DIRECTOR'S MESSAGE

Welcome to Nevada's 2025 Big Game Season! Hopefully you are flipping through these pages because you or someone you know pulled a tag in this year's draw. If that's the case, congratulations! We have some great news for you. After a wet winter, Nevada's landscapes are bouncing back, and 2025 is shaping up to be a good year for wildlife and wild times.

Three consecutive wet winters have improved food availability and habitat conditions for wildlife which means that many of our northern Nevada big game herds are thriving. Additionally, the lack of deep snow conditions in the 2024/2025 winter led to better than average overwinter survival, increasing big game numbers across most species. Mule deer populations continue to recover from the hard 2022/2023 winter, while elk, mountain goat, moose and pronghorn continue to expand.

This year, Nevada's next generation of hunters will have greater opportunities with youth mule deer tags for muzzleloader and archery, as well as new youth pronghorn horns shorter than the ears hunts. Nevada's pronghorn population has reached a record number of 36,500 nearly quadrupling since 1981, when there were only 9,800. This record-setting population is providing hunters with more opportunities to draw.

This marks the second year of our antlered moose hunt, and once again two new hunters will have the opportunity to hunt Nevada's newest and largest big game species. If you wish to read about last year's inaugural moose hunts, please check out each of their stories on pages 40 and 41. Interestingly, both hunters possess a variety of hunting experience, saw many different moose, and successfully filled their tags, ending Nevada's first moose season only six days after it started.

With many hunting adventures ahead of you, we hope you and your family stay safe, stay wildfire aware, and take care to respect private property boundaries while scouting, or in the field during your hunt.

The following are some tips to assist you:

1. Take the time to investigate and understand the landownership and access points in the units you are going to hunt. Online mapping apps can be installed on your phone to ensure that you are not trespassing. In addition to the use of mapping apps and old school land status maps, review page 49 to help you understand Nevada's trespass laws.
2. Prepare your hunting vehicle and camping gear for increased fire risk. Three wet years have increased the growth and buildup of highly flammable plants across our landscapes. Please be mindful of the dry vegetation and increased fire risk as you sight in your rifle, travel, park your vehicle, and camp. More information can be found at the Nevada Fire Info website (<https://www.nevadafireinfo.org/restrictions>). This website outlines this season's fire restrictions and offers fire prevention and equipment preparation tips.

Wishing you all the best of luck and best of times.

Alan Jenne

Director, Nevada Department of Wildlife

About This Guide

This high-quality reference guide is brought to you by the Nevada Department of Wildlife through a partnership with Kalkomey, a trusted leader in outdoor safety education since 1995. In addition to producing this guide, Kalkomey also offers a suite of educational courses to help people enjoy the outdoors safely.

The revenue generated through ad sales in this publication significantly lowers production costs and generates savings. These savings translate into additional funds for other important agency programs and we thank the advertisers for their support.

HOW TO USE THIS BOOK

1. The first part of the book is to help clarify where our offices are located.
2. The center has our big game identification pages, big game hunts listed, season dates, and 2025 quotas.
3. The back of the book has general hunting laws and regulations, open areas to hunt, and sunrise/sunset tables.

NOTE: Changes to regulations are marked in **blue, bold italics**.

This regulation brochure contains only a synopsis of the hunting laws for the State of Nevada. Complete text of the laws and regulations may be obtained by contacting the Nevada Department of Wildlife or by checking our website at ndow.org or checking <https://www.leg.state.nv.us/law1.html>.

NEVADA HUNTING LICENSES AND TAG FEES

Purchase your license at ndowlicensing.com. Prices listed do not include a \$1 processing fee that will be added at time of purchase.

RESIDENT (NRS 502.240/502.250)

HUNTING LICENSES

LICENSE	FEES
COMBINATION & HUNTING	
Adult Combination – 18 years of age and older	\$75
Youth Combination – 12–17 years of age	\$15
Adult Hunting – 18 years of age and older	\$38
Apprentice Hunting License – 12 years of age and older (Available only at NDOW offices)	\$15

SPECIALTY COMBINATION (VERIFICATION REQUIRED)

Senior Specialty Combination – At least 65 years of age and six months residence in Nevada	\$15
Serviceman Specialty Combination	\$15
Severely Disabled Specialty Combination	\$15
Disabled Veteran Specialty Combination	\$15
Native American Specialty Combination	\$10

NONRESIDENT

HUNTING LICENSES

LICENSE	FEES
COMBINATION & HUNTING	
Adult Combination – 18 years of age and older	\$155
Youth Combination – 12–17 years of age	\$15
Apprentice Hunting License – 12 years of age and older (Available only at NDOW offices)	\$15
1-Day Combination Permit to Fish & Hunt Upland Game and Waterfowl – 18 years of age and older	\$23
» Consecutive Day	\$8

FIRST-COME, FIRST-SERVED

The First-Come, First-Served (FCFS) queue will be accessible at ndowlicensing.com in July. This queue offers NDOW customers the ability to purchase any tags remaining after the second draw or any returned tags without an eligible alternate. Waiting periods and bonus-point costs apply for FCFS tags.

TAG FEES

In Nevada big game seasons are established for antelope, black bear, deer, elk, bighorn sheep, moose, mountain goat, and mountain lion. Tags for all game species, except mountain lion, are awarded through a random, computerized tag draw process held in late May. Mountain lion tags are available over the counter at Nevada license agents, online at ndowlicensing.com, and at Department offices statewide. Mountain lion season is open year-round.

TAGS/OTHER FEES	FEES
APPLICATION FEES (NONREFUNDABLE)	
Silver State Tags	\$20
Partnership In Wildlife Tags	\$10
All Other Big Game Tags (except mountain lion)	\$10
Elk Management Fee (per elk hunt application)	\$5
Game Tag Application (per application)	\$3
Bonus Point Only Application (exempt from elk management and game tag application fee)	\$10
Processing Fee (per application)	\$1

RESIDENT TAGS

Deer Tags	\$30
Antelope Tags	\$60
Black Bear Tags	\$100
Bighorn Sheep Tags	\$120
Elk Tags	\$120
Rocky Mountain Goat Tags	\$120
Mountain Lion Tags	\$29
Moose Tags	\$120

NONRESIDENT TAGS

Deer Tags	\$240
Antelope Tags	\$300
Black Bear Tags	\$300
Bighorn Sheep Tags	\$1,200
Antlered Elk Tags	\$1,200
Antlerless Elk Tags	\$500
Mountain Lion Tags	\$104

DUPLICATE

Duplicate Tag	\$10
----------------------	------

NEVADA'S YOUTH LICENSE FUND

This fund allows members of the public and non-profit organizations to donate money to cover the cost of youth combination (fishing/hunting) licenses to make sure the cost of a license is not a barrier to kids wanting enjoy the outdoors in Nevada. For more information about this new program please visit ndow.org and search for Nevada Youth License Fund.

To support the fund you can mail a check to:

Attn: Nevada Youth License Fund
NDOW Headquarters
6980 Sierra Center Parkway, #120
Reno, NV 89521

LICENSE REQUIREMENTS

Any person 12 years of age or older who hunts game birds or mammals in Nevada is required to have a hunting license.
(Refer to NRS 502.010)

If a youth younger than 18 is applying for a license to hunt, the youth's parent or legal guardian must sign the application acknowledging that they have been advised of the provisions in NRS 41.472.
(Refer to NRS 502.060)

OPTIONS FOR RETURNING A TAG AND REFUNDS OF HUNTING FEES

Any person who successfully draws a tag in the main draw has seven days to electronically return their tag to the Department. If the return is due to medical, death or military transfer,

please wait to receive your tag in the mail and use the tag return form.

Tags can be returned to the Department up to the day before the start of the hunt for bonus point restoration.

Tag return form can be found on our website at NDOWlicensing.com. If you have questions or need assistance, please call 855-542-6369.

Tags returned to the Department will be issued to an available alternate, made available in the second draw, and finally available for purchase in the First-Come, First-Served program.
(Refer to NAC 502.4215)

Depending on the circumstances surrounding a hunter's inability to hunt on a tag, that person can choose to defer that tag to the next year's season or receive a restoration of bonus points. For more information on qualifying for a deferral, call 855-542-6369.
(Refer to NAC 502.337)

Tag holders who are diagnosed as terminally ill can choose to transfer their tag to certain family members.
(Refer to NAC 502.337)

An applicant who is unsuccessful in the big game draw may return the purchased hunting license for a refund if the license was purchased solely to apply for a tag. Bonus points will not be awarded if a license is returned.
(Refer to NAC 502.4225)

Tags can be transferred to individuals meeting specific criteria through a non-profit organization. Visit NDOW.org for more info.
(Refer to NRS 502.104)

SOCIAL SECURITY NUMBER

Laws regarding child support mandate that any person who is required by federal law to have a social security number must provide the number to obtain a business, occupational, or recreational license. Federal Law – 42 U.S. Code § 666; Nevada Statute.

(Refer to NRS 502.063, 503.5833, 504.390)

POSSESSION AND DISPLAY OF LICENSE

Every person required to have a license while hunting, trapping, or fishing shall have that license in their possession and available for inspection upon demand of any officer authorized to enforce the fish and game laws of the state of Nevada.

(Refer to NRS 502.120)

PARTY HUNTS AND BONUS POINTS

Party hunt members are able to return their party tag to the Department but will not receive their bonus points back unless all members of the party also return their tags to the department.
(Refer to NAC 502.422)

CHRONIC WASTING DISEASE (CWD) IS KNOCKING ON NEVADA'S DOOR

WHAT IS CWD?

Chronic Wasting Disease (CWD) is a neurologic disease called a "transmissible spongiform encephalopathy (TSE)" that is found in the deer family. In Nevada, this includes mule deer, elk, and moose. Other TSEs include scrapie (found in domestic sheep), "Mad Cow" disease, and Creutzfeldt-Jakob disease (in humans). It is caused by a misfolded protein, called a prion, that causes misfolding of brain proteins. This leads to neurologic symptoms and the ultimate death of the animal. Clinical signs of CWD include stumbling, poor body condition, excessive drinking and salivation and difficulty running. There are no treatments or vaccines available to treat or prevent the disease.

DOES NEVADA HAVE CWD?

CWD is found in 36 states, 5 Canadian Provinces, Norway, and South Korea. As of this writing, CWD has not been found in Nevada. However, in Spring of 2024, CWD was confirmed in a road killed deer near Bishop, California. This was the first time that CWD had been confirmed this close

to Nevada. In fall of 2024 two additional positives were found within in the city limits of Bishop. Mandatory testing in both western Nevada and nearby Hunt Units in California have not detected additional positives. However, these units are relatively low density, with low tag allocation, thus an absence of detection does not mean an absence of disease. Nevada collected enough samples within areas 19 and 20 to detect CWD at a prevalence below 5%. However, Area 21, the closest to the positives in Bishop did not have enough sampling to detect CWD at a reasonable prevalence. With deer movement occurring between the two states, there is a high possibility that CWD has already found its way into Nevada.

The detection in California is hundreds of miles away from the nearest known CWD infected herd. Therefore, it was most likely moved by people, either through movement and dumping of carcass parts or through movement of live cervids. CWD has now been detected in 3 of the 5 states that border Nevada (please see USGS map on page 7). This demonstrates the importance of following transport regulations and not bringing in infected parts.

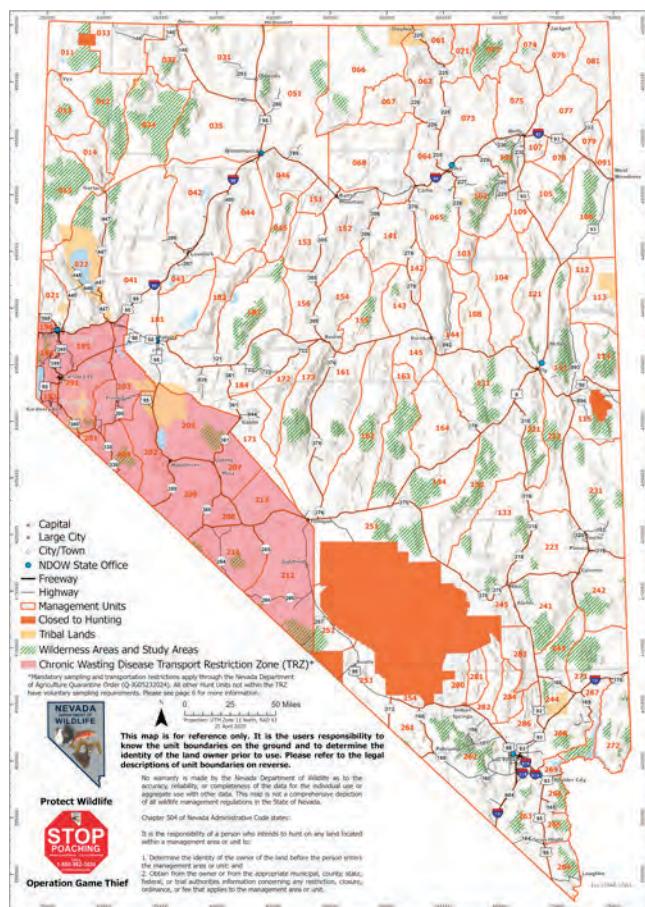

HOW CAN CWD BE MANAGED?

