Mission Statement

Conserve and manage wildlife populations and habitat for the benefit of present and future generations. Connect people to Virginia's outdoors through boating, education, fishing, hunting, trapping, wildlife viewing and other wildlife-related activities. Protect people and property by promoting safe outdoor experiences and managing human-wildlife conflicts.

The Department of Wildlife Resources shall afford to all persons an equal access to Department programs and facilities without regard to race, sex, color, national origin, religion, sexual orientation, gender identity, age, political affiliation, or persons with disabilities. If you believe that you have been discriminated against in any program, activity, or facility, please write to: Virginia Department of Wildlife Resources, Attn: Executive Director's Office, 7870 Villa Park Dr, Suite 400, P.O. Box 90778, Henrico, VA 23228.

Greetings Virginia Anglers and Boaters,

I hope that you caught plenty of fish in 2021 and that your 2022 season is even more productive.

Our FishLocalVA initiative is underway and provides a great way for you to get outdoors and catch some fish, no matter where you live. Take a look at our website, at <https://dwr.virginia.gov/fishing/fish-local/>, to find out which FishLocalVA waters are in your neighborhood. In addition to great fishing opportunities, most FishLocalVA waters have other amenities such as hiking trails and picnic areas — and this information can be found at each water's page. So, plan your trip and get the whole family outdoors for the day!

DWR's annual freshwater Free Fishing Days are scheduled for June 3–5, 2022 — on these days, you don't need a license to fish in nearly all freshwater lakes, streams, and rivers in Virginia, with the exception of our Fee Fishing Areas. These days are a great time to take a friend or a family member out fishing and to connect them to the outdoors. If you are learning to fish or haven't fished before, DWR will be leading fishing workshops across the state and will have tackle, bait, and instructors on site. It's a great way to get into the sport of fishing.

On another note, I want to call your attention to a great resource we have in Virginia — Saugeye — a cross between a walleye and a sauger that does well in Virginia's reservoirs. Saugeye are stocked in Lake Chesdin, Little Creek Reservoir, Flannagan Reservoir, Philpott Reservoir and Leesville Lake, and the Appomattox River has a strong population. Currently, the state record for saugeye is open, and recent surveys have caught several saugeye that exceed the 6 lb. minimum required for state record status. Get out there this year and try your luck — you may find yourself with a record fish! See page 39 for information about how to catch saugeye.

And, if you are looking for fishing tips, check out our YouTube page to see monthly fishing videos that highlight various tactics and techniques to catch a variety of different fish species. These videos are aimed to raise your awareness of public access at DWR-owned and/or managed fisheries in addition to providing tips that will help you find and catch fish on the water!

Good luck this season, and I'll see you on the water.

Ryan J. Brown
Executive Director

Virginia's Sport Fish Program and You

Anglers and boaters like you make it possible for Virginia to enjoy exceptional fishing and boating opportunities. Through the Federal Aid in Sport Fish Restoration Program, you help the Virginia Department of Wildlife Resources and Virginia Marine Resources Commission make fishing and boating even better each time you buy a fishing reel, fishing lure, trolling motor, or gas for your boat because a portion of the federal tax goes to the Sport Fish Restoration Program.

Virginia annually receives about \$5.4 million of that money, which pays 75% of many of the fish management and boating access projects that improve your angling pleasure.

Meghan Marchetti / DWR

LEGENDARY FISHING AWAITS!

SALMON RIVER, PULASKI NEW YORK

It only takes one light tackle hook-up for you to understand why they are called Steelhead.

Anglers from around the world will tell you that these underwater lightning bolts do more than steal your bait. By the time they have had their way with you, they'll have stolen your heart and soul. Whether heading upstream for a fall feeding frenzy or dropping back to Lake Ontario in the spring, these 5-10 lb. "chromers" will give you the freshwater fight that brings you back for more.

Let this be your year to experience the legendary waters of the Salmon River -- long regarded as one of North America's premier steelhead destinations!

WHAT'S NEW

FOR 2022

More details can be found in sections that follow this summary.

License Information & Fees

- A Nonresident 1-Day Freshwater Fishing License is no longer valid in designated stocked trout waters.
- A Resident 5-Day Freshwater Fishing License is valid in designated stocked trout waters with a Resident Trout Fishing License.
- The cost for a nonresident trout license to fish in designated stocked trout waters has been reduced to the same price as a resident trout license (\$23.00).

Fish Bait Information

- As of July 1, 2021, salamanders can no longer be used as bait in Virginia. This action was taken to help restore and protect Virginia's native salamander species, many of which are threatened or endangered.

FishLocalVA

- DWR's FishLocalVA initiative focuses on creating and maintaining quality fishing opportunities near population centers. Our website, located at dwr.virginia.gov/fishing/fish-local/, provides information on Fish-LocalVA program waters. The website also includes information on other outdoor activi-

ties and opportunities at these sites — so take the entire family and make a day out of it!

Trout

- As a reminder, a trout license is not required to fish designated stocked trout waters during Free Fishing Days. A daily permit is still required to fish at Clinch Mountain, Crooked Creek, and Douthat State Park Fee Fishing Areas.
- The Delayed Harvest section of Passage Creek (Warren Co.) will be closed (not stocked) due to construction at the Front Royal Fish Hatchery.

State Record Fish Program

- New species were recognized, including white crappie, black crappie, bluegill sunfish, redear sunfish, saugeye, a category for all other sunfish, and goldfish (archery only). White crappie, bluegill, saugeye, and other sunfish categories are currently open until qualifying catches are submitted and approved. For qualifying minimum sizes and program rules, see page 56.

Online Angler Recognition Program

- As of January 1, 2021, the angler recognition program went entirely online. Mail-in trophy fish applications are no longer accepted and

trophy fish certificates are no longer mailed. Anglers can apply online and print their citations at home through Go Outdoors Virginia at www.gooutdoorsvirginia.com/

- New species added to the Angler Recognition Program in 2021 include black crappie, white crappie, saugeye, fallfish, bluegill, redear sunfish, and other sunfish. For details on minimum lengths and weights see page 57.
- A photo of the fish is now required for every application. For more details see page 57.

Virginia Boaters Guide— Engine Cutoff Switch

- A new federal law requires that vessel operators of boats less than 26 feet use (attach to person) the engine cutoff switch when traveling on plane or above displacement speed. See page 62.

Boat Ramps and Access Points

- The listing of boat ramps and access points has been removed from the digest. For the most up-to-date information go to our website: www.virginiawildlife.gov/boating/access, see page 73.

MORE SHORELINE THAN HIGHWAY.

If the water is calling you, you'll find it in Mecklenburg County. Go ahead and plan that fishing trip; we'll give you 800 miles of uncrowded shoreline, 20 boat ramps and over 500 campsites to choose from. Throw in a lakeside brewery and a world-record catch to beat and you've got yourself a vacation.

More of what matters. **MORE MECKLENBURG.**

ANGLING EDUCATION PROGRAM

Fishing is an exciting sport that everyone can enjoy! It truly brings us closer to family, friends, and the outdoors. Yet, there are so many people who have never experienced the thrill of catching a fish!

In an effort to provide opportunities to experience fishing, the DWR Angling Education Program offers and supports angling workshops, events, and Kids Fishing Days across the Commonwealth.

The Angling Education Program also offers the **Materials Request Program** which provides educational fishing materials for events and the **Tackle Loaner Program** which supplies rods, reels, and tackle on loan for individuals and events. To obtain a Materials Request form and locate a Tackle Loaner site near you, visit our website at www.virginiawildlife.gov/education/fishing/.

Interested in fishing reports across the Commonwealth? Make sure to watch our monthly fishing reports on our agency youtube page: <http://youtube.com/VirginiaDWR>. These reports will not only cover seasonal conditions, but tactics and techniques for targeting different species of freshwater fish.

For information on Kids Fishing Day events go to: www.virginiawildlife.gov/events/kids-fishing-days

Lindsay Kagalis/DWR

Fishing License Information

Every person who is required to have a license to fish, hunt, and/or trap must carry such license with them (electronic copy, printed paper, or annual hard card) and show the license immediately upon request of any officer whose duty it is to enforce the game and inland fish laws, or upon the demand of any owner or lessee, or any employee or representative of such owner or lessee, upon whose land or water such person may be hunting, trapping, or fishing.

Residency Qualifications

1. Persons who have been a bonafide resident of the city, county, or state for six consecutive months immediately preceding the date of application for license;
2. Persons who have been domiciliary residents of the state for at least two months upon approval of a completed affidavit to be furnished by the DWR;
3. Legal voters in Virginia;
4. Any member of the armed forces of the United States, or a member of the immediate family of such a member as defined in § 2.2-3101, upon execution of a certificate of residence if the member (i) resides in the Commonwealth, (ii) is on active duty, and (iii) is stationed at a military installation within, or in a ship based in, the Commonwealth;
5. Students (including nonresident students boarding on campus) residing in Virginia who are enrolled in bonafide Virginia schools;
6. Any unnaturalized person who owns real estate in the county or city and who has actually resided there not less than five years next preceding the date of the application for the license in the county or city where they qualify.

Exceptions

All persons, except those listed below, must purchase the proper licenses before fishing.

- Resident or nonresident landowners, their spouses, their children and grandchildren and the spouses of such children and grandchildren, or the landowner's parents, resident or nonresident, do not need a license to hunt, trap, or fish within the boundaries of their own lands and inland waters.
- Residents under 16 years of age (also do not need a trout license).
- Resident, active-duty members of the armed forces while on official leave. However, when trout fishing they must have copy of their Military Orders in their possession.
- Tenants, on the land they rent and occupy, are not required to have a license, but must have the written permission of the landowner.

- Guests fishing in individually owned private ponds.
- Nonresident children under 16 years of age (also do not need a trout license).
- Legally blind persons.
- Any Indian who "habitually" resides on an Indian reservation or a member of the Virginia-recognized tribes who resides in the Commonwealth is not required to have a freshwater license; however, such Indian must have on his person an identification card or paper signed by the chief of his tribe, a valid tribal identification card, written confirmation through a central tribal registry, or certification from a tribal office. However, a saltwater fishing license is required.
- Stockholders owning 50 percent or more of the stock of any domestic corporation owning land in Virginia, his or her spouse and children and minor grandchildren, resident or nonresident, to hunt, trap and fish within the boundaries of lands and inland waters owned by the domestic corporation.
- Persons 65 years of age or older do not need a saltwater license but must comply with the Virginia Fisherman Identification Program (FIP) requirements. See page 11.
- Any person not fishing but aiding a disabled license holder.

Where to Get a License

Online: www.gooutdoorsvirginia.com

- **New Customers:** Create a unique customer account to access licenses and other products.
- **Existing Customers:** Log in using your date of birth, last name, and either your DWR Customer ID, the last 4 digits of your SSN or driver's license number.

Select the license(s) you want, pay with your credit card and print your license if needed.

In Person:

Sold by some clerks of the Circuit Court, license agents across Virginia, and DWR headquarters. Not sold at DWR regional offices.

To find a license agent visit: <https://license.gooutdoorsvirginia.com/Licensing/LocateAgent.aspx>

By Phone/Mobile Phone:

(804) 367-1000 during regular business hours, or use your GoOutdoors Virginia mobile app.

Dropbox (Headquarters)

Same day processing. Pick up times: 9:00 a.m., 12 noon, and 3:00 p.m.

Get Your Durable Collector's Card

Upgrade your license to this durable card on custom art by a local artist & support the next generation of conservationists.

4-year license	\$86.00
Resident State Fresh/Saltwater Fishing*	\$39.50
Resident Saltwater Fishing License	\$17.50
South Holston Reservoir Fishing License	\$21.00
Allows fishing in both Tennessee and Virginia waters of South Holston Reservoir upstream of the dam. A valid resident fishing license is also required. See page 13 for more details.	
Resident 5-Day Freshwater Fishing	\$14.00
Resident 5-Day Fresh/Saltwater Fishing	\$24.00
(5 consecutive days) Not valid in designated stocked trout waters	
Resident 10-Day Saltwater Fishing	\$10.00
(10 consecutive days)	
Resident Tidal Boat Sport Fishing (see page 12)	\$126.00
Resident 65 and Over Annual Freshwater Fishing*	\$9.00
Resident Annual Fishing License for 70 Percent or Greater Service-Connected Partially Disabled Veterans	
Resident Veterans rated 70% or greater service-connected by the U.S. Dept of Veterans Affairs Administrative Office may apply for a discounted annual fishing license. All applicable licenses, stamps, or permits are required in addition to this license. Please visit www.virginiawildlife.gov/forms for application, instructions, and prices. Applications may be mailed or brought into our Henrico office location only.	
Resident Trout Fishing (October 1–June 15)	\$23.00
Required in addition to other resident licenses if fishing in stocked waters.	

* A valid trout license (annual or lifetime) is required in addition to other resident licenses only if you are fishing in designated stocked trout waters (October 1–June 15).

Nonresident Fees

LICENSES	FEE
Nonresident State Freshwater Fishing** (age 16 or older)	\$47.00
Nonresident Saltwater Fishing License	\$25.00
Nonresident State Fresh/Saltwater Fishing**	\$71.00
Nonresident 1-Day Freshwater Fishing Not valid in designated stocked trout waters	\$8.00
Nonresident 5-Day Freshwater Fishing** (5 consecutive days)	\$21.00
Nonresident 10-Day Saltwater Fishing License (10 consecutive days)	\$10.00
Nonresident 5-Day Fresh/Saltwater Fishing** (5 consecutive days)	\$31.00
Nonresident Tidal Boat Sport Fishing (see page 12)	\$201.00
Nonresident Annual Fishing License for 70% or Greater Service-Connected Partially Disabled Veterans and Service-Connected Totally and Permanently Disabled Veterans	
Nonresident Veterans rated 70% or greater service-connected or as Total and Permanent Service-Connected by the U.S. Dept of Veterans Affairs Administrative Office may apply for a discounted annual fishing license. All applicable licenses, stamps, or permits are required in addition to this license. Please visit www.virginiawildlife.gov/forms for application, instructions, and prices. Applications may be mailed or brought into our Henrico office location only.	
Nonresident Trout Fishing (October 1–June 15)	\$23.00
Required in addition to other nonresident licenses if fishing in stocked waters.	

** A valid nonresident trout license (\$23.00 annual or \$555.00 lifetime) is required in addition to other nonresident licenses only if you are fishing in designated stocked trout waters (October 1–June 15).

© Mike Ostrander

A nice musky caught on the James River.

LIFETIME LICENSES

Legacy Lifetime

- Available to Virginia residents and non-residents under the age of 2 years upon date of application receipt to Department of Wildlife Resources.
- The legacy hunting lifetime license is valid until the individual's 12th birthday at which time they must complete an approved hunter education course or equivalent, then transfer the legacy to a regular hunting lifetime at no additional charge.

Lifetime

- Virginia resident and nonresident lifetime licenses available.
- Certain Virginia residents may purchase their lifetime licenses online through www.gooutdoorsvirginia.com provided their Virginia residency status can be verified through Virginia DMV.
- The lifetime hunting license equals the state hunting licenses; all other applicable licenses, stamps, or permits are required in addition to this license.
- Resident Junior Lifetime Hunting license is available to Virginia residents under the age of 12. This license will expire on their 12th birthday, and is transferable when

they complete and submit the Youth Hunter Education Compliance form and a copy of their Hunter Safety or equivalent completed certificate.

Senior Combo Lifetime

- Available to Virginia residents 80 years of age and older
- All other applicable licenses, stamps, and permits (except the bear license and deer/turkey license) are required in addition to this license

Veteran Total and Permanent Service-Connected Lifetime

- Virginia residents who are rated as total and permanently service-connected disabled by the U.S. Veterans Administration office may apply for this lifetime license(s).
- The Veteran lifetime freshwater fishing license does not include a trout license. A trout license will be required if fishing in stocked trout waters. All other applicable licenses, stamps, or permits are required in addition to this license.

Please visit www.virginiawildlife.gov/forms for applications, prices, and further instructions when applying for a lifetime license.

Miscellaneous Fees

LICENSES	FEE
Daily Permit Required at Clinch Mountain, Crooked Creek, and Douthat State Park Fee Fishing Areas	\$8.00
Required in addition to regular resident, resident 5-day license, nonresident, or nonresident 1-day or 5-day license. See page 33.	
National Forest Permit	\$4.00
For fishing in the National Forest, this permit is required along with the required fishing licenses (exceptions: residents under 16 and over 65, non-residents under 16).	
Virginia State Forest Use Permit	\$16.00
Allows hunting, trapping, fishing, mountain biking, and horse riding. No motorized vehicles on gated roads/trails (open or closed). Sold in cooperation with the Virginia Department of Forestry.	
Access Permit	\$4.00 per day or \$23.00 per year
See page 12 for more information.	
County Dip Net Permit	\$4.50
To take shad, herring, and mullet. River herring and American shad may not be harvested from tidal waters.	
Public Access Lands for Sportsmen (PALS)	\$18

ATTENTION VIRGINIA SALTWATER ANGLERS!

Virginia Fisherman Identification Program

IT'S QUICK. IT'S EASY. IT'S FREE!

You Must Register Yearly If You:

- Are exempt from buying a saltwater license
- Fish for saltwater species in tidal freshwater

You Do Not Need to Register If You:

- Have a Virginia or PRFC saltwater license
- Are under the age of 16

In doubt? Visit the FIP website or call the Va. Marine Resources Commission at (757) 247-2200.

www.mrc.virginia.gov/FIP to register online

Additional Fishing License Information

Tidal Boat License

The tidal boat license is available to any boat owner, resident and nonresident. The license is a special combined sportfishing license that gives the boat owner a license to fish in saltwater and freshwater within Virginia. The license also covers all passengers on board the owner's boat when fishing in Virginia tidal waters (to river Fall Lines) and saltwater only when the registered boat owner is present. There are no decals issued under this license and the VMRC Fisherman Identification Program rules apply for passengers fishing in saltwater under this tidal boat license; www.mrc.virginia.gov/regulations/recfishh&l_licensing.shtm.

National Forest Permit

All persons are required to have a National Forest Permit (with the exceptions listed below) when fishing on National Forest lands except on the North and South Fork of the Shenandoah River, the James River, Skidmore Lake in Rockingham County, North Fork Pound Reservoir, Lake Moomaw, the Jackson River below Gathright Dam, and in Wilson Creek below Douthat Lake in Alleghany and Bath Counties. Those exceptions, not required to have a National Forest Permit, are residents under 16 and over 65, and nonresidents under 16.

State Forest Use Permit

Required for those persons aged 16 or older to practice the following activities on a state forest: hunting, trapping, fishing, mountain biking, and horse riding. No motorized vehicles on gated roads/trails (open or closed). The Forest

DWR staff and volunteers help with stocking fish at Shields Lake.

Use Permit is not required for forest visitors who practice the following activities on a state forest: walking, hiking, or boating. Sold in cooperation with the Virginia Department of Forestry.

Access Permit

An access permit is required when using any DWR-owned or managed facility or boating access site. Such permit shall not be required for any person holding a valid hunting, freshwater fishing, or trapping license, or a current certificate of boat registration issued by the Department or persons under the age of 17. The Access Permit requirement does not apply to passengers of vessels launched from Department-owned boat ramps or segments of

the Appalachian Trail on Department-owned land. The permit fee is \$4 for a daily permit or \$23 for an annual permit and may be purchased online or at any license agent.

Replacement License

If you purchased a license from a retail license agent, online or by phone, you can visit www.gooutdoorsvirginia.com, select "Manage Your Account" and reprint your license anytime. You can also visit any retail license agent that sells hunt/fish licenses or call the Headquarters office at (804) 367-1000 during normal business hours.

Freshwater/ Saltwater License Lines on Tidal Waters

Persons fishing upstream of the designated lines on the following waters must have a valid freshwater fishing license, while those fishing below the lines must have a valid saltwater fishing license:

- **Elizabeth River:** The Great Bridge Locks
- **James River:** A line connecting Hog Point on Hog Island (Surry County) and the downstream point of the mouth of College Creek (James City County)
- **Piankatank River/Dragon Run:** The first set of power lines immediately upriver of Anderson Point

- **Potomac River*:** Rt. 301 Bridge
- **Rappahannock River:** Rt. 360 Bridge
- **York River System (including the Mattaponi and Pamunkey Rivers):** Rt. 33 Bridges

Below these designated lines a freshwater or saltwater license will be valid on any tidal portion of any tributary entering the above mainstem waters.

The following waters are entirely freshwater and require a freshwater fishing license throughout: Meherrin River, Nottoway River, Blackwater River (Chowan drainage), Back Bay, Northwest River, and North Landing River and Intracoastal Waterway upstream to Great Bridge Locks, and Dismal Swamp Canal below (or south) of Deep Creek Locks.

* See reciprocal license section.

FALL LINE

The Fall Line is defined as the following landmarks:

Appomattox:

The remnants of Harvell Dam approx. 0.5 mi upstream of Rt. 1

Chickahominy River:

Walkers Dam

James River (Richmond):

14th Street Bridge (Mayo Bridge)

Mattaponi River:

Rt. 360 Bridge

Pamunkey River:

Rt. 360 Bridge

Potomac River:

Little Falls

Occoquan River:

I-95 Bridge

Rappahannock River:

Rt. 1 Bridge

Reciprocal Licenses

All reciprocal license agreements listed below refer to both boat and bank anglers.

Buggs Island (Kerr) and Gaston

Virginia or North Carolina state fishing licenses and permits are honored on those waters lying east of Union Street Dam on the Dan River in Virginia and the mouth of Difficult Creek on the Staunton River of Kerr Reservoir to the Gaston Dam on the Roanoke River, including all tributary waters accessible by boat from the main bodies of the reservoirs, or from the Island Creek sub-impoundment. **Note:** North Carolina regulations apply on North Carolina portions of these waters. Virginia regulations apply in Virginia waters.

Blue Ridge Parkway

Virginia and North Carolina licenses are honored on all Parkway waters. **Note:** Virginia regulations apply in Parkway waters in Virginia except where noted herein or in federal regulations.

New River

Virginia or North Carolina state fishing licenses and permits are honored on the mainstream portion lying between the confluence of the North and South Forks of the New River in North Carolina (Alleghany County) downstream to the confluence of the New and Little rivers in Virginia (Grayson County).

Potomac River

Virginia has reciprocal license agreements for three sections of the Potomac River, one above the District of Columbia and two below the District of Columbia. License requirements are different for these sections.

- **Upper Potomac River** [above Little Falls (upper border with the District of Columbia) to the West Virginia border/state line]: Resident anglers with state freshwater licenses in Virginia or Maryland may fish the Potomac River and from both banks.
- **Middle Potomac and its Tidal Freshwater Tributaries** (between Woodrow Wilson Bridge and Rt. 301): Valid Virginia freshwater and saltwater (excluding county licenses), Potomac River Fisheries Commission, and Maryland Bay sport licenses are all honored on the mainstem Potomac and Maryland tributaries up to the demarcation lines (see below); all of these same licenses, except the Virginia saltwater licenses, are honored on the Virginia tributaries up to demarcation lines (see below):

Virginia tributaries up to the following demarcation lines:

- **Accotink Creek:** Rt. 1 Bridge
- **Aquia Creek:** First bridge above Aquia Harbor Marina

- **Chopawansic:** Rt. 1 Bridge
- **Choptank:** Causeway
- **Dougue Creek:** Rt. 235, Mt. Vernon Memorial Parkway
- **Four Mile Run:** Rt. 1 Bridge
- **Hunting Creek:** Rt. 1 Bridge
- **Little Hunting Creek:** Rt. 1 Bridge
- **Neabsco:** Rt. 1 Bridge
- **Occoquan River:** Fall Line
- **Pohick Creek:** Rt. 611 (Colchester Road)
- **Potomac Creek:** Rt. 608 Bridge
- **Powells Creek:** Rt. 1 Bridge
- **Quantico Creek:** Rt. 1 Bridge

Unnamed bays and tributaries accessible by gas-powered boats

Maryland tributaries up to the following demarcation lines:

- **Anacostia River:** Downstream of Northeast Branch Bridge at northbound lane of Alternate Rt. 1 Bladensburg Road, and Northwest Branch Bridge at southbound lane of Rhode Island Avenue
- **Piscataway Creek:** Downstream of Rt. 224 Bridge (Livingston Rd.)
- **Henson Run:** Downstream of Oxon Hill Road Bridge
- **Nanjemoy Creek:** Downstream of Rt. 6 (Trappe) Bridge
- **Port Tobacco Creek:** Downstream of Rt. 6 Bridge

- **Mattawoman Creek:** Downstream of Rt. 225 Bridge

Unnamed bays and tributaries accessible by gas-powered boats

- **Lower Potomac River** (between its mouth and the Rt. 301 Bridge): Valid Virginia saltwater (excluding county licenses), Maryland Bay sport, or Potomac River Fisheries Commission licenses are honored in the main stem. In Virginia tributaries below 301, Virginia freshwater and saltwater, and Potomac River Fisheries Commission licenses are honored.

Note: Maryland regulations apply for the Upper Potomac River and the Maryland Potomac River tributaries (call 1-800-688-3467 for current Maryland regulations).

Note: Potomac River Fisheries Commission regulations are enforced in the Potomac mainstem between the lower District of Columbia border and the mouth of the Potomac (call 1-804-224-7148 or 1-800-266-3904 for current PRFC regulations or http://prfc.us/fishing_potomac.html).

Waters between the Woodrow Wilson Bridge and Little Falls are controlled by D.C., and a D.C. fishing license is required.

SOUTH HOLSTON RESERVOIR

Any person possessing a valid Tennessee or Virginia resident freshwater fishing license, or who is legally exempt from those license requirements, and possessing the South Holston Reservoir License may fish in the Tennessee and Virginia impounded waters of South Holston Reservoir. **Virginia residents fishing in South Holston Lake in Tennessee must have a Virginia resident license and South Holston Reservoir Permit (or Tennessee nonresident fishing license); under the age of 13—no license or permit required.** The annual cost of the South Holston License is currently \$21. The South Holston License is valid in all impounded portions of the reservoir below full pool elevation of 1,730 feet, including the confluence of the Middle Fork and South Fork Holston rivers and the South Fork Holston River upstream to the Route 710 Bridge at Alvarado, Virginia. The South Holston License is not valid for possession of trout.

In addition to the South Holston License, a valid resident Tennessee trout fishing license or a valid resident Virginia trout fishing license is required to fish for trout and to possess trout on South Holston Reservoir. All anglers shall abide by the laws of the state in which they are fishing as to manner and means of taking fish. Size restrictions and creel limits shall be as follows:

Species	Restrictions	Creel (Harvest) Limit
Largemouth & smallmouth bass	No smallmouth less than 15 inches	5 per day
Spotted bass	No minimum size	No daily limit
Walleye	No walleye less than 18 inches	5 per day
Crappie	No crappie less than 10 inches	15 per day
Trout	No minimum size—only 2 lake trout per day	7 per day
White bass	No harvest—all white bass must be released	
Catfish	Only 1 catfish over 34 inches	20 per day
Bluegill	No minimum size	50 per day
Rock bass	No minimum size	20 per day
Trotlines*	100 hooks per angler	
Jugs*		50 per angler
Limb-lines*		15 per angler

*All trotlines, limb-lines, and jugs must be tagged with angler's name/address or license number.

- Fishing in inland waters must be by angling with a hook and line or rod and reel. (See exceptions for nongame fish on pages 27–28.)
- All fishing on inland waters requires a freshwater fishing license, unless license exempt.
- A hand landing net may be used to land fish legally hooked in all waters.
- It is unlawful to have more than the daily creel limit of any fish in possession while afield or on the waters. The daily creel limit includes live possession of fish.
- Any person who fishes on another's property must have the landowner's permission to do so except on designated stocked trout waters along which signs have been placed indicating that the waters are open to public fishing.
- It shall be unlawful for any person, while fishing, to remove the head or tail or otherwise change the appearance of any game fish (except bluegill sunfish and bream of the sunfish family) having a daily creel or size limit so as to obscure its species or render it impracticable to measure its total original length or count the number of such fish in possession. In addition, it shall be unlawful for any person to possess or transport such altered game fish while on the water. However, the prohibition against possession and transportation in the previous sentence shall not apply to the preparation of lawfully obtained fish for immediate use as food or any lawful commercial use of such fish.
- It is unlawful to use lime, dynamite, or any other substances to destroy fish, or to cast or allow noxious matter to pass into watercourses that might destroy fish or fish spawn, or to deposit trash in streams or lakes or along their banks.
- It is illegal to use SCUBA (Self-contained Underwater Breathing Apparatus) gear to take or attempt to take fish.
- Remove all trotlines, juglines, or set poles from public waters when not in use (see page 27).
- Marking fish with tagging equipment for personal information or research requires agency permission.
- No species of fish, freshwater mussel, or mollusk may be taken in inland waters to be sold, except under special permits provided by law.
- It is unlawful to take, kill, capture, or possess any threatened or endangered species.

