Unforgettable Adventures.

Feel-Good Savings.

Heed the call of adventure with great insurance coverage. 15 minutes could save you 15% or more on motorcycle insurance.
The Outdoors Is Calling

Fall is my favorite time of year in New Hampshire for many reasons, including great hunting opportunity. Each autumn I look forward to getting out in the woods. I grew up hunting and would like to see the tradition passed down to future generations. Hunting numbers are declining across the United States, so consider sharing your knowledge with a friend or family member.

There is nothing like the peace and solitude in the woods or field on a crisp fall morning scoping out your hunting ground. From geese to deer to moose and grouse, there is much for hunters to experience in the Granite State. Whatever your preference, take opportunities and seasons are largely the same as last year.

The New Hampshire Fish and Game Department works hard year round to conserve the wildlife species and their habitat in the state for all residents and visitors to use and enjoy. Bear and deer harvests in 2019 were strong, and this spring’s turkey season set a record. Check out the Wildlife Harvest Summary to learn more at www.wildlife.state.nh.us/hunting/harvest-summary.html.

We are still monitoring for Chronic Wasting Disease and fortunately New Hampshire continues to remain free of the disease, which is devastating to deer. Please help keep CWD from entering the state by not using natural urine-based deer lures. These have the potential to spread the infection. The lures do not undergo any quality control or treatment that might inactivate or kill disease-causing agents, and the infective protein can persist in the environment for years. Learn more about keeping New Hampshire CWD free on page 21.

It promises to be another great year. Thanks for hunting in New Hampshire and be safe. Always be sure of your target, clean up after yourself, and display good sportsmanship. Remember, you are a guest of the landowner; treat the land with respect and express your appreciation and you will always be welcome. See you outdoors!

Glenn Normandeau
Executive Director
N.H. Fish and Game Department

N.H. Fish and Game — Our Mission

As the guardian of the state’s fish, wildlife, and marine resources, the New Hampshire Fish and Game Department works in partnership with the public to:

• Conserve, manage, and protect these resources and their habitats;
• Inform and educate the public about these resources; and
• Provide the public with opportunities to use and appreciate these resources.

The N.H. Fish and Game Department receives Federal Assistance from the US Fish & Wildlife Service, and thus prohibits discrimination on the basis of race, color, national origin, disability, age and sex, pursuant to Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, Title IX of the Education Amendments of 1972, and the Age Discrimination Act of 1975. If you believe you have been discriminated against in any program, activity or service, please contact or write the US Fish & Wildlife Service, Division of Wildlife and Sport Fish Restoration, 4001 N. Fairfax Drive, Mail Stop: WSFR – 4020, Arlington, Virginia 22203, Attention: Civil Rights Coordinator for Public Programs.

QUALITY PRODUCTS FOR OUTDOORSMEN AND WOMEN
OUTSTANDING CUSTOMER SERVICE, AT COMPETITIVE PRICES
NEW HAMPSHIRE WELCOMES HUNTERS!

Hunt New Hampshire’s big woods, where you can still walk for miles without seeing a house, a road, or another hunter – unless you want to. Hunt with your friends and family, the way hunting used to be.

We’ve got big bucks, gobblers galore, Sunday hunting, and special youth hunts. Add to that millions of acres of prime wildlife habitat and you’ve got the setting for an unforgettable hunting experience!

It’s easy to get your New Hampshire hunting license. You can buy it online at huntnh.com. To purchase a license online, you’ll need the license number from a previous N.H. hunting license or your New Hampshire Hunter Education card. You can get your turkey, bear, and pheasant permits online as well. Or visit one of our friendly N.H. license agents throughout the state.

Get started on your scouting by checking out the N.H. Wildlife Harvest Summary; it lists results for last year’s hunting seasons by WMU and town, including harvest statistics and hunting/trophy records. This, plus topo maps, Wildlife Management Area maps and info, and lots of basic information on hunting in New Hampshire, is at your fingertips at the Fish and Game website, huntnh.com.

When planning your trip, check out visitnh.gov for ideas and deals on lodging, camping, and good eats. To help you get the most out of your time afield, maybe this is the year to hire a licensed N.H. hunting guide (listed at huntnh.com).

Apprentice Hunting Opportunity
If you know someone who wants to experience hunting, take advantage of New Hampshire’s Apprentice Hunting License! This license provides a one-time, one-calendar-year exemption from Hunter Education requirements for a hunter accompanied by a properly licensed adult 18 years of age or older. Learn more at huntnh.com/hunting/apprentice.html.

Since you’re reading this, chances are you’re already getting your gear ready and counting the days until your first New Hampshire hunt of the season. If not…what are you waiting for? Plan your New Hampshire hunting adventure today!

Don’t spend all your time huntin’ around for information…
Just visit our mobile-friendly website: huntnh.com

IGNITING INGENUITY INNOVATION THAT CHANGED THE WORLD

At the old Robbins & Lawrence armory, gunmakers launched a new industry of machine tools. See how manufacturing has since evolved.

Robbins & Lawrence Rifiling Machine (1853)

Ames Blanchard Lathe (1857)

Pitkin “Le Boulenge” Ballistic Chronograph (1915)

196 Main St. www.americanprecision.org
Windsor, Vermont 802-674-5781

Shooting Ranges
New Hampshire has dozens of fish and game clubs and shooting ranges where you can safely practice your shooting skills. Check the N.H. Fish and Game website for a partial list. The majority of rifle/pistol ranges are private, meaning that membership is required to use them, or in some cases you can be the guest of a member. Shotgun ranges are generally open to the public, with non-members paying a higher fee per round of shooting. Many of the membership clubs have special days during the year when the public is invited to try out the facilities or to sight in their firearms. Contact your local club for details, or to ask about becoming a member.
Successful completion of a Hunter Education course is required for New Hampshire hunters age 16 and older who haven’t previously held a hunting license. In a Hunter Education course, you’ll learn about firearms and archery safety and handling, outdoor safety and survival skills, N.H. hunting laws, your responsibilities as a hunter and more. Hunter Education has cultivated generations of safe, responsible, and ethical hunters, resulting in the dramatic reduction of hunting-related incidents in New Hampshire.

Today, it’s easier than ever to find, register for and participate in a Hunter Education course that’s convenient for you. Review course offerings and register online anytime at huntnh.com. Another option is the online Hunter Education course, which completes your training with a field day and practical field exam (you must be 15 years or older to take the online course for certification). To view course schedules, locations and to register online for Hunter Education or Trapper Education, visit huntnh.com/hunting/hunter-ed.html.

Hunter Education courses cover both firearms and archery. Successful completion of either the classroom-based course or the online course with a field day allows you to purchase both a firearms and archery hunting license. If you took the course prior to January 1, 2014, you need to show proof of completion of both Hunter and Bowhunter Education courses to be able to purchase both licenses.

Help Teach Hunter Ed!
Hunter Education in New Hampshire is taught primarily by volunteer instructors and they need your help. The process for becoming an instructor is easy; the yearly commitment is minimal, as low as a few hours a year, but the results are gratifying. With your help, the number of hunting incidents will continue their decline, lands will continue to remain open for multiple uses including hunting, hunters will continue to enjoy the feasts of their bounty and hunters, and wildlife enthusiasts will continue to enjoy the woods, water and wildlife of New Hampshire. Today’s hunters are going into the field knowing how to hunt safely, responsibly and ethically. Training is provided through an instructor certification course that encourages effective educational techniques in a team-teaching environment. Visit huntnh.com/hunting/hunter-ed.html for more information and training opportunities, or call (603) 271-3212.

Learn more about Hunter Education and sign up for classes at our mobile-friendly website: huntnh.com

Don’t Dig Yourself into Trouble!

CALL DIG SAFE® BEFORE YOU DIG.

IT’S SMART, IT’S FREE, IT’S THE LAW.

CALL 811

The Perfect Excavation:

- Pre-mark the location of intended excavation using white stakes, paint or flags.
- In MA, ME, NH and RI, notify Dig Safe® at least 72 hours in advance.*
- In Vermont, notify Dig Safe® at least 48 hours in advance.*
- Notify non-member facility owners.
- Maintain the marks placed by underground facility owners.
- Use caution and dig by hand when working within 18” of a marked facility.
- If a line is damaged, do not backfill. Notify the affected utility company immediately if the facility, its protective coating, or a tracer wire is damaged.
- Call 911 if damage to pipeline results in a gas release.
- Know your state’s excavation requirements.
- Go to digsafe.com for educational material and current laws.

* NOT INCLUDING WEEKENDS AND HOLIDAYS.
Wildlife Legacy Initiative
If you love New Hampshire’s fish, wildlife and wild places, give a little extra this year when you buy your fishing or hunting license or make a donation. Support the Wildlife Legacy Initiative and help the New Hampshire Fish and Game Department’s Landowner Relations Program, working to keep New Hampshire open to all outdoor users by protecting access to private land. Donate when you buy your license — in person or online at wildnh.com. Just check off the $10 Wildlife Legacy Donation…and thank you! Learn more at wildnh.com/landshare.

Owl Brook Hunter Education Center
New Hampshire Fish and Game’s Owl Brook Hunter Education Center in Holderness, N.H., offers a diversity of hands-on educational experiences, including shooting sports, map and compass instruction, Hunter Education and Trapper Education certification courses, outdoor skills, and other youth activities.

Interpretive trails and an old-time trapper cabin are open to the public when the center is open. A 14-target woodland archery course and 4-target practice archery range are open seven days a week, from dawn to dusk, May to November. The classroom, small-bore shooting range, and shotgun range are available to individual groups for customized courses instructed by our staff.

For more information, call (603) 536-1290 or visit hunt.nh.com/hunting/owl-brook.html.

The center was made possible through Federal Aid in Wildlife Restoration funds and private donations.

Youth Programs
Summer youth programs for Hunter Education and shooting sports:
- Barry Conservation Camp: One-week overnight camp sessions (registration opens in January).
- Owl Brook: Free summer youth programs (sign-up starts April 1).

Visit wildnh.com for program descriptions and schedules. Help get our young people outdoors!

Hunter Education Requirements
Anyone applying to hunt with a firearm or bow must present a previous hunting or archery license or a Certificate of Completion from an approved Hunter or Bowhunter Education course from any year, any state. For duplicates of lost certificates, call 603-271-3214; date of birth must be included if applying by mail.

Visit TickFreeNH.org for information on how to prevent tick encounters and more!

Who Needs a License?
Hunting licenses are required for persons 16 years of age and older. Some licenses and permits are required for all ages; see page 8.

Buying a License
Hunting licenses, valid Jan. 1 to Dec. 31 of each year, may be purchased online via huntnh.com, from license agents, Fish and Game Department Headquarters in Concord, and Fish and Game Region 1, 2, and 4 offices. Applicants must purchase their own licenses. Trapping and fur buyer licenses, valid July 1 to June 30 of the next year, are only available at Fish and Game’s Concord headquarters or through the mail.

To purchase a hunting or archery license on the Internet site or at a Walmart, you must have held a hunting or archery license or taken Hunter Education or Bowhunter Education in N.H. in the year 2000 or later. There may be a delay of as much as one week after taking the N.H. Hunter Education course before the information is in our database.

Hunter Education Requirements
See page 6.

Regular NH Hunting License
Wherever the term “Regular NH Hunting License” is used in this Hunting Digest, it is understood to include the Combination NH Hunting and Fishing License.

Residency Requirements
To obtain a license at resident rates, the person must present to the issuing agent a valid New Hampshire driver’s license or non-driver’s picture identification card issued by the N.H. Department of Safety, Div. of Motor Vehicles. Whenever the applicant is under 18 years of age, the parent or guardian of the applicant shall be a resident and present their valid N.H. driver’s license or non-driver’s picture identification.

Youth Hunters
See page 14.

Resident Senior Licenses
See page 8.

Lost Licenses
Lost licenses may be reprinted at the original issuing agent or Fish and Game’s Concord headquarters. If purchased at a license agent, and it is at least one week from the date of issue, the license can be reprinted from the online sales site. There is no charge for reprints, however, there is a limit on the number of reprints allowed.

Military Licenses
N.H. residents who are regular active duty in the U.S. Army, Navy, Marines, Air Force, or Coast Guard permanently stationed outside the state may be eligible for free temporary hunting and fishing licenses. Available at NH Fish and Game Headquarters in Concord, Region 1, 2, and 4 offices, or by mail or fax (603) 271-5829. Download an Active Duty Military License application from the Fish and Game website and send with duty orders. Call (603) 271-3422 for information. Non-resident military personnel on regular active duty, and permanently stationed in New Hampshire, may purchase licenses at N.H. resident rates (cannot be purchased online or at Walmart).

