"Wild Turkey" by April Doyle, featuring a wild turkey on Bombay Hook National Wildlife Refuge.

FROM THE DIRECTOR OF THE DIVISION OF FISH AND WILDLIFE

Four generations of hunters in the Emory family

With the hunting and trapping season here again, I hope everyone had an enjoyable and safe season in 2025–2026. Last year's season was a rough one with the extreme cold, snow and freezing temperatures in the later part of the season making waterfowl hunting and trapping in particular very challenging.

As everyone begins pulling out and dusting off their hunting equipment, finetuning their dogs and getting ready for the excitement another hunting season offers, take a moment and reflect on past seasons and hunting experiences with friends and family and make a commitment to take some of your old hunting partners for a hunt this year.

I know in our family; even at the age of 95, dad is always ready to go with us. Last year fate threw him a curve and due to health issues,

he couldn't make it, but he is planning to go this year. Dad may not be quite as spry as he was, but he offers knowledge and stories that only come with wisdom and age. That said, dad certainly keeps his great grandsons amused in the blind. These hunting adventures with family and friends are priceless and add to the overall allure of the hunting experience.

The Division of Fish and Wildlife provides numerous opportunities for you to hunt or just enjoy the great outdoors on 18 Wildlife Areas encompassing approximately 68,000 acres of public land throughout the state. The wildlife areas featured in the Delaware Hunting and Trapping Guide, offer a variety of diverse hunting opportunities. Take the time to experience what the Delaware Division of Fish and Wildlife has to offer you.

I wish you all the best and have a safe and exciting hunting and trapping season.

About This Guide

This high-quality guide is brought to you by the Delaware Department of Natural Resources and Environmental Control through a partnership with Kalkomey, a trusted leader in outdoor safety education since 1995. In addition to producing this guide, Kalkomey also offers a suite of educational courses to help people enjoy the outdoors safely.

The revenue generated through ad sales in this publication significantly lowers production costs and generates savings. These savings translate into additional funds for other important agency programs and we thank the advertisers for their support.

BUILDING RESILIENT FORESTS TOGETHER

Tree Planting

Funding will be provided for afforestation and select reforestation projects. This includes site preparation, post-planting maintenance, and tree shelters; site appropriate native species will be used. These practices help to combat forest loss while creating new, more resilient forests.

Invasive Species Removal

Funding will be provided for the removal or control of invasive plant species through various treatment methods, including chemical, biological, and mechanical approaches. These practices are essential for enhancing forest resilience and maintaining the ecological integrity of Delaware's forests.

Prescribed Fire

Funding will be provided to forest owners for prescribed fire applications, which include developing burn plans and creating permanent vegetative fire breaks. These practices aim to reduce wildfire risk, enhance carbon sequestration, and promote wildlife restoration, leading to more resilient forests.

What Is It?

The **Delaware Forest Resiliency Fund** expands on the Delaware Forest Service's cost-share program, in which landowners can address forest resiliency through tree planting, removal of invasive plants (as defined by the Delaware Invasive Species Council), and prescribed fire. Funding is provided by the Inflation Reduction Act and the USDA, Forest Service Landowner Assistance Program.

Who is Eligible?

Funding is available to non-industrial private forest owners, homeowners' associations, nonprofits, municipalities, and county governments. Projects must be a minimum of three acres. Landowners must also implement invasive plant species removal and prescribed fire practices within a forest. Applications will be approved on a first-come, first-served basis.

ESSENTIAL NEWS AND REMINDERS

ESSENTIAL NEWS, REMINDERS AND UPDATES FOR THIS SEASON

RECENT STATUTORY AND REGULATORY CHANGES

- Specifications regarding muzzleloader use for deer have expanded – see page 14
- Straight-walled pistol-caliber rifle calibers have expanded – see page 23
- Handgun and straight-walled pistol-caliber rifle deer season will now be the first Saturday in January through the second Sunday – see page 20
- Motorized electric carts, wagons, or wheelbarrows may be used to transport materials on Wildlife Areas – see page 13
- Youth hunts have no minimum age – see pages 24, 31, 35
- Turkey season now ends on the fifth Sunday succeeding the opening Saturday – see page 30 for dates.
- During the season, crow hunting may now only occur on Friday, Saturday and Sunday – see page 33 for dates.
- Coyote season is now July 1 – June 30.

SUNDAY HUNTING

Hunting or pursuing game birds and game animals shall be permitted on Sundays if:

- related to training dogs,
- a person is hunting red foxes with dogs,
- a person is participating in licensed commercial game preserve operations subject

to the seasonal limitations established by the Department, within hunting seasons established by the Department for game birds and game animals, such Sunday hunting occurs on private lands at landowner discretion and on those public lands as may be designated by and at the discretion of the applicable government agency. For the purpose of this section, "public lands" includes federal, state, county, municipal, or other government-owned lands, or, permitted by the Department through its deer depredation programs.

FREE-ROAMING SWINE REGULATIONS

It shall be unlawful to release swine (pigs) into the wild, charge a fee for the purpose of killing swine, or shoot swine without first obtaining a permit from the Division.

FALCONRY SEASONS (HUNTING WITH THE AID OF A FALCON)

For falconry season dates and bag limits, please contact the Division of Fish and Wildlife at 302-735-3600.

LICENSE EXEMPT HUNTERS

Hunters and trappers that are license exempt are required to obtain an annual License Exempt Number (LEN) at no cost. Hunters can obtain

a LEN by visiting a license agent or by visiting <https://de.gov/DigitalDNREC>. LENs will no longer be issued through the toll-free Hunter and Trapper Registration phone system.

See page 9 for more information.

HUNTER REGISTRATION SYSTEM

Hunters and trappers that need to register a harvested deer or obtain a HIP Number, or Snow Goose Conservation Order Permit Number may do so by visiting <https://de.gov/DigitalDNREC> or by calling the toll free number 1-855-DEL-HUNT (1-855-335-4868). If you have problems with this system, call 302-735-3600 or 302-739-9918 during normal business hours (8:00a.m. – 4:30p.m.) Monday – Friday.

POTENTIAL RULE CHANGES

At the time this guide was developed, changes were being considered that would impact hunting and/or trapping activities. Please visit <https://de.gov/fw> for additional information.

ATTENTION WILD TURKEY HUNTERS

I'd like to join the National Wild Turkey Federation, a non-profit organization dedicated to the conservation of the wild turkey and the preservation of the hunting tradition. This membership also enrolls me in my state and local chapters.

NWTF REMINDS YOU TO ALWAYS HUNT SAFELY

LICENSING AND PERMITS SECTION

KNOW YOUR RESIDENCY STATUS: In Delaware, to purchase a resident license you must be living in Delaware for at least 1 year prior to purchasing a license. You may not establish residency in two different U.S. States. You might own homes in two or more states, but you can only claim residency in one U.S. State at a time. This is the state you claim residency on your FEDERAL income tax return.

RESIDENT LICENSES, PERMITS AND TAGS	PRICE
Resident Adult Hunting License (Ages 16–64)¹: Persons 16 years or over and under 65 (16–64 years) must purchase a license to hunt in Delaware.	\$39.50
Resident Junior Hunting License (Age 13–15)^{1,2}: Persons 13 through 15 years must purchase a junior license to hunt.	\$5.00
Resident Guide Hunting License (Age 18+)¹: Persons operating a hunting guide service must purchase a guide license.	\$159.50
Resident Trapping License (Ages 13–64)³: All persons under 65 years must purchase a license to trap in Delaware after first taking an approved trapping education course if born after January 1, 1978. See page 10 for more information and the trapping license application.	\$10.00
Resident Fur Dealer License⁴: A person must obtain an annual license before engaging in the business of purchasing or receiving raw furs or pelts for commercial purposes within this State, except muskrat furs or pelts.	50.00
Resident Waterfowl (Duck) Stamp (Age 16+): Persons 16 years or over and under 65 (16–64 years) must purchase a state waterfowl (duck) stamp to hunt waterfowl in Delaware.	\$15.00
State Wildlife Area Waterfowl Blind and Deer Stand Permit: Hunters that use a State Wildlife Area waterfowl blind or deer stand for hunting that was assigned through a daily lottery must purchase an annual Wildlife Area Deer Stand/Waterfowl Blind Lottery Permit.	\$20.00
Resident Hunter's Choice and Quality Buck Tag combination	\$20.00
Each additional Antlerless Deer Tag	\$20.00
NON-RESIDENT LICENSES, PERMITS AND TAGS	PRICE
Non-Resident Adult Hunting License (Age 16+)¹: Persons 16 years or over to hunt in this State	\$199.50
Non-Resident Junior Hunting License (Age 13–15)^{1,2}: Persons 13 through 15 years must purchase a junior license to hunt.	\$50.00
Non-Resident Guide Hunting License (Age 18+)¹: Persons operating a hunting guide service must purchase a guide license.	\$475.00
Non-Resident 3-Day Hunting License (Age 16+): Three (3) consecutive day small game and waterfowl license (not valid for deer or turkey).	\$75.00
State Wildlife Area Waterfowl Blind and Deer Stand Permit: Hunters that use a State Wildlife Area waterfowl blind or deer stand for hunting that was assigned through a daily lottery must purchase an annual Wildlife Area Deer Stand/Waterfowl Blind Lottery Permit.	\$20.00
Non-Resident Trapping License (Age 13+)³: All persons must purchase a license to trap in Delaware after first taking an approved trapping education course if born after January 1, 1978. See page 10 for more information and the trapping license application.	\$75.00
Non-Resident Fur Dealer License⁴: A person must obtain an annual license before engaging in the business of purchasing or receiving raw furs or pelts for commercial purposes within this State, except muskrat furs or pelts.	\$475.00
Non-Resident Waterfowl (Duck) Stamp (Age 16+): Persons 16 years or over must purchase a state waterfowl (duck) stamp to hunt waterfowl in Delaware.	\$15.00
Non-Resident Antlered Deer Tag	\$50.00
Non-Resident Quality Buck Tag	\$50.00
Each additional Antlerless Deer Tag	\$20.00
LICENSE EXEMPT RESIDENTS AND NON-RESIDENTS	PRICE
Certain residents and non-residents are exempt from the requirement to purchase a hunting or trapping license but they must obtain a free License Exempt Number (LEN) before hunting or trapping. See License Exempt Hunters and Trappers section on page 9 for more LEN information, including who qualifies.	FREE Must Obtain a New LEN Each Year
A federal duck stamp is required for any person 16 years or older to hunt migratory waterfowl (ducks, geese, and tundra swans). Stamps are sold at Post Offices. No exemptions are made for persons 65 years or older for purchasing Federal Stamps. Some states are selling federal duck stamps online, referred to as e-stamps, through their state's licensing system. Delaware is exploring this option to be included within our system in the future. In the meantime, federal duck stamps purchased online from another state will be accepted in Delaware. For more information, please visit https://www.fws.gov/service/buy-duck-stamp-or-e-stamp	
License agents may charge a service fee of up to \$2.50 to issue a license, up to \$1.50 for deer tags and permits and passes, and up to \$1.00 for waterfowl (duck) stamps. License year is July 1 through June 30.	
¹ - Resident and non-resident hunters born on or after January 1, 1967 must complete a state approved Hunter Education course before obtaining a hunting license. Proof of successful completion of a Hunter Education Course must be provided at the time of license purchase in order to obtain a resident or non-resident hunting license.	
² - The Junior Hunting License expires on the child's 16th birthday. If this will occur during the hunting season, hunters 15 years of age should consider purchasing the regular hunting license instead of the Junior license prior to the season.	
³ - Resident and non-resident trappers born on or after January 1, 1978 must take a 6 hour trapper education course before obtaining a trapping license.	
⁴ - License may only be purchased by visiting DNREC's Richardson and Robbins Building, 89 Kings Hwy, Dover, DE 19901