Virginia Game Fish

Includes the following: trout, largemouth bass, smallmouth bass, spotted bass, rock bass, roanoke bass, bream, bluegill, crappie, walleye, sauger, saugeye, chain pickerel, muskellunge, northern pike, striped bass, and white bass.

Stocking Fish

It is unlawful to stock any species of fish into the inland waters of Virginia without first obtaining written approval from the Department (private ponds excepted). **Also, blue catfish and their hybrids, as well as spotted bass, Alabama bass, and Northern snakehead cannot be stocked in privately owned ponds and lakes.**

Trout As Bait

Artificially raised rainbow trout may be sold as bait for use in the James and New rivers, and in impoundments (ponds, lakes, reservoirs), except impoundments listed as designated stocked trout waters and Lake Moomaw. Persons possessing purchased rainbow trout for bait must have a valid invoice or bill of sale, specifying date of purchase, the number of trout purchased, and name of an individual or business permitted to sell trout.

Special Regulations

Lick Creek, Bear Creek, Susong Branch, Mumpower Creek, Timbertree Branch, and Streams and Their Tributaries That Flow Into Hungry Mother Lake

It shall be unlawful to use fish as bait in Lick Creek in Smyth and Bland counties, Bear Creek in Smyth County, Laurel Creek in Tazewell and Bland counties (North Fork Holston River drainage), Big Stony Creek in Giles County, Dismal Creek in Bland and Giles counties, Laurel Creek in Bland County (Wolf Creek drainage) and Cripple Creek in Smyth and Wythe counties.

It shall be unlawful to use seines, nets, or traps to take fish in Lick Creek in Smyth and Bland counties, Bear Creek in Smyth County, and streams and their tributaries that flow into Hungry Mother Lake in Smyth County, Laurel Creek and tributaries upstream of the Highway 16 Bridge in Tazewell and Bland counties, Susong Branch and Mumpower Creek in Washington County and the City of Bristol, and in Timbertree Branch in Scott County.

Dam Regulations

Buggs Island

Mechanical lure launchers may not be used within 600 yards below Buggs Island Dam.

Walkers Dam

Only rod and reel and hand lines permitted within 500 yards below dam. It is illegal to snag fish at Walkers Dam.

Leesville Dam

It shall be unlawful to fish, attempt to fish, assist others in fishing, collect or attempt to collect bait while wading, or operating, or anchoring any vessel in the waters of the Roanoke River from Leesville Dam downstream 840 feet to a

permanent overhead cable. The Leesville Tailrace Bank Fishing Area is closed to all access until further notice. No fishing and/or trespassing in this area is currently allowed. The canoe launch immediately downstream from the bank fishing access is still open for use.

Fishways

It shall be unlawful to fish or to collect bait from March 1 through June 15 within 300 feet of Boshers Dam Fishway on the north bank of the James River.

Department-owned Lakes, Ponds, Streams, or Boat Access Sites

Motors and boats

Unless otherwise posted, the use of boats propelled by gasoline motors or sail is prohibited at Department-owned lakes, ponds, or streams. However, in Department-owned water bodies that prohibit the use of gasoline motors, it is permissible to use a boat equipped with such a motor provided the motor is turned off at all times (including launch and retrieval).

Method of fishing

Taking any fish at any Department-owned lake, pond, or stream by any means other than by use of one or more attended poles with hook and line attached is prohibited unless otherwise posted.

Hours for fishing

Fishing is permitted 24 hours a day unless otherwise posted at Department-owned lakes, ponds, streams, or boat access sites.

Seasons, hours and methods of fishing, size and creel limits, hunting

The open seasons for fishing, as well as fishing hours, methods of taking fish, and the size, possession and creel limits, and hunting and trapping on Department-owned lakes, ponds, streams, or boat access sites shall conform to the regulations of the board unless otherwise excepted by posted rules by the director or his designee. Such posted rules shall be displayed at each lake, pond, stream, or boat access site, in which case the posted rules shall be in effect. Failure to comply with posted rules concerning seasons, hours, methods of taking, bag limits, and size, possession, and creel limits shall constitute a violation of this regulation.

Other uses

Camping overnight or building fires (except in developed and designated areas), swimming, or wading in Department-owned lakes, ponds, or streams (except by anglers, hunters, and trappers actively engaged in fishing, hunting, or trapping), is prohibited. All other uses shall conform to the regulations of the board unless excepted by posted rules.

Fishing tournaments & boat ramp special use

A boat ramp special use permit is required to organize, conduct, supervise or solicit entries for fishing tournaments, rodeos or other fishing

STARTING SALARY: \$53,500 - \$70,000

OVER 20 SPECIALTY UNITS
15 DAYS OFF PER MONTH

JOINLCSO.COM

events on lakes, ponds, or streams owned by the department, for which prizes are offered, awarded or accepted based on size or numbers of fish caught, either in money or other valuable considerations. Any fish captured and entered for scoring or consideration during a permitted fishing tournament, rodeo, or other fishing event on lakes, ponds or streams owned by the department must be immediately released at the capture site. A boat ramp special use permit is not required for tournaments, rodeos or other fishing events that occur on a statewide or nationwide basis and that do not have a designated meeting or gathering location.

Fish Consumption Advisories

Fishing provides many benefits, including food and recreational enjoyment. Many anglers keep, cook, and eat their catches. Fish are routinely monitored for contaminants by the Department of Environmental Quality. Sometimes the fish in certain waters are found to contain potentially harmful levels of chemicals. When this happens, the Department of Health issues warnings for the affected bodies of water. For specific, up-to-date fish consumption advisories, please go to the Health Department website, fishadvisories.vdh.virginia.gov or call the Health Department at 804-864-8182.

Anglers should realize that they may still fish these waters and enjoy excellent recreational fishing. Below is a section on cleaning

and cooking your fish, which will help reduce contamination levels in fish you eat.

Cleaning and Cooking Your Fish

Polychlorinated biphenyls (PCBs) and most other organic contaminants usually build up in a fish's fat deposits and just underneath the skin. By removing the skin and fat before cooking, you can reduce the levels of these chemicals. Mercury collects in the fish's muscle and cannot be reduced by cleaning and cooking methods. You can reduce the fat and contaminants (e.g. pesticides, PCBs) in the fish you eat. To reduce the potential harmful effects from eating contaminated fish, VDH recommends the following:

- Eat smaller, younger fish. Younger fish are less likely to contain harmful levels of contaminants than older, larger fish.
- Remove the skin, the fat from the belly and top, and the internal organs before cooking.

- Bake, broil, or grill on an open rack to allow fats to drain. Avoid pan frying in butter or animal fat because these methods hold fat juices.
- Discard the fat that cooks out of the fish, and avoid or reduce the amount of fish drippings that are used to flavor the meal.
- Eat less deep fried fish since frying seals contaminants into the fatty tissue.

IMPORTANT: The meal advice included in this information is based on fish that have been skinned, trimmed, and cooked properly. Also remember that larger and older fish tend to collect more contaminants, and fatty fish (such as channel catfish and carp) tend to collect PCBs and other organic chemicals. Eating smaller, younger fish and avoiding fatty species can help limit your exposure. Your exposure depends not only on the contaminant levels in the fish, but also on the amount of fish you eat.

Q: What do I do if I catch a tagged fish?

A: Anglers should call the regional office that corresponds to the area where the fish was caught and report their catch information or provide that information by mail. If a study is ongoing that provides a "reward" for tag returns, the tag must be removed from fish and returned to DWR to receive the reward.

Best Practices for Catch-and-Release Fishing

- Always wet your hands before handling a fish. Never handle a fish with dry hands. Handling a fish with dry hands can take the protective slime coating off of a fish.
- Use a net when landing a fish. A large net will allow you to keep the fish wet while you prepare to remove the lure, fly, or hook. This also allows you to keep the fish wet if you're preparing to take photos. A soft rubber net is preferable to knotted nylon nets. Cradle nets are best used for larger species of fish like musky.
- When photographing a fish, keep it quick and get the fish back into the water as soon as you can.
- Avoid contact with boat surfaces such as carpet and metal when handling a fish.
- Make sure you have a pair of long pliers such as needlenose for unhooking fish, especially for those fish that are hooked in hard to reach places. Heavy wire cutters and jaw spreaders are essential for toothy critters like musky.
- If the hook is too deep, it is best to cut the line as close to the hook eye as you can. Most non-stainless hooks will rust out and dissolve

over time and this will give the fish a much better chance of survival than the stress that comes with attempting to remove the hook with pliers.

- When handling a fish out of the water, make sure to keep your hands and fingers away from the gills and gill arches. Don't hold the fish too tightly and never hold a fish by the eyeball sockets
- When releasing a fish, it's important to let the fish recover on its own terms; the fish will swim out of your hands when it's ready. To help revive the fish, it is best to hold the fish upright and move the fish gently forward so water runs over the gills. When fishing in rivers and moving water, always face a fish upstream during a release.
- Make sure you have the correct size rod and reel for the species of fish you are targeting and don't fight a fish longer than you need to which can cause additional stress.
- Carry a thermometer with you and consider water temperatures when targeting coldwater oriented species like trout, musky, and striped bass during the summer months in Virginia. Plan to fish in the early morning hours as this is when the coolest water temperatures of the day will occur. Catching a trout in water temperatures of 70 degrees or warmer is often lethal to the fish. In the summer months, it can be beneficial to focus your efforts on fishing for trout in tailwaters and

spring creeks that provide cooler and stable temperatures. Anglers are encouraged to be extra careful when handling trout, musky, and striped bass in the summer months to reduce delayed mortality.

- If you are a tournament angler, make sure you have an aerator running to keep your livewell oxygenated for the fish. Having an inflow of freshwater into your livewell can prevent ammonia spikes. In the warmer summer months, consider adding a frozen water bottle to your livewell to keep temperatures cooler. Also consider using non-penetrating culling tags for the fish.
- Anglers who enjoy mounting fish and reliving the memories of a trophy can consider fiberglass mounts. All you need is a good photo of the fish with a length and girth measurement. Fiberglass mounts last longer than traditional skin mounts and are oftentimes even more realistic.
- See the "Qualifying a Trophy Fish by Length and Photo" option for Trophy Fish Awards on page 57.

ATTENTION ANGLERS

Transfer and Unauthorized Release of Fish into Virginia's Rivers and Lakes is Illegal!

Unauthorized introduction (i.e., stocking) of fish or wildlife, including game, bait, and aquarium species, into new waters can harm the environment and destroy public fisheries.

Releasing exotic or potentially harmful species is illegal:

- **Alabama Bass**, an invasive species that outcompetes largemouth bass and hybridizes with smallmouth bass, directly harming these important and popular resources;
- **Blue Catfish**, which are overabundant in our tidal rivers, with ongoing efforts to reduce their abundance;
- **Flathead Catfish**, native to the Upper Tennessee River, Big Sandy River, and New River drainages in Virginia, prey on other fish species almost from the time they hatch;
- **Northern Snakeheads**, which are exotics from Asia, with unknown impacts on other species;
- **Minnows** released from bait buckets, which can out-compete native species and/or disrupt spawning of important species;
- **Rusty Crayfish**, which can destroy aquatic vegetation used as nursery habitat by game fish;
- **Zebra or Quagga Mussels, and New Zealand Mud Snails**; all invasive exotic mollusks that may be easily and accidentally transported on or in boats, trailers, bait buckets, waders, or other fishing equipment; and

- **Hydrilla, Eurasian Milfoil, and Water Chestnut**; many exotic invasive aquatic plants are easily transported on boats and trailers.

Many introduced species cause significant and irreversible damage, but their long-term impacts may not be recognized until the population is established and eradication is impossible.

You can help by:

- **Stop Aquatic Hitchhikers!** Carefully inspect your boat, trailer, and equipment every time you launch or retrieve your boat, and every time you fish a new waterbody.
- **Clean, Drain, and Dry!** Remember that some of the most destructive invasive species (e.g., zebra mussels or didymo) can survive and spread from INSIDE your boat engine, live wells, bilge, coolers, waders, or other recreational gear.
- **Destroy**, or hold for future use, any unused live bait.
- **Remember** that blue catfish and their hybrids, as well as spotted bass, Alabama bass, and Northern snakehead cannot be stocked into privately-owned ponds and lakes.
- **Report** suspicious and illegal activity to 1-800-237-5712.
- **Report** suspected new populations of invasive plants or animals at: www.invasivespeciesva.org/report-sightings

KEEPING WILD FISH POPULATIONS HEALTHY

Working to protect the health of Virginia's native and stocked fish populations is critical to ensure that Virginia's fishery resources are maintained for future generations of fishermen. There are several ways in which anglers can reduce their chances of inadvertently spreading disease causing organisms from one location to another:

- Do not purposefully move fish, other aquatic organisms, sediment, or water from one body of water to another.
- Remove any mud, plants, fish, or sediment from fishing gear and boats before using them at another location.
- Pour out any water that may have accumulated in boats or equipment before use in another location.
- Dispose of any fish leftover parts that remain after cleaning by burying or incinerating them or by placing them in a tightly closed garbage bag and placing them in a dumpster, landfill, or trash bin.

For individuals that stock ponds and public waters, it is important that only healthy fish are released. To ensure that only healthy fish are stocked, individuals that stock either private ponds or public waters are encouraged to purchase their stockers from production facilities that regularly test their fish for diseases. This information may be obtained by asking the producer about the fish health testing history of his or her facility.

Removing rocks from rivers and streams to create rock stacks, temporary dams, or use for other purposes can have detrimental impacts on habitat for fish and other aquatic organisms while altering flows that can lead to stream bank erosion and sedimentation. Altering the stream bed materials is unlawful in Virginia without a permit as described by Virginia Code Section 28.2-1203. Violation of this code is a Class I misdemeanor. Please consider the potential impacts and consequences before moving rocks from stream and river beds.

DEPARTMENT OF
WILDLIFE RESOURCES
CONSERVE. CONNECT. PROTECT.

FISH LOCAL VA

Easily find bass, catfish, panfish, and trout by locality and see all **Fish Local VA** locations using the information provided online!

You don't have to travel far to find great fishing—excellent fishing opportunities exist in your own backyard, even if you live in one of Virginia's urban areas. Virginia DWR works closely with municipal, state, and non-governmental partners to establish quality fisheries in and around metropolitan areas throughout the state, stocking catfish, trout, largemouth bass, and sunfish in many of these waterbodies, providing a great chance to connect to the outdoors. To learn more go to: <https://dwr.virginia.gov/fishing/fish-local/>

CONSERVE. CONNECT. PROTECT.

Seasons

There is a continuous, year-round season for all freshwater fish, with the following exceptions:

- Special times and limited closures for trout (Designated Stocked Trout Waters pg. 29, Youth-only Stocked Trout Waters pg. 30, Trout Heritage Waters pg. 35, Urban Program Waters pg. 30, Blue Ridge Parkway pg. 30, and Fee Fishing trout waters pg. 35); and
- Certain seasons for special methods to take nongame fish pages 27–28.

Regulations for anadromous (coastal) striped bass, alewife and blueback herring above and below the fall line, in tidal rivers of the Chesapeake Bay; and anadromous (coastal) American shad and hickory shad, and all other saltwater fish below the fall line, in tidal rivers of the Chesapeake Bay, are set by the Virginia Marine Resources Commission. For more information call (757) 247-2200 or go online at www.mrc.virginia.gov.

Meghan Marchetti / DWR

You may just hook a nice largemouth bass when fishing one of Virginia's beautiful rivers.

Fish Bait Information

BAIT TYPE	POSSESSION LIMIT	NOTE
¹ Minnows, Chubs, Madtoms	50	In aggregate with other bait, see below
¹ Crayfish	50	In aggregate with other bait, see below
¹ Hellgrammites	50	In aggregate with other bait, see below
¹ Salamanders	0	No possession allowed
² Shad (Gizzard, Threadfin, Herring)	Unlimited	Only permitted in certain waters, see below
³ Trout	Unlimited	Artificially raised trout only, see below
⁴ Virginia Game Fish	See pages 22–26	Collected by angling with hook and line only
Fathead minnows, golden shiners, goldfish	Unlimited	
Legally purchased fish bait	Unlimited	Receipt needed specifying # and species

1–Minnows, chubs, madtoms, crayfish, and hellgrammites are limited to 50 total for all species combined (aggregate), not 50 of each species at the same time.

2–Gizzard and threadfin shad can be used in any of Virginia's waters but there are geographical limitations for herring. There are no restrictions for the use of herring in Virginia waters that are within the Roanoke, New, or Tennessee River drainages. However, it is unlawful to possess herring in all coastal rivers of the Chesapeake Bay, Meherrin River, Nottoway River, Blackwater River (Chowan Drainage), North Landing and Northwest rivers and their tributaries, and Back Bay.

3–Only artificially raised trout may be used as bait. Must have an invoice or bill of sale specifying date of purchase, number of trout purchased and business where trout were purchased. Trout may be used as bait in the James River, New River, and in impoundments except Lake Moomaw and Philpott Reservoir.

4–Any legally possessed game fish may be used as bait when fished whole. Must comply with creel and length limits. The only game fish that can be used as cut bait are bluegill, sunfish, and bream. It is unlawful to remove the head, tail, or change the appearance of any other game fish since it would be impractical to measure original lengths or count the number of fish in possession.

For more information see pages 27–28.

Legal Methods for Capturing Nongame Bait:

- Seine not exceeding 4 feet depth by 10 feet in length.
- Minnow traps with throat openings no larger than 1 inch in diameter.
- Collected by angling with hook and line.
- Cast net.
- Hand-held bow nets with diameter no larger than 20 inches and handle length not to exceed 8 feet.
- Umbrella-type net not to exceed 5 by 5 feet square.
- Dip nets may be used to take shad, herring, mullet, and suckers only but may not be used in waters where anadromous (American) shad and herring cannot be possessed.

Areas Restricted:

- Designated stocked trout waters between October 1 and June 15.
- Department-owned lakes, unless otherwise posted.
- Lick Creek in Smyth and Bland counties, Bear Creek in Smyth County, Laurel Creek and tributaries upstream of the Highway 16 bridge in Tazewell and Bland counties, streams and their tributaries that flow into Hungry Mother Lake in Smyth County, Susong Branch and Mumpower Creek in Washington County and the City of Bristol, and Timbertree Branch in Scott County.
- The use of nets other than cast nets (throw nets) to collect bait in the Roanoke (Staunton) and Dan Rivers in Campbell, Charlotte, Halifax, and Pittsylvania counties, and in the City of Danville is prohibited. Cast nets may be used to collect bait in these rivers.

DON'T LET THEM HITCH A RIDE

Zebra mussels are small (<1") freshwater bivalves with dark and light bands on their shells. They can attach to surfaces, in clusters, leading to tremendous recreation, wildlife, and economic damage. They can be accidentally transported to Virginia by boaters and anglers, and we are counting on you to help stop the spread of zebra mussels by taking the following precautions:

- Visually inspect and scrub boat hulls, motors, anchors, and trailers, removing any attached vegetation at site of origin, then hose equipment with hot (140°F) and/or high-pressure water if possible.
- Bilges, live wells, and any other water-holding compartments should be drained at the site of origin and flushed with disinfectant or hot water.
- Boat and other equipment should remain completely dry for at least 24 hours before being used again.
- Take same precautions with waders, bait buckets, and other equipment that can hold water or come into contact with water.

If you believe you have seen or found a zebra mussel, please contact the Department immediately at (804) 367-6913 or Brian Watson at the Department's Forest Office (434-525-7522). For more information on zebra mussels, please see our website.

Lee Walker / DWR

HOW TO USE CREEL & LENGTH LIMIT TABLE

Q: I am fishing for smallmouth bass at Lake Moomaw. How many and what size may I keep?

A: The statewide creel limit for bass is 5 in the aggregate, with no length limit. However, under GEOGRAPHICAL EXCEPTIONS, Lake Moomaw is listed. The exception is that no bass may be kept less than 12 inches long. Unless otherwise posted at the site, you could keep 5 bass but none of them can be less than 12 inches long.

Q: What does the term "in the aggregate" mean?

A: Aggregate means combined. In the example above for Lake Moomaw, unless otherwise posted, you can keep 5 bass in the aggregate but none can be less than 12 inches long. Example: You could keep 3 largemouth bass and 2 smallmouth bass for a combined or aggregate total of 5 but none of the 5 can be less than 12 inches in length.

Q: I am fishing for largemouth bass at Lake Brittle in Fauquier County. How many can I keep and of what size length?

A: Lake Brittle is not listed as a GEOGRAPHICAL EXCEPTION since this is not a major lake. The DWR website at www.virginiawildlife.gov/lakes under Lake Brittle indicates there is a 12–15 inch slot limit on largemouth, where all bass between 12–15 inches must be released. You could keep 5 bass but none between 12–15 inches long. This restriction should also be posted at Lake Brittle.

CREEL (HARVEST) AND LENGTH LIMITS

The tables that follow give statewide creel (harvest) and length limits for major sport fish and exceptions for major rivers and lakes. Regulations for many smaller lakes and boat access areas are posted on site, and posted regulations are in effect (see "OTHER USES" under Department-owned Lakes, Ponds, Streams or Boat Access Sites, page 14). For smaller lakes, information can be found online at: www.virginiawildlife.gov/fishing. Creel limits are per person per day.

How to Measure a Fish

CREEL AND LENGTH LIMIT	GEOGRAPHIC EXCEPTIONS	CREEL OR LENGTH LIMITS FOR EXCEPTIONS
------------------------	-----------------------	---------------------------------------

Largemouth, Smallmouth Bass

			LAKES	
5 per day in the aggregate (combined) No statewide length limits	Briery Creek Lake	No largemouth or smallmouth bass 16 to 24 inches, only 1 per day longer than 24 inches		
	Buggs Island Lake/Kerr Reservoir	Only 2 of 5 largemouth or smallmouth bass less than 14 inches		
	Claytor Lake	No smallmouth less than 14 inches		
	Flannagan Reservoir	No largemouth bass less than 12 inches; no smallmouth bass less than 15 inches		
	Lake Gaston	Only 2 of 5 largemouth or smallmouth bass less than 14 inches		
	Leesville Reservoir	Only 2 of 5 largemouth or smallmouth bass less than 14 inches		
	Lake Moomaw	No largemouth or smallmouth bass less than 12 inches		
	Philpott Reservoir	No largemouth or smallmouth bass less than 12 inches		
	Quantico Marine Base waters	No largemouth or smallmouth bass 12 to 15 inches		
	Smith Mt. Lake and its tributaries below Niagara Dam	Only 2 of 5 largemouth or smallmouth bass less than 14 inches		
	South Holston Reservoir	No smallmouth less than 15 inches		
				RIVERS
	Clinch River—within the boundaries of Scott, Wise, Russell or Tazewell counties	No largemouth or smallmouth bass less than 20 inches, only 1 per day longer than 20 inches		
	Dan River and tributaries downstream from the Union Street Dam, Danville	Only 2 of 5 largemouth or smallmouth bass less than 14 inches		
	James River—Confluence of the Jackson and Cowpasture rivers (Botetourt Cty) downstream to the 14th St. Bridge in Richmond	No largemouth or smallmouth bass 14 to 22 inches, only 1 per day longer than 22 inches		
	Levisa Fork River—within the boundaries Buchanan County	No largemouth or smallmouth bass less than 20 inches, only 1 per day longer than 20 inches		
	New River—Fields Dam (Grayson County) downstream to the VA-WV state line and its tributaries Little River downstream from Little River Dam in Montgomery County, Big Walker Creek from the Norfolk Southern Railroad Bridge downstream to the New River and Wolf Creek from the Narrows Dam downstream to the New River in Giles County. (This does not include Claytor Lake which is delineated as: The upper end of the island at Allisonia downstream to the dam.)	No largemouth or smallmouth bass 14 to 22 inches, only 1 per day longer than 22 inches		
	North Fork Holston River—Rt. 91 Bridge upstream of Saltville, Va. downstream to the VA-TN state line	No largemouth or smallmouth bass less than 20 inches, only 1 per day longer than 20 inches		
	Potomac River - Virginia tidal tributaries above Rt. 301 bridge	No largemouth or smallmouth bass less than 15 inches from March 1 through June 15		
Staunton (Roanoke) River—and its tributaries below Difficult Creek, Charlotte County	Only 2 of 5 largemouth or smallmouth bass less than 14 inches			
North Fork, South Fork and Mainstem Shenandoah River	No largemouth or smallmouth bass 11 to 14 inches			
Staunton River—Leesville Dam (Campbell County) downstream to the mouth of Difficult Creek, Charlotte County	No smallmouth bass less than 20 inches, only 1 per day longer than 20 inches			

Alabama, Spotted Bass

No statewide daily limit		
No statewide length limit		

CREEL AND LENGTH LIMIT	GEOGRAPHIC EXCEPTIONS	CREEL OR LENGTH LIMITS FOR EXCEPTIONS
------------------------	-----------------------	---------------------------------------

Striped Bass

Landlocked Striped Bass and Landlocked Striped Bass X White Bass Hybrids

4 per day in the aggregate No fish less than 20 inches	Buggs Island Lake/Kerr Reservoir including the Staunton (Roanoke) River to Leesville Dam and the Dan River to the Union Street Dam (Danville)	October 1–May 31: 2 per day in the aggregate (combined) No striped bass or hybrid striped bass less than 20 inches June 1–September 30: 4 per day in the aggregate (combined) No length limit
	Claytor Lake and its tributaries	September 16–June 30: 2 per day in the aggregate, no striped bass or hybrid bass less than 20 inches July 1–September 15: 4 per day in the aggregate; no length limit
	Lake Gaston	4 per day in the aggregate (combined) October 1–May 31: No striped bass or hybrid striped bass less than 20 inches June 1–September 30: No length limit
	Smith Mountain Lake and its tributaries, including the Roanoke River upstream to Niagara Dam	2 per day in the aggregate (combined) November 1–May 31: No striped bass 30 to 40 inches June 1–October 31: No length limit

Anadromous (coastal) striped bass above the fall line in all coastal rivers of the Chesapeake Bay

Creel and length limits shall be as set by the Virginia Marine Resources Commission for recreational fishing in tidal waters	None apply	None apply
--	------------	------------

Striped bass in the Meherrin, Nottoway, Blackwater (Chowan Drainage), North Landing and Northwest rivers and their tributaries plus Back Bay

2 per day No striped bass less than 18 inches	None apply	None apply
--	------------	------------

Walleye, Saugeye

5 per day in the aggregate No walleye or saugeye less than 18 inches	Claytor Lake and the New River upstream of Claytor Lake Dam to Buck Dam in Carroll County	2 walleye per day; no walleye 19 to 28 inches
---	---	---

Sauger

2 per day No statewide length limits	None apply	None apply
---	------------	------------

White Bass

5 per day No statewide length limits	South Holston Reservoir	No harvest or possession (catch and release only)
	Lake Gaston and Buggs Island Lake/Kerr Reservoir, including the Staunton River to Leesville Dam and the Dan River to Union Street Dam (Danville)	10 per day; no white bass less than 14 inches

Chain Pickerel

5 per day No statewide length limits	Lake Gaston and Buggs Island Lake/Kerr Reservoir	No daily limit
---	--	----------------

Northern Pike

2 per day No pike less than 20 inches	None apply	None apply
--	------------	------------

Muskellunge

2 per day No muskellunge less than 30 inches	New River-Fields Dam (Grayson County) downstream to Claytor Dam, including Claytor Lake	1 per day No muskellunge less than 42 inches
	New River-Claytor Dam downstream to VA-WV state line	1 per day June 1–last day of February: No muskellunge 40 to 48 inches March 1–May 31: No muskellunge less than 48 inches

CREEL (HARVEST) AND LENGTH LIMITS

CREEL AND LENGTH LIMIT	GEOGRAPHIC EXCEPTIONS	CREEL OR LENGTH LIMITS FOR EXCEPTIONS
------------------------	-----------------------	---------------------------------------

Bluegill (bream) and other sunfish excluding Crappie, Rock Bass (redeye) and Roanoke Bass

50 per day in the aggregate (combined) No statewide length limits	Lake Gaston and Buggs Island Lake/Kerr Reservoir and that portion of the New River from the VA-NC state line downstream to the confluence of the New and Little rivers in Grayson County	No daily limit
--	--	----------------

Crappie (black or white)

25 per day in the aggregate (combined) No statewide length limits	Lake Gaston and that portion of the New River from the VA-NC state line downstream to the confluence of the New and Little rivers in Grayson County	No daily limit
	Buggs Island Lake/Kerr Reservoir	No crappie less than 9 inches
	Briery Creek and Sandy River reservoirs	No crappie less than 9 inches
	Flannagan and South Holston reservoirs	No crappie less than 10 inches; South Holston Res.-15 per day in the aggregate (combined)

Rock Bass (redeye)

25 per day in the aggregate with Roanoke bass No statewide length limits	Lake Gaston and Buggs Island Lake/Kerr Reservoir and that portion of the New River from the VA-NC state line downstream to the confluence of the New and Little rivers in Grayson County	No daily limit
	Nottoway, Meherrin, Blackwater (Franklin County), Falling and Smith rivers and their tributaries	5 per day in the aggregate (combined) with Roanoke bass No rock bass less than 8 inches
	South Holston Reservoir	20 per day

Roanoke Bass

25 per day in the aggregate with rock bass No statewide length limits	Nottoway, Meherrin, and Blackwater (Franklin County), Falling and Smith rivers and their tributaries	5 per day in the aggregate (combined) with rock bass No Roanoke bass less than 8 inches
--	--	--

Perch (yellow and white)

No statewide daily limit No statewide length limit	Lake Moomaw	10 per day
	Tidal rivers of the Chesapeake Bay below the fall line	No yellow perch less than 9 inches

Trout

6 per day 7 inch minimum size	See Trout Waters, pages 31-35	
No minimum size limit	South Holston Reservoir	7 fish per day—only 2 lake trout. No minimum size.

