
- Fishing permitted from one half-hour before official sunrise to one half-hour after official sunset.

**Great Smoky Mountains National Park**

Most of the streams in the Great Smoky Mountains National Park provide trout fishing opportunities. For detailed fishing information and regulations, contact: Park Headquarters, Gatlinburg, TN 37738; phone 865-436-1200.

**Fort Campbell Military Reservation**

Several streams on Fort Campbell Military Reservation including Dry Creek, Little West Fork and Fletcher’s Fork are stocked with rainbow and brown trout. Special fishing regulations apply and a Post Fishing Permit is required in addition to a valid Tennessee fishing license and trout stamp. For details, contact the Community Recreation Division, Hunting and Fishing Unit, Fort Campbell, KY 42223-5000; phone 270-798-9824.
## Tellico-Citico Permit Areas

<table>
<thead>
<tr>
<th>AREA</th>
<th>REGULATIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tellico River</td>
<td>Tellico-Citico Permit required March 1 through Aug. 15. Closed on Thursday and Friday during the period March 1 through Aug. 15 (except when national or state holidays fall on Thursday and Friday). From Aug. 16 through the last day of February fishing is allowed every day and Tellico-Citico Permit is not required. Daily creel limit of 7 trout, with no size limit. Tellico River from Sourwood Campground upstream to the dam on Tellico River from one half-hour before official sunrise to 12 p.m. Closed to fishing for individuals 17 and older on Free Fishing Day (which is the first Saturday after the first Monday of the month of June). Fishing permitted from ½ hour before official sunrise to ½ hour after official sunset. The possession of fishing equipment and/or tackle is prohibited on stream banks except during legal fishing hours. Each angler permitted only one rod or pole.</td>
</tr>
<tr>
<td>Citico Creek</td>

## Protect Tennessee Waters

### Don’t Dump Bait
- Always drain bait bucket water on land
- Dispose of unwanted bait in the trash
tnwildlife.org
Tailwater Trout

TWRA stocks fingerling and adult trout into coldwater tailwaters below dams to provide fishing opportunities. In many tailwaters trout fishing can be good year-round. Trout are stocked routinely during the following months. Use caution below dams. Call TVA at 1-800-238-2264 to check dam discharge and generation schedules (www.tva.com/Environment/Lake-Levels).

*Seasonal fishery – only productive during stocked months.

Gatlinburg Trout Fishing

TWRA and the City of Gatlinburg offer a variety of trout fishing opportunities in four streams. All streams are closed on Thursday each week and a Gatlinburg permit is required (page 12). Some areas are managed especially for children 12 and under. For more information contact the Gatlinburg Chamber of Commerce, (800) 568-4748 or the Gatlinburg trout facility at (865) 436-4558.

The taking of trout using a Gatlinburg Permit is allowed only within the designated streams, designated times, and under the restrictions listed in the following paragraphs.

General Streams
- West Prong Little Pigeon River from Park Boundary to Gnatty Branch except those sections set aside as Children’s Streams.
- Dudley Creek from Park Boundary to West Prong Little Pigeon River, except those sections set aside as Children’s Streams.
- Roaring Fork from the Park Boundary to West Prong Little Pigeon River.
- Leconte Creek from Painter Branch to West Prong Little Pigeon River.

Children’s Streams (May only be fished by children 12 and under, unless otherwise posted)
- Leconte Creek from Painter Branch upstream to Park Boundary.
- West Prong Little Pigeon River from 100 yards above entrance of Herbert Holt Park downstream to Gatlinburg By-pass Bridge.
- Dudley Creek from Highway 441 Bridge to West Prong Little Pigeon River.

Season and Creel Limits
Fishing permitted year-round, except on Thursday, from one half-hour before official sunrise to one half-hour after official sunset. Fishing is permitted with one hand-held rod and single hook only.

From December 1 through March 31 (all streams):
- Possession of any trout shall be prohibited.
- All trout caught must be immediately returned to the water.
- Use or possession of bait is prohibited. Use or possession of any artificial lures other than single hook artificial flies, spinners, and spoons is prohibited. The use of one dropper fly having a single hook which is separated from a legal lure by a length of line is permissible.

From April 1 through November 30:
- General Streams: The creel limit is five (5) trout per day. Bait and artificial lures permitted.
- Children’s Streams: The creel limit is two (2) per day.
- Total possession limit shall not exceed twice the daily creel limit.
- While fishing or when afield, possession of more than the daily creel limit shall be prohibited, regardless of whether the trout are fresh, stored in an ice chest, in a vehicle, or otherwise preserved.