For requirements related to hunters that are license exempt, please see LICENSE EXEMPT HUNTERS/TRAPPERS section below this table.

* A deer stand and waterfowl blind permit is not required for youth hunters or their non-hunting directly supervising adult when hunting during the special youth and non-ambulatory deer and waterfowl seasons.

SOCIAL SECURITY NUMBER AND HUNTING LICENSES

The Delaware Division of Child Support Services has the authority, under Federal Welfare Reform Legislation (Title 42 of the US Code, Section 666 (a) (13)), to collect Social Security Numbers for individuals who purchase recreational hunting and fishing licenses. For more information go to <https://de.gov/huntinglicense>.

OBTAINING A DUPLICATE HUNTING LICENSE

Duplicate licenses may be printed free of charge by logging into your Digital DNREC Account at: <https://de.gov/DigitalDNREC>. If you do not have a Digital DNREC Account or need more information please call the Recreational Licensing Office at (302) 739-9918 or email dfwreclic@delaware.gov.

ONLINE LICENSING

Delaware maintains a fully automated recreational licensing system. Sportsmen can purchase and print licenses from our website 24 hours a day 7 days a week by visiting <https://de.gov/DigitalDNREC> with a compatible computer and printer. We also partner with over 40 Licensing Agents where licenses can be purchased including our headquarters office located at 89 Kings Highway, Dover, DE 19901. A complete listing of Licensing Agents can be found on our website or by calling 302-739-9918.

HUNTER EDUCATION VERIFICATION

Please do not wait until the last minute to purchase your hunting license. Hunters born after January 1, 1967, are required to have verified proof of completing hunter education before purchasing a hunting license. If purchasing your hunting license online through our Digital DNREC licensing system at <https://de.gov/DigitalDNREC>, you will be asked to upload a copy of your hunter education card if your card has not already been verified by the Hunter Education Program. Hunters who completed hunter education in Delaware must enter their Hunter Safety Number and the Hunter Education Program will verify the number. Verification of hunter education information may take up to 5 business days, but it is often completed sooner.

If you need to purchase your hunting license immediately and cannot wait to have your hunter education information verified by the Hunter Education Program, please visit an authorized Licensing Agent. A list of authorized Licensing Agents can be found here: <https://de.gov/LicenseAgents>. At the Licensing Agent, you will need to provide a copy of your hunter education card to the agent who will verify that you have provided proof of hunter safety for the current hunting season only.

In the future, to avoid delays when purchasing a hunting license in Delaware, please upload a copy of your hunter education card to your profile in our Digital DNREC licensing system at <https://de.gov/DigitalDNREC>. Your hunter education card will be verified by our Hunter Education Program and will be added permanently to your Digital DNREC profile.

DIGITAL LICENSES AND DELAWARE WATERFOWL (DUCK) STAMPS

A recently passed law modernizes hunting and trapping licenses and Delaware waterfowl (duck) stamps to allow digital formats. Hunters and Trappers may now possess their Delaware hunting and trapping licenses and Delaware duck stamp in either digital or paper form when hunting or trapping in Delaware. Delaware deer hunters are still required to carry a paper copy of their Deer Harvest Report Card and properly complete the card in ink upon harvest of a deer and prior to moving it from the site of the harvest.

SPECIAL LICENSE AND PERMITS REQUIRED TO:

(These permits are only issued at DNREC's Dover office located at 89 Kings Highway)

- Deal in raw furs commercially
- Hold a field trial for dogs
- Ship game out of state
- Breed game commercially
- Operate a shooting preserve
- Possess or collect wildlife for scientific purposes
- Possess live wild animals or any protected animals
- Train dogs out of season (available only for retrievers)

Continued on page 9

Continued from page 8

LICENSE EXEMPT HUNTERS/TRAPPERS

Hunters and trappers that are license exempt are required to obtain an annual License Exempt Number (LEN) at no cost. Hunters and Trappers shall obtain a separate LEN for each activity if they engage in both. While not legally required to purchase a license, those hunters and trappers that are eligible to be license exempt may purchase a license so that their purchase can help direct conservation and management efforts for wildlife and the habitats they support. For those individuals that are exempt from purchasing a license but choose to do so, we thank you very much for your support to conservation. If a license exempt hunter or trapper chooses to purchase a license they shall not obtain a LEN.

The LEN system was created so that opinions and game harvests of license exempt hunters and trappers could be evaluated and considered when establishing new statutes, regulations and policies. If you obtain this LEN, use it whenever you are asked for your license number such as for registering a deer or turkey, obtaining a HIP number or purchasing additional deer tags or permits. License exempt hunters that are authorized to hunt deer, receive five deer tags at no cost and those that are authorized to hunt turkeys, will receive one turkey tag at no cost. For more information about deer and turkey tags and the associated Deer and Turkey Harvest Report Cards, please see pages 19 and 21.

License exempt hunters not purchasing a hunting license who use a motor vehicle to access State Wildlife Areas must purchase a Conservation Access Pass (pages 11 and 12). Additionally, all license exempt hunters must purchase a State Wildlife Area Waterfowl Blind and Deer Stand Permit if they are using those items. This permit is not required on the Youth and Non-ambulatory Hunt days. License exempt hunters are not required to purchase a Delaware Waterfowl Stamp unless they are Maryland residents utilizing the exemption to hunt snow geese in Delaware and then the stamp is required. Furthermore, license exempt hunters are not required to purchase a federal waterfowl stamp unless they are 16 years of age or older. Lastly, all license exempt hunters that will hunt migratory birds must obtain a free HIP number and those hunters pursuing snow geese during the Conservation Order must also register for a free permit number.

You can obtain your annual LEN and other items described above at <https://de.gov/DigitalDNREC> or by visiting any location that hunting licenses are sold. For a complete list of license agents, please visit: <https://de.gov/LicenseAgents>. LENs are no longer available by calling the Hunter Registration System. NOTE: If a hunter or trapper is exempt from purchasing a license for reasons related to military service, please contact the recreational licensing office at 302-739-9918 for more information on how to obtain your LEN as you may need to provide supporting documentation.

If you have problems with these systems, call 302-735-3600 or 302-739-9918 during normal business hours (8:00am–4:30pm) Monday–Friday. For questions on LEN eligibility requirements please contact the recreational licensing office at 302-739-9918 or <https://dnrec.alpha.delaware.gov/fish-wildlife/licenses/exemptions/>.

The following are the criteria for which a person is exempt from purchasing a hunting or trapping license but they must obtain a free License Exempt Number:

Delaware Residents:

- **Resident Youth Under 13:** Residents under 13 years of age may hunt without a license when under direct supervision by a person 21 years of age or older who is the lawful holder of a hunting license or has a lawful right to hunt.
- **Resident Senior 65 or Older:** Residents, 65 years of age or older may hunt or trap without a license, but must have proof of age and residency.
- **Resident Property Owner:** Residents who own or live upon farms in this State containing 20 or more acres, and the members of their immediate families who reside on the farm, may hunt and trap on said farm only without purchasing a license.
- **Resident Organized Fox Hunt:** Any unarmed residents participating in an organized fox hunt may participate without a license.

Non-Residents:

- **Non-Resident Snow Goose Hunter:** A non-resident may hunt without a license while hunting snow geese, provided:
 1. The nonresident resides in another state or Canadian province which extends the same exemption to Delaware residents (Currently, Maryland is the only state to honor this exemption);
 2. The nonresident is properly licensed, or exempt from the licensing requirement, to hunt snow geese in the state or Canadian province in which he or she resides;
 3. The nonresident purchases a Delaware waterfowl (duck) stamp.
- **Non-Resident Youth Under 13:** Nonresidents other than aliens who are under 13 years of age may hunt without a license when under direct supervision by a person 21 years of age or older who is the lawful holder of a hunting license or has a lawful right to hunt.
- **Non-Resident Farm Occupant:** Nonresidents or aliens who are occupants of farms in this State containing 20 acres or more, who actually reside thereon, and the immediate members of the family of such occupants who also reside on said farm, may hunt or trap on said farms without a license.
- **Non-Resident Property Owner:** A nonresident, who owns but is not an occupant of a farm in this State containing 20 acres or more, and the immediate members of the family of the nonresident farm owner may hunt or trap without a license on said farm if the farm occupant or resident, if any, gives the owner written permission or if hunting, trapping, and/or fishing is permitted pursuant to a written lease, if any, between the farm owner and the occupant or resident of the farm.