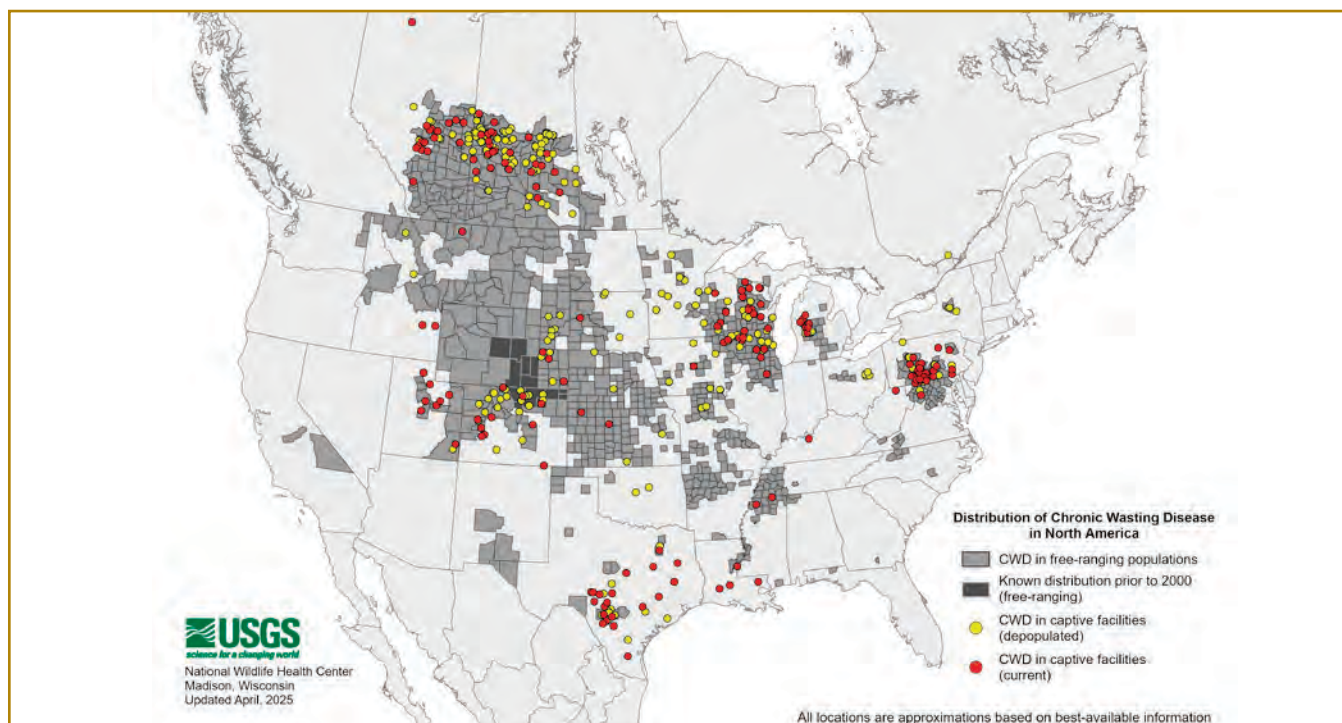

CWD has been linked to mule deer population declines in several western states. In addition, since CWD is a fatal disease and has a high prevalence in older bucks, it may reduce the number of mature bucks and lead to a younger age class structure. The Association of Fish and Wildlife Agencies has set a prevalence goal of 5% or less for infected units. Research has demonstrated that lower prevalence in mule deer is highly correlated with higher buck harvest and number of hunters afield. While Nevada may seem to have a low density of deer that may limit transmission, in some areas we have high concentrations of deer on winter range. Contact between males on winter range is a significant driver of CWD prevalence. There is currently no evidence to indicate that CWD can be transmitted to livestock or humans. However, the CDC recommends that hunters from endemic states test their harvest and not consume it if positive.

WHAT IS NDOW DOING TO RESPOND TO THE NEW DETECTION?

In response to the new detection of CWD in California a Transportation Restriction Zone (TRZ) was created by the Nevada Department of Agriculture through **Quarantine Order** (Q-JG04032025) to improve surveillance and prevent movement of CWD. The TRZ and following requirements are being implemented to help keep the disease from spreading into Nevada. If you harvest a mule deer in the TRZ (see map left) you MUST:

1. Submit a MANDATORY CWD sample.
 - » It is now mandatory that anyone who harvests a deer in the TRZ (consisting of Hunt Units 192-196, 201-208, 211-213, and 291) submits a CWD sample. Within the TRZ, the animal can be brought to the Reno (Valley Road) or Tonopah NDOW Offices, or a Check Station within the TRZ. If self-sampling the sample can be dropped off at any NDOW office.
 - » One lucky person who submits a CWD sample will win a cooler filled with prizes courtesy of Nevada Muley's.
 - » For an up-to-date schedule of check stations and sampling locations, please view this link: <https://www.ndow.org/blog/chronic-wasting-disease/>.

- » To take your own sample please sign up to receive a kit by scanning the QR code to the right.
- » The sample must be received by NDOW within 1 week of harvest.
- » For up-to-date information on how to get your deer sampled 7 days a week, please scan this QR code, visit the link above OR call the Nevada CWD Hotline at (800) 800-1667.

- Surrendered to the NDOW office in Reno on Valley Road or Tonopah or check station within the TRZ for disposal.
- Under NO CIRCUMSTANCES should prohibited parts be moved out of the TRZ or disposed of on the landscape (other than the location of kill).

If you are unsure how to abide by these restrictions if you are bringing your animal to a taxidermist, the QR codes below have helpful videos on preparing your harvest for transport:

2. Abide by the transport restriction requirements below.

If you harvest **any deer** within the TRZ or **ANY deer, elk, moose, or reindeer/caribou** outside of Nevada:

- **It is illegal** for you, your agent, or employee to knowingly transport or possess the carcass or any part of the carcass of these big game species (above) that were obtained in another state, territory, or country, or in the Nevada TRZ, **HOWEVER**:
- **It is legal** for you, your agent, or employee to bring into Nevada or move outside the TRZ the following parts of the carcass of any of the animals listed above:
 - » Wrapped meat or quarters, with no part of the spinal column, brain tissue, or head attached.
 - » The hide or cape with no part of the spinal column, brain tissue, or head attached.
 - » The clean skull plate with antlers attached and no brain tissue attached.
 - » The antlers with no meat or tissue other than antler velvet attached.
 - » The taxidermy mount with no meat or tissue other than antler velvet (if applicable) attached.
 - » The upper canine teeth including, without limitation, the bugler, whistler, and ivory teeth.
 - » A sample collected for CWD surveillance (separately bagged and including only the obex and lymph nodes) that can be dropped off at any NDOW office.

DISPOSAL REQUIREMENTS

Within the TRZ, the spinal column, brain tissue or head attached must be disposed of in the following manner:

- Left at the site of harvest (preferred method).
- Disposed of in approved and certified landfill within the TRZ (see list here: <https://www.ndow.org/blog/chronic-wasting-disease/>).

Self Sampling Instructions

Preparing a European Mount

IF I DON'T HAVE A TAG IN THE TRZ, WHAT CAN I DO TO HELP?

We need the public's help to keep Nevada CWD free. You can help by abiding to the transport regulations above, assisting in surveillance activities, and spreading the word! Everyone hunting out of state must abide by the transport restrictions listed above when bringing back a harvest to Nevada.

In addition, when hunting anywhere in Nevada we ask that you test your elk, deer, or moose for CWD. Rapid detection allows us to respond quickly. While we won't be able to eradicate it, if we catch it early, we can reduce the impacts it has and the spread.

One lucky person who submits a CWD sample will win a cooler filled with swag, courtesy of Nevada Muley's. You can do this in several ways:

- Sign up to receive a self-sampling kit (QR code above).
- You can stop by one of our many office locations (call ahead first to make sure a biologist is present).
- You can stop by one of our check stations (an updated schedule can be found here: <https://www.ndow.org/blog/chronic-wasting-disease/#>)
- If you are in Las Vegas, you can drop off samples at Mull's Meats (3730 Thom Blvd, Las Vegas, NV 89130) during normal business hours.

ANTELOPE HORNS SHORTER THAN EARS

- Adult female antelope have ears about 5 to 5 ½ inches long
- Female horns (if present) are usually less than 4 inches long
- Female antelope do not have a black patch on cheek
- Female antelope do not have black band from eyes to nose
- Juvenile males may be legally harvested (horns must not be longer than ears)
- Typically yearling bucks and fawn bucks have black cheek patch

ANTELOPE HORNS LONGER THAN EARS

- Adult male antelope have ears about 5 ½ to 6 inches long
- Mature males have horns from 12 to 19 inches long
- Presence of black patch of hair on cheek
- Adult males typically have a black band on face from eyes down to the nose

ELK

- Smaller than moose
- Size: 4-5 ft at the shoulder, females weigh 400-500 lbs, males weigh 700-800 lbs
- Body is light brown in color with long, dark brown hair on neck and a distinct light tan rump patch
- Males have branched antlers with each antler point originating from a main beam

MOOSE

- Larger than elk with a noticeable hump on the shoulders
- Size: 5-7 ft at the shoulder, females weigh 600-800 lbs, males weigh 850-1,100 lbs
- Body is uniformly brown to black in color. Lower legs can be light tan or white
- Long nose, overhanging upper lip, and a prominent dewlap (flap of skin) hanging from the neck
- Males have palmate antlers with each tine originating from a broad, flat surface

BIGHORN RAM

- Mature rams weigh 175-300 lbs, with Rocky Mountain bighorn the heaviest and desert bighorn the lightest
- Mature rams have ¾ to full (circle) curl horns that are 28-40 inches long with base circumference of 13-16 inches
- Horns are a heavy hard sheath that grow on top of a bony core that angle back from the skull about 15 inches
- Entire body pelage color is light tan for deserts to dark brown for Rocky Mountain except for white muzzle and rump patch
- Have prominent visible testicles

EWES

- Narrow, sickle shaped horns with base same width as eye
- Ears are 4-4½ inches in length
- Relatively wide space between base of horns
- Squat to urinate
- No testicles

Lamb

Yearling

RAM LAMBS AND YEARLING RAM (ILLEGAL TO HARVEST)

- Wide, triangular-shaped horn bases twice the width of eye
- Desert ram lambs in the fall-horn base wider than eye and 5- to 6-inch horn with little curve if any and gray horns vs. tan curved ewe horns
- Wider, pronounced forehead
- Narrow spacing between horn bases
- Stretch rear legs during urination
- Testicles visible, especially from rear
- Belly spot or penis seen from side view

WOLF (ILLEGAL TO HARVEST)

- Nose is broad and blocky
- Ears are more rounded and relatively short
- Weighs 50-90 pounds
- Legs are longer
- Fur color is similar to coyotes; gray, black, rust, or buff
- Moves more fluidly
- Resembles a German shepherd with longer legs and larger feet

COYOTE

- Nose is slender and pointed
- Ears are prominent, pointed and relatively long
- Weighs 20-35 pounds
- Legs and feet are smaller
- Fur color is similar to wolves: grizzled gray, rust, or buff; rarely white or black
- Moves in a manner that appears to be hopping or bouncing

MOUNTAIN GOAT

- Fur is long, coarse, dense hair with off-white color over entire body with a beard
- Adults stand about 3½ feet tall with stocky front torso and pronounced hump between front shoulders
- Legs are relatively short but with proportionally large hooves for sure-footedness along vertical cliffs
- Both sexes have narrow sharply pointed black horns that flare back and to the side above the ears less than 12 inches long
- Billies (males) urinate by stretching while standing and Nannies (females) urinate by squatting their rear legs

Your Chance to Win the Hunt of a Lifetime

SCALING NEW HEIGHTS:

NEW EFFORTS HELP BOOST EAST HUMBOLDT MOUNTAIN GOAT HERD

It all began during Nevada's centennial anniversary in 1964 when six mountain goats, captured in the North Cascade Mountains of Washington State, were transported and released into the Ruby Mountains.

A follow up effort occurred in 1967, when another six mountain goats were captured from the same area and added to the small herd. Fourteen years later in 1981, 11 mountain goats were captured from Olympic National Park and released into the East Humboldt range. These three translocation efforts made for the humble beginnings of Nevada's Ruby Mountain and East Humboldt Mountain goat populations.

Combined, both herds reached their highest population level in 2009 at around 400 adults. However, a disease event occurred during the winter of 2009–2010 and both herds experienced mortality in all age classes. The Ruby Mountain herd recovered more quickly than the East Humboldt herd, which battled high mortality rates for baby goats (kids) for more than a decade. This caused the East Humboldt herd to decline down to as low as 50 adults by 2019. In 2021, however, ground surveys found the exciting news that more kids were born and recruitment, or kids who were able to survive to adulthood had increased.

Additionally, from 2019–2024, 21 mountain goats were captured, collared, and tested for disease. All test results came back negative for the deadly pathogen.

Since 2021, Area 10 game biologists have organized several summer kid surveys with teams of biologists and volunteers covering many miles on foot to identify nanny (adult female goat) nursery groups. The summer samples were then compared to the winter aerial surveys to confirm recruitment. The two surveys in the summer of 2024 were highly successful in documenting high production and recruitment in the East Humboldt Range.