TENTATIVE TROUT STOCKING SCHEDULE
FOR 2020

The dates listed are all Sundays. The stocking event will happen within five days after the date listed. Trout will be stocked according to the schedule. However, any stocking event could be postponed or cancelled due to unforeseen problems, such as adverse weather.

**LAKE TROUT**
- Deeply forked tail
- White leading edge on lower fins
- Spots in rows on dorsal fin
- Dark saddles

**SAUGER**
- Spots in rows on dorsal fin
- Dark saddles

**WALLEYE**
- Dark area at base of dorsal fin
- White tip

**BROOK TROUT**
- Red, yellow or orange spots on the sides and belly
- Tricolor lower fins, leading edge is white followed by black and red
- Tail slightly forked, no spots on the bottom of the tail

**BROWN TROUT**
- Tail slightly forked, no spots on the bottom of the tail
- Brown body with large dark spots and reddish dots, many having halos

**RAINBOW TROUT**
- Pink streak along the middle of the body
- Small black dots throughout the body, continue to tail

**YELLOW PERCH**
- Dark area at base of dorsal fin
- White tip

**YELLOW PERCH**
- Spots in rows on dorsal fin
- Dark saddles

**BROOK TROUT**
- Light, worm-like markings on a dark upper body
- Red, yellow or orange spots on the sides and belly
- Tricolor lower fins, leading edge is white followed by black and red
How To Be Considered For a State Record Fish

The following criteria must be followed when applying for a state record certificate:

1. State record fish application is available at www.tnwildlife.org under “Fishing”.
2. To be considered for a state record certificate, the fish must be weighed on certified scales, or scales “legal for trade”. These scales may be found at supermarket meat centers, Farm/Feed stores, UPS/FedEx locations or at TWRA Regional offices.
3. Two witnesses, one of which must be the scale operator/owner, must fill out and sign Part B of the application certifying that they have observed the declared weight.
4. Only the current species listed in Class A and B, or those approved by TWRA, will be considered for a Tennessee state record fish certification.
5. Ties are accepted, but a new state record will be recognized only if the weight of the fish is one (1) ounce (oz) or more than the weight of the previous state record for that species or recognized hybrid (see #7).
6. It is the responsibility of the angler to contact a TWRA fisheries biologist for positive identification of the fish. The fish must be alive, fresh or frozen until positive species identity can be established. A photograph is not acceptable for identification.
7. Only two hybrid classifications, the striped bass/white bass (Cherokee bass) and the walleye/sauger (Saugeye), will be considered for a state record. Applicants must be willing to submit to the professional judgment of the certifying biologist as to the fish’s hybrid status.
8. TWRA reserves the right to conduct genetic testing on any fish submitted as a state record to verify its species or hybrid status.
9. The completed application must be forwarded to the TWRA Fisheries Division within 30 days of the catch in order to be considered for a state record certification.

The records shown are as of January 1, 2020.

2020-2021 TENNESSEE FISHING GUIDE
TENNESSEE ANGLER RECOGNITION

The Tennessee Angler Recognition Program (TARP) gives anglers an opportunity to have their trophy-size fish recognized by the Tennessee Wildlife Resources Agency. Anglers of any age, who catch large fish that meet or exceed qualifying lengths, can apply. The TWRA Fisheries Management Division sends these accomplished anglers TARP certificates featuring color reproductions of fish artwork by renowned wildlife artist Joseph R. Tomelleri.

The program is designed to acknowledge anglers for outstanding sportfishing accomplishments, to encourage catch and release of trophy size fish and to provide the TWRA with information on large fish caught throughout the state.

How to Qualify:
• The length of the fish must be verified by photo, the picture must be flat on top or of beside a flat measuring rule or tape and included with the application. Be aware that photos may be used on the TWRA website and in TWRA publications.
• The fish must be caught legally (in accordance with Tennessee Sportfishing Regulations) in Tennessee waters, by sportfishing methods only (rod and reel or cane pole).
• Persons 13 years of age and older must be licensed anglers and must provide their license number (TWRA #) on the application.
• The fish must meet or exceed the minimum Trophy Fish Length listed on the right of this page.
• Location — GPS latitude/longitude coordinates or precise directions to the site
• Approximate length and weight
• Photos

If you believe your catch exceeds the current state record for that species, you should immediately contact a TWRA Fisheries Biologist for positive identification of the fish (see page 44).