Archery
An archery license allows you to:
1. Take deer with a bow and arrow during the archery season.
2. Take other species with a bow and arrow, provided you have the appropriate license or permit.

It is legal to hunt deer with bow and arrow while using the firearms deer tag during the firearms deer season under a Regular Hunting License and in compliance with Wildlife Management Unit restrictions. During the muzzleloader season, the firearms deer tag may only be filled using a muzzleloader or crossbow.

Archers may fill their archery deer tag any time during the archery season.

The Special Archery Deer Permit allows the taking of an antlered-only deer with bow and arrow during the archery deer season. This additional permit must be purchased at the same time you purchase your archery license.

See page 18 for a complete listing of deer season regulations.

Carrying Handguns While Bowhunting
You may carry a handgun while bowhunting, but it is not legal to use a handgun to assist in the taking of an archery-tagged deer.

Crossbows
Annual Deer Crossbow Permit (annual, $5) allows the hunter to use a crossbow during the firearms deer season only. Permits available only at N.H. Fish and Game headquarters in Concord.

Permit applications can also be downloaded online and mailed into headquarters in Concord (see pg. 18). The hunter must have a valid firearms deer tag and follow all Wildlife Management Unit restrictions for deer during the firearms deer season. Any deer taken shall be tagged with a valid firearms deer tag.

It is legal to use a crossbow to take the species listed below under any of the following circumstances:
1. Deer
   • During the Archery season with an archery license and you are 68 years of age or older
   • During the Archery season in WMU-M with an archery license (or are less than 16 years of age accompanied by a licensed archer
   • During the Muzzleloader season with a muzzleloader license.
   • During the Firearm season with a firearm license and an Annual Deer Crossbow Permit.
   • If you are a youth participating in the Youth Deer Weekend.

2. Turkey
   Crossbows are a legal method of take for spring season, fall shotgun season and the turkey youth weekend.

3. Bear
   Crossbows are a legal method of take for bear season.

4. Moose and Small Game
   Crossbows are a legal method of take for moose and small game season.

Disabled Hunters
Disabled Crossbow Permit (permanent, $10) allows the use of crossbows during any season where use of a bow and arrow is allowed. This permit must be applied for at Concord Headquarters. You will be required to purchase the appropriate hunting license each year. This permit does not include separate tags. Hunters holding a disabled crossbow permit are limited to using only a crossbow. They are not allowed to use a longbow, recurve, or compound bow.

For information on Disabled Veterans License, Paraplegic License, and Hunt from a Motor Vehicle Permit visit huntnh.com.

Prohibited Acts
Any person whose privilege to fish, hunt, trap, guide, take or land lobsters and crabs, or engage in commercial marine fishing activities is currently suspended or revoked in any other state or province is prohibited from purchasing or possessing a license for such activity in New Hampshire (RSA 214:18-b).

It is unlawful to possess more than one of any type of regular hunting license or permit, use another person’s license or permit, allow another person to use your license or permit, or not show your license upon demand.

Exceptions — When a License Is Not Required
• Resident landowners and their minor children under the age of 16 may hunt and trap on their own land in season without a license. This exception does not apply to activities requiring a special license or permit (i.e., archery, muzzleloader, pheasants, turkey, etc.). Resident Landowner special licenses must be purchased from Fish and Game headquarters, either in person or by mail.

• Children under 16 years of age do not need a regular N.H. hunting or archery license. Youth must be accompanied by a properly licensed person 18 years of age or older. Minors must have a permit or license for turkey, Special Unit L or M deer, special archery deer, bear, nonresident muzzleloader, and trapping.

</table>

**NOTE:** An annual habitat fee of $2.50 is required for all hunting licenses; this fee is charged once per year per hunter. All license prices include a $1 agent fee. An additional $2 transaction fee is charged for each license form purchased at an agent ($2.75 online).

**Milestone Licenses:** For N.H. residents born in 1947 or earlier who would like a hunting, fishing, archery, muzzleloader or clam/oyster license, they must obtain this free, permanent license at Fish and Game Headquarters, Regional Offices 1, 2, and 4, also available at select licensing agents, or by mail using the application at hunt.nh.com. Resident and Hunter Education requirements apply. All other licenses must be purchased each year.

---

**Buying Your License**

New Hampshire hunting licenses can be purchased online at nhfishandgame.com, from one of our friendly license agents statewide (listed at hunt.nh.com/licensing), or in person or by mail at Fish and Game Headquarters, 11 Hazen Drive, Concord, NH 03301.

---

**Carry Your License**

The signed license must be carried on your person when hunting.

NOTE: An annual habitat fee of $2.50 is required for all hunting licenses. This fee is charged once per year, per hunter. Proceeds are used to manage and protect habitat for New Hampshire’s wildlife populations. All license prices include a $1 agent fee. An additional $2 transaction fee is charged for each license form purchased at an agent ($2.75 online).

* Licenses issued only from Concord office may be obtained in person or through the mail by downloading a print-and-mail application from huntnh.com.
** Sold at Fish and Game headquarters in Concord and online.
*** Fishing licenses allow the taking of freshwater species.
****Only available online by lottery.
**GENERAL HUNTING REGULATIONS**

**Baiting**
A baiting permit is required for any bait site. Baiting permit applications (no fee) are available at any Fish and Game office or online at hunt_nh.com/licensing/forms.html. Applications for permits to bait wildlife on private property must be signed by the landowner. No bait shall be placed until two copies of the bait permit and map have been submitted to the Wildlife Division at Fish and Game headquarters in Concord. No bait may be placed from April 15 through August 31 (dates inclusive). Bait may not be placed at any site until the baiting season for that species is open.
- A landowner placing bait on his or her own property does not need to submit a baiting permit or map.
- No person, except a licensed N.H. Hunting Guide, shall have more than 2 active bait sites statewide. A licensed N.H. Hunting Guide shall have no more than 8 active bait sites, 6 for commercial use and up to 2 for personal use.
- Licensed N.H. Hunting Guides must indicate on the bait permit if the site is for commercial or personal use.
- Any bear taken off a commercial site must be tagged with a bear guide tag.
- A licensed guide can only use his/her guide tags on bears taken off commercial bait sites which are under his/her name.
- No bear taken off a personal site can be tagged with a bear guide tag.
- A baited area shall not be considered an active bait site when all containers used to hold bait, such as barrels, plastic bags, pails and boxes, and any bait material are completely removed.
- Applications for baiting permits on private land must be received by the Department or postmarked by the first Monday in August for bear, and received by the Department or postmarked by the first Monday in October for all other species, except coyote, which may be received starting on December for the following year.
- It is the permittee’s responsibility to see that two copies of the private landowner bait permit are submitted to the Wildlife Division at Fish and Game Headquarters in Concord.
- Each baiting permit must have a detailed topographical map, including a description of the location of the bait site and how to locate it. (If the map is so vague that a CO cannot find the site, the permit is invalid.)
- Only the person to whom the permit is issued is permitted to place bait at the site.
- The permittee must post a 3” x 6” durable sign at the site with the name and address of the permittee and up to 2 subpermittees. These 3 individuals are the only persons allowed to hunt over the permitted bait site. A licensed N.H. Hunting Guide must post a sign with his or her own name and address, but is not required to post the names of paying clients. The sign must be clearly visible not higher than 6 feet off the ground. If no subpermittees are identified on the sign, they may not be included at a later date. Once the sign has been posted, it may not be altered at a later date. No person other than the permittee authorized to place bait at a site shall remove, alter, or destroy said sign.
- Bait may not be placed less than 300 feet from a dwelling, public roadway, pathway, or trail.
- From the close of the bear baiting season through December 15, baiting for coyote shall be restricted to the use of meat, animal parts, carrion, or fish.
- No person shall place bait in public waters or on ice-covered public waters.
- It is illegal to bait for turkey, moose, or migratory waterfowl.
- Permits expire at the end of the calendar year, unless an earlier date has been specified on the permit form, or the season has ended for the species identified on the baiting permit.
- When requested by a CO, a permittee or an applicant to bait must accompany the officer to the proposed or existing site.

Baiting Rules for State-Owned and State-Managed Lands

In addition to the General Baiting Rules, the following rules apply to State-owned and State-managed lands:

• A baiting permit is required for any bait site on State-owned or State-managed lands, including White Mountain National Forest.

• Applications for baiting permits on state-owned or state-managed lands must be received by the Department or postmarked between the first Monday in June and the first Monday in August for deer and bear. Applications may apply beginning December 1 for permits to bait coyote for the year following. Permit applications for all other species shall be accepted at any time.

• Applications must be filled out completely, and must include a topographic map and directions to the bait site to be considered. Baiting permits are issued only to the person or group listed on the permit.

• Non-edible or non-digestible materials shall not be used as bait.

• A total of 40 bait sites to bait bear, and 20 bait sites for other species shall be allowed on the Connecticut Lakes Headwaters Forest property in Pittsburg, NH and issued by lottery (see above).

• Also see Tree Stands/Blinds on page 12.

Baiting Rules for Bear

In addition to all other applicable baiting rules, the following rules apply to baiting for bear (see page 29 for bear baiting season dates):

• No person, except a licensed N.H. Hunting Guide, shall place bait for the purpose of attracting and taking bear at more than 2 bait sites statewide.

• No person, except a licensed N.H. Hunting Guide, shall have more than one bait site for attracting and taking bear at more than 2 bait sites for other species shall be allowed on the Connecticut Lakes Headwaters Forest property in Pittsburg, NH and issued by lottery (see above).

• Also see Tree Stands/Blinds on page 12.

Baiting Rules for Deer

In addition to all other applicable baiting rules, the following rules apply to baiting for deer (for deer baiting season dates, see page 18):

• No person, except a licensed N.H. Hunting Guide, shall place bait for the purpose of attracting and taking deer prior to the opening of the deer baiting season.

• Persons holding a Disabled Veteran License or Paraplegic License may bait deer from September 15 through December 15, statewide.

Dead Animals

If you find a dead deer, bear, moose, or turkey you did not kill, do not tag or move it. Motor vehicle killed wildlife may not be taken without permission of a law enforcement officer. Call Law Enforcement Dispatch at (603) 271-3361.

Discharge Restrictions/Compact Areas (RSA 207: 3-a & 644:13)

• It is illegal to discharge a firearm or shoot with a bow and arrow or crossbow and bolt or a .22 caliber or larger air rifle when used for hunting purposes within 300 feet of a permanently occupied dwelling without permission of the owner or occupant, or from the owner of the land on which the person shooting the firearm, air rifle, bow and arrow, or crossbow and bolt is situated. A firearm may not be discharged within 300 feet of any commercial, educational or medical building, or outdoor public gathering place.

• Firearms may not be discharged within the compact area of any town or city (any contiguous area containing 6 or more buildings used as part time or permanent dwellings where each is within 300 feet of one of the other buildings, plus a 300 foot wide perimeter around all of the buildings).

• It is unlawful to discharge a firearm, air rifle, bow and arrow, or crossbow and bolt within 15 feet of the traveled portion of, or across any class 1 through V highway, or from or across the following public highways (including the rights of way): I-93, I-89, I-95, 293, 393, Rte. 202/9 (from Rte. 114 in Henniker to Rte. 31 in Hillsboro), Rte. 16 (from I-95 to Milton/Middleton town line), Rte. 3/F.E. Everett Turnpike (from Mass. line to Rte. 101 Bedford), or Rte. 101 (from Bedford town line to Rte. 1 Hampton).

Guides

Additional regulations apply to licensed New Hampshire Hunting Guides. Contact the Law Enforcement Division at (603) 271-3127.

Lacey Act

Interstate transportation of wildlife taken, possessed, transported, or sold in violation of a state law is a violation of federal law. The penalty can be up to $250,000 and 5 years in prison.

Leashed Dog Trackers

Volunteer leashed dog trackers are private citizens who can help track and recover wounded deer, moose, and bear. They are licensed by the N.H. Fish and Game Department for this activity, which may take place at night. Give them a call, they can help. Visit huntnh.com for a list of licensed leashed dog trackers.
**GENERAL HUNTING REGULATIONS**

**OHRV Use**
Use of OHRVs (ATV, trail bike, UTV) requires written landowner permission unless on a sanctioned ATV trail and must be registered when operating off your own property. No person shall carry on a moving OHRV, or a trailer towed by the same, any firearm unless it is unloaded. This does not apply to pistols or revolvers carried pursuant to RSA 139.