Catfish

Channel, White and Flathead

20 per day No length limits	All rivers below the fall line	No daily limit
--------------------------------	--------------------------------	----------------

Blue

20 per day No statewide length limits	Buggs Island Lake/Kerr Reservoir	20 per day, except only 1 blue catfish per day longer than 32 inches
	James River and its tributaries below the fall line, Rappahannock River and its tributaries below the fall line, and York River and its tributaries (including the Pamunkey River and Mattaponi River) below the fall line	No daily limit, except only 1 blue catfish per day longer than 32 inches
	Lake Gaston	No daily limit, except only 1 blue catfish per day longer than 32 inches
	All rivers below the fall line other than the James River and its tributaries, the Rappahannock River and its tributaries, and the York River and its tributaries	No daily limit

CREEL AND LENGTH LIMIT	GEOGRAPHIC EXCEPTIONS	CREEL OR LENGTH LIMITS FOR EXCEPTIONS

Rangers at Philpott Lake and John H. Kerr Dam & Reservoir want visitors to be safe while fishing and recreating. Remember to wear a life jacket and follow safe boating practices.

General

Harvesting or collecting fish by any of the following methods listed in this section requires a freshwater fishing license. It shall be unlawful to take, possess, import, cause to be imported, export, cause to be exported, buy, sell, offer for sale or liberate within the Commonwealth any wild animal unless otherwise specifically permitted by law or regulation. Native or naturalized albino reptiles, native or naturalized albino amphibians, and any domestic animals may be imported, possessed, and sold. A list of domestic animals and the Department's official listing of "Native and Naturalized Fauna of Virginia" is available at www.virginiawildlife.gov/wildlife/wildlife-information.

Native and Naturalized Species

Possession Limits

(see exceptions for certain species below)

Personal Use & Not for Sale

- 1 – native or naturalized (reptile or amphibian) per residency that is not listed in Virginia's 2015 Wildlife Action Plan
- 20 – Nongame Fish and Aquatic Invertebrates

Exceptions:

1. No possession allowed. Threatened and endangered species, freshwater mussels, candy darter, eastern hellbender, diamondback terrapin, and spotted turtle.
2. No possession limits – can be possessed in unlimited numbers. Carp, mullet, yellow bullhead, brown bullhead, black bullhead, snail bullhead, white sucker, northern hog-sucker, gizzard shad, threadfin shad, white perch, yellow perch (10 fish limit in Lake Moomaw), alewife and blueback herring [see limits under Anadromous (coastal) in table on page 25], stoneroller (hornyhead), fathead minnow, golden shiner, goldfish, and Asian clams.
3. See page 24 for catfish and page 25 for anadromous (coastal) shad and herring limits.
4. Fish bait: minnows and chubs (Cyprinidae), crayfish, and hellgrammites—50 in aggregate (all species combined) unless said person has purchased fish bait and has a receipt specifying the number of individuals purchased by species. **Note:** Madtoms, crayfish, and salamanders cannot be bought or sold.
5. Bullfrogs – 15 per day.
Snapping turtles – 5 per day, only from June 1 to September 30. Cannot be taken from the banks or waters of designated stocked trout waters.
6. Native amphibians and reptiles that are captured within the Commonwealth and possessed live for private use and not for

sale may be liberated under the following conditions:

- » Period of captivity does not exceed 30 days;
- » Animals must be liberated at the site of capture;
- » Animals must have been housed separately from other wild-caught and domestic animals; and
- » Animals that demonstrate symptoms of disease or illness or that have sustained injury during their captivity may not be released.

Methods to Capture or Take

General Methods:

- Except as provided for under "Other Methods" and except in any waters where the use of nets is prohibited, the species listed in the previous section (Possession Limits) may only be taken by hand, hook and line, with a seine not exceeding 4 feet in depth by 10 feet in length, an umbrella-type net not exceeding 5 by 5 feet square, small minnow traps with throat openings no larger than 1 inch in diameter, cast nets, and handheld bow nets with diameter not to exceed 20 inches and handle length not to exceed 8 feet.
- Gizzard shad and white perch may also be taken from below the fall line in all tidal rivers of the Chesapeake Bay using a gill net in accordance with Virginia Marine Resources Commission recreational fishing regulations.
- Bullfrogs may also be taken by gigging or bow and arrow and from private waters by firearms no larger than .22 caliber rimfire. Taking bullfrogs with a gig, .22 caliber rimfire, or bow and arrow requires a hunting license.
- Snapping turtles may be taken for personal use with hoop nets not exceeding 6 feet in length with a throat opening not exceeding 36 inches. Taking turtles by hook and line requires a fishing license.

SCUBA:

It is illegal to use SCUBA (Self-contained Underwater Breathing Apparatus) gear to take or attempt to take fish.

Trotlines, juglines (noodles) or set poles (limb lines):

These may be used to take nongame fish and turtles provided they are not baited with live bait (worms are permissible), except on designated stocked trout waters, Department-owned lakes, and within 600 feet of any dam. Live bait other than game fish may be used on trot lines to take catfish in Carroll, Dickenson, Giles, Grayson, Montgomery, Pulaski and Wythe counties, and in the Clinch River in Russell, Scott, and Wise counties. (See page 13 for South Holston Reservoir.)

Any person setting or possessing the above equipment shall have it clearly marked by permanent means with his or her name, address, and telephone number, and is required to check all lines and remove all fish and animals caught each day.

Remove all trotlines, juglines, or set poles (limb lines) from public waters when not in use.

Additional requirements for juglines (also called "noodles"): Defined as a single hook, including one treble hook, and line attached to a float. Jugline/noodle sets on public waters shall be restricted to 20 per angler and must be attended (within sight) by anglers at all times. Also, in addition to being labeled with the angler's name, address and telephone number, jugs/noodles shall also be labeled with a reflective marker that encircles the jugs/noodles to allow for visibility at night.

Bow and Arrow (including crossbows):

These may be used to take common carp, grass carp, northern snakehead, and gar (fishing license required) during day and night hours (24 hrs.), except from waters stocked with trout. Bowfin and catfish may be taken in tidal waters (below Fall Line, see page 12). Spearguns and

DIDYMO...

Spread the word, not the algae.

Didymo is an invasive freshwater algae that can form massive blooms and cover entire river bottoms. It thrives in cold, clear, shallow water and is currently found in at least four Virginia trout rivers: **Smith, Jackson, Pound, and Dan rivers** below dams.

Four steps anglers can take to help prevent the spread of didymo:

- **CHECK:** Before leaving the river, look for strands of algae on your equipment. Remove the strands and leave them on-site.

- **CLEAN:** Soak and scrub all gear for at least one minute in a 2% solution of household bleach. Make sure that all surfaces of your equipment are thoroughly treated.

- **DRY:** If cleaning is not practical, dry equipment in the sun for at least 48 hours before using in another stream.

- **LEAVE:** Fish, plants, and vegetation should not be moved between streams.

For more information, visit our website at www.virginiawildlife.gov/fishing/didymo.

NONGAME FISH, REPTILE, AMPHIBIAN, AND AQUATIC INVERTEBRATE REGULATIONS

poisoned arrows are prohibited. Snakehead must be immediately killed and reported to DWR. Must comply with creel limits on fish.

Snagging, grabbing, snaring, gigging, and the use of a striking iron:

These are legal methods to take nongame fish in certain waters in certain counties as follows (see table page 25 for certain nongame fish limits):

1. In the waters of the following counties [except public impoundments, the Roanoke (Staunton) and Dan Rivers, and those waters stocked by the Department]: Amelia, Appomattox, Brunswick, Campbell, Charlotte, Cumberland, Dinwiddie, Goochland (except James River), Greensville, Halifax, Louisa, Lunenburg, Mecklenburg, Notoway, Pittsylvania, and Prince Edward.
2. It shall be lawful to take nongame fish by gig or fishing spear from a position above the surface of the water on those portions below the fall line of the Rappahannock River and its tributaries and the Potomac River and its tributaries. A fishing spear is defined as an implement with a shaft and sharp point or tines designed to be thrust or thrown by hand.
3. From April 1 through May 15 and October 1 through November 30 during the daytime in the following waters: Buchanan County, all waters except Dismal River; Grayson County, New River; Lee County, Powell River; Russell County, Clinch River; Scott County, Clinch River and its tributaries; Tazewell County, Dry Run Creek; Wise County, Clinch River; and Washington County, Middle Fork and South Fork of the Holston River. Creel limit: 20 suckers per day.
4. Snagging for carp and suckers during April in Wolf and Big Walkers Creek in Giles County.
5. Snagging for carp and suckers in Walkers Creek, Wolf Creek and the North Fork of the Holston in Bland County.
6. Bow and arrow and gigging for carp year-round in the Shenandoah River.
7. Shooting with a rifle for suckers and carp from April 15 to May 31 during daylight hours in the shoals of the Clinch River within the limits of Scott County, except that it shall be unlawful to shoot fish on Sunday or within the limits of any town, or from any bridge. Fishing license is required. Creel limit: 20 per day.

Dip nets:

Dip nets may be used to take shad, herring, mullet and suckers except in designated stocked trout waters, Department-owned or controlled lakes, in certain waters where anadromous shad and herring cannot be possessed (see page 25 for shad and herring limits), and as restricted below. The user and all helpers (regardless of age) must have dip net permits (\$4.50) or valid fishing license. Permits are valid in the county's inland waters for which issued. All other fish species taken are to be immediately returned to the water alive.

Herring:

The Virginia Marine Resources Commission enacted a ban on the possession of river herring in tidal waters, effective January 1, 2012, due to the collapse of the stock and in order to comply with an Atlantic States Marine Fisheries Commission directive.

Suckers Taken with Dip Nets:

Limit of 20 per day.

Season: February 15– May 15.

Dip nets shall not be more than 6 feet square. Dip net permits are not required for taking suckers in Brunswick, Greensville, and Sussex counties.

Nets and Seines:

Nets and Seines are prohibited while fishing in designated stocked trout waters and for taking fish from Department-owned or controlled lakes, except as otherwise posted (see table page 20 for certain nongame fish limits). The use of nets and seines, except for hand-landing nets and cast (throw) nets, is prohibited in the public waters of the Roanoke (Staunton) and Dan rivers in Campbell, Charlotte, Halifax and Pittsylvania counties, and in the City of Danville. Seines, nets, and traps are also prohibited in Lick Creek in Smyth and Bland counties, Bear Creek in Smyth County, Laurel Creek and tributaries upstream of Highway 16 bridge in Tazewell and Bland counties, streams and their tributaries that flow into Hungry Mother Lake in Smyth County, Susong Branch and Mumpower Creek in Washington County and the City of Bristol, and Timbertree Branch in Scott County. However, these restrictions do not prohibit the use of a hand-landing net to land fish legally hooked. Seasons and local restrictions governing the use of nets and seines are complex. Persons deciding to try this type of fishing should contact the closest DWR regional office for more information. See "Legal Methods for Capturing Nongame Bait" on page 20 for additional information on bait collecting.

Areas/Species Restricted

Designated Stocked Trout Waters:

Nongame fish may be harvested only by hook and line in designated stocked trout waters between October 1 and June 15.

Mollusks:

Unlawful to take the spiny riversnail (*Io fluviatilis*) in the Tennessee drainage in Virginia (Clinch, Powell and the North, South and Middle Forks of the Holston rivers and tributaries). It shall be unlawful to take mussels from any inland waters in Virginia.

Salamanders:

Unlawful to take salamanders in Grayson Highlands State Park and on National Forest lands in the Jefferson National Forest in those portions of Grayson, Smyth and Washington counties bounded on the east by Rt. 16, on the north by Rt. 603, and on the south and west by Rt. 58.

Non-Native (Exotic Animals)

A special permit is required, and may be issued by the Department, if consistent with the Department's fish and wildlife management program, to import, possess, or sell the following non-native (exotic) amphibians, fish, mollusks, aquatic invertebrates, and reptiles: giant or marine toad, tongueless or African clawed frog, barred tiger salamander, gray tiger salamander, blotched tiger salamander, smallmouth buffalo, bigmouth buffalo, black buffalo, piranhas, Alabama bass, bighead carp, grass carp or white amur, red shiner, silver carp, black carp, rudd, tench, ruffe, snakeheads, air-breathing catfish, tilapia, swamp eel, tubenose goby, round goby, zebra mussel, New Zealand mudsnail, quagga mussel, rusty crayfish, Australian crayfish, marbled crayfish, Chinese mitten crab, alligators, caimans, brown tree snake, crocodiles, and gavials.

Anglers may legally possess snakehead fish taken from Virginia waters provided they immediately kill the fish and notify DWR at 804-367-2925.

Anglers may possess live Alabama bass only on the body of water from which they were captured, and may not transport them alive from the body of water that they were captured. Live Alabama bass may only be released into the body of water from which they are captured. Anglers must ensure all harvested Alabama bass are dead if they plan to transport them away from the body of water from which they were captured.

Grass carp may be legally harvested from public inland waters (rivers and streams), except from department-owned or department-controlled lakes. Anglers must ensure that all harvested grass carp are dead.

All other non-native (exotic) amphibians, fish, aquatic invertebrates, and reptiles not listed above may be possessed, purchased, and sold, provided that such animals shall be subject to all applicable local, state, and federal laws and regulations, including those that apply to threatened/endangered species, and further provided that such animals shall not be liberated within the Commonwealth.

Leave Snakes Alone

Under Virginia law, snakes are classified as a nongame species and are afforded protection under nongame regulations. While killing snakes is not a permitted activity, they can be taken (except for state or federally listed species) when classified as a "Nuisance species" (29.1-100); when found committing or about to commit depredation upon agricultural or property damage, or when concentrated in numbers and manners to constitute a health hazard or other nuisance. For example, if a blacksnake is found in your chicken coop, you have the legal right to kill it; or if a copperhead is found in your garage, you have the legal right to kill it. But to wantonly go out and shoot snakes when they are not posing an imminent threat to human safety or livestock is an unlawful activity. Snakes play a valuable role in our ecosystems as both predator and prey, and killing them for no justifiable reason is contrary to the conservation mission of the Department.

Trout Fishing

Virginia contains over 3,500 miles of trout streams, in addition to numerous ponds, small lakes and reservoirs. The total includes over 2,900 miles of wild trout streams and about 600 miles of water inhabited with stocked trout. Virginia's diversified trout habitat offers a wide range of trout fishing opportunities.

Trout management in Virginia consists of three basic programs:

- **The Catchable Trout Stocking Program** is the best known and most popular. "Designated Stocked Trout Waters" are stocked from October through May with catchable-sized trout. See the Trout Stocking Plan for the streams and lakes stocked and their stocking schedule.
- **The Wild Trout Program** includes the management of reproducing populations of brook, rainbow, and brown trout. Efforts are directed primarily at habitat preservation and proper regulation for protection of spawning stocks.
- **The Fingerling Trout Stocking Program** involves stocking sublegal trout into waters that have cold summer water temperatures and a good food source. This is the smallest of the three programs, but includes many of our high quality, special regulation trout fishing waters.

Virginia's trout season is open year-round and the general statewide limits are 6 trout per day, no fish less than 7 inches. There are a number of exceptions found below for certain areas and waters (i.e., heritage, urban, special area, special regulation, and fee fishing waters), so please study the sections following for fish-

ing times, dates, and limits. These different restrictions have been applied to certain wild trout waters, as well as several types of stocked trout streams, to provide anglers with the opportunity to catch more and larger trout.

Success for both wild and stocked trout should be very high through the spring, fall, and mild winter periods. From June through September, normally low stream flows and warming water temperatures make trout fishing more difficult. However, experienced trout anglers can find good trout fishing opportunities throughout the year.

Changes/Updates

- As a reminder, a trout license is not required to fish designated stocked trout waters during Free Fishing Days. A permit is still required to fish at Clinch Mountain, Crooked Creek, and Douthat State Park Fee Fishing Areas.
- The cost for a nonresident trout license to fish in designated stocked trout waters has been reduced to the same price as a resident trout license (\$23.00).
- Stocking dates for Urban Stocked Trout Waters will be posted the week prior to stocking on the Department's trout stocking info page, www.virginiawildlife.gov/fishing/trout-stocking-schedule and trout stocking telephone line.
- The Delayed Harvest section of Passage Creek (Warren Co.) will be closed (not stocked) for construction at the Front Royal Fish Hatchery.

Designated Trout Waters (Catchable Trout Stocking Waters)

"Designated Stocked Trout Waters" include those waters that are stocked with catchable-sized trout and are listed by the Director in the annual Trout Stocking Plan (see pages 36–37). These waters will only be considered designated stocked trout waters from **October 1 through**

June 15 (trout license required). A trout license is not required from June 16 through September 30. Trout angling hours on designated stocked trout waters are from **5:00 am until one hour after sunset**. See exceptions for Trout Heritage Waters (page 35), Urban Program Waters (page 30) and Fee Fishing Areas (page 35). Designated stocked trout waters are posted by the Department with appropriate "stocked trout waters" signs.

It is unlawful to fish in designated stocked trout waters after the daily creel limit of trout has been obtained or during the closed hours for taking trout. Once a trout is taken into possession by placing in the creel (basket, bucket, stringer, cooler, etc.) it becomes part of the daily creel limit and may not be released (culled). It is unlawful to feed, bait, or snag trout in designated stocked trout waters. It shall be unlawful for any person fishing in designated stocked trout waters to use more than one rod, one line, and one baited hook (a treble hook is considered one hook); however, any combination of artificial lures is allowed. It shall be unlawful to use seines and nets in designated stocked waters, except that a hand-landing net to land fish legally hooked may be used in all waters.

Kids Fishing Events

Kids fishing events that are sponsored by the Department and held on designated stocked trout waters will be closed to adults (anglers over 15 years of age) from noon the day before the event until the conclusion of the special event (only in the posted section). Any person over the age of 15 and accompanying a child who is incapable of hooking and landing a fish unassisted, must be properly licensed to fish in designated stocked trout waters.

LICENSE REQUIREMENTS FOR TROUT FISHING

(See pages 10–11 for details and costs)

Note: The trout license is only required from October 1 through June 15. From June 16 through September 30 anglers can fish in stocked trout waters without a trout license.

Fee Fishing Areas (page 35) require a daily fishing permit in addition to an appropriate freshwater fishing license.

Residents 16 years of age and older.

1. A state or county freshwater fishing license.
2. Fishing a Designated Stocked Trout Water? Need an additional trout license. (Note a resident may not use a 5-day freshwater license in combination with a trout license).
3. Fishing in most waters within the George Washington and Jefferson National Forests? Need a National Forest Stamp (refer to National Forest Stamp exceptions on pg. 12).

4. Fishing in wild trout and most special regulation waters? Some require a signed landowner permit card which can be obtained online at: <https://dwr.virginia.gov/fishing/trout/special-regulation-trout-waters/>

Nonresidents 16 years of age and older.

1. A nonresident annual, daily, or 5-day freshwater fishing license.
2. Fishing a Designated Stocked Water? Need an additional nonresident trout license.

Note: Nonresident children under 16 not required to have freshwater fishing or trout license.

3. Fishing in most waters within the George Washington and Jefferson National Forests? Need a National Forest Stamp (refer to National Forest Stamp exceptions on pg. 12).
4. Fishing in wild trout and most special regulation waters? Some require a signed landowner permit card which can be obtained online at: <https://dwr.virginia.gov/fishing/trout/special-regulation-trout-waters/>

Urban Program Waters

Waters in the Urban Fishing Program will be considered designated stocked trout waters from **November 1 through April 30 only (trout license required)**. A trout license is not required from May 1 through October 31. In addition trout may be creel from these waters year-round and the trout creel limit is **4 per day, no fish less than 7 inches**. Once a trout is taken into possession by placing in the creel (basket, bucket, stringer, cooler, etc.) it becomes part of the daily creel limit and may not be released (culled). Stocking dates for these waters will be posted the week prior to stocking on the Department's trout stocking info page and trout stocking telephone line (see box below).

Special Trout Areas

Blue Ridge Parkway

Fishing is prohibited from one-half hour after sunset until one-half hour before sunrise. No live or dead fish or fish eggs may be used as bait. Digging for worms is prohibited. Special creel limits and other regulations for Parkway waters may be posted.

Shenandoah National Park

Only single-point hook artificial lures may be used—no bait. On those streams open to harvest, the creel limit is 6 trout per day with a 9-inch minimum size for brook trout and a 7-inch minimum size for brown and rainbow trout. On all other streams open to fishing, catch and release regulations apply. The release of any brown trout back into any Park stream is prohibited and brown trout less than 7 inches must be disposed of within the Park but away from Park streams, roads or trails. This is an effort to limit the impacts of brown trout on the native brook trout populations. Contact the Shenandoah National Park at 540-999-3500 for the annual list of streams open to harvest.

TROUT STOCKING INFORMATION

434-525-FISH (3474)

Information is updated each day at 3:00 p.m. during the stocking season. Stocking information is also updated daily on the Department's website.

www.virginiawildlife.gov/fishing/trout-stocking-schedule

YOUTH-ONLY STOCKED TROUT PROGRAM

The waters listed below have been designated by the Director and will only be considered Youth-Only Stocked Trout Waters from April 1 through June 15. Only youth age 15 and under will be allowed to fish during that time period. Adults can assist youth only by baiting the hook, casting, and removing the fish from the hook. Adults cannot assist with setting the hook or retrieving the fish. The daily creel limit shall be 3 trout. Adults assisting youth are not required to have a fishing license or a trout license. Parking or access fees may be required at some locations.

Youth-Only Waters will be stocked 3 times between April 1 and June 1. Stocking times may vary depending on the distance from the hatchery to the receiving water. DWR will strive to stock between 10:00 am and 2:00 pm. DWR may postpone or change the date of any of these stocking events due to circumstances that compromise the resource or public safety.

WATER (STREET ADDRESS)	STOCKING DATES
Northern Fauquier Community Park Pond (Marshall), 4155 Monroe Parkway	April 5; April 18; April 29
South River - Basic Park (Waynesboro), 1405 Genicom Drive	April 4; April 23; May 13
Cave Mountain Lake (Natural Bridge), 811 Cave Mountain Lake Road	April 6; April 21; May 6
Glen Alton Pond (Giles Co.), Route 635/Glen Alton Road	April 4; April 15; May 4
Franklin County Park Pond (Rocky Mount), 2150 Sontag Road	April 4; April 14; April 19
Ivy Creek - Peaks View Park (Lynchburg), 1205 Ardmore Drive	April 4; April 18; May 9
South Fork Clinch River - Dunford Park (Tazewell) 137 Riverview Lane	April 9; April 23; May 14
Two Ponds (Smyth Co.) - Mount Rogers NRA office, 3714 VA-16	April 4; April 19; May 3

PRE-ANNOUNCED STOCKED TROUT WATERS

Stocking times may vary depending on the distance from the hatchery to the receiving water but most stocking will occur between 10:00 am and 2:00 pm. There will be no temporary stream or lake closures associated with these stocking events. The DWR may postpone or change the date of any of these stocking events due to circumstances that compromise the resource or public safety.

WATER	STOCKING DATE
Lake Thompson (Fauquier Co.)	April 8
South River - Ridgeview Park & Grottoes Park (Augusta/Rockingham Co.)	March 23
Jackson River - Hidden Valley (Bath Co.)	April 15
North River - Upper & Gorge (Augusta Co.)	March 25
Mint Springs Lake (Albemarle Co.)	March 19
Rural Retreat Pond (Wythe Co.)	April 16
Barbour's Creek (Craig Co.)	April 22
Middle Fork Holston River (Smyth Co.)	May 28
South Fork Powell River (Wise Co.)	May 7
Roanoke River (Roanoke City)	May 6
Pigg River (Franklin Co.)	March 18
Liberty Lake (Bedford Co.)	March 25

Quick Reference

This table only refers to stream sections classified as "Special Regulations."
See pages 31–35 for specific information.

STREAM	COUNTY	REGULATION
Accotink Creek*	Fairfax	Delayed Harvest
Beaver Creek	Bristol	Catch and Release
Big Mocassin Creek*	Scott	Delayed Harvest
Big Stony Creek (Mountain Fork)	Wise/Scott	Catch and Release
Big Tumbling Creek*	Washington	Seasonal Catch and Release
Big Wilson Creek	Grayson	9 inch min
Brumley Creek	Washington	Catch and Release
Buffalo Creek	Rockbridge	16 inch / 2 per day
Back Creek*	Bath	Delayed Harvest
Cabin Creek	Grayson	9 inch min
Chestnut Creek*	Carroll	Delayed Harvest
Conway River	Greene/Madison	9 inch min
Dan River	Patrick	16 inch / 2 per day
Dan River	Patrick	Catch and Release
East Fork Chestnut Creek	Grayson/Carroll	Catch and Release
Garth Run	Madison	9 inch min
Green Cove Creek	Washington	Catch and Release
Hardy Creek*	Lee	Delayed Harvest
High Knob Lake	Wise	14 inch / 2 per day
Holliday Creek*	Appomattox/Buckingham	Delayed Harvest
Holmes Run*	Fairfax	Delayed Harvest
Indian Creek*	Lee	Delayed Harvest
Jackson River*	Bath	16 inch / 2 per day
Jackson River (Tailwater)	Alleghany	Special slot
Little Stony Creek	Giles	9 inch min
Little Stony Creek	Scott	Catch and Release
Little Stony Creek	Shenandoah	9 inch min
Little Tumbling Creek	Smyth/Tazewell	Catch and Release
Little Wilson Creek	Grayson	9 inch min
Middle Fork Powell River*	Wise	Delayed Harvest
Mill Creek	Giles	9 inch min
Mill Creek	Grayson	9 inch min
Mossy Creek	Augusta	20 inch / 1 per day FFO
North Creek	Botetourt	Catch and Release
North Fork Buffalo River	Amherst	9 inch min
North Fork Pound River*	Wise	Delayed Harvest
North Fork Moormans River	Albemarle	Catch and Release
North River*	Augusta	Delayed Harvest
Passage Creek*	Warren	Delayed Harvest
Pedlar River*	Amherst	Delayed Harvest
Piney River*	Nelson/Amherst	Delayed Harvest
Pound River	Dickenson	16 inch / 2 per day
Pound River*	Wise	Delayed Harvest
Quebec Branch	Grayson	9 inch min
Ramsey Draft	Augusta	9 inch min
Rapidan River	Madison	Catch and Release
Roanoke River*	Roanoke	Delayed Harvest
Roaring Fork	Tazewell	Catch and Release
Roaring Run	Botetourt	16 inch / 2 per day
Snake Creek	Carroll	Catch and Release
Smith Creek	Alleghany	Catch and Release
Smith River (Tailwater)	Henry	Special slot
South Fork Holston River	Smyth	16 inch / 2 per day
South Fork Holston River	Smyth	Catch and Release
South River City of Waynesboro*	Augusta	Catch and Release
South River	Augusta	20 inch / 1 per day FFO
Spring Run*	Bath	Catch and Release
St. Mary's River	Augusta	9 inch min
Stewart's Creek	Carroll	Catch and Release
Venrick Run	Wythe	Catch and Release
Wildcat Hollow	Fauquier	Catch and Release
Whitetop Laurel Creek	Washington	Catch and Release
Wilburn Branch	Grayson	9 inch min
Wolf Creek	Abingdon	Catch and Release

*A trout license is required October 1 through June 15.