How Do You Apply?
An application form is located on facing page. Complete one application form per fish you are registering. You may include more than one application form per envelope. If the fish length is being verified by photo, the picture must be enclosed with the application. For each Trophy Fish Certificate only, a $5.00 processing fee, per application, must also be enclosed and mailed within 90 days from the date of catch. Make check or money order payable to TWRA and mail, with the application(s), to the address at the right of the application. The processing fee is non-refundable for non-qualifying applications. For further information about TARP or the State Record Fish program, call (615) 781-6575, or visit www.tnwildlife.org.

Have You Caught an American Eel?
The Tennessee Wildlife Resources Agency is seeking information from the public on the catch or observation of American Eel in Tennessee.

AMERICAN EEL

Have You Caught an American Eel?
The Tennessee Wildlife Resources Agency is seeking information from the public on the catch or observation of American Eel in Tennessee.

If you catch an American Eel, please provide the following information:
• Date and time of day caught
• How it was caught (gear)
• Type of bait used
• Photos

American eel (Anguila rostrata) is a fish deemed in need of management. It is illegal to take any fish, crayfish or turtle that is listed as threatened, endangered or in-need-of-management. If it is still alive please release the eel where it was caught. If it is no longer alive, please consider donating the specimen for age and growth studies. Please keep it on ice and place in a plastic bag in the freezer as soon as possible. Please call or email Pandy Upchurch at Pandy.Upchurch@tn.gov or (615) 781-6613 to arrange a time and place for pick up of the specimen.
**LIVE BAIT**

**REGULATIONS**

The following sections explain which species can be used for bait, and how they can be harvested, sold and transported. **Under no circumstance shall live fish, crayfish or salamanders be intentionally released into Tennessee waters away from the waters from which they were harvested.**

For the purposes of these rules, a sport angler shall be defined as anyone who attempts to take, kill, injure, capture, or catch any sport fish and every act of assistance thereof. A bait dealer shall be defined as one who engages in the business of capturing legal species of fish and other aquatic life for the purpose of sale, or one that sells any legal species of fish and other aquatic life for bait.

All bait dealers must purchase a type 118 (resident) or 116 (nonresident) license annually, and make all necessary reports as required to the Tennessee Wildlife Resources Agency. The harvest and use of bait fish by commercial fishers shall be regulated in the commercial fishing proclamation.

A licensed sport angler (with all required licenses and permits) can harvest game fish (including rainbow trout and sunfish) for use as bait using legal sport fishing methods. When harvesting game fish, all restrictions in the sport fishing proclamation apply (including creel and length limits, seasons, and license requirements) for both the waters from which fish are harvested for bait and for waters where they will be used as bait.

Trout harvested in the following waters shall only be used as bait in the water from which the trout were harvested.

1. South Fork Holston River from South Holston Dam to Boone Dam;
2. Watauga River from Watauga Dam to Boone Dam;
3. Doe River (Carter Co.); and
4. North River (Monroe Co.).

**Class A Bait Fish**

The following species may be:

1. Harvested by licensed sport anglers for use as bait;
2. Imported into Tennessee or exported from Tennessee as live or dead bait by licensed bait dealers and licensed sport anglers;
3. Harvested and sold in Tennessee by licensed bait dealers. There is no possession limit for Gizzard Shad, Threadfin Shad, Fathead Minnow, Golden Shiner, and Goldfish.

- **Skipjack Herring*** (Alosa chrysochloris) (creel limit of 100 per day; possession limit is 200)
- **Gizzard Shad*** (Dorosoma cepedianum)
- **Threadfin Shad*** (Dorosoma petenenes)
- **Fathead Minnow** (*Pimephales promelas*)
- **Golden Shiner** (*Notemigonus crysoleucas*)
- **Goldfish** (*Carassius auratus*)
- **Sunfishes* (Lepomis spp.)*
- **Rainbow Trout** (Oncorhynchus mykiss)

*All species in the Genus Lepomis may be bought and/or sold subject to the following conditions:

a. Such fish may be bought and/or sold for bait purposes only.
b. Such fish bought and/or sold must not be more than four (4) inches in length.
c. Such fish must have been lawfully taken from privately owned lakes and/or ponds.
d. Nothing contained herein shall be construed as legalizing the sale of bream taken from any stream or public lake.

**Bait dealers cannot harvest trout from public waters for sale as bait. A licensed sport angler may possess rainbow trout 8 inches or less in length without limit for use as bait if purchased from a licensed bait dealer and accompanied by an invoice that was issued by the licensed bait dealer. Such invoices shall be consecutively numbered and must contain the name, license number, and location of the licensed bait dealer, the date of sale or delivery, the number of rainbow trout bought or delivered, and the name and address of the person receiving the rainbow trout. Any person transporting or possessing rainbow trout obtained from a licensed bait dealer for bait must have a copy of this invoice on their person. Rainbow trout larger than 8 inches in length may be purchased by sport anglers and used for bait provided compliance with all sport fishing regulations on the waters being fished (including creel and length limits, seasons, and license requirements).