- **Non-Resident Organized Fox Hunt:** A non-resident participating in an organized fox hunt may participate without a license.

Military Exemptions:

- **Resident Military Hospital Inpatient:** A member of the armed forces of the United States who is a patient in a military hospital may hunt or trap without a license, upon receipt by the Department of a written statement signed by the applicant's commanding officer certifying the nature of the applicant's disability and place of station.
- **Veterans with a Disability:** Residents or non-residents who have been honorably discharged from the armed forces of the United States and certified by the Veterans Administration as having at least a 60% service-connected disability may hunt or trap without a license.
- **Resident One-time Military Veteran:** Any resident who has served honorably for 90 or more consecutive days on active duty in the Armed Forces of the United States, including service as member of the Delaware National Guard, in military actions in Southwest Asia associated with Operation Iraqi Freedom or Operation Enduring Freedom may, for the first 12 months following the date the resident was honorably discharged or removed from active status, hunt without purchasing a license.

If a military hunter or trapper meets the exemption criteria, applicants are asked to complete an application at <https://dnrec.alpha.delaware.gov/fish-wildlife/licenses/exemptions/> or by calling 302-739-9918. Military licenses are not available through State Licensing Agents. License exempt Military exceptions are only processed through the Dover office. Please call 302-739-9918 for assistance.

SPECIAL PERMITS IMPORTANT INFORMATION FOR HUNTERS WITH A DISABILITY

A variety of hunting opportunities exist for hunters with a disability in Delaware. For a list of deer stand and waterfowl blind facilities for hunters with a disability, see page 45.

STATE OF DELAWARE CERTIFIED HUNTER WITH DISABILITIES CARD

Hunters with a disability must obtain a certification card to use all facilities and opportunities made available to hunters with a disability on State Wildlife Areas and State Parks. For information on obtaining this card, call the Division of Fish and Wildlife at 302-739-9912.

Continued on page 10

LICENSING AND PERMITS SECTION

Continued from page 9

HUNT FROM A VEHICLE PERMIT

Approved non-ambulatory hunters may be permitted to hunt specified game animals from their vehicle with a permit issued by the Division.

HUNTER REGISTRATION SYSTEM

Hearing impaired hunters may go online at <https://de.gov/DigitalDNREC> to register harvested deer, obtain their Harvest Information Program (HIP) numbers, register for the Snow Goose Conservation Order (CO) and report their hunting activity during the CO.

LICENSE REQUIREMENTS RELATED TO NON-RESIDENT MILITARY PERSONNEL

Any member of the armed forces of the United States of America while actually stationed within this State shall be deemed a resident of this State for the purpose of obtaining a

license to hunt, trap and fish in this State. Each such application shall be supported by a written statement signed by the applicant's commanding officer certifying the applicant's place of station within this State.

To be eligible for the resident license, applicants are asked to complete an application at <https://dnrec.alpha.delaware.gov/fish-wildlife/licenses/exemptions/> or by calling 302-739-9918. These licenses are not available through State Licensing Agents.

PRIVATE LAND TRAPPING PERMISSION FORM

Name of Trapper: _____

Address: _____

I hereby consent to the person listed above for trapping on my property on the dates, and with the additional permissions, listed below:

Dates: _____

Questions?: 302-739-9918

DELAWARE GUIDE LICENSE

All individuals receiving monetary or in-kind compensation for providing personal guide services to hunters are required to have a Delaware Guide License. License holders must be 18 years of age or older.

Persons acquiring a guide license must not have been convicted for violations of any wildlife or fisheries statutes or regulations within the last three years prior to applying for a Delaware Guide License.

All persons possessing a Delaware Guide License are required to complete and submit an annual report to the Division by July 1st, annually, to include the following information which must be readily available for inspection by enforcement officers: full name of each hunter, address of each hunter in the party, hunting license number for each hunter, date, number and species of each animal harvested, location of hunts and the name and license number of the guide.

The guide shall retain all hunting field records for a period of three years.

A resident or non-resident Guide License is valid as a Guide and a Hunting license. A separate hunting license is not required.

A non-resident shall be exempt from the guide licensing requirement only while guiding hunters for snow geese (light geese), provided:

- The non-resident is properly licensed to guide in another state or Canadian province which extends the same exemption to Delaware residents;
- The non-resident must not have been convicted for violations of any wildlife or fisheries statutes or regulations within the last 3 years.
- The non-resident guide purchases obtains a free License Exempt Number, a Delaware migratory waterfowl (duck) stamp and obtains a Delaware H.I.P. permit;
- The non-resident resides in another state or Canadian province which extends the same exemption to Delaware residents.

Applicants must apply for the license online at: <https://de.gov/DigitalDNREC> or by calling the Division's Recreational Licensing Office at (302) 739-9918. Guide licenses are not available through State Licensing Agents.

TRAPPING LICENSES

Trappers must purchase their trapping license through the Division of Fish and Wildlife. Trappers who purchased a trapping license during the previous two trapping years can purchase again this year through their Digital DNREC account or at an authorized recreational license agent statewide, without waiting for approval. Trappers who did not purchase a trapping license during the previous two trapping years can create an account in Digital DNREC (or use their existing Digital DNREC account) and apply for a trapping license; these new trapping applications will require approval by the Division before the sale can be processed

so trappers should plan ahead. Additionally, mail-in applications are available online at <https://dnrec.delaware.gov/fish-wildlife/licenses>, by submitting the trapping application (see page 10) in this guide, or by calling 302-739-9918. Licensed trappers will be issued a permanent license number that can be renewed annually.

CONSERVATION ACCESS PASS

An annual Conservation Access Pass (CAP) is **required for any registered motor vehicle** used to access designated Delaware State Wildlife Areas for any allowable activity, including hunting, birdwatching, hiking and photography.

The annual Conservation Access Pass will help the Division of Fish and Wildlife maintain and improve these areas for hunting, wildlife viewing and wildlife photography. These funds will also help support habitat improvements on State Wildlife Areas.

A **FREE annual Conservation Access Pass** will be provided with the purchase of a hunting license. In order to receive a free annual CAP the hunter must present a vehicle registration card at the time of the hunting license purchase. The annual CAP is assigned to a single specified registered motor vehicle and may be transferred to another registered motor vehicle of the same ownership for a fee of \$10.00. CAP transfers may be completed by logging into your Digital DNREC Account at: <https://de.gov/DigitalDNREC>. If you do not have a Digital DNREC Account or need more information please call the Recreational Licensing Office at (302) 739-9918 or email dfwreclic@delaware.gov.

If a free annual CAP is not selected during the purchase of the hunting license, one may be obtained by logging into your Digital DNREC Account at: <https://de.gov/DigitalDNREC> or by contacting the Division of Fish & Wildlife Recreational Licensing Office and providing the hunter's driver's license, hunting license and a vehicle registration card. Manual requests are processed in the order they are received and may take up to four weeks.

The CAP must be displayed in the assigned vehicle as described on the Pass.

The Pass is available annually July 1 - June 30 and is valid from the date of the hunting license purchase until June 30. The non-resident 3 day hunting license receives a free annual Pass.

License exempt hunters not purchasing a hunting license, who use a motor vehicle to access State Wildlife Areas, must purchase the Pass.

Hunters who are issued a free Pass may purchase additional Passes if they use multiple vehicles throughout the year to access State Wildlife Areas where the Pass is required. The annual CAP may be purchased online at <https://de.gov/DigitalDNREC>, at authorized license agents throughout the state, or at the Division's licensing desk in the Richardson & Robbins Building, 89 Kings Highway, Dover, DE. Remember to have your vehicle registration card available at the time of purchase. If you have questions about purchasing the Pass, please call the Division's Recreational Licensing Office at 302-739-9918.

Hunters using a motor vehicle to access a State Wildlife Area to hunt from a waterfowl blind or deer stand must also have the Pass displayed in the vehicle. See page 42 for more information.

State Wildlife Areas exempt from the annual CAP include the C&D Canal Conservation Area, including the Michael N. Castle Trail, designated fishing and boating access areas, educational facilities and shooting ranges. Additional areas may also be exempt. For a complete list of areas where the Pass is required or areas where the Pass is exempt, please visit our website <https://de.gov/fw> or call the Division's Wildlife Section at 302-739-9912.

A Conservation Access Pass shall not be required to access applicable lands leased from the Department, provided access is for the purpose for which such lands are leased. For more information on furbearer trapping leases see the State Wildlife Areas section on page 40.

Continued on page 12

CONSERVATION ACCESS PASS

CONSERVATION ACCESS PASS COSTS*	PRICE
Resident Annual Conservation Access Pass	\$32.50
Resident 3 Day Conservation Access Pass	\$10.00
Resident Senior Lifetime Conservation Access Pass	\$65.00
Non-Resident Annual Conservation Access Pass	\$65.00
Non-Resident 3 Day Conservation Access Pass	\$20.00
Transfer to Vehicle of Same Ownership (Dover Office or Online)	\$10.00
One free Pass issued with the purchase of a hunting license.	
License exempt hunters must purchase the Pass if accessing State Wildlife Areas where the Pass is required.	
Vehicle registration card required is required to purchase vehicle pass.	
*A Conservation Access Pass purchased through a State Licensing Agent may include allowable agent fees.	

Continued from page 11

RESIDENT SENIOR LIFETIME CONSERVATION ACCESS PASS

Effective July 1, 2022, Delaware residents age 65 and older have the option to purchase a Resident Senior Lifetime Conservation Access Pass for a one-time fee of \$65. Individuals who purchase this Resident Senior Lifetime Pass are permitted access to the same designated Delaware State Wildlife Areas as other Conservation Access Pass holders.

The Resident Senior Lifetime Pass remains effective as long as the holder remains a Delaware resident. Unlike other Conservation Access Passes that are assigned to a single vehicle's registration, the Resident Senior Lifetime Pass is assigned to an individual and is non-transferable to another individual. The Resident Senior Lifetime Pass can be used in any vehicle provided the Pass holder is the driver or passenger of the vehicle accessing a Delaware State Wildlife Area where passes are required. The Resident Senior Lifetime Pass must be displayed on the driver's side front dashboard of the motor vehicle while in use.