**Tree Stands/Blinds**
Written landowner permission is required for any tree stand, ladder, or observation blind which damages or destroys a tree by inserting into the tree any metallic, ceramic, or other object. Written landowner permission is also required if any tree is cut in conjunction with the use of any stand or blind or to construct a pit blind. These permits can be found at [BurntKnollFirearms.com/licensing/forms.html](http://BurntKnollFirearms.com/licensing/forms.html) under “Miscellaneous Permits.”

On State-owned and State-managed lands, permanent stands are illegal. Portable stands or blinds may only be erected between August 1 and January 31, and must be removed by January 31.

**Town of Bow**
See page 22 for restrictions.

---

**Wapack National Wildlife Refuge**
This National Wildlife Refuge, located in Greenfield and Temple, NH, is CLOSED to all hunting.

**It Is Unlawful To:**
- Negligently shoot, wound, or kill a human being while hunting, or abandon a wounded or killed human being.
- Negligently discharge a firearm or cause death, injury, or damage to domestic animals or property while hunting.
- Shoot any wildlife that has been treed or cornered by a dog unless the owner of the dog or a member of the hunting party is present.
- Shoot a domestic dog in pursuit of wildlife.
- Possess a firearm with ammunition, bow and arrow, or crossbow and bolt while attempting to locate or illuminate wild animals at night at any time of the year, except while coyote night hunting from January 1–March 31, raccoon hunting (see page 32), or checking traps at night (see page 34).
- Illuminate wild animals from Sept. 1 through Dec. 31. Moose, however, may be illuminated between 9 a.m. and 11 p.m. from Sept. 1 through the second Monday of October in Coos County on Class I, II, and III state highways, and, with city or town permission, on Class IV, V, and VI town roads.
- Take wildlife by the use of a spring gun or set gun.
- Use an unmanned aerial vehicle, such as a drone, to attempt to locate, surveil, or aid or assist in the taking of wildlife.
- Use “smart rifles” while hunting wildlife (firearms that are electronically controlled, electronically assisted, or have a computer-linked trigger that aids the shooter in tracking an animal, or assists in accuracy regarding the placement and timing of the shot).
- Use live-action game cameras while attempting to locate, surveil, aid, or assist in taking or take any game animal or furbearing animal during the same calendar day while the season is open (cameras that send an electronic message or picture to a handheld device or computer when sensors are triggered by wildlife).
- Establish, tend, or hunt bear over a bait containing chocolate or any cocoa derivative (see page 11).
- Hunt from inside of, or upon, any type of motorized vehicle, including aircraft, motor vehicle, snowmobile, or ORV.
- Hunt from a boat or canoe before all movement from mechanical power has stopped.
- Carry a loaded firearm or cocked crossbow while the firearm or crossbow is in any type of motor vehicle while moving. A firearm is considered loaded if a round or projectile in the chamber is fully dischargeable by pulling the trigger; a muzzleloader is considered unloaded if the ignition source (i.e., primer cap or flint or primer powder) is removed from the firearm.
- Enter posted land without permission of the owner or fail to leave when requested.
- Willfully tear down, obstruct, or leave open any fence, gate, or bar belonging to, or enclosing land of, another person, or remove or deface any posted sign or property.
- Hunt with a fully automatic firearm. It is also illegal to hunt with a semi-automatic rifle with a clip or magazine holding more than five cartridges (except rimfire rifles and pistols).
- Use full-jacketed metal case bullets.
- Use telemetry equipment from ½ hour before sunrise through ½ hour after sunset to locate trail or tree hounds while in a motorized vehicle or within 300 feet (as measured from the center of the traveled portion) of any public highway or any private road open to public use.
- Buy, sell, or offer for sale a deer, bear, moose, or any part thereof, other than the head, hide, or feet.
- Possess a deer, bear, moose, or turkey that hasn’t been properly tagged.
- Possess a detached deer, bear, moose, or turkey tag. Upon killing a deer, bear, moose, or turkey, the tag shall be immediately filled out and attached.
- Assist another in taking a deer or bear after you have taken one, unless you possess a valid unused tag or are accompanying a minor.
- Tag, steal, take, or carry away any game belonging to another person.
- Dispatch a wounded deer, bear, moose, turkey, or other game animal that is not permitted to be taken at night with a firearm, unless you are a licensed dog tracker.

---

**Hunter Orange Recommendation**
Any person hunting with a firearm or bow and arrow during New Hampshire hunting seasons, except for a person legally hunting waterfowl, should wear a hat, vest or other suitable article of clothing in the color of hunter orange visible from all sides at a minimum distance of 200 feet.

*Be sure you positively identify your target—and beyond—before you shoot.*
WHERE CAN I HUNT IN NEW HAMPSHIRE?

In New Hampshire, we are fortunate that all state, federal, municipal, county, and private lands are considered open to hunting unless posted otherwise. But remember, hunting access is a privilege granted by landowners - it’s not a right, and should not be taken for granted. Actions that are disrespectful to lands and their owners often result in a "posted" sign. Build positive relationships with property owners, and always be sure to express your gratitude to them at the open and close of every hunting season.

In general, the best place to start looking for a hunting spot is a good map—like the New Hampshire Atlas and Gazetteer from Delorme or a “topo” map. To find out who owns a piece of land that’s not labeled as a public park or forest, check the tax maps at the town office.

There are three general categories of land ownership in the state, all of which allow hunting with a few exceptions:

- **State and Federal Lands:** The White Mountain National Forest is the largest piece of public land in the state (751,000 acres). Hunting is permitted throughout the Forest; however, discharging a firearm is prohibited within 150 yards of a campsite, developed recreation site, occupied area, or on or across a Forest Service road or trail. The Forest has roads open to motor vehicles and gated roads open to foot travel only; if you’re willing to hike a longer distance, this gives you a rare opportunity to hunt locations without the normal pressure of more accessible properties. OHRVs are only allowed during winter on designated and officially opened snowmobile trails. For more information, visit [fs.fed.us/r9/white](http://fs.fed.us/r9/white). Other large parcels of federal land include the Lake Umbagog National Wildlife Refuge and several units of the Silvio Conte National Wildlife Refuge. Most state lands are open to hunting, including some 75,000 acres of state parks and almost 96,000 acres of state forests. (Always steer clear of recreational areas and trails.) In addition, the N.H. Fish and Game Department owns about 53,000 acres distributed over nearly 100 tracts, most of which are called Wildlife Management Areas or WMAs. Fish and Game also holds conservation easements on more than 19,000 acres. These are parcels of undeveloped land designated as areas for wildlife resource conservation, hunting, and fishing. The state also acquired an easement that allows hunting on more than 146,000 acres in the Connecticut Lakes Headwaters area. The Fish and Game website ([huntnh.com](http://huntnh.com)) has maps and descriptions for the larger WMAs which are accessible on your mobile device.

- **Large Private Forest Land:** Given New Hampshire’s long history of open access to forest lands, most large landowners have kept their property open to hunting. Weather conditions can result in unexpected gate closures at any time. Timber management is the primary use on these lands, so please yield the right of way to logging trucks and be respectful and careful around ongoing logging operations. You can help make sure that these lands stay open by treating them well: stay off wet or soft roads; give the right-of-way to logging trucks and equipment; do not park or block any road or barway; respect gated or closed roads; and know the rules regarding the use of ATVs. It’s best to make local contacts for information and any special rules about hunting on these private lands.

- **Small Private, County, Municipal, and Conservation Easement Lands:** Eighty percent of New Hampshire’s forest land is privately owned. Access to smaller parcels of private land varies across the state. We recommend that you personally contact the landowner for permission before going hunting on all private land, but particularly smaller parcels. In addition to privately owned parcels, many properties are under conservation easements held by the state, a municipality or nonprofit organization, and some county and municipal lands, like watershed protection areas, are also open to hunting—be sure to check locally for special rules.

If you are hunting in New Hampshire this fall, you can expect to find plenty of great opportunities and places. Now it’s up to you to get outdoors, do some scouting, find the right habitat, figure out where the wildlife spend their time, and be ready for the big day—the woods are waiting!

Check N.H. Fish and Game’s website at [huntnh.com](http://huntnh.com) for more ideas on where to hunt.

huntnh.com
Hunting with young people allows them to develop their observational skills, and helps them gain the confidence and comfort level they need to enjoy a lifetime in the outdoors. We hope you’ll share your experience and take a young hunter out this fall; it will be a priceless experience for you as a mentor—and for your young friend as a future hunter, conservationist, and adventurer!

Youth Regulations
There is no minimum age for hunting in New Hampshire. Youth hunters (under the age of 16) may hunt during all regular hunting seasons when accompanied by a properly licensed adult hunter who is at least 18 years of age. All N.H. hunting rules apply.

“Accompanied” means within sight and hearing, excluding electronic devices, when actual physical direction and control can be affected. A properly licensed adult is one who possesses any and all licenses/permits needed for the species being hunted and the method being used by the youth hunter.

No regular N.H. hunting or archery license is required for hunters under 16 years of age, but there are certain tags youth must possess – see chart on pages 8–9 for required licenses and permits.

All deer, bear, and turkey must be tagged and registered according to rules applying to those species for adults. Deer taken by youth hunters should be tagged with the SPECIAL DEER tag printed on page 21 of this digest. Adult hunters who have filled their tags are allowed to accompany a youth hunter, but the adult may not possess a firearm or take any game. Youths may use a crossbow during the youth weekend for deer and during the youth weekend for turkey.

Special N.H. Youth Hunt Weekends
New Hampshire’s special youth hunt weekends are about much more than hunting. They’re a unique opportunity for kids to spend time in the woods with a parent, grandparent, or adult mentor and share the outdoors experience without the pressure of competing with thousands of adult hunters.

Waterfowl September 26-27, 2020
Deer (either sex)* October 24-25, 2020
Turkey** April 24-25, 2021

All N.H. hunting rules apply during special youth hunts. In addition, accompanying adults may not carry a firearm, bow and arrow or crossbow that could lawfully be used for the purpose of take, and may not take game. Adults may not accompany more than two youths during the deer and turkey youth hunts. Deer taken by youths during the special weekend shall constitute the one deer allowed by firearm per hunter.

* Non-resident youth hunters may participate in the N.H. Youth Hunt Weekend for Deer only if New Hampshire youth may hunt during special youth deer hunts in their state.
** Turkey License required.

Wildlife and Sport Fish Restoration: Over 75 Years of Restoring, Managing and Researching Fish and Wildlife
Our thanks to hunters, shooters, anglers, boaters, and our industry partners! With the purchase of firearms and ammunition, archery equipment, fishing equipment, and motorboat fuels, hunters, anglers, boaters and manufacturers pay excise taxes that are distributed to state fish and wildlife agencies for approved projects.

The U.S. Fish and Wildlife Service joins state fish and wildlife agencies, private industry, and the public in a partnership to conserve fish and wildlife resources.

With help from over $150 million in federal aid funding over more than three quarters of a century, N.H. Fish and Game has been able to:

• Gain knowledge through research
• Manage fish and wildlife populations
• Acquire Wildlife Management Areas
• Improve and protect fish and wildlife habitat
• Restore fish and wildlife populations
• Conduct Hunter and Aquatic Education programs
• Construct, upgrade, and maintain more than 140 public access sites for boating and fishing.

Your purchase of hunting and fishing equipment and motorboat fuels supports wildlife and sport fish restoration and boating access facilities.
Enjoy your hunt, and follow these basic safety guidelines to get home safe and sound. Most important of all, keep the muzzle of your gun pointed in a safe direction at all times. Be 100% sure not only of your target, but what’s beyond it, even small bullets can travel a mile and half. No hunter, especially when “swinging” on game, should allow his or her gun to point at a person. Better to pass up a shot than risk injuring someone or damaging property.

- **Deer/Bear/Small Game Hunters:** Only load your gun when you’re ready to hunt, and unload it immediately after. Also, it’s hard to overstate the importance of wearing a fluorescent orange hat, vest, or jacket.

- **Crossbows:** It is unlawful to have a crossbow cocked while transporting it in a vehicle. Treat a cocked crossbow like a loaded firearm.

- **Turkey Hunters:** Never stalk a turkey—instead, scout out a good spot, call and wait for the turkeys to come to you. Always wear blaze orange as you enter and leave an area. Tie orange survey tape around a nearby tree to alert other hunters to your presence. Lean against a backstop that’s at least as wide as your shoulders. Avoid clothes that are red, white and blue and black, the colors of the male turkey.