*** Skipjack Herring, Gizzard Shad, and Threadfin Shad may not be transported away from the water alive from the Mississippi River and Barkley, Kentucky, and Pickwick reservoirs and any tributaries or oxbows of these waters. This restriction does not apply to the Duck River above Normandy Dam.

**Class B Bait Fish**

The following species may be:

1. Harvested by licensed sport anglers for use as bait;
2. Imported into Tennessee or exported from Tennessee as live or dead bait by licensed sport anglers for use as bait.

- **Stonerollers** (*Campostoma spp.*)
- **Creek Chub** (*Semotilus atromaculatus*)
- **Bluntnose Minnow** (*Pimephales notatus*)
- **Bullhead Minnow** (*Pimephales vigilax*)
- **Creek Chub** (*Semotilus atromaculatus*)
- **Bluntnose Minnow** (*Pimephales notatus*)
- **Bullhead Minnow** (*Pimephales vigilax*)
Class C Bait Fish

Bait fish that are not listed in Class A or B above and are not listed by proclamation as endangered, threatened, or in need of management may be harvested by licensed sport anglers for use as bait with the following restrictions:

1. Live specimens shall only be used in the water from which they were harvested;
2. Live specimens shall not be possessed away from the waters from which they were harvested;
3. Live specimens shall not be imported into Tennessee or exported from Tennessee by anyone;
4. Live specimens shall not be sold.

Dead specimens harvested by sport anglers may be moved and used for bait, unless otherwise restricted. Daily creel limit of Class C bait fish is 50 fish in aggregate; 100 fish in aggregate possession limit for live and dead specimens.

Class D Bait Fish

In addition to the provisions of Class A, a licensed bait dealer may also harvest these species to be sold as dead specimens:

- Brook Silverside (Labeo californicus)
- Inland Silverside (Menidia beryllina)
- Silver Carp (Hypophthalmichthys molitrix)
- Bighead Carp (Hypophthalmichthys nobilis)
- Grass Carp (Ctenopharyngodon idellus)

These carp species may be harvested without limit but cannot be kept alive by any means upon harvest. A licensed bait dealer may possess and sell any fish species that is not native to Tennessee and is imported in a preserved state (e.g. frozen, salted, pickled, or dried).

Legal Gear for Harvest of Bait Fish

- Minnow Seine: A minnow seine consists of a float and lead line to which netting is attached. A minnow seine shall not be longer than 10 feet and the mesh size shall not exceed 3/8 inch on the square. Seines must be constantly attended, and may not be fished in a stationary manner.
- Minnow/Crayfish Traps: A trap is hereby defined as a device used for the purpose of catching minnows and crayfish. All traps shall be clearly and legibly labeled with owners name and address, or TWRA identification number.
- Cast Net: A cast net is defined as a net having a maximum radius of 10 feet and a mesh (square measure) of not less than ½ inch and not greater than 1 inch on the square. Sunfish and trout may not be taken with a cast net.
- Shad Trawl: A shad trawl is one having a mesh size no larger than 1 inch, a hoop diameter no larger than 48 inches, and a net length no larger than 72 inches. Only threadfin or gizzard shad shall be taken with a shad trawl and shad trawling is not allowed within 1,000 yards below any dam.
- Dip Net: A dip net is a net constructed from natural synthetic fibers, or metal/plastic mesh which is attached to a frame that is attached to a pole.
- Angling: Use of line with a hook attached to a bait or lure.
- Hand Collection: Use of hands or non-mechanized hand tools.