During this most recent period, NDOW estimated that over half the nannies were 9 years or older. With most goats living to 10–12 years, NDOW feared that it would lose half the nannies to old age and the herd recovery would once again be at risk. Therefore, biologists reached out to a few western states asking for source stock. Fortunately for Nevada, the Utah Division of Wildlife Resources (UDWR) answered the call.

NDOW and UDWR collaborated to evaluate the genetic diversity of both the source and transplant mountain goat herds in the Tushar Mountains of Utah, the East Humboldt Range, the Ruby Mountains, other herds across the western U.S., and the original herd in Washington. The results confirmed that the Utah source herd would contribute valuable genetic diversity to Nevada's mountain goat populations. Based on these findings, NDOW identified potential release sites on private land in the East Humboldt Range and made contingency plans to address possible weather and trailer access issues.

Once the capture day arrived in November of 2024, a team consisting of over fifty people that included both UDWR and NDOW staff, volun-

teers from both states and the dedicated pilot and staff from Heliwild Capture Company, joined at Eagle Point Ski Resort near Beaver, Utah. Each mountain goat was brought to the base camp and carefully weighed, and evaluated for a multitude of samples including nasal swabs for disease tests, vital rates and temperatures, body condition scores, blood collection, unique ear tags, and a light sedative to reduce stress during transport to Nevada. Each adult goat was fitted with a GPS collar to track its movements and survival in their new home. The plan was to bring 15 mountain goats back to the East Humboldts in one trip. Unfortunately, weather conditions became unsafe for the capture crew, so only 12 mountain goats made their way to Nevada on the first transport. However, a smaller crew returned to Utah three days later, to return with four more animals. The second trip was critical because it provided a 33% increase in the number of mountain goats headed to Nevada.

NDOW staff, retirees, volunteers and families all gathered to help with the release of the first 12. The first release site was on the newly acquired public access corridor for Pole Canyon and the upper Franklin River drainage. A special thanks goes to Ecotrust Forest Management (EFM) for access to their property for the release. The four late comers were released on private land near Angel Lake three days later.

Overall, 16 Rocky Mountain Goats were released into the East Humboldts of Elko County. Of the 16 goats, there were 10 mature nannies, three yearlings (goats aged 1-2 years old), and three kids (one female, two males). Daily monitoring of the GPS collars in the first two weeks showed various movement with some grouping and heading toward Humboldt Peak. As of early April, four of the nannies have moved south into Unit 102 to the Soldier Peak area. The four mountain goats released near Angel Lake, traveled long distances and met up with a group of resident GPS collared goats, which was exactly what NDOW had hoped they would do.

This augmentation was only possible with the help from our partner organizations and landowners: Utah Division of Wildlife Resources, Rocky Mountain Goat Alliance, Heliwild Capture Services, Elko Bighorns Unlimited, NBU Fallon, and NBU-Reno, Ecotrust Forest Management, Memory Ranches, and Duval Ranching Company.

NEVADA BIG GAME SEASONS AND QUOTAS

LIMITS AND HOURS

The limit is one animal per tag and the hunting hours are one-half hour before sunrise to one-half hour after sunset for all big game hunts, unless otherwise specified. New hunts, dates or units added to a hunt in 2025 are marked in **bold italics**.

PLEASE NOTE: Additional access may be available through private lands. Please visit the "Incentive and Compensation Maps" page on the NDOW website (ndow.org) for more information.

HELICOPTER OVERFLIGHTS AND YOUR HUNT

Helicopter surveys may be conducted during hunting seasons. The monitoring flights are timed to occur during the most effective months of the year to check on important parameters including ratio of bucks to does, fawn recruitment, and calf production. While we try to avoid surveys during open hunting seasons, sometimes it cannot be avoided. We apologize for any disturbance this may cause and will make every effort to limit this activity during your hunt.

HUNT SURVEY QUESTIONNAIRE

Hunt Survey Questionnaires must be submitted for all big game tags regardless of successful harvest. Questionnaires must be submitted on or before 5 p.m. PST on January 31 following the close of the hunt season for which the tag was issued. Hunts that close after January 31 must be submitted on or before 5 p.m. PST on February 28.

Hunt survey questionnaires may be submitted through a customer's account at ndowlicensing.com by clicking the Surveys link.

Successful tag holders who fail to report a harvest return card will be subject to a \$50 penalty and a suspension from the next season's application period until the penalty is paid and the questionnaire completed. The penalty must be paid by the close of the following year's big game application period. Failure to pay will result in a one years suspension from all big game tags. (Refer to NAC 502.405)

^A That portion of Unit 173 north and west of the Seyler Reservoir/Peavine Creek/Gabbs Valley Pole Line Roads.^B That portion of Unit 173 south and east of the Seyler Reservoir/Peavine Creek/Gabbs Valley Pole Line Roads.^C 181 East - That portion of Unit 181 east of State Route 839^D 181 West - That portion of Unit 181 west of State Route 839^{*} There are portions of Unit 181 in Naval Air Station (NAS) Fallon where public access is restricted. To hunt in the NAS portions of Unit 181, the tagholder is required to attend a NAS hunter safety briefing.^{**} Mature ram numbers and distribution are unknown in this unit.^{***} Portions of Hunt Units 280, 281, and 282 are within the Nevada Test and Training Range (NTTR) where public access is restricted. Hunters and everyone in their respective hunting parties, must comply with all Nevada hunting requirements and all NTTR safety and security requirements including the following: 1) consent to and pass a criminal history background check, 2) be at least 14 years old on opening day of the respective hunting season, 3) attend the Nellis Air Force Base hunter safety briefing, and 4) within the NTTR Hunt Units 280, 281, and 282 limit party size to 5 including tagholder. Additional party members may complete background check and safety briefing, but only maximum of 5 party members including tagholder may be present within the NTTR Hunt Units 280, 281, and 282 at any given time.^{***} Hunters and members of their parties who fail to comply with these requirements may be denied access to the NTTR. Hunters and members of their parties may not access the NTTR after a tag is filled and animal has been removed and in possession of tagholder. No pets are allowed on NTTR. It is the hunter's responsibility to meet and/or comply with all NTTR eligibility requirements. In some units there may be adjustments to season dates to accommodate Department of Defense operations. The Nevada Board of Wildlife Commissioners hereby delegates authority to the Nevada Department of Wildlife to adjust season dates to accommodate Department of Defense operations so long as there is no change to the overall length of the season.

* Successful applicants for a bighorn sheep ewe tag must complete a sex identification course before receiving their tag. Bighorn sheep ewe hunters are not required to have their harvest physically inspected at a Department office but must submit a hunt survey.

NEVADA TEST AND
TRAINING RANGE
BIGHORN HUNTS

The Nevada Test and Training Range (NTTR) is managed by the United States Air Force (USAF) under the Department of Defense (DOD) and the United States Fish and Wildlife Service (USFWS) - Desert National Wildlife Refuge (DNWR). This area offers a unique experience for desert bighorn sheep hunters who are lucky enough to draw a tag in one of the Hunt Units within the NTTR (i.e., Hunt Units 280, 281 and 282). Since the inception of the NTTR in 1940, these lands have remained relatively undisturbed allowing bighorn sheep to persist through time along with the native Mojave Desert ecosystem that supports sensitive plants and other wildlife species.

The privilege of drawing a tag and being able to hunt on the NTTR/DNWR comes with heightened responsibilities that should not be taken lightly. Hunters and their party members are required to pass a criminal background check, submit a full inventory of their equipment/vehicles and take part in a mandatory safety briefing prior to accessing the NTTR/DNWR. **The actions of hunters and their hunting party today have ramifications for the future and participants in this hunt. Hunters are urged to be responsible and to follow on rules and restrictions on the NTTR/DNWR so that others can enjoy this experience as well. Please take this process and the privilege to hunt on these lands seriously.**

COLLEGE STUDENTS

College students from other states that are living and studying in Nevada may obtain a resident license and apply for resident tags. Call your regional NDOW office for more information.

NEVADA
MOOSE HUNTS
(CGR 514/LCB R122-23)

RESIDENT
MOOSE HUNTS
ANTLERED

ANY LEGAL WEAPON		
UNIT GROUP	SEASON DATES	2025 QUOTA
061, 062, 064, 066 - 068, 071 - 077, 081, 101 - 103*	Sept 1 - Nov 30	2

* A person who harvests a moose shall, within 5 days after harvesting it, personally present the skull and any antlers of the moose, if applicable, to a representative of the Department for inspection (CGR 514, LCB R122-23)

MINIMUM LEGAL REQUIREMENTS FOR
TAKING EDIBLE MEAT FROM THE FIELD

Hunters are encouraged to use as much of their harvest as possible. Although most meat from big game is edible, below are the minimum lawful requirements.

In the case of a big game mammal, the meat of the front quarters as far as the distal joint of the radius-ulna (knee), hind quarters as far as the distal joint of the tibia-fibula (hock), and the meat along the backbone between the front and hind quarters. (Refer to NAC 503.0047)

- 1. Front Quarter (Shoulder)
- 2. Hind Quarter (Thigh)
- 3. Backbone (Backstrap / Tenderloin)

HOW DOES THE DRAW SYSTEM WORK?

All applications, regardless of species or gender, are assigned a random number. Applications with bonus points are assigned additional random numbers by squaring the bonus point total and adding one for the current year (however only the lowest number within the bonus point application is used). Applications are drawn in sequential order starting with the lowest random number then evaluated within the following group order:

- 1. Silver State
- 2. Partners in Wildlife
- 3. Junior Mule Deer Antlered or Junior Mule Deer Antlered/Antlerless (if available)
- 4. Rocky Mountain Bighorn Sheep Ram, California Bighorn Sheep Ram, Nelson (Desert) Bighorn Sheep Ram, Elk Antlered, Antelope Horns Longer than Ears, Mule Deer Antlered, Mountain Goat, Bear, Moose Antlered
- 5. Elk Depredation Antlered, Management Bighorn Sheep Ram
- 6. California Bighorn Sheep Ewe, Nelson (Desert) Bighorn Sheep Ewe, Elk Antlerless, Antelope Horns Shorter than Ears, Mule Deer Antlerless, Junior Antelope Horns Shorter than Ears
- 7. Spike Elk
- 8. Elk Depredation Antlerless

This allows applicants to put in for all species and gender classifications they wish to hunt, without worry of drawing a less preferred tag over a more preferred, due to changes in eligibility requirements (i.e. because you are now only allowed to draw a single tag for each species or subspecies category). For instance, in this draw order, if you draw an Antlered Elk tag early in the draw process, your application for Antlerless Elk will not be considered. However, you can apply for both Antlered and Antlerless Elk in the same draw and not worry about your Antlerless tag being drawn first before Antlered Elk.

NEVADA BLACK BEAR HUNTS

(NAC 502.373)

ATTENTION

Successful bear hunters that have their harvest physically inspected at a Department office will not be required to return a big game harvest questionnaire. Unsuccessful bear hunters will still need to complete the big game harvest questionnaire.

RESIDENT AND NONRESIDENT

BLACK BEAR HUNTS

EITHER SEX

UNIT GROUP	SEASON DATES	RESIDENT BLACK BEAR 2025 QUOTA	NONRESIDENT BLACK BEAR 2025 QUOTA	TOTAL HARVEST LIMIT 2025	TOTAL FEMALE HARVEST LIMIT 2025
192*, 194*, 195, 196 except those portions of 192 and 194 described in Special Regulations.	Sept 15 - Dec 1 (or until harvest limits are met)	38	4	15	5
201, 202, 204, and 206				12	4
203 and 291				15	5

Special Regulations:

- The limit is one animal per tag.
- Hunting hours are one-half hour before sunrise to one-half hour after sunset.
- Tag holders, or their licensed guide if applicable, must call the Black Bear Harvest Information Hotline prior to hunting to determine if the hunt has been closed due to the harvest objective being reached. The number is 1-800-800-1667 and is accessible 24 hours a day.
- Attendance at one of the annual black bear indoctrination courses is mandatory for tag holders AND their representative guides and sub-guides. A person represented by a guide or sub-guide at the indoctrination must take the indoctrination course; their guide and sub-guides must also take the indoctrination course. Tags will only be issued upon completion of one indoctrination course. Black bear indoctrination courses are scheduled for Thursday, July 17, 2025, from 6 pm to 9 pm and Saturday, July 26, 2025, from 1 pm to 4 pm. Both courses will be held at the Nevada Department of Wildlife's conference room, 1100 Valley Road, Reno, Nevada, and streamed on Zoom. Courses will be recorded on Zoom and available for First Come First Serve tagholders. The Department will provide all tag holders with directions for registration prior to July 14, 2025.
- The Department phone number to call and report a harvested black bear is 775-688-BEAR. Please leave a message.
- It is unlawful to harvest a sow with a cub.

Note: The sale of a bear gallbladders is unlawful (Refer to NAC 503.174).