- **Pheasant Hunters:** It is critically important that bird hunters know their surroundings and the whereabouts of their hunting partners and others before taking a shot. When a bird goes up and you are not sure where everyone is, hold your fire. Control the muzzle of your firearm at all times, and always maintain a safe zone of fire—the area in which you can shoot. Wear safety glasses and hunter orange on your head, back, and chest.

- **Muzzleloaders:** Black powder technology is getting better all the time, drawing more participants to this time-honored tradition. Treat every muzzleloader as if it were holding a charge, and mark the ramrod so you can easily check. Be extra careful to attach the ignition source only when you’re ready to hunt—once primed, the gun is ready to fire.

- **Tree Stands:** A number of serious incidents have happened to N.H. hunters using tree stands in recent years. Stay safe by always using a properly fitting full-body harness while climbing trees, installing or hunting from an elevated platform or tree stand. Never carry hunting equipment up or down the tree with you, always use a haul line. When hauling a gun into or out of a tree stand, keep the firearm muzzle pointed away from you. Keep firearms unloaded and the actions open, and broadheads in a hard-cased quiver, when using a haul line.

A hunter’s zone of fire changes with every step. Remain alert and aware of your companions’ locations at all times.
WILDLIFE MANAGEMENT UNITS

NOTE: Whenever a wildlife management unit (WMU) is referenced with only a letter, and that WMU has been divided into sub-wildlife management units with a number, or further divided into smaller units, the single letter reference includes all of the area enclosed by those sub-units. For example, WMU C would mean WMUs C1 and C2.

Unit A: From the Colebrook/Lemington bridge in Colebrook, north along the NH/VT state line to the NH/Quebec border, north along the U.S. border to NH/ME state line, south along the ME/NH state line to Rte. 16 in Wentworth’s Location, south on Rte. 16 to Rte. 26 in Errol, west on Rte. 26 to Rte. 3 in Colebrook, north on Rte. 3 to Lemington Rd. in Colebrook, west on Lemington Rd. to Colebrook/Lemington bridge & the NH/VT state line.

Unit B: From the junction of the Connecticut River and the Upper Ammonoosuc River in Northumberland, north along the NH/VT state line to the Colebrook/Lemington bridge in Colebrook, east on Lemington Rd. to Rte. 3 in Colebroook, south on Rte. 3 to Rte. 26 in Colebrook, east on Rte. 26 to Rte. 16 in Errol, south on Rte. 16 to Rte. 110-A in Dummer, west on Rte. 110-A to Rte. 110 in West Milan, west on Rte. 110 to Rte. 3 in Groveton, north on Rte. 3 in Groveton to the Upper Ammonoosuc Bridge, west along the Upper Ammonoosuc River to its junction with the Connecticut River.

Unit C1: From the junction of the Lost Nation Rd. in Northumberland and Rte. 110, east along Rte. 110 to Rte. 16 in Berlin, south on Rte. 16 to Rte. 2 in Gorham, west on Rte. 2 to North Rd. in Jefferson, north along North Rd. to Grange Rd., north on Grange Rd. to Lost Nation Rd., north on Lost Nation Rd. to the junction of Lost Nation Rd. and Rte. 110 in Northumberland.

Unit C2: From the junction of Rte. 16 in Wentworth’s Location and the ME/NH line, south on Rte. 16 to Rte. 110-A in Dummer, west on Rte. 110-A to Rte. 110 in Milan, south on Rte. 110 to Rte. 16 in Berlin, south on Rte. 16 to Rte. 2 in Gorham, east on Rte. 2 to the NH/ME state line, north on the NH/ME state line to its junction with Rte. 16 in Wentworth’s Location.

Unit D1: From the junction of the Lost Nation Rd. in Northumberland & Rte. 110, south along Lost Nation Rd. to Grange Rd., south on Grange Rd. to North Rd., south on North Rd. to Rte. 2 in Jefferson, east on Rte. 2 to Rte. 115 in Jefferson, south on Rte. 115 to Rte. 3 in Carroll, south on Rte. 3 to I-93 in Franconia, north on I-93 to the NH/VT state line, north on the NH/VT state line, to the junction of the Connecticut and Upper Ammonoosuc River in Northumberland, east along the Upper Ammonoosuc River to the Groveton/Rte. 3 bridge, south along Rte. 3 in Groveton, east on Rte. 110 to the junction of Rte. 110 and the Lost Nation Rd.

Unit D2-west: From the junction of Rte. 1-93 and the Vermont border in Littleton, south on I-93 to Rte. 142 in Franconia, south on Rte. 142 to Rte. 18, west on Rte. 18 to Rte. 116, south on Rte. 116 to Rte. 112 and Rte. 116, west on Rte. 116 to Long Pond Rd. (i.e., North/South Rd.) in Benton, south on Long Pond Rd. to High St. in Glencliff, south on High St. to Rte. 25, south on Rte. 25 to Rte. 25-A in Wentworth, west on Rte. 25-A to Rte. 10 in Orford, north on Rte. 10/25-A, then west on Rte. 25-A across the Fairlee Bridge, to the VT/NH border, then north on the VT/NH border to its intersection with Rte. 1-93 in Littleton.

Unit D2-east: From the junction of Rte. 1-93 and Rte. 142 in Franconia, south on Rte. 1-93 to Rte. 112 in Woodstock, south west on Rte. 112 to Rte. 118 in Woodstock, south west on Rte. 118 to Rte. 25 in Warren, north on Rte. 25 to High St., north on High St. to Long Pond Rd. (i.e., North/South Rd.), north on Long Pond Rd. to Rte. 116 in Benton, north on Rte. 116 to Rte. 18 in Franconia, east on Rte. 18 to Rte. 142, north on Rte. 142 to the intersection with Rte. 1-93.

Unit E: From the junction of Rte. 115 & Rte. 2 in Jefferson, east on Rte. 2 to NH/ME state line in Shelburne, south along the NH/ME state line to Rte. 302 in Conway, west on Rte. 302 to Rte. 16 in Conway, south on Rte. 16 to Rte. 112 in Conway, west on Rte. 112 to I-93 (exit 32) in Woodstock, north on I-93 to Rte. 3 (Franconia Notch) in Lincoln, north on Rte. 3 to Rte. 115 in Carroll, north on Rte. 115 to Rte. 2 in Jefferson.

Unit F: From the junction of Rte. 25-A & Rte. 25 in Wentworth, north on Rte. 25 to Rte. 118 in Warren, north on Rte. 118 to Rte. 112 in North Woodstock, east on Rte. 112 to Rte. 16 in Conway, south on Rte. 16 to Rte. 113 in Chocorua, west on Rte. 113 to Rte. 113-A in Tamworth, west on Rte. 113-A to Rte. 113 in North Sandwich, west on Rte. 113 to Rte. 3 in Holderness, south on Rte. 3 to Exit 24 of I-93, north on I-93 to Rte. 25 (exit 26) in Plymouth, west on Rte. 25 to the junction with Rte. 25-A in Wentworth.

Unit G1: From the junction of Rte. 25-A and the VT/NH border in Orford, east on Rte. 25-A to Rte. 10 in Orford, south on Rte. 10 to Rte. 25-A in Orford, east on Rte. 25-A to Rte. 25 in Wentworth, southeast on Rte. 25 to Rte. 118 in Rumney, south on Rte. 118 to Rte. 4 in Canaan, south and east on Rte. 4 to Rte. 11 in Andover, west on Rte. 11 to Rte. 1-89 in New London, west on Rte. 1-89 to the VT/NH border, north on the VT/NH border to its intersection with Rte. 25-A in Orford.

Unit G2: From the junction of Rte. 118 and Rte. 25 in Rumney, southeast on Rte. 25 to Exit 26 of Rte. 1-93 in Plymouth, south on Rte. 1-93 to Rte. 104 in New Hampton, west on Rte. 104 to Rte. 4 in Danbury, north on Rte. 4 to Rte. 118 in Canaan, north on Rte. 118 to Rte. 25 in Rumney.

Unit H1: From the junction of I-89 and the NH/VT state line in Lebanon, south on I-89 to Rte. 10 in Grantham, south on Rte. 10 to Rte. 123 in Marlow, west on Rte. 123 to its junction with the Cold River in Walpole, west on Cold River to the NH/VT border (Connecticut River), north on the NH/VT border to I-89 in Lebanon.

WMU Maps Online
Detailed maps of the Wildlife Management Units described on these pages are available to download and print at the N.H. Fish and Game website, huntnh.com, on the “Maps” page. If you do not have access to a computer, you may request single copies of WMU maps at Fish and Game’s Concord office.
Unit H2: From the junction of Cold River and NH/VT border (Connecticut River) in Walpole, east on Cold River to Rte. 123, east on Rte. 104 to Rte. 9 in Stoddard, east on Rte. 9 to Rte. 202 in Hillsborough, south on Rte. 202 to the NH/MA border, west on the NH/MA border to the NH/VT border (Connecticut River), north on the NH/VT border (Connecticut River) to its intersection with the Cold River in Walpole.

Unit I1: From the junction of I-89 and Rte. 11 in New London, north on Rte. 11 to Rte. 4 in Andover, north on Rte. 4 to Rte. 104 in Danbury, north on Rte. 104 to I-93 in New Hampton, south on I-93 to I-89 in Concord, north on I-89 to Rte. 11 in New London.

Unit I2: From the junction of I-89 and Rte. 10 in Grantham, south on I-89 to Rte. 9 in Hopkinton, south on Rte. 9 to Rte. 123 in Stoddard, east on Rte. 9 to Rte. 202 in Hillsborough, south on Rte. 202 to the NH/MA border, north on Rte. 13 in Brookline, north on Rte. 13 to Rte. 89 in Milford, north on Rte. 89 to Rte. 123 in Stoddard, east on Rte. 9 to Rte. 202 in Hillsborough, south on Rte. 202 to the NH/MA border, north on Rte. 13 in Brookline.

Unit J1: From the junction of Rte. 113 and Rte. 3 in Holderness, north on Rte. 113 to Rte. 113-A in Sandwich, north on Rte. 113-A to Rte. 113 in Tamworth, east on Rte. 113 to Rte. 16 in Chocorua, north on Rte. 16 to Rte. 302 in Conway, east on Rte. 302 to the ME/NH line, south on ME/NH line to Rte. 109 west on Rte. 109 to Rte. 28 in Wolfeboro Center, south on Rte. 28/109 to Rte. 109 in Wolfeboro, north on Rte. 109 to Rte. 25 in Moultonboro, west on Rte. 25 to Rte. 25B in Center Harbor, along Rte. 25B to Rte. 3, north on Rte. 3 to its junction with Rte. 113 in Holderness.

Unit J2: From the junction of Rte. 1-93 and Rte. 3 in Ashland, south on Rte. 3 to Rte. 25B in Center Harbor, east on Rte. 25B to Rte. 25 in Center Harbor, east on Rte. 25 to Rte. 109 in Moultonboro, southeast on Rte. 109 to Rte. 28/109 in Wolfeboro, north on Rte. 28/109 to Rte. 109 in Wolfeboro Center, east on Rte. 109 to its intersection with the ME/NH border, south along the ME/NH border to Rte. 202 in Rochester, south on Rte. 202 to Rte. 4 in Northwood, west on Rte. 4 to I-393 in Pembroke, west on I-393 to I-93 in Concord, north on I-93 to the junction of Rte. 3 in Ashland.

Unit K: From the junction of Rte. 9 and Rte. 202 in Hillsborough, south on Rte. 202 to the NH/MA state line, east on the NH/MA state line to Rte. 13 in Brookline, north on Rte. 13 to Rte. 101 in Milford, north on Rte. 101 to I-293 in Manchester, north on I-293 to I-93, north on I-93 to I-89 in Concord, west on I-89 to Rte. 9 in Hopkinton, south on Rte. 9 to its junction with Rte. 202 in Hillsborough.

Unit L: From the junction of I-93 & I-393 in Concord, east on I-393 to Rte. 3, east on Rte. 4 to Rte. 202 in Northwood, north on Rte. 202 to NH/ME state line, south along the NH/ME state line to Little Bay, south along the Rockingham/Strafford County line in Little Bay to the Squamscott River, south along the Squamscott River to Rte. 101, west along Rte. 101 to I-93 in Manchester, south on I-93 to I-293, north on I-193 to I-93 to I-393 in Concord.

