## What’s New—Hunting

### Act 51 (S.575)

**Wild Turkey Season and Limits**  

Portions of Act 51 of 2019 will go into effect for the 2021 spring wild turkey season and will require persons harvesting a wild turkey to report the harvest by midnight of the day of harvest. Methods of reporting will include smart phone application, internet, and telephone. Turkey hunters will receive details on reporting with their 2021 tags.

### Act 119 (S.475)

**Tripletail Creel and Size Limits**  
Sponsor: Sen. Campsen

Establishes a limit of 3 tripletail per person per day and no more than 9 tripletail per boat per day. It additionally establishes a minimum size of 18 inches total length.  
**Effective 03/24/20**

## What’s New—Saltwater Fishing

### Act 118 (S.474)

**Spadefish Creel and Size Limits**  
Sponsor: Sen. Campsen

Revises existing regulations to a limit of 10 spadefish per person per day and no more than 30 spadefish per boat per day in state waters. It additionally establishes a minimum size of 14 inches total length.  
**Effective 03/24/20**

## Changes to Bluefish Creel Limit

The National Marine Fisheries Service announced a change in bluefish limits from 15 per person to 3 per person per day or 5 per person in the for-hire fishery in federal waters. South Carolina has adopted those changes in state waters.

## Changes to Federal Regulations for Snapper-Grouper

Commercial, for-hire, and recreational anglers fishing for or possessing snapper-grouper species are now required to have a descending device on board and ready for use when fishing off South Carolina. The use of non-stainless, non-offset circle hooks are required for anglers using natural bait. The list of snapper-grouper complex species can be found on page 50 in this guide.

## Boat Registration

Act 223 of 2018 took effect on January 1, 2020. This Act changes the registration period for boats from every three years to annually. The provisions of the Act will be phased in over a three-year period as your current three-year registrations expire. Additional details about these changes and how they will be implemented will be distributed via email, social media, the SCDNR website, news media, and other sources.
With fishing opportunities at 42 of South Carolina's 47 state parks, there are plenty of places to cast a line—and a Park Passport will get you access for an entire year to great rivers, lakes and fishing holes across the state. Choose from one of our two primary passport types to suit your needs and get the most out of your state park adventures. Purchase your Park Passport today at SouthCarolinaParks.com or at a park near you!

OPERATION COAST WATCH

The South Carolina Department of Natural Resources Coast Watch is a program under Operation Game Thief designed to focus attention on coastal fisheries and resource violations.

The coastal resources of South Carolina are an important part of our natural heritage. Our coastal resource laws are designed to protect our fish and shellfish from being wiped out by overfishing. We must reserve a healthy population that is large enough to ensure good harvests in the future.

You can help protect our coastal resources by watching for and reporting violations to the Coast Watch Program. You may earn a reward up to $500 for information leading to the conviction of coastal law violators. In addition, you will have the satisfaction of knowing that you are doing your part to defend our natural resources.

More information and a brochure may be obtained by calling 803-734-4002.

REGULATIONS

Published August 2020

Property-specific regulations outlined in this booklet could change due to the need for emergency regulations. Such changes will be publicized in local newspapers and on the SCDNR website as any new emergency legislation is passed. Discrepancies between the book and any statute or regulation shall be governed by the statute or regulation. To research laws, visit http://www.scstatehouse.gov/code/statmast.php. The SCDNR News Section will issue news releases to clarify any changes to regulations, errors or omissions in this booklet.

Other information is published only in SCDNR news releases. This includes announcements relative to shrimp baiting, public hearings, SCDNR Board decisions and position statements, new legislation, youth activities, mobility impaired US Dept. of Agriculture cost-share programs, special drawing hunts, schedules for newly acquired areas and many other items of interest. SCDNR news releases are published weekly and distributed free to editors of all regional and local newspapers and are available to the public on the SCDNR website.

Natural Shorelines are Good for Fishing

By keeping shorelines natural, you can help protect water quality and improve fish habitat. A shoreline without trees and shrubs can get washed away, making the water muddy and unsuitable for fish. If you live near a lake or a river, plant a buffer strip along the water’s edge using trees, shrubs, wildflowers or other native plants. Trees and other vegetation filter pollution and provide shade, shelter, habitat, and food critical for bass, trout, and other fish to thrive and reproduce. Keep your favorite fishing spots well vegetated! For more tips and information, visit https://www.epa.gov/environmental-topics/water-topics

Eating Fish Caught in South Carolina

The South Carolina Department of Health and Environmental Control (SCDHEC) and the South Carolina Department of Natural Resources (SCDNR) believe that fish are a healthy, low-fat source of protein. To make sure that the fish you catch are safe to eat, DHEC tests fish from lakes, rivers and streams throughout South Carolina.

To protect your health, DHEC issues fish consumption advisories in areas where contaminated fish have been found. For more information on the advisories, call DHEC, toll free, at 1-888-849-7241 or go to DHEC’s web page at www.scdhec.gov/foodsafety/FishConsumptionAdvisories.

**REQUIRED OF ALL APPLICANTS**

**Identification**
Applicants for all SC hunting & fishing privileges must present a state issued identification document at the time of application. The same information is required for internet/call center transactions. Providing false information is unlawful. The same identification used to obtain your privileges should be in your possession when hunting or fishing. Applicants from other countries may provide their passport in lieu of a state identification document.

**Social Security Number**
The disclosure of your social security number or alien identification number is required to obtain SC hunting and fishing licenses. This complies with SC Code of Laws Section 63-17-1080 and Federal law 42 USC 666(a) (13), which requires a licensing agency to provide this information to the Child Support Enforcement Unit of the Department of Social Services to establish, modify and enforce child support orders.

**Child Support Violations**
Should you become non-compliant with your child support payments all recreational and commercial hunting and fishing license privileges will be revoked. Once you become compliant with DSS you will be required to purchase a new license at the current price.

**Resident**
Resident is a person who is a domiciled (permanent) resident of South Carolina for 30 days. Proof of residency at license vendors is your unexpired state of South Carolina Driver’s license or Identification Card. Other manners of proving residency can be submitted to a SCDNR license office.
A person licensed by another state as a resident for any purpose is not eligible to apply for, obtain, or hold any South Carolina resident license, permit or tag.

**Military Personnel**
Military personnel and their dependents stationed in SC for thirty days or longer, or who are domiciled in this state, are eligible for resident privileges. Valid military identification must be presented when applying.
Active duty or military personnel who are residents of SC stationed outside of the state and home on leave, may upon presentation of their earnings and leave statement (which must declare SC as their home state), be allowed to fish and hunt throughout the state without purchasing a hunting, freshwater fishing or saltwater fishing license. Permits are required to hunt big game, migratory birds, migratory waterfowl and hunt on WMA lands. Tags are required to hunt deer and turkey, use nongame fish devices or for taking shrimp over bait.

**Students**
Students enrolled full time in a SC educational institution are eligible for resident privileges. A valid student ID must be presented when applying for privileges.

**International Customers**
Upon presentation of a passport or any international government issued documentation, an international customer may purchase hunting and fishing licenses without having to provide a social security number. Nonresident license fees apply.

**Nonresident**
Nonresident is a person who does not meet the definition of resident.

**License in Possession**
All licenses, permits, stamps and tags must be in possession of license holder while engaging in activities for which license documents were issued. Identification indicating name and address must also be in possession of privilege holder. Persons hunting on their own lands are required to have all applicable licenses, permits, stamps or tags in their possession.

**License Duration**
Annual recreational hunting and fishing licenses are valid for one year from the date of purchase. 3 year recreational hunting and fishing licenses are valid for three years from the date of purchase.

**Hunting tags** (deer, bear and turkey) migratory bird permits, migratory waterfowl permits, nonresident alligator hunting fees and shooting preserve permits are valid for the season indicated on your license. Commercial licenses and nongame fish tags are valid from July 1, 2020 through June 30, 2021.

It is the responsibility of each person engaging in any hunting or fishing activity to verify they have a valid license, permit, or tag for that activity. Privileges for various licenses may expire on different dates if not purchased at the same time.

**Duplicate Licenses**
Duplicate licenses are issued upon affidavit from the licensee that the original license was lost or destroyed and payment of a $3.00 fee. Duplicates are available at all license sales vendors and SCDNR license offices. Duplicate/replacement tags are issued only through SCDNR offices. No duplicates are issued for federal duck stamps; a new stamp must be purchased.

**Hunter Education Requirements**
All residents and nonresidents, born after June 30, 1979, must successfully complete a SCDNR-approved hunter education course and present the certificate of completion before a hunting or combination license can be obtained.
SCDNR accepts hunter education certifications issued by other states in the United States and Canadian provinces. If you have a certification from another state, your certification meets the hunter education requirement in SC.
A hunter education card alone is not a valid hunting license. For more information on hunter education, call 803-734-3995 or 1-800-277-4301. See page 112.

**Apprentice Hunting License**
Hunting license applicants who do not have a hunter education certification may use a one time exemption and apply for an annual Apprentice Hunting License. The apprentice hunter must be accompanied by a SC licensed hunter who is not licensed as an apprentice hunter, is at least 21 years of age, has not been convicted of a hunting or hunter education violation or received deferred adjudication of the same, and stays within a distance that enables uninterrupted, unaided, visual and oral communication with the apprentice hunter and provides adequate direction to the apprentice.
If the holder of an apprentice license obtains a hunter education certification prior to the expiration of his apprentice hunting license, his apprentice hunting license will be used as his statewide hunting license. The licensee must have the hunter education certification in his possession while hunting.

**Saltwater Fishing License**
A Saltwater Fishing License is required when harvesting marine resources, including finfish, oysters, clams, shrimp, and crab. A saltwater recreational fishing license is required unless fishing on a licensed public fishing pier; fishing on a licensed charter vessel while under hire; using 3 or fewer drop nets, 3 or fewer fold-up traps, or 3 or fewer handlines with no hooks and single bait per line (chicken necking); or shrimp baiting (which requires a shrimp baiting license).
**Freshwater Fishing License**
A Freshwater Fishing License is required unless you are fishing in a privately-owned pond. A license is not required when fishing in a commercial pay pond that is permitted by SCDNR.

**Georgia & South Carolina Reciprocal License Agreement**
All channels of the Savannah River, from its mouth to the confluence of the Tugaloo and the Seneca rivers, and the Chattooga River to the boundary line between Georgia and North Carolina are included in an agreement between Georgia and South Carolina to use valid freshwater sportfishing licenses and permits that have been issued by either state.

This agreement also applies to the following impoundments: Thurmond, Russell, Hartwell, Yonah, Tugaloo, Stevens Creek and the New Savannah Bluff Lock and Dam, but not to any tributary streams to those impoundments nor tributary streams to the Savannah, Tugaloo and Chattooga rivers.

All persons holding a valid license from Georgia or South Carolina will be allowed to fish in the waters covered by this agreement.

**NOTE:** Contact Georgia DNR Wildlife Resources Division at 770-918-6406 for information on Georgia size and catch limits or visit www.georgiawildlife.com.

**Migratory Bird Permit**
A harvest information permit survey must be completed to obtain the Migratory Bird Permit. This permit is required of those age 16 and older hunting migratory birds in the state. Hunters 64 years of age or older who hold a SCDNR lifetime hunting, lifetime combination, Senior license, or Gratis license are not required to obtain a migratory bird permit.

**Migratory Waterfowl Permit**
A Migratory Waterfowl Permit, in addition to a state hunting license, migratory bird permit and Federal Duck Stamp, is required of those age 16 and older hunting waterfowl (brants, ducks and geese) in the state. Hunters who hold a SCDNR lifetime migratory waterfowl permit, Federal Duck stamp, Senior license, Gratis license, Catawba license or Disability license do not need to obtain an annual migratory waterfowl permit, the migratory waterfowl permit is included in each of these licenses.

**Tag Requirements**
All age groups are required to obtain and possess special tags when engaged in the following activities: hunting deer, hunting bear, hunting turkey, using non-game fish devices or taking shrimp over bait.

**Youth Requirements**
No child under 16 years of age is required to obtain a hunting or fishing license. If a child engages in the taking of game or fish for commercial purposes or possesses any non-game fishing devices, all licensing requirements apply. Youth are required to have tags for deer, bear and turkey except on designated youth days.

**Senior Lifetime License**
A person who has been a resident of SC for 180 days or longer and has reached the age of 64 may apply for a Lifetime License for $9.00. The license is valid for Freshwater Fishing, Freshwater Set Hook, Saltwater Fishing, State Hunting, Big Game, WMA and Migratory Waterfowl. No tags are included with this license. Tags must be requested annually.

Available at participating dealers. While supplies last. Equipment pictured may not be an accurate representation of model included in the price of packages.
To better serve our customers, the SCDNR offers a variety of services online at www.dnr.sc.gov

- From the convenience of your personal computer or smart phone, you can purchase your hunting or fishing license, permits or tags, apply for a lottery hunt or renew your watercraft registration.
- You may hunt or fish immediately using your SC.GOV order number. Hunting tags, nongame fish tags and shrimp licenses must be in your possession before participating in the activity.
- You may operate your boat for up to 10 days with a copy of your online purchase receipt.
- Licenses, tags and watercraft renewal decals will be mailed within 2 to 3 business days after your purchase.

When a license is purchased online or through the call center a transaction or sc.gov order number is given to the purchaser. That number is only valid for 14 days. A hard copy of the license, permits and/or tags will be mailed within 3-5 business days. If tags are purchased, they must be in your possession before the privilege can be used.

The online service provider, SC.GOV, charges a $3.00 fee per transaction.

Freshwater Game Fish

Freshwater game fish are: Bream: bluegill, flier, green sunfish, pumpkinseed, redbreast, red-ear (shellcracker), spotted sunfish, warmouth; Black Bass: largemouth bass, smallmouth bass, spotted bass, redeye bass (coosa bass); striped bass or rockfish; white bass; hybrid striped bass; white crappie; black crappie; Trout: rainbow, brown and brook; chain pickerel (jackfish); redfin pickerel; sauger, walleye and yellow perch.

Methods and Devices

• Game fish may be caught with only hook and line, pole, artificial pole, or rod and reel. Not more than 4 of these devices may be used by any fishermen at the same time, except when fishing in a boat. An unlimited number of lawful fishing devices may be used if all persons in the boat sixteen years and older have valid fishing licenses.

• Cast nets for catching nongame bait fish may be in possession while fishing for game fish.

• No game fish may be used as bait to catch fish recreationally except for bream (excluding redbreast). Trout may be used as bait only on Lakes Hartwell, Russell, Thurmond, Tugaloo, Yonah, Stevens Creek Reservoir and the Savannah River. When using game fish as bait to catch fish recreationally they must be included in the daily creel limit.

Seasons

No closed freshwater game fish season except in the following areas:

• Striped bass have exceptions, see Freshwater Fish Size and Possession limits page 24

• All watercraft and fishing are prohibited Nov. 1 through Feb. 28 on Cantey Bay, Black Bottom and Savannah Branch in Lake Marion.

• Hatchery WMA on Lake Moultrie is closed to fishing each Saturday until 12:00 noon and all day the last Saturday of the waterfowl season.

• Potato Creek Hatchery Waterfowl Area is closed to public access and fishing one week prior to and two weeks after the Federal Waterfowl Season.

Prohibited Practices

• Game or nongame fish may not be taken by explosives, electrical devices, poison or similar means.

• Except for bait lost while fishing and fish released back to waters where they were caught, it is unlawful to intentionally release any aquatic species, including bait, regardless of the stage of its life cycle, into the waters of this State without a permit from SCDNR.

• Native freshwater mussels cannot be taken without a permit from SCDNR, except for Asian clams also known as Corbicula. Contact the Freshwater Fisheries Section at 803-734-3891 for a permit.

• It is unlawful to take, harm, or kill grass carp from public waters. Any grass carp taken must be returned immediately to the water from which it was taken.

• It is unlawful to use any nonindigenous fish as bait that is not already established in the water body being fished except the following minnows: fathead minnows, golden shiners, and goldfish, including ‘black salties’.

• Retaining blue crabs caught in the freshwater of the state is prohibited; any blue crabs caught must be returned to the waters immediately.

Selling and Importing

• No freshwater game fish may be sold in this state except by a SCDNR permitted aquaculturist, a SCDNR wholesale aquaculture licensee, a SCDNR aquaculture game fish retail licensee or a private pond owner selling less than $2500 in product annually.

• It is illegal to possess, import or sell any fish species that is not native to SC waters without a SCDNR permit.

• Sterile grass carp may only be sold, purchased or possessed under a SCDNR permit.

What are Aquatic Invasive Species?

- Non-native organism that lack natural predators or disease that help keep their growth in check. These species typically reproduce rapidly and negatively impact waterways and native aquatic organisms.

Aquatic Invasive Species Laws

- Anyone caught spreading nuisance aquatic weeds, intentional or unintentional, can be fined up to $500 and/or imprisoned.

- Except for research or under a permit, it is not lawful to possess, sell or place into any waters many water plants including hydrilla, water hyacinth, water lettuce, giant Salvinia, and any other plant on the state or federal Noxious Weed List.

- Except bait lost incidental to fishing or fish released into the waters from which they were taken, it is unlawful to intentionally release any aquatic species, regardless of the stage of its life cycle, into the waters of this State without a permit from the department. It is unlawful to use any nonindigenous fish as bait that is not already established in the water body being fished except the following minnows: fathead minnows, golden shiners, and goldfish, including 'black salties'. A person who is guilty upon conviction of either of these may be fined a minimum of $500 and/or 30 days in jail.

- A person may not possess, sell, offer for sale, import, bring, or cause to be brought or imported into this State or release anywhere in this State the following species at any stage of its life cycle: carnero or candiru catfish, freshwater electric eel, white amur or grass carp, walking catfish, piranha, stickleback, Mexican banded tetra, sea lamprey, rudd, snakehead, rusty crayfish, and other nonindigenous species. SCDNR may issue special import permits to qualified persons for research and education only. A person violating this provision may be fined a minimum of $500 and/or 30 days in jail.

- It is unlawful to take, harm, or kill grass carp from public waters. Any grass carp taken must be returned immediately to the water from which it was taken. Anyone convicted of doing so may be fined a minimum of $500 and/or 30 days in jail. Sterile grass carp may only be sold, purchased or possessed under a SCDNR permit.

What You Can Do to Help!

- Remove any visible mud, sand, plants or plant fragments from your boat, wading gear, clothing and or fishing equipment before leaving a body of water to prevent transporting any potential hitchhikers.

- Eliminate all water from your motor, live well, boat hull, gear and clothing.

- Don’t dump your bait bucket! Dispose of live bait properly in a trash receptacle or on one’s compost heap. Not only is it illegal, but live bait introduced into a system can introduce disease to an aquatic ecosystem.

- Dispose of shrimp parts and oyster shells properly. Shrimp heads and shells need to be disposed of in the trash and not thrown in the water because non-native shrimp parts can also spread disease. Oyster shells can be taken to a nearby recycling facility.

- Wading gear can be cleaned by allowing it to dry 100% and remain dry for 5 days before using it again or dip the gear in a 3% bleach solution, rinsed well and allowed to dry thoroughly. Instead of a bleach solution, anglers can instead soak waders in a 100% vinegar solution or a 1% salt solution for 20 minutes.

- Pets allowed to swim should be rinsed, towel dried and brushed well after each fishing or wading trip.

- Never release plants, fish or animals into a body of water unless that is the water body from which they came. Taking time to prevent the spread of aquatic hitchhikers will help assure the resources are protected from harmful, exotic species and save millions of public and private dollars in control costs!

Habitat Improvement Ups Your Chance of Landing the Big One

Catching a fish sometimes isn’t as simple as dropping your line in the water. The aquatic habitat has to be suitable for popular game fish to find shelter, food and spawning grounds. “Fish Attractors” utilize recycled Christmas trees and other brush to create underwater diversity. Habitat enhancement in major South Carolina freshwater bodies has been an ongoing effort to provide improved fish habitat and fishing opportunities.

Habitat improvement takes place from the shoreline out to deeper waters marked by buoys. Long-term enhancement along the shoreline includes live plantings, which can help reduce erosion and create a natural habitat. More fish-friendly improvements include gravel and rocks to create spawning grounds.

Funding from a Natural Resource Damage Assessment is supporting a large scale habitat enhancement project at Lake Hartwell. Many of the techniques mentioned above were used at Lake Hartwell. The first site, a cove adjacent to the Cherry Farm at Clemson University, was completed in 2015. Twelve additional sites are currently being evaluated for the next phase of the project.

A recent joint project between the Santee Cooper Public Service Authority, Santee Cooper Promotions Board and the Department of Natural Resources brings new freshwater artificial reefs to Lake Moultrie and Lake Marion. Concrete structures were donated by Concrete Pipe & Precast of North Charleston and General Pre Cast manufacturing Company of Moncks Corner. The concrete fish attractors differ from the brush piles, which are typically used in the lakes, in that they will provide more diverse and long lasting habitat. Each site is marked with a buoy and will provide better fishing opportunities for anglers not familiar with the lakes.

To find out more information and view maps of habitat restoration visit: http://www.dnr.sc.gov/fish/fishattract/fishattr.html
The Lowcountry is a place. A beautiful, wonderful, historic place - but it's also an experience. One that is the the opposite of expected. And a far cry from the everyday. Come see why all of this and so much more just comes naturally here.

Redeye Bass Species Profile

South Carolina has two native black bass. Most are familiar with the well-known largemouth bass which is native statewide. The other is the lesser known redeye bass, also referred to as Bartram’s bass. It is the only ‘shoal loving’ black bass native to South Carolina and occupies an important ecological niche in the streams where it is found as a top predator.

The redeye bass is a species of Highest Conservation concern in the South Carolina Wildlife Action Plan. Threats facing this native bass are primarily from introduced species. The redeye will hybridize with smallmouth and spotted bass. The offspring typically have traits of both parents. The unauthorized release of spotted bass (Alabama bass) into the reservoirs of the upper Savannah Basin has led to the spread of that species throughout that system. The impact of this non-native species to redeye bass has been catastrophic in those reservoir habitats. Most recent survey work done by the South Carolina Department of Natural Resources has shown that through hybridization between the two species, redeye bass have been eliminated from Lakes Keowee and Russell and are in sharp decline in Jocassee and Hartwell. Except for isolated tributary streams separated from reservoirs, pure redeye populations may no longer exist.

The continued presence of redeye bass in South Carolina depends on populations in their native Piedmont streams. Movement of spotted and smallmouth bass from one body of water to another presents the greatest current threat to redeye bass. Conserving the current populations and their habitats is critical to the continued existence of this unique native fish. You can help conserve redeye bass and other native species by following the law and never releasing aquatic organisms into waters other than that from which they were caught. Also remember, it is unlawful to release your bait bucket contents unless the bait was collected from the waterbody that you are fishing. Please be responsible when fishing with live bait.

The redeye bass is valued not only as a species of concern, but also because it is an excellent game fish. It is a hard fighting fish and even small individuals are a lot of fun to catch on light tackle. The unique angling opportunities of redeye bass offer an exciting fishing experience in some of South Carolina’s most scenic settings. Fly fishing for redeye on the Chattooga River has become popular in the summer months. Wading or paddling any of the beautiful Piedmont streams where this fish is found is a great way to spend time outdoors. Please review the regulations for redeye bass and all game fish before fishing (black bass found on page 29).

Quick Stats
Redeye Bass (Bartram’s Bass)
Micropterus coosae

- Identification: The eyes are sometimes, but not always red. Slender bronze-olive body that fades into white on the belly, dark distinct lateral blotches or bars along the side typically numbering twelve or less and horizontal rows of spots on the lower side, which can vary from black to pale green in color. Distinguishing white edges along the upper and lower edges of the caudal (tail) fin. The mouth is large and extends to the rear edge of the eye, but not beyond. Teeth are usually present on the tongue. Often has turquoise coloration around the gill and eye.
- Range: Northwestern parts of the state, primarily in the Savannah river basin, it is also present in tributaries of the upper Saluda and Broad river in the Santee basin.
- Habitat: Small to moderate size upland streams in riffles or pools with some flow, some lakes around rocky substrates. Appear to prefer shoal habitats and generally associated with cool water streams
- Average Length and Size: 6-9 inches and 6 oz.–1 lb.
- Food Preferences: Terrestrial insects, crayfish, small fish, salamanders and aquatic insects
- Similar Species: Largemouth, smallmouth and spotted bass.
- Threats: Hybridization with non-native species, primarily spotted bass and smallmouth bass, and the expansion of the range of non-native species in South Carolina. Increase in water temperature and poor water clarity from loss of surrounding vegetation and tree coverage.

What is illegal dumping?

Dumping waste on public or private property that is not licensed or permitted to receive waste; dumping waste, without a license or permit, into sewers or waterways; or allowing another to dump waste on one’s land, without being licensed to receive such waste.

The fine for illegally dumping is up to $1,000 with a year in jail, plus removal of the dumped litter, responsibility for any damages, as well as community service.

What can we do to stop illegal dumping?

To help crack down on illegal dumping, cities and counties are using video surveillance to catch offenders in the act. PalmettoPride has a Camera Loan Program offering enforcement officers the necessary tools to keep an eye on hot spots in their jurisdiction.

“Just because it’s forest lands does not mean no one cares about it. Forestry lands have a $21.2 billion impact in South Carolina and littering can impact the sale of timber, hunting leases and the natural beauty of the forest. Please do not litter and report anyone you see littering or illegal dumping,” said Steve Ward, SC Forestry Commission law enforcement officer.

Cities and counties are also enforcing South Carolina Litter Laws to make sure that offenders know illegal dumping is an issue they won’t tolerate.

“The responsibility to keep our forests and waterways clean for future generations to enjoy lies with YOU. You are a piece of the puzzle that ensures the wildlife in our forests and the fish in our waterways can thrive without pollution,” said Donna Thomas, Dorchester County enforcement officer.

Report It

PalmettoPride sponsors a statewide Litter Busters Hotline so you can report littering and illegal dumpsites, call 877-7LITTER and report the location, time and South Carolina state license plate number. Citizens can also access an online reporting form or a free Litter Busters app to report tire piles.

For more information about illegal dumping issues in your community or PalmettoPride, visit their website at www.palmettopride.org.
The Aquatic Education Section of SCDNR offers FREE education programs on recreational fishing techniques, opportunities and angler ethics.