* Those areas within Units 192 and 194 that are within the U.S. Forest Service Lake Tahoe Basin Management Unit (LTBMU) and those areas bounded on the west by the LTBMU boundary from the southern boundary of Township 16 North, Range 18 East, Section 13 to the Mount Rose Wilderness Area boundary (approximately located at the Relay Ridge Radio Tower), by the Mount Rose Wilderness Area boundary from the LTBMU boundary to the western boundary of Range 19 East, and by the western boundary of Range 19 East from the Mount Rose Wilderness Area boundary to USFS Road No. 41049 (Logan Meadow Lane/Thomas Creek), bounded on the north by USFS Road No. 41049 from the western boundary of Range 19 East to Timberline Drive, by Timberline Drive from its junction with USFS Road No. 41049 to State Highway 431 (Mount Rose Highway), and by State Highway 431 from its junction with Timberline Drive to its junction with U.S. Highway 395, bounded on the east by U.S. Highway 395 from its junction with State Highway 431 to the southern boundary of Township 16 North, Range 19 East, Section 14 (approximately located at the northbound Bellevue Interchange off-ramp), and bounded on the south by the southern edge of Township 16 North, Range 19 East, Sections 14 - 18, following the southern boundary of the University of Nevada, Reno Little Valley Study Area, and Township 16 North, Range 18 East, Section 13 to the LTBMU boundary.

HARVEST

Mountain lion harvest limits are established annually. When the harvest limit has been met, the season is closed. Prior to hunting, tag-holders must call the Mountain Lion Harvest Information Hotline at any time to determine if the season has been closed due to the harvest objective being reached. The hotline number is 1-800-800-1667, and is accessible 24 hours a day. Mountain lion tags are available for residents and nonresidents to purchase over the counter (two per year) at NDOW offices, license agents and online at ndowlicensing.com. Harvested mountain lions must be inspected and sealed by an NDOW representative.

LIMIT

1 animal per tag, 2 tag maximum per person. (Refer to NAC 502.370)

SEX

Either sex, **Spotted kittens and females with spotted kittens prohibited.** (Refer to NAC 502.370)

HOURS

Any time of the day or night — Please check with your local law enforcement office for county ordinances regarding night time shooting. **Hunters are responsible for checking local regulations.**

ATTENTION: MOUNTAIN LION HUNTERS

The Nevada Department of Wildlife is requesting that hunters allow for the removal and retention of one premolar tooth from each harvested mountain lion when presenting the skull and hide to NDOW for sealing. Please present the skull, unfrozen, or with the mouth fixed open. The premolar tooth will be used to accurately age harvested mountain lions. NDOW is also asking that a one-inch-square piece of tongue, or other muscle tissue from each lion to be turned in at the same time for future DNA testing. Teeth and skulls can be presented at any NDOW regional office. Please call first to confirm biologist availability.

SPECIAL REGULATIONS

A hunter, or their licensed guide if applicable, must call the mountain lion hotline at 1-800-800-1667 prior to hunting to determine if a unit group is open or closed.

HUNTING WITH A DOG

It is unlawful to hunt, chase or pursue:

1. Any black bear or mountain lion with a dog except during the open season, in an open management area and under the authority of a hunting license and: (a) A black bear tag, if the person is hunting, chasing or pursuing a black bear; or (b) A mountain lion tag, if the person is hunting, chasing or pursuing a mountain lion.
2. Any fur-bearing mammal with a dog except during the open season and under the authority of a trapping license.

(Refer to NAC 503.147)

HUNTING MOUNTAIN LION WITH A HANDGUN OR SHOTGUN

A person may hunt big game mammals with a handgun if the handgun uses a centerfire cartridge of caliber .22 or larger and has a barrel length of 4 inches or more (see note below).

A person may hunt deer and mountain lion with a shotgun no larger than 10 gauge and no smaller than 20 gauge. Only rifled slugs or shotgun rounds with sabots that contain a single expanding projectile may be used when hunting deer. A shotgun that is used to hunt deer or mountain lion pursuant to this subsection may be equipped with a smoothbore barrel or a barrel that is partially or fully rifled. (Refer to NAC 503.142)

Note: Legal Weapons — Only legal weapons authorized for big game (page 46). Rimfire .22 or

other rimfire cartridges are not legal weapons for hunting mountain lions.

GUIDING FOR MOUNTAIN LION

A master guide who is hired to guide a hunt for a mountain lion shall ensure that the client physically accompanies him or his subguide in the pursuit and killing of the mountain lion. (Refer to NAC 504.701)

USE OF FLASHLIGHT IN MOUNTAIN LION HUNT

A person who is hunting, chasing, or pursuing a mountain lion, pursuant to a mountain lion tag, and who is not in or on a motorized vehicle, may use a flashlight which is hand-held and powered by a dry cell.

(Refer to NAC 503.189)

ATTENTION SPIKE ELK HUNTERS!

Spike elk hunts continue to be a useful tool for managing bull ratios and providing additional hunter opportunity. The legal definition of a spike has been revised to mean any antlered elk having no more than 2 antler points on either antler (NAC 502.104 to 502.1045).

Previous definitions of spike elk were confusing and increased the likelihood of unintentional infractions. An antler point is defined as any antler projection, which is at least 1 inch in length, with the length exceeding the width of its base (NAC 502.006). Please ensure your intended target meets these criteria.

Harvestable (LEGAL) During Spike Elk Season

Legal (one antler point)

Legal (2 antler points - low)

Legal (2 antler points - high)

ILLEGAL to Harvest During Spike Elk Season

Illegal (3 antler points)

Illegal (4 or more antler points)

MOUNTAIN LION TAGS: ELIGIBILITY; EXPIRATION; DUTIES UPON HARVESTING; RESTRICTIONS; REPORT OF ACCIDENTAL TRAPPING OR KILLING.

A tag is required to hunt mountain lions, which can be purchased from the Department, license agent, or online at ndow.licensing.com. A resident or nonresident can obtain up to two (2) tags a year. The tag can be used in any open management unit or group of units during an open season and expires upon termination of the season.

Mountain lion season begins March 1 and ends either on the last day of the next February or when the number of harvested mountain lions reaches the quota limit, whichever happens first. All harvested mountain lions must be personally presented to a representative

of the Department within five days. Mountain lions must be presented with the skull unfrozen, the jaw propped open and the unfrozen pelt in its entirety. Hunters must provide the sex, the location where the mountain lion was killed, including the unit or units of the management area and the coordinates of the location as identified by latitude and longitude using decimal degrees or by using the coordinates of the Universal Transverse Mercator System. It is the hunter's responsibility, their licensed guide, or sub guide,

to check if a hunt unit group is open or closed by calling the mountain lion hotline at 1-800-800-1667. The Department requests that hunters allow for the removal of a premolar tooth, and a tissue sample.

If a mountain lion is accidentally trapped or killed, the person trapping or killing it shall report it within 48 hours to a representative of the Department. Please Note: You cannot kill a mountain lion accompanied by a kitten or kill a spotted kitten. (Refer to NAC 502.370)

DEFINITIONS (AS USED IN THESE REGULATIONS)

Antlerless deer — any deer without antlers (NAC 502.008).

Antlerless elk — any elk without antlers (NAC 502.009).

Antler Point — The Department interprets the exclusion of the first antler point on the main beam, as described in the definition of "antler point" in NRS 501.3855, to be limited to mule deer. (Refer to NRS 501.3855 and NAC 502.006)

Antelope with horns longer than its ears — any pronghorn antelope having at least one horn that is longer than either ear of the antelope (NAC 502.002).

Antelope with horns shorter than its ears — any pronghorn antelope without horns or with both horns that are shorter than its ears (NAC 502.003).

Antlered deer — Any deer having at least one antler that is visible above the hairline of the deer (NAC 502.007).

Antlered elk — any elk having at least one antler that is visible above the hairline of the elk (NAC 502.0074).

Spike elk — Spike Elk means any antlered Elk having not more than two antler points on either antler. (NAC 502.104).

Ewe — any female bighorn sheep having a horn or horns of at least 5 inches in length each as measured on the outside curve of the horn from the skull to the tip (NAC 502.345).

Junior hunt — a hunt authorized by a regulation of the Commission which is limited to an applicant who (NAC 502.063):

1. Possesses a hunting license or a combined hunting and fishing license;
2. Will attain his or her 12th birthday before the first day of each hunting season to which his or her application relates; and
3. Will not attain his or her 18th birthday until after the last day of each hunting season to which his or her application relates.

Note: A person who is otherwise eligible to apply for a junior hunt may apply for a junior hunt not more than 5 years (NAC 502.333).

UNLAWFUL USE OF AIRCRAFT, HELICOPTER, MOTOR-DRIVEN VEHICLE OR BOAT

1. It is unlawful to harass any game mammals or game birds by any means, including, without limitation, with a manned or unmanned aircraft, firearm, helicopter, horse, motorboat, motor-driven vehicle, noisemaker, or sailboat.
2. It is unlawful to shoot at any game mammals or game birds with a weapon from a manned or unmanned aircraft, helicopter, or motor-driven vehicle. A person who is a paraplegic, has had one or both legs amputated or has suffered a paralysis of one or both legs which severely impedes the person's walking may shoot from a stopped motor vehicle which is not parked on the traveled portion of a public highway, but the person may not shoot from, over or across a highway or road specified in NRS 503.175.
3. It is unlawful to spot or locate game mammals or game birds with any kind of manned or unmanned aircraft or helicopter and communicate that information, within 24 hours after the aircraft or helicopter has landed or

**With you
wherever
you go.**

The most up-to-date
hunting regulations online!

 **eRegulations.com**

in violation of a regulation of the Commission, by any means to a person on the ground for the purpose of hunting or trapping. The provisions of this subsection do not prohibit an employee or agent of the Department from providing general information to the public concerning the location of game birds or game mammals.

4. It is unlawful to use any information obtained in violation of the provisions of subsection 3 to hunt or kill game mammals or game birds.
5. It is unlawful to use a helicopter to transport game, hunters or hunting equipment, except when: (a) The cargo or passengers, or both, are loaded and unloaded at airports, airplane landing fields or heliports, which have been established by a department or agency of the Federal or State Government or by a county or municipal government and which are accessible by a public road; or (b) The loading or unloading is done in the course of an emergency or search and rescue operation.

(Refer to NRS 503.010)

SCOUTING FROM AIRCRAFT

1. A person shall not, for the purpose of hunting or trapping, locate or observe or assist a person in locating or observing any big game mammal, game bird or fur-bearing

mammal in a management unit described in NAC 504.210 during the period beginning on July 1 and ending on the last day of February of each calendar year with the use of:

- (a) An aircraft, including, without limitation, any device that is used for navigation of, or flight in, the air;
- (b) A hot air balloon or any other device that is lighter than air;
- (c) An unmanned aerial vehicle; or
- (d) A satellite or any other device that orbits the earth and is equipped to produce real-time images.

2. Evidence of an act constituting a violation of subsection 1 includes, without limitation;

- (a) Flying slowly at low altitudes;
- (b) Hovering;
- (c) Circling; or
- (d) Repeatedly flying over a forest, marsh, field, woodland or rangeland where a big game mammal, game bird or fur-bearing mammal is likely to be found.

(Refer to NAC 503.148 and CGR 496LCB R009-21)

TRAIL CAMERAS

With certain exemptions, it is illegal to place, maintain, or use a trail camera on public land from August 1 - December 31 of each year. It is illegal to use a trail camera July 1 - December 31 of each year if the camera is capable of transmitting images, video, or location of wildlife. (Refer to NAC 503.1485)

"Roughing it" doesn't need to be rough...

Western Range Camps, LLC

1145 S. Blackhawk Blvd. • Mt. Pleasant, UT

435.462.5300 • wrcamps.com

RADIO TELEMETRY AND SATELLITE TRANSMITTER

1. It is unlawful to hunt any wildlife using a radio signal or other transmission received from any transmitting device that is attached to the wildlife.
2. If you harvest any wildlife with a transmitting device, notify the Department of Wildlife without undue delay. Devices must be returned to the Department.
3. Do not intentionally break, destroy or damage any transmitting device. Transmitting device means any collar or other device which:
 - (a) Is attached to any wildlife; and
 - (b) Emits an electronic signal or uses radio telemetry or a satellite transmission to determine the location of the wildlife.

(Refer to NAC 503.1475)

BAITING BIG GAME ANIMALS

A person may not bait big game mammals for the purpose of hunting; or knowingly hunt big game mammals that were baited by another person.

Bait means the intentional placing, exposing, depositing, disturbing or scattering of salt, minerals, grain or any other food material, whether natural or manufactured, that could attract, entice or lure wildlife to an area.

(Refer to NAC 503.149)

TRANSPORTATION PERMITS AND USE OF TAGS AS TRANSPORTATION PERMITS

A person in legal possession of a game tag may use the tag as a transportation permit once the tag has been validated and attached to the carcass of the harvested animal.

A person may transport the harvested animal or portions of the animal for the legal tag holder if the transportation permit included on the tag is complete with the transporter's information. (In accordance with requirements outlined in NAC 502.401)

Transportation permits are required when transporting harvested animals or portions of animals taken by trapping or whenever a person will be transporting more than one legal limit of animals taken by trapping. Permits may be obtained from the Department free of charge.