Amphibians and Crayfish

Only Northern Dusky and Spotted Dusky salamanders (Desmognathus fuscus and Desmognathus conanti) and native crayfish species that are not listed by proclamation as endangered, threatened, or in need of management may be harvested without limit by licensed sport anglers for use as bait. Crayfish and salamanders may be harvested with legal gear listed in Section VI. Amphibians and crayfish species shall not be sold or purchased for bait. Amphibians and crayfish shall not be imported into Tennessee or exported from Tennessee by anyone for bait. The harvest, use, and possession of crayfish is prohibited in the following streams, in all of their tributaries, and on all adjacent banks:

- Mill Creek in Davidson and Williamson counties
- East Fork Stones River in Cannon County
- Hurricane Creek in Cumberland, Fentress, Overton, and Putnam counties
- Roaring Paunch Creek in Scott County
- South Chickamauga Creek in Hamilton County
- Caney Fork River in Cumberland County
- Robinson Creek, Beason Creek (upstream of Highway 142) in Hardin and McNairy counties
- Flint River in Lincoln County
- Long Fork, White Oak Creek, and Salt Lick Creek in Macon County, Garrett Creek, Little Trammel Creek, and Middle Fork Drakes Creek in Sumner County
- Shoal Creek system in Lawrence and Wayne counties
- Pinchcon Creek Branch in Giles County
- Cypress Creek system in Wayne County
- Gassaway Creek, Little Gassaway Creek, Laurel Creek, and Rogers Branch in Polk County
- Hiwassee River and tributaries upstream of Apalachia powerhouse in Polk County
- Conasauga River system in Bradley and Polk counties
- Big Brush Creek system in Sequatchie County
- Bullpen Branch in Cannon County
- Mountain Creek in Warren County
- Mill Creek, Fortyeight Creek upstream of Hwy. 64, Johnson Mill Branch, Chalk Creek, and Second Creek in Wayne County.

Crayfish as Food

Crayfish may be taken from the wild according to rules of live bait for food. Wild caught crayfish may not be sold.

First Fish Award

The First Fish Award is designed to commemorate that special moment in every boy or girl’s life—the landing of their first fish. The award is an 8.5 x 11 certificate, suitable for framing, identifying the child, the fish caught, and other details of that special moment. Size of the fish and age of the angler have no bearing, only that the fish is their first and that it was caught in Tennessee.

Visit www.tnwildlife.org or call (615) 781-6575 for further information.
TURTLES
IN TENNESSEE

Turtles

A sport fishing license is required and only the common snapping turtle may be taken. Turtles taken by sport fishing methods may not be sold. Shooting with any type of firearm or air gun is prohibited.

Common snapping turtles may be taken by all legal sport fishing methods except archery, spearguns and dipping. Daily limit is 5 with a minimum legal length of 12 inches—length is determined by measuring the upper shell in a straight line from the scute directly behind the turtle’s head (nuchal scute) to the base of the notch where the two most posterior scutes meet. Sport fishermen may also take snapping turtles by the use of up to three turtle trap nets, with minimum net size of three inches on the square in Benton, Carroll, Chester, Crockett, Decatur, Dyer, Fayette, Gibson, Hardeman, Hardin, Haywood, Henderson, Henry, Houston, Humphreys, Lake, Lauderdale, McNairy, Madison, Obion, Perry, Shelby, Stewart, Tipton, and Weakley counties. Each net must be marked with the owner’s name and address or TWRA Identification Number. Each net must be set so that a portion of the catch area is above the water.

No turtle may be possessed while afield which has been altered to the extent that its species or length cannot be determined.

ATTENTION ANGLERS

The Tennessee Wildlife Resources Agency is conducting an alligator snapping turtle restoration project in West Tennessee which involves the release of live alligator snapping turtles. Both adult and juvenile turtles have been released to restore this rare, native species. Alligator snapping turtles are listed in Tennessee as In Need of Management and are illegal to take.

ALLIGATOR SNAPPING TURTLE ▲
- Alligator snapping turtles have three large prominent ridges along the back, a large head, and a prominently hooked beak.
- Often reaches weights in excess of 30 pounds.
- Alligator snapping turtles have an extra row of scutes (scales) between the outer scale row and the large center scales.

COMMON SNAPPING TURTLE ▲
- Common snapping turtles have a smoother, rounded shell (especially as adults) without the three ridges, and a smaller head and weakly hooked beak.
- Rarely exceeds 30 pounds.
- Common snapping turtles do not have the extra row of scutes (scales) between the outer scale row and large central scales.

For more information or to report sightings of alligator snapping turtles, contact TWRA at 731-423-5725, or write to 200 Lowell Thomas Dr., Jackson, TN 38301
CONTAMINANTS IN FISH

The Tennessee Department of Environment and Conservation’s (TDEC) Division of Water Pollution Control issues advisories for the consumption of fish from certain Tennessee waters. The following information is subject to change and was copied from TDEC’s site. Concerned individuals should visit TDEC’s site for more information about these advisories, bacteriological advisories, and tips on how to reduce risks from contaminated fish.

For specific information regarding aquatic contaminants or affected waters, contact:

TDEC’s Water Pollution Control Office
(615) 532-0699