Here are some of the unique, fun fishing and learning opportunities available:

**Family Fishing Clinics**
Family Fishing Clinics are an introductory class to fishing. Families with kids ages 4 and up can learn how to tie fishing knots, rig a rod and reel, cast and try their hand at fishing.

**Fishing Tackle Loaner Program**
The tackle loaner program has sites all around the state in various state and county parks that allow adults, kids and families to try their hand at fishing. Checking out a rod, reel and tackle is free. Bring your own bait and pay the park entry fee and the fishing fun is free!

**Youth Fishing Rodeos**
Fishing Rodeos are designed to provide youth with opportunities to catch fish and spend time with family outdoors. Rodeos are recommended for kids ages 5-15 years old.

**Trout in the Classroom**
Teachers Take Note! Expose your students to a world of wonder. Let your students raise trout from eggs to fingerlings.

**Youth Bass Fishing Clubs**
The SCDNR, The Bass Federation of SC and B.A.S.S. have teamed up to help bring youth bass fishing clubs to schools around the state. Students can establish school bass fishing clubs to compete for prizes, scholarships and more on a club, state and national level.

To learn more about these education programs, visit [www.dnr.sc.gov/aquaticed](http://www.dnr.sc.gov/aquaticed) or call 803-737-8483 or email aquaticed@dnr.sc.gov

MEASURING A FISH

How to Properly Measure a Freshwater Fish

TL = total length measure; Tip of snout with mouth closed to tip of tail. Tail should be pinched. All freshwater fish species in the state of South Carolina are measured using total length. Some saltwater species are measured with fork length.
### GAME FISH SIZE & POSSESSION LIMITS

**STRIPED, WHITE & HYBRID BASS**

- A total of 40 game fish may be kept in any one day. This total shall not exceed more than the limits or exceptions listed below. Any game fish or species with a size limit listed must be landed with head and tail fin intact. All freshwater fish species in the state of South Carolina are measured using total length. Special limits and regulations apply to SCDNR managed lakes.

- Check with state parks, city reservoirs or county parks for special limits and regulations that apply to those areas.

**White Perch**
A. Dorsal fins joined by a membrane.
B. No tooth patches on tongue.
C. Body deepest in front of 1st dorsal fin.
D. No stripes present or only faintly striped on lower body only.
E. 2nd spine almost equal the length of 3rd spine.

**Striped Bass**
A. Dorsal fins not joined.
B. Back of tongue has 2 distinct tooth patches.
C. Body slender, less than 1/3 length.
D. Stripes distinct, sometimes broken, several extend to tail.
E. 2nd spine 1/2 the length of 3rd spine.

**White Bass**
A. Dorsal fins not joined.
B. Back of tongue has 1 tooth patch.
C. Body deep, more than 1/3 length.
D. Stripes faint, only 1 extends to tail.
E. 2nd spine 2/3 the length or more of 3rd spine.

**Hybrid Bass**
A. Dorsal fins not joined.
B. Back of tongue has 2 distinct tooth patches.
C. Body deep, more than 1/3 length.
D. Stripes distinct, usually broken, several extend to tail.
E. 2nd spine 2/3 or more the length of 3rd spine.

**WHAT IS AN ARTIFICIAL LURE?**

**Artificial lure:** means manufactured or handmade flies, spinners, plugs, spoons, and reproductions of live animals, which are made completely of natural or colored wood, cork, feathers, hair, rubber, metal, plastic, tinsel, styrofoam, sponge, or string, or any combination of these materials, in imitation of or as substitute for natural bait. Lures or fish eggs enhanced with scents or salts are not artificial lures. Artificially produced organic baits are not artificial lures.

Freshwater Nongame Fish

Freshwater nongame fish are any freshwater fish species not classified as game fish.

General Information

- Nongame fish may be taken with any lawful nongame fishing device. Nongame fish may also be taken with hook and line. A fisherman may only use four rods and reels. A fisherman fishing from a boat may use an unlimited number of rods and reels if all persons in the boat 16 years and older have valid fishing licenses.
- Nongame fishing permits and tags may be purchased from SCDNR only. Applications may be obtained at www.dnr.sc.gov or by calling 803-734-3833.
- Nongame fishing permits and tags are required, in addition to a valid South Carolina fishing license, to take nongame fish. This requirement applies to all freshwater except lakes owned or managed by the DNR to take nongame fish. This requirement applies to all freshwaters of the state inland of the saltwater-freshwater dividing lines, except privately-owned ponds.
- With a valid South Carolina fishing license and no additional tags or permits, archery equipment, cast nets, crayfish traps (5 or less), gills, hand grabbing, minnow seines, minnow traps and spears may be used in freshwaters except lakes owned or managed by the DNR to take nongame fish. This requirement applies to all freshwaters of the state inland of the saltwater-freshwater dividing lines, except privately-owned ponds.
- Nongame fishing devices are not allowed in certain waters. The maximum number of devices allowed per area is shown in the Nongame Device Limits by Location (See page 24).
- A tag must be attached to the device for which it was issued, and each permit and tag identification receipt must be in the licensee’s possession while engaging in the activity.
- On Lakes Marion and Moultrie and the Congaree, Wateree and Rediversion Canal (which is 20 shad per person per day), may be used in freshwaters except lakes owned or managed by the DNR to take nongame fish. This requirement applies to all freshwaters of the state inland of the saltwater-freshwater dividing lines, except privately-owned ponds.
- Native freshwater mussels cannot be taken without a permit from the Department of Natural Resources. The non-native Asian clams, Corbicula, also known as Corbicula may be taken. Contact the Freshwater Fisheries Section at 803-734-3891 for permit.
- Game fish must be immediately released if caught by net or trap or any other device used for catching nongame fish.
- Federal law requires passenger for hire service operating on U.S. navigable waters to comply with minimum federal safety and personnel licensing laws and regulations. Vessels that are carrying paying passengers must have a Captain that is USCG Licensed/USCG Vessel Inspected. Please contact USCG for more information 1-888-427-5662.

Shad/Herring

Includes American and hickory shad and blueback herring.

- To take shad for recreational purposes by hook and line, cast net, or skimbow net in waters of the state, a person must have the appropriate freshwater or saltwater recreational fishing license.

Commercial Fishing

- A commercial freshwater fishing license must be possession to take nongame fish by any method from public waters and sell and offer for sale such nongame fish, and/or fish with the following nongame fishing devices:
  - 6 or more crayfish traps
  - 3 or more eel pots
  - 2 or more hoop nets
  - 3 or more traps, or

- American shad and herring may be harvested by skimbow net from February through April. Only 10 shad per person per day or 1 US bushel of herring per person per day, except in the Santee River and Rediversion Canal (which is 20 shad per person per day), can be harvested. Gill nets are allowed to harvest American shad and herring for commercial use. If fishing gill nets recreationally, one must adhere to the recreational limits.
- It is unlawful to possess saltwater or freshwater game fish or fishing tackle capable of taking saltwater or freshwater game fish while taking or attempting to take shad or herring with gillnets.
- It is unlawful to take shad by hook and line or by skimbow net while operating or possessing any commercial fishing equipment for taking shad or herring.
- Herring fishery area closures: Herring fishery closed in the Savannah River seaward of the Augusta Diversion Dam. All rivers in the Winyah Bay River System (which are all waters of Winyah Bay east of a line running south from the southern tip of North Island to the eastern tip of Sand Island, and extending to the mouths of the Sampit, and Waccamaw Rivers) are closed to herring fishing, except for the Great Pee Dee River.
- Herring fishing is prohibited within one hundred feet of the fish lift exit channel at St. Stephens Powerhouse.
- The Sampit, and Waccamaw Rivers) are closed to herring fishing, except for the Great Pee Dee River.
- See detailed shad & herring info on page 33.

Markers & Identification of Nongame Devices

- Trotlines, traps, eel pots, Gill nets, and hoop nets must be marked with a white floating marker not less than a capacity of one quart and not more than a capacity of one gallon and must be made of solid, buoyant material that does not sink if punctured or cracked. A floating marker must be constructed of plastic, PVC, foam, or cork. A hollow buoy or float, including plastic, metal, or glass bottles or jugs, must not be used, except that a manufactured buoy or float specifically designed for use with nongame fishing devices may be hollow if constructed of heavy duty plastic material and approved by the department. The owner’s name and department customer identification number must be legible on each of the white floating markers. Both com-
mmercial and recreational fishermen shall comply with provisions of this title pertaining to the marking and use of a nongame fishing device. A trotline must be marked on both ends.

- A commercial trotline must be marked at intervals of every 50 hooks. A commercial trotline which uses fifty or fewer hooks must be marked at intervals of 25 hooks. A recreational trotline must be marked at intervals of every 25 hooks. Each interval float must be ‘International Orange’ in color.

**Bait**

- No game fish (except bream, excluding redbreast, cut into two or more equal parts), live bait or any bait other than bait listed below shall be used with trotlines, set hooks and jugs: soap, doughballs, shrimp, grapes or meat scraps (which may not include insects, worms and other invertebrates).

  » On the Edisto, Black, Sampit, Great Pee Dee, Little Pee Dee, Lumber, Lynches and Waccamaw Rivers, live nongame fish and bream, excluding redbreast, may be used with single-barbed set hooks that have a shank-to-point gap of fifteen-sixteenths inches or greater.

  » On the Black, Great Pee Dee, Little Pee Dee, Lumber, Lynches and Waccamaw rivers, live nongame fish and bream, excluding redbreast, may be used on trotlines having not more than 20 hooks with a shank-to-point gap of fifteen-sixteenths inches or greater.

- However, it is unlawful for a person to have in possession more than the lawful creel limit of bream while fishing with nongame devices on these rivers.

- There are no restrictions on the type of bait permissible in traps or eel pots, except that no game fish or parts thereof shall be used as bait.

- Except for bait lost while fishing, it is unlawful to intentionally release any aquatic species, including bait, regardless of the stage of its life cycle, into the waters of this State without a permit from the SCDNR.

- It is unlawful to use any nonindigenous fish as bait that is not already established in the water body being fished except the following minnows: fathead minnows, golden shiners, and goldfish, including ‘black salties’. Except for bream (other than redbreast), no other game fish is allowed to be used as bait, provided, trout are allowed to be used as bait only on Lakes Hartwell, Russell, Thurmond, Tugaloo, Yonah, Stevens Creek Reservoir, and the Savannah River. When using game fish as bait to catch fish recreationally they must be included in the daily creel limit.

- There are no restrictions on the type of bait permissible in traps or eel pots except that no gamefish or parts thereof shall be used as bait.

**Prohibited Areas**

- No nongame fishing devices of any kind may be used in SCDNR State Managed Lakes.

**Prohibited Practices**

- Possession or use on the freshwaters of this state of any device or gear designed or used to catch nongame fish not authorized by law is prohibited. Nongame fish may not be taken by explosives, electrical devices, poison or similar means.

- Possession of game fish or tackle designed to catch game fish is prohibited while fishing traps, trotlines, or other nongame fish devices except cast nets.

- It is unlawful for any person to tamper with, fish, or use in any manner the nongame fishing device or gear owned and tagged by another person, or to take from any such device or gear, any fish caught therein. No fishing device shall be used, placed, set or fished so as to create a hazard to boating.

- No trotlines, traps or eel pots shall be placed within 200 yards of any permanent man-made structure on Lakes Marion and Moultrie nor placed anywhere in the Diversion Canal connecting Lakes Marion and Moultrie, the Tailrace Canal nor the area known as the Borrow Pit (also known as “Bar Pit”) in Clarendon County.

- Nongame devices, such as set hooks, may not be attached or secured to any vegetation or structure on the Congaree National Park property bordering the Wateree or Congaree Rivers. Rules and regulations concerning the Congaree National Park may be obtained from the National Park Service at 803-776-4396 or at [www.nps.gov/cong](http://www.nps.gov/cong).

- A dip net is not a legal device for taking nongame fish.

**Penalties**

- The boat, motor, fishing gear and fish of any person who is charged with unlawfully fishing, using or having in possession a gill net or hoop net on any freshwater lake or reservoir shall be confiscated.

- Any person who tampers with any non-game fishing device with intent to damage or to make it ineffective for the purpose of taking fish shall be fined not less than $100 nor more than $200 or imprisoned for not more than 30 days, and for stealing a device or fish caught in the device shall be fined not less than $500 nor more than $1,000 or imprisoned for not more than 6 months or both.

- Upon the conviction of any commercial freshwater fisherman of illegal possession of game fish or the sale or traffic in game fish, SCDNR shall suspend such person’s license or privilege to fish in this state for a period of one year.
NONGAME FISH TAGS UPDATED REGULATIONS

Updated regulations and information are provided when nongame fish tags or permits are issued. Tags, permits and commercial freshwater fishing licenses are available by visiting any regional SCDNR Office, through the internet or by writing to: SCDNR-License Section, PO Box 167, Columbia, SC 29202-0167 or calling 803-734-3833. Nongame fish tags are issued at each Regional SCDNR office. Tags purchased through the internet or by mail are mailed from the Columbia office and the privilege is not valid until the tag is received by the licensee.

A fishing license is required of all persons who fish nongame fishing devices. Some devices are not permitted on certain waters. See page 44, Nongame Device Limits by Location.

Gill Nets
(Not for shad and herring; see page 43).

Description
Nets must have a mesh size not less than 4-1/2 inches stretch mesh. The maximum length is 100 yards in the freshwater and no net, cable line or other device used for support of a gill net may extend more than halfway across any stream or body of water. Nets must be marked with a white floating marker (see Markers and Identification of Nongame Devices on page 55).

Permits/Regulations
A gill net tag is required. A gill net may be placed in the freshwaters of this state. A gill net may not be placed within 200 yards of another gill net. Along the Little Pee Dee River upstream of Punch Bowl Landing, no net may be set within 75 feet of a gill net previously set or drifted within 75 feet of another drifting net. Nongame fish taken in shad nets lawfully fished during the open season for taking shad may be kept. A sturgeon caught must be returned immediately to the waters from where it was taken.

Hours/Seasons
The season for taking nongame fish other than American shad and herring in the freshwaters of this State with a gill net is from Nov. 1 to Mar. 1 (where authorized) on Wednesdays, Thursdays, Fridays, and Saturdays only.

Hoop Nets

Description
Nets made of textile netting (no wire) of a mesh size between 1 and 2 inches square enclosing a series of round hoops with two or more muzzle openings made of a netting material. The maximum size net allowed is 16 feet by 5-1/2 feet. Hoop nets must be marked with a white floating marker (see Markers and Identification of Nongame Devices on page 55).

Permits/Regulations
A hoop net tag is required. Hoop nets must rest on the bottom and cannot be placed within 100 feet of the mouth of any tributary stream.

Hours/Seasons
No closed season.

Traps

Description
A permit is required to fish up to 50 jugs (50 jug limit). A licensee's name and customer ID number must be clearly marked on each jug. Jug fishing is legal only in lakes Greenwood, Hartwell, Scesson, Russell, and Thurmond and Stevens Creek Reservoir. A jug permit is not required for residents assisting jug permit holders. Jugs must be marked with name and customer ID number (see pages 53-55).

Hours/Seasons
Must be removed from the water before one hour after official sunrise each day and not replaced prior to one hour before official sunset.

Jugs

Description
A single hook and line attached to a free-floating device with a minimum capacity of one pint and a maximum of one gallon. May not have more than one line.

Permits/Regulations
A permit is required to fish up to 50 jugs (50 jug limit). A licensee's name and customer ID number must be clearly marked on each jug. Jug fishing is legal only in lakes Greenwood, Hartwell, Scesson, Russell, and Thurmond and Stevens Creek Reservoir. A jug permit is not required for residents assisting jug permit holders. Jugs must be marked with name and customer ID number (see pages 53-55).

Hours/Seasons
No closed season.

Eel Pot Description
Pots no larger than 24 inches by 48 inches and constructed of wire with a mesh size no smaller than 1/2 by 1/2 inch, except for the throat or muzzle and the end opposite the throat or muzzle. The throat opening shall not exceed 2 inches measured in any direction. The sides, top and rear of the trap shall have a minimum of one inch opening between the slats to allow for the escape of small catfish. This shall apply only to the last 12 inches of the trap.

Permits/Regulations
A tag is required for each trap or eel pot. A permit is required for the harvest of eels in both freshwater and saltwater. Traps and eel pots may be suspended in water at a depth which does not create a hazard to watercraft. No trap or eel pot shall be placed within 100 feet of the mouth of any tributary stream. No crab pot or trap of like design may be used in the freshwaters of this state.

Hours/Seasons
No closed season.

Trotlines

Description
Two or more hooks attached to a line which is rigged horizontally and marked with a
white floating marker. Stainless steel hooks are prohibited statewide. Hooks used in Lakes Marion and Moultrie ONLY must measure 7/16 inch or less between point and shank.

On the Black, Great Pee Dee, Little Pee Dee, Lumber, Lynches (including Clarks, Mill and Muddy Creeks) and Waccamaw rivers, live nongame fish and bream, excluding red-breast, may be used on a trotline having not more than 20 hooks with a shank-to-point gap of fifteen-sixteenths inches or greater. However, it is unlawful for a person to have in possession more than the lawful creel limit of bream while fishing with nongame devices on these rivers. (See Markers and Identification of Nongame Devices on page 325).

Permits/Regulations
A tag is required for each trotline with up to 50 hooks. Trotlines with more than 50 hooks require a tag for every 50 hooks or less. No trotline shall be attached in any manner to another trotline or to the support or float of another trotline. No trotlines allowed within 100 feet of the mouth of any tributary stream.

Hours/Seasons
Trotlines must be inspected and fish removed at least every 24 hours. From Apr. 1 to Oct. 1, no trotline is permitted in any waters from one hour after official sunrise to one hour before official sunset, unless the trotline is sunk to the bottom or a minimum depth of four feet below the surface. From Oct. 2 to Mar. 31, trotlines may be left in the water 24 hours per day at any depth.

Other Devices
Crayfish Trap
A device constructed of coated wire with the opening of the throat or flues not exceeding 2 1/4 inches with a minimum mesh size of 1/4 inch bar mesh. All crayfish traps must be marked with the name and customer ID number. These traps only may be used in those bodies of water permitted. A commercial fisherman may fish up to fifty crayfish traps. A recreational fisherman may fish up to five crayfish traps.

Minnow Seine
Must not be greater than 4 feet in depth by 20 feet in length with a mesh size of not more than 1/4 inch square mesh. It is unlawful to have in possession a minnow seine from 10 PM to official sunrise. Must be marked with name and customer ID number.

Minnow Trap
A cylindrical device not longer than 24 inches and no more than 30 inches in circumference or a rectangular device not larger than 24 inches long, 8 inches high, and 9 inches wide. The mesh must be no smaller than 1/4 inch bar mesh. The throat opening of the funnel of the trap may not exceed 1 inch in diameter. All minnow traps must be marked with the user’s name and customer ID number. A minnow trap may be fished with a recreational license only, with a limit of 5 for each person, and must not be fished for commercial purposes.

Seine
A net having a stretch mesh of not less than 1 inch and not more than 1-1/2 inches which does not exceed 75 feet in length or 6 feet in depth. It shall be unlawful to anchor a seine and leave it unattended.

Skimbow Net
A hand-operated dip net with the bow constructed of wood with wire or textile netting with a mesh size not greater than 1-1/2 inches square. The bow shall not exceed 14 feet in any direction and may be used only from Feb. 1 through Apr. 30 for shad or herring. A skimbow net can only be fished from a boat and used only for recreational fishing.

Dip Net
A dip net is not a legal device for taking nongame fish.

---

CUSTOMER ID NUMBER

To find your customer identification number, please see the number in the lower left hand corner of your SCDNR issued license.

- Trotlines: 5 lines with 250 hooks maximum
**Commercial Devices**
- Eel Pots: 75
- Gill Nets: nongame nets in season
- Set Hooks: 50
- Traps: 2
- Trotlines: 5 lines with 250 hooks maximum
SHAD & HERRING FISHING REGULATIONS

Applies to American and hickory shad and blueback herring only

**SHAD GILL NET**
A gill net used for taking or attempting to take shad in the inshore saltwaters must have a stretched mesh size of no smaller than 5-1/2 inches and a length not exceeding 900 feet. A gill net used for shad in the freshwaters must have a stretched mesh size of no smaller than 5-1/2 inches and be no longer than 600 hundred feet. Gill nets for taking shad may be freely drifted or set.

**HERRING GILL NET**
A gill net used for taking or attempting to take herring in the salt waters of this State must have mesh size of 2-1/2 inches stretched and a length no greater than 900 feet. Gill net used for taking or attempting to take herring in freshwaters must have a stretched mesh of 2-1/2 inches stretched and a length no greater than 600 hundred feet.

For more information on recreational or commercial blueback herring, American shad or hickory shad fishing requirements, contact the Office of Fisheries Management at 843-953-9311 or visit [http://www.dnr.sc.gov/marine/shad](http://www.dnr.sc.gov/marine/shad).

**RECREATIONAL LICENSE (UNLAWFUL TO SELL CATCH) LIMITS**

**Shad**
Ten shad per person per day except in Santee River and Rediversion Canal (where it is 20 per person per day)

**Herring**
One US bushel of herring per person per day. Herring Fishery closed in the Savannah River and in all rivers in the Winyah Bay River System (which means all waters of Winyah Bay east of a line running south from the southern tip of North Island to the eastern tip of Sand Island, and extending to the mouths of the Sampit, Great Pee Dee, and Waccamaw Rivers) except for the Great Pee Dee River.

**Gear Type:**
- It is unlawful to take American shad and herring using the following nongame fishing devices: archery equipment, crayfish trap, eel pot, elver fyke net, gig, hand grabbing, hoop net, jug fishing device, minnow seine, minnow trap, pump net, seine, set hook, spear, trap or trotline.

**Hook and Line, Cast Nets or Skimbow Nets**
- To take shad or herring for recreational purposes by hook and line, cast net (for bait), or skimbow net in freshwaters a person MUST have a recreational freshwater fishing license.

**SHAD GILL NET OR HERRING GILL NET**
- To take shad or herring for recreational purposes using a shad or herring gill net, a person MUST have a recreational fishing license, gear license, and related permits.
- Only one shad or herring gill net may be fished by occupants of a boat, and if drifted, it must be attended at all times when deployed. Additional boats in tow may not be used to increase the number of authorized nets. Must adhere to legal commercial fishing areas and the recreational limit.

**RECREATIONAL LICENSE REQUIREMENTS**
- If fishing recreationally in the freshwaters of the state, a person needs a recreational freshwater fishing license. If fishing recreationally in the saltwaters of the state, a person needs a recreational saltwater fishing license. If fishing in both fresh and saltwaters, a person MUST have both a recreational freshwater fishing license and a recreational saltwater fishing license.
- MUST have a shad gill net or herring gill net license (not the same as a gill net license).
- MUST have the required permit from the Office of Fisheries Management 843-953-0453.

**COMMERCIAL LICENSE REQUIREMENTS**
- If fishing commercially in the freshwaters of the state, a person needs a commercial freshwater fishing license. If fishing commercially in the saltwaters of the state, a person needs a commercial saltwater fishing license. If fishing in both fresh and saltwaters, a person MUST have both a commercial freshwater fishing and a commercial saltwater fishing license.
- MUST have a shad gill net, herring gill net or herring cast net license (not the same as a gill net license).
- MUST have the required permit from the Office of Fisheries Management 843-953-0453.

**AMERICAN SHAD**

Since 2003

Since 2003
**All Boats**
In South Carolina, vessels may not be operated in excess of idle speed within 50 feet of an anchored vessel, wharf, pier, dock, or a person in the water. Vessels may not operate in excess of idle speed within 100 yards of the Atlantic coastline (Sec. 50-21-870).

**Marine Events**
A permit is required for any marine event with more than 20 boats. For permits or information on these and other marine events, contact Marine Law Enforcement, PO. Box 12559, Charleston, SC 29422, 843-953-9302.

**Minimum Age of Operators**
In South Carolina, boat operators under age 16 must complete a boating course approved by the SCDNR to operate a boat or personal watercraft with a 15 h.p. motor or greater, unless accompanied by an adult age 18 years or older.

**Equipment**

**Personal Flotation Devices (PFDs)**
All boats must have a US Coast Guard approved wearable type PFD for each person on board or being towed. Each PFD must be in good condition, readily available and the proper size for the intended wearer. In addition, boats 16 feet in length or longer must carry a Type IV throwable device. In South Carolina, any person under twelve years of age must wear a US Coast Guard approved Type I, II, III, or V PFD when on board a class “A” (less than 16 ft. long) boat.

**Fire Extinguisher**
One Coast Guard approved hand-held portable fire extinguisher must be aboard each boat less than 26 feet if the boat is carrying passengers for hire or if the construction permits the entrapment of flammable vapors or if it has a permanently installed gas tank, including gas tanks that use any type of fastener that would hamper the immediate removal of the tank from the boat. Additional extinguishers are required in boats larger than 26 feet. Contact the SCDNR for complete regulations.

**Navigation Lights**
Navigation Lights must be on between official sunset and sunrise.

**Flares**
Flares are required for vessels in coastal waters.

**Bells, Whistle**
All boats less than 39.4 feet must carry an efficient sound producing device. Every vessel from 39.4 to 65.6 feet must carry a whistle and a bell.

**Personal Watercraft**
In South Carolina, each person on a personal watercraft must wear a US Coast Guard-approved Type I, II, III or V PFD.

A personal watercraft may not be operated between sunset and sunrise and must be equipped with a self-circling or lanyard-type engine cutoff switch.

When operating a personal watercraft, one may not operate in a manner so as to leave the water completely while crossing (jumping) the wake of another vessel within 200 feet of the vessel creating the wake.

**Boating**

**Reporting Boating Accidents**
The operator of every vessel involved in a boating accident shall report to the SCDNR whenever the accident results in loss of life, loss of consciousness, medical treatment beyond first aid or disability in excess of 24 hours, or property damage in excess of the minimum amount as set by the USC. For more information, call 843-953-9302.

**Restictions**
Airboats are prohibited on public waters of this state from the freshwater-saltwater dividing line seaward, and on that portion of Lake Marion and Santee Swamp west of the I-95 bridge upstream to the confluence of the Congaree and Wateree rivers during the season for hunting waterfowl.