(Refer to NRS 503.040)

DISGUIISING SEX OF ANIMALS

It is unlawful for a person to disguise or attempt to disguise the sex characteristics of any harvested animal if sex characteristics are a determining factor in regulation of hunting seasons or possession of the animal.

(Refer to NAC 503.175)

CAPE AND HORNS/ANTLERS OF WILDLIFE MUST BE MAINTAINED WITH CARCASS

Except as otherwise provided in NAC 502.403, any person who kills a deer, elk, mountain goat, moose, antelope or bighorn sheep shall, until the carcass is frozen, smoked, dried, consumed or accepted by a commercial processing plant for processing, maintain possession of at least that portion of the cape or scalp that includes the ears to the base of the muzzle and any antlers or horns. The cape or scalp and any antlers or horns from the animal must be possessed in such a manner that they remain or are kept together with the carcass of the animal.

(Refer to NAC 503.173)

HIGHWAY WILDLIFE CROSSING

A wildlife highway crossing is any overpass or underpass designated and constructed to facilitate a safe passage of wildlife across a highway. It is unlawful to hunt or take game mammals within 1/2 mile of a wildlife highway crossing, or discharge any firearm from, upon, over or across a wildlife highway crossing.

(Refer to NAC 504.105)

FIRING FIREARM FROM/OVER ROADS

A person may not discharge a firearm from, upon, over or across any federal, state, main or general county road as described in NRS 408.285 and 403.170.

(Refer to NRS 503.175)

UNLAWFUL TO WASTE GAME

It is unlawful to waste any edible portion of any game bird, game mammal, game fish or game amphibian. Heads, antlers, horns or tusks cannot be the only part of an animal taken from the field. You can leave the carcass of a carnivore.

(Refer to NRS 503.050)

REASONABLE EFFORT REQUIRED TO TAKE WILDLIFE

Each person who shoots and wounds any wildlife while hunting shall make a reasonable effort to take that wildlife, including, without limitation, pursuing and tracking it.

(Refer to NAC 503.191)

HUNTING ON POSTED LANDS WITHOUT PERMISSION

It is unlawful for any person to hunt, trap or fish on private property without permission obtained by the owner or occupant of the private property. Any person using that property to hunt, fish or trap shall comply with the provisions of NRS 207.200.

(Refer to NRS 503.240)

CAMPING NEAR WATER HOLE

It is unlawful for any person to camp within 100 yards of a water hole in such a manner that wildlife or domestic stock will be denied access to such water hole.

(Refer to NRS 503.660).

SALE OF NONEDIBLE PARTS

The sale of the hide, head, antlers or horns or other **nonedible** parts of game animals which were **legally killed** is permitted.

Note: The sale of bear gall bladders is unlawful. (Refer to NAC 503.174)

NEVADA ONLINE HUNTER EDUCATION CERTIFICATE

REGISTER TODAY

Anyone born after January 1, 1960 is required to provide proof of Hunter Education in order to purchase a Nevada hunting license. Proof of Hunter Education is an official Hunter education card or certificate from any state or Canadian province, with the Hunter Education number and state or provincial logo or seal or a previous number or mark. MOOSE ON THE LOOSE!

Stories from the Hunters of Nevada's first-ever Historic Moose Hunt

By Luke Briant

I have always had a strong passion for hunting and conservation. I was so excited to turn 12 because I finally could apply to hunt Nevada big game animals. I begged my Dad to put me in for every species Nevada had to offer. Little did I know something crazy was going to happen.

On tag results day my Mom & Dad picked me up early and told me we are going to the NDOW office because they wanted to verify my hunting license. This seemed very strange as I knew I had a valid license. There was a lot of staff there & one of the biologists gave me a long paper like a receipt and asked me if all the information was correct. What I saw changed my life forever! "Resident Antlered Moose Tag." I was shocked! I thought everybody was trying to prank me. I got one of the two moose tags in the state out of around 25,000 applicants.

My dad, mom, sister and I loaded the trailer with all the equipment we needed to hunt for 2-2.5 weeks. Our hunting party came two days later. I was so excited to hunt with close friends, family, and other young hunters. For four days we only saw deer and elk. On day 5 my mom and I sat on a pond for 9 hours waiting for a big moose bull to come in, but we only saw a cow moose and her two calves come in.

We decided to move to another range. After a long day of packing and unpacking camp, we had just enough time for the evening spot. Right away I spotted a very small bull moose, and a cow with two calves. Then another

cow, and another bull moose. For the next two days there were many bulls but none big enough to harvest. On day nine, our friends spotted a small bull with another big bull and a cow. I decided to go for this bull, but he was 500 yards away. We quickly set up on a little rock cliff. Now at 350 yards, he walked closer and closer to a creek below us. He stopped at 259 yards. The bull was broadside, perfect. I told my dad "I'm taking him" and he said, "go for it" and then BOOM! The bull immediately drops in his tracks, and I'm shocked. I just harvested one of the first Nevada moose. We hiked down to begin to butcher this amazing animal. Luckily, one of our friends who came with us is an actual butcher. Six hours later of straight butchering and caping, it was time to pack out. Back at camp dinner was thinly sliced up moose heart and tenderloins, delicious.

When we got home our hunting party generously helped us process the meat. In the end we harvested well over 350 pounds of moose meat. All in all, it was an amazing experience. I feel so lucky to have been part of one of the first moose hunts in Nevada! I am so thankful for my family, our friends who came out to help me, NDOW and everyone who helped us leading up to the hunt. One of the great things about this experience is how willing and helpful everyone was in wanting me to experience a great hunt and harvest. I'm grateful and proud to be a hunter in Nevada.

By Craig Santos

The 2024 Nevada Big Game Application process started out for me like it does for most Nevada hunters: The excitement of a new hunting season. Of Course, this year was different; this year I had the opportunity to apply for one of the first Nevada bull moose tags in the state's history. The day tags were going to be posted, I woke up feeling anticipation and excitement to see what tags, if any, I may have been lucky enough to draw. I checked several times online to no avail, but unbeknownst to me, Nevada Department of Wildlife (NDOW) had been attempting to call me. More than an hour had passed since I had last checked tag results when my brother called telling me he thought I pulled one of the moose tags. After going back and forth, and telling him, "You better not be messing with me!", I checked my phone; sure enough, there was a message from NDOW, attempting to reach out before the news became public. As I returned the call, several NDOW employees in the room congratulated me on being the lucky recipient of one of the two once-in-a-lifetime tags. It was like hitting the "Hunting Lottery".

After several days of excitement and hundreds of calls and texts from well-wishers, reality set in. I began to worry, wondering "How am I going to get this done?" While I'm a lifelong multi-generational Nevada hunter, I was unfamiliar with the northeastern part of the state where most of the moose had migrated and settled. I also had the added pressure of making sure this was a successful hunt, not only for myself, but also for NDOW, given this was such a high-profile hunt. My life-long friend and avid outdoorsman, Rob Boehmer, and I discussed the idea of either venturing on a do-it-yourself hunt as our family was so accustomed to, or enlisting the assistance and knowledge of a Nevada-Based Outfitter. After

much deliberation, we concluded, and Rob recommended I talk to Austin Hughes with Double H Outfitters, based out of Winnemucca, Nevada. Within minutes of speaking with Austin over the phone, I knew he was the right person for the job. He possessed a vast and current knowledge of the area, and I learned of an unexpected connection between our fathers. He immediately put my mind at ease.

In July, we took an early scouting trip, across NV Hunt Areas 6 and 7, covering more than 400 miles of Nevada's most cherished riparian and lush vegetative territory, I had no doubt Austin was going to put me on a bull moose of a lifetime.

I had planned to spend the first week in September hunting, but I kept my expectations low, since the temperatures were in the mid-high 70's. I thought of it more as a scouting trip than a harvesting trip. I arrived with seven of my closest family members and friends.

Opening day started around 4:00 AM with lots of coffee and a prayer offered by my lifelong buddy, Rob. We went back to an area in the northeast corner of the state where we had found a dropped, matching set, of moose paddles back in July. This area was also known to be a wintering ground for a large bull moose seen there over the past two-years. After spending several hours behind glass and working through aspen stands, we were unsuccessful in finding a moose. We spent the rest of the day driving and glassing different locations throughout the region, still with no success.

Day two started the same as day one: early morning, lots of miles, no moose. We got a little down time during the afternoon and decided to have lunch in Jarbidge. After lunch, our group decided to split up and scout different areas. Late that afternoon, we received a text from one of the guys in the other group; they had spotted multiple moose. That night at camp, excited by the reports, we decided to go back to that area the next morning. Within minutes of first light, we located a bull moose I wanted to harvest. My son Matt and two of my guides, Austin and Tanner, loaded up and started on the trek. With family and friends observing and documenting the experience from a ridgetop more than a mile away, we made it to the location where we had seen the bull moose. We set up within 320 yards of the moose and sat on him for at least 20 minutes before he presented a perfect standing broadside shot. I fired one shot and the rest was history; the first legal Nevada bull moose was on the ground.

I was blessed to have my closest friends and family members with me to experience this once-in-a-lifetime hunt. A huge thank you to Austin and the boys with Double H Outfitters and to NDOW. To call this trip "successful" wouldn't scratch the surface; my guides, family and friends, and all the folks at NDOW made this lifelong Nevada hunter's dream come true.

SPECIALTY TAGS

Specialty tags provide enhanced opportunities for hunters to experience a hunt that includes but is not limited to longer season structures, potential to obtain multiple tags in a year for a single species, the ability to utilize any open unit, and obtaining a tag while in a current waiting period. Some specialty tags offer different perks and follow different rules than others. Specialty tags may be awarded through the application and draw process or purchased through an event auction.

A Partnership in Wildlife (PIW) and Silver State tag applicant can only **draw** one tag per species. A person can be awarded a tag in the big game draw and purchase a tag of the same species outside of the draw, this includes the Heritage and Dream tag options. Specialty tag quotas are not restricted by residency except PIW mule deer.

BIGHORN SHEEP UNIT CLOSURES

Bighorn sheep unit closures are associated with the setting of the annual bighorn sheep quotas and the following table that identifies the maximum number of specialty tags for every unit group that has an open season. Some unit groups may be set to zero (0).

BHS UNIT GROUP QUOTA	MAXIMUM SPECIALTY TAG QUOTA
1-2	0
3-6	1
7-12	2
13-20	3
>20	4

Specialty Tags exclude the use of seasons, quotas and hunt units designated for depredation (elk depredation), management (management one-horn Nelson BHS, etc.), and emergency hunts.

SHEEP HARVEST HOTLINE

Tag holders must call the Specialty Bighorn Sheep Harvest Information Hotline prior to hunting daily to determine if any hunt units have been closed due to the harvest limits being reached. The number to call is 1-833-923-0754 and is accessible 24 hours a day. Specialty Tag sheep harvests must be reported to the Department by 9 p.m. (PST) the day of harvest by calling 775-688-2327.

NONRESIDENT GUIDED HUNT DEER TAGS

There are more than 100 licensed master guides in Nevada that provide guide services for big game, game birds, game fish, and unprotected wildlife. Different hunters often desire to hire a guide for different reasons, ranging from a novice hunter who is a little uncomfortable with trekking into the remote Nevada outback, to an experienced hunter, who draws the tag of a lifetime, like a desert bighorn or bull elk tag.

When booking a guided hunt be sure that the master guide you hire is licensed to provide guide services in Nevada and be sure that you are provided with a contract before services are

provided. If you are a nonresident of Nevada you may participate in the nonresident restricted guided deer draw, a program that allots a number of tags specifically for a guided deer hunt.

The restricted nonresident guided hunt is available to anyone not a resident of Nevada who will hunt mule deer with the assistance of a licensed master guide or subguide. A guide must accompany restricted nonresident hunters in the field at all times and sign off on all restricted nonresident guided hunt applications before the draw is conducted.

(Refer to NRS 502.149)

The restricted nonresident guided hunt has a separate draw and application period that is held in February/March of each year. Immediate family members of the master guide or sub-guide

are prohibited from applying for this hunt. Tags available for the restricted nonresident guided mule deer hunt are based on a percentage of tags issued to nonresidents during the previous year. (Refer to NRS 502.147, CGR 495 LCB R176-20, and NAC 502.4235)

DID YOU KNOW:

NDOW works to provide wildlife in the driest parts of the state with much needed water by using man-made waterholes called guzzlers.

LEGAL WEAPON TYPES FOR HUNTING BIG GAME

SPECIES	ARCHERY	MUZZLELOADING RIFLES	CENTERFIRE FIREARMS	SHOTGUNS*	RIMFIRES	CROSSBOW
Antelope	✓	✓	✓			✓
Bear	✓	✓	✓			✓
Bighorn Sheep	✓	✓	✓			✓
Elk	✓	✓	✓			✓
Mountain Goat	✓	✓	✓			✓
Mountain Lion	✓	✓	✓	✓		✓
Mule Deer	✓	✓	✓	✓		✓

* Includes muzzleloading shotguns.

FIREARMS

(Refer to NRS 503.150 and NAC 503.142)

RIFLES

A person may hunt big game mammals with a rifle if the rifle uses a centerfire cartridge .22 caliber or larger and no larger than .50 caliber. The centerfire cartridge case length may not be more than three inches.