The Resident Senior Lifetime Pass may be purchased online at <https://de.gov/DigitalDNREC>, at authorized license agents throughout the state, or at the Division's licensing desk in the Richardson & Robbins Building, 89 Kings Highway, Dover, DE. If you have questions about purchasing the Resident Senior Lifetime Conservation Access Pass, please call the Division's Recreational Licensing Office at 302-739-9918.

STATE WILDLIFE AREAS REQUIRING A CONSERVATION ACCESS PASS

ASSAWOMAN WILDLIFE AREA (INCLUDING THE OKIE PRESERVE)

- Except to launch a boat, fish or crab at Sasfras and Mulberry Landing boating access areas, Strawberry Landing dock and pavilion, and Memorial Pond

AUGUSTINE WILDLIFE AREA

- Except Augustine Beach boating access area

BLACKISTON WILDLIFE AREA

CEDAR SWAMP WILDLIFE AREA

- Except Collins Beach boating access area

EAGLES NEST WILDLIFE AREA

INDUSTRIAL FOREST LAND WILDLIFE AREA – BARR AND LAUREL COMPLEXES

LITTLE CREEK WILDLIFE AREA

- Except Port Mahon boating access area, DNREC Offices

MARSHY HOPE WILDLIFE AREA

MCGINNIS POND WILDLIFE AREA

- Except McGinnis Pond boating access area

MIDLANDS WILDLIFE AREA

MILFORD NECK WILDLIFE AREA

- Except DuPont Nature Center and Cedar Creek boating access area

NANTICOKE WILDLIFE AREA

- Except Phillips Landing boating access area

NORMAN G. WILDER WILDLIFE AREA (INCLUDING THE C&R CENTER)

OLD FURNACE WILDLIFE AREA

- Except Concord Pond boating access area

PRIME HOOK WILDLIFE AREA

TAPPAHANNA WILDLIFE AREA

TED HARVEY CONSERVATION AREA

- Except Scottons Landing boating access area and the Logan Lane Fishing Pond

WOODLAND BEACH WILDLIFE AREA

- Except Woodland Beach boating access area, fishing pier, Aquatic Resources Education Center and associated fishing ponds

A Conservation Access Pass is not required to access the C&D Canal Conservation Area including the Michael N. Castle Trail.

Fishing access areas listed in the Delaware Fishing Guide do not require a Conservation Access Pass, except for certain non-fishing/boating uses at Assawoman Wildlife Area as indicated above.

Please refer to area specific maps available online at <https://de.gov/wamaps>, the DNREC building in Dover, or call the Wildlife section at 302-739-9912 for allowable activities on each Wildlife Area.

GENERAL WILDLIFE AREA RULES

Regulated hunting and trapping is authorized throughout many state wildlife areas. Please refer to the various season tables found within this guide for specific dates. Additionally, refer to page 42 of this guide and specific area maps for more information.

The following rules and regulations apply to all wildlife areas owned or managed by the Division of Fish and Wildlife unless otherwise authorized by written permit from the Director or regional office. For additional area specific rules please see the respective State Wildlife Area map.

- A Conservation Access Pass is required for any registered motor vehicle used to access designated Delaware State Wildlife Areas for any allowable activities, including hunting, birdwatching, hiking and photography.

Continued on page 13

WILDLIFE AREA MAPS

Did You Know?

Delaware's Wildlife Area Maps are now interactive and available online.

You can now:

- Access them with your mobile device in the field.
- Zoom in and out for better details about your favorite spots.
- Get all the information on a wildlife area in one easy location.

Each Wildlife Area is complete with maps for:

- General Overview
- Hunting
- Sunday Hunting
- Birding

Go to <https://de.gov/wamaps> and click on the button for the online maps to access them today!

Continued from page 12

- Entry is permitted between 1/2 hour before sunrise and 1/2 hour after sunset unless lawfully hunting, fishing or boating.
- All lands administered by the Division are Carry-In / Carry-Out. Littering or dumping trash including yard waste is prohibited.
- Releasing or otherwise introducing any species of domestic or wild animal onto lands administered by the Division is prohibited, unless in accordance with the statutes or regulations governing dog training activities.
- The following activities are prohibited on State Wildlife Areas:
 - » Damaging or defacing buildings, equipment, structures, signs or land features
 - » Operating or possessing radio-controlled drones, boats and other vehicles, or the launching of model rockets
 - » Allowing dogs to run off leash. See area hunting maps for dog training and hunting information related to dogs
 - » Camping
 - » Open fires of any type
 - » Swimming
 - » Posting signs, banners or notices of any type
 - » Vending or soliciting of any type
 - » Cutting or removing firewood
 - » Placing caches or letterboxes
 - » Using a metal detector
 - » Cutting, injuring or removing trees, shrubs, wildflowers, ferns, mosses or other plants
 - » Collecting and/or removing any wildlife species unless lawfully hunting, trapping or fishing
 - » Driving or operating any unlicensed motor vehicle
 - » Driving any motorized vehicle off maintained roadways or driving in excess of 20 MPH on wildlife area roads
 - » Riding horses or bicycles (including electric bicycles) anywhere other than on maintained roads or trails that have been designated by the Division on current area maps.
 - » Parking in a manner that blocks access to a road, trail, or boat ramp. Violators will be towed at owner's expense
 - » Leaving a vehicle or trailer unattended for more than 24 hours
 - » Crabbing or fishing on or from any dike or water control structure or within any impoundment administered by the Division is prohibited.
 - » Licensed fishing is prohibited in any wildlife area pond from September 1 through January 31 and Monday through Saturday during the spring turkey season except where permitted according to area specific rules established on current area maps.
- Licensed fishing is permitted according to area specific rules established on current area maps.
- Motorized electric carts, wagons, or wheelbarrows, may be used to transport materials on lands administered by the Division, provided they are not ridden or used to transport any person. Anyone using such equipment must walk while using them.

DIGITAL
DNREC
CONNECT ANYTIME. ANY DEVICE.

Digital DNREC is Delaware's automated licensing system available to hunters and anglers.

Visit Digital DNREC at <https://de.gov/DigitalDNREC> any time on any computer, tablet or mobile device to:

- » Create a Digital DNREC Account
- » Purchase Your Licenses, Tags, Permits or Passes
- » Purchase Additional Tags and Permits for Your License
- » Register for Your Permit to Hunt on State Park Lands
- » Apply for a License Exempt Number (LEN)
- » Reprint Your Active License, Tags, Permits or Passes
- » Print Your Delaware Hunter Education Certificate

IMPORTANT TIP

Please do not wait until the last minute to purchase your hunting license. Hunters born after January 1, 1967, are required to have verified proof of completing hunter education before purchasing a hunting license. If purchasing your hunting license online through our Digital DNREC licensing system, you will be asked to upload a copy of your hunter education card if your card has not already been verified by the Hunter Education Program. Verification of hunter education information may take up to 5 business days, but it is often completed sooner.

If you need to purchase your hunting license immediately and cannot wait to have your hunter education information verified by the Hunter Education Program, please visit an authorized Licensing Agent. A list of authorized Licensing Agents can be found here: <https://de.gov/LicenseAgents>. For more information about how to avoid delays, please refer to page 8.

Have Questions or Need Help with Your Digital DNREC Account?

Call the Recreational Licensing Program at 302-739-9918

Monday – Friday, 8:00 am – 4:30 pm to speak with a Recreational Licensing Specialist

PROHIBITED METHODS OF TAKE – IT IS UNLAWFUL TO:

GENERAL

- Hunt out-of-season, without a license, take more than the daily limit, or possess unlawfully killed game.
- Hunt within 100 yards of an occupied structure (unless hunter is the owner or occupant, or has permission from the owner or occupant) or drop shot on buildings or people. When hunting deer with archery equipment, a hunter must be at least 50 yards from a structure. In New Castle County, north of I-295 and I-95 the distance is 200 yards when hunting with a firearm.
- Discharge any firearm from or within 15 yards of a public road or shoot across a public road or right-of-way.
- Trespass with gun or dog or trap on private property without prior permission of the landowner whether or not the land is “posted.”
- Damage any nest, den, or lair of game animals or birds.
- Use an artificial light to illuminate wildlife from a motor vehicle for the purpose of hunting or observation.
- Use night vision or infrared devices while hunting.
- For specifics on waterfowl and other migratory birds, see Federal Regulations at <https://www.ecfr.gov/current/title-50/chapter-I/subchapter-B/part-20>.

FIREARMS AND ARCHERY EQUIPMENT

- Have a loaded firearm, or a cocked crossbow, in or on a motorboat while underway, or in, against, or on a motor vehicle or farm machinery.
- Transport a muzzleloader with a charge in the barrel unless the cap or primer is removed and the gun is enclosed in a case or the striking mechanism is removed.
- Hunt at night (1/2 hour after sunset to 1/2 hour before sunrise) except that frogs, raccoons and opossum may be hunted at night using a handheld light.
- Take game using a shotgun larger than 10 gauge, a fully automatic loading gun (machine gun), or use a centerfire rifle, except groundhogs, foxes and coyotes may be hunted with a centerfire rifle.
- Use a shot larger than No. 2, except when hunting deer. Waterfowl hunters may use non-toxic shot up to size T.
- Use a shotgun capable of holding more than three shells in total except for snow geese during the Conservation Order.
- Use poison or explosive tip arrows.
- Use a punt or swivel gun or any gun not normally fired from the shoulder.

FURBEARERS/TRAPPING

- Use a trap, snare, pitfall, deadfall, cage, net, pen, baited hook, baited field, drug, poison,

- chemical or explosive to take game, except that muskrats, mink, otter, raccoons, opossum, rabbits, groundhogs, red foxes, coyotes, nutria, and beavers may be trapped as permitted by law.
- Hunt muskrats with a dog.
- Shoot or take muskrats or otters except by trap.