**Tilting & Registration**

**Tilting**
The seller of a used watercraft or outboard motor in South Carolina must produce a South Carolina Certificate of Title in his/her name at the time of sale. Titles are valid until the watercraft or outboard motor is sold, traded or exchanged. A title with erasures, white out or information marked through is not valid. The owner must request a duplicate title. Titles are required for all sailboats, all outboard motors 5 horsepower and greater, and all other watercraft except: documented vessels, windsurfers, and those propelled by human power with oars, paddles or similar devices.

**Registration**
Watercraft propelled by any mechanized means on navigable waters must be registered in addition to being titled in the owner’s name.

**Stolen Watercraft/Outboard Motors**
The owner of a watercraft or outboard motor which has been stolen should immediately contact local law enforcement to file a report, and then the SCDNR Marine Investigations at 803-734-3856 to receive a Theft Report form. Forms can also be found at www.dnr.sc.gov/boating in the Forms section.

**Mailing Address**
SCDNR Watercraft Section, P. O. Box 167, Columbia, SC 29202-0167, or call 803-734-3857 M–F 8:30 AM–4:45 PM

For more information on boating, please refer to our Boating Handbook, visit www.dnr.sc.gov/education/boated.htm or call 1-800-277-4301.

**PERSONAL PROPERTY TAXES**

The bill of sale or title to any watercraft or outboard motor requires certification that personal property taxes have been paid by the named owner as of the date of sale. Selling a watercraft or outboard motor with taxes due is a violation of the law. An owner must notify the SCDNR Watercraft Section within 30 days of selling a watercraft or outboard motor. Check the status of watercraft and outboard motor titles at www.dnr.sc.gov/boating and select “SC Boat Facts” before you buy.

**VESSSEL SEWAGE REGULATIONS**

It is Illegal:
- To have a toilet installed aboard your boat without a marine sanitation device.
- For any boat used for habitation moored at a private dock to discharge raw or treated sewage.
- For houseboats to discharge treated or raw sewage in freshwater.
- For any vessel to discharge treated or untreated sewage in a No Discharge Zone.

**Designated No Discharge Zones**
- Broad Creek (Hilton Head Island)
- Lake Hartwell
- Lake Keowee
- Lake Murray
- Lake Thurmond
- Lake Wylie
- Lake Keowee

**What Can You Do?**
To prevent the possible dangers that sewage can cause to humans and the environment, boaters should: use portable toilets, utilize onshore or floating restrooms, and have a Marine Sanitation Device installed on board and use a pumpout at a local marina.

For more information about vessel sewage regulations, contact SC- CV@dnr.sc.gov, or visit www.dnr.sc.gov/cleanvessel.
Reel in the Memories...
**General Information**

The following laws pertain to recreational saltwater fishing, shrimping, crabbing and shellfishing. Individuals (age 16 and older) harvesting marine resources, including finfish, oysters, clams, shrimp and crab must purchase an annual, temporary or 3 Year Saltwater Recreational Fishing License - unless fishing on a licensed public fishing pier; fishing on a licensed charter/boat vessel while under hire; using 3 or fewer handlines with no hooks and a single bait per line (chicken necking); or shrimp baiting (which requires a shrimp baiting license).

Fishing piers and chartered vessels charging a fee for fishing must purchase an annual Public Fishing Pier or Charter/Headboat Vessel license, respectively. Applications for Public Fishing Pier and Charter Vessel Licenses are available from the SCDNR office in Charleston.

Any person engaged in selling any fish or fishery product, including bait harvested in SC state waters, must first obtain the appropriate license. To qualify for a resident commercial saltwater fishing license, one must have been a resident of this state for the past 365 consecutive days and furnish proof to SCDNR at the time of application.

Regulations concerning commercial saltwater fishing are provided with commercial licenses and are available through the Marine Resources Division at the address below.

As required by S.C. Code Section 8-29-10, applicants for a commercial license or permit are required to complete an affidavit entitled “Verification of Lawful Presence in the United States” certifying that the applicant is lawfully in the United States. The affidavit MUST be completed, notarized and returned with the application.

For more information, contact: SCDNR Licensing, P.O. Box 1259, Charleston, SC 29422, 843-953-9301, [http://www.dnr.sc.gov/licensing.html](http://www.dnr.sc.gov/licensing.html).

For federal fishery limits and regulations, contact: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405, 843-571-4566, [www.safmc.net](http://www.safmc.net).

To learn about the projects and programs that received support from the Saltwater Recreational Fishing License Program this fiscal year, visit [http://saltwaterfishing.sc.gov](http://saltwaterfishing.sc.gov).

---

**Saltwater Fishing Methods & Devices**

For information on how to purchase a Saltwater Recreational Fishing License see page 41.

**Bush Lines / Pole Lines**

**Permits/License**

Saltwater Recreational Fishing License required.

**Restrictions**

Recreational fisherman may not use more than ten bush or pole lines with single hooks or baits.

**Hook & Line**

**Permits/License**

Saltwater Recreational Fishing License required. Federal Highly Migratory Species Permit required when fishing for tuna, billfish, swordfish, and sharks in federal waters. The same federal permit is also required for possession of these species in state waters, with the exception of sharks.

**Restrictions**

- It is unlawful to fish from a boat with 300 feet of commercial fishing piers extending into the Atlantic Ocean.
- Fishing from the shore in the waters under or within 50 feet on either side or beyond the end of any ocean fishing pier in Horry County is prohibited.

**Gigging**

(Gig, Spear, & Bow & Arrow)

**Permits/License**

Saltwater Recreational Fishing License required.

**Restrictions**

- It is unlawful to gig for flounder in saltwater during daylight hours. For the purposes of this section, gigging does not include underwater spear fishing.
- It is unlawful to gig for sharks.
- It is unlawful to gig red drum or spotted seatrout during Dec., Jan. and Feb.
- It is unlawful in Georgetown County to gig for fish in saltwaters from the northern tip of North Island to the northern tip of Magnolia Beach during daylight hours.

**Cast Nets**

(Other Than Shrimp Baiting)

**Permits/License**

Saltwater Recreational Fishing License required.

**Seines & Gill Nets**

(Anchor, Set, Stake & Drift Nets)

**Permits/License**

Saltwater Recreational Fishing License and Gill Net Equipment License required. For more information on equipment licenses call 843-953-9311.

**Seasons**

No closed season in saltwater (except shad and herring see page 41).

**Restrictions**

- SC gamefish (cobia, red drum, spotted seatrout, tarpon, and striped bass) may not be taken by nets. Sharks may not be taken by gill nets.
- No more than one lawful gill net can be used recreationally.
- Gill nets no longer than 100 feet with a 3-inch minimum stretched mesh size may be used only in unrestricted areas of the Atlantic Ocean. Gill nets no longer than 100 yards with 3-inch minimum stretched mesh size may be used only in special designated inshore areas.
- Gill nets must be marked with one end buoy that is international orange in color with the name and address of the owner. Operator must be within 500 feet of the net, be within halving distance and have visual contact with the net at all times when deployed.
- Nets may not be set more than halfway across any waterway at any time.
- Stationary or fixed nets, including gill nets, may not be set or placed within 600 feet of a net previously set.
- It is unlawful to use any seine or gill net in any waters within a state park; except, small hand seines and cast nets for taking shrimp are allowed.
Trotlines (Long Lines)

Permits/Licenses
Saltwater Recreational Fishing License and Trotline Equipment License required. For more information on equipment licenses call 843-953-9311.

Restrictions

- No more than two trotlines with a cumulative total of 50 hooks or baits can be used recreationally.
- Trotlines used in the inshore SC saltwaters must have at least one end buoy, international orange in color with the name and address of the owner.
- Trotlines used in the Atlantic Ocean must be marked with a buoy not less than 20 inches in diameter at each end, international orange in color, which floats in a manner to be clearly visible at all times.

Special Information

Special Management Zones
The following Artificial Reefs have been declared “Special Management Zones” and are protected by federal regulations: BP-25, Beaufort, Hilton Head, Hunting Island, Kiawah, Little River Offshore, North Inlet, Paradise, Pawleys Island, Ten Mile, Vermilion, Wayne Upchurch, Will Goldfinch and Y-73. Fishing may be conducted only with handheld hook and line gear and spearfishing gear (excluding powerheads). The use of fish traps, longlines, gill nets and trawls is prohibited. Powerheads (bangsticks) are prohibited except for safety purposes. It is unlawful to possess, land or sell any species of fish taken with a bangstick (reef and non-reef areas). The harvest and possession of snapper grouper and coastal migratory pelagic species by commercial and recreational fishermen will be limited to the recreational bag limit within the Special Management Zones.

Unlawful to Sell Gamefish & Billfish
The following species have been declared gamefish and native caught fish may not be sold: cobia, red drum (channel bass), spotted seatrout, striped bass and tarpon. The purchase, barter, trade, or sale of billfish, including marlin, sailfish and spearfish, is unlawful regardless of where taken or landed.

Prohibited Practices

- Harvest of red drum from federal waters (3-200 miles offshore) is prohibited.
- The use of dynamite, gun powder, lime or any other explosive in or about any waters of this state is unlawful.
- It is unlawful to take, have in one’s possession or to land or sell any species of fish taken by means of a bangstick or similar device.
- It is unlawful to buy, sell, possess or ship shortnose Sturgeon and Atlantic Sturgeon.

Harvest and possession of horseshoe crabs is prohibited without a commercial permit. The commercial sale of diamondback terrapins is prohibited.
- It is unlawful to display, feed, net, harpoon, molest or otherwise interfere with the well-being or normal activity of marine mammals of the orders Cetacea, Sirenia and Pinnipedia, including but not limited to bottlenose dolphin, spotted dolphin, common dolphin, manatee, porpoise, harbor seal and any species of whale in any waters of the state. Marine mammals are also protected by federal law.
- The use of fish traps, longlines, gill nets and powerheads (bangsticks) is prohibited. Powerheads (bangsticks) are prohibited except for safety purposes. It is unlawful to possess, land or sell any species of fish taken with a bangstick (reef and non-reef areas). The harvest and possession of snapper grouper and coastal migratory pelagic species by commercial and recreational fishermen will be limited to the recreational bag limit within the Special Management Zones.

Marine Protected Areas (MPA’s)
Four MPA’s (Snowy Grouper Wreck, Northern SC, Edisto, and Charleston Deep Artificial Reef) are located off of the SC coast. Fishing or possession (unless gear is appropriately stored) of snapper grouper species and shark bottom longline gear is prohibited in these areas. For locations and more details on these MPAs, please visit www.safmc.net or call 843-571-4366.

FRESHWATER/SALTWATER DIVIDING LINE

The dividing line between saltwater and freshwater on the rivers listed is defined in this section. All waters of the rivers and their tributaries, streams and estuaries lying seaward of the dividing lines are considered saltwaters, and all waters lying landward or upstream from all dividing lines are considered freshwaters for purposes of licensing and regulating commercial and recreational fishing. Except as otherwise provided below, the saltwater/freshwater dividing line is US Highway 17:

1. On Savannah River the dividing line is the abandoned Seaboard Railroad track bed located approximately one and three-fourths miles upstream from the US Highway 17A bridge.
2. Wright River is salt water for its entire length.
3. On Ashepoo River the dividing line is the old Seaboard Railroad track bed.
4. On New River the dividing line is at Cook’s Landing.
5. Wallace River (5a), Rantowles Creek (5b), Long Branch Creek (5c), and Shem Creek (5d) are saltwater for their entire lengths.
6. On Edisto River the dividing line is the abandoned Seaboard Railroad track bed near Matthews Canal Cut.
7. On Ashley River the dividing line is the confluence of Popper Dam Creek directly across from Magnolia Gardens.
8. On Cooper River the dividing line is the seaward shoreline of Old Back River at the confluence of Old Back River downstream from Bushy Park Reservoir.
9. Wando River is saltwater for its entire length.
10. On the Intracoastal Waterway in Horry County the dividing line is the bridge across the Intracoastal Waterway at the intersection of S.C. Highway 9 and US Highway 17.

For more information visit: www.dnr.sc.gov/marine/dividingline
**Saltwater Fishing**

**Size & Catch Limits**

TL=Total Length, FL=Fork Length; See page 54 for information on how to measure a fish. AIW=Atlantic Intracoastal Waterway; State Waters extend from the saltwater-freshwater dividing line to the 3-mile limit. Federal Waters extend from the 3-mile limit to 200 miles offshore (international waters).

SALTWATER FISHING
SOUTH CAROLINA
SNAPPER-GROUPER COMPLEX

Many of these species are managed under annual catch limits. Seasons may be closed when catch limits are met. Visit [http://sero.nmfs.noaa.gov](http://sero.nmfs.noaa.gov) for the latest information on the status of annual catch limits.

These species are also managed by the South Atlantic Fishery Management Council (SAFMC) in federal waters. Regulations may change. Please contact the SAFMC at 843-571-4366 or [www.safmc.net](http://www.safmc.net) to get the most up to date regulations on these species. You can also download the FREE mobile application Fish Rules. Fish Rules is available for both android and apple products.

Recreational, for-hire, and commercial fishermen are required to use dehooking tools and to possess a descending device that is ready for use when fishing for or possessing snapper-grouper species. They are also required to use non-stainless, non-offset circle hooks when fishing with hook and line and natural baits for snapper-grouper species.

Sale of snapper grouper under the recreational bag limit is prohibited. For-hire vessels must have a Snapper Grouper permit to fish for these species in federal waters.

The harvest and possession of snapper grouper species by commercial and recreational fishermen will be limited to the recreational bag limit within the Special Management Zones. See “Special Information” (page 47) for information on SMZs.

Sea Turtle Release Gear Requirements: For-hire vessels fishing for snapper grouper species and possessing a federal for-hire permit must have onboard NMFS approved sea turtle release gear and follow release protocols. For more information, call 727-824-5312 or visit, [http://sero.nmfs.noaa.gov/sustainable_fisheries/gulf_sa/turtle_sawfish_release/index.html](http://sero.nmfs.noaa.gov/sustainable_fisheries/gulf_sa/turtle_sawfish_release/index.html)

Recreational saltwater anglers are excited about the enhancement of South Carolina’s Marine Habitat... That’s no accident!

**CCA South Carolina & Building Conservation Trust** are grass-roots, non-profit marine conservation organizations working to protect and improve the state’s marine resources and the coastal habitat interests of recreational saltwater anglers.

By joining CCA South Carolina you will become part of the largest, most effective and respected voice of proper stewardship of the Palmetto state’s fisheries. Your membership matters for the continuance of our coastal traditions that make our state one of such envy!
Federal Highly Migratory Species Permit to fish for these species. All billfish to be released may not be removed from the water. All recreationally caught Atlantic billfish landed must be reported to NMFS within 24 hours of landing at the dock. Anglers can report by calling 1-888-USA-TUNA (1-888-872-8862) or by visiting https://hmspermits.noaa.gov/. Recreationally caught billfish may not be sold.

### BILLFISH & ATLANTIC TUNAS

Federal Highly Migratory Species Permit with a Shark Endorsement are required in federal waters to recreationally fish for, retain, possess, or land sharks. All sharks must be landed with fins, head and tail naturally attached. Recreational anglers may only catch sharks using a rod & reel or handline. All other gears prohibited. Additionally, anglers fishing recreationally for sharks are required to use non-offset, non-stainless steel circle hooks, except when fishing with flies or artificial lures. Check current federal regulations and find a shark identification guide by visiting [http://www.nmfs.noaa.gov/sfa/hms/compliance/regulations/index.html](http://www.nmfs.noaa.gov/sfa/hms/compliance/regulations/index.html)

                           |                                                | • Shrimp caught over bait cannot be sold.  
                           |                                                | • No more than 10 poles can be used per license per day. Poles must be marked with reflective tape and may not exceed 1-inch in diameter and each pole must have a numbered tag attached which corresponds with the shrimp baiting license.  
                           |                                                | • No more than 10 poles can be used per boat.  
                           |                                                | • All poles of a licensed set must be within 100 linear yards of each other and sets of poles must be at least 25 yards apart. Poles may not be set within 50 yards of any dock, public landing or boat ramp. Unattended poles will be confiscated.  
                           |                                                | • Owners of private docks or persons with written permission may bait from those docks once properly licensed and with numbered tag displayed.  
                           |                                                | • Shrimp pots or traps are prohibited.  
                           |                                                | • Cast nets used for taking shrimp over bait must have a minimum mesh size of 1/2-inch square (1-inch stretch).  
                           |                                                | • Individuals who may NOT obtain a shrimp baiting license are: 1) owners or officers of a corporation which owns a vessel specified on a trawl license; 2) masters of a vessel specified on a trawl license; 3) licensed to use a channel net; 4) licensed to use a cast net for a commercial purpose; 5) licensed as a wholesale seafood dealer. |
| Shrimp Baiting  | 2020 Shrimp baiting season Sept. 11 (Noon) - Nov. 10 (Noon)  
                           | 48 quarts whole or 29 quarts headed per day (sunrise to sunrise) per set of poles |                                                |                                                                                   |
Crustacean & Shellfish Methods & Devices

When fishing for crustaceans or shellfish, a Saltwater Recreational Fishing License is required — unless you are using 3 or fewer drop nets, 3 or fewer fold up traps, or 3 or fewer handlines with no hooks and a single bait per line (chicken necking); or shrimp baiting (which requires a shrimp baiting license).

Crab Pots

Permits/Licenses
Saltwater Recreational Fishing License required.

Restrictions
- Licensee can fish no more than two pots recreationally. A Commercial Saltwater Fishing License, Vessel Decal, and Gear license are required for over two pots.
- If unattended each pot float must bear the name and address or license number of owner.
- No crab pot shall be left unattended in coastal waters more than 5 days.
- No crab trap or pot may be set within 200 yards of a public boat landing or launching area or set so as to be left dry at low tide.
- A float attached to a crab pot or trap must be made of solid, buoyant material which does not sink upon being punctured or cracked. The floats must be constructed of plastic, PVC Sponge, plastic foam, or cork. The primary float for a recreational pot or trap must be yellow in color and at least ten inches in length if rectangular, cylindrical, or conical and at least five inches in diameter or width. Round or spherical floats must be at least six inches in diameter. Buoy lines for crab pots must be made of nonfloating material.
- Retaining blue crabs caught in the freshwater of the state is prohibited; any blue crabs caught must be returned to the waters immediately.

Shellfish
(Oysters, Clams, Mussels, Whelks, and other Mollusks)

Permits/Licenses
Saltwater Recreational Fishing License required.

Season
Typically open Oct. 1 through May 15 (1/2 hour before sunrise to 1/2 hour after sunset.) Call 843-953-9300 for season dates.

Restrictions
- Shellfish may be harvested recreationally from State shellfish grounds and Public shellfish grounds. Public and State shellfish grounds are marked with signs. Recreational harvesting is allowed on culture permit grounds (formerly leases), but only when the harvester has in possession written permission from the culture permit holder. License must be in possession while harvesting.

* A bushel is two 5 gallon buckets filled to a level top. Three personal limits is 6 bushels for oysters and 1.5 bushels for clams.

Maps of areas where shellfish may be gathered in season for recreation may be found on the web at [www.dnr.sc.gov/marine/shellfish/shellfishmaps.html](http://www.dnr.sc.gov/marine/shellfish/shellfishmaps.html) by calling 843-953-9854 or by writing Marine Resources at PO Box 12559, Charleston, SC 29422.

Shrimp Seines

Permits/Licenses
Saltwater Recreational Fishing License required.

Restrictions
- Maximum length of shrimp seine 40 feet, maximum depth 6 feet, minimum mesh size, 1/2 inch square (1 inch stretch), maximum mesh size 7/8 inch square (1.75 inch stretch).
- Tail bags or pockets are not allowed on seines when pulled by hand.
- Staked seines are considered commercial channel net devices; allowances and restrictions are provided with the purchase of a commercial license.

Trawling

Permits/Licenses
Commercial Saltwater Fishing License, Vessel Decal and Gear license required.

Restrictions
- Trawling for personal use is restricted to the same license requirements, areas and seasons as commercial trawling. This information is provided with the license.

Shell Recycling
Oyster shells are collected throughout the coastal area and reused for maintenance of public grounds. Call 843-953-9300 for shell drop-off site locations, or visit [www.saltwaterfishing.sc.gov/oyster.html](http://www.saltwaterfishing.sc.gov/oyster.html) for detailed maps of locations.

MEASURING A FISH

How to Properly Measure a Saltwater Fish

TL=total length measure: From the closed mouth (snout) to the tip of the tail fin when pinched together. It is a straight line measure, not over the curvature of the body. FL=fork length measure: From the tip of the closed mouth (snout) to the center of the fork of the tail. It is a straight line measure, not over the curvature of the body.

GUIDELINES FOR SEA TURTLE PROTECTION

- Keep hands away from turtle’s mouth and flippers.
- Do not lift the turtle by the hook or by pulling on the line.
- Safely land the turtle using a net or by walking it to shore.
- Leave the hook in place with three foot of line, as removing it can cause more damage.
- Keep the turtle out of direct sunlight and cover with damp towel.
- Use non-stainless, barbless hooks when possible.

If circumstances don’t permit you to hold the animal and contact DNR, cut the line as short as possible and release the turtle.
General Information on Hunting

Hunting is defined as trying to find, seek, obtain, pursue, or diligently search for game.

Regulations in this section apply to both private and public lands statewide, unless otherwise specified.

Licenses & Permits

Licenses and permits are required for hunting in South Carolina. Detailed information on types of licenses and permits is located on pages 12 & 14. All residents and nonresidents born after June 30, 1979 must successfully complete a hunter education course that is approved by the SC Department of Natural Resources (SCDNR) before a hunting license can be obtained. For exceptions, see page 3.

Game Zones & WMAs

South Carolina is divided into four game zones, as defined on the maps on page 3. The SCDNR sets and regulates the methods of harvest, bag limits and other requirements for hunting on Wildlife Management Areas (WMA) statewide.

The SC General Assembly establishes seasons, limits and methods for private land statewide. The SCDNR is responsible for law enforcement statewide.

Protected Game

The following species may be hunted ONLY during legally established seasons: bear, beaver, bobcat, deer, fox, mink, muskrat, opossum, otter, rabbit, raccoon, skunk, squirrel, weasel, waterfowl (goose, brant and duck), bobwhite quail, mourning dove, rails (marsh, coot, gallinule), ruffed grouse, crow, wild turkey, common snipe and woodcock.

Protected Nongame

The following species are protected and may not be hunted, molested, caught, transported, sold or possessed in any manner without a permit: any species appearing on the state list of non-game and endangered species (R 123-150), birds of prey (eagles, hawks, osprey, owls, kites, and vultures) and non-game birds (except English sparrows, pigeons, Eurasian collard doves and starlings). Falconers must possess a SCDNR permit.

Importation & Possession

It is unlawful to import, possess or transport for the purpose of release, or to introduce or bring into this state any live wildlife of the following types without a permit from the SCDNR: a member of the family Cervidae (deer, moose, elk, etc.), bear, turkey, furbears (fox, raccoon, opossum, muskrat, mink, skunk, coyote, otter, bobcat, weasel and beaver), a nondomestic member of the families Suidae or Tayassuidae (pigs), or Bovidae (bison, antelope, mountain goat, mountain sheep) (50-16-20). The importation or possession of live alligators is illegal without a permit from the Department (50-15-390).

The importation or sale of live wolves is prohibited in South Carolina, except for exhibition or scientific purposes upon the approval of the SCDNR as provided by regulations (50-11-1765). It is unlawful to import coyotes. The possession and sale of live foxes and coyotes is restricted by law (50-11-2630). A person may not have a live wolf in his possession without a SCDNR permit. Federal law prohibits importing, exporting, selling, buying, receiving or acquiring big cats across state lines. For information and exceptions, contact the US Fish and Wildlife Service Southeast Region, 1875 Century Blvd., Atlanta, GA 30345.

Prohibition of Sale, Purchase, Donation, or Transfer of Ownership Wildlife as Pets - The Department of Health and Environmental Control’s (DHEC) Rabies Control Act (47-5-50) prohibits the sale, purchase, donation, or transfer of ownership of nondomesticated carnivores (raccoons, foxes, skunks, bobcats, coyotes, wolves, wolf dogs, weasels, civet cats, spotted skunks, and lynx or the offspring born to any combinations of crossbreeding (hybrids) between these wild animals and domestic dogs or cats) to private individuals in this State. It is illegal to import native fur-bearing species into the state for any purpose except with a permit issued by the SCDNR. Requests for importing fur-bearing animals for private possession violate the spirit of the Rabies Control Act and will be denied.

Note: The SCDNR does not advocate or encourage keeping wildlife in captivity.

Equipment & Methods

Archery

Archery means a longbow, recurve bow, compound bow or crossbow (50-11-565). There are no restrictions on draw weight/length, arrow weight/length, or broad head weight, width, or style.

Crossbows

Crossbows may be used on private lands and WMA lands statewide during all archery, muzzleloader or gun seasons for deer, bear and turkey.

Primitive Weapons

For special primitive weapons seasons, primitive weapons include bow and arrow, crossbows and muzzleloading shotguns of twenty gauge or larger, and rifles of .36 caliber or larger with open or peep sights or scopes, which use black powder or a black powder substitute that does not contain nitrocellulose or nitro-glycerin components as the propellant charge. There are no restrictions on ignition systems including flintstone, percussion cap, shotgun primer, disk, or electronic. During primitive weapons season, no revolving rifles are permitted (50-11-310). Falconry Allowed.

Transporting Firearms

There are no SCDNR restrictions on transporting firearms by licensed hunters and fishermen in a vehicle to and from the place of hunting and fishing except on WMA lands. For regulations on WMA lands see Weapons 3.4 on page 3.

Calls, Recorded or Electronically Amplified

It is illegal to hunt, catch, take, kill or attempt to hunt, catch, take or kill any game bird or game animal with the aid of recorded calls or sounds or recorded or electronically amplified imitations of calls or sounds (50-11-40). Crows, coyotes or hogs are not game birds/animals and therefore can be hunted using electronic calls on private lands and WMA lands.

Youth Hunting Days

Youth Hunting Days are scheduled for many species of game and are for youth 17 years of age and younger. Youth who have not completed the hunter education program must be accompanied by an adult at least 21 years of age. Only the youth may take or attempt to take game. License and tag requirements are waived for the youth hunter (50-9-740).

Free Hunting Days - January 16 & 17 on Private Lands and January 16 on WMA lands.