HANDGUNS

A person may hunt big game mammals with a handgun if the handgun uses a centerfire cartridge of caliber .22 or larger and has a barrel length of four inches or more.

SIGHTS

See “Sight Attached to Firearm, Bow or Crossbow” on page 47.

PROHIBITED FIREARMS

Any firearm capable of firing more than one round with one continuous pull of the trigger or any firearm equipped with a sighting system using an electronically controlled or computer controlled firing mechanism.

PROHIBITED AMMUNITION

Full metal jacket, full steel, full steel core, tracer, or incendiary bullets or shells.

SHOTGUN (ONLY LEGAL FOR DEER AND MOUNTAIN LION)

10, 12, 16, or 20 gauge. Shotgun barrels may be smooth or rifled for either species.

For Deer: Only rifled slugs or shotgun rounds with sabots that contain a single expanding projectile may be used for deer.

MUZZLELOADING RIFLE AND MUSKET

(Refer to NACs 503.142 and 503.145)

DURING A “MUZZLELOADER-ONLY” HUNT:

Caliber

Firearm must have a single barrel of .45 caliber or larger.

Ignition

Wheel-lock, matchlock, or flintlock ignition system, or percussion ignition system that uses a primer or percussion cap; (in-lines are permitted).

Legal Projectile

Lead ball, lead bullet, semi-jacketed bullet or a metal alloy bullet that expands. A sabot round may be used.

Sights

Only open sights or peep sights are permitted; **scopes prohibited**. A sight that is operated or powered by a battery, electronics, or a radioactive isotope such as tritium is **prohibited**.

Powder

Only black powder or a black powder substitute may be used.

HANDGUN CARRYING DURING MUZZLELOADER SEASONS

A person who is hunting during any period of an open season during which hunting is restricted to the use of only archery equipment or a muzzle-loading firearm may carry a handgun for self-defense provided the handgun has a barrel length of less than 8 inches and does not have a telescopic sight.

BOW AND ARROW

(Refer to NACs 503.144 and 503.145)

Bow includes longbow, compound bow or recurved bow. A crossbow cannot be used for archery only hunts.

BOW CHARACTERISTICS

A bow must have a peak draw weight of at least 40 pounds and, if the bow is a compound bow, a let-off of not more than 80 percent.

“Let-off” means the amount of decrease in the draw weight of a compound bow from the peak draw weight to the holding draw weight after the bow has reached full draw.

ARROWS

Legal hunting arrows must have a broadhead attached, be 24 inches in length from the end of the nock to the tip of the broadhead and have a 300 grain minimum weight. An arrow that is used in hunting any game mammal or game bird may be equipped with a nock that is illuminated electronically or chemically.

BROADHEADS

Fixed broadheads must be at least 7/8 inch wide at the widest point; mechanical heads must be at least 7/8 inch wide at the widest point when in the open position.

SIGHTS

See “Sight Attached to Firearm, Bow or Crossbow” in this section.

IT IS UNLAWFUL

For any person to carry a rifle or musket in the field while hunting under archery regulations (i.e., an archery-only hunt).

To carry a bow with an arrow nocked on the bowstring while in or on any motorized vehicle (exceptions in NAC 503.144). To hunt any wild-life with an arrow that has any poison, explosive or electronic tracking device attached.

HANDGUN CARRYING DURING ARCHERY SEASONS

A person who is hunting during any period of an open season during which hunting is restricted to the use of only archery equipment or a muzzle-loading firearm may carry a handgun for self-defense provided the handgun has a barrel length of less than 8 inches and does not have a telescopic sight.

CROSSBOW

(Refer to NAC 503.143)

Crossbows may only be used for hunting big game during an "Any Legal Weapon" hunt. Crossbows are not allowed for archery hunts.

CROSSBOW MUST HAVE:

A minimum draw weight of 125 pounds. A minimum power stroke of 14 inches from the front of the bow to the nocking point. A stock that is at least 18 inches long. A positive mechanical safety mechanism.

CROSSBOW ARROWS/BOLTS

Must be at least 16 inches long, weigh 300 grains and have a broad-head attached.

BROADHEADS

Fixed broadheads must be at least 7/8 inch wide at the widest point; mechanical heads must be at least 7/8 inch wide at the widest point when in the open position.

IT IS UNLAWFUL TO:

- Hunt a big game mammal with a crossbow during either an 'archery-only' or a 'muzzle-loader-only' hunt.
- Carry a cocked crossbow containing an arrow or a bolt while in or on any motorized vehicle while the vehicle is on a public highway or other public right-of-way.

ARCHERY DISABILITY PERMIT

A person with a physical disability may qualify for a permit that authorizes them to use a crossbow or a bow that uses a mechanical device that can anchor a nocked arrow at full draw or partial full draw during an archery hunt.

As used for this permit, a "disability" means a disability which prohibits a person from manually drawing and holding a legal bow at full draw. Contact your local NDOW office for more information. (Refer to NAC 503.1465)

SIGHT ATTACHED TO FIREARM, BOW OR CROSSBOW

A sight attached to a firearm, bow, or crossbow may be illuminated or powered by:

1. A battery contained within the sight;
2. Light gathering fiber optics;
3. A radioactive isotope such as tritium; or
4. Iridescent or fluorescent paint.

The sight/scope may not cast or project a visible beam of light (Refer to NAC 503.145). The Department may issue a scope permit to a person with a visual disability. The scope permit authorizes a person with a visual disability to hunt, during a type of hunt that is restricted to bows or muzzle-loading firearms, using a 1 x magnification rifle scope that is mounted on a bow or muzzle-loading firearm.

(Refer to NAC 503.146)

*The Association
preserves hunting
traditions and cultures
by remaining active!*

NEVADA OUTFITTERS AND GUIDES ASSOCIATION

While there are many good guides, outfitters and hunting professionals out there, hunting with an active member of a state or national professional hunting association can go a long way to insuring a quality outdoor experience. Actively communicating the ever changing laws, regulations and policies to ensure compliance throughout our industry, NOGA members are informed and prepared for change.

WHY?

Legal – By hunting with an association member, hunters are assured of hunting with a properly licensed and registered guide or outfitter.

Ethical – Members of SCI affiliated professional hunting associations are bound by a Code of Conduct based upon local laws, regulations and customs.

Qualified – Many associations have stringent requirements for membership, more stringent than simple licensing and registration.

Experienced – Active association members tend to have more time in the professional hunting industry, often years of hunting familiar areas or concessions.

Knowledgeable – Through their associations, members can more easily stay current on local and national laws and requirements.

Responsible – Not only do association members tend to run more reputable operations, they are often more deeply involved in good stewardship of the resources.

Accountable – Professional hunting associations police their own, holding their members accountable for professional and ethical behavior. Protect yourself.

Stewardship – Members of professional hunting associations are responsible stewards of both the resource and the habitat insuring hunting today....and tomorrow.

NEVADAOUTFITTERS.ORG
nevadaguidesassoc@gmail.com

USE OR POSSESSION OF FIREARM BY A CHILD UNDER 18 YEARS OLD

1. A child under 18 years of age, hunting with a firearm, must be accompanied at all times by the child's parent or guardian. A parent or guardian may authorize an adult to take the child hunting, if that adult is licensed to hunt and accompanies the child at all times; or
2. With the permission of a parent, a child 14 years of age or older may hunt alone if the child has a valid hunting license in his or her possession and uses a shotgun or rifle that is not a fully automatic firearm and cannot be concealed.

(Refer to NRS 202.300 and NRS 502.010)

POSSESSING FIREARM WHILE UNDER INFLUENCE

It is unlawful for a person who:

1. Has 0.08 percent or more by weight of alcohol in his or her blood; or
2. Is under the influence of any controlled substance, or is under the combined influence of intoxicating liquor and a controlled substance, or any person who inhales, ingests, applies or otherwise uses any chemical, poison or organic solvent, or any compound or combination of any of these, to a degree which renders him incapable of safely exercising actual physical control of a firearm, to have in his or her actual physical possession any firearm.

(Refer to NRS 202.257)

CARRYING LOADED RIFLE OR SHOTGUN IN/ON VEHICLE

1. A rifle or shotgun is loaded when there is an unexpended cartridge or shell in the firing chamber.
2. A rifle or shotgun cannot be loaded in or on any vehicle (including ATV's and motorcycles) which is standing on or along, or is being driven on or along any public highway or any other way open to the public.
3. **Exception:** a paraplegic, amputation of leg(s), or paralysis of one or both legs which severely impedes walking may shoot from a stopped motor vehicle that is not on the traveled portion of a public highway. However s/he may not shoot from, over or across a highway or road.

(Refer to NRS 503.165, NRS 503.175, NRS 408.285, and NRS 403.170)

THE ULTIMATE HUNTING TOOLSET

With advanced mapping and forecasting features that help you find the perfect place and time, HuntWise gives you every tool you need to scout, strategize, and execute hunts like a pro.

START YOUR FREE TRIAL TODAY!

"If I had an app like this when I started hunting, the amount of 'the one that got away' stories would be far less. It's going to take years of mistakes and translate them into years of success."

John Dudley
@nockontv

HUNTERS MUST RESPECT PRIVATE PROPERTY

Every year the Nevada Department of Wildlife (NDOW) receives reports of hunters trespassing, damaging private property and even releasing livestock from fences. Nevada is more than eighty percent public land, almost all of it open to hunting, but some sportsmen still mistakenly enter private property and should be more careful about trespassing.

Trespassing Defined: In Nevada it's against the law for anyone to hunt, fish in private waters, or trap animals on private land if the owner

or someone living there has told them not to, or if there are signs saying they can't do it without permission from the owner (**NRS 503.240**).

It is also against the law for any person opening and passing through gates or bars in fences enclosing fields, to not close and fasten them once you have passed through (**NRS 207.220**).

TIPS TO USE WHEN HUNTING ON PRIVATE PROPERTY:

- Access to and across private lands is a privilege granted by the landowner. Not all roads are public roads. Traveling on private roads without permission to access other lands is akin to someone walking through your house to reach a neighbor's home.
- Bring a good map showing private and public land ownership. Know where you are. There may be no cell service in rural areas.
- Build good relationships with land owners by asking permission.
- Leave gates the way you find them and make sure everyone in your party knows that. If a rancher wants a gate left open, it will be hung back on the fence, not lying on the ground.
- Leave the land better than you find it – pick up all trash you find and take it with you.
- Camp away from water sources for the benefit of wildlife and livestock.
- Report hunter misconduct. Misbehaving hunters jeopardize the use of resources for all hunters.
- Stay on existing roads.
- When granted access, bring only the number of hunters expected by your host.
- Respect locked gates, no trespassing signs, and orange-painted gate posts. They all mean stay out.
- Do not attempt to remove or relocate livestock or wildlife.
- Send a thank you note.

TRESPASS DEFINITION

It is considered trespassing if a person willfully goes on or remains on any land after having been warned by the owner or occupant not to trespass. This "warning" can include the following:

- Painting with fluorescent orange paint on the following:
 - » A structure or natural object or the top 12 inches of a post, at intervals of such a distance as is necessary to ensure that at it is within the direct line of sight of a person standing next to another such structure, natural object or post.
 - » Each side of all gates, cattle guards, and openings that are designed to allow human ingress to the area;
- Fencing the area;
- Posting "no trespassing" signs or other notice of like meaning at intervals of such a distance as is necessary to ensure that at least one such sign would be within the direct line of sight of a person standing next to another such sign, and each corner of the land.
- Using the area as cultivated land. "Cultivated land" means land that has been cleared of its natural vegetation and is presently planted with a crop.

THE FOLLOWING AREAS ARE CLOSED TO ALL HUNTING

(Refer to NAC 504.340)

Note: This is not a complete list of areas closed to hunting by federal, state and local regulations. Please contact the appropriate tribe or land management agency for information on hunting closures in specific areas.

THOSE PORTIONS OF THE LAKE MEAD NATIONAL RECREATION AREA WHICH ARE WITHIN:

1. A 1-mile radius of Overton Landing, Willow Beach, Rogers Spring, the area for cabins at Stewart's Point, Echo Bay, Eldorado Canyon, Cottonwood Cove and the petroglyphs of Grapevine Canyon.
2. The Lower or Boulder Basin, including all of the area from Hoover Dam to a line running north and south near the peninsula between Hamblin Bay and Rotary Cove. The townships or portions of them located within the Lake Mead National Recreation Area and included within this closed area are: T. 20 S., R. 63 E., R. 64 E., R. 65 E.; Sections 6, 7 and

18 of T. 21 S., R. 66 E.; T. 21 S., R. 63 E., R. 63 1/2 E., R. 64 E., R. 65 E. and T. 22 S., R. 64 E. and R. 65 E., M.D.B. & M.

3. A 1/2-mile strip parallel to the west shoreline of Lake Mohave from Hoover Dam south to a point 2 miles south of the campground at Willow Beach.
4. The area of land extending 1/2 mile west of the water elevation of Lake Mohave and the Colorado River between the southern boundary of the Lake Mead National Recreation Area and the crossing of those cables of the power line located approximately 5 1/4 miles north of Davis Dam and all waters between that cable and the southern boundary.