Special Regulation Trout Waters

Bait Allowed Jackson River Tailwater (Alleghany County):

From Gathright Dam downstream to the Westvaco Dam at Covington: No rainbow trout 12 to 16 inches; no brown trout less than 20 inches; 4 trout (combined rainbow and brown) creel (harvest) limit per day, only 1 of 4 can be a brown trout over 20 inches. All rainbow trout between 12 and 16 inches and all brown trout less than 20 inches must be released immediately. The 7-inch statewide minimum size limit does not apply to rainbow trout in this section of river. Bait allowed.

Lake Moomaw (Alleghany/Bath Counties): The entire reservoir has the special 16-inch minimum size limit and 2 fish per day creel limit on trout. Bait allowed.

Smith River (Henry County): From Philpott Dam downstream to the State Route 636 bridge crossing (Mitchell Bridge) located approximately 31 miles downstream of Philpott Dam and approximately 10.5 miles below Martinsville Dam: No brown trout 10 to 24 inches, only 1 brown trout per day longer than 24 inches. The length limit for rainbow and brook trout is 7-inch minimum. The creel limit for all trout combined is 6 fish/day, and only one brown trout can be larger than 24 inches. The use of bait and any combination of artificial lure is allowed throughout this section of river. (A trout license is required in the Put-N-Take stocked sections of Smith River October 1 through June 15.) Bait allowed.

South Holston Reservoir (Washington County): 7 per day creel (harvest) limit, only 2 of 7 can be a Lake trout; no length limits. See licenses and regulations in the reciprocal section on page 13. Bait allowed.

9-inch Minimum Big and Little Wilson Creeks and their tributaries, Quebec Branch, Wilburn Branch, and Mill Creek (Grayson County):

That portion within the Grayson Highlands State Park and the Jefferson National Forest Mount Rogers National Recreation Area. With the special regulation on Cabin Creek (see below), all of the streams within Grayson Highlands State Park are under one regulation. Access can be gained through Grayson Highlands State Park on Route 806

and 817 off U.S. Route 58. Be prepared to do some hiking to fish this area.

Cabin Creek (Grayson County):

That portion of stream and its tributaries within the Grayson Highlands State Park and the Jefferson National Forest Mount Rogers National Recreation Area. See above for more information on the area.

Conway River/Devils Ditch (Greene and Madison Counties):

That portion of Conway River and its major tributary, Devils Ditch, within the Rapidan Wildlife Management Area (WMA) and the Shenandoah National Park. The stream lies north of Stanardsville and can be reached by Route 615 from Graves Mill.

Garth Run (Madison County):

That portion of stream within the Rapidan WMA. The stream can be reached by Route 615 from Graves Mill. Most of the stream is accessible only by foot as the streams enters a gorge.

Little Stony Creek (Giles County):

That portion of stream within the Jefferson National Forest. The stream is located near Pembroke and can be reached by Route 623.

Little Stony Creek (Shenandoah County):

That portion of stream within the George Washington National Forest, including Woodstock Reservoir. The stream is located west of Woodstock and the Forest Service Road 92 crosses the lower portion of the special regulation section. Much of the upper reaches can only be reached by foot trail.

Mill Creek (Giles County):

That portion of Mill Creek and its tributaries upstream of the Poplar Street Bridge in the Town of Narrows (Mill Creek flows through the National Forest in Giles County and the Town of Narrows.) The stream can be accessed from a parking area on Northview Street, off of State Route 100, south of Narrows.

North Fork Buffalo River (Amherst County):

That portion of the stream and its tributaries within the George Washington National Forest. Access is available by a forest trail off Forest Road 51 or from the end of State Route 635.

St. Mary's River (Augusta County):

All portions of stream and its tributaries above the gate near the George Washington National Forest property line. The stream lies east of Raphine off Route 608, a short distance from I-81. Most of the area is accessible by foot trail only and backpacking is popular.

Ramsey's Draft (Augusta County):

That portion of the stream and its tributaries within the George Washington National Forest. To reach this stream, drive 15 miles west of Churchville on Route 250 and look for the

Regulations for the 9-inch, 16-inch/2 fish, 20-inch/1 fish, and Catch and Release trout stream sections that follow:

1. **Only single-point hook artificial lures** may be used unless otherwise noted. (see artificial lure definition on page 33)
2. **No bait** may be in possession while fishing these waters unless otherwise noted.
3. **All trout less than the minimum size must be immediately returned to the water unharmed. No trout less than the minimum size may be in possession while fishing in these waters.**

Mountain Home Picnic Area on the right; a foot trail parallels the stream from the picnic area.

16-inch Minimum, 2 Fish Per Day

*Buffalo Creek (Rockbridge County):

That portion from the confluence of Collier's Creek upstream 2.9 miles to the confluence of North and South Buffalo creeks. The stream flows through private land and ***a free written landowner permit is required to fish these waters.** A no-cost permit, map, and additional information for this stream can be obtained by visiting DWR's website <https://dwr.virginia.gov/fishing/trout/special-regulation-trout-waters/>.

*Dan River (Patrick County):

That portion from Talbott Dam approximately 6 miles downstream to a sign posted just upstream from the confluence of the Dan River and Townes Reservoir. The upper reaches can be reached by taking Route 614 south from Meadows of Dan, turn right on Route 601, and proceed to Talbott Dam. The lower reach can only be accessed by boat at the upper end of Townes Reservoir. ***A permit from the City of Danville is required** and can be obtained at no charge from the City Utilities Department or on site at the Pinnacles Powerhouse. Contact: City of Danville, Director of Electric Division, Department of Utilities, P.O. Box 3300, Danville, VA 24543. Phone: 434-799-5270.

Jackson River (Bath County):

That portion from the Forest Service swinging bridge, located just upstream from the mouth of Muddy Run, upstream 3 miles to the last ford on Forest Service Road 481D. This section is stocked several times a year with catchable-sized trout and good populations are always present (**a trout license is required to fish in this stream from October 1 through June 15**). This section can only be reached by foot travel, either from the Hidden Valley area or off Route 623 and FS Road 481. **Note:** Multiple hook artificial lures are permitted.

Pound River (Dickenson County):

That portion from a sign 0.4 miles below Flannagan Dam downstream 1.2 miles to a sign just upstream of the confluence of the Pound River and the Russell Fork River. The section can be accessed from Flannagan Dam, which is owned and operated by the U.S. Army Corps of Engineers.

Roaring Run (Botetourt County):

The 1-mile special trophy trout section is located in the Jefferson National Forest between the third foot bridge upstream of the Roaring Run Furnace Day Use Area and the Botetourt/Alleghany County line. The stream can be accessed by taking Route 615 off US Route 220 west of Eagle Rock to Route 621 at Strom. The lower section of Roaring Run (within the National Forest) remains catchable stocked trout water.

South Fork Holston River (Smyth County):

This section includes approximately 4 miles of stream extending from 500 feet above the concrete dam at Buller Fish Hatchery, upstream to the upper Jefferson National Forest boundary (above the crossing of the Appalachian Trail). This section is located South of Marion and west of the community of Sugar Grove off Route 16. Anglers can access most of this section from Route 670.

20-inch Minimum, 1 Fish Per Day, Flyfishing Only

*Mossy Creek (Augusta County):

A 4-mile portion of stream upstream from the Augusta/Rockingham county line to a sign posted at the confluence of Joseph's Spring. The stream is located just off Route 42 south of Bridgewater. Fishing is restricted to fly-fishing only and ***a free written landowner permit is required to fish these waters.** A no cost permit, map, and additional information for this stream can be obtained by visiting DWR's website <https://dwr.virginia.gov/fishing/trout/special-regulation-trout-waters/>.

*South River (Augusta County):

That portion of South River from North Oak Lane Bridge in Waynesboro upstream to a sign

posted approximately 1.5 miles above the Rt. 626 (Shalom Road) Bridge. This section of stream flows through private property and *** a free written landowner permit is required to fish these waters.** A no cost permit, map, and additional information for this stream can be obtained by visiting DWR's website: <https://dwr.virginia.gov/fishing/trout/special-regulation-trout-waters/>.

**Catch and Release Only
Beaver Creek
(Washington County):**

That portion of stream and its tributaries within the boundaries of Sugar Hollow Park in the City of Bristol.

**Big Stony Creek (Mountain Fork)
(Wise and Scott Counties):**

That portion of Big Stony Creek (Mountain Fork) and its tributaries within the Jefferson National Forest from the outlet of High Knob Lake downstream to the confluence of Chimney Rock Fork and Big Stony Creek.

Brumley Creek (Washington County):

That portion of stream and its tributaries from the Hidden Valley WMA boundary upstream to the Hidden Valley Lake Dam. This portion of stream is hike-in access only from the Hidden Valley WMA.

***Dan River (Patrick County):**

That portion of stream and its tributaries between the Townes Dam and the Pinnacles Hydroelectric Powerhouse. This section can be reached by taking Route 8 south from Stuart to Route 103 west, turn right on Route 648 at Claudeville, and proceed to the powerhouse at the end of the road. The upper end of this section can be reached by taking Route 614 south from Meadows of Dan, turning left on Route 602, and proceeding to Townes Dam. ***A permit from the City of Danville is required** and it can be obtained at no charge from the Pinnacles Powerhouse or from the City Utilities Department. Contact: City of Danville, Director of Electric Division, Department of Utilities, P.O. Box 3300, Danville, VA 24543. Phone: (434) 799-5270.

**East Fork Chestnut Creek (Farmers Creek)
(Grayson and Carroll Counties):**

That portion of stream and its tributaries upstream from the Blue Ridge Parkway. The stream lies south of Galax, crossing the Blue Ridge Parkway a short distance east of Route 89.

Little Stony Creek (Scott County):

That portion of Little Stony Creek and its tributaries within the Jefferson National Forest from the Falls of Little Stony Creek downstream to a posted sign at the Hanging Rock Recreation Area.

Little Tumbling Creek (Smyth and Tazewell Counties):

That portion of stream within the Clinch Mountain WMA. Access is available from Route 91 via a WMA access road that parallels the lower 2 miles of stream. Access to the headwaters is by foot only.

Big Tumbling Creek (Russell, Smyth, and Washington Counties):

Seasonal Catch and Release Only (October 1st until five days prior to the start of the Fee Fishing Season. Closed to angling five days prior to the start of the Fee Fishing Season). That portion of stream located on the Clinch Mountain WMA from a sign starting at the foot of the mountain and extending upstream to the Briar Cove Bridge and also Laurel Bed Creek upstream to Laurel Bed Dam. A trout license is required.

North Creek (Botetourt County):

That portion of stream and its tributaries upstream from a sign at the North Creek Campground. The stream is located east of Buchanan, a short distance from I-81. The Jefferson National Forest maintains a campground adjacent to the stream and vehicular access is available along most of its length.

North Fork Moormans River (Albemarle County):

That portion of the stream within the Shenandoah National Park. Access is available using Rt. 614 past Sugar Hollow Reservoir.

Rapidan River (Madison County):

That portion of stream and its tributaries (including Staunton River) upstream from a sign at the lower Shenandoah National Park boundary (includes the entire stream and its tributaries within the Shenandoah National Park and the Rapidan WMA). Access to the Rapidan is available using Route 662 from Graves Mill and Route 649 from Criglersville.

Redbud Run (Frederick County):

Approximately 1.3 mile section of stream within the Redbud Run WMA starting at Route 656 and ending just downstream of Route 660. Angler parking is located off of Route 660 just north of Route 7, east of Winchester.

Roaring Fork (Tazewell County):

That portion upstream from the southwest boundary of Beartown Wilderness Area of the Jefferson National Forest. Access can be gained from Forest Service Road 222 off Route 16, south of Tazewell, some hiking will be required.

ARTIFICIAL LURE DEFINITION

Artificial lure shall include manufactured or handmade flies, spinners, plugs, spoons, and facsimiles of live animals, but shall not be construed to include artificially-produced organic baits and fish eggs that are intended to be ingested.

Artificial lure with single hook shall mean any single point lure (with no multiple point hooks). Where single-hook artificial lures are required, a multiple number of single-hook lures (such as dropper flies) fished in a series is permitted.

Single-Point Hook Artificial Lure

Legal in special regulation waters listed as "only single-point hook artificial lures."

A treble hook with two hook points removed is considered a "single-point hook."

A "dropper-fly" rig is considered a single-point hook artificial lure.

Artificial Lure—No Limitation on the Number of Hooks or Hook Points

Legal in special regulation waters listed as "artificial lures only" (ex. Delayed Harvest Waters).

Images by Meghan Marchetti / DWR

Smith Creek (Alleghany County):

That portion from the Clifton Forge Dam downstream to a sign at the Forest Service boundary above the C & O Dam. Best stream access is by Route 606 from Clifton Forge to the Clifton Forge Water Plant access road; anglers must park at the entrance and walk a half mile to the stream.

Snake Creek (Carroll County):

That portion of Big Snake Creek below Hall Ford and that portion of Little Snake Creek below the junction of Routes 922 and 674, downstream to Route 58. Fishing downstream of Route 58 is no longer permitted. Parking and angler access is only permitted along Route 922 and at the Route 58 bridge (unless an individual is a landowner or guest).

South Fork Holston River (Smyth County):

That portion of stream from the concrete dam at Buller Fish Hatchery downstream to the lower boundary of the Buller Fish Hatchery. Access can be gained through the Buller Fish Hatchery parking off Route 650, south of Marion.

South River (Augusta County/ City of Waynesboro)

That portion of stream from the Second St. Bridge upstream 2 miles to the Wayne Ave. Bridge in the City of Waynesboro. A trout license is required.

Spring Run (Bath County):

That portion of the stream from its confluence with the Cowpasture River upstream to a cable and posted sign at the discharge from Coursey Springs Hatchery. Parking is available at the angler access just below the hatchery. A trout license is required October 1 through June 15.

Stewart's Creek (Carroll County):

Approximately 4.5 miles of Stewart's Creek and its two major tributaries, North Fork and South Fork Stewart's Creek, within the Stewarts Creek WMA. Stewart's Creek WMA is southeast of Galax on the east side of the Blue Ridge Parkway. Take Exit 1 off I-77. Follow the trailblazer signs to the area.

Venrick Run (Wythe County):

That portion of Venrick Run and its tributaries within Big Survey WMA and Town of Wytheville property. The stream can be accessed from a parking lot on Town property at the end of State Route 684, off of State Route 21, south of Wytheville.

Whitetop Laurel/Green Cove Creeks (Washington County):

Whitetop Laurel (2 sections)—that portion upstream from the first railroad trestle above Taylor Valley to the mouth of Green Cove Creek at Creek Junction and that portion upstream from the mouth of Straight Branch to a sign at the Forest Service boundary just downstream of Taylors Valley. There remains a section of catchable stocked trout water with-

out special regulations through the village of Taylors Valley.

Green Cove Creek—that portion from Rt. 859 downstream to its mouth. The special regulation area is located east of Damascus (near the Tennessee line) and lies within the Mount Rogers Recreation Area.

Wildcat Hollow (Fauquier County):

That portion of stream within the G. R. Thompson WMA. Foot access is available from the lower Ted Lake Trail parking area located off of Rt. 688.

Wolf Creek (Washington County):

That portion of stream and its tributaries within the Abingdon Muster Grounds in the Town of Abingdon from Colonial Avenue downstream to Stone Mill Road.

Delayed Harvest Waters

From October 1 through May 31 fishing on the following waters is permitted under specific regulations only:

1. Only artificial lures may be used.
2. No trout may be in possession (catch and release only) while fishing these waters.
3. No bait may be in possession while fishing these waters.
4. Trout license required October 1–June 15.

Note: During the period of June 1 through September 30 restrictions 1 through 3 above will not apply and these waters are like any other designated stocked trout water (see page 29).

Accotink Creek (Fairfax County):

That portion of stream from King Arthur Road downstream 3.1 miles to Route 620 (Braddock Road). Primary access is via the FCPA Wakefield Park facility off Braddock Road.

Back Creek (Bath County):

That portion of stream from the Rt. 600 Bridge just below the Virginia Power Back Creek Dam downstream 1.5 miles to the Rt. 600 Bridge at the lower boundary of the Virginia Power Recreational Area. Take Route 39 west from Warm Springs to Mountain Grove, then right on Route 600 for 6 miles.

Big Moccasin Creek (Scott County)

That portion of the stream from the VDOT foot bridge at the lower end of Gate City downstream to the Wadlow Gap Highway Bridge (Highway 58/421).

Chestnut Creek (Carroll County):

That portion of stream from the U.S. Rt. 58 Bridge downstream 11.4 miles to the confluence with the New River. The stream parallels the New River Trail State Park, and parking is available at state road crossings and at the

trail head in Galax. In addition to the state park, many private landowners have made this program possible and anglers should be sure to respect adjoining private property.

Hardy Creek (Lee County):

That portion of stream from the VDOT swinging bridge just upstream of the Route 658 ford downstream to the Route 661 bridge.

Holliday Creek (Appomattox/Buckingham Counties):

That portion of stream from the Rt. 640 crossing downstream 2.8 miles to a sign at the headwaters of Holliday Lake. This section is located completely within the Appomattox/Buckingham State Forest that can be accessed by taking Route 24 north out of Appomattox to Route 626. Anglers should turn onto Routes 640 or 614 to access a series of foot trails to the stream that have been developed by the Virginia Department of Forestry (VDOF). **A State Forest Use Permit is required by the VDOF for anyone 16 years and older who fishes in one of Virginia's 19 State Forests;** the Use Permit is available at authorized retailers who sell fishing licenses, or online.

Holmes Run (Fairfax County):

That portion of stream from the Lake Barcroft Dam downstream 1.2 miles to a sign posted at the Alexandria City line. A fairly good trail follows (and sometimes crosses) the stream from the parking lot off Columbia Pike (Route 244).

Indian Creek (Lee County)

That portion of stream within the boundaries of Wilderness Road State Park. The stream can be accessed from Route 58.

Middle Fork of Powell River (Wise County)

That portion of stream from the trestle bridge just downstream of the Town of Appalachia to the trestle bridge just upstream of the Town of Big Stone Gap. This stream reach parallels Business Route 23.

North Fork of Pound and Pound Rivers (Wise County):

That portion of the streams from the base of North Fork of Pound Dam downstream to the confluence with Indian Creek. Access is available at the North Fork of Pound Dam and at parking lots within the town of Pound.

North River (Augusta County):

That portion of stream from the base of Elkhorn Dam downstream 1.5 miles to a sign posted at the head of Staunton City Reservoir. This is a remote section of stream that can only be reached by foot trail. Access is available by parking at Elkhorn Lake and following the trail along the lake to the spillway.

Passage Creek (Warren County):

That portion of stream from the Shenandoah/Warren County line downstream approximately 1 mile through the Department's Front Royal Fish Hatchery. This section is immediately downstream

of the area that has historically been stocked under the put-and-take program. Parking is available on Forest Service lands adjacent to Route 678 or on Department lands adjacent to Route 619.

Pedlar River (Amherst County):

That portion of stream from the City of Lynchburg/George Washington National Forest boundary line (below Lynchburg Reservoir) downstream 2.7 miles to the boundary line of the George Washington National Forest (south-east of Buena Vista). The U.S. Forest Service and the Department have cooperated in the development of three access sites to the river located along FS 39 off Route 607.

Piney River (Nelson/Amherst Counties):

That portion of stream from the Piney River Trailhead of the Virginia Blue Ridge Trail (downstream from Route 151) downstream to the Route 674 crossing at Roses Mill Road.

Roanoke River (Roanoke County and City of Salem):

There are two delayed harvest sections located on the Roanoke River near Roanoke. The first section is located within Green Hill Park in Roanoke County and was established in 2001. The newest section is located within the City of Salem and was established in 2003. The Green Hill Park section is easily found off Route 11/460 west of Salem and stretches from the Route 760 Bridge (Diguids Lane) upstream 1 mile to a sign posted at the upper end of the park. It is best to access the stream from the park side of the stream, and anglers are encouraged to use the parking areas provided. The Salem section is located along Riverside Drive and stretches from the Colorado Street Bridge downstream approximately 2 miles to the Route 419 Bridge. This section is most easily accessed from the Riverside Drive side of the river.

Fee Fishing Areas

The fee fishing areas offer put-and-take trout fishing with the added advantage that trout are stocked several times weekly throughout the season. For those anglers who reminisce about the opening day of trout season, these areas still provide this opportunity on the first Saturday in April when they open at 9:00 a.m. (The fee season may vary among the 3 fee fishing areas. Refer to information listed under each fee area). Fee areas are closed to fishing 5 days prior to opening day. During the fee fishing season, a **daily permit (\$8.00) is required of any person over 12 years of age, in addition to a valid Virginia freshwater fishing license (all children under 16 are exempted from having a fishing license)**. Children 12 years of age and under can fish without a permit throughout the fee-fishing area as long as they are accompanied by a permitted adult and their combined creel does not exceed that of the adult (6 trout). Daily permits are available at authorized license agents

or online www.goooutdoorsvirginia.com. After the fee fishing season, these areas revert to designated stocked trout waters and a trout license is required instead of the daily permit. The creel limit at these areas is six fish per day, minimum length 7 inches. Fishermen are required to use separate stringers. Bait or artificial lures may be used as posted. Children-only fishing area (where applicable) regulations are posted.

Clinch Mountain Fee Fishing Area:

This fee area is located in southwest Virginia, about 7 miles west of Saltville. A **daily permit (\$8.00) is required from the first Saturday in April through September 30**. Trout are stocked 4 times per week throughout the fee period, and fishing begins at 5:00 a.m. daily, except for 9:00 a.m. on opening day, and ends one hour after sunset. The area consists of approximately 7 miles of Big Tumbling Creek and its two major tributaries, Briar Cove Creek and Laurel Bed Creek. **Note:** Access to Laurel Bed Lake is also closed the 5 days prior to opening day for this fee area.

Directions: From Saltville, turn left off of Rt. 107 onto Rt. 91 (1/4 mile); then right onto Rt. 634; bear left onto Rt. 613 and proceed 3.5 miles; then right onto Rt. 747 to the area.

Crooked Creek Fee Fishing Area:

This area is located in Carroll County, 5 miles east of Galax, and consists of a 5-mile stocked section and an approximately 2-mile section managed as a wild trout fishery. A **daily permit**

(\$8.00) is required from the first Saturday in April through September 30. Trout are stocked 4 times per week throughout the fee period, and fishing begins at 5:00 a.m. daily, except for 9:00 a.m. on opening day, and ends one hour after sunset.

Directions: From Galax, take Rt. 58 east to Woodlawn, then take Rt. 620 south approximately 4 miles to the area.

Douthat State Park Fee Fishing Area:

This area includes Douthat State Park Lake (60 acres) and 4 miles of Wilson Creek: above the lake to the park boundary and downstream to the lower USFS boundary. Trout are stocked 2 times per week throughout the fee period with the exception of the final week of the fee season which will receive a single stocking of a double load. A **daily permit (\$8.00) is required from the first Saturday in April through June 15 and from September 15 through October 31. From June 16 through September 14, no trout will be stocked and no daily fee or trout license is required**. Fishing begins at 6:00 a.m. daily, except on opening day (9:00 a.m.). A small "children-only" area has been established on Wilson Creek, just below the dam.

Directions: Located 7 miles north of Clifton Forge on Rt. 629 which can be accessed by Exit 27 off of I-64.

For maps and more detailed trout fishing information check out: www.virginiawildlife.gov/fishing/trout/.

2022 TROUT HERITAGE WATERS

This program was added for those anglers who enjoyed and missed the old opening day. Selected waters are stocked for the first Saturday in April to create an announced stocking event.

The following waters will be stocked for the April 2nd Heritage Day:

- | | | |
|---|--|---|
| Beartree Lake
Washington County | Hawksbill Creek
Page County | Pedlar River (upper)
Amherst County |
| Bark Camp Lake
Scott County | Jennings Creek
Botetourt County | Pigg River
Franklin County |
| Clinch Mountain Fee Fishing Area*
Washington County | Lake Witten
Tazewell County | Quantico MCB
Prince William County |
| Cripple Creek
(Ravens Cliff)
Wythe County | Liberty Lake
Bedford County | Robinson River
Madison County |
| Crooked Creek Fee Fishing Area*
Carroll County | Lincolnshire Lake
Tazewell County | Rose River
Madison County |
| Douthat State Park Fee Fishing Area*
Bath County | Middle Fork Holston River
Smyth County | South Fork Powell River
Wise County |
| | Passage Creek
Shenandoah County | Tinker Creek
Roanoke County |

* The fee fishing areas are closed to angling from March 28 to April 1. Heritage Waters are closed on April 1. On April 2, fishing can begin at 9:00 a.m.

2022 Catchable Trout Stocking Plan

These waters are considered Designated Trout Waters and require a trout license between October 1 and June 15. Urban Waters require a trout license November 1–April 30.

Category A – stocked 8 times between October 1 and May 31.

Category B – stocked 5 times between October 1 and May 15.

Category C – stocked 3 times between October 1 and April 30.

* – National Forest Waters.

+ – Douthat Lake stocked 4 times and Wilson Creek stocked 5 times outside of the fee fishing season.

CR – Catch and release-stocked 3 times between October 1 and May 31.

DH – Delayed Harvest Water-Special Regulations apply, please refer to Delayed Harvest waters on page 34. (stocked 3 times)

(NSF) – These waters receive one less stocking between October 1 and May 31.

** – A section of these waters is reserved for a fee fishing area.

(H) – These waters will receive a stocking for the “Heritage Day” program. Heritage Day is April 2. For details see page 35.

U – Urban fishing waters, trout license required November 1 through April 30, stocked 5 times between November 1 and April 15.

Stocking information for put-and-take stocking can be obtained on our website or by calling 434-525-FISH (3474). Both are updated after 3:00 pm each day fish are stocked.

*** The water discharge on Thompson WMA Pond has experienced periodic leaking over the past several years. Thompson will be stocked as a Category A water, provided the pond water level is compatible with stocking needs.

**** Passage Creek Delayed Harvest will be closed to fishing due to construction at the Front Royal Fish Hatchery.

***** Pedlar River Delayed Harvest may not be stocked during the fall months due to low stream flows.

Largemouth Bass

Common Names: Black bass, bigmouth.

Identification: Sunfish family. Basically dark greenish above fading to a whitish belly, but variable depending on the water it lives in. Shows a series of dark blotches that form a dark horizontal band along its midline to its tail. Named because of its big mouth. Upper jaw extends well beyond the eye. Dorsal fin deeply notched. Average weight is 2 to 4 lbs., with up to 10 lbs. occurring in some waters.

Best Fishing: *Lakes:* Anna, Gaston, Buggs Island, Chickahominy, Chesdin, Smith Mountain, Prince, Briery Creek, Sandy River, Western Branch, Witten, and Flannagan. *Rivers:* Chickahominy (below Walkers Dam), and James (below the fall line).

Fishing Techniques: Fly, medium spincasting, spinning or baitcasting rods and reels can all be used. Plastic worms and other plastic imitations, crankbaits, spinner baits, surface lures, jigs and other lures imitating minnows, crayfish, frogs, salamanders and nightcrawlers. For flyrodders, streamer flies, bucktails and large poppers. Live bait includes small bluegills, minnows of many kinds, crayfish, nightcrawlers, frogs, etc.

Smallmouth Bass

Common Names: Black bass, bronzeback.

Identification: Sunfish family. Coppery-brown above, with greenish-brown sides with darker vertical bars. Three dark bars radiate from the eye on the cheek and gill cover. Dorsal fin is not as deeply notched as the largemouth. Upper jaw extends back only in line with the middle of the eye. A fish in the 4 or 5 lb. range is considered a trophy.

Best Fishing: *Lakes:* Claytor, Smith Mountain, Philpott, Moomaw, and South Holston. *Rivers:* James (above the fall line), New, South Fork, North Fork and mainstem Shenandoah, Rappahannock (above the fall line), Maury, North Fork Holston, and Clinch.

Fishing Techniques: Fly, spinning, spincasting and baitcasting rods and reels with 4 to 8 pound test line are all suitable for taking this scrappiest of freshwater gamefish. Live crayfish, hellgrammites, "spring lizards" (salamanders), madtoms, and minnows are best live baits. Artificials include jigs, small crankbaits, small spinner-bucktail combos, minnow and crayfish imitations. For fly rodding, hair bugs, poppers, and streamers are good.

Spotted Bass

Common Name: Kentucky bass.

Identification: Sunfish family. Much like the largemouth and the smallmouth, it is called the "in-between" species. It is distinguished from the smallmouth by the dark, blotchy lateral band from head to tail. The back of spotted bass' upper jaw lines up with the middle rear of the eye, while largemouth jaws extends past the eye. It derives its name from the black spots on its belly scales. Most are about 1 lb. or less. Nearly identical in appearance to Alabama bass which regularly exceeds 3 lbs.

Best Fishing: *Lakes:* Claytor, Hungry Mother, and North Fork Pound. *Rivers:* Appomattox and New.