This special opportunity is ONLY VALID FOR RESIDENTS OF SC THAT DO NOT HAVE A CURRENT STATE HUNTING LICENSE. On these days, those individuals are permitted to hunt without a state hunting license or other required permits, to include Wildlife Management Area (WMA) permit, or Migratory Waterfowl Permit (formerly State Duck Stamp) on all lands in which hunting is allowed, including private lands & Wildlife Management Areas (WMAs) that are not otherwise closed to hunting. Many WMAs may be closed to waterfowl hunting or other types of hunting or have special restrictions. Refer to info beginning on pg. 94 for specific WMAs. All existing seasons, bag limits & methods of take still apply. Free Hunting Days are offered by the State of South Carolina and do not waive any Federal requirements for a Federal Migratory Bird Hunting and Conservation Stemp (Federal Duck Stamp) to hunt migratory waterfowl.

Prohibited Acts

Shining

In all game zones, the use of artificial lights for the purpose of observing or harassing wildlife is unlawful, except that a property owner, lessee, or person with written permission from the property owner may use artificial lights to observe wildlife prior to 11:00 PM. This section does not prohibit an owner of real property...
from using artificial lights for the purpose of protecting the property. This section does not prohibit the use of remote trail monitors or cameras from fixed locations on a property, nor does it prohibit a person or group, with written permission of the landowner or leaseholder of the property, from observing wildlife with the use of artificial lights which is engaged in research or documentary filming (50-11-708). This section does not prohibit a person from lawfully hunting coyotes, armadillos, and hogs at night as provided for by law (See page 7).

Sunday Hunting
Hunting is prohibited on Sundays on all WMA lands. On private lands statewide, Sunday hunting for all game is legal.

Selling Game Animals
It is unlawful to sell, except by special permit, any protected wildlife (50-1-290). Fur-bearing animals may be sold with a valid commercial fur harvest license. See page 69 for more information.

Trespass
It shall be unlawful to enter upon the lands of another for the purpose of hunting, fishing, trapping or retrieval of dogs without the consent of the landowner or manager.

Hunting from Public Roads
It is unlawful to hunt from a public road unless the hunter has permission to hunt the adjacent property. Hunting as used in this section includes possessing, carrying or having readily accessible a loaded centerfire rifle, or a shotgun loaded with shot size larger than number four. Loaded means a weapon within which any ammunition is contained. This does not include weapons contained in a closed compartment, closed vehicle trunk, or a vehicle traveling on a public road. A person convicted of unlawful road hunting forfeits hunting privileges for one year. See WMA Regulation 3.6 page 21 for restrictions on WMA lands.

Negligent Hunting
It is unlawful to use a firearm or archery tackle in a criminally negligent manner while in preparation for, engaged in the act of, or returning from hunting. Criminal negligence is defined as the reckless disregard for the safety of others.

Night
Night is defined as that period of time between one hour after official sunset of a day and one hour before official sunrise of the following day (50-11-710).

Night Hunting
Night hunting is unlawful except that raccoons, opossums, foxes, mink, skunk, coyotes, armadillos and hogs may be hunted at night. Information related to hunting coyotes, armadillos and feral hogs during night is provided on page 7 of this document under specific headings for these animals. Raccoons, opossums, foxes, mink, and skunk may not be hunted with artificial lights except when treed or cornered with dogs. Devices that amplify light using some type of power source (including night vision and infrared devices) are considered artificial light. No buckshot or any shot larger than a No. 4, or any ammunition larger than .22 rimfire may be used. It is unlawful to use artificial lights at night, except vehicle headlights while traveling in a normal manner on a public road or highway, while in possession of or with immediate access to, both ammunition of a type prohibited for use at night and a firearm capable of firing the ammunition (50-11-710). Rabbit hunting at night without weapons is lawful on private land.
DEER TAG INFORMATION

All harvested deer in South Carolina are required to be tagged at the point of kill. Tag must remain attached until the deer/carcass is quartered or received by a processor. For Additional Deer Tag Information visit www.eregulations.com/southcarolina/huntingandfishing/deer-tag-information/

Deer tags are NOT available over the counter at point of sales vendors (Walmart, Dick’s Sporting Goods, etc.). They are available over the counter at SCDNR offices located in Charleston, Clemson, West Columbia at the State Farmer’s Market, Florence, and York. Tags may be requested after July 1 by phone at 1-866-714-3611 or online at: www.dnr.sc.gov/purchase. Tags will not be mailed until early August. Allow 7-10 days for tags to arrive in the mail for online and telephone orders.

Residents

When a resident purchases a Hunting License/Big Game Permit OR if they have an active Hunting License/Big Game Permit that will be valid when deer season begins they will automatically receive a free base set of deer tags prior to deer season or 7-10 days following the purchase of the Hunting License/Big Game Permit if deer season has begun.

Youth hunters and Lifetime and Senior/Gratis/Disability Licensees must request the free base set of tags annually. (Note: Lifetime Licensees that now live out-of-state should call SCDNR Licensing directly at 803-734-3833.)

The base set of resident tags consist of the following:

- 3 Unrestricted Antlered Deer Tags
- 2 Individual Antlerless Deer Tags

Based on feedback from hunters SCDNR worked with the legislature to eliminate the 8 date specific antlerless tags and replace them with 2 antlerless tags that may be used on any day beginning Sept. 15 in Game Zones 2, 3, and 4 and Oct. 1 in Game Zone 1 until the end of the deer hunting season. This increases resident hunter’s opportunity and flexibility to take antlerless deer from 8 days to 109 days.

Residents - optional deer tag purchases

Residents including youth hunters and Lifetime and Senior/Gratis/Disability Licensees may purchase 2 additional antler restriction buck tags for $5 each. The restriction is the buck must have 4 points on one antler or a minimum 12-inch inside spread. There is no particular order in which the antlered buck tags must be used.

As in the past, all residents may purchase up to 4 individual antlerless tags for $5 each. Tags are valid on any day beginning September 15 in Game Zones 2, 3, 4 and October 1 in Game Zone 1 until the end of the deer hunting season.

Hunters who purchase 4 tags receive 2 free bonus tags valid on private land only in Game Zones 3 and 4 to help control deer damage to agriculture.

Non-Residents

Non-Resident adults receive no free tags with the purchase of their Hunting License/Big Game Permit and must also purchase deer tags in order to deer hunt.

Non-Resident deer tags are as follows:

- May purchase up to 4 antlered deer tags.
- 2 Unrestricted Antlered Deer Tags
- 2 Antler Restriction Deer Tags

4 points on one antler or a minimum 12-inch inside spread. Cost: $50 for first antlered buck tag - $20 for each additional ($110 for all 4).

After the purchase of an unrestricted buck tag, there is no particular order in which the buck tags must be purchased or used.

May purchase up to 4 Individual Antlerless Tags ($10 each) as in the past.

Hunters who purchase 4 tags receive 2 free bonus tags valid on private land only in Game Zones 3 and 4 to help control deer damage to agriculture.

Non-resident youth receive base set of tags for free by request like resident youth. May then purchase one antler restriction buck tag ($50) and up to 4 Individual Antlerless Tags ($10 each).

Measurement Procedures & Standards for Antlered Deer

For the 2 Optional Antler Restriction Tags a deer must have a minimum of 4 points on one antler OR a minimum 12” inside antler spread.

- A point is defined as a projection that is at least one inch long. Points are measured starting at base where it arises from the top of the beam or another point. (Fig. 1)
- Inside antler spread is measured at a right angle (perpendicular) to the center line of the skull at its widest point between the main beams. (Fig. 2)

NEED DEER OR TURKEY TAGS IMMEDIATELY?

If you have just purchased a Hunting License and Big Game Permit, or have just requested or purchased deer or turkey tags and want to hunt immediately, a temporary set of deer or turkey tags can be downloaded and printed by accessing the Customer Privileges Portal on the SCDNR website at https://www2.dnr.sc.gov/customerprivilegesportal. These self-printed temporary tags are only valid until your permanent tags arrive in the mail. Any deer or turkey that is tagged with temporary tags must be reported to the Customer Privileges Portal on SCDNR website at https://www2.dnr.sc.gov/customerprivilegesportal by midnight of the day of harvest. You will need the tag identification number and county of kill as part of the reporting process.
Antlerless Deer
An antlerless deer is defined as a deer with no antlers or a deer with less than two inches of antler visible above the hairline. Antlerless deer may not be possessed, hunted, shot or in any way killed except during special seasons or by special permit (50-11-410).

Optional Antlerless Deer Harvest Programs
Resident and Nonresident hunters have the option of participating in the Individual Antlerless Deer Tag Program and the Deer Quota Program.

Individual Antlerless Deer Tag Program
SC Resident deer hunters receive two (2) Individual Antlerless Tags free of charge as part of their base set of deer tags. Additionally all hunters may purchase up to 4 Individual Antlerless Tags ($5 each for residents and $10 each for nonresidents). The following Game Zone and WMA limitations include the 2 free resident base set tags combined with any additional Individual Antlerless Tags that are purchased:

In Game Zone 1 only three (3) Individual Antlerless Tags are valid on private or WMA land starting October 1. In Game Zones 2, 3, and 4 Individual Antlerless Tags are valid on private or WMA land starting September 15. No more than five (5) total Individual Antlerless Tags may be used on private land in Game Zone 2 and on all WMAs combined in Game Zones 3 and 4. Individual Antlerless Tags are not valid on properties which are enrolled in the Deer Quota Program for antlerless deer. Tags do not alter the daily or seasonal bag limits for Game Zones or alter the type of weapon allowed. Tags may only be possessed or used by the person whose name appears on the tag.

Hunters who purchase 4 Individual Tags will receive 2 free bonus tags valid only on private land in Game Zone 3 & 4 to help control deer damage to agriculture.

Tags are available over the counter at SCDNR offices in Clemson, Charleston, West Columbia (Farmer’s Market), Florence, & York or by calling 1-866-714-3611 or at the following website: http://dnr.sc.gov/purchase.html

A handwritten application may be obtained on page 117, by calling SCDNR at 803-734-3886 or at http://dnr.sc.gov/regs/pdf/speciallicenseapp.pdf

Deer Quota Program (DQP)
Deer quotas are issued to qualifying land owners or lessees statewide who complete and submit an application along with a $50 fee prior to July 1. This program is generally better suited for landowners or lessees with large acreages. Under the DQP, a quota of antlerless deer tags is issued to a particular tract of land based on criteria including; density...
of the local deer population, condition of the local deer population, the size of the tract of land, presence of agriculture or agricultural damage, and the overall deer management objectives of the owner. Participants in the DQP also have the option of receiving a quota for antlered bucks. Buck quotas are based on the average number of acres per buck harvested as reported by program participants in the county in recent years.

Utilization of DQP antlerless tags is subject to the following restrictions. In Game Zone 1 tags are valid beginning Oct. 1. In Game Zones 2, 3, and 4 tags are valid beginning Sept. 15. Tags issued for a particular tract of land can only be used on that tract and they must be used on all deer (antlerless and/or antlered) for which a quota was issued. Tags do not alter the use of weapons during special weapons seasons. Statewide, Game Zone, and daily limits do not apply on properties enrolled in the DQP because the limit is on the property not the persons hunting the property. A harvest report must be completed by the applicant at the close of the season.

**Deer Processors**

It is unlawful to keep any deer in cold storage or refrigerating plants unless the carcass is clearly marked with the hunter’s name, address and hunting license number (50-11-1700). This does not apply to storage at a private residence or to deer on which a hunter’s personal tag remains attached to the hamstring because the tag identifies the hunter. Processors may not accept untagged deer; however they are not responsible for any missing information on a deer tag, e.g. notches, marking, etc. The deer tag may be removed by the processor once processing begins or the deer is quartered. Processors are encouraged to report tagging violations to SCDNR Law Enforcement. Deer processors should recognize that it is unlawful to sell deer meat to regain the processing fee for deer that have not been picked-up by the owner (50-11-1910). The best practice is to take a deposit for the processing service when deer are left at the facility. If meat is not picked-up by the owner, it can be given to another individual at no charge.

**CWD Carcass Importation Regulations**

Chronic wasting disease (CWD) is a fatal neurological disease of cervids (deer family) that represents a significant risk to deer in North America. In order to protect against the spread of CWD into SC, the following regulations are in place:

- No person may import or possess a whole cervid carcass or carcass part from an infected state except the following may be imported: quarters or other portions of meat with no part of the spinal column or head attached; meat that has been boned out; hides with no heads attached; clean (no meat or tissue attached) skulls or skull plates with antlers attached; antlers (detached from the skull plate); clean upper canine teeth, also called “buglers,” “whistlers” or “ivories;” and finished taxidermy heads. Hunters traveling elsewhere should check with the wildlife agency in their destination state to determine its CWD status and to determine what restrictions the state may have on the movement of carcasses. CWD has been diagnosed in 26 states and 3 Canadian provinces. A current list of these locations can be viewed at [http://www.dnr.sc.gov/wildlife/deer/chronicwasting.html](http://www.dnr.sc.gov/wildlife/deer/chronicwasting.html) (Reg. 123-54).

**CWD Natural Cervid Urine Regulation**

Commercial natural deer urine products are made of urine collected from deer in other states, many of which have diagnosed CWD. The CWD agent can be found in deer urine. Distributing this urine may contaminate the environment. For this reason no person shall possess or use any substance or material that contains or purports to contain any excretion collected from a cervid (deer) including urine, feces, blood, gland oil, or other body fluid for the purpose of taking, attracting, or scouting any wild animal in SC. This does not prohibit the use of synthetic products or substances collected by a hunter from deer legally harvested in SC. (Reg. 123-54).

Deer Seasons on Private Lands

- All harvested deer must be tagged at the point of kill prior to being transported. Tag must remain attached until the deer/carcass is quartered or received by a processor. Processors see page 59.

- Antlered deer statewide limit:
  - Residents - 2 per day, 5 total all seasons and methods combined.
  - Nonresidents - 2 per day, 4 total all seasons and methods combined.

- Antlerless deer - limit 2 per day. Must be tagged with Individual Antlerless Deer Tag. Only three (3) Individual Antlerless Deer Tags may be used in Game Zone 1. Tags are valid in Game Zones 2, 3, and 4 beginning Sept. 15 and in Game Zone 1 beginning Oct. 1. Individual tags are not valid on properties enrolled for antlerless deer in the Deer Quota Program. Individual tags do not alter the daily (2 per day) or seasonal limit or change the type of weapon that can be used during special weapons seasons.

- Limits listed include deer taken on private & WMA lands.
- Limits listed do not apply to quota deer taken on properties enrolled in the Deer Quota Program.
- Sunday hunting allowed on private lands.
- Archery and crossbows allowed during all seasons.
- Crossbows are considered archery equipment.
- In Game Zones 1 and 2 it is unlawful to pursue deer with dogs.
- Baiting or hunting deer over bait is permitted on private lands statewide.

Statewide Youth Day - Private Lands
Listed by Game Zone. For youth 17 years old and younger. Youth hunters who have not completed the hunter education program must be accompanied by an adult at least 21 years of age. No license or tag requirements for youth or adult. Adult may guide; however, only the youth may take or attempt to take.

Deer Seasons on Private Lands

**Game Zone 1**
(Private Lands)

Antlered Deer Limit: Statewide limits apply.
Antlerless Limit: 2 per day, 3 total all seasons and methods combined.
Primitive Weapons: Oct. 1-10
Gun Hunts: Oct. 11-Jan. 1
Youth Deer Hunt Days: September 26, Antlered deer only, limit 1. January 2, Either-sex, limit 2. Tags not required.

**Game Zone 2**
(Private Lands)

Antlered Deer Limit: Statewide limits apply.
Antlerless Limit: 2 per day, 3 total all seasons and methods combined.
Archery Only: Sept. 15-30
Gun Hunts: Oct. 11-Jan. 1
Youth Deer Hunt Days: September 12, Antlered deer only, limit 2. Tags not required.

**Game Zone 3**
(Private Lands)

Antlered Deer Limit: Statewide limits apply.
Antlerless Limit: 2 per day, 5 total all seasons and methods combined.
Archery & Gun Hunts: Aug. 15-Jan. 1
Youth Deer Hunt Days: August 8, Antlered only, limit 1. January 2, Either-sex, limit 2. Tags not required.

**Game Zone 4**
(Private Lands)

Antlered Deer Limit: Statewide limits apply.
Antlerless Limit: 2 per day, 8 total all seasons and methods combined.
Archery & Gun Hunts: Aug. 15-31
Youth Deer Hunt Days: August 8, Antlered only, limit 1. January 2, Either-sex, limit 2. Tags not required.

YOU MUST REPORT YOUR TURKEY HARVEST

NEW All persons (including youth) harvesting a wild turkey are required to report their harvest by midnight of the day of harvest using SC Game Check. Harvest reporting is at no cost to the hunter.

There are three ways to complete the harvest reporting process. Hunters can either (a) log the harvest into the free SC Game Check reporting application on a smartphone; (b) enter the harvest via the SC Game Check website at www.dnr.sc.gov/scgamecheck; or (c) call the SC Game Check reporting phone line at 1-833-4SC-GAME (1-833-472-4263).

Turkey hunters will receive additional details and complete instructions on harvest reporting and SC Game Check with their 2021 turkey tags. Full details and instructions will also be available on the SC DNR website in early February 2021.

The SC Game Check smartphone app will allow you to report a harvested turkey with or without cell phone service. iPhone and Android users can download the free app on your mobile device through the Apple or Google Play Store. (App will be available for download beginning Feb. 1, 2021)

Seasons & Limits

- Private lands Game Zone 1 and 2: April 1 – May 10
- Private lands Game Zone 3 and 4: March 22 – April 30
- WMA lands statewide: April 1 – April 30
  » Some WMAs may be more restrictive, see page 64 for specified hunt dates.
- Limit statewide private and WMA lands:
  » Residents: 3 gobblers per season, no more than one per day, no more than one (1) from April 1-10 on private land and WMAs in Game Zones 1 & 2. No more than one (1) from March 22-31 on private land in Game Zone 3 & 4.
  » Nonresidents: 2 gobblers per season, no more than one per day, no more than one (1) from April 1-10 on private land and WMAs in Game Zones 1 & 2. No more than one (1) from March 22-31 on private land in Game Zone 3 & 4.
  » Some WMAs may be more restrictive, see page 64 for specified limits

Statewide Youth Hunting Weekend on Private Lands

For youths 17 years old and younger. Game Zones 1 and 2 March 27-28, Game Zones 3 and 4 March 20-21.

Young turkey hunters who have not completed the hunter education program must be accompanied by an adult at least 21 years of age. No license or tags required for youth or adult on these designated youth days. Adult may call or guide, however, only the youth may take or attempt to take. Limit one (1) gobbler total for the weekend which counts towards the season limit.

General Turkey Hunting Laws and Regulations for Hunting on Private & WMA Lands

- Statewide limit of 3 gobblers for residents and 2 for nonresidents, no more than 1 per day (SC Code 50-11-580). Bearded hens are not legal.
- All hunters, including hunters younger than 16 or those who are calling or guiding must possess a valid set of turkey tags except on designated youth days. Except on designated youth days, all harvested turkeys must be tagged and validated as prescribed on the tag form before being moved from the point of kill. No person may possess more than one set of turkey tags (SC 50-11-544).
- Hunters who have used all their tags may call or guide for other hunters provided they possess their tag form.
- Legal weapons - shotguns, muzzleloading shotguns, bows and crossbows. All other weapons or methods are prohibited including rifles, pistols, slugs, and buckshot (SC 50-11-500, Reg. 123-51).
- Turkeys may not be hunted with dogs, live decoys or electronic calls (SC 50-11-40, Reg. 123-51).
- Unlawful to shoot any turkey between 30 minutes after official sunset and 30 minutes before official sunrise. Unlawful to take or attempt to take a wild turkey from a vehicle on a public road. Unlawful to trap or snare a wild turkey. Unlawful to take wild turkey from a watercraft (SC 50-11-500).
- Unlawful to hunt or take a wild turkey by means of bait or on or over any baited area (SC 50-11-510). Bait means placing, depositing, exposing, distributing, or scattering of salt, corn, wheat, or other grain, or foodstuffs to constitute a lure or attrac-
tion for wild turkeys. An area remains a baited area for ten days following the complete removal of all bait. NOTE: The following activities can result in a baited area if done prior to or during turkey season: planting, discing or manipulating chufa to expose the tubers; mowing or manipulating standing grain crops where grain is scattered or exposed; top sowing of any grains; bait or feed intended for other species.

- On WMA lands the practice of fanning or reaping is prohibited. Fanning/reaping is defined as hunting or stalking wild turkeys while holding or using for hunter concealment any of the following items: a tail fan, a partial or full decoy with a tail fan, or a tail fan mounted to a firearm. Tail fans include those made of real or synthetic feathers or an image or likeness of a tail fan applied to any material (Reg. 123-51). This regulation does not apply on private land.

**Turkey Tags**

TURKEY TAGS ARE NO LONGER FREE. In addition to the required hunting license and big game permit, all turkey hunters, including youth, are required to have turkey tags in possession while hunting except on the designated youth days. The fee for a SC resident is $5 per set of three (3) tags and for a nonresident $100 per set of two (2) tags. Youth under sixteen and Lifetime/Senior/Gratis/Disability licensees may receive a free set of tags by request annually. Tags may be purchased on-line, by phone or at license vendors and will be mailed beginning in mid-February. Tags will also be available over the counter at SCDNR regional offices starting in late February. Fees associated with turkey tags are dedicated to turkey research, management, and enforcement. Prior to the fee on tags, there was no dedicated source of funding for SCDNR’s Wild Turkey Program.

**Need turkey tags now?** See page 57 for how you can download and print a set of temporary tags if you recently requested your tags.
**Savannah River Site Draw Hunts for Persons with Disabilities**

Savannah River Site will hold a draw hunt for persons with disabilities in Apr. for hunt applications. Contact NWTF’s Wheelin’ Sportmen’s Coordinator, 800-843-6983 ext 7421.

**Wildlife Management Area Lottery Hunts**

Donnelley WMA, Santee Cooper WMA, Bonnie Ferry WMA, Belfast WMA, and Wateree River WMA (Adult hunts and Youth hunts). Turkey hunts available by public hunt drawing ONLY. To apply, visit our website at [www.dnr.sc.gov/hunting/drawhunts](http://www.dnr.sc.gov/hunting/drawhunts). Online applications available in January.

**Carolina Sandhills National Wildlife Refuge**

Turkey hunts available by public hunt drawing only. Contact: Carolina Sandhills NWR, 23734 Turkey hunts available by public hunt drawing ONLY. To apply, visit our website at [www.morespreserve.com](http://www.morespreserve.com).

**Statewide Youth Hunt Day on Wildlife Management Areas**

March 27, 2021 for all areas listed above, except Keowee WMA. Limit one (1) gobbler total which counts towards the season limit.

1 Keowee WMA - Shotguns only -- north of Highway 123 and west of the Keowee Arm of Lake Hartwell and west of Highway 291. Archery Only on other sections.

2 Crackerneck WMA - Main gate opens at 4:30 AM and closes at 1:00 pm. All hunters must check in and out at main gate.

3 Little Pee Dee River Complex includes Tilghman, Dargan (including Upper Gunter Is. and Huggins tracts), Little Pee Dee River and Ward Heritage Preserves in portions of Horry and Marion counties.

4 On Webb, Palachuola, Hamilton Ridge and Oak Lea WMAs, all turkey hunters must pick up and return data cards daily to kiosk and display hang tags on vehicles. Harvested turkeys must be checked in at the self-check kiosk located adjacent to the check stations at the respective properties.

5 On Pee Dee Station site WMA, Great Pee Dee River WMA, Woodbury WMA, Liberty Hill WMA, Worth Mountain, Draper WMA and Marsh WMA all hunters must sign in and sign out.

6 Delta South WMA is closed except for special hunts.

---

**Moree’s Sportsman’s Preserve**

Quail · Pheasant · Deer · Boar Tennis · Fishing · Golf

Moree’s Sportsman’s Preserve is the favorite of many who love guaranteed opportunity hunting for whitetail, hogs, quail, duck and pheasant in South Carolina.

In addition to the very best possible hunting environment and game availability, Moree’s offers a very attractive golf package at nearby Moree’s Cheraw Country Club.

12-14 months release cycle providing your seedlings an important jump start in the transition from nursery to newly planted forest
Alligators
It is unlawful to feed or entice an American alligator with food (50-11-750), or possess any live alligator without a permit (50-15-40).

Public Alligator Lottery Hunts
Hunters are selected by a preference-based computer drawing and may apply online beginning May 1 of each year. A $10 nonrefundable application fee is required to participate in the drawing and applicants must be at least 16 years old in order to apply. If selected, the permit/tag fee is $100, and if not selected, the applicant will be awarded one preference point for future alligator lottery hunts. All selected hunters are required to possess a SC Hunting License in addition to the $100 permit/tag fee. Any nonresident alligator hunter chosen must pay an additional $200 Nonresident Alligator Hunting Fee along with the permit/tag fee, and must possess a SC Nonresident Hunting License.

Anyone may assist a permitted hunter during the hunt, but all assistants must possess a hunting license unless they are under the age of 16. In addition, ALL nonresident alligator hunting assistants (16 years of age or older) must pay the $200 Nonresident Alligator Hunting Fee and possess a SC Nonresident Hunting License, available from any license sales vendor. The deadline for applying for each year’s Public Alligator Hunting Season is June 15th at 5:00pm.

The application link and other details may be found on the SCDNR website. For information regarding the Alligator Program, and licensing requirements for taking, possessing, and sale of alligators or their products, call 843-546-6062 or 803-734-3886 (the Nonresident Alligator Hunting fee for nonresident alligator hunters and nonresident assistants may be paid at any license vendor location, online at www.dnr.sc.gov, or by phone at 1-866-714-3611).

Bear
It is unlawful to buy, sell, barter or exchange a bear or bear part or attempt to buy, sell, barter or exchange a bear or bear part. Transportation of a freshly killed bear or bear part is unlawful except during the bear season. Any person violating these offenses must be fined not more than $2,500 or imprisoned for not more than 2 years, or both, and hunting and fishing privileges must be suspended for 3 years. It is unlawful to feed bears or to hunt bears by the aid of bait (50-11-430, 50-11-440, 50-1-130, 50-1-125).