ALL PORTIONS OF THE STILLWATER NATIONAL WILDLIFE REFUGE IN CHURCHILL COUNTY SOUTH OF DIVISION ROAD,

except that trapping is allowed to the extent authorized pursuant to 50 C.F.R. §§ 31.14 and 31.16 (Special Permits).

ALL PORTIONS OF THE RUBY LAKE NATIONAL WILDLIFE REFUGE, EXCEPT THAT:

1. Hunting is allowed pursuant to 50 C.F.R. § 32.47 on designated areas of the refuge in Elko and White Pine Counties and to the extent authorized by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181; and
2. Trapping is allowed to the extent authorized pursuant to 50 C.F.R. §§ 31.14 and 31.16 and by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181.

ALL PORTIONS OF THE DEATH VALLEY NATIONAL PARK.

ALL PORTIONS OF THE SHELDON NATIONAL WILDLIFE REFUGE,

except that hunting is authorized on designated areas of the refuge pursuant to 50 C.F.R. § 32.47, to the extent permitted by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181.

ALL PORTIONS OF THE GREAT BASIN NATIONAL PARK.

ALL PORTIONS OF CLARK, LINCOLN AND NYE COUNTIES WITHIN THE BOUNDARIES OF THE NELLIS AIR FORCE RANGE, THE NEVADA TEST AND TRAINING RANGE (NTTR) AND THE DESERT NATIONAL WILDLIFE REFUGE,

except that the hunting of bighorn sheep is authorized in certain described portions of the Desert National Wildlife Refuge pursuant to 50 C.F.R. § 32.47 and the Nellis Air Force Range, to the extent authorized by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181.

ALL PORTIONS OF CLARK, LINCOLN AND NYE COUNTIES WITHIN THE BOUNDARIES OF THE NELLIS AIR FORCE RANGE, THE NEVADA TEST AND TRAINING RANGE (NTTR) AND THE DESERT NATIONAL WILDLIFE REFUGE,

except that certain described portions of the Desert National Wildlife Refuge, not within Nellis Air Force Range, will be opened for the hunting of deer pursuant to 50 C.F.R. § 32.47, to the extent authorized by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181.

ALL PORTIONS OF THE PAHRANAGAT NATIONAL WILDLIFE REFUGE IN LINCOLN COUNTY,

except that hunting is permitted on designated areas of the refuge pursuant to 50 C.F.R. § 32.47, to the extent authorized by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181.

ALL PORTIONS OF THE ASH MEADOWS NATIONAL WILDLIFE REFUGE,

except that hunting is permitted on designated areas of the refuge pursuant to 50 C.F.R. § 32.47, to the extent authorized by the Board of Wildlife Commissioners in regulations governing seasons, hours and bag limits adopted pursuant to NRS 501.181.

BIGHORN SHEEP TAGS

An applicant may obtain one tag in any of the three subspecies of bighorn sheep. An applicant may only obtain one tag of either male or female sex per subspecies in the same season (specialty tags exempt).

A bighorn sheep seminar is encouraged for all tag holders who are successful in obtaining a tag. The skull and horns of the harvested ram must be presented to the Department for inspection within 5 business days of the harvest. (Refer to NAC 502.345)

MOOSE/ MOUNTAIN GOAT

The skull, hide and edible portions of a harvested moose or mountain goat must be presented to the Department for inspection within 5 days of harvesting. (Refer to NAC 502.364 and CGR 514, LCB R122-23)

PRESENTATION OF WILDLIFE, CALCULATION OF DAYS

Saturday, Sunday and state holidays do not count in computation of days for presenting the animal for inspection/sealing. (Refer to NAC 502.411)

DID YOU KNOW:

Every unsuccessful application from a big game draw earns the applicant a bonus point for that species if they have an active hunting license at the time of the draw.

UNLAWFUL POSSESSION OF WILDLIFE WITHOUT AN ATTACHED TAG

It is unlawful to have possession of any part of any species without a tag if that species requires one. Possession of a species without an attached tag or permit is considered prima facie evidence that the game was illegally taken and processed.

It is unlawful to obtain an additional animal or reuse a tag that was previously filled for the current season to obtain an additional animal. (Refer to NRS 502.150)

USE OF TAG OR PERMIT

A game tag must be carried by the owner of the tag at all times. No other person is permitted to carry a tag. (Refer to NAC 502.385)

When a person harvests an animal, they must validate the tag by clearly notching the spaces necessary to properly identify the date of the harvest and the animal's physical characteristics, including sex and antler points. (Refer to NAC 502.390)

The tag must be firmly attached to the carcass of the animal and must remain with main portion of the meat at or before the time he or she reaches their means of transportation or camp and until it has been processed. (Refer to NAC 502.400)

The transportation stub will be utilized if the harvested animal or a portion of the animal will be traveling in the possession of someone other than the tag holder.

The taxidermy stub will be provided to a licensed taxidermist along with the pelt, hide, or head of the animal at the time of transfer. (Refer to NAC 502.403)

BLACK BEAR TAGS

A hunter or guide must call the bear hotline at 1-800-800-1667 prior to the day's hunting to determine if the season has closed.

Tag holders must report a successful harvest to the bear hotline at 1-800-800-1667 within 24 hours of the harvest. The skull and hide of a harvested black bear must be presented to the Department for inspection within 72 hours of harvesting.

It is unlawful to harvest a cub or a female bear that is accompanied by cubs. (Refer to NAC 502.373)

REFUND OF FEE FOR HUNTING LICENSE - LOSS OF BONUS POINTS

An applicant who fails to obtain a tag may obtain a refund of the fee for his/her hunting license if the license is not a combined hunting and fishing license and he/she: 1. Purchased the license solely to apply for a tag; 2. Does not hunt under the authority of the license; and 3. Submits the license to the Department on or before the last weekday of August of the year in which the license was valid. The Department shall accept the license only if it is received on or before that date. **Please be aware that an applicant will not be awarded any bonus points if they obtain a refund for their hunting license.**

DEMERITS AND LICENSE REVOCATIONS

Hunting, fishing and trapping license privileges are revoked when a person accumulates 12 demerit points within a 60-month period. When a person is convicted of a wildlife violation, a certain number of demerits are assessed for that crime. The more serious the crime, the greater the number of demerits that are assessed.

Demerit based revocations can range from 3 years to as much as 10 years. Under some circumstances a person's tag privileges may be revoked for up to 10 years. (Refer to NRS 501.105, 501.181, 501.1818, NAC 501.200 and NAC 501.210)

CRIMINAL PENALTY PROVISIONS

Killing a big game mammal in the state of Nevada by hunting outside of the prescribed season and time. Using the aide of an aircraft or helicopter. Using a tag assigned to another person or hunting without a tag. Utilizing a different method of take or outside the prescribed unit(s) of a tag. Or if a tag was obtained by a false or fraudulent representation are all actions that a person can be prosecuted with a **FELONY** for doing. Either by participating in actions themselves or by aiding and abetting another person who kills a big game mammal.

Killing an animal out of necessity to protect the life or property of another person in imminent danger of being attacked by the animal or if the animal killed was not the intended target are exceptions. All accidental takes must be reported to the Department as soon as possible.

If you know or should have known an animal was killed unlawfully and you possess said animal, it is considered a **GROSS MISDEMEANOR OFFENSE**.

(Refer to NRS 501.376)

COMMON VIOLATIONS

The vast majority of hunters, trappers and anglers do their best to abide by the wildlife laws and regulations. For those people who fail to follow the law, convictions of wildlife law may carry serious penalties, including criminal fines up to \$5,000, jail, civil penalties up to \$30,000, loss of equipment and lost license privileges.

The following are a list of the eight most common violations in the field. Check twice and take due care, and you can avoid unnecessary citations, costly fines, and loss of equipment and hunting privileges.

If you make a mistake — for example shooting a spike, or small forked-horn deer instead of an antlerless deer — report it immediately to the local game warden or **Operation Game Thief (OGT) at 1-800-992-3030 or use the NDOW Tip App**. Follow any instructions that are provided to you and wait for the warden to arrive. Taking the opposite approach, such as hiding or wasting game, will carry much more serious consequences.

1. Hunting Outside Unit Area Designated on Tag

Double-check the hunt area/unit designated on your tag, and review the boundary unit descriptions on the reverse of the Department's Big Game Boundary Unit Reference Map. Purchase detailed reference maps. Know where you are. **This is a misdemeanor offense, but if an animal is killed, it can escalate to a felony.**

2. Loaded Rifle or Shotgun In/On Vehicle

Nevada law prohibits carrying loaded rifles and shotguns in or on vehicles, including ATVs, motorcycles, snowmobiles, etc. After hunting on foot, unload the gun before placing it in or on the vehicle. **This is a misdemeanor offense and will require retaking a hunter safety class before a hunting, fishing or trapping license can be reissued.**

UNLAWFUL ACTS; CRIMINAL PENALTIES

Every person who is guilty of a misdemeanor shall be punished by a fine between \$50-500, and/or by imprisonment in county jail for not more than 6 months. Criminal acts considered under this title include but are not limited to: performing unlawful acts, obstructing or hindering an officer, employee, or agent of the Department, violation of Commission Regulation, or unlawful use and abuse of a license or permit privilege.

(Refer to NRS 501.385)

FORFEITURES

Any gun, ammunition, trap, snare, vessel, vehicle, aircraft or other device or equipment is subject to forfeiture pursuant to NRS 179.1156 to 179.1205 inclusive if they are used in the facilitation of unlawful and intentional killing or possession of a big game mammal in Nevada. This includes knowingly transporting, selling, receiving, acquiring or purchasing an unlawfully killed big game mammal.

(Refer to NRS 501.3857)

CIVIL PENALTIES

In addition to the criminal penalties, every person who unlawfully kills or possesses wildlife is liable for civil penalties:

- a TROPHY big game mammal – \$5,000-\$30,000
- big game mammal, bobcat, swan or eagle – \$250-\$5,000
- fish or wildlife not included above – \$25-\$1,000
- hunting, fishing or trapping without a valid license, tag or permit – not less than \$50

Failure to pay a penalty within 90 days may result in license suspension or revocation and denial of privileges.

(Refer to NRS 501.3855)

DID YOU KNOW:

Customers can chose to automatically renew their license every year. This is a convenient way to constantly keep your license up to date. Don't worry, we will give you a heads up before your card is charged for a license renewal.

The State of Nevada through the Department of Wildlife owns or has long-term leases on more than 165,000 acres of land incorporated into wildlife management areas (WMAs) across the state. The primary management emphasis on WMAs is the protection of wetlands and waterfowl including the use of the areas as public hunting grounds. Hunting opportunities for sportsmen on WMAs include migratory game bird, upland game bird, furbearer and big game hunting. Below is a table of restrictions associated with each of the wildlife management areas. Please review this table and the accompanying list of hunt and use restrictions on wildlife management areas before hunting in these areas.

WILDLIFE MANAGEMENT AREA REGULATIONS

AREA	SEASON RESTRICTIONS	USE OF VESSELS	USE OF CAMPFIRE	CAMPING
Alkali Lake WMA (Lyon Co.)			Not Permitted	Not Permitted
Argenta WMA (Lander Co.)			Not Permitted	Not Permitted
Bruneau River WMA (Elko Co.)			Permitted	Permitted except that camping is not permitted in any building or other structure located within the WMA.
Carson Lake WMA (Churchill Co.)			Not Permitted	Not Permitted
Fernley WMA (Lyon Co.)			Permitted	Permitted
Franklin Lake WMA (Elko Co.)			Not Permitted	Not Permitted
Humboldt WMA (Pershing & Churchill Co.)		Airboats are prohibited on the Humboldt Sink until 1 hour after the legal shooting time on the opening day of the waterfowl season. Airboats are prohibited on the Toulon portion of the area during the waterfowl season. All vessels are prohibited on the ponds 5 days before the opening day of waterfowl season.	Permitted in those sites designated for camping.	Permitted in those sites designated for camping.
Key Pittman WMA (Lincoln Co.)	Access restricted from Feb. 15 through Aug. 15 in the portion of Nesbitt Lake north of the old fence line.	Vessels must be operated at a speed that leaves a flat wake, but in no case may exceed 5 nautical miles per hour.	Not Permitted	Not Permitted
Mason Valley WMA (Lyon Co.)	Access restricted from Feb. 15 through Aug. 15 in the eastern portion of the main developed pond area, as posted.	All vessels are prohibited from Feb. 15 through Aug. 15 each year, except on Hinkson Slough, Bass, Crappie, and North Ponds, Beaver Slough and the Walker River. Vessels must be operated at a speed that leaves a flat wake, but in no case may exceed 5 nautical miles per hour.	Permitted in those sites designated for camping.	Permitted in those sites designated for camping.
Overton WMA (Clark Co.)	Access restricted at Honey Bee Pond and Center Pond from March 1 through Aug. 1	Vessels are prohibited on all ponds. Vessels are allowed on the portion of the area inundated by Lake Mead, except that on Overton hunt days, vessels may be used only by persons authorized to hunt waterfowl.	Permitted within the rest and trails area.	Permitted within the rest and trails area.
Pole Canyon Cooperative WMA (Elko Co.)			Not Permitted	Not Permitted
Scripps WMA (Washoe Co.)	Access restricted from Feb. 15 through Aug. 15 in that portion of the area that lies south of Little Washoe Lake.		Not Permitted	Not Permitted
Steptoe Valley WMA (White Pine Co.)		Water skiing allowed only between 11 a.m. and sunset. Flat wake restrictions for boats during other hours.	Permitted within the mountain unit.	Permitted within the mountain unit that is more than 0.5 miles from Success Summit Road and any designated campsite that is 0.5 miles or less from Success Summit Road.
W.E. Kirch WMA (Nye Co.)	Access restricted from Feb. 15 through Aug. 15 in the upper portion of Adams-McGill, Cold Springs, Dacey and Haymeadow reservoirs, and all of Tule Reservoir.	Vessels must be operated at a speed that leaves a flat wake, but in no case may exceed 5 nautical miles per hour. Only vessels without motors may be used on Dacey Reservoir from Feb. 15 through August 15. Flat wake restriction in effect all other dates.	Permitted within the Dave Deacon Campground.	Permitted within the Dave Deacon Campground.