Fishing Techniques: Light to medium spin-casting and spinning outfits and medium bait casting rods and reels. Similar baits as for largemouth, but smaller. Spinnerbaits, top water plugs, crankbaits and fly rod popping bugs.

Black Crappie

White Crappie

Crappie

Common Names: papermouth, Calico bass, specks, speckled perch.

Identification: Sunfish family. There are two species of crappie—the black and the white. The black crappie is covered with dark, irregular blotches and has seven—rarely eight—dorsal spines. It shows more yellow and green on its sides and its caudal (tail) and anal fins are heavily flecked. The white crappie has six dorsal spines—rarely five—and it has noticeable vertical bars on its silvery sides as well as a light pearlescent color or iridescent blue and lavender. Both have protruding lower jaws.

Best Fishing: *Lakes:* Buggs Island, Chickahominy, Cohoon, Anna, Smith Mountain, Prince, Gaston, Claytor, Brittle, Moomaw, Orange, Burke, South Holston, and Western Branch and Beaverdam Swamp Reservoir. *Rivers:* tidal Chickahominy and its tributaries, tidal James, South Fork Shenandoah.

Fishing Techniques: Light spinning or spincasting rods and reels with tiny jigs, doll flies, streamers, small crankbaits that imitate minnows, small spoons and spinner-bucktail combinations, and spinner-grubs. Best live baits are small to medium minnows.

Bluegill

Common Names: Bream, bluegill sunfish, sun perch.

Identification: Sunfish family. Colors are variable. Dark green, olive-green, olive brown, or bluish-black on its back, fading to yellowish-green or silvery. Normally has five to seven vertical bars extending down on each side. Lower parts of its cheek and gill cover are bluish. Its "throat" is yellow on females to bright orange on the male, brighter during spawning. Has a black, ear-like flap on its opercle (gill cover) and a black blotch at the back base of its spiny dorsal fin. Typically under 1lb. in Virginia.

Best Fishing: *Lakes:* Western Branch, Prince, Cohoon, Chickahominy, Robertson, Gatewood, Briery Creek, Burke, and many others.

Fishing Techniques: A number 8 or 10 hook baited with soft crickets, small nymphs, garden worms, red wigglers, pieces of night crawlers, other grubs and caterpillars on an ultralight spinning or spincasting outfit, fly rod or cane pole provides a lot of fun. Toward evening, in summer, when the shallows cool, bluegills come into shore to feed. When using bait, fish shallow with a small, light bobber in spring, deep near structure in hot summer with no bobber and lightly weighted. Effective artificials include poppers, nymphs, wet and dry flies of many types, rubber spiders, grasshoppers and crickets, and tiny jigs. Flyrodding for bluegills is especially rewarding.

Redear Sunfish

Common Name: Shellcracker.

Identification: Sunfish family. Yellow-green or olive, with faint vertical bars and random dark spots. During spawning, the margin of the male's gill cover flap turns bright red. Body is rounded like other sunfish and has a relatively small mouth. Pectoral fins are long and pointed. They grow faster and larger than other sunfish; 1 lb. fish not uncommon.

Best Fishing: *Lakes:* Cohoon, Meade, Prince, Little Creek, Chickahominy, Robertson, Western Branch, Lone Star, and Briery Creek. *Rivers:* Nottoway.

Fishing Techniques: Best time to catch redears is in the spring when they come up to the spawning beds. Being bottom feeders, most redears are caught by letting live nymphs, red wigglers or garden worms lie on the bottom near shore. Artificial jigs and grubs fished slowly and near the bottom will work as well.

Redbreast Sunfish

Common Names: Yellowbreast sunfish, redbelly, red throat.

Identification: Sunfish family. Basically olive to brownish gray along the back, merging to blue with a golden cast along its sides and a bright orange to yellow underside. Has several irregular bluish stripes on its cheek and gill cover. Identifiable by a long, black opercular (gill) flap. Reaches about 8 inches.

Best Fishing: South Fork Shenandoah, Nottoway, Rapidan, Rappahannock, Maury and Cowpasture rivers.

Fishing Techniques: Small spinner baits, spinner bucktails, grubs and tiny crankbaits. Spring and fall are the best times, but they are active throughout the summer.

Pumpkinseed

Common Names: Pond perch, sun perch, sunny.

Identification: Sunfish family. Dark, olive-green on its back, with mottled sides. Base color of sides, yellowish, spotted with orange, red and blue. Its belly is yellow to bright orange. Cheeks and gill covers marked with alternate worm-shaped bands of blue-green and yellow. Bluish-black gill cover flaps are edged with white, yellow, orange or blue, with a small half moon spot of red. Average 4 to 6 inches.

Best Fishing: Most lakes, ponds and rivers. Best time to catch them is in spring and early summer when they move into the shallows to spawn, but are cooperative even in the hot summertime and is commonly caught near shore throughout the warmer months.

Fishing Techniques: Relatively easy to catch. Small garden worms, red wigglers, various grubs and crickets are good live baits. An ultralight spinning or spincast rod and reel is ideal rigged with 4 to 6 lb. line, lightly weighted and fitted with a small bobber is the best outfit for sunfish. Simply cast to openings in aquatic vegetation, the edges of aquatic vegetation or gravel clearings near shore. They will hit artificials, such as wet flies and nymphs, but fish them a little slower than other sunfish species.

Green Sunfish

Common Name: Blue sunfish.

Identification: Sunfish family. Basically bluish green in color, with faint, alternating blue, brown and brassy gold stripes. Olive colored on its head with pale blue spots and wavy lines on its upper lip. Has a dark opercle (gill flap) spot and some orange and yellow-olive on its lower fins. Is a stocky, thick fish with a large head and large mouth.

Best Fishing: Small lakes, pond or quiet coves on large reservoirs where they have been introduced.

Fishing Techniques: A ready striker of any small crankbait, spinnerbait, wet or dry flies as well as live nymphs, minnows and worms. Fish close up against the shore, often under the smallest of overhanging banks, or small dugout areas along a shallow shore.

Rock Bass

Common Names: Redeye, goggle eye and rock sunfish.

Identification: Sunfish family. Short, robust body and fairly large mouth. Lower jaw protrudes slightly. Back is olive-green with sides tarnished gold or brassy colored. Each scale has a dark central spot. Large spots on its lower body forms a striped-like appearance. Has a discernable dark outline on its anal fin. Has wide vertical blotches on its sides and a dark spot on its cheek. Average 6 to 8 inches, but will reach 12 to 14 inches and 1.5 to 2 lbs. Cheeks with obvious scales.

Best Fishing: *Lakes:* Smith Mountain, Moomaw, and Laurel Bed. *Rivers:* Roanoke, New, Jackson, Maury, James, Bullpasture, Calfpasture, Buffalo, North Fork Shenandoah and Clinch.

Fishing Techniques: Voracious feeders that readily strike spinners, jigs, small crankbaits and flies. Favored live baits include minnows, crayfish, nightcrawlers, mayfly nymphs and hellgrammites.

Roanoke Bass

Common Names: Redeye, rock bass.

Identification: Sunfish family. Robust body much like the rock bass but with dark, olive-green to olive-brown back, fading to grayish sides and white belly. Has smaller scale spots than the rock bass and lighter, small whitish or yellowish spots on its upper body. Has a slightly concave outline over the eyes. Cheeks scaleless or nearly so.

Best Fishing: *Lakes:* Leesville and Smith Mountain. Most of the trophy "rock bass" registered by anglers are really Roanoke bass. *Rivers:* Nottoway, Roanoke/Staunton, and Blackwater and Pigg of the Roanoke drainage.

Fishing Techniques: Spinning and spincasting with small to medium spinner baits, small spoons and crankbaits. Live baits include minnows, crayfish, and worms.

Saugeye

Identification: Saugeye are a member of the perch family, and are a hybrid made from a cross between a female walleye and a male sauger. Saugeye look similar to walleye and sauger. They have dark "blotchy" saddle markings on their side and back like sauger, and generally have a white marking on the lower portion of their tail along with dark blotches on their dorsal fin membrane. Sometimes the fins can appear to have a slight orange coloration which can help distinguish them from walleye. Additionally, saugeye have scales on their cheek whereas walleye do not.

Best Fishing: Lake Chesdin, Little Creek Reservoir, and Appomattox, some can be found in lower abundance in the Staunton River below Leesville Reservoir.

Fishing Techniques: Saugeyes can be taken with light spinning and bait casting tackle using spinners, spoons, or live bait like minnows or night crawlers. Saugeye are less finicky than walleye and can be caught at various times during daylight hours if the proper lure or bait presentation is made. Deep diving crankbaits, that are able to reach 18 to 20 feet of water, will be a productive lure to try. Saugeye can be caught on bottom-bouncers with night crawlers hooked on worm harness rigs. Spinner blade coloration is usually best with bright colors such as pink and chartreuse.

Warmouth

Common Names: Warmouth bass, Indian fish.

Identification: Sunfish family. A large-mouthed, robust fish with mottled sides and wavy lines on its cheek. Basically dark brownish above, with mottled and barred sides, and mottled or spotted fins. Can be olive-brown colored with greenish cast. Seldom gets larger than 8 or 9 inches.

Best Fishing: Numerous small lakes, ponds such as lakes Orange, Lee Hall, and Airfield; and slow-moving, swampy rivers and streams, such as Dragon Run and Nottoway.

Fishing Techniques: Caught incidental to other fishing activities. Will take a variety of small artificials, as well as worms, small crayfish and minnows.

White Bass

Common Names: Silver bass, linesides.

Identification: Temperate "true" bass family. Light greenish back, light yellowish-green to silver sides to a silvery-white below, 6 to 8 horizontal faint stripes; stripes below lateral line are broken; the first stripe below the lateral line is not complete to tail. Deep-bodied with distinctively arched back, considerably smaller than its striped bass cousin. Single spine on gill cover; variable patch of teeth on tongue. Soft dorsal fin does not raise when you raise the spiny dorsal fin. Commonly reaches 0.5 to 2 lbs.

Best Fishing: *Lakes:* Buggs Island, Smith Mountain, Claytor, and Leesville. *Rivers:* New, and the Dan and Staunton (during spawning).

Fishing Techniques: Spinning or spincasting outfits with live minnows, or artificials imitating minnows, including jigs, spinner baits, streamers, spinner-bucktails, crankbaits and spoons. Caught during the spawning runs, also below dams in the tailraces, and by jump fishing schools in open water.

Striped Bass

Common Names: Striper, rockfish.

Identification: True bass family. Streamlined, elongated body; coloration shades from dark olive above through silvery sides to a white belly; 7 to 8 prominent unbroken black stripes originate behind the head and extend to the tail; more prominent than on the white bass. Two spines on the gill cover; two patches of teeth on tongue. Ten to 15 lb. fish are common with 30 to 40 +lb. fish landed each season.

Best Fishing: *Lakes:* Smith Mountain, Buggs Island, Anna, Claytor, Gaston, Leesville and Western Branch. *Rivers:* Staunton/Roanoke, Dan, and all tidal rivers.

Fishing Techniques: Heavy baitcasting, spincasting or spinning outfits with a good backbone and 15 to 25 pound test line. Live bait includes large minnows or gizzard or threadfin shad. Large feathered or plastic jig combinations, spoons, crankbaits that imitate shad or other fish and bucktails. Trolling, drift fishing, jump fishing or deep jigging are usual fishing methods.

Hybrid Striped Bass

Common Names: Hybrid, hybrid striper.

Identification: This is a striped bass x white bass cross, with a body shape between that of striper and white bass. Silvery-white with up to 8 dark broken stripes; first stripe below lateral line complete to tail. Tongue tooth patches are intermediate between white and striped bass. Typically less than 10 lbs.

Best Fishing: Claytor and Flannagan lakes.

Fishing Techniques: Tackle and techniques very similar to striped bass, but often with a little lighter tackle. Shiners and a variety of spoons, crankbaits, and jigs are favorite baits.

White Perch

Common Names: Stiffback, silver perch.

Identification: Not really a perch, but a member of the temperate bass family along with white and striped bass. Averages 8 to 10 inches but reaches up to 2 lbs. Silver gray above, fading to silvery-white below with no longitudinal lines. Has a deep notch between spiny dorsal and soft-rayed dorsal. No teeth on tongue. Soft dorsal fin raises when you raise the spiny dorsal fin.

Best Fishing: *Lakes:* Western Branch, Gaston, Buggs Island, Motts Run, Occoquan, Anna, Smith Mountain, Waller Mill Reservoir, and Back Bay. *Rivers:* Tidal rivers (Pamunkey, James, Rappahannock, Chickahominy, Mattaponi, North Landing, Northwest and Potomac) and most of their tributary creeks.

Fishing Techniques: Live bait such as minnows, grass shrimp and blood worms, plus artificials such as small spinner baits and jigs. Fish near structure such as old wharves, pilings, and sunken logs on a falling tide, which moves baitfish and shrimp out of cover.

Yellow Perch

Common Names: Ringed perch, raccoon perch, striped perch.

Identification: Member of the perch family, which includes the walleye, sauger and numerous small darters. Generally olive-green above, fading down the sides to green or yellow-green, to yellow or golden yellow. Has eight vertical dusky bars on its side and a silvery underside. Dorsal fins have a distinctive dusky blotch. Ventral and anal fins are yellow to orange, turning a bright orange on breeding males. Average 6 to 8 inches, but commonly reach 14 to 15 inches and 1.5 to 2 lbs.

Best Fishing: Brackish-water tributaries of the Chesapeake Bay. Top waters here include Machodoc, Maddox, Aquia and Occoquan creeks and Beaverdam Swamp Reservoir. *Lakes:* Western Branch, Prince, Little Creek, Holliday, Moomaw and Claytor. *Rivers:* Potomac, Rappahannock, Chickahominy, Nottoway and New.

Fishing Techniques: Ready feeders, but cautious biters and slow movers. Locate schools of fish by drift fishing or use deep jigging methods. Small minnows are the best overall bait. Other popular live baits include mummichogs, mayfly nymphs, worms and grubs. They'll also hit fish eyes, cut bait and pork rind, as well as artificials tipped with some of the above, including small spoons, spoon hooks, spinners, bucktails, spinner baits and streamers.

Walleye

Common Names: Walleyed pike, jack.

Identification: Largest member of the perch family (Percidae). Grows up to 21 inches, 3 and 4 lbs. by age three. Brassy-olive sides flecked with green and gold, and mottled by 6 to 8 obscure markings on top, white belly. Dorsal fins completely separate and unmarked, except for a distinct dark blotch at the rear base of the front dorsal fin. White blotch on tip of lower tail fin. The eye has a milky cornea, hence the name walleye.

Best Fishing: *Lakes:* Flannagan, South Holston, Gaston (especially below Kerr Dam), Philpott, Hungry Mother, and Brittle and Little Creek Reservoir. *Rivers:* New, Staunton/Roanoke, South Holston, Clinch and Dan.

Fishing Techniques: Jigs dressed with plastic grubs or tipped with live bait work well, especially in cold water. Three- to five-inch minnow plugs are very effective when walleyes move into shallow water. Crankbaits and jigging spoons work well when walleyes are deep. Trolling with nightcrawler harnesses (spinner rigs) is the preferred method in reservoirs during the summer months. Live baits such as minnows, shad or nightcrawlers are always a good option for walleye.

Sauger

Common Names: Sand pike, jack salmon.

Identification: A member of the perch family, very similar to walleye. Its best identifying marks are its spotted spiny dorsal. Its body colors are more of a dusky-brown to yellowish-olive, with large, irregular patches on its side, peppered in between with smaller dark markings and a white underside. Very slim build in comparison to walleye. Has a silvery, reflective eye similar to the walleye's, and a mouth full of canine teeth. When handled, it flares out its gills, flattens its head and shivers as if bracing itself for the hook removal. Typically 10 to 19 inches.

Best Fishing: Clinch and Powell rivers.

Fishing Techniques: Minnows are the best bait. Sauger tend to feed on or near the bottom. Some of the best fishing is below dams in the tailwaters. Early morning and evening are best times. They will hit fairly large minnows and are "lazy" hitters. Are quite adept at "stealing" bait. Will hit spoons, jigs or spinners, especially if tipped with a minnow.

Northern Pike

Common Names: Pike, pickerel, jackfish.

Identification: Member of the pike family (Esocidae). A long, lean body, generally olive or dark green above fading to a light olive or gray-green to yellowish-green then to white on its belly. Its sides have light yellowish bean-shaped spots the length of its body. Strongly toothed jaws have teeth arranged in rows, plus rows of teeth located on its tongue and palate; they angle inward so its prey cannot get loose. Cheek is fully scaled, gill cover is only half scaled.

Best Fishing: *Lakes:* Hidden Valley, Motts Run, and Occoquan.

Fishing Techniques: Still-fishing with large minnows or other baitfish, or casting or trolling with large spoons, spinner-bucktails or crankbaits.

Chain Pickerel

Common Names: Chainsides, jackpike, pike.

Identification: A member of the pike family, it is named for its chain-like markings on its sides. Also has a black vertical mark under its eye. Normally its fin is unmarked. Averages 1.5 to 3 lbs. Fully scaled on both cheek and gill cover.

Best Fishing: *Lakes:* Chickahominy, Gaston, Western Branch, Burnt Mills, Prince, Anna, Cohoon, Little Creek, Moomaw, Douthat and many other rivers, ponds and lakes. *Rivers:* Nottoway, Blackwater, Chickahominy, and Dragon Run.

Fishing Techniques: Best time is from October through March. Most active when water temperatures are 55° to 70°F. Spinners, spoons, bucktails, jigs, pork rind baits, and a variety of crankbaits will take pickerel. Minnows are the best live bait. Fish the edges of weed beds, lily pad beds, sunken brush, or tree stumps.

Muskellunge

Common Names: Musky, muskie.

Identification: Largest member of the pike family. Normally olive to dark gray on its back, with grayish to bluish to yellowish sides. Sides may have faint vertical bars, spots or blotches.

Feeding Habits: Muskies eat mainly other fishes, especially soft-rayed species such as suckers, carp and shad, but also frogs, ducklings, muskrats and other mammals.

Best Fishing: *Lakes:* Rural Retreat, Hungry Mother, and Burke. *Rivers:* James, Clinch, Shenandoah and New.

Fishing Techniques: River fishermen use small boats with electric motors or small outboards to float larger pools and fish shoreline snags and submerged brush. Heavy bait casting rods and reels with 30+ lb. test line is used. Using large hooks, 4/0 or larger, some anglers simply allow 8- or 12-inch suckers, shad or carp to swim free. Muskies are commonly caught in lakes by trolling deep water with large crankbaits, spoons and spinner-bucktail combinations. Early in the year, try trolling across shallow points.

Brook Trout

Common Names: Native, brookie, mountain trout, speckled trout.

Identification: Most colorful of our trout. Back is a dark olive-green with light wavy or wormy markings. Sides are lighter, sometimes with a bluish cast, yellowish spots and red spots with a light blue halo around them. Belly is white with bright orange fins. Fins have outer edges of white with a black line separating it from the orange. Ten to 16 inches and 1 to 2 lbs. is a good-sized brookie. Native brookies seldom grow beyond 12 inches in Virginia streams.

Best Fishing: Over 400 streams or portions of streams contain brook trout. Many of the streams and ponds in the Shenandoah National Park and the George Washington and Jefferson National Forest have native brook trout. *Lakes:* Laurel Bed, Coles Run Reservoir, Lexington City Reservoir and Switzer Lake. *Rivers and Streams:* Crooked Creek, Little Stoney Creek, Rapidan River, Rose River, Hughes River, Jeremy's Run, Laurel Fork and Dry River.

Fishing Techniques: For the purist, dry flies, wet flies, streamers and nymphs are used. Nymphs early in the season, dry flies when the natural insects hatch. Live bait anglers use garden worms and caddis, mayfly and stonefly nymphs also early in the year when these aquatic larvae are available naturally. In deep pools, small minnows may be effective year round.

Rainbow Trout

Common Name: Rainbow.

Identification: The variety of rainbows has resulted in a variety of colors, hues and markings. Normally the back is olive-green with a silvery cast on its sides fading to a silvery-white belly. A pinkish or light rosy red band extends from its cheek to near its tail. Normally, they are well spotted with black spots, but vary from large spots to tiny specks to no markings at all.

Best Fishing: Well established in streams of the southwestern region of the state and are found in a myriad of mountain streams in western Virginia. *Lakes:* Moomaw. *Rivers and Streams:* Smith River, Elk Creek, Dan River, Potts Creek, Cripple Creek, Roanoke River, Little Reed Island Creek, Jackson River, Crooked Creek and Big Tumbling Creek, and many others on both sides of the Blue Ridge. Some good wild streams are Whitetop Laurel, Fox Creek, and the South Fork Holston River.

Fishing Techniques: Hits dry flies, wet flies, streamers, nymphs, small spinners and spinner-bucktails, spoons, as well as worms, live nymphs, minnows and salmon eggs. Hatchery trout readily take kernel corn and colored marshmallows. Berkeley Power Baits that give off a scent and can be shaped on the hook are used extensively by anglers.

Brown Trout

Common Names: English brown trout, German brown trout, European trout.

Identification: Colors vary widely. Natural wild browns are olive-brown on the back, lighter on the sides, brilliant yellow-gold on their underside, with yellowish-green, unspotted fins. They have numerous black or dark brown spots on their sides, along with a sprinkling of red spots encircled with light blue rings. Hatchery-reared browns tend to be more silvery with dark brownish above with light yellow undersides and spots of a lighter shade.

Best Fishing: *Lakes:* Moomaw. *Rivers and Streams:* Little River, Mossy Creek, Potts Creek, Back Creek, Jackson River, Smith River and a wide array of others on either side of the Blue Ridge and in southwestern Virginia.

Fishing Techniques: Will rise to dry flies as well as hitting wet flies, streamers and nymphs. Worms, live nymphs, minnows and salmon eggs are good too. Brown trout tend to be bigger "meat eaters" in that they'll take larger live baits more readily and will hit spinners, spinner bucktail combinations, as well as small crankbaits and spoons. Live baits and wet flies are normally fished downstream while dry flies are fished upstream.

Flathead Catfish

Common Names: Mud cat, shovelhead cat, yellow cat.

Identification: Broadly flattened head with a lower jaw that projects beyond the upper jaw. Tail only slightly notched and adipose fin is relatively large. Body is yellowish or cream-colored with black, dark brown or olive-brown mottling on back and sides, fading to dirty white or yellow. Younger fish have darker, bolder markings and the upper tip of the tails have white, triangular patches.

Best Fishing: *Lakes:* Occoquan, Claytor, Flannagan, Smith Mountain, and Buggs Island. *Rivers:* James, New, Staunton/Roanoke rivers and Occoquan Creek.

Fishing Techniques: Use live bait since they aren't easily attracted to catfish baits normally used for other catfish, although chicken entrails, nightcrawlers, and minnows work well. Usually caught on the bottom of deep pools or in tailraces below dams.

Blue Catfish

Common Names: Forked-tailed cat, humpback blue.

Identification: Heavy-bodied with a wide head and high spot forward of center near the head called the dorsal hump. Upper jaw projects well beyond the lower. Bluish-gray body above, fading to white on sides and belly. No spots and a deeply forked tail. Blue cats are often confused with channel catfish. Small channel cats typically will have spots lacking in small blue cats. However, large channel cats and medium-sized blue cats can be more difficult to tell apart, often having similar coloration and general body shape. The margin, or edge, of the anal fin can be used to identify these fish: blue cats have an anal fin with a very straight margin; in channel cats the anal fin has a rounded margin. Biologists and anglers can definitively distinguish between the two species by counting anal fin rays; 30-35 rays in the blue cat's anal fin versus the channel cat's 25 to 29 rays.

Best Fishing: *Lakes:* Buggs Island, Gaston, South Holston, Claytor, Anna, Chesdin, Flannagan, and most small public lakes. *Rivers:* Appomattox, Chickahominy, Dan, Mattaponi, Pamunkey, New, Rappahannock, Shenandoah, Staunton, and North Landing and Western Branch Reservoir.

Fishing Techniques: March through May are the best months, but they are caught year round. Use heavy tackle with cut bait or peeler crabs. Best at night or low-light conditions.

Channel Catfish

Common Names: Spotted-catfish, speckled catfish, silver catfish, fork-tailed catfish.

Identification: Deeply forked tail. Upper jaw is longer than, and overlaps the lower. When small, its smooth-skinned body is usually spotted; however, these spots disappear in older fish (can be confused with blue catfish, see identification of blue catfish). Has a small dorsal fin with stiff spine standing high on its back. Varies in color, although generally dark brownish to slate-gray on top, fading to light brownish-gray on the sides. Has 25 to 29 rays in its anal fin.

Best Fishing: *Lakes:* Buggs Island, Gaston, South Holston, Claytor, Anna, Chesdin, Flannagan, and most small public lakes. *Rivers:* Appomattox, Chickahominy, Dan, Mattaponi, Pamunkey, New, Rappahannock, Shenandoah, Staunton, and North Landing and Western Branch Reservoir.

Fishing Techniques: Rod and reel anglers catch them on clam snouts, peeler crabs, large minnows, nightcrawlers, cut herring, chicken livers or entrails, shrimp, and a variety of stink or dough baits. They take a variety of artificials including crankbaits, jigs and spinners. Best at night or low-light conditions.

White Catfish

Common Name: Forked-tailed cat.

Identification: Has a moderately forked tail, a stocky body with its upper jaw extending slightly beyond lower. Color is basically blue-gray above, fading to gray on its sides with a white underside. Occasionally mottled light gray on its sides. Average 8 to 18 inches, rarely 20.

Best Fishing: Tidal rivers such as the Potomac, Rappahannock, James, and York and numerous lakes in southeast and central Virginia.

Fishing Techniques: Many of the same methods used for other catfish. Worms, minnows and scented baits fished on or near the bottom.

American Shad

Common Names: White shad, roe shad.

Identification: Largest of the river herring family, American shad average around 3 lbs., with fish up to 5 lbs. common. Silver-sided with greenish-blue back; deep bodied from the side, narrow and symmetrical top to bottom head-on; row of dark spots on the sides, running back from the gill cover; the upper and lower jaws are equal length when the mouth is closed.

Best Fishing: Rivers: James (Richmond fall line area), Mattaponi, Pamunkey, Meherrin, and Nottoway.

Fishing Techniques: Best time from mid-March to early May in fall line areas of tidal rivers as adults return to spawn. Light spincasting rods and reels, with 1/32 to 1/8 oz., brightly colored shad darts, spoons, jigs, or small minnow imitation lures. Fly fishing with darts, gold or white soft-bodied streamers, and other wet flies. Increased success in deeper water; do not usually jump but give a good fight; need to be carefully played to avoid tearing delicate mouth. Harvest is prohibited. Catch and release only.

Hickory Shad

Common Names: Hickory, silver shad.

Identification: River herring family, averaging around 1 lb., with fish up to 2 lbs. common. Silver-sided with grayish-green back and a prominent dark spot, followed by a row of lighter spots (especially when fresh) on the upper part of the side just behind the gill cover; body long but compressed, asymmetrical top to bottom and in cross section it is wedge-shaped; the lower jaw protrudes significantly beyond the upper jaw when the mouth is closed. Each scale on the sides has a small dark spot.

Best Fishing: Rivers: Rappahannock (fall line area in Fredericksburg), James (Richmond fall line area), Appomattox, Chickahominy (below Walker's Dam), Mattaponi, Pamunkey, and Nottoway.

Fishing Techniques: Mid-March into May with spring spawning run, arriving earlier than American shad. Light spin casting using very small, brightly colored shad darts, spoons, jigs, or minnow imitation lures. Fly fishing with darts, gold or white streamers, and other wet flies. Often taken near the surface, will "tail-walk" and sometimes jump. Check current regulations for restrictions.

Longnose Gar

Common Names: Billy gar, billfish, garfish, garpike.

Identification: Living relic of prehistoric past; family dates back 245 million years. Nothing in Virginia is even remotely similar to the gar. The long narrow beak-like jaw, laden with sharp teeth, is the unmistakable feature. Very long, cylindrical fish with dorsal and anal fins set well back on the body, and a large rounded tail fin; note the armament of very large, hard, sharp, bony scales. Brownish-olive on its back, fading to yellowish- or olive-green to white on its belly; 2 to 3 ft in length is not uncommon.

Best Fishing: Lakes: Western Branch, Prince, Chickahominy and Buggs Island. Rivers: Chickahominy, Pamunkey, James and Rappahannock.

Fishing Techniques: Large minnows are best on medium to heavy casting and spinning tackle. They are adept at stripping bait from hooks and difficult to hook in their bony jaw. Feed at night, especially moonlit nights.

Alewife

Blueback Herring

Blueback Herring & Alewife

Common Name: River herring.