Bear Tags
For the privilege of hunting bear, in addition to the required hunting license and big game permit, a hunter must obtain a bear tag issued in his/her name at a cost of $25 for residents and $100 for nonresidents. Youth under the age of 16 are required to obtain a youth bear tag from the department at no cost. Bear tags are available over the counter at SCDNR offices in Charleston, Clemson, Florence, York and at SCDNR at the Market (West Columbia). Tags can be ordered by telephone a 1-866-714-3611 or online at: [http://dnr.sc.gov/purchase.html](http://dnr.sc.gov/purchase.html).

A handwritten application can be obtained on page 117 of this publication or at [http://dnr.sc.gov/regs/pdf/speciallicenseapp.pdf](http://dnr.sc.gov/regs/pdf/speciallicenseapp.pdf).

The possession and use of bear tags is limited to the individual to whom it was issued. Tags must be attached to the bear before being moved from the point of kill.

Bear Seasons on Private Lands

**Game Zone 1**
- Tag required to hunt bear (see Bear on page 95)
- Harvested bear must be reported by midnight on day of harvest to Clemson SCDNR at 864-986-6249 or 1-844-SC1-BEAR (1-844-721-2327) or [www.dnr.sc.gov/scgamecheck](http://www.dnr.sc.gov/scgamecheck)

**Still Hunt (No Dogs): Oct. 17-23**
- Limit: 1 bear; no sow with cubs, no bears 100 lbs. or less.

**Party Dog Hunts: Oct. 24-30**
- **Statewide Limit:** 5 bears per party; no sow with cubs, no bears 100 lbs. or less.
- All parties (maximum party size of 25) must register by application due Sept. 1. For application write SCDNR, 311 Natural Resources Dr., Clemson, SC 29631 or download @[www.dnr.sc.gov/bearhunting](http://www.dnr.sc.gov/bearhunting). Groups hunting together are considered 1 party.

**Game Zone 2**
(Private land only in Spartanburg and portions of Greenville, Oconee, and Pickens counties south of Game Zone 1)
- Quota - 20 bears all counties combined.
- If bear quota is met prior to Oct. 30, season will close 24 hours following season closure notice. Hunters are responsible for monitoring season status.
- Harvested bears must be reported by midnight on day of harvest.
- To report harvested bears or to check season status contact: 1-844-SC1-BEAR (1-844-721-2327) or [www.dnr.sc.gov/scgamecheck](http://www.dnr.sc.gov/scgamecheck)
- **Still Hunts (No Dogs): Oct. 17-30**
- **Statewide Limit:** 1 bear; no sow with cubs, no bears 100 lbs. or less.

**Game Zone 4**
(Georgetown, Horry, Marion, and Williamsburg counties only)
- Quota - 30 bears all counties combined.
- If bear quota is met prior to Oct. 30, season will close 24 hours following season closure notice. Hunters are responsible for monitoring season status.
- Harvested bears must be reported by midnight on day of harvest.
- To report harvested bears or to check season status contact: 1-844-SC1-BEAR (1-844-721-2327) or [www.dnr.sc.gov/scgamecheck](http://www.dnr.sc.gov/scgamecheck)
- **Still Hunts (No Dogs): Oct. 17-30**
- **Statewide Limit:** 1 bear; no sow with cubs, no bears 100 lbs. or less.
Small Game
Small game includes the following species: quail, squirrel, rabbit, raccoon, opossum, fox, beaver, bobcat, mink, muskrat, otter, skunk, grouse and weasel. See small game seasons chart on page 68.

Rabbit Boxes
It is unlawful for any person to trap rabbits, except that a landlord or tenant may use not more than five rabbit boxes on lands on which he has exclusive control during the gun season for rabbits. A hunting license is required to use rabbit boxes. Rabbit boxes are not permitted on WMA lands (50-11-160).

Running Seasons
(No gun season)
During any period when rabbits, raccoons, opossums, squirrels or fox may be hunted without firearms, it is illegal to hunt such game when carrying on one’s person any firearm.

Bird Dog Training
Bird dogs may be trained year-round on private land. Trainers must have a valid hunting license and may only use firearms with blank ammunition during the closed season for quail. A Bird Dog Trainer’s License is available to persons engaged in the business of training bird dogs in return for money, goods or services. This license allows a trainer and two assistants to take pen-raised quail, chukars and pheasant during the closed season while training dogs. Applicants must provide documentation of land areas to be used for training. For information, or to obtain a license, contact SCDNR Small Game Project at P.O. Box 167, Columbia, SC 29202 or call 803-734-3609.

Field Trials
It is unlawful to conduct or participate in any field trial unless a permit for such trial has been obtained from the SCDNR. Requests for field trial permits must be submitted to SCDNR at least 14 days prior to the proposed trial date. Requests shall include payment of $5 per trial and the time and location of the proposed trial. A charter or document indicating that the trial is sanctioned by a nationally recognized field trial organization must accompany all requests for field trial permits.

For information, or to obtain a permit, contact SCDNR Wildlife Permitting Office at P.O. Box 167, Columbia, SC 29202 or call 803-734-3887.

Legislative Changes for the 2020-2021 Season

There were no legislative or regulation changes for this season.

Furbearers Which May Be Commercially Harvested

The following species are legally classified as furbearers and may be taken by hunting or trapping during the open season: beaver, bobcat, coyote, gray fox, red fox, mink, muskrat, opossum, otter, raccoon, spotted skunk, striped skunk, and weasel. The pelts of these animals may be sold with avalid commercial fur harvest license. (50-11-110, 50-11-1080, 50-11-2400)

License: ($25 resident, $200 nonresidents)

A Commercial Fur Harvest License is required for:

- anyone who traps, or attempts to trap fur-bearing animals, whether commercially or recreationally, or
- anyone that takes furbearing animals by any means, for sale, trade, exchange or barter, or
- anyone who possesses more than 5 furbearing animals or raw or green pelts (this provision does not apply to a licensed fur buyer or fur processor).

All licensed commercial fur harvesters must also possess a valid South Carolina hunting license, regardless of age. These licenses shall be carried while involved in fur taking activities. A youth (under 16) is not required to be licensed in order to assist a licensed fur harvester, so long as the youth is in the presence of the licensed fur harvester and the youth does not sell, trade, exchange, or barter any furbearing animals taken under the authority of the licensed fur harvester.

Anyone who purchases any whole furbearing animal, raw or green furs, pelts or hides is required to have a Fur Buyer’s License ($100.00 for residents, $200 for nonresidents).

Exemptions from Fur Buyer’s License:

1. a person who acquires not more than five furs, pelts, hides, or whole animals for his own personal use during one season and not for barter, exchange, or sale; (2) a person licensed as a fur processor ($200); (3) a taxidermist who possesses a fur, pelt, hide, or whole furbearing animal legally owned by another person which he is holding temporarily solely for the purposes of processing; (4) a person acquiring furbearing animal carcasses without hides; (5) an owner or enclosure operator of a permitted fox and coyote hunting enclosure who purchases live foxes or coyotes for release into the enclosure. (50-9-450, 50-11-2470, 50-11-2480)

Verification of Lawful Presence in the U.S.

All Commercial Fur Harvest License applicants must complete an affidavit entitled “Verification of Lawful Presence in the United States” before any trapping license can be issued. This form is required only once for U.S. Citizens, and annually for all others, and must be notarized and sent in with any required documentation along with your license application. (8-29-10)

Legal Traps

In South Carolina, a trap is broadly defined as “any device, other than a weapon, designed or constructed for taking animals.” The following traps are legal to use for trapping statewide:

- Foothold traps with an inside jaw spread of 5 ¾” or smaller on land and 7 ¼” or smaller for water sets. Inside jaw spread is measured at the widest point perpendicular to the pivot points (jaw hinges) when the trap is in the set position (Figure 1).
- Enclosed foothold traps such as “Egg”, “Duffer”, “Coon-cuff”, and similarly designed dog-proof style traps designed for raccoons.
- Body gripping traps of the Conibear® type in water or slide sets only. No bait is allowed to be used with body-gripping traps.
- Cable restraints (snare) may be used in water sets only.
- Live traps. Live traps may also be used to catch feral animals at any time without a license or permit from the Department.
- Small snap, box and other commonly used traps to catch commensal rodents or snakes in homes and businesses may be used at any time by property owners, occupants, or their designees to catch snakes, rats and mice.

- Unless otherwise specified in Title 50 of the SC Code, all other traps and trap uses, including deadfalls or other improvised traps, are unlawful, regardless of the intended species.

* A youth under 16 years of age must purchase a hunting license in order to purchase a Commercial Fur Harvest License unless the youth has completed an approved Trapper Education Course.
screen other or similar digital viewfinder, are considered artificial light (including night vision or infrared/thermal imaging equipment). This does not include traditional illuminated scope reticles or dots. (50-11-120, 50-11-710, 50-11-1080, 50-11-2540)

A hunting license is required to hunt coyotes at night. In addition, the landowner must register their property with DNR for night hunting. Coyotes may not be hunted at night or on any unregistered property, except with a DNR-issued depredation permit. On registered properties, coyotes may be hunted at night with artificial lights and nightvision devices using any legal firearm, bow, or crossbow. Registered properties may also hunt armadillos and feral hogs at night using the same weapons and devices. It is unlawful to hunt coyotes (or armadillos or feral hogs) at night within 300 yards of a residence without the permission of the occupant. This yardage restriction does not apply to the landowner hunting their own property, or under the authority of a DNR-issued depredation permit. It is unlawful to shoot or attempt to shoot a coyote (or armadillo or feral hog), at night, from, on, or across any public paved road. Property registration to the DNR is required once annually as prescribed by DNR for each property. A brief, annual report of each registered property’s night hunting activities is required to re-register a property the following year. Persons convicted of certain night hunting violations during the previous five years are ineligible to hunt coyotes at night. (50-11-1080, 50-11-710 et seq.)

Electronic Calls
It is illegal to hunt, catch, take, kill or attempt to hunt, catch, take or kill any game bird or game animal with the aid of electronic calls. Except for coyotes, all furbearing animals are also classified as small game and cannot be taken with electronic calls. However, it is legal to use electronic calls during the day or night for hunting coyotes on private lands and during the day on WMA lands where hunting for coyotes is allowed. (50-11-40)

Depredation Permits
Depredation permits may be issued at any time of the year by the SCDNR for the taking of furbearing animals that are destroying or damaging private or public property, wildlife habitat, game species, timber, crops, or other agriculture so as to be a nuisance, or for scientific, research, or for wildlife management purposes. There is no cost for this permit. Animals captured under a depredation permit may not be relocated, sold, traded, exchanged, or bartered.

A depredation permit or license is not required by the property owner, or his or her designee, when capturing furbearing animals or squirrels within one-hundred yards of the owner’s home when the animals are causing damage to the owner’s property. Animals captured under this exemption may not be relocated and must be released on site or destroyed. (50-11-2570)

Trapper’s Responsibility
A person may trap on lands that he owns, or on lands owned by others, provided the trapper has written permission from the landowner. The written permission must be in the trapper’s possession at all times while engaged in trapping activities. There is no trapping allowed on any Wildlife Management Area or Heritage Preserve lands. All traps must be checked at least once daily from two hours before official sunrise to two hours after official sunset. Body gripping traps used in water sets and other traps used in submersion sets must be checked once every 48 hours. No one, except the owner of the trap, may remove any legally trapped animal from the trap; however, a licensed trapper may tend another’s traps with written permission of the trap’s owner or agent.

Though no longer required, any person shipping or transporting raw furs, pelts, hides or whole animals out of South Carolina can obtain a shipping certificate from the SCDNR if the receiving state or entity requires one, and/or the fur harvest licensee requests this certificate. A conservation officer must be notified at least 48 hours prior to the need of a shipping certificate in order to inspect the package and issue the certificate. A list of SCDNR Law Enforcement offices can be found on pages 95-104. (50-11-2430, 50-11-2440, 50-11-2445, 50-11-2500)

Special Tagging Requirement for Bobcat and Otter
Any person required to have a commercial fur license who takes any bobcat or otter must tag the fur, pelt, hide, or whole animal before it is sold, shipped, transported to any person or business, or transported out of the state, if required by the Federal Government in order to comply with the Convention on International Trade in Endangered Species (CITES). A commercial fur harvest license must apply to SCDNR before CITES tags can be issued. There is no fee for each individual tag, but the SCDNR must charge a processing fee of $3.00 for each order. No more than 10 tags may be ordered at any one time. Bobcat and Otter tags may only be ordered from Nov. 1st - April 30th.

The tags must be securely attached and may not be removed until the time of processing. CITES tags are nontransferable and may not be altered in any manner. The SCDNR may limit the number of tags issued for each species and the area in which they may be used. Furbearing animals to be sold as live animals are not required to be tagged. (50-11-2510)

Fur Harvest Reporting Requirement
All commercial fur harvest licensees shall submit an annual report of their harvest to the SCDNR by April 15th of each year, using forms provided by the SCDNR. In addition, a trapper shall maintain an accurate daily record of all live fox and coyote sales or transfers on forms provided by the SCDNR. These live fox and coyote transaction forms must be retained by the trapper and made available for reasonable inquiry by SCDNR employees.

Any trapper who sells or transfers live foxes or coyotes to permitted fox and coyote hunting enclosures must submit all daily records of these transactions by April 15th of each year on the forms provided by the SCDNR.

Failure to report by date due, upon 2nd offense, shall render the violator ineligible for a commercial fur harvest license the following year, in addition to fines for each offense. (50-11-2450, 50-11-2620, 50-11-2630, 50-11-2650)

Fur Buyers Reporting Requirement
Fur buyers shall keep a daily register of furs purchased on forms provided by the SCDNR. No later than the 10th day of each month the fur buyer shall furnish the SCDNR all daily register sheets from the previous month.

Failure to report will result in the loss of buying privileges for one year in addition to the prescribed penalties. (50-11-2490, 50-11-2560)

Importation of Wildlife
It is unlawful to bring, import, or cause to have imported a live coyote or fox into the state. It is also unlawful to release a coyote or fox into the state, except as authorized.

It is unlawful to import any other furbearing animals or carnivores to this state without a permit being issued by the SCDNR. However, any requests for permits to import furbearing animals as pets will routinely be denied. (50-11-1765, 50-11-2605, 50-11-2640, 50-16-20)

Possession and/or Sale of Live Foxes or Coyotes
Live foxes or coyotes may only be sold or transferred to the listed owner or operator of a permitted fox and coyote hunting enclosure by the licensed trapper who took the animal. A licensed trapper may only possess a live fox or coyote during the commercial fur harvest trapping season (Dec. 1 - Mar. 1) and for 30 days after (Mar. 2 - April 1). After this time, it is unlawful for anyone, except a current permitted fox and coyote enclosure, to possess a live fox or coyote without a permit issued by the SCDNR. (50-11-2650, 50-11-2630)

To obtain an application for a Commercial Fur Harvest License, contact the SCDNR licensing office at: 803-734-3833
Feral Hogs
Feral or wild hogs occur in the wild in every county of the state. They compete directly with native wildlife species, damage plants, agricultural crops, and threaten public and livestock health. It is illegal to remove a hog from the wild alive unless it is taken pursuant to a permit issued by the SCDNR at a cost of $50 (50-11-25). All hogs taken pursuant to a permit must be tagged in each ear with tags provided by the Department and may only be released onto the same tract of land or into a permitted hog hunting enclosure within the county where the hogs were captured. Hogs taken under permit within a county cannot be transported into or through another county.

Feral hogs may be trapped year-round on private lands without a license or permit. Cable restraints (snare) are not a legal trap for use on land, so hog traps utilizing any kind of snare are illegal (50-11-2460). Traps used to capture hogs must allow deer or bear a means to escape. All trapping laws regarding trap identification, permission to trap, and trap check requirements apply (see pages 69-70).

Swine brucellosis
Swine brucellosis is caused by a bacteria and is primarily a reproductive tract disease in wild pigs that can be transmitted to humans. Infections are manifested by flu-like symptoms including fever, headaches, muscle and joint soreness and weakness. The fatality rate in humans is very low, but the disease often is prolonged and debilitating. Humans have contracted swine brucellosis from handling and dressing wild swine. This disease is present in many wild hog populations in SC. Persons dressing wild swine should take the following precautions: 1) use disposable rubber gloves and protective eyeglasses while dressing the carcass, 2) minimize handling of the reproductive tracts of both sexes, 3) dispose of waste parts by burying or burning, 4) clean up with hot water and soap after processing, and 5) cook meat thoroughly to 160°F prior to eating.

Hunting Feral Hog, Coyotes, & Armadillos
A hunting license is required, however there is no closed season on hunting feral hogs, coyotes, and armadillos on private land statewide during daylight hours. The use of bait and electronic calls is legal on private lands statewide.

Feral hogs, coyotes and armadillos may be hunted at night on a registered property on which a person has a lawful right to hunt, using any legal firearm, bow and arrow, or crossbow. This includes the use of bait, electronic calls, artificial lights, and night vision devices. A property may be registered online on the SCDNR website (www.dnr.sc.gov/hunting), and must be registered annually. It is unlawful to hunt feral hog, coyotes, and armadillos at night on property not registered with SCDNR. Persons convicted of night hunting for deer, bear, or turkey during the previous five years are ineligible to hunt feral hogs, coyotes, or armadillos at night.

No feral hog, coyote, or armadillo hunting with firearms is allowed at night within 300 yards of a residence without the permission of the occupant; however, this does not apply to a landowner hunting his own land, or hunting under the authority of a SCDNR depredation permit. No shooting or attempting to shoot from, on, or across any public paved road.

In order to assess the night hunting program, the person registering the property must report to the department the number of feral hogs, coyotes, and armadillos taken under the provisions of this section within thirty days following the end of the twelve month registration period, or prior to registering the property again. Properties for which reports have not been submitted will not be registered again until such time that reports are submitted (50-11-715).

Feral hogs, coyotes, and armadillos cannot be hunted at night on WMA lands, but can be hunted during the day on WMAs where feral hog, coyote, and/or armadillo hunting is allowed. On WMA lands, weapons used to hunt feral hog, coyotes, and armadillos are limited to the weapon(s) that are allowed for the current open season on the WMA unless otherwise specified — see WMA seasons listing in the Game Zones sections beginning on page 95, and see WMA feral hog hunting on page 105. The use of electronic calls for feral hog and coyote hunting is permitted statewide on WMA lands.

Dog hunting for feral hogs and coyotes is allowed year-round on private lands statewide. Deer may not be hunted with dogs on any lands in Game Zones 1 & 2. On WMA lands in Game Zones 1 & 2, feral hogs and coyotes may not be hunted with dogs during still gun and muzzleloader hunts for deer or bear. Dogs can be used to hunt and bay hogs at night on private lands as long as the hunter(s) complies with the property registration requirement. Dogs can be used on WMA lands to hunt feral hogs only during special hunts with dogs — see WMA feral hog hunting on page 105.

The possession or transport of live coyotes is allowed only by licensed trappers during the trapping season and thirty days after the close of the trapping season, or by special permit from the SCDNR. Importation of coyotes into the state is a violation of both State and Federal law.

Coyote Harvest Incentive Program
The Coyote Harvest Incentive Program was established with a 2016 Legislative budget proviso, directing SCDNR to tag and release four coyotes per game zone (16 total). Anyone taking one of the SCDNR-tagged coyote will be rewarded with a free lifetime hunting license. The person reporting the tagged coyote has the option to designate anyone for the lifetime license such as a child, relative, or friend. This program has continued each year since 2016. At the time of this printing, 64 SCDNR-tagged coyotes have been released with approximately half still remaining.

Calling All Hunters
Help Save Our Deer

Hunters are Needed to Help Control the Coyote Population!

• Coyotes are nonnative; however, they are now well established in all South Carolina counties.
• Studies show that over 50% of fawn mortality can be due to predation by coyotes.
• Studies show that coyote control may improve fawn survival.
• To be effective, coyote management efforts must be intensive and conducted annually.
• Based on the 2019 estimated harvest of 20,674 coyotes, population numbers are down over 36% since 2014.
• Since hunting remains the number one source of deer mortality, the impact of coyotes can largely be offset through appropriate changes to deer management strategies, particularly doe harvest.

For more information on how to help control coyotes, visit www.dnr.sc.gov/coyotes

<tbody>
<tr>
<td>Mourning Doves</td>
<td>15 Total</td>
</tr>
</tbody>
</table>
| Early Teal (Blue & Green-winged) | 6 Total  
6 Total including those species not named below.  
• Including no more than 4 each of the following:  
  » Eiders,  
  » Scoters,  
  » Long-tailed ducks.  
• Including no more than 3 each of the following:  
  » Wood Ducks.  
• Including no more than 2 each of the following:  
  » Mallards (no more than 1 hen),  
  » Redheads,  
  » Scaup (2/day, 11/21-28, 12/12-23); (1/day, 12/24 - 1/31),  
  » Canvasback.  
• Including no more than 1 each of the following:  
  » Pintails,  
  » Fulvous whistling duck,  
  » Black-bellied whistling duck.  
• For Black Ducks or Mottled Ducks, see note below. |
| Canada Geese (September 1—September 30) | 15 Total |
| Canada Geese & White-Fronted Geese (Remainder of Season) | 5 Total  
No More than 2 White-Fronted Geese |
| Snow Geese | 25 Total |
| American Coots | 15 Total |
| Mergansers | 5 Total, No more than 1 Hooded Merganser |
| Marsh Hens/Rails | King and Clapper—15 Total  
Sora and Virginia—25 Total |
| Common Moorhens & Purple Gallinules | 15 Total |
| Common Snipe | 8 Total |
| Woodcock | 3 Total |
| Brant | 2 Total |

The black duck/mottled duck bag limit is as follows: 1) for areas east and south of Interstate #95 - one black or one mottled duck in the total bag; 2) for areas west and north of Interstate #95 - two black ducks or one black duck and one mottled duck in the total bag.

The possession limit is three times the daily bag for each group or individual species as listed above except there is no possession limit for snow geese.
Canada Goose Hunting Area: During the September 1—September 30 segment hunting for Canada Geese is allowed statewide. During the remaining three segments, the hunting area excludes that portion of Clarendon County bounded to the north by S-14-25; to the east by Hwy 260; and to the south by the markers delineating the channel of the Santee River. It also excludes that portion of Clarendon County bounded on the north by S-14-26 and extending southward to that portion of Orangeburg County bordered by Hwy #6.

State Youth Day: Nov. 14, 2020 (Legal Species: Ducks, mergansers, coots.) Only youth who are 17 years of age or younger may hunt, but they must be accompanied by an adult of at least 21 years of age who is fully licensed. Youth who are 16 and 17 years of age, who hunt on this day, must possess a Migratory Bird Permit and a valid Federal Waterfowl Stamp. Daily and possession bag limits are the same as indicated for regular seasons, except only one scaup.

Federal Youth Days: Feb. 6 and Feb. 13, 2021 (Legal Species: Ducks, geese, mergansers, coots, moorhens, gallinules.) Only hunters 17 of age or younger may hunt on these days but must be accompanied by a person at least 18 years of age. Youth who are 16 and 17 years of age, who hunt on these days, must possess a valid South Carolina hunting license and Migratory Bird Permit and a valid Federal Waterfowl Stamp. Daily and possession bag limits are the same as indicated for regular seasons except scaup limit is two.

Veteran/ Active Duty Military Days: Feb. 6 and Feb. 13, 2021 (Legal Species: Ducks, geese, mergansers, coots, moorhens, gallinules.) Veterans and active duty military who hunt on these dates must possess a valid South Carolina hunting license and Migratory Bird Permit and a valid Federal Waterfowl Stamp. Daily and possession bag limits are the same as indicated for regular seasons except scaup limit is two.

Sea Duck Area and Duck Limits Within this Area: The sea duck area is the Atlantic Ocean waters separated from any shore, island or emergent vegetation by at least one mile of open water. In this area, the sea duck limit is 5 with no more than 4 scoters, 4 eiders or 4 long-tailed ducks. In addition and within this area, a hunter may take up to 6 other ducks as described for the rest of the state but not including sea ducks. The shooting of crippled waterfowl from a vessel under motor power in the sea duck area is allowed.

Extended Falconry Season: Falconry is a permitted means of taking ducks, coots and mergansers in South Carolina. The extended season for falconry shall be November 2, 2020 through Nov. 20, 2020 and Dec. 1, 2020 through Dec. 11, 2020. Daily bag and possession limits for these birds shall not exceed 3 and 9 birds, respectively, singly or in the aggregate. Statewide hunting hours shall be one-half hour before sunrise to sunset.
Crows
A hunting license is required to hunt crows. Crows are migratory birds and as such, are a federally-protected species. The season is based on criteria established by the US Fish and Wildlife Service. The open season for crows on private lands in South Carolina is Nov. 1 - Mar. 1. There is no bag limit. During the open season on private lands, crows may be taken with any firearm, bow and arrow, or by falconry. Crow hunting on WMA lands is permitted. During the open season for small game hunting on WMAs, crows may only be hunted with weapons legal for small game. The use of electronic calls for crow hunting is permitted statewide on private land and WMA land. Crows damaging crops may be taken at any time using non-toxic shot without a federal permit (50 CFR 21.43). Any person acting under this depredation order must provide an annual report to the USFWS Region 4 Migratory Bird Permit Office.

How do I buy a Federal Migratory Bird Hunting & Conservation Stamp?
The Electronic Federal Endorsement is available at SCDNR regional offices, point of sale license vendors and online. The Endorsement is valid for 45 days. The physical stamp is mailed by the USFWS fulfillment vendor within 45 days. Federal stamps are available at select US Post offices, by calling 1-800-STAMP24 (782-6724) or online at www.fws.gov.

What is the Migratory Bird Permit?
Each year, before hunting migratory game birds, including doves and waterfowl, hunters 16 years of age and older are required to obtain a Migratory Bird Permit. Hunters are asked to complete a short survey, also known as the Harvest Information Program (HIP) survey, about migratory game bird hunting in SC for the previous year. The survey is part of the license sales process when a hunting privilege is included. A HIP certification from another state is not valid in SC and hunters are required to register for HIP in each state they hunt migratory game birds.

Hunters 64 years of age or older who hold a lifetime hunting, lifetime combination, senior, gratis or Catawba license are not required to obtain a migratory bird permit.