Unit M: From the junction of Rte. 13 in Brookline and the NH/MA border, north on Rte. 13 to Rte. 101 in Milford, north on Rte. 101 to I-293 in Manchester, east on I-293 to I-93, north on Rte. 1-93 to Rte. 101 in Manchester, east on Rte. 101 to its junction with the Squamscott River in Exeter, north along the Squamscott River to Great Bay, north along the Strafford/Rockingham County line in Great and Little Bay to the NH/ME state line, east along the NH/ME state line to the Atlantic Ocean, south along the NH coast line to the NH/MA line, west along the NH/MA state line to its junction with Rte. 13 in Brookline.
**DEER HUNTING**

Deer are New Hampshire’s most popular game animal, with a total of approximately 100,000 deer found throughout the state. New Hampshire has a long archery season starting September 15, a muzzleloader season 11 days prior to the firearms season, and a firearms season during the peak of the rut. (See the chart for “any deer” days, when hunters may take a doe or a buck.) Special Unit L permits allow hunters to take an additional antlerless deer in WMU L. Special Unit M permits allow hunters to take two additional antlerless deer in WMU M. For more information, visit [www.huntnh.com/hunting/deer.html](http://www.huntnh.com/hunting/deer.html).

| Special Permits | Antlerless only | 2,000 Permittees in Unit L | 4,000 Permittees in Unit M |

**Youth Hunt** | Oct. 24 & 25 any deer statewide |
**Deer Baiting** | October 21–November 18 WMU A–L |
|                | September 15–December 15 WMU M |

*Nonresident youth hunters may participate provided N.H. youth can hunt during youth deer hunts in their state of residence.

**Further restrictions apply. See baiting rules section on page 11. A full list of rules regarding baiting wildlife in NH can be found in the Fis 300 section of the NH Code of Administrative Rules or online at [gencourt.state.nh.us/rules/state_agencies/fis.html](http://gencourt.state.nh.us/rules/state_agencies/fis.html).**

**Definitions**

**Antlered Deer:** Deer with at least one antler three (3) inches long.

**Any Deer:** All deer regardless of sex or age.

DEER HUNTING

holds a license for (archery, muzzleloader or firearm). Method of take limited to what is legal for particular season being hunted. All ages. Note: A total of up to 4,000 hunters will be allowed to purchase Special Antlerless Deer Permits for WMU M; the permit comes with two deer tags ($36). Available July 22 online and at NHFG Headquarters, first come, first serve basis.

Long Island and Governor’s Island Deer Permits:
These permits allow the taking of deer on Long and Governor’s Islands, respectively. Written landowner permission required on forms available at the Region 2 office in New Hampton or at Fish and Game headquarters in Concord. Many special restrictions. All ages. For more information, contact the Wildlife Division at 603-271-2461.

Deer Hunting Regulations
Hunting Hours: ½ hour before sunrise to ½ hour after sunset.

Deer must be registered at the closest open registration station within 24 hours. Deer must be accompanied and registered by the person who took the deer. See page 28 for a listing of stations. A conservation officer may request to see the head and hide of a deer taken under an archery license within 48 hours of killing. It is unlawful to hunt deer with a rimfire firearm. No shotgun ammunition, other than slugs or 00 or larger buckshot, may be used to take deer. Exception: Buckshot is prohibited for taking deer in Auburn, Chester, Greenland, Newington, Portsmouth, and Stratham.

WMU-A
Both the archery and firearms deer seasons close one week earlier than the rest of the state.

Archery Season
Any deer may be taken on the regular archery season during the archery season. Crossbows may be used to take deer during the regular archery season in WMU M only.

Archers and crossbow hunters must have their name and address on arrows or bolts. Fixed blade broadheads cannot be less than ⅞ inches wide and not more than 1½ inches wide. Retractable blade broadheads are permitted (cannot be less than ⅞ of an inch wide when open). Minimum draw weight for deer is 50 lbs.

Bowhunters may legally carry a sidearm, but may not use the sidearm to assist in taking a deer.

Crossbows
A crossbow means a device consisting of a bow mounted to a rigid stock for discharging quarrels, bolts, or arrows and having a mechanical means to hold and release the drawn string. A bolt means a short projectile for a crossbow that resembles an arrow.

A crossbow shall have a minimum pull of 125 pounds, a working mechanical safety and a stock no less than 25 inches in length. Name and address must be plainly marked on the crossbow bolt. Allowable sizes of broadheads are outlined in Archery Season section above.

See page 7 for more information on crossbow permits.

Muzzleloader Season
To hunt deer during the muzzleloader season, a person needs a Regular N.H. Hunting License, plus a Muzzleloader License. A muzzleloader is defined as a single barrel, single shot firearm (40 caliber or greater) that can only be loaded from the muzzle. Only one deer may be taken using a muzzleloader or crossbow with the firearm.

Trophy Deer Program
This program recognizes hunters in three categories—archery, firearm and muzzleloader—who take whitetails weighing 200 lbs. or more.

Rules:
1. All hunters are eligible.
2. Only deer weighing 200 lbs. or more, and taken in New Hampshire by legal means during the open season, are eligible.
3. All entries must be on official entry blanks provided in this book, or by the NH Antler and Skull Trophy Club (NHASTC).
4. Weights must be witnessed by the station operator or a Fish and Game employee.
5. All weights must be for field-dressed deer. A field-dressed animal is one which has all organs of the chest and abdominal cavities removed (including heart, lungs, intestines, etc.). The animal must be weighed intact. A deer must weigh at least 200 lbs. to qualify.
6. The NH Antler and Skull Trophy Club coordinates this program. They reserve the right to question any witnesses, to examine the scales used for weighing any entry and to refuse any questionable application.
7. Winners will be notified by mail following the deer season.
8. Please supply a photo for inclusion in the next record book. Photo can be emailed to NHASTC at rblaisdell1@comcast.net.
9. Any hunter under the age of 18 wishing to have their name published must include a parent/guardian name and signature on this form.

Use the Trophy Deer Entry Form, at right. Current New Hampshire Records Are:

Archery: 255 lbs.; Belknap County—2007
Muzzleloader: 277 lbs.; Coos County—1998
Firearm: 289.25 lbs.; Coos County—1985

TROPHY DEER ENTRY FORM
I hereby swear that the following statements are true, that in taking this deer I complied with all legal requirements, and that the witness hereto actually observed the weighing of this deer.

Hunter’s Name (print) ___________________________
Address ______________________________________
City__________________________State______Zip_______
Tel. ____________________________
Scale Location_____________________________________
Weight____________lbs.        Antler points______________
Method: [ ] bow & arrow    [ ] muzzleloader    [ ] firearm
Registration Station ______________________________
Date taken ______________________________________
Town of kill _____________________________________
Hunter’s signature __________________________________
Parent/Guardian Name (print) _______________________
Parent/Guardian Signature _________________________
I hereby swear that I witnessed the weighing of the deer described above, and verify the weight and other information given.
Witness signature __________________________________

Submit this application no later than December 31 to:
Trophy Deer Program, NH Antler and Skull Trophy Club, 22 Scribner Rd., Raymond, NH 03077. Tel. (603) 895-9947.

All entries will be published in the club’s bi-annual trophy book. If you desire a patch, please include $5.00 with your application. Make checks payable to: NHASTC.
tag during the muzzleloader season. No separate muzzleloader tag is issued. No person shall have in possession, while taking deer during the muzzleloader season, more than one muzzleloading rifle or one muzzleloading handgun. In NH a muzzleloader is defined as a firearm—therefore a felon may not possess a muzzleloader.

**Deer Baiting Season**
See page 11 for regulations, page 18 for the season.

**Antlered/Any Deer—Definitions**
- **Antlered Deer:** Deer with at least one antler three (3) or more inches long.
- **Any Deer:** All deer regardless of sex or age.

**Bear Brook Refuge**
Deer may be hunted in the Bear Brook Refuge with bow and arrow only by persons holding a valid Archery License.

---

**Did you know?**
It is unlawful to pick up any wildlife killed by motor vehicle without authorization from local or state police or N.H. Fish and Game.

---

**Keeping New Hampshire Deer Safe from CWD**
Chronic Wasting Disease (CWD) is a wildlife disease related to BSE or “mad cow” disease and scrapie in sheep. It is fatal to deer, moose, and other cervids, such as elk. Based on the results of Fish and Game Department CWD monitoring efforts in which 6,667 deer have been tested since 2002, CWD does not currently exist in New Hampshire. Activities that artificially concentrate deer greatly increase the spread of the disease and make control much more difficult. Please do not feed deer—ever.

The Centers for Disease Control and Prevention states that, “There have been no reported cases of CWD infection in people. However, animal studies suggest CWD poses a risk to some types of non-human primates. These studies raise concerns that there may also be a risk to people.” We recommend the following common-sense measures to prevent possible exposure to all wildlife diseases: 1) wear rubber gloves when field dressing your game, 2) bone out the meat from your animal, 3) wash your hands, knives, etc. when done, and 4) avoid eating brain, spinal cord, eyes, spleen, tonsils, and lymph nodes of harvested animals.

The importation of hunter-killed white-tailed, black-tailed or mule deer, moose and elk from CWD-positive jurisdictions is prohibited except for: de-boned meat; antlers; antlers attached to skull caps from which all soft tissue has been removed; upper canine teeth clean of all soft tissue; hides or capes with no part of the head attached; and taxidermy mounts. CWD-positive jurisdictions currently include: In the U.S., Arkansas, Colorado, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin and Wyoming; in Canada, Alberta, Quebec, and Saskatchewan. It is possible for new CWD-positive jurisdictions to be added following publication of this digest. For the most up-to-date list, visit huntnh.com/wildlife/cwd.html or call (603) 271-2461. N.H. hunters hunting deer in New York should be aware that it is illegal to transport the carcasses through Vermont or Massachusetts.

**Great Bay National Wildlife Refuge**
Deer hunting opportunity is allowed on the Great Bay National Wildlife Refuge. Hunters must obtain a special permit through the US Fish and Wildlife Service and possess any appropriate NH hunting licenses and tags to participate. For more information, go to https://www.fws.gov/refuge/Great_Bay/visitor_activities.html or contact the Parker River National Wildlife Refuge, 6 Plum Island Turnpike, Newburyport, MA 01950, or call (978) 465-5753.

**It Is Unlawful to:**
- Hunt deer with a .22 or smaller rimfire firearm, or with shot loads smaller than 00 buckshot.
- Kill any deer with antlers less than 3 inches during the Antlered Only deer season.
- Use 100% salt products as bait for deer hunting.
- Have more than 6 people participate in a joint drive for deer.
- Hunt deer or bear on islands, or in the water of any lake or pond in the state.
- Leave a deer in the woods without notifying a Conservation Officer within 12 hours as to the location and reason for not removing the deer.
- Buy, sell or offer for sale a deer or any part thereof, other than the head, hide or feet.
- Possess a deer that hasn’t been properly tagged.
- Hunt with a detached deer tag. Upon killing a deer, the tag shall be immediately detached, filled out and attached to the deer.
- Assist another in taking a deer after you have taken one, unless you possess a valid unused tag or are accompanying a youth under 16 years of age.
- Hunt deer with an air rifle.

---

**SPECIAL DEER and/or BEAR TAG**
This tag is to be used only by the persons listed below and for the species specified. All others must use the tag attached to their hunting, archery, or bear licenses that were purchased at a Fish and Game license agent.

- Resident landowners: deer (not an additional tag)
- Youth hunters under 16 years of age: deer (firearm or archery)
- Milestone Permanent license holders (license number starts with 68-): deer (firearms, muzzleloader or archery)
- Lifetime license holders: deer and/or bear
- Permanent license holders, Paraplegic for Firearm Deer
- Disabled Veteran firearm or archery for Deer

**Towns with Special Rules**

Deer hunting is allowed only by shotgun, muzzleloading rifle, handguns in calibers .357 Magnum, 10mm Automatic, .41 Remington, .44 Magnum, .45 Long Colt, .480 Ruger or .50 Magnum, or bow and arrow or crossbow in the following towns (pistols permitted under this section shall be loaded with no more than five rounds of ammunition at any time):

**Belknap:** Laconia; Meredith Neck: the part from the Meredith-Center Harbor line to Pleasant Street south and east of Route 25

**Hillsborough:** Amherst; Bedford; Brookline; Goffstown; Hollis; Hudson; Litchfield; Manchester; Merrimack; Milford; Nashua; Pelham.