MISCELLANEOUS

- Sell, trade, or barter any game or any parts thereof, except as permitted by law. Hunters shipping lawfully taken game shall first obtain a notarized affidavit stating the game was lawfully killed, and include the name of the sender and the number of animals enclosed.
- Shoot hawks, owls, or other wild birds, except lawfully hunted game birds, house sparrows or starlings.
- Possess live protected game animals.
- Obtain live rabbits from out-of-state without a health certificate.
- Permit dogs to run at large at any time. (Except landowners of 20 acres or more may permit their dogs to run from October 1 through February 28 on their own land.)
- Allow dogs to run at large between the hours of sunset and sunrise by any person on any day. All dogs must be licensed.
- Use bait to hunt game, except bait may be used to hunt deer on privately-owned lands.
- It shall be unlawful to release swine (pigs) into the wild, charge a fee for the purpose of killing swine, or shoot swine without first obtaining a permit from the Division.
- It shall be unlawful to use antler traps, or any device intended to remove or collect shed antlers from deer.

LEGAL METHODS OF TAKE:

Squirrel, Rabbit, Pheasant, Quail: Longbow or shotgun using no larger than No. 2 shot. Shotguns must be plugged to hold only 3 shells (in chamber and magazine combined). Additionally, squirrels only may be hunted with .17 through .22 caliber rimfire or .17 caliber pellet firearm with a rifled barrel or a muzzleloader rifle of not larger than .36 caliber firing a round projectile.

Snapping Turtles: May be taken with gig, trap, net or spear.

Frogs: May be taken with spear, gig, or hook.

Deer: Compound, recurve, longbow, and Crossbow using sharpened broadhead arrows (min. width 7/8 inch).

Shotgun no smaller than 20 gauge for deer hunting using rifle slug, pumpkin ball or buckshot and must be plugged to hold only 3 shells (in chamber and magazine combined). It is unlawful to carry buckshot, rifle slug or pumpkin ball except while hunting for deer, and conversely, it is also unlawful to carry shot smaller than buckshot while deer hunting.

Muzzleloader no smaller than .40 caliber, with a single barrel, no shorter than 20 inches, loaded with a single projectile through the muzzle and ignited by a flint striking a frizzen, percussion cap, or primer. Note: The black powder, or manufacturer's approved propellant, is no longer required to be loaded through the muzzle.

Handguns are limited to revolvers and single shot pistols with a barrel length of at least 5.75 inches and no longer than 12.5 inches and chambered for and using straight-wall handgun ammunition in .30 to .50 caliber with a cartridge case length of no less than 1.25 inches and a maximum case length of 1.82 inches, with the exclusion of .38 caliber, which shall have a minimum cartridge case length of 1.29 inches.

Straight-walled pistol-caliber rifles may only be used to harvest deer. For more information on these firearms, as well as restrictions on allowable cartridges, see page 23.

MISCELLANEOUS PROVISIONS:

Bullfrogs may be sold.

Deer killed by motor vehicle may be retained upon receiving a vehicle killed deer tag from a Delaware law enforcement agency or Division personnel.

TRANSFERRING HARVESTED GAME TO ANOTHER PERSON

No person shall put or leave any harvested game animal, game bird or non-native/invasive wildlife at any place (other than at their personal abode), or in the custody of another person for cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having taxidermy services performed, unless such animals have a tag attached, signed by the hunter, stating their address, the total number and species harvested, and the date such animals were killed. Notwithstanding the foregoing, the transfer procedures for harvested deer and turkeys shall follow the requirements described by regulation of the Department; which states a registration number shall be indicated on a possession tag that is affixed to the animal.

SELECTED DEFINITIONS

“Bait” shall mean any nontoxic food material, compound or mixture of ingredients which wildlife is able to consume.

“Baited Field” shall include any farm field, woodland, marsh, water body or other tract of land where minerals, grain, fruit, crop or other nontoxic compounds have been placed

Continued on page 15

Local ordinances may be more restrictive than state laws.
Check before hunting within incorporated areas.

GENERAL HUNTING INFORMATION

Continued from page 14

to attract wildlife to be hunted. A baited field is considered baited for 10 days following complete removal of all bait.

"Hunt" shall mean to chase, pursue, kill, trap, take, or attempt to chase, pursue, kill, trap, or take any form of wildlife.

"Direct Supervision" a person will be considered directly supervised while hunting if a person 21 years of age or older, who is the lawful holder of a hunting license or has a lawful right to hunt and has a License Exempt Number (LEN), is always within 30 yards and in direct line of sight of the supervised person. The supervising person must be lawfully allowed to hunt in Delaware.

"Possession" in addition to its ordinary meaning includes the location in or about the defendant's person, premises, belongings, vehicle or otherwise within his reasonable control.

"Seasons" shall be that period of time during which designated species of wildlife may be lawfully hunted pursuant to the regulations of the Department. It shall be unlawful to hunt those species of wildlife for which a "season" is designated at any time other than during that "season."

"Wildlife" shall be any animal species not commonly under the domestication of

man and including but not limited to those animals defined by statute as "game" or "protected wildlife."

"Antlered Deer" shall mean any deer with one or more antlers three inches long or longer, measured from the base of the antler where it joins the skull to the tip of the antler following any curve of the antler.

"Antlerless Deer" shall mean any deer that has no antlers or antlers less than three inches in length.

"Longbow" shall mean a straight limb, reflex, recurve or compound bow. All crossbows or variations thereof and mechanical holding and releasing devices are expressly excluded from the definition.

WHAT DO I DO TO REPORT GAME LAW VIOLATIONS?

Contact the Division of Fish and Wildlife Operation Game Theft Hotline Toll-Free at 1-800-292-3030 anytime, 24 hours a day. You will be given an OGT Case Number. You do not need to give your name at the time of calling. From this phone call, a Fish and Wildlife Natural Resources Police Officer will be dispatched or will return your call. Wildlife offenses need to be investigated

immediately by an officer if there is to be a chance of making an arrest. The longer the delay in getting information to the officer, the smaller the chances of obtaining an arrest and conviction.

PUBLIC OPINION

It is the desire of the Division of Fish and Wildlife to continue to provide the highest level of service to the public using our wildlife areas, boating access areas, ponds, and marine resources. The management of the Division of Fish and Wildlife invites comments or suggestions on the operation of our wildlife areas, wildlife management programs, wildlife laws and regulations, or any problems encountered with Division employees. To voice a comment or offer a suggestion, you may contact the office of the Director of Fish and Wildlife at 302-739-9910 or write to the Director of Fish and Wildlife at 89 Kings Highway, Dover, Delaware 19901. Your comments or suggestions will be forwarded to the proper individual for consideration.

A smartphone displaying the eRegulations app. The app has a black background with a logo consisting of a stylized 'e' and a hexagon. Below the logo, it says "eRegulations" in white, and "OFFICIAL REGULATIONS" in smaller white text. There is a search bar with the placeholder text "Select a state...". The phone is resting on a piece of wood with a camouflage pattern.

GENERAL HUNTING INFORMATION

OPERATION GAME THEFT INFORMATION

What is "Operation Game Theft"?

The Operation Game Theft Fund was established by the 130th General Assembly to assist in the apprehension and conviction of game law violators. The fund is comprised of all the fines levied for violation of game laws in this state and donations. The Legislature delegated the authority to the Division of Fish and Wildlife to designate offenses for which rewards will be paid and the amount of the reward.

What types of offenses are covered under the O.G.T. Program?

Up to \$1,000.00 can be rewarded for information leading to the arrest and conviction of a person(s) involved in:

Class 1 – Reward up to \$1,000.00

1. Commercialization of Wildlife.
2. Killing of an endangered/threatened species.
3. Violating any rule or regulation of the Department pertaining to antlered deer.

Class 2 – Reward up to \$500.00

1. Illegally hunting gamebirds to include waterfowl and turkeys.
2. Poisoning wildlife.
3. Hunting during license revocation without a license, or fraudulently obtaining or using a hunting or trapping license.
4. Gross over limits of wildlife.
5. Illegally hunting or trapping on a state game refuge.
6. Hunting/Trapping out of season.
7. Tending or setting body-gripping traps with a jaw spread in excess of 5 inches.
8. Illegally hunting at night or from a motor vehicle or vessel.

9. Guiding paid hunts without a guide license.
10. Violating any rule or regulation of the department pertaining to antlerless deer.
11. Willfully impeding lawful hunting or trapping.
12. Wanton waste of a game animal whereby a person killing a game animal did not make a reasonable effort to retrieve the wounded or dead animal.

Class 3 – Reward: up to \$100.00

1. Hunting or wounding wildlife with an unlawful weapon or firearm.
2. Trespassing to hunt or trap.
3. Using illegal or improperly tagged traps.

NOTE: An additional \$100 reward will be given by the Delaware Chapter of the National Wild Turkey Federation for information leading to the arrest and conviction of anyone illegally killing a wild turkey in Delaware.

How do I get paid?

You will be paid in cash by the agent to whom you gave your name.

Will my identity be confidential?

YES

Will I get paid for any information that I provide?

No. Only information which leads to the arrest and conviction of a violator. (Specific offenses covered)

**To report game law violations call:
1-800-292-3030**

REQUIREMENTS FOR HUNTERS UNDER 18 YEARS OF AGE

AGE	ARCHERY AND CROSSBOWS	MUZZLELOADERS	SHOTGUNS	CENTERFIRE RIFLES: INCLUDING STRAIGHT-WALLED PISTOL-CALIBERS	RIMFIRE FIREARMS	HANDGUNS	PELLET/AIR GUNS ¹
Under 16	Must be under Direct Supervision of someone 21 years of age or older						
16–17	May hunt without Direct Supervision	Must be under Direct Supervision of someone 21 years of age or older					May hunt without Direct Supervision
18 and over	May hunt without Direct Supervision						

¹ Only gray squirrels may be harvested with a pellet/air gun, and the caliber must not exceed .177. No other game species may be hunted with a pellet/air gun.

Definition:

"Direct Supervision"- a person will be considered directly supervised while hunting if a person 21 years of age or older, who is the lawful holder of a hunting license or has a lawful right to hunt and has a License Exempt Number (LEN), is always within 30 yards and in direct line of sight of the supervised person. The supervising person must be lawfully allowed to hunt in Delaware.