Special regulations are in effect at our state Wildlife Management Areas. Please review the following information and the table on page 54 before hunting on a state Wildlife Management Area.

RESTRICTIONS ON USE OF FIREARMS AND AMMUNITION

1. Except as otherwise provided in subsection 5, the discharging of a rifle or pistol is prohibited on the following wildlife management areas:
 - (a) Overton in Clark County.
 - (b) Key Pittman in Lincoln County.
 - (c) Wayne E. Kirch in Nye County.
 - (d) Scripps in Washoe County.
 - (e) Mason Valley in Lyon County.
 - (f) Argenta in Lander County.
2. A person may hunt big game on the Mason Valley, and Wayne E. Kirch and Argenta Wildlife Management Areas using:
 - (a) Shotguns and rifled shotgun slugs or shotgun rounds with sabots that contain a single expanding projectile; or
 - (b) Longbows and arrows.

A shotgun that is used to hunt big game mammals pursuant to this subsection may be equipped with a smoothbore barrel that is partially or fully rifled.
3. The use or possession of shells for a shotgun containing shot that is toxic or larger than standard-size T is prohibited on the following wildlife management areas:
 - (a) Overton in Clark County.
 - (b) Key Pittman in Lincoln County.
 - (c) Wayne E. Kirch in Nye County.
 - (d) Scripps in Washoe County.
 - (e) Mason Valley in Lyon County.
 - (f) Fernley in Lyon County.
 - (g) Alkali Lake in Lyon County.
 - (h) Humboldt in Churchill and Pershing Counties.
 - (i) Steptoe Valley within the Meadow Unit.
 - (j) Franklin Lake in Elko County.
 - (k) Carson Lake in Churchill County.
 - (l) Argenta in Lander County.

4. The use or possession of shotgun rounds with sabots that contain other than rifled slugs of conventional design is prohibited on all wildlife management areas owned or managed by this State.
5. The provisions of subsection 1 do not apply to persons authorized by the Department to use rifles and pistols for the control of predatory animals and rodents.
6. For the purposes of this section, all shot shall be deemed toxic unless it has been approved as nontoxic by the United States Fish and Wildlife Service pursuant to 50 C.F.R. § 20.134.

(Refer to NAC 504.135)

RESTRICTIONS ON ENTRY INTO CERTAIN AREAS

Between February 15 and August 15 a person shall not enter, occupy, use or be upon the following portions of Wildlife Management Areas:

1. Scripps: that portion of which lies south of Little Washoe Lake, as posted.
2. Key Pittman: that portion of Nesbit Lake north of the old fence line.
3. Wayne E. Kirch: the upper portion of Adams-McGill, Cold Springs, Dacey and Haymeadow reservoirs, as posted and all of Tule reservoir.
4. Mason Valley: the eastern portion of the main developed area, as posted.

Between March 1 and August 1 a person shall not enter, occupy, use or be upon the following portions of Wildlife Management Area:

1. Overton: the Honey Bee Pond and the Center Pond.

(Refer to NAC 504.120)

RESTRICTIONS ON DEER HUNTING IN PARTICULAR AREAS; PROHIBITION ON USE OR POSSESSION OF CERTAIN SHOTGUN ROUNDS IN PARTICULAR AREAS.

1. In the fenced or cultivated lands of the Smith and Mason Valleys, in the Mason Valley Wildlife Management Area and in the zones within the Fort Churchill State Historic Park and the Lahontan State Recreation Area that are designated for hunting by the Administrator of the Division of State Parks of the State Department of Conservation and Natural Resources:

- (a) Deer may be hunted only with:
 - (1) A shotgun no larger than 10 gauge and no smaller than 20 gauge, using:
 - (i) Rifled slugs; or
 - (ii) Shotgun rounds with sabots that contain rifled slugs or a single expanding projectile; or
 - (2) A bow and arrow.
 - (b) The use or possession of shotgun rounds with sabots that contain other than rifled slugs or a single expanding projectile is prohibited.
2. A shotgun that is used to hunt deer pursuant to subsection 1 may be equipped with a smoothbore barrel or a barrel that is partially or fully rifled.
 3. In the Mason Valley Wildlife Management Area:
 - (a) Deer may be hunted only on the following days during the season set for the hunting of deer:
 - (1) Saturdays, Sundays and Wednesdays;
 - (2) Nevada Day, as observed, pursuant to NRS 236.015;
 - (3) November 11, Veteran's Day as observed;
 - (4) Thanksgiving Day; and
 - (5) Family Day, as declared pursuant to NRS 236.015.
 - (b) Deer may be hunted only with bow and arrow during the season set for the archery hunt for deer.

(Refer to NAC 503.170)

CONSTRUCTION AND USE OF HUNTING BLINDS; USE OF DECOYS

1. Except as otherwise provided in subsection 4, a person may construct a single blind on any wildlife management area if the Department has no obligation to protect a privately constructed blind or to arbitrate the use or priority of use of such a blind. A blind must be:
 - (a) Temporary and constructed of material found on the wildlife management area; or
 - (b) Portable
2. A blind may not be locked or reserved for the use of a particular person or group of persons.
3. A portable blind that is not used to hunt big game mammals must be removed daily from the wildlife management area.
4. The Department may:
 - (a) Prohibit the construction of a blind if it is detrimental to a wildlife management area or portion thereof.
 - (b) Designate a blind on a wildlife management area as intended for the use of

persons with physical handicaps pursuant to the Americans with Disabilities Act of 1990, 42 U.S.C. §§ 12101 to 12213, inclusive, and the regulations adopted pursuant thereto.

5. A person may use decoys on a wildlife management area so long as the decoys are not left set up in the field between the hours of 9 p.m. and 3 a.m.

(Refer to NAC 504.160)

CONTROL OF VEHICULAR TRAVEL

1. Vehicular travel within a wildlife management area may be controlled for operation of the area, for public use and to benefit the public and wildlife resources. Such control may include specifying parking areas, closing interior roads or trails to vehicular travel and prohibiting travel beyond designated points.
2. Except as otherwise provided in subsection 3, it is prohibited, within a wildlife management area, to operate a motor vehicle:
 - (a) Off an interior road or trail that is designated for vehicular travel; or
 - (b) On an interior road or trail that is marked as closed to vehicular travel.

(Refer to NAC 504.115)

DENIAL OF USE OF AREA FOR ABUSE OR LITTERING OF AREA

The Department may deny further use of the management area to any person who abuses or litters the area.

(Refer to NAC 504.155)

REMOVAL OF PERSONS FROM AREA: AUTHORITY; GROUND

The Department or an authorized agent may remove a person from a wildlife management area for disorderly conduct, intoxication or any other conduct which endangers the area, a person, wildlife or livestock.

(Refer to NAC 504.110)

DID YOU KNOW:

Each year, NDOW completes habitat restoration projects on more than 80,000 acres. These projects are critical to wildlife and preserving wildlife habitat!

SHELDON NATIONAL WILDLIFE REFUGE

Check with Refuge at (541) 947-3315 or fws.gov/refuge/sheldon.

The Refuge is open to hunting in accordance with State hunting laws and regulations and the following specific Refuge regulations.

1. Camping is allowed only in designated areas. Backcountry camping is authorized by permit only.
2. Recreational or target shooting is prohibited.
3. Vehicles- including trucks, ATVs, motorcycles, bicycles, and game carts- are allowed only on designated routes.
4. A U.S. Fish and Wildlife Service permit is required for anyone conducting commercial outfitting or guiding on the refuge. Special use permit applications must be received by the Sheldon National Wildlife Refuge office no later than July 1.
5. The hunting of big game species including antelope, deer, and bighorn sheep, migratory game birds and upland game birds is permitted on the Refuge in compliance with State hunting laws and regulations. Sage Grouse hunting on the refuge requires a State issued reservation and permit. All other species of wildlife on the Refuge are protected and closed to hunting and or take.
6. Hunting is prohibited on the following waters: Big Spring Reservoir, Catnip Reservoir, and Dufurrena Ponds. The "Little Sheldon" portion of the Refuge is closed to all hunting.
7. Only non-motorized boats or boats with electric motors are allowed on Refuge waters.
8. Only portable or temporary ground blinds constructed of synthetic material are allowed on the Refuge.
 - a. Ground blinds are prohibited from being constructed earlier than 1 week prior to the opening day of the associated hunter's season.
 - b. Blinds are required to be removed by the end of the hunter's season or within 24 hours of a harvest.
 - c. Blinds are required to be tagged with the owner's name and associated hunting license, permit, or tag number.
 - d. Destruction of natural vegetation or below-ground excavation is prohibited.

BLM INFORMATION

The Bureau of Land Management (BLM) in Nevada encourages hunters to call in advance of hunting season to find out if land management practices will be conducted during the hunting season. While BLM field offices are aware of hunting seasons, some management activities, such as prescribed burns, wild horse gathers, road closures or fire restrictions may temporarily disrupt hunting activities.

Call Before You Hunt

If possible, call the appropriate BLM office before you begin your hunt. That way you may avoid an area that may have some access restrictions or other changes because of management activities. It's a good idea to call BLM just before the hunt to find out if any unplanned restrictions from fire or emergency wild horse gathers are in effect.

Responsible Hunting in Wilderness and Wilderness Study Areas (WSAs)

Some units contain BLM lands designated as wilderness or wilderness study areas. Motor vehicle use—trucks, ATVs and motorcycles—is not allowed unless signs are placed to indicate a designated route. The motorized vehicle rule extends to mechanized vehicles such as game carriers, which are also not allowed in these areas. Hand-held GPS units are allowed.

Responsible Off-Highway Vehicle Use

There has been a big increase in the use of OHVs by hunters. While most areas of the public lands are designated as open to OHV use, cross-country travel on OHVs is causing unnecessary damage to habitat that wildlife depend on. OHV riders are asked to stay on existing roads and trails. If it is necessary to drive off roads to retrieve and pack out harvested game, hunters are asked to use care and avoid creating new routes.

Individuals may purchase hunting licenses from many authorized NDOW license agents, or vendors found across the state of Nevada. The following are a partial list of license agents in our rural areas. For a complete list, visit www.ndow.org/blog/license-agent-locations.

INFORMATION RESOURCES

Elk Incentive Tags

Special incentive tags are awarded to landowner applicants as an incentive to support, rather than deter, elk on private land in Nevada. Any owner, lessee, or manager of private land who qualifies and wishes to participate in the program may enter into an agreement with the Department that specifies how the landowner will support and enhance elk on private land, identify needed improvements to private land that may be beneficial to elk, and provides that the landowner will agree to provide reasonable public access to adjacent public lands.

Landowners or hunters who are interested in the elk incentive tag program may contact the Nevada Department of Wildlife Headquarters at (775) 688-1507 for more information.

Landowner Damage Compensation Tags

An owner, lessee, or manager of private land in this state may apply to the Department for the issuance of deer or antelope tags for compensation for damage caused by these animals.

These tags can be used by the owner, lessee, or manager if he holds a valid Nevada hunting license or the tag(s) can be sold to any holder of a valid Nevada Hunting license at any price mutually agreed upon. Any landowner, lessee, or manager of private land or any hunter wanting more information on this program should call (775) 688-1507.

Weed-Free Hay

The National Forest System requires weed-free hay on all National Forest Systems lands within the state of Nevada. A list of weed-free hay producers and vendors is available on the Nevada Department of Agriculture's website at: agri.nv.gov. Click on the "noxious weeds" section under the "plant" heading.

HOW TO USE THESE TABLES

Many Nevada hunting regulations restrict the activities to specific times. The laws and regulations may specify sunrise to sunset, one half hour before sunrise to sunset, one hour before sunrise to two hours before sunset, etc.

Consult the specific regulation pamphlet for the activity you are interested in. These are available at all NDOW offices and most license agents. Then use the sunrise/sunset table for the location nearest to your hunt to determine the legally authorized time to start and/or stop your activity. These tables are accurate in the vicinity specified with less than a two (2) minute error. **These tables are Pacific Standard Time, so do not forget to add one hour for daylight savings time from March 9 – November 2.**

Please Note: A more complete listing of sunrise/sunset tables is available at ndow.org.

LEGAL HUNTING HOURS BY SPECIES

Big Game	1/2 hour before sunrise to 1/2 hour after sunset
Mountain Lion	Anytime of day or night