**Merrimack:** Concord; Hooksett: that part lying from the town line of Allenstown, on the westerly side of Route 3, to a point where the old Portsmouth Railroad crosses the highway, then south of the railroad to the town line of Candia; Pembroke: that part lying south westerly of the following line: starting at the Concord town line at Red Bridge on Rte. 106, south to Burrough (Borough) Road, then easterly on Burrough (Borough) Road to Fourth Range Road, then southerly on Fourth Range Road to Dudley Hill Road, south on Dudley Hill Road to Buck Street, northeast on Buck Street to Route 28, south on Route 28 to the Allenstown town line. (See Bow, below.)

**Rockingham:** Atkinson; Auburn*; Brentwood; Chester*; Danville; Derry; East Kingston; Exeter; Fremont; Greenland*; Hampton; Hampton Falls; Kensington; Kingston; Londonderry; New Castle; Newfields; Newington*; Newmarket; Newton; North Hampton; Plaistow; Portsmouth*; Rye; Salem; Sandown; Seabrook; South Hampton; Stratham*; Windham.

**Strafford:** Durham; Madbury; Lee; Dover; Rollinsford; Somersworth.

* Buckshot prohibited for taking deer in these towns (RSA 208:3-a,b,c).

**Additional Restrictions**

**Bow:** All hunting is forbidden in the following area with any firearm other than a shotgun, muzzleloading rifle, or bow and arrow or crossbow: southeast from the Concord-Bow boundary line along the west bank of the Merrimack River, then westerly along the Bow-Hooksett boundary line, then northerly along I-93, then westerly along Robinson Road, then northwest along Branch Londonderry Turnpike East, then southerly along Woodhill Road, then southwesterly along Dunbarton Center Road to the Bow-Dunbarton boundary line, then northwest along the Bow-Dunbarton boundary line to the Bow-Hopkinton boundary line, then southerly along the Bow-Hopkinton boundary line to the Bow-Concord boundary line, then southeasterly and easterly along the Bow-Concord boundary line to the west bank of the Merrimack River.
Don’t Use Urine-Based Lures

Natural urine-based lures have the potential to spread Chronic Wasting Disease (CWD). A number of studies have shown the infective protein that causes CWD is present in urine, feces, and saliva of infected animals. Urine for lures is collected from deer in captive facilities held in pens over grates which collect a mixture of urine, feces, and saliva. Many of these facilities are located in states where CWD is already present. These lures do not undergo any treatment that might inactivate or kill disease-causing agents, and there is currently no effective testing of commercial lures for the presence of CWD proteins.

The infective protein can persist in the environment for years as a source of possible infection to the state’s deer and moose herds. Several states and Canadian provinces have already banned their use and possession due to the potential risks. N.H. Fish and Game recommends using one of many effective synthetic lures on the market, which do not pose a risk of spreading disease to our deer and moose populations. For more information, visit www.huntnh.com/wildlife/cwd.
SMALL GAME HUNTING

Small Game species in New Hampshire are: ruffed grouse, pheasant, quail, Hungarian/European partridge, chukar, cottontail rabbit, snowshoe hare, gray squirrel, and migratory game birds including waterfowl (see page 30).

To hunt for small game, a resident must have a current Regular N.H. Hunting, Combination or Archery License. A nonresident must have a Regular N.H. Hunting, Combination or Archery License or a Small Game License. Note: Turkey is considered large game.

No license is required for youth hunters (under age 16) of small game. Youth must be accompanied by a properly licensed adult age 18 or older. Migratory bird hunters, see pages 30–31 for additional requirements.

Small Game Hunting Hours
Hunting Hours: ½ hour before sunrise to ½ hour after sunset, except for migratory birds (see page 30).

Air Rifles & Crossbows
Air rifles of not less than .22 caliber and producing not less than 12 foot-pounds of kinetic energy at the muzzle are legal for the taking of small game except migratory waterfowl. Subject to all other restrictions shown here. Crossbows are a legal method of take for small game with the exception of migratory game birds.

No person shall take squirrels within a compact zone of any village or city or within the limits of any public park or cemetery.

Pheasant Hunting
N.H. Fish and Game will stock approximately 11,500 pheasants at 60+ sites around the state. All pheasant hunters 16 years of age or older must have a valid Regular N.H. Hunting, Combination, or Nonresident Small Game License, in addition to a Pheasant License.

Ruffed Grouse Hunting
N.H. Fish and Game actively manages our lands to create young forests, one of the habitats critical for grouse and many other species. If you are a grouse hunter, we ask you to help monitor this species by participating in our Ruffed Grouse Wing and Tail Survey. Read on and you can learn all about it!

Ruffed Grouse Wing and Tail Survey

NHFG conducts an annual grouse wing and tail survey to help gain critical information about ruffed grouse in NH. Hunter participation is key to this effort! A participating hunter wins a firearm donated by the Ruffed Grouse Society.

Any grouse hunter can pick up grouse sample packets, which include envelopes and survey cards for two grouse samples, from participating locations listed at huntnh.com.

Chance to win a firearm donated by the Ruffed Grouse Society!

Shaded Areas Closed to Cottontail Rabbit Hunting

The areas indicated above are known locations of New England cottontail rabbits (endangered in New Hampshire), and are closed to hunting of all cottontail rabbits.

Participate in the Small Game Survey

Calling all N.H. small game hunters! Please fill out and submit your Small Game Survey form by April 8, 2021, and you’ll have a chance to win a firearm generously donated by Sturm Ruger & Co., Inc.

If you are a small game hunter and would like to volunteer to take our annual survey, please call (603) 271-2461 or email wildlife@wildlife.nh.gov. NOTE: Please provide your full name and mailing address so we can mail the survey to you. Forms are also available at huntnh.com/surveys/small-game.html.

You could win a Ruger firearm!
New Hampshire offers an Apprentice Hunting License to anyone who wishes to hunt, but who has not yet completed a Hunter Education program or is not able to provide proof of a previous hunting or archery license.

The N.H. Apprentice Hunting License allows a friend, family member, or co-worker to hunt, for one year only, when accompanied by a properly licensed person who is 18 years of age or older. The fees for the Apprentice Hunting License are the same as for a resident or nonresident Regular Hunting License, Archery License, or nonresident Small Game Hunting License.

The apprentice hunter must purchase any other permits or licenses required for hunting (such as turkey, pheasant, muzzleloader, etc.). The properly licensed person accompanying the apprentice is fully accountable for any damage incurred or for any violations that may be committed by the apprentice while hunting. So, it’s a big responsibility, but you may end up creating a hunter and a future hunting buddy for yourself. Note that if the accompanying hunter tags out for the species that the apprentice is targeting, they are no longer a legal accompanying hunter.

Know someone who really wants to try hunting but hasn’t taken a Hunter Education class yet? Now they can be an Apprentice Hunter!

Report Feral Swine
Wild pig, feral hog, and Russian boar are common names used to describe today’s free-ranging feral swine, which are now found in 39 states, including New Hampshire. Because this non-native invasive species poses extensive damage and disease threats, they are of significant concern to farmers, livestock producers, natural resource managers, animal health officials, hunters, naturalists, and the general public.

Feral swine can damage pasture and consume and trample crops. They devastate native habitat by affecting forest regeneration and contaminating water supplies. Feral swine can severely affect native animal and plant communities, especially sensitive species. They prey upon amphibians, reptiles, deer fawns, wild turkeys, grouse, and other ground nesting birds and their eggs. Feral swine will also out-compete native wildlife for food, such as acorns and beechnuts. They can transmit as many as 30 pathogens and 37 parasites, many of which pose serious threats to humans, livestock, wildlife, and pets.

In New Hampshire, feral swine are considered escaped private property and may only be hunted with permission of the owner. Please contact USDA/APHIS-Wildlife Services (WS) immediately with feral swine sightings or possible sign. It is also important to quickly notify WS of swine mortalities so blood and tissue samples can be collected for disease surveillance. The results of this effort will help protect human health, agriculture, and natural resources of New Hampshire. Learn more at wildnh.com/wildlife/profiles/feral-hogs.html.

Report feral swine to: Tony Musante, Wildlife Disease Biologist USDA/APHIS-Wildlife Services 59 Chenell Drive, Suite 7 Concord, NH 03301 anthony.r.musante@usda.gov 603-223-6832

Apprentice Basics
The Apprentice Hunting License is not valid to take moose, doesn’t apply to the 3-day nonresident small game license, and cannot be used as proof of a previous license when purchasing a hunting license in the future.

An Apprentice Hunting License may be purchased only once in the lifetime of the hunter. It is available only through Fish and Game headquarters in Concord. Visit huntnh.com.
Wild turkeys in New Hampshire are a wildlife restoration success story. The state now offers generous spring and fall turkey hunting opportunities, as well as a special youth hunt. The highest concentration of turkeys is in the Connecticut River Valley—though they are well distributed throughout the state, and their clucks, purrs, and gobbles may be heard just about anywhere!

**Turkey Hunting Licensing Requirements**

Adult hunters (16 or older) must have a Regular Game License and a Turkey License to hunt turkeys. A Small Game License does not allow for the hunting of turkeys. Youths hunters (under 16 years of age) do not need a hunting, combination or archery license, but they do need a turkey license. Each turkey license comes with 2 tags which may be used in any order and allow the take of two (2) turkeys per year. Turkey hunters may take one (1) male or bearded turkey during the spring season and a second turkey of either sex during the fall. Or, hunters may take two (2) male or bearded turkeys during the spring season. However, the first spring turkey shall be legally registered before the second spring turkey can be taken. One of the spring turkeys may be taken statewide, but the other spring Turkey shall only be taken in WMUs H1, H2, J2, K, L, or M. One (1) or two (2) turkeys may also be taken during the youth weekend, however all spring season registration and WMU regulations apply. The total fall season bag limit is one (1) turkey and the hunting may be done statewide with bow and arrow during the fall archery season, or with a shotgun or crossbow during the fall shotgun season in those units where allowed (see season chart and map).

**Turkey Hunting Regulations**

**Hunting Hours:**
- **Fall:** 1/2 hour before sunrise to 1/2 hour after sunset.
- **Spring:** 1/2 hour before sunrise to 12 noon.

Turkeys must be tagged immediately upon killing. Registration of a fully feathered intact carcass is required within 24 hours of taking. The turkey may be gutted. See page 28 for a list of Turkey Registration Stations.

Shotguns must be between 10 and 20 gauge. The allowable shot size for taking wild turkeys is #2 or smaller size. The lack of an upper limit accommodates the use of modern, heavier-than-lead loads that utilize a blend of shot sizes.

A person who has taken a turkey may assist another properly licensed turkey hunter by calling only. The person assisting by calling shall not possess a bow and arrow, crossbow or firearm (other than a pistol or revolver).

**Archery/Crossbows**

Archers and crossbow users must have their name and address on arrows or bolts. Fixed blade broadheads cannot be less than 7/8 inches wide; there is no upper size limit. Retractable blade broadheads are permitted (cannot be less than 7/8 of an inch wide when open). Minimum bow and arrow draw weight for turkeys is 30 lbs. Crossbows must meet the requirements on page 20.

**It Is Unlawful to:**
- Possess a turkey that hasn’t been properly tagged.
- Upon killing a turkey the tag shall be filled out and immediately attached to the turkey.
- Take a turkey with a rifle, dogs (during spring season), bait, electronic calling devices, live decoys, by cooperative drives or with an air rifle.
- Take a turkey while the turkey is in a tree.

**Wildlife Management Units**

See pages 16–17 for detailed descriptions of WMUs or go to huntnh.com.
ANTICOSTI ISLAND
THE ULTIMATE HUNTING TRIP

EUROPEAN PLAN PACKAGE
Starting at $1,486/hunter (USD)*

*Taxes and hunting licence not included. Product priced in Canadian dollar; based on 2020 rates. Prices in U.S. dollars may vary according to exchange rate fluctuations and fees by credit card issuers. Departures available from Mont-Joli, Montreal and Quebec City. Certain conditions apply.

All packages include:
- 2 DEER/HUNTER
- Huge & exclusive territory
- Air transportation
- 4x4 truck

Hunt for the Hungry

Hunt for the Hungry, a cooperative program of the New Hampshire Food Bank in Manchester and N.H. Fish and Game, enables you to donate part or all of your kill to help feed the hungry in our communities. The N.H. Food Bank provides food to more than 400 agencies, food pantries, soup kitchens, homeless shelters, elderly services, and group homes. For information or to make a donation, call the N.H. Food Bank at (603) 669-9725.

Loss of Hunting Privileges

Anyone found guilty of violating any Fish and Game hunting regulation or trespass may lose his/her hunting privileges for a minimum of one year. A NH hunting license suspension could result in a hunting license suspension in other states.
New Hampshire’s bear hunters can take advantage of three seasons: stalking (“general”), dog season, and baiting season. Bears are found statewide, with the highest densities in central N.H. and the White Mountains. Hunters can buy a Bear License online or at any license agent—no lottery needed.