In June 2022, The Delaware General Assembly passed legislation, House Bill 451, which was subsequently signed by the Governor into law. This legislation amended the age in which a person can possess, purchase, and sell a firearm and other deadly weapons, including archery equipment. While this legislation did not specifically focus on hunting, the changes affect the activity. When passed, the legislation provided a 3-year grace period for which some aspects of the changes did not go into effect immediately. The grace period ended in June 2025.

On August 29, 2025, the Superior Court for the State of Delaware determined that Delaware's constitutional right to keep and bear arms extends to all Delawareans aged 18 or older. *Birney et al. v. Delaware Department of Safety and Homeland Security et al.*, Del. Superior Court C.A. No. K23C-07-019 RLG (Opinion dated August 29, 2025). This court decision affects Delaware's hunting supervision rules for the 2026-27 hunting seasons that begin Monday, September 1.

Please refer to the table above for information involving the changes and how the hunters of various ages are impacted regarding which firearms and archery equipment they may use.

DELAWARE BAYSHORE INITIATIVE

The Delaware Bayshore has long been recognized as one of the East Coast's most ecologically rich landscapes. Expansive tidal marshes, sandy beaches, coastal forests and migratory pathways that support shorebirds that travel thousands of miles are just some of the key features which make the Delaware Bayshore so unique.

The Division of Fish and Wildlife's **Delaware Bayshore Initiative** is dedicated to fostering deeper connections with the public and the landscapes that surround them. This effort includes strengthening partnerships to align shared priorities and goals. The Initiative also maintains a commitment to providing enhanced wildlife related outdoor recreational opportunities.

Hunters and anglers alike share in stewardship of protected lands. The Delaware Bayshore region features several popular public hunting areas such as the Cedar Swamp Wildlife Area, Ted Harvey Conservation Area, and Prime Hook Wildlife Area. These same lands provide exceptional opportunities to view migratory shorebirds, waterfowl and native wildlife in their natural habitats.

Discover the Delaware Bayshore.
Find out more at de.gov/Bayshore

THANK YOU

Thank You to Our Participating Deer Processors

The Division would like to sincerely thank the following deer processors for allowing us to collect CWD samples at their facilities last year. Their annual participation and involvement with our monitoring program is extremely important to the program's success.

Participating processors include:

- **Bobby's Deer Butcher Shop**
Middletown
- **Dutch Neck Deer Processing**
Middletown
- **Custom Cuts Millers Butcher Shop**
Camden-Wyoming
- **Custom Deer Cutting**
Milton
- **Mark's Meats & More**
Millsboro
- **Dickerson Custom Meats**
Laurel.

YOUTH HUNTING INFORMATION

The Division of Fish and Wildlife is committed to providing safe and responsible hunting opportunities for youth in Delaware.

The Division's established youth hunting programs support Delaware's Children in Nature Initiative, a statewide effort to improve environmental literacy in Delaware, create opportunities for children to participate in enriching outdoor experiences, combat childhood obesity, and promote healthy lifestyles. Delaware's multi-agency initiative, which partners several state and federal agencies with community organizations, is part of the No Child Left Inside program. To further promote the outdoors and getting youth involved with hunting and fishing, Ducks Unlimited, in collaboration with the Division will be hosting a Greenwing event in early Spring. For more information, please visit: <http://www.greenwingde.org>

HUNTER EDUCATION CLASSES

All persons born after January 1, 1967 are required to satisfactorily complete a Basic Hunter Education Course in order to obtain a Delaware Hunting License. Youth age 10 and older are eligible to take the Basic Hunter Education Course. Students under the age of 12 must be accompanied by an adult. Parents are reminded that younger students require a level of maturity and vocabulary sufficient for understanding

2026/27 SCHEDULED YOUTH HUNTS

Youth and Non-ambulatory Deer Hunt: September 26–27 and November 7–8, 2026

Youth and Non-ambulatory Turkey Hunt: April 3, 2027 and April 4, 2027

Youth, Veteran, and Active Military Waterfowl Hunting Days: Saturday, October 24, 2026 and Sunday, February, 7, 2027

adult subject matter and completing assignments. Students of smaller physical body size may find it very difficult or impossible to successfully complete the live firing exercise.

DIRECT SUPERVISION

A person will be considered directly supervised while hunting if a person 21 years of age or older, who is the lawful holder of a hunting license or has a lawful right to hunt and has a License Exempt Number (LEN), is always within 30 yards and in direct line of sight of the supervised person. The supervising person must be lawfully allowed to hunt in Delaware. Persons 21 years or older, directly supervising a hunter under the age of 13 while turkey hunting, must have completed an approved turkey hunting education course as well as meet the requirements above.

PURCHASING A HUNTING LICENSE

- Both resident and non-resident youth ages 13 through 15 must purchase a junior license to hunt in Delaware.

- Both resident and non-resident youth under the age of 13 must obtain a License Exempt Number (LEN) and must be under direct supervision by a person 21 years or older who is the lawful holder of a Delaware hunting license or has a lawful right to hunt in Delaware.
- Youth under the age of 16 do not need to purchase a State Waterfowl (Duck) Stamp.

FREQUENTLY ASKED YOUTH HUNTING QUESTIONS:

- Question:** If a youth licensed hunter (age 13–15) turns 16 in the middle of a hunting season, does that person need to purchase an adult hunting license?
Answer: Yes. In this case, the youth should consider purchasing an adult hunting license instead of a youth hunting license in anticipation of turning 16 during the course of the hunting season.
- Question:** Can a person under the age of 18 obtain a guide license?
Answer: No. Guides must be 18 years of age or older.
- Question:** Does an adult hunter directly supervising a youth hunting waterfowl need to have a license and waterfowl stamps if he/she is not hunting and not in possession of a firearm? Also, does the adult need a license and waterfowl stamps if he/she is calling, but not in possession of a firearm?
Answer: Youth hunters must be under direct supervision by an adult 21 years of age or older who is the lawful holder of a hunting license or has a lawful right to hunt and has a License Exempt Number (LEN). Accompanying licensed and license exempt adult hunters must also have a federal waterfowl (duck) stamp but only licensed hunters are required to have a state duck stamp, as well. If these criteria are not met, the adult DOES NOT have the lawful right to hunt (to include calling) and may not accompany the youth hunter.
- Question:** Does an adult directly supervising a youth hunting turkey need to have a license and turkey safety course card even if the adult is not hunting? Also, does the adult need a license and permit if he/she is calling but not in possession of a firearm?
Answer: Yes. The directly supervising adult must have a valid Delaware license and must have completed an approved turkey hunting education course. Also, the accompanying adult must be at least 21 years of age.
- Question:** Does a hunter with a Junior Hunting License need to have a State Wildlife Area Waterfowl Blind and Deer Stand Permit?
Answer: Yes, unless the hunter is participating in a Division of Fish and Wildlife youth hunting day and then the requirement to have this permit is waived.

DEER AND TURKEY HARVEST REPORT CARDS, POSSESSION TAGS, AND HARVEST REPORTING

DEER AND TURKEY HARVEST REPORT CARDS

The procedures after harvesting a turkey are continuing procedures from the previous year. Hunters will follow the same procedures that they have the last several years after harvesting a deer. Hunters will no longer receive tags that must be attached to a deer before the animal is moved from the place of kill. Instead, all hunters legally allowed to hunt deer and/or turkeys, will receive a Deer and/or Turkey Harvest Report Card which will show all of the "tags" available to the hunter based on what they are eligible for and/or have purchased.

Upon successfully harvesting a deer or turkey, and before the animal is moved from the place of kill or field dressed, the hunter must complete the appropriate section of their Harvest Report Card that represents the type of animal they harvested. This section must be punched, and the date of harvest must be recorded in permanent ink. See example below.

Once the deer or turkey is registered (no more than 24 hours following harvest) the 12-digit registration number is to be recorded in permanent ink on the card. **IMPORTANT: Hunters shall not remove the "tags" from their Harvest Report Cards for any reason, including being attached to a deer or turkey and the card should be kept as a complete document.**

Your applicable Harvest Report Card and Delaware Hunting License or LEN card must be in a hunter's possession while a hunter is hunting deer or turkeys. If a hunter purchases additional deer tags, they will receive an updated Deer Harvest Report Card that will reflect their original tags as well as the new tag(s). Additionally, if a hunter had already harvested deer or turkey and recorded their harvest information on their card, the harvest information will automatically be printed on the newly issued card. The most recently issued Harvest Report Card is the version that the hunter must keep in their possession moving forward, and all previously issued cards will no longer be valid.

If a harvested deer or turkey is no longer in a hunter's immediate possession, a Deer/Turkey Possession Tag must be affixed to the animal. See the Deer/Turkey Possession Tags section on this page for more information.

DEER/TURKEY POSSESSION TAGS

Hunters that successfully harvest a deer are no longer required to attach a tag to their deer at the place of kill before the deer is moved,

however they must complete the appropriate section on the Deer Harvest Report Card. See Deer Harvest Report Card section on this page for more information. Turkey hunters will also receive a Turkey Harvest Report Card and they too will need to complete the appropriate section on their Turkey Harvest Report Card. The only time a physical tag is required to be affixed to a deer or turkey is if the animal is no longer in the hunter's immediate possession, at which time the successful hunter must affix a Deer/Turkey Possession Tag. These tags can be found as in insert in the middle of the printed paper version of this guide, within your Digital DNREC account (<https://de.gov/DigitalDNREC>), on the FW website, at de.gov/ hunting or a hunter may make their own Deer/Turkey Possession Tags provided they include the hunters' name, license number, harvest date, and registration number once the deer or turkey has been registered.

Examples of what constitutes a deer or turkey leaving a hunter's immediate possession include dropping it off at a meat processor or taxidermist, donating a deer at one of the Division's maintained Delaware Hunters Against Hunger coolers, or hanging the deer or turkey to cool and the hunter leaving the area to go somewhere else. A good rule of thumb to determine if a possession tag is needed is; if a Natural Resource Police Officer encountered a hunter's deer or turkey and the hunter wasn't available to talk with the Officer, then the animal needs to have a Deer/Turkey Possession Tag affixed to the animal. For questions, please call 302-735-3600.