Identification: Blueback herring and alewife are almost identical looking; the best way to tell them apart is an internal difference, blueback have a black membrane that lines the abdominal cavity and alewife have a light colored one with few, scattered spots. Blueback are bluish along the back with a silvery head; alewife is grayish-blue above, with a bronze head. Maximum length is 12 to 15 inches and less than 1 lb.

Fishing: Because stocks are depressed there is no harvest permitted in the waters flowing into North Carolina (Meherrin, Nottoway, Blackwater, North Landing and Northwest rivers and their tributaries plus Back Bay). The Virginia Marine Resources Commission enacted a ban on the possession of river herring, effective January 1, 2012, due to the collapse of the stock over the past 40 years and in order to comply with an Atlantic States Marine Fisheries Commission fishery management plan directive.

Common Carp

Common Names: German carp, European carp, mud bass, buglemouth bass.

Identification: Largest member of the minnow family. Thick bodied, with a brassy sheen, humped back, very large scales, large lips, barbels extending from lips, and spines on the front of dorsal and anal fins. Commonly attain 15 to 20 lbs.

Best Fishing: Lakes: Western Branch, Claytor and Prince and Kerr Reservoir and Waller Mill Reservoir. Rivers: Rappahannock, Pamunkey, Chickahominy, Potomac, Shenandoah and James.

Fishing Techniques: Common carp have acute senses of hearing, smell and taste, and are very skittish in clear water. They will bite in hot summer when other fish are not very active, but are a challenge to catch on hook and line. Carp often go on feeding sprees after a rain. Sometimes it pays to chum an area with kernel corn, oatmeal, cooked vegetables or similar materials. Baits include bread dough balls, canned corn or peas, marshmallows, cheese mixed with cotton to keep it on the hook, and worms. Baits must lie on unobstructed bottom. Tackle is usually a spinning, spincasting or casting rod at least 6 feet long with plenty of backbone; reels should be fitted with at least 100 yds. of 12 to 30 lb. test line. Hooks from #2 down to #10 are favored, and a sliding sinker should be used because of the carp's wariness.

Freshwater Drum

Common Names: Drum, sheepshead.

Identification: Freshwater drum have a humped back, stout body and large scales. The fins and body are silvery brown. The trailing edge of the caudal fin is rounded or almost triangular.

Best Fishing: Rivers: Clinch and Powell. Lakes: Buggs Island.

Fishing Techniques: Most anglers use live bait (crayfish and small minnows), but drum will hit artificial lures that imitate their preferred prey. Light or medium tackle is best. Fish on the bottom in deeper pools in rivers or on drop-offs and points in Buggs Island Lake.

Bowfin

Common Names: Grindle, grinnel.

Identification: Bowfin are living relics, with primitive roots back 70 million years ago. Has a long, soft-rayed dorsal which arches in a bow over most of the length of its body. Tail is rounded, with distinct black spot rimmed with orange on males; black spot on females faint or absent and no orange rim. Its back and sides are brownish-green or olive-green, with mottled sides fading to yellowish or white. During spawning, its underside turns a bright yellow-green. Has a cylindrical body and a wide flattened head, almost snake-like, with deep-set dark eyes. Snout is rounded with short nasal barbels. Mouth is large and has conical-shaped teeth. Note: While the bowfin shares similar coloration and body shape with the northern snakehead (recently introduced to the Potomac River), the anal fin of a bowfin is much shorter than that of the snakehead, and snakeheads will not have the spot found on bowfin.

Best Fishing: *Lakes:* Chickahominy, Cohoon, Little Creek and Diascund. *Rivers:* Chickahominy, Mattaponi, Pamunkey, Nottoway and Blackwater.

Fishing Techniques: They are strong, muscular fighters and strike at all manner of live bait and many artificials. Often fools an angler into thinking it's whipped, and then suddenly explodes back to life. Minnows and a variety of jigs are best baits. Spinner baits and bass jigs work well for summertime bowfin; in winter, vertical jigging spoons and blade baits can be effective. Use a good stiff rod with at least 15-lb test line. Steel leaders may be necessary and don't try to lip hold these fish! Food value is generally considered poor.

DO YOU KNOW THE DIFFERENCE?

Northern Snakehead

Pelvic fins close to pectoral fins and gills

Extended anal fin

Similar-Appearing Native Species

Bowfin

Pelvic fins set back from gills and pectoral fins

Black spot at base of tail

Short anal fin

Anglers are encouraged to contact DWR with all snakehead catches but are required to call if they plan to keep a legally caught fish, which must be killed before being taken into possession.

804-367-2925

Flier

Common Names: Round sunfish, millpond flier.

Identification: Sunfish family. A deep-bodied, almost round fish, with many spines on both dorsal and anal fins. Color is a yellow-green or brassy-olive to brownish-gold, with a dark brown to black spot on each scale, appearing as rows of spots. A dark vertical streak extends downward from the eye to the lower edge of its cheek. It has large, rounded fins, much like a crappie, with a head and mouth similar in shape to a bluegill's. Slow growing, they reach up to 10 inches in length.

Best Fishing: *Lakes:* Drummond, Airfield, Harrison, Kilby, Cohoon, Meade, and Motts Run. *Rivers:* Dismal Swamp Canal, Nottoway, and Blackwater.

Fishing Techniques: Most are probably caught incidentally by fishermen fishing for crappies in early spring. They will hit dry and wet flies, as well as small minnows and worms using typical small panfish rigs. Fish around stumps, sunken brush, cypress trunks and knees, and near or under bridges.

Fallfish

Common Names: Shenandoah tarpon, James River bonefish.

Identification: The largest native minnow in the eastern United States. This fish is known for its silvery sides and torpedo-shaped body. Fallfish sometimes have a bronze tint with a darker gray to brown back and light white underside. This species has a forked tail and during the spawning season, males will develop tubercles, bumps, on their snout in addition to a light pink tone along their gill plates and sides to attract females. Fallfish play an integral role in the aquatic community as males build a large stone nest mound that become communal spawning sites benefiting a variety of other stream species. Juvenile fallfish will have a dark stripe along their sides extending from their gill plate to their tailfin. Can reach lengths of 18 inches or more and weigh over two pounds.

Best Fishing: James, York, Rappahannock, Shenandoah, and Potomac drainages. This fish is one of the most common species on our warmwater rivers and streams across the Piedmont and they are often found in the lower reaches of habitable trout water.

Fishing Techniques: Fallfish can be caught with a variety of techniques from bait fishing to artificials. Anglers fishing with bait will have success with worms, minnows, or scented baits. Anglers fishing with spinning rods will catch fallfish on mepps spinners, rooster tails, and joe's flies. They will take small swimbaits and crankbaits too. Anglers fishing with a fly rod will find them with a variety of approaches including dry flies, nymphs, and streamers. Flashy beadhead nymphs and bright woolly buggers work particularly well and anglers will be surprised by how hard fallfish fight.

Have You Heard About The **Invasive** Alabama Bass?

Alabama bass (*Micropterus henshalli*), aka Coosa spotted bass, are a recent and illegal introduction to Virginia waters. Alabama bass outcompete largemouth bass and readily hybridize with smallmouth and spotted bass. Alabama bass are nearly identical in appearance to spotted bass and can be differentiated from largemouth bass by the presence of a tooth patch on their tongue and their spot pattern.

Alabama bass are native to Georgia and Alabama, occurring primarily in large river systems and large impoundments, but are an invasive species here in Virginia. Alabama bass are present in Lake Gaston, Buggs Island Lake (Kerr Reservoir), Claytor Lake, the New River below Claytor Lake, Philpott Lake, Martinsville Reservoir, Diascund Reservoir, James River (Fall-Line area in Richmond), and the Chickahominy River. The Department of Wildlife Resources (DWR) is conducting genetic testing to better identify the extent of Alabama bass throughout Virginia.

Regulations in Effect

In 2021, Alabama bass were added to Virginia's Predatory and Undesirable Species List. These regulations have made live possession of this species unlawful outside of the body of water of catch. As an example, this means that it would be unlawful to capture an Alabama bass in the Chickahominy River and to release it into the James River. Violation of this regulation is a Class III misdemeanor. There is no bag or size limit on Alabama bass and anglers are encouraged to harvest any that they capture.

What To Do If You Suspect You Have Caught An Alabama Bass?

Anglers who suspect they have captured an Alabama bass should take a picture of the fish, clip off a thumbnail-sized portion of one of the pelvic fins, and store the fin clip dry in an envelope. The pelvic fins are located on the bottom of the fish, just under the head. They should then either contact the DWR at: fisheries@dwr.virginia.gov or at 804-367-1293.

Anyone with knowledge of intentional stockings of Alabama or spotted bass should contact DWR law enforcement at 800-237-5712 or WildCrime@dwr.virginia.gov.

A Collaborative Effort

Preventing the spread of Alabama bass is a collaborative effort. DWR has been working hand in hand with The Virginia Chapter of the Bass Federation, the Bass Anglers Sportsman Society, and the Bass Fishing Hall of Fame to spread awareness of Alabama bass and to monitor and prevent their further spread.

For more detailed fishing and access information for all of the major fishing rivers please check out the fishing web pages: www.virginia-wildlife.gov/fishing.

Appomattox River

The Appomattox is a major tributary of the James River that flows out of Appomattox Co. toward Petersburg and Hopewell. Lake Chesdin, just west of Petersburg, is a major man-made impoundment on the river.

Fishery: A wide range of species, including largemouth, smallmouth and spotted bass, and redbreast sunfish, bluegill, flier, crappie, pickerel, and fallfish. Striped bass and wall-eye, which run out of Lake Chesdin, provide a seasonal fishery.

Access: Mostly limited to bridge crossings. Due to the remote nature of the river, only experienced boaters should try its waters.

Blackwater River (Chowan Drainage)

The Blackwater originates in Prince George Co., flows east through Surry Co., then south into the Nottoway to form the Chowan.

Fishery: Hosts runs of river herring in spring, along with limited numbers of shad and striped bass. Redbreast sunfish angling is also quite good in the spring; also has largemouth bass, bluegill, crappie, flier, and chain pickerel; bowfin and gar are common in the lower river.

Access: Ramps are available in the City of Franklin and at Routes 611 and 603 off Route 258; canoe access is available at several bridge crossings; bank fishing is limited to some bridge crossings, state boat ramps, and canoe access areas.

Chickahominy River

The Chickahominy flows east out of Henrico and Hanover Cos. and enters the James River east of Jamestown. Chickahominy Lake is a man-made reservoir along the New Kent/Charles City Co. line.

Fishery: With its beautiful cypress studded shoreline, the river below the lake supports a nationally known largemouth bass fishery; with good fishing for crappie, bowfin, yellow perch, channel catfish, longnose gar, and blue catfish.

Access: Chickahominy Riverfront Park; the WMA landing on Morris Creek; and Brickyard Landing west of Toano, off Route 610. Private ramps: Rock-a-Hock Campground; and River's Rest.

Clinch River

The Clinch is the crown of the mountain empire, flowing 135 miles southwestward from its origin near the town of Tazewell on its way to the Tennessee state line.

Fishery: The river is home to many rare species of mussels and dozens of species of minnows and darters, but the variety of sport fish is what makes the Clinch a great destination for anglers; native game fish are the smallmouth bass, spotted bass, walleye, and sauger. Largemouth bass, rock bass, redbreast sunfish, longear sunfish, and bluegill are available, as well as musky, black crappie, and freshwater drum. Both channel and flathead catfish are found in good numbers and sizes. Striped bass and white bass are sometimes caught in the lower stretches, where they migrate out of Norris Reservoir in Tennessee.

Dan River

The Dan originates high along the eastern slopes of the Blue Ridge Mountains in Patrick Co. and flows easterly until it empties into 50,000-acre Kerr Reservoir (Buggs Island Lake) near Clarksville, Virginia.

Fishery: In mountainous Patrick Co.; wild and stocked trout fishing opportunities, with two special regulation areas. Just west of Danville, this slower flowing Dan offers fishing for catfish, largemouth bass, and several kinds of sunfish; landlocked striped bass fishing begins east of Danville. Migratory fish running out of Kerr and flathead and blue catfish are the heart of the lower river fishing; walleye begin moving as early as January, white perch and white bass begin to migrate in early April, and the striped bass run begins in late April and continues through May.

James River (Upper)

From the confluence of the Jackson and Cowpasture rivers in Alleghany Co., the James flows east toward Richmond.

Fishery: Both the mountain sections (upstream from Lynchburg) and the piedmont sections (between Lynchburg and Richmond) offer smallmouth bass and excellent muskie fishing; other species include channel catfish, flathead catfish, and various sunfish species (redbreast, bluegill, and rock bass).

©Mike Ostrander

Fishing for catfish on the James River can produce some good results.

1428 Outpost Road
Lanexa, VA 23089
804-966-8362
www.rockahockcampground.com

more common; spring sees blueback herring, American shad, hickory shad, striped bass, and white perch migrating upstream from North Carolina.

Access: Above Route 630 bridge, canoeists find nice float trips in this shallow, clear and fast flowing section; below Rt. 630, the river slows, deepens, and darkens as numerous swamps in the Coastal Plain join it and this part of the river, particularly in Southampton County, is large enough for bass boats during normal flows.

Rappahannock and Rapidan Rivers

The Rappahannock flows from its origin at Chester Gap in Fauquier Co. ~184 miles to the Chesapeake Bay. The first 62 miles, from the headwaters to Mayfield Bridge (Fredericksburg), are designated State Scenic River.

Fishery: Above Fredericksburg and tidal influence: excellent smallmouth bass and redbreast sunfish angling. Below Fredericksburg: herring and shad run each spring and the tidal area also hosts white perch, largemouth bass, striped bass, crappie, yellow perch, channel catfish, and blue catfish.

Access: Upper Rappahannock and Rapidan access: public access points on the Rapp (traveling downstream) are at Kelly's Ford (Route 672 off Route 651) in Culpeper Co. and Motts Landing (Route 618) in Spotsylvania Co.; about 25 miles separate these canoe/jon boat slides and an overnight camp stop is nearly mandatory to float fish this reach; another access point is located on the Rapidan at Elys Ford (Route 610) in Spotsylvania Co. about 14 miles upstream of Motts Landing. Access may also be gained via several "non-established" points consisting of VDOT rights-of-way along bridges. Tidal area public boat launch sites below Fredericksburg: 4 (two near Fredericksburg), Hicks Landing (Port Royal) and Tappahannock.

Rivanna River

Originating in western Greene and Albemarle counties, the North and South forks of the Rivanna River combine on the western edge of Charlottesville and flow southeast to the river's confluence with the James River at Columbia (Fluvanna County). The main stem Rivanna River is a 40-mile stretch of river below the South Rivanna Reservoir that has the recognition of being Virginia's first designated Scenic River.

Fishery: The main stem Rivanna is known for its excellent smallmouth bass, redbreast sunfish, and channel catfish fisheries. Anglers can also expect to catch bluegill, crappie, fallfish, green sunfish, largemouth bass, longnose gar, and rock bass, with the occasional chance to catch flathead catfish and walleye.

Access: The Rivanna is suited for floating with a canoe or kayak due to its small size, rocky

bottom, and relatively shallow water. Much of the access to the Rivanna is on the main stem section of the river; there are numerous hand-launch access areas from Charlottesville downstream to Columbia.

Shenandoah River (Main Stem)

Main stem Shenandoah River is formed when the North Fork and South Fork converge at Front Royal, flows 57 miles, and empties into the Potomac River at Harpers Ferry, West Virginia.

Fishery: The Shenandoah River offers anglers a diverse array of quality sportfish populations. Smallmouth bass, largemouth bass, channel catfish, and various species of sunfish dominate the fishery. In addition, walleye and muskellunge are also abundant in localized areas throughout the river.

South Fork Shenandoah River

The South Fork Shenandoah begins at the confluence of the North River and South River near Port Republic and flows north 97 miles to meet the North Fork Shenandoah at Front Royal.

Fishery: The South Fork Shenandoah has a long-standing reputation as an excellent smallmouth bass river. While anglers should see modest numbers of smallmouth throughout the entire length of the river, fluctuations in young fish survival over the past several years has led to non-uniform densities of bass in different reaches of the South Fork. Higher densities of smallmouth are found in the Rockingham and Page County sections of the river. The South Fork also harbors good populations of largemouth bass, redbreast sunfish, channel catfish, and muskellunge (in the longer, deeper pools).

Access: A very popular destination for canoeists, over 20 public access points creates the opportunity to plan many different float trips of varying length (check out the fishing web pages).

Staunton (Roanoke) River

The Staunton, actually an 81-mile segment of the Roanoke River, begins at Leesville Dam and continues to the confluence with Kerr Reservoir.

Fishery: Seasonal runs of walleye, striped bass, white bass, white perch, and suckers. Catfish, including larger flathead catfish, can be caught throughout the river. Smallmouth bass and Roanoke bass (a larger cousin of the rock bass) are common in the upper sections, particularly around riffles and other rocky habitat. Largemouth and crappie are attractive angling prospects in the lower river, toward the state park.

Access: A canoe launch area is found just below Leesville Dam and large sections of the Staunton River also are accessible to motorboats, with access points at Altavista, Long Island, Brookneal, Watkins Bridge, US 360 E, and Staunton River State Park.

The rules for certifying a state record:

- The fish must be caught in Virginia waters with rod, reel, line, and hook held in hand, or with archery tackle (see page 27) where legally permitted. The angler must identify the specific waters from which the fish was caught.
- Although more than one angler may participate in catching a potential state record fish, only one applicant will be considered as the official record holder. Anglers should be aware, however, that world records are only granted for fish that are hooked and fought by one individual without assistance.
- A Department employee must witness the official weighing. Only the weight observed by the Department employee will be certified. The fish must be unfrozen, in whole condition and made available to the Department employee for a thorough examination. The fish may also be made available to the Department for further examination if deemed necessary by the Department representative.
- The species of the fish must be confirmed by a Department fish biologist who must inspect the fish in whole condition. (This can be accomplished subsequent to the weighing if the Department witness is not a fish biologist.)
- Application must be submitted within 60 days of the catch. A clear, side view photograph of the fish should accompany the application. Application is available online at www.virginiawildlife.gov/fishing/trophy-fish.
- Weighing scales must be appropriate to the size of the fish and be certified for legal commercial trade or those owned by the DWR that have been tested for accuracy by the Virginia Department of Agriculture and Consumer Services, Bureau of Weights and Measures or by certified DWR weights. Fish under 25 pounds must be weighed on a scale capable of weighing to the ounce. Fish over 25 pounds should be weighed on scales having no greater graduations than one-half pound. Whenever scales of 8-ounce graduations are used, the fish weight will always be rounded down to the nearest one-half pound.
- Any potential state record fish found to contain artificial food or nonfood items in the stomach will not be recognized as a new record.
- No fish caught within the boundaries of, or directly influenced by, a public or private aquaculture facility or private fee fishing area will be recognized as a state record.
- If there is reasonable doubt regarding any aspect of the application, it may be rejected.
- One appeal of the Committee's decision may be made within 60 days of notification. The appeal must be in writing to the Chairman, State Record Fish Committee, P.O. Box 90778, Henrico, VA 23228.

State Record Freshwater Fish – 3-21-2021

SPECIES	WEIGHT	LOCATION	DATE	NAME
Black Crappie**	4 lbs. 14 oz.	Lake Conner	4-8-1967	E. L. Blackstock
Black Crappie	4 lbs. 10 oz.	Private Pond	4-24-1994	Justin Elliot
Blue Catfish	143 lbs.	Buggs Island Lake	6-18-2011	Richard Anderson
Bluegill Sunfish**	4 lbs. 8 oz.	Private Pond	2-7-1970	Thomas E. Jones
Bluegill Sunfish	NO ENTRY TO DATE; MINIMUM WEIGHT TO QUALIFY IS 2 LBS.			
Bowfin**	17 lbs. 8 oz.	Chickahominy Lake	11-14-1964	E. C. Cutright
Bowfin	16 lbs. 8 oz.	Lake Cahoon	10-17-2004	John W. Plyler, Jr.
Brook Trout	5 lbs. 15 oz.	Cub Run	3-12-2019	Thomas Garth
Brown Trout**	18 lbs. 11 oz.	Smith River	6-22-1979	William W. Nease
Brown Trout	14 lbs. 12 oz.	South Fork, Holston	5-24-1990	Mike S. Perkins
Common Carp	49 lbs. 4 oz.	Lake Prince	6-25-1986	Jeffrey Graham
Chain Pickerel**	7 lbs. 12 oz.	Douthat Lake	1-26-1974	Glenn C. Williams
Chain Pickerel	7 lbs. 10 oz.	Lake Shawnee	12-31-1996	R. L. White
Channel Catfish**	32 lbs.	Lake Chesdin	4-28-1980	Hugh Wyatt
Channel Catfish	31 lbs. 8 oz.	Rappahannock River	10-2-1992	Sue Stanley
Coho Salmon**	8 lbs. 12 oz.	Philpott Reservoir	12-27-1971	Melvin Chilton
Fallfish	3 lbs. 5 oz.	Cowpasture River	3-21-2021	Jerry R. Hall
Flathead Catfish	68 lbs. 12 oz.	Lake Smith	5-25-2018	Jeffrey E. Dill
Freshwater Drum	29 lbs. 6 oz.	Buggs Island Lake	3-26-2018	Del Pool
Gar	25 lbs. 2 oz.	Lake Prince	5-28-1987	Roger Beaver
Hybrid Striped Bass	15 lbs. 13 oz.	Claytor Lake	3-16-2016	Don Jessie
Lake Trout**	5 lbs. 6 oz.	Philpott Reservoir	7-6-1966	Arthur A. Conner
Largemouth Bass	16 lbs. 4 oz.	Conner Lake	5-20-1985	Richard Tate
Musky (includes Tiger)	45 lbs. 8 oz.	New River	6-1-2007	Shannon Hill
Northern Pike	31 lbs. 4 oz.	Motts Run Reservoir	7-24-1994	George Wood
Rainbow Trout	14 lbs. 7 oz.	Greens Pond	6-28-1993	Michael Lowe
Redear Sunfish	4 lbs. 12 oz.	Private Pond	4-28-1986	Michael Mills
Roanoke Bass	2 lbs. 9 oz.	Western Branch Reservoir	5-28-2005	Harry G. Swauger
Rock Bass	2 lbs. 2 oz.	Laurel Bed Lake	5-17-1986	Larry Ball
Sauger**	5 lbs. 8 oz.	South Holston Lake	7-2-1972	R. Stallard
Sauger	3 lbs.	Clinch River	4-24-2010	Ronald C. Davis
Saugeye	NO ENTRY TO DATE; MINIMUM WEIGHT TO QUALIFY IS 6 LBS.			
Smallmouth Bass	8 lbs. 1 oz.	New River	3-12-2003	Donald S. Eaton, Jr.
Spotted Bass**	6 lbs. 10 oz.	Flannagan Reservoir	3-31-1976	Joe Jett Friend
Spotted Bass	4 lbs. 12 oz.	Claytor Lake	1-1-2020	Cliffton J. Hamilton
Striped Bass	53 lbs. 7 oz.	Leesville Reservoir	3-16-2000	James B. Davis
Sunfish (all other)	NO ENTRY TO DATE; MINIMUM WEIGHT TO QUALIFY IS 1 LB.			
Walleye**	22 lbs. 8 oz.	New River	8-20-1973	Roy G. Barrett
Walleye	15 lbs. 15 oz.	New River	12-15-2000	Anthony P. Duncan
White Bass	6 lbs. 13 oz.	Lake Orange	7-31-1989	Ron Sprouse
White Catfish	7 lbs. 6 oz.	Western Branch Reservoir	3-24-1992	Thomas F. Elkins
White Crappie	NO ENTRY TO DATE; MINIMUM WEIGHT TO QUALIFY IS 3 LBS.			
White Perch	3 lbs. 2 oz.	Private Pond	6-13-2012	Beau McLaughlin
Yellow Perch	3 lbs.	Flannagan Reservoir	3-8-2010	George Mullins

Archery State Record Freshwater Fish – 6-28-2021

SPECIES	WEIGHT	LOCATION	DATE	NAME
Blue Catfish	55 lbs. 5 oz.	Aquia Creek	8-22-20	Logan Horne
Bowfin	10 lbs. 12 oz.	Chickahominy River	7-31-16	Patrick Pendergrass
Carp**	60 lbs.	Private Pond	7-5-1970	Ben Topham
Common Carp	45 lbs. 7 oz.	Claytor Lake	10-15-16	Hae Kim
Flathead Catfish	44 lbs. 8 oz.	Belmont Bay	7-7-20	David B. Raines
Gar	23 lbs.	Pamunkey River	8-13-2021	Shawn Kennedy
Goldfish	3 lbs 9 oz.	Hunting Creek	5-22-21	Jeremy Fortner

** Denotes record fish that was caught before using new State Record Rules adopted in 1985

Trophy Fish Lengths and Weights

To qualify as a trophy, fish must meet or exceed the following lengths or weights.

SPECIES	LENGTH	WEIGHT
Black Crappie	15"	2 lbs.
Blue Catfish	38"	30 lbs.
Bluegill	11"	1 lbs.
Bowfin (Grindle)	30"	10 lbs.
Brook Trout	16"	2 lbs.
Brown Trout	25"	5 lbs.
Chain Pickerel	24"	4 lbs.
Channel Catfish	30"	12 lbs.
Common Carp	34"	20 lbs.
Fallfish	14"	1 lb. 4 oz.
Flathead Catfish	40"	25 lbs.
Freshwater Drum	24"	6 lbs.
Gar	40"	10 lbs.
Hybrid Striped Bass**	24"	8 lbs.
Largemouth Bass	22"	8 lbs.
Muskellunge	40"	15 lbs.
Northern Pike	30"	6 lbs.
Rainbow Trout	22"	4 lbs.
Redear Sunfish	11"	1 lbs.
Rock Bass	12"	1 lb.
Sauger*	18"	2 lbs.
Saugeye	23"	4 lbs.
Smallmouth Bass	20"	5 lbs.
Striped Bass	37"	20 lbs.
Sunfish (other)	10"	1 lbs.
Walleye	25"	5 lbs.
White Bass	16"	2 lbs.
White Crappie	15"	2 lbs.
White Perch	13"	1 lb. 4 oz.
Yellow Perch	12"	1 lb. 4 oz.

* Clinck and Powell rivers only

** Lake Anna, Claytor Lake, Carvins Cove, and Flannagan Res. only

Qualifying a Trophy Fish by Length and Photo

- Lay the fish on top of or beside a flat measuring ruler.
- Do not lay the ruler over the curvature of the fish's body.
- Close the fish's mouth and squeeze the tail lobes together.
- Measure from the tip of the snout to the end of the tail to the nearest 1/4-inch. See diagram below.
- If there is an observer, have them verify the length and include them in the witness information on the application. You are required to include a picture of the fish being properly measured on all trophy fish applications. The photo must be clear and legible!
- Return the fish safely to the water if desired.

How to Measure a Fish

"Trophy-sized fish" that are caught in Virginia waters can be registered through the Virginia Department of Wildlife Resources' Online Angler Recognition Program. This program grants:

Trophy Fish Awards: Certificates for registration of trophy size fish.

Expert Angler Awards: Certificates and patches for registration of 10 trophy fish of the same species.

Master Angler Awards I-VI: Certificates and patches for registration of 5 trophy fish of different species. Six successive levels.

Angler of the Month: Pins for registration of the largest trophy fish of each species, by certified weight, each month.

Angler of the Year: Pins for registration of the largest trophy fish of each species, by certified weight, each year.

Creel of the Year: Recognizes the angler who catches and registers the most trophy-sized fish from January 1 through December 31, annually. Colcade presented is determined annually.

Changes/Updates

- The angler recognition program is now online. Mail-in trophy fish applications will no longer be accepted and trophy fish certificates will no longer be mailed. Anglers can apply online and print their citations at home through Go Outdoors Virginia at www.gooutdoorsvirginia.com/
- New Species have been added to the program including black crappie, white crappie, saugeye, fallfish, bluegill, redear sunfish, and other sunfish.
- A Master Level VI is now being offered! For further information and details visit our website at www.virginiawildlife.gov/fishing/trophy-fish/.

Program Policies

- A photo of the fish is now required for all applications. See below for details about photos.
- The fish must be caught in Virginia waters (within the state line on boundary waters), the freshwater part of the Potomac River that borders Virginia, or above the designated Freshwater/Saltwater line on tidal waters.
- The fish must be caught legally (in accordance with Virginia Freshwater Fishing Regulations) by noncommercial methods.
- The fish must meet or exceed the minimum weight or length.
- The fish must be registered according to the proper procedures. **Fish may be certified by weight, or length, or both.** Weights from store-certified scales or personal scales will be accepted. Personal scales must be calibrated and certified within a year of date of catch. (See the Trophy Fish page on our website for more information about calibrating and certifying scales.)
- Applications must be received within 60 days to be eligible for Angler of the Month/Year competition. Applications must be received within 1 year for a Trophy Fish Award.