A waterfowl hunter 16 years of age or older must carry:
1. A valid South Carolina Annual Migratory Waterfowl Permit ($5.50) or Lifetime Migratory Waterfowl Permit ($110) endorsement on their license;
2. A valid federal Migratory Bird Hunting and Conservation Stamp ($25);
3. A valid South Carolina Migratory Bird Permit (No Cost) endorsement on their license;
4. A valid South Carolina Hunting License;
5. A valid South Carolina WMA Permit if hunting on a Wildlife Management Area.

*The WMA permit is included in the Junior Sportsman, Resident Annual and 3-Year Sportsman License.
HUNTING

MIGRATORY BIRD GENERAL REGULATIONS

Federal Regulations Overview
In addition to state regulations, the following federal rules apply to the taking, possession, shipping, transporting and storing of migratory game birds.

Caution: The following material is only a summary. Each hunter should also consult the actual Federal Regulations, which may be found in Title 50, Code of Federal Regulations, Part 20, available at http://www.fws.gov/hunting/whatres.html.

Illegal Hunting Methods
No persons shall take migratory game birds:

1. With a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10 gauge, punt gun, battery gun, machine gun, fish hook, poison, drug, explosive, or stupefying substance;

2. With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, so its total capacity does not exceed three shells.

3. From or by means, aid, or use of a sinkbox or any other type of low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water;

4. From or by means, aid, or use of any motor vehicle, motor-driven land conveyance, or aircraft of any kind, except that paraplegics and persons missing one or both legs may take from any stationary motor vehicle or stationary motor-driven land conveyance;

5. From or by means of any motorboat or other craft having a motor attached, or any sailboat, unless the motor has been completely shut off and/or the sails furled, and its progress there from has ceased;

6. By the use or aid of live birds as decoys; although not limited to, it shall be a violation of this paragraph for any person to take migratory waterfowl on an area where tame or captive live ducks or geese are present unless such birds are and have been for a period of 10 consecutive days prior to such taking, confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of wild migratory waterfowl;

7. By the use or aid of recorded or electrically amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds.

8. By means or aid of any motor driven land, water, or air conveyance, or any sailboat used for the purpose of or resulting in the concentrating, driving, rallying, or stirring up of any migratory bird.

9. By the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited.

What Terms Do I Need To Understand?

Daily Bag Limit
You can take only one daily bag limit in any one day. This limit determines the maximum number of gamebirds of a single species, or combination of species, you may legally have in your possession while in the field or while in route back to your car, hunting camp, home or other destination.

Aggregate Daily Bag Limit
The maximum number of migratory game birds permitted to be taken by one person in any one day during the open season when such person hunts in more than one specified geographic area and/or for more than one species for which a combined daily bag limit is prescribed. The aggregate daily bag limit is equal to, but shall not exceed, the largest daily bag limit prescribed for any one species or for any one specified geographic area in which taking occurs.

Possession Limit
The maximum number of migratory game birds of a single species, or a combination of species, permitted to be possessed by any one person.

Aggregate Possession Limit
The maximum number of migratory game birds of a single species, or combination of species, taken in the United States permitted to be possessed by any one of the species or specified geographic areas in which taking occurs.

Tagging
You cannot put or leave migratory game birds at any place or in the custody of another person unless you tag the birds with your signature, address, number of birds identified by species and the date you killed them.

Wanton Waste
You must make a responsible effort to retrieve all migratory game birds that you kill or cripple and keep these birds in your actual custody while in the field. You must immediately kill any wounded birds that you retrieve and count those birds toward your daily bag limit.

Made in South Carolina, we offer the finest pintail, wood duck, teal/gadwell, mallard and goose calls available! www.biglakeoutdoorproducts.com
Rallying
You cannot hunt migratory game birds that have been concentrated, driven, rallied or stirred up with a motorized vehicle or sailboat.

Dressing
You cannot completely field-dress migratory game birds before taking them from the field. The head or one fully-feathered wing must remain attached to the birds while you transport them to your home or to a facility that processes waterfowl.

Dual Violation
A violation of State migratory game birds hunting regulations is also a violation of Federal regulations.

Personal Abode
One’s principal or ordinary home or dwelling place, as distinguished from one’s temporary or transient place of abode or dwelling such as a hunting club, or any clubhouse, cabin, tent or trailer house used as a hunting club, or any hotel, motel, or rooming house used during a hunting, pleasure or business trip.

Migratory Bird Preservation Facility
1. Any person who, at their residence or place of business and for hire or other consideration; or
2. Any taxidermist, cold-storage facility or locker plant which, for hire or other consideration; or
3. Any hunting club which, in the normal course of operations; receives, possesses, or has in custody migratory game birds belonging to another person for purposes of picking, cleaning, freezing, processing, storage or shipment.

Protected Birds
Federal law prohibits the killing of non-game migratory birds. Protected birds that you could encounter while waterfowl hunting include songbirds, eagles, hawks, owls, vultures, herons, egrets and woodpeckers.

WANTON WASTE AND TRESPASS
The requirement to retrieve downed migratory birds does not allow you to trespass onto the lands of another.
If you hunt near property lines, you are placing yourself at risk of committing wanton waste or trespass.

WE BUILD STEALTH
Whether you are stalking wild turkey or rainbow trout, Power-Pole Shallow Water Anchors help you ambush your prey while on the river. The virtually silent deployment ensures that you’ll be able stop and secure your boat so that you can line up that perfect shot or make that perfect cast without spooking your target. So whether you prefer a rifle or a rod and reel, the Power-Pole anchor is ideal for all those times you don’t want to be noticed. Go to power-pole.com for more details or to find a dealer near you.
Baiting Laws
Federal rules prohibit the taking of migratory game birds by the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited.

It is legal to take migratory game birds including waterfowl, coots and cranes, on or over the following lands or areas that are not otherwise baited areas:

- Standing crops or flooded standing crops (including aquatics);
- Standing, flooded or manipulated natural vegetation; flooded harvested croplands; or lands or areas where seeds or grains have been scattered solely as the result of a normal agricultural planting, harvesting, post-harvest manipulation or normal soil stabilization practice;
- From a blind or other place of concealment camouflaged with natural vegetation;
- From a blind or other place of concealment camouflaged with vegetation from agricultural crops, as long as such camouflaging does not result in the exposing, depositing, distributing or scattering of grain or other feed; or
- Standing or flooded standing agricultural crops where grain is inadvertently scattered solely as a result of a hunter entering or exiting a hunting area, placing decoys, or retrieving downed birds.

Who is responsible?
Hunters, guides and landowners are responsible for understanding and obeying regulations about baiting and knowing the conditions of the area to be hunted.

What is baiting?
Baiting means the direct or indirect placing, exposing, depositing, distributing or scattering of salt, grain, or other feed that could serve as a lure or attraction for migratory game birds to, on, or over any areas where hunters are attempting to take them.

What is a baited area?
A baited area is any area on which salt, grain or other feed has been placed, exposed, deposited, distributed or scattered, if that salt, grain or other feed could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them.

For how long?
An area is considered baited for ten days following the complete removal of all salt, grain or other feed.

What about normal agricultural operations?
Normal agricultural operation means a normal agricultural planting, harvesting, post-harvest manipulation or agricultural practice that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.

What is a normal soil stabilization practice?
A normal soil stabilization practice means a planting for agricultural soil erosion control or post-mining land reclamation conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture for agricultural erosion control. Agricultural erosion control typically involves seeding prior to leaf drop or defoliation, mowing or shredding of crop residue to cover seed, or seeding prior to crop harvest to result in soil-seed contact and/or covering of the seed.

Top sowing of seed to control erosion on impoundment dikes, pond dams, roadways, logging decks, skid trails, power line rights-of-way, or construction sites may be considered erosion control if done according to Clemson Extension Service guidelines.

What is manipulation?
Manipulation means the alteration of natural vegetation or agricultural crops by activities that include, but are not limited to, mowing, shredding, disking, rolling, chopping, trampling, flattening, burning or herbicide treatments. The term manipulation does not include the distributing or scattering of grain, seeds or other feed after removal from or storage on the field where grown.

What is considered natural vegetation?
Natural vegetation means any non-agricultural, native or naturalized plant species that grows at a site in response to planting or from existing seeds or other propagules. The term natural vegetation does not include planted millet. However, planted millet that grows on its own in subsequent years after the year of planting is considered natural vegetation.

Hunting over agricultural land manipulated for wildlife management?
The baiting regulation does not prohibit the taking of any migratory game bird, EXCEPT waterfowl, coots and cranes, on or over lands or areas that are not otherwise baited areas, and where grain or other feed has been distributed or scattered solely as the result of manipulation of an agricultural crop or other feed on the land where grown, or solely as the result of a normal agricultural operation.

In order to understand the law's application, the sportsman should know the legal definition of "take," which refers to the attempt to take as well as the act of taking itself: "Take" means to pursue, hunt, shoot, wound, kill, trap, capture or collect, or attempt to pursue, hunt, shoot, wound, kill, trap, capture or collect.

Equally important to understanding the law is a familiarity with what is meant by normal agricultural operations: that is, what constitutes the recommended agricultural practices in South Carolina for planting corn, millet, wheat, sunflowers or other grains. The Clemson University Extension Service is the authority for this in South Carolina and publishes an agricultural planting guide annually. There is a Clemson Extension Service Office in almost every county.

Hunting over agricultural land manipulated for wildlife management?
The baiting regulation does not prohibit the taking of any migratory game bird, EXCEPT waterfowl, coots and cranes, on or over lands or areas that are not otherwise baited areas, and where grain or other feed has been distributed or scattered solely as the result of manipulation of an agricultural crop or other feed on the land where grown, or solely as the result of a normal agricultural operation.

In order to understand the law's application, the sportsman should know the legal definition of “take,” which refers to the attempt to take as well as the act of taking itself: “Take” means to pursue, hunt, shoot, wound, kill, trap, capture or collect, or attempt to pursue, hunt, shoot, wound, kill, trap, capture or collect.

Equally important to understanding the law is a familiarity with what is meant by normal agricultural operations: that is, what constitutes the recommended agricultural practices in South Carolina for planting corn, millet, wheat, sunflowers or other grains. The Clemson University Extension Service is the authority for this in South Carolina and publishes an agricultural planting guide annually. There is a Clemson Extension Service Office in almost every county.
DOVE HUNTING & BAITING

The greatest majority of dove shoots in South Carolina are held over three kinds of fields:

1. Harvested fields composed of combined or picked corn, combined soybean fields, or other fall harvested crops.
2. Fields where crops are grown and manipulated for wildlife management purposes.
3. Fields where wheat or other grains have recently been planted.

Usually the first two types of fields are easily identified as legal fields. The regulations permit shooting doves on or over standing crops, grain crops properly shocked on the field where grown, or grains found scattered solely as the result of normal agricultural planting or harvesting. The regulations also allow shooting doves on or over fields where shelled, shucked corn, wheat, or other grain, or other feed has been distributed or scattered as the result of normal agricultural operations.

The third type of field, where wheat or other grains have recently been planted, often causes confusion. Clemson Extension now considers the top sowing of wheat without covering to be a normal agricultural practice for wildlife planting as long as the seed is planted between October 1 and November 30 when evenly spread on a well-prepared seed bed established by heavy tilling. The Clemson Extension Service does not consider the top sowing of any other grain (i.e. those outside of the small grains listed by Clemson Extension Service guidelines) without covering the seed to be a normal agricultural practice.

The Law

The federal code of regulations addresses dove hunting in two sections, the first describing when dove hunting is not legal, the second describing when it is legal.

Illegal Dove Hunting

Baiting and the Baited Area – The following regulation states that baiting is illegal and then defines what baiting and a baited area is:

“No person shall take migratory game birds (of which the dove is one) by the aid of baiting, or on or over any baited area.”

“Baiting” shall mean the placing, exposing, depositing, distributing or scattering of shelled, shucked or unshucked corn, wheat or other grain, salt or feed so as to constitute for such birds a lure, attraction or enticement to, on, or over any areas where hunters are attempting to take them.

“Baited area” means any area where shelled, shucked or unshucked corn, wheat or other grain, salt or other feed whatsoever capable of luring, attracting or enticing such birds is directly or indirectly placed, exposed, deposited, distributed or scattered.

Baiting by piling grain unfairly concentrates birds in a small area where they will be an easy target for the unethical hunter. Not only do some hunters tend to overshoot their limit on a baited field, but they enjoy an unfair advantage over hunters seeking their share of the resource in nearby legal fields.

The standard for establishing guilt for a person charged with hunting over bait is whether the person “knows or reasonably should know that the area is or has been baited.” A hunter is responsible for determining the legality of a field before hunting on the field. Seeds, grain or other feed broadcast on freshly-plowed ground is an obvious baiting violation, and would almost certainly meet the standard that any hunter hunting on the field “knows or reasonably should have known that the area is or has been baited.”

Baiting regulations are intended to provide equity among those competing for the dove resource, to encourage sound wildlife management practices, and to protect the dove population, a resource that federal and state agencies are required to protect by vigorous law enforcement.

New state and federal penalties apply to those convicted of hunting migratory birds over bait or baiting a field.

Legal Dove Hunting

The second section defines two settings where hunting is legal over agricultural land. One is when the hunter shoots over crops just planted or harvested in a normal agricultural manner. The second is when a landowner grows crops using normal agricultural practices with the intent of manipulating them for wildlife management purposes.

What You Can Do

Besides a sincere effort to understand and abide by the law, the sportsman can protect him/herself from inadvertent violations by observing a few precautions. For instance, when organizing a shoot or a club hunt, make sure you know what has been done to the dove field(s) and when.

If possible, visit the field several days before the hunt either in the early morning or mid afternoon. If you are invited on a hunt, check with your host to find out the field’s condition.

Anyone previewing a field before a hunt should look for the doves themselves. An unusual concentration will direct your attention to their reason for being there. If the doves are feeding on waste grain from a field that has been harvested, such as combined corn or soybeans, the field is legal. If the birds are feeding on fields where crops have actually been grown and manipulated so as to scatter the grain over the field, that is legal too.

If a field has been top sown with wheat, make sure it was planted according to Clemson Extension Service guidelines between October 1 and November 30 when evenly spread on a well-prepared seed bed established by heavy tilling.

Other fields to avoid are those with cracked grains or wheat placed in piles or strips. This is baiting in its most obvious form. Also steer clear of a field with any sign of rock salt in piles or strips. Because rock salt is lethal to mourning doves, using salt for bait is not only illegal under any circumstances, but inhumane and unethical. In freshly plowed or disked fields, be suspicious. This may be a field affected by the 10-Day Rule. That is, bait was placed in the field, the bait was removed, and then the field was plowed. The field is still not legal until 10 days after removal of all bait.

Finally, if the landowner or person preparing the field has any questions, they can direct their inquiries to any of the SCDNR offices listed in this brochure. If you are an invited guest, your questions concerning the legality of the field can best be answered by the person who prepared the field. In the event of a field check, the officers determination of the field’s condition will only apply to the field at the time of inspection.
**WATERFOWL HUNTING & BAITING**

Waterfowl and other migratory birds are a national resource protected under the Migratory Bird Treaty Act. Federal regulations define key terms for hunters and land managers, and clarify conditions under which you may legally hunt waterfowl. As a waterfowl hunter or land manager, it is your responsibility to know and obey all Federal and State laws that govern the sport. Waterfowl baiting regulations apply to ducks, geese, swans, coots and cranes.

**Can I manipulate crops in a field where waterfowl will be hunted?**

NO. Federal regulations are more restrictive for waterfowl hunting than for hunting doves and other migratory game birds. While unharvested agricultural crops may be manipulated to attract doves for hunting, manipulation of an unharvested agricultural crop to attract waterfowl for hunting creates a baited area.

**What about natural vegetation?**

Natural vegetation is any non-agricultural, native, or naturalized plant species that grows at a site in response to planting or from existing seeds or other propagules.

Natural vegetation does not include planted millet (like browntop and Japanese millet) because of its use as both an agricultural crop and a species of natural vegetation for moist soil management. However, planted millet that grows on its own in subsequent years is considered natural vegetation. If you restore and manage wetlands as habitat for waterfowl and other migratory birds, you can manipulate the natural vegetation in these areas and make them available for hunting. Mowing and burning of natural vegetation are common habitat management practices in South Carolina.

Natural vegetation does not include plants grown as agricultural crops. Under no circumstances can you hunt waterfowl over crops manipulated prior to a normal harvest. Nor can you hunt waterfowl over manipulated wildlife food plots or manipulated plantings for soil stabilization.

In South Carolina, many hunters and landowners manage native vegetation and planted agricultural crops to attract waterfowl for hunting. The Federal law is different for the management of these two food sources and hunters should pay particular attention to the differences.

**Shooting Hours**

Shooting hours for waterfowl are 1/2 hour before sunrise until 1/2 hour before sunset except during early seasons. Shooting hours are uniform statewide.

**Legal Shot**

The possession of lead shot is prohibited for all waterfowl hunting statewide. Non-toxic shot (steel, bismuth or other Federally approved shot) is required for all waterfowl hunting.

**Blind Regulations (SC Code of Laws 50-11-25)**

It is unlawful to take migratory waterfowl from blinds or positions where the floor level of the blind or the position is:

- more than ten feet above surface level in or around freshwater; or
- more than five feet above the mean high water in or around saltwater.

A blind on public lands or waters must be constructed from biodegradable materials. Once vacated, a blind on public lands or waters may be used by persons on a “first come, first served” basis.

**Airboat Regulations (SC Code of Laws 50-21-860)**

An “airboat” means a watercraft propelled by air pressure caused by a motor mounted on the watercraft aboveboard. It is unlawful for a person to operate an airboat on the public waters of this State from the freshwater-saltwater dividing line, established by Section 50-17-30, seaward.

It is unlawful to operate an airboat on the waters of the Waccamaw, the Great Pee Dee, the Little Pee Dee, the Black and the Sampit Rivers in Georgetown and Horry Counties from one hour before legal sunset to one hour after legal sunrise and anytime during the season for hunting waterfowl.

It is unlawful to operate an airboat on the waters of that portion of Lake Marion and Santee Swamp west of the I-95 bridge upstream to the confluence of the Congaree and Wateree Rivers during the season for hunting waterfowl.

The provisions of 50-21-860 do not apply to the operation of airboats by law enforcement, emergency medical, civil defense, noxious weed control, military personnel, state and federally approved wildlife banding, surveying, biological research programs and private waters.

**Federal Migratory Bird Hunting & Conservation Stamp**

If you are 16 or older, you must carry on your person an unexpired Federal migratory bird hunting and conservation stamp. You must validate your duck stamp by signing it in ink across the face before hunting. You may also purchase a Federal Duck Stamp online as an Electronic Duck Stamp which is valid for 45 days from the date of purchase. Within that time, a physical Duck Stamp will be mailed to you. After 45 days, you must carry your current, signed Federal Duck Stamp while hunting. You must also have a valid South Carolina Migratory Waterfowl Permit or have proof of purchase before hunting.

**Hunting Waterfowl Is Prohibited Within Certain Distances Of Residences On Portions Or All Of The Following Bodies Of Water**

- **Lake Marion** (200 yards)
- **Lake Moultrie** (200 yards)
- **Lake Wateree** (200 yards)
- **Lake Keowee** (200 yards)
- **Lake Murray**
  - Newberry & Saluda Counties (200 yards)
  - Lexington & Richland Counties (350 yards)
- **Lake Wateree** (200 yards)
- **Lake Marion**
  - Potato Creek (200 yards)
  - Wyboo Creek (200 yards)
  - Dean Swamp in Clarendon County and adjacent to Santee Cooper Resort in Orangeburg County. (200 yards)
  - Public waters in Calhoun County from the confluence of the Congaree and Wateree Rivers downstream to Poplar Creek. (200 yards)
  - Taw Caw Creek in Clarendon County (No Hunting)
- **The cove immediately to the SE of the Indian Bluff Recreation site. (No Hunting)**
- **Lake Moultrie** (200 yards)
- **Lake Wylie** (200 yards)
- **Murrell’s Inlet Creek** in Georgetown County (100 yards)

It is unlawful to hunt waterfowl on the lakes listed above within the distances provided unless a person has written permission from the owner and occupant of the dwelling. There are no exceptions to the distance restriction on Lake Keowee.

* Lake Succession is closed to waterfowl hunting.
General Waterfowl Management Area Regulations

**Category I And Category II Hunting on Category I** Designated Waterfowl Areas is permitted only by means of special permit obtained through an annual drawing.

For applications contact: Public Drawing Hunts, SCDNR, PO Box 167, Columbia, SC 29202 or visit our web site at [www.dnr.sc.gov](http://www.dnr.sc.gov) or your local DNR office.

**Hunting on Category II Designated Waterfowl Areas** is permitted only during specified days and times during waterfowl seasons including September seasons for Canada Goose and Teal.

**Designated Waterfowl Or Dove Management Areas** Unless specially designated by the SCDNR as a Waterfowl or Dove Management Area, all WMAs and Hunt Units are open during the regular season including September seasons for hunting and taking of migratory birds except where restricted to special small game seasons and within migratory bird framework.

The Department may designate sections of Wildlife Management Areas and other lands and waters under the control of the Department as Designated Waterfowl Management Areas or Designated Dove Management Areas. In addition, the Department may set special shooting hours, bag limits, and methods of hunting and taking waterfowl and doves on those areas. All State and Federal migratory bird laws and regulations apply.

Regulations pertaining to the use of Dove Management Areas will be filed annually.

On Designated Waterfowl Areas, no species other than waterfowl may be taken during waterfowl hunts. On Designated Dove Management Areas no species other than doves may be taken during dove hunts. Only dove hunting is allowed at Lake Wallace.

**Non Toxic Shell Requirement**

On all State-owned, US Forest Service and other Federally owned Category I and II Waterfowl Management Areas each hunter is limited to 25 Federally approved non-toxic shells per hunt.

**Hunting From Blinds**

On areas where blinds are not provided, only portable blinds which are removed at the conclusion of the hunt or temporary blinds of native vegetation may be used. Temporary blinds once vacated may be used by other hunters.

**Fishing Restrictions**

No fishing is permitted in any Category 1 Designated Waterfowl Management Area during scheduled waterfowl hunts.

**Consent To Search**

Entry onto WMA land constitutes consent to an inspection and search of the person, vessel, game bag or creel.

**Category I Areas**

- Bear Island WMA
- Beavardam WMA
- Bonneau Ferry WMA
- Broad River WMA
- Clemson
- Donnelley WMA (portions)

WMA PUBLIC DOVE FIELDS

Dove Management
Area Regulations
The following fields are open on a first-come basis. A Wildlife Management Area permit is required for all fields. Please consider the other hunters as well as the landowners whose cooperation makes these fields possible. Signs will be placed along roads directing hunters to the fields. All federal and state laws apply. Fields are open only on days and times indicated. Fields denoted by an asterisk (*) require hunters to sign in (not before 12:00 noon) and sign out on ALL hunts. No species other than mourning doves and Eurasian collared doves may be hunted during scheduled dove hunts. Please remove all litter, including spent shell hulls, from fields when leaving!

Don’t forget to get a Migratory Bird Permit from your license vendor – it’s required but it’s Free!

Bag Limit: Mourning Doves: 15 doves per day. No limit on Eurasian collared doves.

All Hunters Please Note! The following special regulations apply to ALL Wildlife Management Area Public Dove Fields:
1. Hunters are limited to 50 shells per hunt.
2. Dove hunting on all public fields is “Afternoon Only.” No entry onto fields before noon.
3. No shooting after 6:00 p.m. during the first segment of the season (Sept. 5 – Oct. 10).

• Call (864) 427-5140 for details.
The Public Dog Training Areas now open in South Carolina are:

- The entirety of the Angelus WMA in Chesterfield County
- A Portion of the Cliff Pitts WMA in Laurens County
- A portion of the Edisto River WMA in Dorchester County
- A portion of the Landsford Canal WMA in Chester County

Public Bird Dog Training Areas now available

The South Carolina Department of Natural Resources recently announced the opening of four Public Bird Dog Training Areas. On these areas, anyone with a valid hunting license and a Wildlife Management Area (WMA) permit can train bird dogs between Sept. 15 and March 15 (excluding Sundays). Dog trainers may release and take pen-raised quail or pigeons for training purposes, only within the areas designated by posted signs reading “Bird Dog Training Area”. Specific boundaries of the Bird Dog Training Area are delineated on maps within the kiosks located at the WMA parking areas and are well marked with signage.

- It is unlawful to take game by any means (other than released quail or pigeons) within the bird dog training areas, except during the lawful open seasons for such game.
- Participants in dog training may not possess any firearms or other equipment for taking game except handguns or shotguns with blank cartridges, or shotguns with number 8 shot or smaller may be used while training dogs using pen-raised quail or pigeons.
- All participants in bird dog training must wear a hat, coat or vest of solid visible international orange.
- Dog trainers using pen-raised quail must possess proof of purchase for the birds or other documentation that the quail are pen-raised.

Tree Stand Safety IS NO ACCIDENT!

To prevent tree stand accidents, ALWAYS:

1. Wear an approved fall-arrest system when you hunt from an elevated position.
2. Use a lifeline or similar system to connect your fall-arrest system to the tree from the time you leave the ground until you get back down.
3. When climbing into or out of a tree stand, always use three points of contact with your hands and feet.
4. Do not climb with anything in your hands or on your back. Use a haul line. NEVER CLIMB WITH YOUR FIREARM.
5. Check your tree stand carefully prior to the season for any issues.
6. ALWAYS tell someone where you are hunting and when you will return.
The SCDNR Diversity Outreach Program seeks to increase outdoor recreational opportunities for everyone in South Carolina through programs geared toward the Hispanic and African American communities across the state. Our work involves educational initiatives that will enable all of South Carolina’s residents and visitors to fully enjoy and appreciate the outdoors in a safe and responsible way. We offer a variety of FREE programs throughout the year such as Nature hikes, Fishing Clinics and much more.

Contact us for additional information about our programs and the natural resources of the state. Send an e-mail to informacion@dnr.sc.gov or call us at 803-734-3729.

WMA Program

Through the cooperative effort of private landowners, the U. S. Forest Service and the SCDNR, Wildlife Management Areas (WMAs) are provided for the enjoyment of all wildlife enthusiasts. Funds generated from the sale of WMA permits enable the SCDNR to lease approximately 1.1 million acres of land for wildlife conservation and management.