DEER AND TURKEY HARVEST REPORTING PROCEDURES

Successful turkey hunters will not have to take their turkey to a check station to have it registered. Instead, successful turkey hunters will follow the same harvest reporting procedures that deer hunters have followed.

All successful deer AND turkey hunters must register their deer or turkeys within 24 hours of harvest. Prior to registering a deer or turkey, hunters may not cut the meat or remove any part of the animal except the internal organs (known as the viscera). Hunters can register their deer or turkey by visiting <https://de.gov/DigitalDNREC> or by calling the toll-free number 1-855-DEL-HUNT (1-855-335-4868). Hunters will answer a series of questions regarding where the deer or turkey was harvested (county, wildlife management zone, land type, public land name if applicable, the weapon used, the harvest date, and information about the animal).

DEER HUNTER REMINDER: Hunters that harvest an antlered deer will be required to report the antler spread and number of points.

A ruler can be found on the bottom edge of pages 26 and 27. Spread will be reported as, "15 inches or greater" or "less than 15 inches", as measured across the outside of the main beams (antler spread) at their widest point; this measurement's path must be perpendicular to the center line of the skull and parallel to the top of the skull plate. See picture to the right for example where to measure.

When reporting the number of points, hunters shall report the number of points that are equal to or greater than one inch in length. If a point is broken off and less than one inch or a point is shorter than one inch than it should NOT be counted.

TURKEY HUNTER REMINDER: Hunters that harvest a turkey will be required to report the beard and spur length, as well as voluntarily provide the turkey's weight if that information is available. Measurements for beard and spur length are needed to the nearest 1/16 inch. A ruler can be found on the bottom edge of pages 26 and 27. Beard length will be measured from where the beard protrudes from the skin on the turkey's breast to the tip of the longest strand. See picture to the below (courtesy of Turkey Talk) for an example. If a turkey

has more than one beard, each beard will be measured and reported independently. Each spur will be measured from where the spur protrudes from the leg to the tip along the outer curvature. See picture below for an example. If a hunter has weighed their turkey,

they will be asked to voluntarily provide their bird's weight, but this is not a required entry. While not required, turkey weights are an important source of data to help biologists manage turkeys so if a hunter is able to weigh their turkey and report that information, they are encouraged to do so.

At the end of the questions, hunters will be given a 12-digit harvest registration number. This number will serve as proof the animal was checked and should be kept for your records and written in ink in the appropriate section on a hunter's Deer or Turkey Harvest Report Card.

If you have problems with this system, call 302-735-3600. Hunters that take their deer or turkey to a butcher shop or taxidermist will need to supply their registration number to the shop owner as proof the animal was registered.

DEER HUNTING SECTION

DEER SEASONS

SEASONS	DATES	ADDITIONAL INFORMATION
Archery	Statewide Sept. 1–Jan. 31	Hunters may use archery equipment when it is lawful to hunt deer with a firearm or muzzleloader provided they wear at least 400 square inches of hunter orange material displayed on the head chest, and back.
Crossbow	Statewide Sept. 1–Jan. 31	Hunters may use crossbow equipment when it is lawful to hunt deer with a firearm or muzzleloader provided they wear at least 400 square inches of hunter orange material displayed on the head, chest, and back.
Muzzleloader	Statewide Oct. 9–18 Jan. 25–Jan. 31	Muzzleloaders must be loaded from the muzzle using any manufacturer's approved propellant and they may be equipped with a scope.
General Firearm	Statewide Nov. 13–22 Jan. 16–24	Shotguns, muzzleloaders, handguns, authorized straight-walled pistol-caliber rifles, and archery equipment may be used during the general firearm seasons.
Special Antlerless*	Statewide Oct. 2–4, 23–25 and 30–31 Dec. 12–20	Shotguns, muzzleloaders, handguns, authorized straight-walled pistol-caliber rifles, and archery equipment may be used during the Special Antlerless only deer seasons. However, archery and crossbow hunters may take antlered deer during both of these seasons.
Handgun and Straight-walled Pistol-caliber Rifle	Season closed in Wildlife Management Zones 1A and 1B Jan. 2–10	Authorized straight-walled pistol-caliber rifles may be used during the handgun season. See page 23 for more season details.
Youth and Non-ambulatory Hunt	Statewide Sept. 26 and 27 and Nov. 7–8	Hunters may use archery equipment, muzzleloaders, shotguns, handgun, or authorized straight-walled pistol-caliber rifles.

* Straight-walled pistol-caliber rifles and handguns may be used during the Special Antlerless only deer seasons. However, archery and crossbow hunters may take antlered deer during the Special Antlerless only deer seasons.

** It is legal to hunt deer with a handgun and authorized straight-walled pistol-caliber rifle during any General Firearm deer season, including the Special Antlerless Seasons.

Only 2 antlered deer may be taken during any license year (July 1 – June 30) by all methods and seasons combined. There is no limit on antlerless deer provided a hunter has an antlerless deer tag in their possession before harvesting additional antlerless deer. Shotguns, straight-walled pistol-caliber rifles, muzzleloaders, and crossbows may be equipped with a scope.

DEER HUNTING SECTION

SUNDAY DEER HUNTING OPPORTUNITIES

Sunday deer hunting for established deer seasons is legal on private land at the discretion of the landowner and on designated publicly-owned lands. Deer seasons to include all statewide Sunday deer hunting dates are indicated within the table above. More information on statewide Sunday deer hunting dates and public lands open to Sunday deer hunting is available at the Sunday deer hunting website: <https://dnrec.alpha.delaware.gov/fish-wildlife/hunting/sunday/> or by calling the Wildlife Section office 302-739-9912.

DEER HARVEST REPORT CARDS AND "TAGS"

RESIDENT LICENSED HUNTERS

Delaware hunting licenses come with a Deer Harvest Report Card that contains 4 antlerless deer tags. Quality Buck Tags are available for \$20 and come with a free Hunter's Choice Tag and will be included on a hunter's Deer Harvest Report Card if purchased. The Hunter's Choice Tag can be used on an antlerless or antlered deer.

The Quality Buck Tag can only be used on an antlered deer with a minimum outside spread of 15 inches. Hunters will only be allowed to harvest a maximum of 2 antlered bucks (all seasons combined) by using the Hunter's Choice Tag and the Quality Buck Tag. All other deer taken must be antlerless. Additional antlerless deer tags are available for \$20 each.

This deer tag system has been implemented to encourage hunters to harvest antlerless deer and to promote quality bucks.

NON-RESIDENT DEER TAGS

Non-resident hunting licenses will come with a Deer Harvest Report Card that contains 4 antlerless deer tags. The cost of an Antlered Deer Tag and a Quality Buck Tag will be \$50 each for non-resident hunters. Hunters may purchase only one of each tag. If purchased, these "tags" will be added to the hunter's Deer Harvest Report Card. An antlered deer tag may only be used on a deer with one or more antlers measuring 3 inches or more.

LICENSED EXEMPT HUNTERS

Persons not required to purchase a hunting license in Delaware must obtain a License Exempt Number (LEN) and associated Deer Harvest Report Card. For more information about LENs, please refer to page 9.

License exempt hunters will receive a Deer Harvest Report Card that contains 4 antlerless deer "tags" and 1 Hunter's Choice deer "tag" for residents and 1 Antlered Deer "tag" for non-residents at no charge. License exempt hunters

may purchase a Quality Buck Tag using their annual mandatory License Exempt Number (LEN). The cost of a Quality Buck Tag is \$20 for resident or \$50 for non-resident license exempt hunters. If purchased, this tag will automatically be added to their Deer Harvest Report Card.

License exempt hunters are only allowed two antlered bucks during any license year by all methods and seasons combined. One free Hunter's Choice Tag and one purchased Quality Buck Tag.

QUALITY BUCK TAGS

Quality Buck Tags may only be used on an antlered deer with an outside antler spread of at least 15 inches. The distance between the tips of a deer's ears when both ears are held straight out from the head in the "alert" position is approximately 15 inches so a deer in which this tag would be applicable would generally need to have antlers that are at least as wide as the space between his ear tips.

Advice to Hunters and Rules Concerning Chronic Wasting Disease

What is CWD?

Chronic Wasting Disease (CWD) is a fatal disease that affects the brain and nervous system of deer and other cervids, including elk and moose. It is caused by abnormal, mis-folded proteins known as prions, which lead to progressive neurological damage and ultimately death. There are currently no treatments or vaccines available.

CWD in Delaware

Since 2003, Delaware has conducted extensive surveillance for CWD, testing 12,938 deer statewide with no prior detections. Following sampling efforts conducted during the 2025/26 hunting season, CWD was detected in two deer within Wildlife Management Zone 14, with one being close to the border of Zone 16.

Due to these detections, Wildlife Management Zones 14 and 16 are being identified as Delaware's initial CWD Management Zone [depicted in the map on the far right], which could change if additional deer are found with the disease. Additional guidance, including rules and regulations for hunters within the CWD management zone and across the state, is forthcoming and will be provided through a handout distributed in August everywhere hunting guides are available. Information will also be available on the Division's website at de.gov/cwd.

CWD spreads through direct contact between animals and indirectly through contaminated environments. Infectious prions can be shed in saliva, urine, feces, and blood, and may persist in soil and other surfaces for extended periods. Deer may carry and transmit the disease long before showing visible symptoms.

Although there is no known transmission of CWD to humans, the Centers for Disease Control and Prevention recommends that hunters have deer tested in areas where CWD has been detected and avoid consuming meat from animals that test positive.

Laws and Best Management Practices Pertaining to CWD

It is far easier and less expensive to implement precautions that minimize the risk of CWD infecting the Delaware deer population than it is to manage the disease after it has been detected. There are several things that individual hunters can do to minimize further spread of CWD spreading to our state.