Certifying a Trophy Fish by Weight

- Take your fish to a store with certified scales or weigh your fish on a personal scale that has been certified by an approved third party. A picture of the fish being properly weighed is required for all trophy fish applications if you want a weight citation. The photo must be clear and legible and show the entire fish on the scale!
- On the application you will have to include the scale make/model, the certification date, maximum weight of the scale, and who certified the scale whether it was the Virginia Department of Agriculture and Consumer Services (VDACS) or another scale certification company. (Scales must be certified within a year prior to the date of catch. See the Trophy Fish page on our website for more information about calibrating and certifying scales.)

The Department of Wildlife Resources (DWR) is the state boating agency and its employees work diligently to provide boating access and opportunity to Virginia's boaters and paddlers to enjoy the many beautiful waters that Virginia offers.

While boating is a great pastime, and offers fun, relaxation, and even exercise when paddling; it also involves preparation and responsibility to have a safe day on the water. Always, be courteous to others on the water and to adjacent landowners, don't drink and boat, always wear a lifejacket, and take a boating safety course.

Be Responsible, Be Safe, and Have Fun!

– **Tom Guess**
Boating Law Administrator, DWR

Watercraft Registration, Titling & Sales Tax Requirements

The Virginia Department of Wildlife Resources (DWR) administers all boat titling and registration of recreational boats in Virginia. If the motorboat is principally used on the public waters of Virginia it must be registered and titled in Virginia as opposed to another state.

- A Certificate of Title and a Certificate of Number (Registration) are required for all watercraft propelled by machinery, including but not limited to, gasoline, diesel, and electric motors.
- Sail-powered vessels (no motor) greater than 18 feet in length are only required to be titled in Virginia (no registration needed).

- Boats used only on private waters do not require registration or titling.
- New watercraft must be registered before they may be operated on the public waters of Virginia.
- Used watercraft with a current, valid Virginia registration may be operated for 30 days on the previous owner's registration if a copy of the dated bill of sale and the registration card are carried aboard the watercraft.
- If there is no valid registration or the registration has expired, used watercraft must obtain valid registration before being operated on the public waters of Virginia.
- An owner bringing a watercraft into Virginia from another state may operate the vessel up to 90 consecutive days on the other state's current, valid registration before registering it in Virginia.

Where to Register Your Watercraft

Online:

www.GoOutdoorsVirginia.com

Application(s) and supporting documents sub-

mitted online MUST be mailed to DWR Boat Section, P.O. Box 9930, Henrico, VA 23228.

Walk-In:

At DWR Headquarters, 7870 Villa Park Drive, Suite 400, Henrico, VA 23228, 8:30 a.m.–4:30 p.m., M–F except holidays

Mail:

Mail original application(s) and supporting documents to DWR, Boat Section, P.O. Box 9930, Henrico, VA 23228.

Drop-Box (Headquarters)

Pick up times: 9:00 a.m., 12 p.m., and 3:00 p.m.

Once submitted, applications are usually processed and the registration materials mailed within 60 days of receipt in Henrico.

Titling and Registering Your Watercraft

All forms can be found at www.virginiawildlife.gov/forms

The "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" form is a combined application for both the registration and title. The application must include a purchase price for the boat and motor only and must also be signed by the buyer(s). The application requires a detailed description of the watercraft that includes:

- Boat make
- Length
- Model year
- Vessel type
- Hull material
- Propulsion type
- Hull Identification Number

Renew Your Boat Registration Don't Wait in Line Renew Online

- Instant boat renewal approval
- No wait time once confirmed
- Fastest way to receive registration decals
- Update your new customer account and buy your fishing license

www.GoOutdoorsVirginia.com

- Motor make, serial number, and horsepower (if in excess of 25 horsepower)
- Name and mailing address of lienholder (if applicable)

Most of this information will be available from the Certificate of Title and/or Certificate of Number (Registration) provided by the previous owner or the Manufacturer's Statement (or Certificate) of Origin provided by the retail outlet where the watercraft was purchased.

The following supporting documents must be submitted with an application for titling and registration as follows:

New Watercraft

- Original Manufacturer's Statement (or Certificate) of Origin or Importer's Certificate of Origin with "First Assignment" completed and issued by dealer at the time of purchase.
- Copy of the sales invoice showing gross purchase price, watercraft sales tax paid, and a description of the boat must also be provided.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).

If New Watercraft is Homemade By You

- "Statement for Registering and Titling a Motorboat not Previously Registered and/or Titled" must be provided.
- Copies of receipts for building materials
- Printed pictures of the watercraft from all sides.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)"
- Your watercraft may be subject to inspection by a law enforcement officer.

Used Watercraft

If titled in Virginia

- Original Certificate of Title with assignment of title completed by titled owner(s).
- If purchased from a watercraft dealer, the dealer reassignment portion of the title must be completed.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).
- Copy of the sales invoice showing gross purchase price, watercraft sales tax paid, and a description of the watercraft is required.

If Titled by Someone Else in Another State

- Original Certificate of Title with assignment of title completed by the titled owner(s).
- If purchased from a dealer, the dealer reassignment portion of the title must be completed.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).
- Copy of the sales invoice showing gross purchase price, watercraft sales tax paid, and a description of the watercraft is required.

Registration and Titling Fees and Watercraft Sales and Use Tax

Most people must pay a registration fee, a titling fee, and watercraft sales and use tax when they acquire a watercraft. These fees are found on the application.

WATERCRAFT REGISTRATION (3 YEARS)	FEE
Less than 16 feet in length	\$32.00
16 feet to less than 20 feet in length	\$36.00
20 feet to less than 40 feet in length	\$42.00
40 feet in length and longer	\$50.00
Duplicate Cards & Decals (Replacements or extra sets)	\$14.00
Livery of up to 10 watercraft	\$32.00
Livery of more than 10 watercraft	\$26.00
TITLING	FEE
Original	\$10.00
Duplicate	\$7.00
Change of Motor on Title (Original Title must be submitted)	\$7.00
Record Supplemental Lien on Previously Titled Watercraft (Original Title must be submitted)	\$10.00
TAX	FEE
Watercraft Sales and Use Tax	2% of gross purchase price of watercraft and motor (Maximum \$2,000.00)

DISPLAY OF REGISTRATION NUMBER

The number issued to your watercraft appears on the registration and is to be displayed exactly as it appears on each side of the forward half of the vessel in block letters, at least 3 inches in height, and contrasting in color with hull or background. They may be painted or attached to the watercraft, **must read from left to right**, and must always be legible. A space or hyphen must separate both the "VA" abbreviation and the letter suffix from the numerals.

On vessels so configured that a number on the hull or superstructure would not be easily visible, or the number would not remain securely attached (as on an inflatable vessel), the number may be painted on or the number and decal attached to a backing plate that is attached to the forward half of the vessel so that the number is visible from each side of the vessel.

If the watercraft already has Virginia registration numbers (used watercraft), in most instances those same numbers will be reassigned to the new owner. The Virginia registration number assigned to a watercraft should never be removed from the watercraft unless DWR assigns new numbers to the vessel.

If Titled by You in Another State (Moving the Watercraft to Virginia)

- Original Certificate of Title must be submitted.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).

If Registered By You in Another State but Not Titled (Moving the Watercraft to Virginia)

- A copy of the out-of-state registration is required.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).

If Registered in Virginia But Never Titled

- Copy of the dated bill of sale.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).

If Registered by Someone Else in Another State But Not Titled

- Copy of the out-of-state registration
- Bill of sale signed and dated by the registered owner(s).
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).

If Never Registered or Titled in Virginia or Any Other State

- "Statement for Registering and Titling a Motorboat not Previously Registered and/or Titled" form must be submitted
- Printed pictures of the watercraft from all sides.
- "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" must be completed and signed by the purchaser(s).
- Bill of sale signed and dated by the seller(s) must be submitted.

Documented Watercraft

If documented with the U.S. Coast Guard (USCG) and being changed to state registration

- The Certificate of Documentation, Letter of Deletion from the USCG (or Abstract of Title with proof of lien release in the documented owner's name). A signed and dated bill of sale must be submitted.

Note: Watercraft cannot be documented by the USCG and titled at the same time. The owner must choose between documentation or titling. While a documented vessel may not be titled, it may be registered at the owner's discretion should a registration decal be desired to show proof that sales tax was paid. The registration

decal may be useful if the watercraft is operated in other states that require a registration decal or other proof that sales tax was paid.

Boat Motors

Any size, type, or horsepower of motor on a watercraft requires it to be registered. Only motors in excess of 25 horsepower are listed on titles.

Duplicate Titles, Registrations, or Decals

- If a title, or registration card/decal becomes defaced, lost or destroyed, you may obtain an "Application for Duplicate Certificate of Title or Registration" at all of the locations where the application is available (see "Watercraft Registration, Titling & Sales Tax Requirements" page 58). You may also use this form to order extra registration cards if you want more than one.

Note: Only one valid title is recognized for each watercraft. If a duplicate title is issued, the duplicate title prevails over any previously issued title(s).

Expiration and Renewal of Registration

Registrations are valid for three years. Renewal notifications are emailed or mailed to the last known email address or postal address of all watercraft owners approximately 45 days in advance. A second renewal notification is sent 30 days prior to expiration date if not renewed. A final renewal notification is sent 30 days after expiration. The most common reason owners do not receive a renewal notification is because their address has changed within the three years and DWR was not notified within 15 days as required by law. If a renewal notification was not received, the registration may be renewed by completing the "Application for Watercraft Certificate of Title and Certificate of Number (Registration)" and marking the Type of Transaction as "Renew Registration" at the top of the application. Renewals may also be completed online at www.GoOutdoorsVirginia.com. The information needed to renew online is your current Virginia registration number and renewal PIN.

Change in Status or Change of Mailing Address

If a registered watercraft is sold, destroyed, abandoned, or stolen, or if there is a change in your mailing address, you are required by law to report this information within 15 days in writing to the DWR Boat Section. A change in status or change of mailing address may also be completed online at www.GoOutdoorsVirginia.com. The information needed to make this change online is your current Virginia registration number, Hull Identification Number, and the last name of the primary owner. A "Notification of Change in Status of a Numbered Vessel" form is available at all the locations where the application is available (see "Watercraft Registration, Titling & Sales Tax Requirements" on page 58). The notification can be mailed to DWR, Boat Section, P.O. Box 9930, Henrico, VA 23228 or emailed to boat-reg@dwr.virginia.gov.

Registration Must be Onboard While Operating

You must have a valid registration card on the vessel before your watercraft may legally be operated on public waters. **The three-year registration card is the official document of registration for your watercraft and once it has been issued, it must be carried aboard the watercraft while in use.** If you purchased a used watercraft with valid, current registration, you may operate the vessel for 30 days from the date of purchase provided you carry a dated bill of sale and the former owner's valid registration card.

Validation Decals

Decals are furnished with each three-year registration issued by DWR. **Decals indicate the month and year of expiration, and the registration number assigned to your watercraft. Decals must be displayed within 6 inches of the registration number on each side of the watercraft for which they were issued.** Only the current decal may be visible. Expired decals must be removed.

Trailers: Title, Registration, and License Plates

Title, registration, and license plates for watercraft trailers are purchased through the Department of Motor Vehicles (DMV). Check with DMV for rules and regulations regarding trailers.

ADDITIONAL INFORMATION

Additional information and forms on watercraft registration and titling may be obtained by calling the Boat Section of DWR at 804-367-6135 or 866-721-6911. Forms can also be downloaded from our website at www.virginiawildlife.gov/forms.

Required Equipment

Life Jackets

Every year many boating-related fatalities result in drownings because the individuals were not wearing life jackets. To ensure you and your passengers have a fun and safe day on the water, here are the basic life jacket rules you need to follow.

- **There must be one wearable (Type I, II, III, or V) U.S. Coast Guard approved life jacket for each person on the boat.** This includes all boats including paddlecraft (canoes, kayaks, and stand up paddleboards).
- **Each life jacket needs to be in good and serviceable condition.**
- **Each life jacket should be of the proper fit for each passenger on board.** See Fitting Your Life Jacket on page 62.
- **Life jackets need to be worn according to the manufacturer's label** in order to meet safety requirements.

- **Each required wearable life jacket needs to be readily accessible if not worn.** Readily accessible means the life jackets are out in the open or where they can be reached easily and quickly. Life jackets may not be in protective coverings or under lock and key.
- **Boats 16 feet or greater must also have a throwable device (Type IV).** This does not apply to personal watercraft (PWCs); non-motorized canoes or kayaks greater than 16 feet; racing shells, rowing sculls, racing canoes, and racing kayaks.
- **Throwable devices must be immediately available.** Immediately available means that the life jacket shall be quickly reachable in an emergency situation and cannot be in a protective covering in a closed compartment or under equipment.

All required life jackets and throwable device must be in good and serviceable condition. This means that all buckles and straps must be in good condition and not ripped or torn; seams and material must be intact; no rips or tears in the fabric or coating; buoyant material is intact and has not hardened, become water-logged, soiled or become oil-soaked

Inflatable Life Jackets

Inflatable life jacket are lightweight, comfortable to wear and take up about one-tenth of the storage room of conventional foam-filled life jackets. **Inflatable life jackets are only approved for persons age 16 or older.** Be sure to check the label for usage limitations such as whitewater activities, water skiing, or riding on a PWC.

Inflatable life jackets must meet all the requirements for wearable life jackets listed above plus the following:

- A properly armed with an inflation mechanism complete with a full inflation cartridge and status indicator that shows the mechanism is properly armed;
- Inflatable chambers that are capable of holding air;
- Oral inflation tubes that are not be blocked, detached, or broken;
- Inflation status indicators that are not broken or otherwise non-functional.

Summary of Virginia Boating Equipment Requirements

	MANUALLY PROPELLED VESSELS (CANOES, KAYAKS, SUPS, ETC.)	PWC'S	BOATS UNDER 16 FEET	BOATS 16 FEET - LESS THAN 26 FEET	BOATS 26 FEET - LESS THAN 40 FEET	BOATS 40 FEET - 65 FEET
Life Jackets - Wearable	Required	Required ¹	Required	Required	Required	Required
Life Jackets - Throwable				Required	Required	Required
Certificate of Number		Required	Required ²	Required ²	Required	Required
Validation		Required	Required ²	Required ²	Required	Required
Type B-1 Fire Extinguisher		Required	Required ³	Required ³		
Type B-II Fire Extinguisher					Required ⁴	Required ⁵
Ignition Safety Switch		Required				
Backfire Flame Arrestor		Required	Required	Required	Required	Required
Ventilation System		Required	Required	Required	Required	Required
Muffler (inboard engines)		Required	Required	Required	Required	Required
Horn, Whistle, or Bell	Required ⁸	Required	Required	Required	Required	Required
Daytime VDS - Operating in Coastal Waters (page 63)				Required	Required	Required
Nighttime VDS - Operating in Coastal Waters (page 63)	Required		Required	Required	Required	Required
Navigation Lights	Required ⁶		Required ⁶	Required ⁶	Required ⁶	Required ⁶
Boating Safety Education Certificate		Required	Required ⁷	Required ⁷	Required ⁷	Required ⁷

¹ The operator, each rider, and anyone being towed behind a PWC must be wearing a USCG approved Type I, II, III or V wearable life jacket. Inflatable life jackets are prohibited.

² Except non-motorized vessels.

³ Applies to boats where one of the following conditions exists: permanently installed fuel tanks; closed compartments under thwarts and seats where portable fuel tanks are stored; double bottoms not sealed at the hull or which are not completely filled with flotation material; closed living spaces; or closed stowage compartment in which combustible or flammable materials may be stowed.

⁴ Must carry one B-II or two B-1. A fixed system equals one B-1.

⁵ Must carry one B-II and one B-1 or three B-1. A fixed system equals one B-1.

⁶ See page 64.

⁷ Applies to all PWCs and all motorboats with engine of 10 hp or greater.

⁸ A sufficient means of making a sound signal (4-6 seconds) in duration and audible for ½ nautical mile.

Federal Life Jacket Rule for Children Under 13 Years Old

No person may operate a recreation vessel on federal waters with any child under age 13 on the vessel unless each child is either:

- Wearing an appropriate U.S. Coast Guard-approved life jacket; or below deck or in an enclosed cabin.
- This federal law is enforced by the U.S. Coast Guard. Most waters in Virginia are considered federal waters.

Fitting Your Life Jacket

Life Jackets come in a variety of sizes and size ranges. The life jacket label will provide the size of the life jacket along with information about the life jacket approval and approved uses of the life jacket (some life jackets are not approved for use on PWCs, towed watersports, or white water activities). After you check the label, be sure to try it on! Before every boating trip, try on your life jacket to make sure it fits correctly. What does a correct fit mean? It should be snug, but not tight. Lift your arms over your head – can you turn your head left, right, and over your shoulder, or does the life jacket ride up and in the way of moving your head? For children, have them stand with their arms at their sides. Lift the jacket up by the shoulders. The life jackets should not move more than 3 inches, no higher than the child's ears. If the life jacket does move up more than 3 inches, it is too big and the child can slip out of their life jacket. A life jacket for a young child will include a crotch strap. The crotch strap will insure the life jacket stays on. A final test of the life jacket is to try it on in the water. The life jacket should be snug enough to not ride up over the chin or ears when in the water.

Fire Extinguishers

All boats over 26 feet must have USCG approved, adequately charged fire extinguishers aboard (see the chart on page 61 for specific safety requirement). In addition, all motorboats under 26 feet that have one or more of the following conditions must also carry fire extinguishers:

1. Permanently installed fuel tanks.
2. Closed compartment under thwarts and seats wherein portable fuel tanks may be stored.

Minimum Number of B-I Hand-Portable Fire Extinguishers Required¹

LENGTH, FEET	NO FIXED FIRE EXTINGUISHING SYSTEMS IN ENGINE SPACE	FIXED FIRE EXTINGUISHING SYSTEM IN ENGINE SPACE
Under 16	1	0
16 to less than 26	1	0
26 to less than 40	2	1
40 to 65	3	2

¹ One B-II hand-portable fire extinguisher may be substituted for two B-I hand-portable fire extinguishers.

3. Double bottoms not sealed to the hull or which are not completely filled with flotation material.
4. Closed living spaces.
5. Closed stowage compartment in which combustible or flammable materials may be stowed.

All fire extinguishers must be U.S. Coast Guard approved, must have an efficient charge, and must be in good and serviceable condition.

Backfire Flame Arrestor

All powerboats, except outboards, that are fueled with gasoline must have a USCG approved backfire flame arrestor on each carburetor.

Ventilation

Any boat using a fuel with a flashpoint of 110° or less (gasoline but not diesel) that has any enclosed engine or fuel tank spaces (not open to the atmosphere), must have an efficient ventilation system to disperse explosive gases. Natural ventilation consists of at least two ventilation ducts fitted with cowls or their equivalent. At least one exhaust duct extending to the lower portion of the bilge and at least one intake (supply) duct extending to a point midway to the bilge or at least below the level of the carburetor air intake is required. Boats built after July 31, 1980 are required to have powered ventilation (exhaust blower) for engine compartments that are not open to the atmosphere.

WARNING: Gasoline vapors can explode. Before starting the engine, operate blower for at least four minutes and check engine compartment bilge for gasoline vapors.

All owners are responsible for keeping their boat's ventilation systems in operating condition. This means, making sure openings are free of obstructions, ducts are not blocked or

torn, blowers are operating properly, and worn out components are replaced with equivalent marine type equipment.

Sound-Producing Devices

All vessels, including paddlecraft, must carry a sound-producing device. The navigation rules require sound signals to be made under certain circumstances. Meeting, crossing, and overtaking situations described in Navigation Rules are examples of when sound signals are required. Recreational vessels are also required to sound fog signals during periods of reduced visibility. Having some means of making an efficient sound signal capable of a 4-second blast audible for 1/2 nautical mile is required. A whistle or air horn is acceptable if your vessel is not equipped with a horn.

Muffling Device

The exhaust of an internal combustion engine on any motorboat shall be effectively muffled. The muffling device shall exhaust at or below the water line or it shall be equipped with mechanical baffles. The use of cutouts is prohibited.

Engine Cutoff Switch (ECOS)

Every year people are injured and killed in boating incidents that could have been prevented by the use of a simple engine cutoff switch. A new federal law requires that vessel operators of boats less than 26 feet use (attach to person) the engine cutoff switch when traveling on plane or above displacement speed. This applies to boats equipped with a functioning engine cutoff device or boats manufactured after January 2020. In addition, state law requires that all operators of personal watercraft attach the engine cutoff switch to their person. For more information about the new federal law, go to <https://uscgboating.org/recreational-boaters/engine-cut-off-switch-faq.php>.

Marine Sanitation Devices (MSD)

Vessels with installed toilets and marine sanitation devices shall be in compliance with federal regulations which set standards for sewage discharges from marine sanitation devices. Vessels without installed toilets or without installed marine sanitation devices shall not directly or indirectly discharge sewage into state waters. Sewage and other wastes from self-contained, portable toilets or other containment devices shall be pumped out at

DID YOU KNOW...

Stand up Paddleboards are considered a vessel when outside a designated swim zone or beyond the surf zone. Life jackets and a sound-producing device (whistle) are required!

pump-out facilities or carried ashore for treatment in facilities approved by the Virginia Department of Health. Smith Mountain Lake is a “No Discharge Zone.”

Pump-Out Stations

A complete list of pump-out stations is available by contacting the Virginia Department of Health at 804-864-7473 or online at www.vdh.virginia.gov/environmental-health/marina-program/maps-marina.

Visual Distress Signals

All power boats 16 feet or greater in length shall be equipped with visual distress signaling devices at all times when operating on coastal waters. This regulation applies to all coastal waters and those rivers 2 miles or more wide at the mouth and up to the first point the river narrows to less than 2 miles.

Boats less than 16 feet, manually propelled boats (rowboats, canoes, kayaks, etc.), and open sailboats under 26 feet with no motor, are required to carry only night visual distress signals when operated on coastal waters at night.

Recreational boaters may carry additional visual distress signals over the minimum number of VDS required.

Note: It is illegal to display a visual distress signal unless immediate assistance is needed.

If using pyrotechnic signals, must have 3 night signals plus 3 day signals or 3 day/night combination signals. If using non-pyrotechnic signals, you must have 1 day signal and 1 night signal.

Pyrotechnic visual distress signals must be:

- USCG approved
- in serviceable condition
- readily accessible
- not expired
- Launchers produced before January 1, 1981, intended for use with approved signals are not required to be USCG approved.

USCG approved Pyrotechnic Visual Distress Signals include:

- Pyrotechnic red flares, hand-held or aerial;
- Pyrotechnic orange smoke, handheld or floating;
- Launchers for aerial red meteors or parachute flares.

NAVIGATION LIGHTS

Power Driven Vessels

Sailing Vessels

Non-pyrotechnic visual distress signaling devices must:

- Meet USCG requirements.
- Be in serviceable condition.
- Be readily accessible.

USCG approved non-pyrotechnic visual distress signals include:

- Orange distress flag with black square and black ball, for daytime use;
- Electric distress light for night use.

The following points will be used as the "cutoff points" for enforcement of the visual distress signal regulations on the coastal waters in Virginia. These points can be found on the appropriate nautical chart.

1. Entrance to Hampton Roads up to where the waterway is reduced to 2 nautical miles which is a line drawn between Old Point Comfort and Fort Wool.
2. York River up to where the waterway is reduced to 2 nautical miles which is a line drawn between Sandy Point and Tue Point, which is in the vicinity of Tue Marshes Light.
3. Mobjack Bay up to, but not including, the Severn, Ware, North and East rivers.
4. Entrance to the Piankatank River where the waterway is reduced to 2 nautical miles which is a line drawn from Cherry Point at Gwynns Island across the river to the opposite shore, which is in the vicinity of Piankatank River Lighted Buoy 6.
5. Rappahannock River up to where the waterway is reduced to 2 nautical miles, which is a line drawn from Parrott Island to Cherry Point, which is just before you get to the first highway bridge.

6. Those parts of the Pocomoke and Tangier Sounds which fall within Virginia.
7. Where the uncharted inlets of the Atlantic Ocean are reduced to 2 nautical miles in width.

Navigation Lights

Recreational boats, while underway, are required to display navigation lights between sunset and sunrise and during periods of restricted visibility (see navigation lights, pg. 63).

No other lights shall be exhibited that could impair the visibility of required running lights or impair the visibility of approaching vessels.

Lights Used When Anchored

An anchor light is a 360 degree (all-round) white light exhibited where it can best be seen and visible for 2 miles.

Special Lights for Enforcement Vessels

Enforcement vessels of the DWR, the USCG, and other law enforcement agencies may display a rotating or flashing blue light. When such a light is observed you should stop immediately and maneuver in such a way as to permit the boarding officer to come alongside or aboard.

By federal law, blue lights may only be displayed by enforcement vessels of the federal, state or local governments, and have the same effect on the water as the rotating or flashing blue lights on law enforcement cars traveling our highways.

Vessels Less Than 12 Meters (39.4 ft.) in Length

- Vessels or sailboats using power: the lighting arrangement in Figure 1, 2, 3, or 4 may be used.
- Sailboats using sail alone: the lighting arrangement in figure 5, 6, or 7 may be used.

The white masthead light or all around white light must be at least 1 meter (3.3 ft.) higher than the colored sidelights.

Vessels 12 Meters but Less Than 20 Meters (65.5 ft.) in Length

- Vessels or sailboats using power: the lighting arrangement in Figure 1 or 2 may be used. The lighting arrangement in Figure 3 may be used if the vessel was constructed before December 24, 1980.
- Sailboats using sail alone: the lighting arrangement in Figure 5, 6, or 7 may be used.

The white masthead light or all around white light must be at least 1 meter (3.3 ft.) higher than the colored sidelights.

Unpowered Vessels

A vessel under oars and sailboats less than 7 meters (23 feet) in length may display those lights prescribed for a sailing vessel, but if they do not, they shall have ready at hand an electric torch or lighted lantern (Figure 8) shining a white light which shall be exhibited in sufficient time to prevent collision.

International Rules (Past the Line of Demarcation)

Beyond three nautical miles of Virginia's coastline, if your power-driven vessel is less than 23 feet (7 meters) in length and its maximum speed does not exceed 7 knots, then it may display an all-round white light, and if possible, sidelights instead of the lights previously described.

Safe Boating

Virginia Boating Safety Education

All PWC operators and motorboat operators of boats registered in Virginia with a motor of 10 horsepower and greater must take a boating safety course.

Boating Education Courses

The DWR provides a free classroom boating safety course, Boat Virginia. This course is available throughout the year. The DWR also supports NASBLA approved boating courses offered by the USCG Auxiliary (USCGAux) and the U.S. Power Squadrons (USPS). There are several internet courses that meet Virginia's Boating Safety Education Requirement.

For a up-to-date list of boating safety education course offerings and boating safety information, visit our website at www.virginiawildlife.gov/boating/education/requirement/.

To arrange a free vessel safety check, please call 1-800-245-2628 or contact local USCG Auxiliary or USPS member.

Do I Need to Take a Boating Course?

YES: If you have never taken a NASBLA approved boating safety course and you operate a PWC or a boat registered in Virginia with a motor of 10 horsepower and greater.

NO: If you have previously taken a NASBLA approved boating safety course and still have a card/certificate.

NO: If you are serving or have qualified as an Officer of the Deck Underway, boat coxswain, boat officer, boat operator, watercraft operator, or Marine Deck Officer in any branch of the Armed Forces of the United States, United States Coast Guard, or Merchant Marine.

NO: If you hold or have held a license to operate a vessel (Master, Captain, or Mate).

NO: If you are or have been a Registered Commercial Fisherman.

NO: If you are or have been a surface warfare officer/enlisted surface warfare specialist in the United States Navy.

General Information

- You must carry proof of course completion on board with you while operating.
- If your boat is registered in another state you must meet your home state's education requirement.
- If you are planning to rent a boat, please check with the boat rental company.
- Refer to our website for more details about the education requirement.

Enforcement

Boating laws are enforced primarily by Conservation Police Officers employed by DWR. These officers have full police powers and have the right to lawfully stop and board your boat at any time to check for proper registration and required safety equipment.

The Law about Alcohol, Drugs, and Boating

Virginia's law states that boat operators with blood alcohol concentrations of .08 percent or more by weight, by volume, shall be presumed to be under the influence of alcoholic intoxicants. Operating a boat under the influence is a Class 1 Misdemeanor and can result in up to a \$2,500 fine and/or up to 12 months in jail as well as the loss of the privilege to operate a motorboat for up to a year.

Implied Consent

The Virginia Implied Consent Law states that by operating a watercraft, you are agreeing to submit to a breath and/or blood test to determine the amount of alcohol and/or drugs in your blood. Unreasonable refusal to submit to these tests constitutes grounds for the revocation of the operator's privilege to operate a watercraft on the waters of the Commonwealth.