Heritage Preserves are properties acquired by the SCDNR for the primary purpose of protecting habitat for rare and endangered species. Some heritage preserves offer game hunting opportunities and are included in the WMA Program. All persons using WMA lands are reminded that only US Forest Service lands and those areas marked by WMA signs are open to the public. Lands not posted with these signs are the property of private individuals, and landowner permission must be obtained.

General locations of the areas described below are shown on the map on page 94. For detailed maps showing these and other WMA lands, write WMA MAPS, SCDNR, P.O. Box 167, Columbia, SC, 29202, call 803-734-3886 or visit www.dnr.sc.gov/wma/maps.html. Reference map # from chart below.

**THANKS TO LANDOWNERS**

Landowners providing their land for public hunting and recreation are due much appreciation from the SCDNR and all outdoor enthusiasts. Without these lands, public hunting as provided in this state would be impossible. Sportsmen seeing the yellow and black diamond-shaped signs designating WMA boundaries should remember they are hunting as guests of the landowner and be respectful of this privilege.

WMA REGULATIONS

WMA Abuse
Any person who damages, destroys or misuses WMA lands or improvements on them including, but not limited to, roads, vegetation, buildings, structures or fences, leaves refuse, trash or other debris on the property, or sets, makes or builds a fire (except in an area specially designated as a campfire area), operates a motor conveyance on areas or roads closed to operation, target practices, camps in areas except for designated campsites, disregards safety or restrictive postings as designated by the landowner or who otherwise abuses, damages, destroys or misuses wildlife management areas is guilty of a misdemeanor and, upon conviction, must be fined $200 and be required to make restitution to the landowner in an amount determined by the court to be necessary to repair, rebuild or restore or clean up the property to its condition before the abuse occurred. A person who is convicted of damaging, destroying, abusing or misusing Wildlife Management Area land shall lose the privilege of entering WMA land for one year (50-11-2210).

WMA Public Drawing Hunts
* All SCDNR WMA Public Drawing Hunts are subject to modifications or cancellation due to the COVID-19 response guidelines* The SCDNR offers a variety of WMA hunts through computerized drawings. Hunt fees range from $5 to $25 per hunter and must be submitted at the time of application. Applications are available at SCDNR offices statewide (write SCDNR Public Drawing Hunts, P.O. Box 167, Columbia, SC 29202 or visit our website at www.dnr.sc.gov/hunting). A hunter’s privilege to participate in a Wildlife Management Area lottery hunt may be revoked for the remainder of the hunt for any violation of law or WMA regulations (SC 50-11-2240).

General Regulations
- On all SCDNR-owned WMA lands the removal of artifacts or ecofacts (including arrowheads) from the surface or subsurface is prohibited except when approved by the State Historic Preservation Office and carried out in accordance with their guidelines.
- Statutes 50-11-2200 and 50-11-2210 authorize the promulgation of WMA regulations R123-40. See specific game zones for seasons.

2.1 – Except as provided in these regulations, no person may hunt or take wildlife on areas designated by SCDNR as Wildlife Management Area (WMA) lands.

2.2 – Entry onto WMA land is done wholly and completely at the risk of the individual. Neither the landowners nor the State of South Carolina nor SCDNR accepts any responsibility for acts, omissions, activities or conditions on these lands which cause or may cause personal injury or property damage.

2.3 – Entry onto WMA land constitutes consent to an inspection and search of the person, game bag or creel.

2.4 – No person may hunt or take wildlife on WMA land unless an individual is in possession of a valid South Carolina license; a valid WMA permit; and other applicable federal or state permits, stamps, or licenses.

2.5 – No Sunday hunting is permitted on any WMA lands.

2.6 – On all WMA lands, baiting or hunting over a baited area is prohibited. As used in this section, “bait” or “baiting” means the placing, depositing, exposing, distributing, or scattering of shelled, shucked, or unshucked corn, wheat, or other grain or other food stuffs to constitute an attraction, lure, or enticement to, on, or over any area. “Baited area” means an area where bait is directly or indirectly placed, deposited, exposed, distributed, or scattered and the area remains a baited area for ten (10) days following the complete removal of all bait. Salt/minerals are not considered bait. However, depositing a salt/mineral block on WMA land can constitute litter, therefore, only liquid formulations should be used.

2.7 – On WMA lands construction or use of tree stands and temporary climbing devices is prohibited if the tree stand or temporary device is constructed by driving nails, screws or other devices into the tree; or the tree stand or temporary climbing device is constructed by wrapping wire around the tree. Other tree stands and temporary climbing devices are permitted provided they are not permanently affixed or embedded in the tree. All stands and temporary climbing devices must be removed by the end of deer hunting season.

2.8 – On WMA lands any hunter younger than sixteen (16) years of age must be accompanied by an adult (21 years or older). Sight and voice contact must be maintained.

2.9 – Notwithstanding any other provision of these regulations, the Department may permit special hunts on any day during the regular hunting season.

2.10 – No person may release or attempt to release any animal onto WMA lands without approval from the Department. This regulation does not apply on designated Public Bird Dog Training Areas where pen raised quail and pigeons may be released.

2.11 – While participating in a hunt on WMAs, no person may possess, consume or be under the influence of intoxicants, including beer, wine, liquor or drugs.

2.12 – On WMA lands, during the designated statewide youth deer hunt day, only still hunting is allowed. The limit is two deer total, either sex, tags not required.

2.13 – Taking or destroying timber, other forest products or cutting firewood on WMA lands without written permission from the landowner or his agents is prohibited. Users of WMA lands are prohibited from planting, attempting to plant, burning or otherwise attempting to manipulate crops, natural vegetation or openings without written permission from the landowner or his agent.

2.14 – On WMA lands, hunting armadillos and coyotes at night is prohibited. Armadillos and coyotes may be hunted during any open season for game during daylight hours with no bag limit. Weapon(s) used to hunt armadillos and coyotes are limited to the weapon(s) that are allowed for the current open season on WMA.

2.15 – On WMA lands during special designated hunts, a WMA may be closed to other public access.

2.16 – Still hunting for hogs is permitted on WMAs during any open season for game during daylight hours with only the weapons allowed during the hunting season in progress unless otherwise prohibited. No hog may be transported alive from a WMA. Hogs may not be hunted at night. There is no bag limit on hogs. Hunters must wear a hat, coat, or vest of solid international orange while hog hunting. Buckshot is prohibited. During hog hunts with dogs, no still or stalk hunting is allowed and only handguns are permitted. No hog hunting with dogs is allowed except during special designated seasons. During firearms seasons for deer, hog hunters possessing big game weapons must possess licenses, permits, and tags applicable to deer hunting. Big game weapons include centerfire weapons, archery equipment with broad heads, shot larger than No. 2, and muzzle-loading shotguns (larger than 20 gauge) and rifles/muskets (36 caliber or greater).
2.17 – Unless otherwise specified, small game hunting seasons and bag limits are the same as Game Zone seasons and bag limits except no hunting before Sept. 1 or after Mar. 1. The season for hunting beavers on WMA lands shall be October 1 through March 1.

**Weapons**

3.1 – On WMA lands hunters may use any shotgun, rifle, bow and arrow, crossbow or hand gun except specific weapons may be prohibited on certain hunts. Small game hunters may possess or use shotguns with shot no larger than No. 2 or .22 or smaller rimfire rifles/handguns or primitive muzzle-loading rifles/muskets of .40 caliber or smaller. Small game hunters may not possess or use buckshot, slugs or shot larger than No. 2. Blow guns, dart guns, drugged arrows or arrows with exploding tips are not permitted. Small game hunters using archery equipment must use small game tips on the arrows (judo points, bludgeon points, etc.).

3.2 – For Special Primitive Weapons Seasons, primitive weapons include bow and arrow, crossbow and muzzle-loading shotguns (20 gauge or larger) and rifles/muskets (.36 caliber or larger) with open or peep sights or scopes, which use black powder or a black powder substitute that does not contain nitro-cellulose or nitro-glycerin components as the propellant charge; there are no restrictions on ignition systems (e.g. Flintstone, percussion cap, shotgun primer, disk, electronic, etc.). During primitive weapons season, no revolving rifles are permitted. (Falconry Allowed).

3.3 – On WMA lands, big game hunters are not allowed to use armor-piercing, tracer, incendiary, or full metal bullets or .22 or smaller rimfire. Shotguns with only buckshot or slugs are allowed. Buckshot is prohibited during still gun hunts for deer on WMA lands in Game Zones 3-4.

3.4 – On WMAs all firearms transported in vehicles must be unloaded and secured in a weapons case, or in the trunk of a vehicle or in a locked toolbox. On the Francis Marion Hunt Unit during deer hunts with dogs, loaded shotguns may be transported in vehicles. Any shotgun, centerfire rifle, rimfire rifle or pistol with a shell in the chamber, magazine or muzzleloader with a cap on the nipple or flintlock with powder in the flash pan is considered loaded.

3.5 – No target practice is permitted on WMA lands except in specifically designated areas.

3.6 – On WMA lands during gun hunts for deer or hogs there shall be no hunting or shooting from, on or across any road open to vehicle traffic. During any deer or hog hunt there shall be no open season for hunting on any designated recreational trail on U.S. Forest Service or SC Public Service Authority property.

**Deer**

All deer must be tagged with a valid deer tag, as prescribed by the department before the animal is moved from the point of kill (50-11-320).

4.1 – On WMA lands with designated check stations, all deer bagged must be checked at a check station. Deer bagged too late for reporting one day must be reported the following day.

4.2 – Unless otherwise specified by the Department, only antlered deer may be taken on all WMA lands. Deer with visible antlers of less than two (2) inches above the hairline are considered antlerless deer and must be tagged with an antlerless deer tag issued by the Department. A point is any projection at least one inch long and longer than wide at some location at least one inch from the tip of the projection.

4.3 – On WMA lands, man drives for deer are permitted between 10:00 a.m. and 2:00 p.m. only. A man drive is defined as an organized hunting technique involving two (2) or more individuals whereby an attempt is made to drive game animals from cover or habitat for the purpose of shooting, killing, or moving such animals toward other hunters. On WMA lands, drivers participating in man drives are prohibited from carrying or using weapons.

- On special mobility impaired and youth deer hunts sanctioned by the Department, participants may take two deer total, either sex.

4.4 – For all WMAs combined statewide, the limit for all seasons and methods combined is two deer per day, 5 deer total, no more than two antlered bucks, unless otherwise specified. Antlerless deer limit is two deer per day, unless otherwise specified. All antlerless deer must be tagged with an individual antlerless deer tag.

4.5 – Individual Antlerless Deer Tags: Tags are valid in Game Zone 1 beginning Oct. 1 and in Game Zones 2, 3, and 4 beginning Sept. 15. For all WMAs combined a maximum of five (5) individual antlerless deer tags may be used in all Game Zones, except only three

---

**ATTENTION ALL SC DEER HUNTERS**

**OPERATION ROUND-UP**

Your hunting skills and harvest can be part of the solution for the problem of hunger in your community. Below are three ways you can help:

1. When you drop off your legally harvested deer at your processor, ask the processor if you can donate part or all of the meat to SC Hunters and Landowners for the Hungry. Our volunteers will make sure the meat gets delivered to an agency that will use it to feed the hungry in your community.

2. Connect on our website [SC Hunters for the Hungry](https://www.schuntersforthehungry.com) and simply make a donation to help offset our processor reimbursements. We are a 501(c)3 organization, so your donation is tax deductible and 100% of your donation goes exclusively to the accumulation and delivery of meat to the hungry in your area.

3. Become a volunteer with our organization. For more information contact us by:
   - E-mail: schuntersforthehungry@gmail.com
   - Phone: Bob Williams 484-542-9158
   - Tim Sorrells 864-525-5072

**HOGS ARE NO LONGER ACCEPTED**
individual antlerless deer tags may be used in Game Zone 1.

4.6 – All deer must be tagged immediately after harvest and before being moved from the point of kill and the tag must be validated as prescribed by the SCDNR. Tag must remain attached until the deer/carcase is quartered or received by a processor.

4.7 – For WMAs designated as Quality Deer Management Areas, all antlered deer must have a minimum 4 points on one side or a minimum 12-inch inside antler spread except during designated special youth hunts. Inside antler spread is measured at a right angle to centerline of the skull at its widest point between the main beams.

4.8 – On WMA lands, deer, hogs, or bear may not be hunted with a firearm within 300 yards of a residence.

Dogs
5.1 – On all WMA lands, dogs may be used for small game hunting unless otherwise specified.

5.2 – Dogs may be trained for squirrel, quail and rabbit hunting from Sept. 1 through Sept. 14 (no guns), except on designated Public Bird Dog Training Areas where bird dog training is allowed from September 15 to March 15 (Sundays excluded).

5.3 – On WMA lands, dogs may be used for hunting foxes, raccoons, bobcats or opossums only between thirty (30) minutes after official sunset and thirty (30) minutes before official sunrise.

5.4 – Unless otherwise specified, deer hunting with dogs on WMA lands is prohibited. The Department may permit deer hunting with dogs on WMA lands not located in Game Zones 1 & 2. For the purposes of tracking a wounded deer, a hunter may use one dog which is kept on a leash.

5.5 – Dogs may be used to hunt bear on WMA lands in Game Zone 1 during the special party dog bear season.

5.6 – On WMA lands, dogs may be used to hunt hogs only during special designated hog hunts with dogs.

Vehicles
All terrain vehicles are not allowed on any Heritage Preserve Reg. 123-203 D.1.

6.1 – On all WMA lands, no hunter may shoot from a vehicle unless permitted by the Department.

6.2 – On WMA lands, motor-driven land conveyances must be operated only on designated roads or trails. Unless otherwise specified, roads or trails which are closed by barricades and/or signs, either permanently or temporarily, are off limits to motor-driven land conveyances.

6.3 – A person may not obstruct, or cause to be obstructed travel routes on WMA lands.

Visible Color Clothing
7.1 – On WMA lands during any gun and muzzleloader hunting season for deer, bear and hogs, all hunters, including small game hunters, must wear either a hat, coat, or vest of solid visible international orange. Archery hunters during archery only deer seasons and hunters for dove, turkey, ducks, geese and other migratory birds (including crows) are exempt from this requirement while hunting for those species.

50-11-365 – All users except hunters for dove, ducks, geese, and other migratory birds including crows must wear a hat, coat, or vest of solid international orange during any deer hunting season.

Camping
8.1 – Camping is not permitted on WMA lands except in designated camp sites.

Trapping
9.1 – Trapping on WMA lands is not permitted.

Waterfowl & Dove Regulations
Dates, times, locations and regulations for hunts on designated Dove Management Areas (public dove fields) can be found beginning on page 82. Specific seasons, limits and regulations for waterfowl hunting can be found beginning on page 79.

10.1 – Unless specially designated by the Department as a Wildlife Management Area for Waterfowl or a Wildlife Management Area for Dove, all Wildlife Management Areas are open during the regular season for hunting and taking of migratory birds except where restricted.

10.2 – The Department may designate sections of Wildlife Management Areas and other lands and waters under the control of the Department as Designated Waterfowl Management Areas or Designated Dove Management Areas. All laws and regulations governing Wildlife Management Areas apply to these special areas. In addition, the Department may set special shooting hours, bag limits and methods of hunting and taking waterfowl and doves on those areas. All State and Federal migratory bird laws and regulations apply. Regulations pertaining to the use of Dove Management Areas will be filed annually.

10.3 – On areas where blinds are not provided, only portable blinds which are removed at the conclusion of the hunt or temporary blinds of native vegetation may be used. Temporary blinds once vacated may be used by other hunters.

10.4 – On Designated Waterfowl Areas, no species other than waterfowl may be taken during waterfowl hunts. On Designated Dove Management Areas no species other than doves may be taken during dove hunts. Only dove hunting is allowed at Lake Wallace WMA.

10.5 – No fishing is permitted in any Category 1 Designated Waterfowl Management Area during scheduled waterfowl hunts.

10.6 – The Bordeaux Work Center Area is closed to hunting except for special hunts as designated by the SCDNR.

10.7 – Impoundments on Bear Island, Bonneau Ferry, Broad River, Donnelley, Samworth, Sandy Beach, Santee Coastal Reserve, Sannee Cooper, Wateree River and Santee Delta WMAs are closed to all public access during the period Nov. 1 until Feb. 8, except during special hunts designated by the Department. All public access during the period Feb. 9 until Oct. 31 is limited to designated areas. On Bear Island WMA, Matthews Canal is closed to all hunting from Nov. 1 - Feb. 15 beyond a point 0.8 mile from the confluence of Matthews Canal with the South Edisto River.

10.8 – Potato Creek Hatchery Waterfowl Area is closed to public access and fishing one week prior to and two weeks after the Federal Waterfowl Season, except for scheduled waterfowl hunts. All hunters must enter and leave the Potato Creek Hatchery Waterfowl Area through the designated public landing on Secondary Road 260 and complete a data card and deposit card in receptacle prior to leaving the area. No airboats are allowed for hunting or fishing and no hunting from Secondary Road 260.

10.9 – On Hatchery WMA, hunters must leave the area by 1 PM except on the last Sat. of waterfowl season when hunters may hunt until sunset. Each hunter is limited to 25 Federally-approved nontoxic shot shells per hunt. No airboats are allowed in the Hatchery WMA for hunting or fishing during the period Nov. 15 - Jan. 31. No fishing is allowed during scheduled waterfowl hunts.

10.10 – On Crackerneck WMA waterfowl may be hunted only on Friday, Saturday and Thanksgiving Day within the regular migratory bird seasons and no hunting on Dec. 25. Fant’s Grove WMA is open AM only on Wednesdays and Saturdays during the regular migratory bird seasons; Palachucola WMA, Tillman Sand Ridge WMA, Hamilton Ridge WMA and Webb WMA are open AM only for waterfowl hunting during the regular migratory bird seasons only on days when small game hunting is allowed and the full week of Thanksgiving.

10.11 – Category 1 Designated Waterfowl Areas include Beaverdam, Bonneau Ferry, Broad River, Clemson, Sandy Beach, Santee Coastal Reserve, Samworth, Santee-Delta, Tribwin, Bear Island, Wateree River HP, and portions of Donnelley Wildlife Management Areas. Hunting in Category 1 Designated Waterfowl Areas is by special permit obtained through annual computer drawing.
10.13 – On Hickory Top WMA, public waterfowl hunting without a Wildlife Management Area (WMA) permit is allowed on all land and water below 76.8’. Waterfowl hunting at or above elevation 76.8’ requires a WMA permit. A WMA permit is required for waterfowl hunting in Hickory Top Greentree Reservoir.

10.14 – Designated Dove Management Areas include all dove management areas as published by the Department in the annual listing of WMA public dove fields and are subject to regulations filed annually.

10.15 – Hickory Top Greentree Reservoir is closed to hunting access Nov. 1 until Mar. 1, except for special hunts designated by SCDNR. All hunters must accurately complete a data card and deposit card in receptacle prior to leaving the area. Hunting hours are from 30 minutes before legal sunrise until 11:00 AM. Hunters may not enter the area prior to 5:00 AM on hunt days. No open season from roads or the dike system. Hunters may only use electric motors on boats.

10.16 – On all state-owned, US Forest Service and other federally-owned Category I and II Waterfowl Management Areas, each hunter is limited to 25 Federally-approved non-toxic shells per hunt.

10.17 – On Enoree River, Lake Blalock, Dunaway, Duncan Creek, Russell Creek and Tyger River Waterfowl Areas, data cards are required for hunter access during scheduled waterfowl hunts. Completed data cards must be returned daily upon leaving each of these areas. Hunters may not enter the areas prior to 5:00 AM on hunt days.

10.18 – Woodbury Waterfowl Management Area includes all SCDNR/owned property south of US Highway 378 and bounded on the west by the Great Pee Dee River and Bluff Road and to the east by the Little Pee Dee River except no waterfowl hunting allowed in the area known as Hass Pond that is bounded on all sides by Hass Pond Road.

10.19 – Donnelley WMA Category II Waterfowl Area is open Wednesday AM only during the Nov. through Jan. regular waterfowl season. The Category II area is defined as all wetlands east of Donnelley Drive and Blocker Run Road except those areas south of Blocker Run Road between Stocks Creek Road and the intersection of Mary’s Island Road and the property boundary. No trailered boats, no electric or gas motors allowed. No entry before 5:00 AM. All users must sign in and sign out at designated check stations. No hunting allowed from the dikes.

Amphibians & Reptiles

11.1 – Taking of any amphibian or reptile, except the bullfrog, is prohibited on any Department owned Wildlife Management Areas without written permission of the Department.

PROPERTY WATCH PROGRAM

For many years the agency has experienced sharp increases in the number of complaints and cases for trespassing and road hunting. We are also receiving an increasing amount of landowner complaints due to deer dogs interfering with still hunting or other activities. While many of these complaints arise out of conflicting hunting styles in limited areas, the majority of these complaints are the result of unethical hunting practices. The increasing number of these type incidents requiring a law enforcement response is growing at an alarming rate. It is unfortunate that hunters are facing off over these incidents. All hunters should be standing together in support for ethical hunting practices. Unethical and unthoughtful hunters are doing a great harm to the sport of hunting. While many complaints come from hunters, many are coming from non-hunting landowners and homeowners. Many non-hunting landowners and homeowners tolerate hunting, but may become avid “anti-hunters” after repetitive problems and confrontations with unethical or unthoughtful hunters. If this trend continues, the sport of hunting may well be effected in the long run.

To aid the property owners and lease holders of South Carolina the Property Watch Program allows for immediate enforcement of trespassing cases without the land owner or lease holder being present. For more information or to enroll in the Property Watch Program contact 803-734-4002.

— Alabama’s Black Belt —
Types of WMA Properties

Two types of property are included in the Wildlife Management Area Program: “specific” named WMAs and “other” unnamed WMAs. Other WMA lands occur as scattered tracts, often leased from private landowners and the forest industry. The hunting seasons for these unnamed properties are set by Game Zone with all the “other” WMA tracts within a particular Game Zone having the same seasons. These “other” WMA lands are shown as unlabeled green tracts on the WMA maps.

“Specific” WMAs are generally larger tracts of land, many owned and managed by SCDNR and have special seasons. These “named” WMAs are shown as labeled dark green tracts on the WMA maps. WMA properties should be marked with these yellow and black signs.

Game Zone 1 Named WMAs

1-1 Glassy Mountain Archery/Chestnut Ridge
1-2 Caesars Head/ Jones Gap

Game Zone 2 Named WMAs

2-1 Keowee
2-2 Fant’s Grove
2-3 Draper
2-4 Rock Hill
2-5 Worth Mountain
2-6 Forty Acre Rock HP
2-7 Belfast
2-8 McCalla
2-9 Liberty Hill
2-10 Delta
2-11 Broad River

Game Zone 3 Named WMAs

3-1 Aiken Gopher
   Tortoise HP
3-2 Crackerneck
3-3 Ditch Pond HP
3-4 Henderson HP
3-5 Victoria Bluff HP
3-6 Francis Marion NF
3-7 Hatchery
3-8 Bonneau Ferry
3-9 Santee Coastal Reserve
3-10 Moultrie
3-11 Canal
3-12 Dungannon HP
3-13 Edisto River WMA
3-14 Bear Island
3-15 Donnelley
3-16 St. Helena Sound HP
3-17 Santee Cooper
3-18 Turtle Island
3-19 Botany Bay Plantation HP
3-20 Old Island HP
3-21 Palachucola
3-22 Webb
3-23 Hamilton Ridge
3-24 Tillman Sand Ridge HP
3-25 Wateree River HP

Game Zone 4 Named WMAs

4-1 McBee
4-2 Sand Hills State Forest
4-3 Marsh
4-4 Pee Dee Station Site
4-5 Woodbury
4-6 Little Pee Dee River HP
4-7 Longleaf Pine HP
4-8 Lynchburg Savanna HP
4-9 Wee Tee
4-10 Oak Lea
4-11 Lewis Ocean Bay HP
4-12 Waccamaw River HP
4-13 Cartwheel Bay HP
4-14 Santee Delta
4-15 Sarnworth
4-16 Hickory Top
4-17 Manchester State Forest
4-18 Santee Dam
4-19 Great Pee Dee HP

For detailed maps showing all WMAs, contact your local SCDNR Wildlife Management Office (see page 93 or write: WMA Maps, P.O. Box 167, Columbia, SC 29202, 803-734-3886. Request by map number found on page 88-89.

New: To view and print WMA maps from the internet, go to www.dnr.sc.gov/wma/maps.html.
Game Zone 1 WMAs Only

- Mountain Hunt Unit: Oconee, Pickens & Greenville counties
- Game Zone 1 consists of all properties north of the main line of the Norfolk Southern Railroad from the Georgia State line to South Carolina Highway 183 in Westminster, then north of SC Highway 183 to intersection of SC Highway 183 and the Norfolk So. Railroad main line in Greenville and then north of the main line of the Norfolk So. Railroad to the Spartanburg County line.
- All deer must be tagged with a valid deer tag as prescribed by the department before the animal is moved from the point of kill. Tag must remain attached until the deer/carcass is quartered or received by a processor. Processors see page 59.
- Statewide WMA limit for deer is two deer per day, 5 deer total, no more than two antlered deer, unless otherwise specified. Antlerless deer limit is two deer per day, unless otherwise specified. All antlerless deer must be tagged with individual antlerless deer tag.
- Feral hogs and coyotes may be taken during all hunts. No hog hunting with dogs except during special hog hunts with dogs and party dog bear hunts.
- Individual antlerless deer tags are valid on WMA lands in Game Zone 1 starting Oct. 1. For all WMAs combined in Game Zones 1, only 3 individual antlerless deer tags may be used. Use of tags does not change the type of weapon allowed during specific seasons.

HOG

Hog Hunts (with dogs) | Jan. 2-Jan. 9, Mar. 20-27, Refer to reg. 2.16 on page 90. | No Limit |

SMALL GAME — OTHER WMAs

- Refer to chart on page 68.
- No small game hunting on WMAs is allowed before Sept. 1 or after Mar. 1.
- Additional small game season restrictions may apply to specific WMAs.

NAMED WMAS

Caesars Head/Jones Gap WMA Greenville County
SC Dept. of Parks, Recreation and Tourism special permit required. See Game Zone 1 WMA map for more details.

Glassy Mountain Archery Only Area — Chestnut Ridge Heritage Preserve (Greenville County)
Located on the southwest side of the South Pacolet River and west of the junction of the South Pacolet River and its main tributary creek as posted.