**Bear Hunting Licensing Requirements**
Adult hunters (age 16 and older) must have a valid Regular N.H. Hunting, Combination or Archery License, and a Bear License and valid tag to hunt black bear. Youth hunters (under 16 years of age) do not need a Regular N.H. Hunting, Combination or Archery License, but they do need a Bear License and valid tag.

**Bear Hunting Regulations**

**Hunting Hours:** ½ hour before sunrise to ½ hour after sunset.

Successful hunters must notify a Conservation Officer within 12 hours of taking a bear by calling (603) 271-3361 between 7 a.m. and 7 p.m., and may be required to take a department employee to the kill site. Within 24 hours after time of kill, the hunter must exhibit the bear, with reproductively intact, to a Conservation Officer. Do not bring bear to a registration station prior to calling Fish and Game at (603) 271-3361 to receive instructions.

Black bear may only be taken by firearms larger than .22 rimfire, shotgun loaded with any ammunition other than a single ball; the only nonresidents allowed to bring dogs into N.H. to train dogs or take bears. Permits are available online at huntnh.com. The permit becomes effective when one copy is presented by hand or postmarked and mailed to the N.H. Fish and Game Department (Wildlife Division, 11 Hazen Drive, Concord, NH 03301) prior to taking a bear.

**To Bait Bear**
To bait bear on private land, a Permit to Bait Wildlife and map of the bait site must be received by the Wildlife Division, N.H. Fish and Game (11 Hazen Drive, Concord, N.H. 03301) or be postmarked by the first Monday in August. No person except a licensed N.H. Hunting Guide shall use bait for the purpose of attracting bear at more than 2 bait sites. No person except a licensed N.H. Hunting Guide shall have more than one bait site in WMUs A, B, D1, H1, H2, I2, K, L, and M. Baiting permit applications are available at Fish and Game offices or online at huntnh.com.

**To Hunt Bear with Dogs**
A free Take Bear With Dogs Permit is mandatory for anyone attempting to take bear with hounds. Nonresidents from states or provinces or territories of Canada that allow the training of dogs for bear hunting or taking of bear with dogs, and who do not limit or prohibit N.H. residents from training dogs or hunting bear with N.H. dogs, are the only nonresidents allowed to bring dogs into N.H. to train dogs or take bears. Permits are available online at huntnh.com. The permit becomes effective when one copy is presented by hand or postmarked and mailed to the N.H. Fish and Game Department (Wildlife Division, 11 Hazen Drive, Concord, NH 03301) prior to taking a bear.

**It is Unlawful to:**
- Hunt bear with a .22 or smaller rimfire firearm, or a shotgun loaded with any ammunition other than a single ball;
- Take more than one bear in a calendar year;
- Buy, sell or offer for sale a bear or any part thereof, other than the head, hide, or feet;
- Possess a bear that has not been properly tagged;
- Upon killing a bear, the tag shall be immediately filled out and attached to the bear;
- Assist another in taking a bear after you have taken one, unless you are accompanying a youth under age 16;
- Start hounds over bait;
- Take bear with an air rifle;
- Shoot a bear that has been trapped or cornered by a dog and you are not a member of the hunting party.

**Chocolate Banned as Bear Bait**
No person shall establish, tend, or hunt over a bait containing chocolate or any cocoa derivative. White chocolate may be used.

WATERFOWL/MIGRATORY BIRD HUNTING

Migration bird hunting in New Hampshire includes woodcock, ducks and geese, snipe and crows. A special youth waterfowl season (September 26–27, 2020) allows hunters ages 15 and younger to hunt in advance of the regular season.

* The daily bag limit of 6 ducks may include no harlequin ducks and no more than 2 mallards (1 of which may be a hen), 2 black ducks, 3 wood ducks, 1 pintail, 2 canvasbacks, 2 redheads, 1 scaup, and no more than 4 scoters, 4 eiders, or 4 long-tailed ducks.

** The daily bag limit of 5 mergansers is in addition to the daily bag limit of 6 ducks and may include no more than 2 hooded mergansers. Possession limits are three times the daily bag limit (for example, the hooded merganser possession limit is 6).

*** The daily bag limit for sea ducks shall include no more than 4 scoters, 4 eiders, or 4 long-tailed ducks and possession limit shall be 15 birds with no more than 12 scoters, 12 eiders, or 12 long-tailed ducks. In all other areas of the state, sea ducks shall be included in the regular season daily bag and possession limit.
Migratory Bird Hunting Licensing Requirements
To hunt for migratory birds, a resident must have a current Regular N.H. Hunting, Combination, or Archery License. A nonresident must have a Regular N.H. Hunting, Combination, Archery or a Small Game License. No license is required for youth hunters (under age 16); youth must be accompanied by a properly licensed adult age 18 or older.

In addition, duck and goose hunters 16 and older must have a:
• State Migratory Waterfowl License;
• National Migratory Bird Harvest Information or “HIP” certification number to hunt ducks, geese, woodcock, and snipe.
• Federal Duck Stamp with the hunter’s name signed across the face. The Federal Duck Stamp can be purchased at many U.S. Post Offices or at Fish and Game headquarters in Concord (or Region 2 Office, New Hampton). Hunters pursuing snipe and woodcock do not need either the state migratory waterfowl license or the federal duck stamp, but they do need the HIP certification.

HIP applicants must call 1-800-207-6183 or go to the online licensing site at huntnh.com to obtain a HIP permit number at no cost.

Youth Waterfowl Weekend
Hunters age 15 and younger have a special weekend (September 26-27, 2020) to hunt in advance of the season. They must be accompanied by an adult over 18 years of age who possesses a current hunting license. The adult may not take waterfowl. Youth hunters may take waterfowl in accordance with the 2020-21 N.H. migratory bird hunting regulations.

Migratory Bird Hunting Regulations
Hunting Hours:
• Waterfowl, woodcock, snipe: ½ hour before sunrise to sunset.

It is unlawful to hunt migratory game birds with an air rifle, a shotgun larger than 10 gauge or use a shotgun capable of holding more than 3 rounds of ammunition: one in the chamber, and the magazine must be plugged to hold no more than 2 rounds. It is illegal to possess any shotgun shells containing lead shot while hunting migratory waterfowl (does not include woodcock or snipe). Bow and arrow may be used.

Placing bait or hunting over baited areas is prohibited. It is also unlawful to have a loaded firearm in a motorboat under power or hunt from a motorboat or sailboat until all forward motion has ceased.

• Crow: ½ hour before sunrise to ½ hour after sunset. No HIP required for crow. Crows may be taken by firearms and bow and arrow. Electronic calls may be used for crow.

In addition to state regulations, Federal rules apply to the taking, possession, shipping, transporting, and storing of migratory game birds. Each hunter should also consult Federal regulations, which may be found in Title 50, Code of Federal Regulations, Part 20. A link can be found at huntnh.com/hunting/waterfowl.html.

Areas Closed to Waterfowl Hunting
Certain areas are closed to waterfowl hunting. For a list and description of closed areas throughout the state, contact the Fish and Game office nearest you; or write to N.H. Fish and Game Department, 11 Hazen Drive, Concord, NH 03301; or visit huntnh.com/hunting/waterfowl.html.

* The statewide daily and season bag limit is 2 fisher per hunter (combined with trapping).

### Coyote
- No closed season.
- **Night Hunting:** Coyotes may be hunted at night from Jan. 1 through March 31. Lights may be used, except from a motor vehicle, snowmobile, or OHV. Coyote night hunters are restricted to shotguns, .22 caliber rimfire, muzzleloaders, or archery equipment in those towns with special rules (see page 22).
- Electronic calling devices are legal.
- Written landowner permission, filed with the local conservation officer, is required to hunt coyote at night or to place bait for coyotes.
- Baiting is not permitted on ice-covered public waters.
- From the close of the bear baiting season through December 15, baiting for coyote will be restricted to the use of meat, animal parts, carrion, or fish only.

### Fisher
Sealing required within 10 days of the close of season. The season limit is 2 fisher.

### Raccoon
Raccoon may be hunted at night. It is illegal to use a rifle or pistol larger than .22 caliber, or shot size larger than number 4 birdshot. It is illegal to take raccoons using a light from a motor vehicle or OHV.

Trapping Licensing Requirements
Any person (regardless of age), except resident landowners while upon their own land or children under 16 years of age when accompanied by a license 18 years of age or over, must have a license to trap fur-bearing animals. This license can only be purchased at Fish and Game headquarters in Concord or by mail from N.H. Fish and Game Department, 11 Hazen Drive, Concord, NH 03301. Trapping Licenses expire on June 30 of each year.

No person shall be issued a license to trap unless he or she presents proof that he or she has completed a trapper education course or has previously held a N.H. license to trap within the last three years.

• Trapping License—Resident Minor: N.H. resident youths (under age 16) may purchase this license with proof of Trapper Education or a previous Trapping License. This license allows youth trappers to trap without adult accompaniment.

• Nonresident Trapping Licenses: In order to be eligible for a N.H. Trapping License, the applicant’s state or province must allow nonresidents to trap within their jurisdictions.

Persons engaged in the practice of trapping nuisance animals are required to possess a Wildlife Control Operator’s License, available at Fish and Game headquarters in Concord or by mail.

General Trapping Regulations
• Snares may be used for taking beaver and otter. Snares shall only be set in water or under ice.
• All traps/snares must have the name of the person setting them, either stamped or engraved in a legible and permanent manner on the trap or on a durable tag securely affixed to the trap or snare or chain holding the trap.
• Only New Hampshire residents may trap beaver and otter during the N.H. open seasons.
• When set, all traps must be securely attached to the ground, to a fixed object, to a drag, or to a slide wire.
• Otter sealing is required within 10 days of the close of the otter season.
• Fisher sealing is required within 10 days of the close of the fisher season.
• There is no open season on bobcat, lynx, or pine marten.
• No person may set, arrange, or tend any trap/snare upon any land or from the shores of any waters of which he is not the owner or occupant unless he has signed, written permission, and until a copy is filed with the conservation officer in whose district said person is going to trap, together with a description of the land on which trapping is to be done. The only exceptions are traps/snares placed in public bodies of water as defined in RSA 271:20 and on the following named rivers: Androscoggin, Ammonoosuc, Ashuelot, Bearcamp, Contoocook, Connecticut, Cochecho, Exeter, Lamprey, Mascoma, Merrimack, Merrymeeting, Isinglass, Pemigewasset, Pine, Saco, Soucook, Suncook, and Winnipesaukee and their navigable tributaries. Navigable tributaries are those waters from the tributary’s mouth to a point upstream where a person can row a boat or paddle a canoe when the water in the stream is in its ordinary condition.
• No person may set or arrange any trap in a public way, cart road, or path commonly used as a passageway by human beings or domestic animals.
• Any trapper causing injury or damage to domestic animals, with the exception of dogs at large, shall be liable to the owner. An injury to a licensed dog at large shall be reported to the town or city listed on the dog’s tag, and to the owner of the dog, if known.
• No person may set or arrange any trap/snare in or under any bridge, ditch, or drainage system, whether artificial or natural, within...
the limits of the right-of-way of any public highway except by special permission of the executive director.

- A trapper must visit traps set at least once each calendar day. A person trapping beaver through the ice must visit his traps at least once each 72 hours.
- Trappers may use artificial lights to facilitate checking traps. Checking traps by the use of lights from a motor vehicle is prohibited.
- While checking traps at night, no person shall have in possession a rifle, revolver or pistol larger than a .22 caliber long rifle, air rifle larger than 25 caliber, or a shotgun with shells larger than number 4 birdshot.
- Annual Trapper’s Report due April 30: All persons licensed to trap furbearing animals, whether they trapped or not, are required to submit an Annual Trapper’s Report by April 30 of each year.

**FURBEARER TRAPPING**

- Fur Dealers must submit a completed “Fur Dealers’ Record Book” (Furs Purchased—Form F&G 152, Furs Sold—Form F&G 152A) to N.H. Fish and Game on or before July 30 of each year. All licensees must carry on their persons a Form F&G 152 when buying the skins of furbearing animals. All forms are available from Fish and Game’s Concord headquarters.

**It Is Unlawful to:**

- Disturb or interfere with the dams or houses of beaver without obtaining a special permit from the executive director or his designee, except as provided in RSA 210:9.
- Set or arrange any trap prior to the first day of the open season for trapping a species.
- Disturb the trap of another person or take a furbearing animal from the trap of another person, unless specifically authorized in writing by the owner of the trap.