Zero Tolerance Law

Virginia Law prohibits persons younger than 21 from consuming alcohol and operating a watercraft with any measurable alcohol level. Operation under the influence of alcohol or other drugs is a criminal offense. Additionally, persons age 18–20 arrested buying, possessing, or drinking alcohol can be fined up to \$2,500, lose their motor vehicle operator's license for up to 1 year, and be sent to jail.

Courtesy of National Safe Boating Council

Protect Yourself

Don't allow a drinking boater to make you and your passengers boating fatality statistics. Be alert to what other boaters are doing and steer clear of boaters who may be abusing alcohol and/or drugs.

Speed Laws

No Wake

1. "No Wake" is defined as the slowest possible speed required to maintain steerage and headway.
2. It shall be unlawful to operate any motorboat greater than no wake speed in areas marked with regulatory "No Wake" buoys.
3. It shall be unlawful to operate any motorboat greater than no wake speed when within 50 feet or less of docks, piers, boat-houses, boat ramps, and people in the water. This definition does not prohibit the pulling of a skier with a rope of less than 50 feet, nor a person accompanying the motorboat (wake surfing) provided the motorboat is propelled by an inboard motor.

Slacken Speed

Operators shall reduce speed to avoid endangering persons or property by the effect of the motorboat's wake when approaching or pass-

ing vessels under way, lying to, at anchor, or made fast to the shore; or, when approaching or passing piers, docks, or boathouses; or when approaching or passing persons in the water or using water skis or surfboards.

Safe Speed

A safe speed is a speed less than the maximum at which the operator can take proper and effective action to avoid collision and stop within a distance appropriate to the prevailing circumstances and conditions.

In establishing a safe operating speed, the operator shall take into account: visibility, traffic density, ability to maneuver the vessel (stopping distance and turning ability), background light at night, proximity of navigational hazards, draft of the vessel, limitations of radar equipment, and the state of wind, sea, and current.

Other Unlawful Acts

- No person shall operate any motorboat or vessel, or manipulate any skis, surfboard, or similar device in a reckless manner so as to endanger the life, limb, or property of any person.
- It is unlawful to allow any person to ride or sit on the bow, gunwale, transom, or on the decking over the bow of the vessel while un-

der power unless such motorboat is provided with adequate guards or railing to prevent passengers from falls overboard. Passengers or other persons aboard a watercraft may occupy these areas of the vessel to moor or anchor the watercraft, to cast off, or for any other necessary purpose.

- No person shall operate or allow another person to operate an unregistered motorboat, a boat with an expired certificate of number, a boat with the number improperly displayed, an unauthorized number displayed, or without carrying the certificate of number onboard.
- No person shall operate a boat without exhibiting the lights as required by law between sunset and sunrise.
- No person shall fail to stop, render assistance, give their name and address at the scene of an accident, or report an incident in the proper timeframe (see page 71).
- No person shall operate a boat in a manner that violates any regulatory marker (see page 70).
- No person shall operate a boat, skis, or similar device in an area designated for swimming.
- No person shall engage in snorkeling or scuba diving in waters open to boating without displaying a diver-down flag. All vessels must

DID YOU GET YOUR VIRGINIA LIFETIME BOATER'S CARD?

Our Virginia Lifetime Boater's Card is available to those who meet the boating safety education requirement. This durable, drivers license-style card is available for a fee of \$10.00.

- Completed a NASBLA approved boating safety course (U.S. Power Squadrons, U.S. Coast Guard Auxiliary, other states' boating safety courses, or internet courses)
- Completed a Virginia Challenge Exam
- Have lost your original Boat Virginia card
- Meet any of the exemptions listed under Boating Education Course

To purchase a card go to www.virginiawildlife.gov/boating/lifetime-boater-card/.

stay at least 25 yards away when the flag is displayed.

Towed Watersports Safety

The boating law contains several provisions related to the towing of persons on water skis, tubes, surfboards, or similar devices and the manipulation of such devices by the person being towed.

1. All boats towing a water skier(s) or other persons on towed devices **MUST** have ONE of the following:
 - a. Persons being towed must be wearing a USCG approved life jacket or
 - b. There must be an observer on the boat (in addition to the operator) who is in a position to observe the progress of the skier.
2. A person(s) being towed on water skis or other device may not operate in a reckless or dangerous manner.
3. A person(s) being towed on water skis or other device may not operate while under the influence of alcohol or drugs, including prescription narcotics and illegal drugs.
4. The operator of the boat towing a water skier(s) or person(s) on another towing device may not manipulate or control the boat so as to cause the person(s) being towed to collide with any object or person.
5. Water skiing behind a motorboat (or towing of people on other devices) is allowed only between one-half hour before sunrise to one-half hour after sunset. Check the official sunrise and sunset times for your area.

6. Water skiing behind a PWC (or towing of people on other devices) is allowed only between sunrise to sunset. Check the official sunrise and sunset times for your area.

Personal Watercraft (PWC) Operation

A personal watercraft is a motorboat less than 16 feet in length which uses an inboard motor powering a jet pump as its primary motive power and which is designed to be operated by a person sitting, standing or kneeling on, rather than in the conventional manner of sitting or standing inside the vessel.

PWCs must follow all rules and regulations for motorboats. There are additional rules and regulations for PWC operators as follows:

1. It shall be unlawful for any person to operate a PWC, or the owner or any person having control to authorize or knowingly permit a person to operate a PWC, unless the operator is at least 16 years of age. Any person age 14 or 15 may operate a PWC if they have successfully completed an approved boating education safety course, carry proof of successful completion of such course, and show this proof upon request by a law enforcement officer.
2. It is unlawful to operate a PWC unless the operator, each rider and anyone being towed by a PWC is wearing a USCG approved wearable life jacket suited for this activity. Inflatable life jackets are prohibited.
3. If the PWC is equipped with a lanyard-type engine cut-off switch, the operator must

attach the lanyard to his person, clothing, or life jacket.

4. It is unlawful to operate a PWC after sunset or before sunrise.
5. It is unlawful to operate a PWC while carrying passengers in excess of the number for which the craft was designed by the manufacturer; including towed passengers.
6. A person shall be guilty of reckless operation who operates any PWC recklessly so as to endanger the life, limb, or property of any person, which shall include, but not be limited to: (1) weaving through other vessels which are underway, stopped, moored or anchored while exceeding a reasonable speed; (2) following another vessel or skier, crossing the path of another vessel or skier, crossing the path of another vessel more closely than is reasonable and prudent; (3) crossing between the towing vessel and a skier; or (4) steering toward an object or person and turning sharply in close proximity to such object or person in order to spray or attempt to spray an object or person with the wash or jet spray of the PWC.
7. PWC operators must maintain "no wake" operation when within 50 feet or less of docks, piers, boathouses, boat ramps, people in the water and vessels other than PWCs. PWCs may tow a skier with a rope less than 50 feet. No wake is defined as "The slowest possible speed required to maintain steerage and headway."

The above provisions do not apply to participants in regattas, races, marine parades, tournaments or exhibitions approved by the Board of the DWR or the USCG.

Navigation Rules

Most boating accidents are the result of a collision, either between two vessels, or between a vessel and a fixed or submerged object. For this reason, boat operators are cautioned to follow the established Navigation Rules, especially maintaining a proper lookout and safe speed. Remember the three basic rules of navigation:

1. **Practice Good Seamanship** — it is the responsibility of every vessel or PWC operator to take all necessary action to avoid collisions. Such action should be taken in ample time to avoid a collision and at a safe distance from other vessels.
2. **Keep a Proper Lookout** — every operator must keep a proper lookout using both sight and hearing at all times. Watch and listen for other vessels, radio communications, navigation hazards, and others involved in water activities.
3. **Maintain a Safe Speed** — safe speed will vary depending upon conditions such as wind, water conditions, navigation hazards, visibility, surrounding vessel traffic, and the maneuverability of your vessel.

The boat operator is responsible for knowing and following all of the applicable navigation

Personal Watercraft (PWC) Safety

DID YOU REMEMBER?

Operator must be at least 14 years old and have taken an approved boating safety course.

Wearable life jacket must be worn by each person (including skiers)

Open seat for skier

Whistle

Safety lanyard (must be attached)

Fire Extinguisher

Registration Card, Number and Current Decal

50' Rule - PWCs must come to "no wake" speed when within 50' or less of boathouses, piers, docks, boat ramps, people in the water, and vessels other than PWCs.

May only operate between sunrise and sunset

CONSERVE. CONNECT. PROTECT.

Full requirements can be found at www.dwr.virginia.gov/boating/

rules. Copies of the rules may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, 202-512-1800. The stock number is 050-012-00192-8. On the Web at: <http://uscgboating.org/regulations/navigation-rules.php>.

Right Side = Starboard
Left Side = Port

Head-on (bow to bow)

When two power-driven vessels are meeting head-on or nearly head-on, each shall alter her course to starboard (right) so that each shall pass on the port side of the other. A head-on situation exists when a vessel sees the other ahead or nearly ahead and by night she could see the masthead lights of the other in a line or nearly in a line or both sidelights.

Give-way and Stand-on Vessels

Give-way and Stand-on is the terminology used to describe the appropriate action of each vessel in crossing and passing situations.

The "give-way" vessel is the vessel that must take early and substantial action to keep well clear of another vessel.

The "stand-on" vessel shall maintain course and speed unless it becomes apparent that the vessel required to keep out of the way (the "give-way" vessel) is not taking the appropriate action. If the stand-on vessel must take action to avoid a collision, it must avoid turning to port for a vessel on her port side.

An action taken to avoid a collision needs to be positive, made in ample time and large enough to be apparent to the other vessel. If necessary to avoid a collision or allow more time to assess the situation, a vessel must slacken her speed or take all way off by stopping or reversing engines.

In crossing situations, power boats must give-way to sailing vessels under sail regardless of the angle the power-driven vessel approaches the sailing vessel.

Crossing

When two power-driven vessels are crossing, the vessel which has the other on her starboard side shall give way and keep out of the way and avoid crossing ahead (in front) of the other vessel.

When taking action to stay out of the way, make it early, substantial and well clear of the other boat. Avoid making a succession of small alterations of course or speed. If you are directed by the Rules to stay out of the way, then make your turn large and obvious so as to be readily apparent to another vessel both visually or by radar. This is especially true at night, when the only visual indication of your course change is the alteration of your boat's lights.

Overtaking

Any vessel overtaking any other shall give-way and keep out of the way of the vessel being overtaken.

When a vessel is in any doubt as to whether it is overtaking another, it shall assume that this is the case and act accordingly.

If you are being overtaken (passed), you are the stand-on vessel and should maintain your course and speed. The vessel overtaking you should notify an intent to pass by making an appropriate sound signal. One short blast of the horn or whistle means "I intend to overtake you on your starboard side" and 2-short blasts means "I intend to overtake you on your port side".

When two sailing vessels are approaching one another in a crossing situation, one of them shall keep out of the way of the other as follows:

- When each has the wind on a different side, the vessel which has the wind on the port side shall keep out of the way of the other;

- When both have the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward; and
- If a vessel with the wind on the port side sees a vessel to windward and cannot determine with certainty whether the other vessel has the wind on the port or on the starboard side, she shall keep out of the way of the other.

Windward side is deemed to be the side opposite to that on which the main-sail is carried.

Responsibility Between Vessels Except where otherwise required:

A power-driven vessel shall keep out of the way of:

- A vessel not under command
- A vessel restricted in her ability to maneuver, such as a tug boat or deep-draft freighter
- A vessel engaged in commercial fishing
- A sailing vessel

A sailing vessel shall keep out of the way of:

- A vessel not under command
- A vessel restricted in her ability to maneuver, such as a tug boat or deep-draft freighter
- A vessel engaged in commercial fishing

Departure From Regulations To Avoid Immediate Danger

At times it may be necessary to depart from these rules in order to avoid immediate danger. When, from any cause the vessel required to keep its course and speed finds itself so close that collision cannot be avoided by the action of the give-way vessel alone, the operator shall take such action as will best aid to avoid collision. This action does not relieve the give-way vessel of its obligation to keep out of the way. The give-way vessel is that vessel required to take early and substantial action to keep well away from other vessels by stopping, slowing or changing course.

Narrow Channels

In narrow channels, the operator of every vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the right side of such vessel. The operator

of a vessel under 65.6 feet in length underway, fishing or at anchor in narrow channels shall not interfere with the passage of large, deep-draft vessels that can safely navigate only inside such channels.

Restricted Visibility

The following rule applies to vessels not in sight of one another when navigating in or near an area of restricted visibility:

Proceed at a safe speed adapted to the prevailing circumstances and conditions of restricted visibility. A power-driven vessel shall have engines ready for immediate maneuver.

Except where it has been determined that a risk of collisions does not exist, every vessel which hears apparently forward of her beam the fog signal of another vessel, or which cannot avoid a close-quarter situation with another vessel forward of her beam, shall reduce her speed to the minimum at which she can be kept on course. She shall if necessary take all way off (slow down or stop) and in any event, navigate with extreme caution until danger of collision is over.

Sound Signals for Restricted Visibility

Whistle means any sound producing device capable of producing a blast.

Short Blast = a blast of about 1 second.

Prolonged Blast = a blast of from 4–6 seconds' duration.

In or near an area of restricted visibility, whether by day or night, the following sound signals shall be made:

- A power-driven vessel making way through the water — one prolonged blast at least once every 2 minutes.
- A power-driven vessel underway but stopped and making no way through the water shall sound at intervals of not more than 2 minutes two prolonged blasts in succession with an interval of about 2 seconds between them.
- A sailing vessel, whether underway or at anchor, shall sound one-prolonged blast followed by two-short blast at least once every 2 minutes.

MOTORBOAT AND PWC OPERATORS

A Boating Safety Course is Required to Operate PWC's and/or Boats With Motors 10 HP or Greater.

For more information:
www.virginiawildlife.gov/boating/education/requirement/

Boating Safety DID YOU REMEMBER?

Boat Registration

One Coast Guard approved throwable device (Type IV) on boats greater than 16' except PWCs, canoes, kayaks, and inflatable rafts.

Other Required Equipment
 (depending on size of boat, construction of boat, type of engine and where the boat is operated)

One Coast Guard approved life jacket in good condition and proper size and fit for each person on the boat.

Current state decal applied within 6" of the VA registration numbers.

Backfire Flame Arrester
 (except outboard engines)

Fire Extinguisher

Sound Producing Device

Navigation lights turned on from sunset to sunrise and when visibility is restricted.

Engine Cut-off Device
 (federal requirement)

Boat Numbers properly displayed on both sides of the boat, contrasting in color to the hull and a minimum of 3" in height.

Visual Distress Signals
 (required on coastal waters)

All operators of boats with 10 hp or greater engine must complete an approved boating safety course.

Full requirements can be found at www.dwr.virginia.gov/boating/

AIDS TO NAVIGATION

Buoys are the most familiar aids to navigation—they're the signposts of the water. Here's how they work: entering a channel or river from open water, buoys on the right (starboard) are painted red and are even numbered starting from the mouth. Buoys on the left (port) side of the channel are green buoys with odd numbers. Stay between the red and green buoys and keep to the right of the channel.

Buoys marking mid-channel have red and white vertical stripes; those marking obstructions or junctions are striped horizontally red or green with the top band marking the best channel. Red top: keep buoy on your right. Green top: keep buoy on your left. Remember: RRR for "Red Right Returning." Returning means going upstream, or coming from the ocean.

Floating Channel Markers

Can Buoy (Green)
Keep buoy to left going upstream.

Nun Buoy (Red)
Keep buoy to right going upstream.

Special Buoy (Yellow)
A caution area meaning to steer clear. Indicates an isolated danger.

Lighted, whistle, bell, horn or gong buoy
May be red, green or yellow.

Additional Markers

Lighted (White Light) Mid-channel Buoy
Pass close to either side of unlighted red and white, vertically striped, spherical buoy.

Channel Junction Buoy (Red Top)
Keep buoy to right going upstream to stay in preferred channel. (Keep Green Top buoy to left.)

Scuba divers or snorkelers must display "Diver Down" flag that marks their area and boats must maintain distance of 25 yards or more from any displayed diver down flag.

Opposite green and red buoys mark channel

Blue Banded white buoy

Regulatory Markers—Uniform State Waterway Marking System

It is unlawful to place unauthorized regulatory markers on or near the public waters.

Information

Danger

Controlled Area

Exclusion Area: Boats Keep Out

Boaters may only tie up to designated mooring buoys. Do not tie up to any other type of navigational buoy or other aids to navigation.

Stationary Channel Markers

Other Safety Concerns

Boating Accident Reporting

As the operator of a vessel, you are required by law to file a formal, written report of your boating accident with the DWR under certain circumstances.

To inform Law Enforcement about an accident that has just occurred, please call your county or city law enforcement group, sheriff's office, Conservation Police Officer, or Department dispatcher (800-237-5712) or 911.

When a Report is Required

A formal, written report must be filed with DWR when there is:

- Damage over \$2000 by or to the vessel or its equipment;
- Injury (requiring medical help beyond First Aid) or loss of life; and/or
- Disappearance of any person from a vessel.

When a person dies or disappears as a result of an occurrence that involves a vessel or its equipment, the operator is required by law to notify the DWR in Henrico, Virginia, or the most immediately available Department Conservation Police Officer without delay and by the quickest means possible.

Time Frame for Reporting

Written reports must be filed within the following time frames from the boating accident:

- 48 hours, if a person dies within 24 hours of the accident;
- 48 hours if a person involved is injured and cannot perform usual activities;
- 48 hours if a person disappears from a vessel;
- 10 days if an earlier report is not required but becomes necessary; and/or
- 10 days if the boat or property damage is in excess of \$2000 or total boat loss.

How to File a Written Accident Report

Boating Accident Report forms (pages 75–76) can also be obtained from local law enforcement authorities, Department Conservation Police Officers, DWR website, and all Department offices. You may submit the completed forms in person or send them to the Virginia Department of Wildlife Resources, Boating Accident, 7870 Villa Park Dr., Suite 400, P.O. Box 90778, Henrico, VA 23228. The boat operator or owner usually completes the form unless she/he is physically unable to do so.

Duty to Stop and Render Assistance

It is the duty of every operator involved in a collision to stop and offer assistance. Operators involved in a collision, who knowingly fail to comply with this law when the collision or accident results in serious bodily injury to, or the death of, any person, shall be guilty of a Class 6 Felony. When a collision or accident results in

only property damage, the operator who does not comply with this law shall be guilty of a Class 1 Misdemeanor.

Naval Protection Zones

All vessels must operate at minimum speed necessary to maintain a steerage and headway (no wake speed) within 500 yards of the U.S. naval vessel and proceed as directed by the Commanding Officer or the official patrol. Violations of the Naval Vessel Protection Zone are a felony offense, punishable by up to 6 years in prison and/or up to \$250,000 in fines.

No vessel or person is allowed within 100 yards of a U.S. naval vessel greater than 100 feet in length. Due to Little Creek Channel's width of 150 yards, all vessels must exit Little Creek Channel when a U.S. naval vessel is approaching.

If you have questions about the Naval Vessel Protection Zone, contact Coast Guard Sector Hampton Roads Waterways Management Division at 757-668-5580.

America's Waterway Watch

America's coasts, rivers, bridges, tunnels, ports, ships, military bases, and waterside industries may be the terrorists' next targets.

If you see outwardly suspicious activity, or even behavior that makes you uneasy, please report it. Here are things to look for:

- Unattended vessels or vehicles in unusual locations.
- Unusual night operations.
- Recovering or tossing items into/onto the waterway or shoreline.
- Operating in or passing through an area that does not typically have such activity.
- Missing fencing or lighting near sensitive locations.
- Transfer of people or items between vessels, or between vessels and the shore outside of a port.
- Anyone operating in an aggressive manner.
- Small planes flying over critical locations.
- Persons attempting to buy or rent fishing or recreational vessels with cash for short-term, undefined use.
- Other suspicious activity.

Call the National Response Center at 877-24WATCH (249-2824) or 911 to report suspicious activity.

Boat Theft Prevention

When Buying a Boat

- Be careful because it could be stolen.
- Be certain that the boat's description on the title matches the boat you are buying. Check

year, make, length, and hull identification number.

- Be sure the model and serial number on an outboard motor have not been removed, tampered with or altered.
- Be suspicious of a fresh paint job on a late model vessel.
- When buying a used vessel, try to deal with a reputable marine dealer or a broker licensed by the state.
- If the price seems too good to be true, there is a good chance that the boat is stolen.

Equipment Identification

- Mark all equipment when purchased.
- If your boat was built before 1972, it may not have a hull identification number.
- It is a good idea to inscribe that registration number onto some unexposed location on the interior of your boat.
- Document boat contents.
- Store gear/electronics when not in use.

Trailerable Boats

Stealing a boat is much easier if a thief can hitch up to your boat on a trailer and drive away. These tips may help.

- If possible, store the boat and trailer in a locked garage.
- Store boats in the back or side yard out of sight.
- Store the boat with the trailer tongue not easily accessible.
- Park another vehicle or other large object in front of the trailer.
- Remove one trailer wheel.
- Purchase a good quality trailer hitch lock and use it — even if stored inside.

Vessel Security

There are several things that can be done to reduce the risk of vessel theft.

- Lock marine hatch.
- Lock the forward hatch.
- Lock windows.

Report It

If your boat, trailer, or gear is missing, report it immediately to the following groups. Use your written and photographic marine record to give specific and complete information.

- Local law enforcement agencies.
- Your insurance company.
- Department of Wildlife Resources.
- The dock or harbormaster.
- Neighboring boaters.
- Local newspapers.

Carbon Monoxide

Carbon monoxide is an odorless, colorless, tasteless gas that can be toxic in small quantities. It is produced by engines, generators, grills, and other equipment commonly used by boaters. Every year people who recreate on and around boats are overcome by the effects of carbon monoxide.

Recreational boaters need to be aware of carbon monoxide poisoning prevention practices such as regular professional boat inspections; the installation and maintenance of carbon dioxide detectors in living spaces; the hazards of “platform dragging; exhaust leaks from CO sources, specific boat design features of concern (especially houseboats); and the danger of swimming near the stern of the watercraft while generators, engines or other carbon monoxide producing equipment is in operation.

Capsizings and Falls Overboard

Capsizings and falls overboard are the leading cause of fatal boating incidents. To help lessen the chance of capsizing or falling overboard, follow these basic safety tips:

- Always wear your life jacket.
- Stay low in the boat and maintain 3 points of contact. Keep 2 feet and 1 hand, or 2 hands and 1 foot in contact with the boat at all times. If seated, you have one point of contact on the seat, and still need to maintain 2 others — such as 1 foot, 1 hand, 2 feet, etc.
- When loading supplies into a boat, have one person get into the boat and then hand that person the supplies.
- If retrieving an item from the water, maneuver the boat close to the object and use a boathook or paddle. If you do need to reach outside the hull of the boat, keep 3-points of contact.
- Keep an even, balanced load.
- Do not attach the anchor line to the stern of the boat.
- When pulling up the anchor, stay low in the boat and well balanced.
- If in rough waters, head the bow of the boat anywhere from directly into the seas up to a 45 degree angle depending on sea state and vessel construction.
- Follow the information stated on the “Capacity Plate.” Never exceed the allowable weight, horsepower rating, or maximum number of people.

Enjoying The Water

Towed Sports Safety

Towed watersports is a fun activity for the whole family. When enjoying the water behind the boat, remember these important safety tips:

- Prevent propeller strikes by making sure to turn off your boat when riders get into or out of the boat (this goes for swimmers too)
- Review hand signals with your riders, including slow down, speed up, and stop
- Have a dedicated spotter in addition to the boat driver, so the driver can pay attention to other boaters rather than their rider
- Maintain a safe distance from other boaters, docks, piers, and other water hazards
- Be sure to follow the safe speed appropriate to your towed watersports activity
- Be respectful to other boaters and property owners

- Use extra care when towing more than one person
- Avoid towing in congested areas and busy channels

Watch your wake

- Be aware of your wake, especially when changing speeds.
- Slow down enough to eliminate wake when needed.
- Use Trim Tabs if the boat is so equipped to minimize your wake.
- Boat in deeper waters, away from shore/other boats.
- Arrange passengers to avoid creating a heavy stern; a heavy stern creates a big wake.
- Slow down ahead of time to avoid a following wake.

Protect you and your passengers against other wakes

- Warn passengers ahead of time.
- Slow down but don't stop. You need headway to be able to maneuver through the wake.
- Keep older passengers aft (near the stern).
- Cross at a slight angle to prevent the bow from being thrown high into the air.
- While overtaking a boat, cross its wake quickly.
- Try not to take a wake on your beam. Turn the bow into the wake at an angle and then resume course.

Paddling Safety

From mountain streams to the Chesapeake Bay and everywhere in between, there are many opportunities for enjoying the water with your paddlecraft. Just remember these safety tips.

- Life jackets are required on all paddlecraft. Because paddlecraft can capsize easily and waters can become quickly hazardous, life jackets should always be worn.
- Watch the weather and pay attention to water levels.
- Paddle in areas that match your skill level.

- Let someone know where you are going and when you plan to return.
- Paddling in a group is better than paddling alone.
- If paddling in areas with other boats, make sure you are visible by wearing bright colors or using a kayak safety flag and stay out of the main channels. If you must cross the channel, take the most direct route possible and make the crossing as quickly as possible.
- Make sure you have a means to communicate.
- Dress for immersion, the water temperatures in late fall and early spring can cause hypothermia if your paddlecraft capsizes.

Identify your vessel – the USCG and DWR have free stickers for paddlecraft so that lost paddlecraft can be returned to their owner.

Environmental Laws

Pollution

It is illegal for anyone to pollute our waterways in Virginia. If you can't recycle it, take it ashore to a trash receptacle. Please help keep the waterways clean by picking up your trash. If you see any source or indication of water pollution, such as dead fish, call your local Department of Environmental Quality regional office, or call 804-698-4000 or 800-592-5482.

Sea Turtle and Marine Mammal Encounters

While boating in Virginia, you may encounter sea turtles, which are common in the summer months in the coastal ocean, Chesapeake Bay, and associated river mouths, and marine mammals (whales, dolphins, porpoises, manatees and seals), which are most common in the coastal ocean and Chesapeake Bay mouth, but can occur inside the Bay and associated river mouths as well. Sea turtles are protected by the Endangered Species Act (ESA), and marine mammals are protected by the Marine Mammal Protection Act (MMPA).

Guidelines for approaching dolphins and sea turtles suggest that vessels stay at least 50 feet

Meghan Marchetti / DWR

away and cut the engine or remain in neutral if the animals approach you. Large whales such as humpback and fin whales can also be seen in the Chesapeake Bay and ocean waters off Virginia. Vessels are asked to remain at least 300 feet from these endangered whales. Occasionally manatees are sighted in Virginia waters. Vessel operators should avoid approaching manatees as they are critically endangered and susceptible to vessel strikes. Be a responsible vessel operator and allow Virginia's sea turtles and marine mammals to exist undisturbed in our waters, their natural habitat.

The Marine Environment

Nuisance aquatic species, such as zebra mussels and hydrilla, can spread quickly, replace native species and damage water resources. Properly cleaning boats and equipment after each use can prevent the spread of invasive marine species.

Submersed aquatic vegetation (or SAV) are underwater plants often found in shallow (usually less than 6 feet) areas. They are important habitat for fish and shellfish, particularly the blue crab, and are a food source for several waterfowl species. Scientific studies have shown that SAV beds can be scarred by boat propellers or by larger craft if they run aground. When operating your boat in shallow areas, particularly at low tide, be careful to avoid damaging SAV.

BOAT RAMPS & ACCESS POINTS

DWR-managed public boat access facilities are to be used for parking vehicles/trailers while boating and fishing, and are provided for this purpose only. Camping, swimming, sunbathing, loitering, or any other use of the property, other than launching or retrieving boats and/or fishing is prohibited and considered trespassing. Public display of alcoholic beverages is prohibited. No fishing from boating access piers. PWC staging on, or adjacent to, the boat ramp is prohibited.

Littering, dumping and destruction of state property laws will be strictly enforced on these properties.

Maps and driving directions may not work for all locations. Map information produced through Google is intended for planning purposes only. You may find that construction projects, traffic conditions, or other events may differ from the map results. Remember to check a boat landing's status before visiting! www.virginiawildlife.gov/boating/access

LIFE JACKETS SAVE LIVES!

Safety Tips

- Check the weather before leaving.
- Wear a life jacket, vest, or float coat.
- Remain seated and keep weight evenly distributed.
- Anchor from the bow, never from the stern.
- Properly load your boat.
- Stay with your boat if it should capsize.
- Guard against hypothermia.