Deer (no dogs) | Oct. 1-Jan. 1 Archery | Statewide WMA Limits |

Long Creek Tract (Forest Service) Oconee County
Game Zone 1 seasons, except small game only between Thanksgiving Day and Mar. 1.

BEAR

- Tag required to take bear (see Bear on page 68).
- No Sunday hunting for bear on WMA.
- Harvested bear must be reported by midnight on day of harvest to SCDNR at 864-896-6249 or 1-844-SC1-BEAR (1-844-721-2327) or www.dnr.sc.gov/scgamecheck
Game Zone 2 WMAs Only

- Abbeville, Anderson, Chester, Cherokee, Edgefield, Fairfield, Greenwood, Lancaster, Laurens, McCormick, Newberry, Saluda, Spartanburg, Union, York counties & those portions of the counties of Greenville, Oconee & Pickens south of the Game Zone 1 line.
- All deer must be tagged with a valid deer tag as prescribed by the department before the animal is moved from the point of kill. Tag must remain attached until the deer/carcass is quartered or received by a processor. Processors see page 59.
- Statewide WMA limit for deer is two deer per day, 5 deer total, no more than two antlered deer, unless otherwise specified. Antlerless deer limit is two deer per day, unless otherwise specified. All antlerless deer must be tagged with an individual anterless deer tag.
- Individual antlerless deer tags are valid on WMA lands in Game Zone 2 starting Sept. 15. For all WMAs combined in Game Zones 2-4, a maximum of 5 individual antlerless deer tags may be used. Use of tags does not change the type of weapon allowed during specific seasons.
- Feral hogs and coyotes may be taken during all hunts. No hog hunting with dogs except during special hog hunts with dogs.

• Deer hunting is closed.
WILDLIFE MANAGEMENT AREAS

Game Zone 4 WMAs Only

• Clarendon, Chesterfield, Darlington, Dillon, Florence, Georgetown, Horry, Kershaw, Lee, Marion, Marlboro, Sumter and Williamsburg counties

• All deer must be tagged with a valid deer tag as prescribed by the department before the animal is moved from the point of kill. Tag must remain attached until the deer/carcass is quartered or received by a processor. Processors see page 59.

• Statewide WMA limit for deer is two deer per day, 5 deer total, no more than two bucks, unless otherwise specified. Antlerless deer limit is two deer per day, unless otherwise specified. All antlerless deer must be tagged with an individual antlerless deer tag.

• Individual antlerless deer tags are valid on WMA lands in Game Zone 4 starting September 15. For all WMAs combined in Game Zone 2-4, a maximum of 5 individual antlerless deer tags may be used.

• Feral hogs and coyotes may be taken during all hunts. No hog hunting with dogs except during special hog hunts with dogs.

• Bears - Harvested bears must be tagged at the point of kill and reported by midnight of day of harvest. Game Zone 4 quota is 30 bears. If the quota is met prior to Oct. 30, the season will close 24 hours following season closure notice. Hunters are responsible for monitoring season status. To report harvested bears or to check status, contact 1-844-SC1-BEAR (1-844-721-2327) or https://www2.dnr.sc.gov/bearharvest.

• Public waterfowl hunting without a Wildlife Management Area (WMA) permit will be allowed on all land and water below 76.8’ elevation requires a WMA permit. Waterfowl permit will be allowed on all land and water below 76.8’ elevation requires a WMA permit. Waterfowl hunters crossing WMA lands to hunt areas below 76.8’ take limit must have their guns unloaded and cased.

## Hog Hunting Seasons for WMAs and Heritage Preserves

Feral hog hunting on WMAs is permitted during any open season for game unless otherwise restricted (see specific WMAs). On WMA lands, weapons used to hunt hogs are limited to the weapons that are allowed for the current open season on each WMA. A hunting license and a WMA permit are required and hunters are required to wear a hat, coat or vest of solid international orange color while hunting. Hogs may not be transported alive. Hogs may not be hunted at night. On Special Hog Still Gun Hunts, weapons may include archery, crossbows, centerfire rifles, muzzleloading rifles, centerfire handguns and shotguns with slugs only except as specified for certain WMAs. For Special Hog Hunts with Dogs, no still or stalk hunting and only handguns permitted.

**R&J OUTFITTERS**

Affordable trophy whitetail hunts in N.W. Missouri

5-Day, Fully Guided, Fair Chase Hunts with Lodging start at only $1,800.00!

Thousands of private acres. No trophy fees or hidden charges.

YES YOU CAN!

CALL TODAY:
(305) 606-1611

www.randjoutfitters.com
Q: I purchased my license online but didn’t print my payment receipt, what can I do?
A: You may hunt/fish using your sc.gov order number and a picture id until your license arrives. You will be mailed a hard copy of your license within 5 to 7 days following your date of purchase.

Hunting tags and nongame fish tags must be in your possession before they can be used. Tags will be mailed within 3 to 5 days from the time of purchase.

If you do not have your sc.gov order number you may contact the Licensing Section at (803) 734-3833 Monday – Friday, 8:30 am until 4:50 pm. The Licensing staff can provide you with your sc.gov order number.

Q: How do I change my address?
A: If you do not have an active boat or motor in our system associated with your customer ID number you may update your address information at the time you purchase your new hunting or fishing license. Make sure to update all your information, to include county of residence, phone number, and email address. Verify that all your personal information is also correct. If you own a boat or motor you can only change your address by notifying SCDNR. You may complete a change of address form and submit it to our office.

Q: If I am fishing from the shore in saltwater, do I need a saltwater license?
A: YES, you must possess a current saltwater license if you fish from shore or in a boat in salt water. Refer to page 47 for the saltwater/freshwater diving line.

Q: How many fishing rods may I use with a saltwater fishing license in a boat?
A: A licensed angler may use as many fishing rods as he/she wishes in a boat in saltwater. No unlicensed angler may use any of those fishing rods.

Q: Are mussels considered clams or oysters?
A: Mussels are considered oysters with applicable regulations. This does not apply to freshwater.

Q: Is there a crabbing season?
A: No, you can crab any time of year. Please see regulations for size limits and license requirements.

Q: Can you keep red drum caught in federal waters (beyond 3 miles)?
A: No, red drum may not be harvested from federal waters.

Q: If I am a recreational angler can I harvest crabs using a line with multiple hooks (similar to a trotline)?
A: YES. This would be considered a trotline and recreational anglers must have a Saltwater Recreational Fishing License and a Trotline Equipment License.

Q: I have a nuisance wildlife problem (such as a snake in the yard, squirrel in the attic, etc.). Who do I call?
A: SCDNR does not provide nuisance wildlife control services, but can refer you to private individuals and companies that do. For a directory, see: http://dnr.sc.gov/wildlife/nuisance.html

Q: Is there a caliber restriction or magazine restriction when hunting deer, hogs or coyotes on private land?
A: NO, there is no caliber or magazine restriction for firearms used to hunt deer, hogs or coyotes on private land.

Q: Is there a caliber restriction or magazine restriction when hunting deer, hogs or coyotes on WMA land?
A: There is no magazine restrictions on WMA lands. See Weapons beginning on page 90 for weapons related regulations on WMAs.

Q: May I carry a handgun with me when hunting on an archery only WMA if I possess a Concealed Weapons Permit (CWP)?
A: YES, persons who have a CWP pursuant to SC-31-205 may possess a handgun while on any WMA. During a primitive weapons season (archery or muzzleloader), a handgun may not be used to take or attempt to take game.

Q: How long can I sit in the stand to hunt deer?
A: It is legal to hunt deer in South Carolina from one hour prior to official sunrise until one hour after official sunset.

Q: If I have used all of my turkey tags for the season, can I take someone else hunting and call for them?
A: YES, hunters who have used all of their tags may call or guide for other hunters provided they possess their tag form and a valid hunting license.

Q: How old does my child need to be before they are required purchase a hunting or fishing license?
A: Any person age 16 or older must possess a valid hunting or fishing license while hunting or fishing in South Carolina.

Q: Is my child who is under age 16 required to have tags to hunt deer, hogs or bear?
A: YES, anyone who hunts for turkey, deer or bear must have a set of tags no matter their age, except on designated youth days. Tags are available at each of the five regional SCDNR offices. See page 6 for office locations.

Q: Can I camp on WMA properties?
A: YES, but only in designated camping areas and several properties require a permit for camping. Check our website at https://www2.dnr.sc.gov/ManagedLands/ManagedLand/Activities for information on specific properties.
**Point & Suspension Systems for Natural Resource Violations**

South Carolina law has established suspension systems based upon the accumulation of points assessed for convictions of natural resource laws. The Game and Fish Point System applies to violations inland of the saltwater/freshwater dividing line and if suspended under this system, a person cannot hunt, fish, gather, trap, land, or pursue game, fish, crustaceans, or shellfish in the State (including coastal waters out to the three mile limit).

The Saltwater Point System applies to violations within the coastal waters of the State, seaward of the saltwater/freshwater dividing line. The point categories for assessments are recreational and commercial. Points are assessed according to the appropriate category. Upon accumulation of 18 or more points in the recreational or commercial categories, a person's privileges to fish, gather, land, attempt to take, or possess fish, shellfish, or crustaceans within the coastal waters for the purposes of the affected category will be suspended. Suspensions under the Saltwater Point System do not effect inland freshwater fishing privileges except for shad, herring, and sturgeon which are regulated by coastal laws inland of the saltwater/freshwater dividing line.

Each time a person is convicted of a violation listed in the point systems, the Department must assess the points against the person’s record. Half of the points on record are reduced for each full year in which the person receives no points. The Department of Natural Resources must suspend the privileges of any person who has accumulated eighteen (18) or more points.

In addition to these point suspensions, South Carolina law also contains mandatory suspensions for convictions of specific violations of the law. These suspensions are called “Statutory Suspensions.” See Table C for some specific examples of statutory suspensions.

**Point System Suspension Appeals**

A person who has been notified of a suspension may appeal the suspension pursuant to the South Carolina Administrative Procedures Act. The appeal of the suspension is not an appeal of the person’s conviction. The Administrative Law Court does not have jurisdiction to review the conviction, only the suspension. Appeals must be filed and served within 30 days of the date of suspension notice. You must file the appeal with the Clerk of Court of the Administrative Law Court. South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton St., Suite 224, Columbia, SC 29201, Voice: 803-734-0550, Fax: 803-734-6400.

If an individual appeals a suspension the SCDNR will temporarily end the suspension. The result is that an individual will retain the privileges that were initially suspended during the period of appeal. The period of appeal begins when the SCDNR receives notification from the Administrative Law Court that the case has been scheduled for a hearing. The SCDNR will notify the individual in writing when the period of appeal begins. Until that notice is received the suspension remains in effect. A withdrawal of the appeal by the individual, or a finding in favor of the SCDNR by the Administrative Law Court will result in the individual having to serve the remainder of the suspension. A finding in favor of the individual, or a finding by the SCDNR that the suspension was in error, will result in a dismissal of the suspension.

**Note:**

- A violation of natural resources law while under suspension may result in additional suspensions of one year to five years.
- The purchase or procurement of a license, permit, stamp, or tag allowing suspended privileges while under suspension is a fraudulent purchase and is a misdemeanor punishable by a fine of up to $1,085.00 and an additional one year suspension of hunting and fishing privileges.
- Failure to pay fines and/or restitutions may result in suspension of privileges.

To find out more information on suspensions, contact the SC Department of Natural Resources, Records and Intelligence Section, Law Enforcement Division, P.O. Box 167, Columbia, SC 29202 or call 803-734-3876.

</tbody>
</table>

**NOTE:** Some examples of Item 34 are:
- Taking waterfowl with lead shot.
- Taking fish with too many devices.
- Killing birds of prey (Hawks, Kites, Vultures, Kestrels, Owls, or Falcons).
- Killing/possession of nongame birds.
- Taking fish while violating specific freshwater nongame fishing laws such as illegal bait on trotlines or set hooks.
- Taking game while violating specific trapping laws such as unlawful traps.
- Taking fish while violating specific freshwater nongame fishing laws such as illegal bait on trotlines or set hooks.
- Taking game while violating specific trapping laws such as unlawful traps.

Other less common examples are, but are not limited to, taking game while unlawfully hunting with an electronic call, or killing a turkey with a rifle. The application of item 34 is very broad and examples are given for clarification. Item 34 applies to unlawfully taking game or fish in a way that is not specifically addressed by the Game and Fish Point System.

### TABLE B
#### SALTWATER POINTS

Saltwater points are assessed in two categories: Recreational and Commercial. Upon an accumulation of eighteen (18) or more points in a category, the privileges of that category will be suspended for one year. While under Recreational Suspension, a person found guilty of a commercial saltwater violation will have all saltwater privileges suspended for one year. While under Commercial Suspension, a person found guilty of a recreational violation will have all saltwater privileges suspended for one year.

<td>18</td>
</tr>
</tbody>
</table>

**NOTE:** It is unlawful for a person whose commercial privileges are suspended under this chapter to be on board any vessel while the vessel is being utilized to take or attempt to take saltwater fish for commercial purposes.
**INTERSTATE WILDLIFE VIOLATORS COMPACT**

The South Carolina Department of Natural Resources formally entered into the Interstate Wildlife Violators Compact (IWVC) with 38 other member states on July 1, 2012. As a compact member South Carolina has agreed to treat nonresidents from member states as if they were residents for purposes of hunting, fishing, trapping, and wildlife violations. However, the compact does not cover boating violations. If a nonresident from a member state violates a wildlife law in South Carolina, DNR officers can now serve a courtesy summons under the terms of the compact rather than arresting the individual, or requesting a cash bond. Likewise, South Carolina residents will be treated the same way in other member states. Residents from member states are granted a courtesy summons based on the understanding that they will comply with the terms of the summons. If a resident from a member state fails to comply with the terms of a courtesy summons issued by another member state they will be suspended by their home state and that suspension will be recognized by all other member states.

As a member of the IWVC, South Carolina will share nonresident violation information with other member states. This means that illegal activities in one member state can affect the privileges of the individual in all member states. South Carolina will now recognize the suspension of hunting, fishing, and trapping privileges from other member states. A person who is under hunting, fishing, or trapping suspension in South Carolina will be prohibited from obtaining licenses in other member states, and South Carolina will deny licenses to nonresident individuals from member states who have had hunting, fishing, or trapping privileges suspended by that state. South Carolina will recognize the suspension of hunting, fishing, and trapping privileges of member states as if the suspension had occurred in South Carolina.

**TABLE C
STATUTORY SUSPENSIONS**

Many laws pertaining to natural resources and boating contain mandatory suspensions. These suspensions start upon conviction and run for specified times according to law. These suspensions will affect privileges and may affect licenses, permits, stamps, tags or registrations. **Examples of violations for which suspensions are mandated include, but are not limited to:**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Hunting from a public road</td>
</tr>
<tr>
<td>B</td>
<td>Unlawfully taking a wild turkey</td>
</tr>
<tr>
<td>C</td>
<td>Conspiracy to violate natural resource laws</td>
</tr>
<tr>
<td>D</td>
<td>Obtaining a license, permit, stamp, or tag by fraud</td>
</tr>
<tr>
<td>E</td>
<td>Altering, post dating, borrowing, or lending a license, permit, stamp, or tag</td>
</tr>
<tr>
<td>F</td>
<td>Criminal, negligent use of a firearm</td>
</tr>
<tr>
<td>G</td>
<td>Boating under the influence</td>
</tr>
<tr>
<td>H</td>
<td>Trawling violations</td>
</tr>
<tr>
<td>I</td>
<td>Killing a Bald Eagle</td>
</tr>
<tr>
<td>J</td>
<td>Failure to pay fines or restitution</td>
</tr>
<tr>
<td>K</td>
<td>Third (3) offense negligent operation of a watercraft</td>
</tr>
<tr>
<td>L</td>
<td>Bear violations</td>
</tr>
<tr>
<td>M</td>
<td>Impeding the right to hunt, fish, or trap</td>
</tr>
</tbody>
</table>

The above listed violations are examples of statutory suspensions. Other statutory suspensions exist with time periods ranging from 10 days to 10 years for certain violations and certain privileges.

**OPERATION GAME THIEF**

Game and fish law violators steal your wildlife and rob you of tax, license, and business dollars. They cheat you out of recreation and your children out of part of their future. You’re their victim as surely as if they’d robbed your home.

Operation Game Thief is a program designed to stop game and fish law violators in South Carolina. Citizen involvement is the key to the success of the program. You can help in either of two ways:

- You can make a contribution to Operation Game Thief. Contributions will be used to make rewards to persons providing information leading to the arrest of game and fish law violators. Contributions are tax deductible.
- You can report a violator (anonymously if you choose). If your information leads to the conviction of game and fish law violators, you will receive a cash reward of up to $2,500.00 dollars. Rewards are dependent on the amount and type of information.

As of June 1, 2019
Hunter Education
All residents and nonresidents born after June 30, 1979, must complete a hunter education course approved by SCDNR before a hunting license can be obtained. SCDNR accepts hunter education certifications issued by other states in the United States and Canadian provinces. If you have a certification from another state, your certification meets the hunter education requirement in SC. If you have a question about your certification, please contact the Hunter Education Office at 1-800-277-4301. The hunter education certificate is not a hunting license.

SCDNR offers two (2) options to take the Hunter Education Course.

1. In a classroom
   The preferred Hunter Education method is through a free eight (8) hour instructor-led classroom. Classes maybe offered in a one day class or split over two nights. Students learn about hunting ethics, firearms safety, and the principles of conservation and wildlife management. All classes end with a test to pass the course.

2. On the internet—The third party vendor (Hunter-Ed.com) who provides this online course charges $19.50 to take the course. After completing the course by passing and paying the course fee, you may instantly print out your Hunter Education Certificate, which is valid for 30 days. You should receive your permanent certificate by mail in 2-3 weeks.

   Hunter-Ed offers daily (including weekend) live customer service via email or telephone with a toll-free number. Today’s Hunter online course is the only approved internet course for South Carolina. [www.dnr.sc.gov/education/hunted.html](http://www.dnr.sc.gov/education/hunted.html)

Boater Education
Boaters under age 16 are required by law to pass an approved boater education course before operating a personal watercraft (jet ski) or a boat powered by a 15 h.p. motor or larger unless accompanied by an adult 18 years of age or older.

South Carolina boaters can take a boating safety and education course two ways.

1. In a classroom
   Share the learning experience with other boaters and a qualified instructor.

2. On the internet
   The complete course, including the test, can be viewed or purchased online at [Boat-ed.com](http://www.boat-ed.com) or through a link on the SCDNR homepage, [www.dnr.sc.gov/education/boated](http://www.dnr.sc.gov/education/boated).

   For more information on all boating courses, call SCDNR at 1-800-277-4301 or visit [www.dnr.sc.gov/education/boated](http://www.dnr.sc.gov/education/boated).

   If you are under age 21 and plan to go boating in another state, check that state’s operator requirements. The SC Basic Boating Course is approved and recognized by all states requiring courses. The boater education certificate is not a boating license.

Bowhunting Education
The bowhunting education program provides bowhunters with the fundamentals of safe bowhunting, an appreciation and respect for the environment in which they hunt, and a desire to maintain the highest standards of the sport. Several times a year, SCDNR and Bowhunters of South Carolina conduct bowhunting education classes. To register for a bowhunting education course, please visit the SCDNR Bowhunter Education homepage at [www.dnr.sc.gov/education/hunted](http://www.dnr.sc.gov/education/hunted) or call 1-800-277-4301.

   The SCDNR also offers an online version of the course that is approved by the National Bowhunter Education Foundation. This course can be found at [www.bowhunting-ed.com](http://www.bowhunting-ed.com) or [www.bowhunting-ed.com/southcarolina](http://www.bowhunting-ed.com/southcarolina).

Trapper Education
The Trapper Education course includes discussions on furbearer biology, history of the fur trade, wildlife management principles, fur harvest regulations and ethical conduct. Basic hands-on trapping techniques will also be presented. Qualified instructors with the SC Trappers Association will discuss and demonstrate responsible trapping techniques.

   For information, contact the Furbearer project at 803-734-3609.

Take One Make One™
The Take One Make One program is an outdoor education and mentoring program for first time youth hunters who have never had the opportunity to hunt before. We take youth on that first hunt and teach them values that last a lifetime. Youth ages 10-17, experience that first hunt in a safe and ethical manner with an SCDNR mentor.

   Youth have the opportunity to participate in hunts, conservation camps, hunting clinics, shooting sports activities and other TOMO events until they graduate the program. Youth must first complete the SC Hunter Education Safety course as a part of the required application process. There are no registration costs to join. Applications are available by visiting our website at [www.dnr.sc.gov/education/education/hunted](http://www.dnr.sc.gov/education/education/hunted). If you would like more information you can check us out on Facebook at SCDNR Take One Make One or call us at 1-800-277-4301.

SC Scholastic Clay Target Sports
SCDNR Scholastic Clay Target Sports is a team-based youth development program that uses the shotgun sports of trap, skeet, and sporting clays to instill life skills such as discipline, safety, teamwork, ethics, self-confidence and other life values. For more information on this program, please call 1-800-277-4301 or email SCDNR at ScholasticClayTargetSports@dnr.sc.gov.

Aquatic Education
Aquatic Education programs are designed to teach about fish, aquatic ecosystems, and the sport of fishing. Youth can try their hand at fishing with their parents at a Family Fishing Clinic. Avid anglers can become Certified SCDNR Fishing Instructors and share the love of fishing by leading Family Fishing Clinics. For more information on these programs, call 803-737-8483 or visit [www.dnr.sc.gov/aquaticed](http://www.dnr.sc.gov/aquaticed).

Archery in the Schools Program
The SC Archery in the Schools Program (NASP) is designed to reach all students in grades 4th-12th whether rural, urban, or special needs. SC NASP is strictly target archery for schools which must be taught in school during the day as part of the school curriculum. Core content covers archery history, safety, technique, equipment, mental concentration and self-improvement. Before presenting the 10 hour archery curriculum, teachers undergo an 8-hour Basic Archery Instructor (BAI) training program. SC NASP offers regional and state archery tournaments for Schools wishing to form an archery team as part of their in school program. For the 2017 season SC NASP awarded $34,000 in scholarships to competing graduating Seniors.

   You can learn more about the SC Archery in the Schools program by contacting the SC NASP coordinator, Sgt Charlotte Mayhugh Mckee, at 1-800-277-4301 or e-mailing her at MayhughC@dnr.sc.gov.

   For more information about archery, go to [www.dnr.sc.gov/education/archery](http://www.dnr.sc.gov/education/archery) and Facebook SC Archery in the Schools.

Got shell?

Oyster reefs provide clean water, fish habitat, erosion control, and are a delicious, sustainable resource. The S.C. Department of Natural Resources needs your shells to rebuild oyster reefs and keep our coast healthy.

Recycle your oyster shells!

Find over 30 drop-off locations and 30 participating restaurants across the state by visiting www.dnr.sc.gov or calling 843-953-9397.

SOUTH CAROLINA Wildlife

SINCE 1954,

South Carolina Wildlife has been the constant and steady voice for natural resources conservation and a trusted resource for outdoor excursions in the Palmetto State.

To start up, renew or gift a subscription, visit SCWildlife.com or call 1-800-678-7227.
South Carolina Hunting and Fishing Licenses

Why buy a license? There are a number of reasons, all of them good. For starters, your purchase of the appropriate South Carolina hunting and fishing license or permit ensures that you stay legal while pursuing your hobby in the great South Carolina outdoors. But beyond that, your purchase of a hunting license or WMA permit also supports thousands of acres of public lands that are managed by the SCDNR for wildlife habitat for all types of outdoor recreation – from deer hunting to hiking and bird watching. Your purchase of a fishing license supports the monitoring and management of fish populations and the aquatic habitat in South Carolina’s wealth of lakes and streams available for recreation. Your fishing license also supports the operation of seven public fish hatcheries across the state that provide fish for public water stocking to support recreational fishing and enhancement of fish populations.

The dollars generated by the license purchase also help fund hundreds of critical management and research programs undertaken by SCDNR biologists and researchers, AND help our state capture its share of the federal taxes on motorboat and small engine fuel and the federal excise taxes and import duties paid on equipment and gear manufactured for purchase by hunters, anglers, boaters, archers, and recreational shooters. In short, without the dollars provided by South Carolina’s hunters and anglers, our state’s abundant fish and wildlife and ongoing fish and wildlife conservation efforts simply wouldn’t be possible. Your license purchase today ensures that our state’s valuable natural resources will be there for future generations.
To Report a Poacher

If you witness a poaching or boating incident or any fish and wildlife violation, or have information about such a violation, immediately dial the toll free OGT number 1-800-922-5431, 24 hours a day, seven days a week.

Or you may submit anonymous tips to SCDNR TIPS using tip411. tip411 is an internet based tool from CitizenObserver.com that enables the public to text message an anonymous tip to wildlife officers and lets the officers respond back creating an anonymous two-way conversation. Anyone with a cell phone may send an anonymous tip by texting SCDNR, followed by a space and the message, to 847411 (tip411).

Or download the free SCDNR Tips smartphone App which operates similarly to tip411. The SCDNR Tips App free via the Google Play Store and iTunes App Store.

Be prepared to give the fullest possible account of the incident including the name, address, age and description of the suspect, vehicle description, direction of travel, license number, type of violation and when and where it occurred. You do not have to give your name.

HELP STOP THE SPREAD AND STAY HEALTHY

I affirm that I am not under suspension for any natural resources violation and I am eligible to apply for, hold, and use the above SCDNR licenses and permits and that the information provided above is true and correct.

Signature of Applicant ___________________________ Date _____________ Amount of Check $ _____________

In accordance with South Carolina law, personal information collected by SCDNR for licenses, tags, permits and watercraft/outboard motor titles and registrations may be subject to disclosure under the Freedom of Information Act. However, state law prohibits personal information collected by state agencies to be used for private solicitation or commercial purposes. The disclosure of your social security number is required to obtain SC hunting and fishing licenses. This complies with SC Code Annon 63-17-1080 and Federal law 42 USCA 666(a)(13), which requires a licensing agency to provide this information to the Child Support Enforcement Unit of the Department of Social Services to establish, modify and enforce child support orders.
Instructions for Lifetime License Application

1. Complete and Sign application.
2. Include a photocopy of your unexpired SC Driver’s License or SC state issued ID Card.
3. Include payment. Verify method of payment is signed as required.