- Per Fis 303.12 (a Fish and Game Administrative Rule), body gripping traps with an inside jaw spread greater than or equal to 6½ inches, measured inside the jaws perpendicular to the trap’s pivoting joints, shall only be set:
  1. Five feet or more above the ground or surface of the snow (with the exception of a snowstorm during the previous 24 hours); or
  2. In water for trapping beaver or otter.
- Place a trap within 15 feet of a muskrat house, or injure or destroy the house, den or burrow used by any game or furbearing animal.
- Place a trap within 50 feet of exposed bait (see Statewide Restrictions on page 35).

**Trapping on State-Managed Lands**

Permits to trap on state-managed lands are issued by lottery every two years, in even years only, and are valid for two years. The next lottery will be in September 2022. Permit forms, applications, property maps, and lists of available lands may be obtained from the Wildlife Division in Concord (603-271-2461), or downloaded from hunt_nh.com.
Canada lynx are a federally listed Threatened Species. There is no open season for the trapping or hunting of lynx in New Hampshire. Fish and Game biologists have confirmed the presence of reproducing lynx in northern New Hampshire. To protect the lynx, and to help N.H. trappers avoid accidentally taking lynx, Fish and Game worked with the N.H. Trappers Association to delineate a lynx protection zone in the northern and White Mountains area where special regulations are in effect.

**Statewide Restrictions**
- No loothold trap with auxiliary teeth added shall be allowed.
- No loothold trap with an inside jaw spread greater than 6½ inches shall be set on land.
- Body gripping traps with an inside jaw spread greater than or equal to 6½ inches shall only be set:
  - Five feet or more above the ground or surface of the snow with the exception of a snowstorm during the previous 24 hours; and
  - In water for beaver or otter.
- There is no open season for taking bobcat, American marten, or Canada lynx. Any American marten or Canada lynx trapped must be reported immediately by contacting the Fish and Game Department at 603-271-3361 on business days during the hours of 8:00 a.m. to 5:00 p.m., during weekdays or 7:00 a.m. to 7:00 p.m. on weekends, or, if the Fish and Game Department is closed, by contacting the nearest Conservation Officer.
- Deadfalls are prohibited.
- Traps shall not be set within 50 feet of any animal, including fish, or parts thereof, including meat, organs, viscera, bones, or any other parts of an animal, that is visible from above, but does not include meat, organs, viscera, or bones totaling 4 ounces or less, or skin, hair, or feathers 25 square inches or less, droppings, urine, or living or dead animals held in a trap as the result of lawful trapping activity.
- “Covered bait” means bait that is the body of any animal, including fish, or parts thereof, including meat, organs, viscera, bones, or any other parts that are covered so as to not be visible from above, where cover includes, but is not limited to, brush, branches, leaves, soil, or snow and is constructed in a manner to withstand wind and normal environmental conditions. “Covered bait” includes baits less than one-half pound when placed in a dirt hole 6 inches in diameter or less at a depth of 6 inches or greater; and baits of less than 5 pounds placed on pole sets 5 or more feet above ground are also considered covered bait.

**Restrictions within the “Lynx Protection Zone”**
The following restrictions on traps shall apply while trapping in WMUs A, B, C1, C2, D1, D2-east, E and F:
- All loothold traps set on land must have one swivel in the chain/cable and one swivel connection to the trap;
- Body gripping traps with an inside jaw spread of 4 inches or greater and less than or equal to 5 inches which are set on the ground shall only be set as follows:
  - In water for beaver or otter;
  - Set under overhanging stream banks; and
  - Affixed to a leaning section of a pole or tree, no greater than 4 inches in diameter that is free of branches and angled 45 degrees or greater in its entirety.

**Know the difference between lynx and bobcat AND wolf and coyote. See our brochure at wildnh.com/hunting/publications.html.**
— Excluding branch removal, the pole or tree shall not have planed or altered sides.
— The area within 4 feet of the trap shall be free of trees, poles or other objects greater than 4 inches in diameter;
— The areas within 4 feet of the trap shall be free of trees or poles that are angled less than 45 degrees to the ground at any point between the ground elevation and the elevation of the trap; and
— The area within 4 feet of the trap shall be free of banks, bluffs, rocks or immediate rise in ground elevation;

• Body gripping traps with an inside jaw spread greater than 5 inches and less than 6½ inches which are set on the ground shall only be set:
  — Recessed in the den entry of nuisance wildlife, with the den entry covered by wire mesh with openings that do not exceed ½ inches side-to-side and wire gauge shall be 16 gauge or less or a wire diameter of 0.05 inches or greater.
  — If placed in a lynx exclusion device, as follows:
    » The trap jaws shall be completely within the device, the trap springs may be outside of the device;
    » The lynx exclusion device shall not have an opening greater than 6 inches by 8 inches;
  » The opening shall not be directly in front of the trap, but shall be either on the top or side of the device;
  » The trap set within the device shall be a minimum of 18 inches from the closest edge of the opening to the trap;
  » The back of the device shall be secured to withstand heavy pulling;
  » If using wire mesh with a wood box, the wire mesh shall wrap around two opposite sides of the box and be secured;
  » There shall be at least 2 attachment points for each side of the device where there is a joint, or where panels come together;
  » The exclusion device shall be constructed of wood, or wire mesh that does not exceed ½ inch openings from side to side;
  » The wire gauge shall be 16 gauge or less or a wire diameter of 0.05 inches or greater;
  » The opening slot in the device that allows the trap springs to extend outside the device shall be no more than 7½ inches wide and a height of no more than 1½ inches; and
  » The trap shall be anchored outside of the device.

— Eastern red-backed salamander

OTHER—NONGAME WILDLIFE

Reptiles and Amphibians

• No person shall sell native species of reptiles or amphibians, including parts or eggs thereof, except:
  — Non-living snapping turtles and bullfrogs raised outside the state which may be possessed, bought, and sold for use as food provided that with each package there shall be a bill of sale bearing the species, the weight of the package, and the place of origin; and
  — Non-living amphibians and reptiles obtained outside the state to be used for educational purposes.

• No person shall take or possess a spotted turtle, Blanding’s turtle, wood turtle, Eastern box turtle, black racer, Eastern hognose snake, timber rattlesnake, marbled salamander, or any egg or part thereof.

• Importation, possession, and release of reptiles shall be in accordance with Fish Chapter 800.

• No person shall take any species of indigenous turtle from May 15 to July 15.

• Persons taking reptiles or amphibians shall not take more than 2 reptiles or 5 amphibians per day.

• The taking of amphibians and reptiles shall be only by hand capture, including the use of hand-held nets.

• Snapping turtles may only be taken if less than 6 inches or 12 to 15 inches in length, as measured along the top of the carapace.

• The possession limit of harvested reptiles and amphibians is 2 times the daily bag limit.

• Individuals may possess up to 2 each of the following native reptiles:*:
  — Musk turtle
  — Painted turtle
  — Snapping turtle
  — Ring-necked snake
  — Eastern milk snake

• Individuals may possess up to 5 each of the following native amphibians*:
  — American toad
  — Gray tree frog
  — Spring peeper
  — American bullfrog
  — Green frog
  — Pickerel frog
  — Mink frog
  — Wood frog
  — Spotted salamander

• The opening shall not be directly in front of the trap, but shall be either on the top or side of the device;

• The trap set within the device shall be a minimum of 18 inches from the closest edge of the opening to the trap;

• The back of the device shall be secured to withstand heavy pulling;

• If using wire mesh with a wood box, the wire mesh shall wrap around two opposite sides of the box and be secured;

• There shall be at least 2 attachment points for each side of the device where there is a joint, or where panels come together;

• The exclusion device shall be constructed of wood, or wire mesh that does not exceed ½ inch openings from side to side;

• The wire gauge shall be 16 gauge or less or a wire diameter of 0.05 inches or greater;

• The opening slot in the device that allows the trap springs to extend outside the device shall be no more than 7½ inches wide and a height of no more than 1½ inches; and

• The trap shall be anchored outside of the device.

NOTE: Although limited possession of these species is currently legal in New Hampshire, the N.H. Fish and Game Department encourages people to leave these wildlife species wild. Populations of some species, especially turtles, can be adversely affected by the removal of a small number of individuals.
The target shooting and hunting community prides itself on being safe and responsible with firearms in all situations—from using them outdoors to storing them safely at home. Sometimes, however, unusual conditions such as extremely dry environments require an extra level of awareness and safety on the part of shooters.

Wildfires have many possible causes. The National Shooting Sports Foundation, the trade association for the firearms and ammunition industry, reminds all shooters that during dry and hot weather conditions their use of certain ammunition and targets could accidentally ignite a wildfire. NSSF reminds all target shooters and hunters, as well as other outdoor enthusiasts, to consider the potential consequences of their activities in fire-prone environments.

- Make it a point to know the regulations and rules related to shooting in areas experiencing dry and hot conditions, whether on public or private land or at shooting ranges. Many national forests, for example, do not allow recreational shooting when fire restrictions are in effect.

- Consider the type of ammunition and targets you are using. Minimize the risk of fires by not using steel-jacketed ammunition, ammunition with steel-core components, tracer rounds or exploding targets in fire-prone areas.

- Remember that equipment, such as cars and ATVs, can have extremely hot exhaust systems that could ignite dry vegetation, so park only in designated areas.

- Extinguish and dispose of smoking materials safely.

- Follow guidelines to extinguish campfires.

- Warn others of potential dangers and behaviors for starting wildfires.

- Report any wildfire you see to authorities.

- Spread this message to other target shooters, hunters and outdoor enthusiasts.

The adventure of a lifetime is in store for 49 people who have been offered permits in the world-class New Hampshire moose hunt, October 17-25, 2020. They are the lucky winners in the N.H. Fish and Game Department’s annual Moose Hunt Permit Lottery.

Moose hunting permits are offered to successful lottery applicants following a random computer-generated drawing in June. Your odds of winning improve every consecutive year you apply, thanks to a bonus point system. Entering the lottery costs just $15 for residents and $25 for nonresidents. Permit holders may select one person of any age to join them on the moose hunt. The N.H. moose hunt success rate averages 70 percent statewide, and much higher in northern areas.

New Hampshire has had an annual moose hunt since 1988. The availability of moose hunting permits is made possible by careful management of moose populations. While moose populations and hence permits, are down from past years, permits are issued at a rate that should allow the moose population to grow toward regional population goals. An ongoing research project being conducted by Fish and Game, in cooperation with the University of New Hampshire, will provide additional information to aid in moose management efforts.

Applications for the 2021 N.H. Moose Hunt Lottery will be available in late January 2021; watch huntnh.com for your chance to apply online or by mail.

For license/permit fees, success rates by region and WMU, a photo gallery of past hunts, and Q&As on the moose hunt and the lottery, visit huntnh.com.

New Hampshire Moose Hunt Permit Auction

The Wildlife Heritage Foundation of New Hampshire auctions one moose hunting permit as part of a program to support the conservation of wildlife and natural places in N.H. The permit allows the holder to harvest one moose of either sex. All auction proceeds benefit the Wildlife Heritage Foundation of New Hampshire.

Bidder’s packets become available in the spring, and bids are opened in early August. Visit nhwildlifeheritage.org or contact the Wildlife Heritage Foundation of N.H., PO Box 3993, Concord, NH 03301.

The Wildlife Heritage Foundation of New Hampshire is the official non-profit partner of the New Hampshire Fish and Game Department. The Foundation raises money to support projects such as Operation Land Share, signs at Wildlife Management Areas, and the Conservation K-9 program. Funding for the Foundation’s grant program comes from individual and corporate donors, as well as the annual moose hunt permit auction.

N.H. Moose Hunt by the Numbers

- The largest bull moose ever taken in New Hampshire weighed in at 1,040 pounds, dressed weight, in 1993. Live weight of this moose would have been approximately 1,400 pounds.
- The largest cow ever taken dressed at 815 pounds.
- Greatest antler spread measurement for moose taken in New Hampshire is 68.5 inches. This bull was 9.5 years of age, had 25 points and weighed 775 pounds dressed. The antler beam diameter was 60 mm. This animal was taken in A2 in 2010.
- Moose have been taken with the use of conventional firearms and archery, handguns, muzzleloaders (including flintlocks) and the longbow.
- Typically, more than 60% of the harvest occurs in the first 3 days of the season.
- Successful hunters average 24 hours hunting and 42 hours scouting.