It is unlawful to import or possess any carcass or parts of a carcass of any member of the family Cervidae (deer, elk or moose) originating from an entire state or Canadian province or portion thereof, as described by the Delaware Division of Fish and Wildlife in which CWD has been found in free-ranging or captive deer. Additionally, it shall be unlawful to import any carcass or part of a carcass of any member of the family Cervidae from a captive facility including those where deer and/or elk were released or confined in an enclosed (fenced) facility for the purposes of being hunted. Notwithstanding the foregoing, the following parts may be imported into the state:

- Boned-out meat that is cut and wrapped;
- Quarters or other portions of meat with no part of the spinal column or skull attached;
- Hides or capes with no skull attached;
- Clean (no meat or tissue attached) skull plates with antlers attached;
- Antlers (with no meat or tissue attached);
- Upper canine teeth (buglers, whistlers, or ivories); and
- Finished taxidermy products.

Regionally, the states of Maryland, Pennsylvania, Virginia, and West Virginia have confirmed the presence of CWD. From these states, hunters are restricted from bringing entire deer carcasses and may only bring the above mentioned parts from the counties in which CWD has been found. If hunters are hunting in portions of these states outside of those areas, they are not restricted from bringing their harvest back to Delaware.

CWD has been detected in 37 states including Delaware and 4 Canadian provinces. For a complete list of restricted areas within other states please visit de.gov/cwd or contact the Division at 302-735-3600.

Any person who imports into Delaware any deer carcass or parts of a deer carcass (e.g. antlers, meat, hide, etc.) that was tested for CWD by another state and is notified that the animal has tested positive for CWD must report the test results to the Division within 72 hours of receiving the notification by calling the Division at 302-735-3600.

CWD may be present in some locations but it hasn't been detected by natural resource agencies. Therefore, all hunters should properly dispose of any portions of their carcass not consumed or used for taxidermy by sealing all remaining parts, including the skeleton, hide, and scraps, in a trash bag and placing them with household waste for transport to a landfill. Do not dump your butchering scraps on the ground as wild deer in Delaware could come in contact with these parts and if the animal that

was processed had CWD, the wild deer could become infected after coming into contact with the scraps you put out on the ground.

Precautions for Hunters

Because CWD has a long incubation period and can be present before detection, hunters should follow proper precautions when handling and processing deer.

Hunters traveling to other states or Canadian provinces, especially where CWD has been detected, should review local regulations and guidance prior to hunting.

When hunting, avoid the use of natural deer urine; instead use synthetic products or removable scent stations. Do not harvest animals that appear sick or behave abnormally, and report such deer to the DNREC Division of Fish and Wildlife at de.gov/reportsickwildlife.

When field dressing and processing, wear latex or rubber gloves and avoid using household utensils. Remove all internal organs and avoid cutting through bones or the spinal column. Bone out the meat and minimize contact with high-risk tissues. Do not consume the brain, eyes, spinal cord, spleen, or lymph nodes. Trim away fat, connective tissue, and membranes.

After processing, thoroughly clean hands, tools, and surfaces. Disinfect equipment using a 50/50 bleach and water solution, allowing sufficient contact time before rinsing or drying.

For More Information on CWD

Additional information on CWD can be found at the CWD Alliance website www.cwd-info.org and on the Delaware Fish and Wildlife website de.gov/cwd.

Additional guidance is forthcoming and will be provided through a handout distributed statewide and on the Division website at de.gov/cwd.

DEER HUNTING SECTION

Continued from page 21

METHOD OF TAKE

HANDGUN HUNTING

Handguns legal for deer hunting are limited to revolvers and single shot pistols with a barrel length of at least 5.75 inches and no longer than 12.5 inches that use straight-wall handgun ammunition in .30 to .50 caliber with a case length no less than 1.25 inches and a maximum case length of 1.82 inches, with the exclusion of .38 caliber, which shall have a minimum cartridge case length of 1.29 inches.

The handgun must be carried openly on a sling or in a holster and not concealed. Handgun hunting for deer is only permissible on privately owned lands situated south of the Chesapeake and Delaware Canal and on many state-owned lands. Consult area maps for more details.

In addition to the January Handgun and Straight-walled Pistol Caliber Rifle Deer Season, it is legal to hunt deer with a handgun during the November and January General Firearm Deer Seasons and October and December Special Antlerless Deer Seasons.

STRAIGHT-WALLED PISTOL-CALIBER RIFLE

Only straight-wall cartridges usable in handguns may be used that are of .30 to .50 caliber with a case length no less than 1.25 inches and a maximum case length of 1.82 inches, with the exclusion of .38 caliber, which shall have a minimum cartridge case length of 1.29 inches. Case length excludes the bullet portion of the cartridge. These rifles cannot be loaded with more than three cartridges in the chamber and magazine combined when hunting deer. Open, metallic/mechanical, optical and telescopic sights may be used. These rifles cannot be used for deer hunting north of the Chesapeake and Delaware Canal. Furthermore, these rifles are not a legal method of take for any other species (except groundhogs), including red fox and coyotes.

SHARPS RIFLE

Hunters may use a single shot falling block, breech-loading antique or authentic reproduction black powder Sharps rifle of .45 to .60 caliber using paper patched cartridges for hunting deer during any general firearm deer seasons.

CROSSBOWS

Crossbows used must have a minimum pull weight of 125 pounds and have a mechanical safety, and may be equipped with a scope. Crossbows shall not be transported in or on a vehicle while in the cocked position.

VERTICAL BOWS

No person shall use a compound, recurve, or longbow with a pull weight less than 30 pounds.

BAITING

It is lawful to distribute and hunt over bait while hunting deer on privately owned lands only.

WHITE-TAILED DEER RESEARCH

DENSITIES AND ABUNDANCE

The Delaware Division of Fish and Wildlife is conducting a roadside infrared survey to monitor deer populations throughout the state. This survey uses specialized infrared cameras and laser rangefinders to detect deer along established roadside routes during nighttime surveys. The equipment allows observers to detect deer that may not be visible with traditional spotlight methods, helping improve detection in different habitat types. Survey routes will be distributed across all 18 wildlife management zones in Delaware to provide consistent coverage across the state. During each survey, observers record the number of deer detected and measure the distance to each group so population estimates can be calculated. This effort is part of a multi-year study designed to evaluate the accuracy and long-term usefulness of infrared roadside surveys as a reliable tool for monitoring Delaware's deer population densities and abundance.

HUNTER ORANGE

During a time when it is lawful to take a deer with a firearm, any person hunting any wildlife except migratory game birds in this state shall display hunter orange on that person's head, chest, and back totaling no less than 400 square inches combined. Furthermore, hunters pursuing small game (squirrels, rabbits, groundhogs, quail, or pheasants) on a State Wildlife Area must abide by the same hunter orange requirements at all times. If a hunter utilizes a ground blind to hunt deer during a time when it is lawful to take deer with a firearm and the hunter is completely concealed within a blind, then 400 square inches of hunter orange material shall be placed within 10 feet outside of the blind and at least 3 feet off of the ground.

STATE DEER RECORDS

The Division maintains records of the top hunter taken deer based on net Boone and Crockett scores on its website at de.gov/hunting. Any whitetails meeting Pope and Young minimums for bow kills (125 typical, 155 non-typical), Longhunter Society minimums for muzzleloader kills (130 typical, 160 non-typical), handgun (130 typical, 160 non-typical) and shotgun and straight-walled pistol-caliber rifles harvests of 140 typical and better and 160 non-typical and better are eligible for entry. The Division is interested in Delaware whitetails taken in any year; however, antlers cannot be scored until at least 60 days have passed since the deer was harvested. To have your deer scored by the Division, please call 302-735-3600 to schedule an appointment or if a hunter has their deer scored by an official measurer of one of the previously mentioned organizations, and it surpasses our minimum score requirements, a copy of the score sheet can be submitted to the Division and your entry will be added to Delaware's records book. For more information, please call 302-735-3600.

DELAWARE HUNTERS AGAINST HUNGER PROGRAM

In addition to the contracted private deer processors, the Division of Fish and Wildlife maintains walk-in coolers where hunters can drop off deer for donation to the Delaware Hunters Against Hunger Program (DHAH), formerly known as the Sportsmen Against Hunger Program (SAH). Only deer legally harvested in Delaware are eligible to be donated through this program. **Deer harvested out of state and meat from other game species will not be accepted.** All deer donated will be tested for CWD, which is tested by extracting lymph nodes located in the upper neck of the deer. Due to the need for testing, deer missing heads will not be accepted by this program. Tags will be provided at donation coolers and are required to be attached to the deer. A mobile cooler, new to the program, is also deployed to areas with the greatest need. For more information about walk-in cooler locations and participating deer processors, visit the Delaware Hunters Against Hunger website at <https://dnrec.delaware.gov/fish-wildlife/hunting/against-hunger/>. If you own and operate a private deer processing facility and would like more information about potentially becoming involved with the

DHAH program, please contact the Division at 302-735-3600.

YOUTH AND NON-AMBULATORY DEER HUNT, SEPTEMBER 26-27 AND NOVEMBER 7-8, 2026

Any youth less than 16 years of age and individuals that are non-ambulatory, and use a wheelchair for mobility, may hunt. Youth hunters must be under direct supervision by a person 21 years of age or older. Hunters 13-15 years of age must have completed a Hunter Education Course and possess a certification card and must also purchase a Delaware junior hunting license.

The normal bag limits and regulations apply. Adult companions must be licensed to hunt in Delaware (or exempt) but may not possess a firearm during the hunt.

Young hunters must be of sufficient size and physical strength to safely handle a firearm.

All deer taken must be registered.

Open statewide on private and public lands. On State Wildlife Areas that require a stand allocation drawing, the lottery drawing will be held 1.5 hours before legal shooting time. Hunters should arrive at least 1.5 hours before legal shooting time to sign up. The youth hunt

at Bombay Hook National Wildlife Refuge will be conducted on a first-come, first-serve basis at Steamboat Landing and Fischer Tract. Contact the refuge for information on how to sign up.

For more information on youth hunting, see the Youth Hunting section on pages 17 and 18.

DEER HUNTING HOURS

1/2 hour before sunrise until 1/2 hour after sunset.

DEER HUNTING ON PUBLIC LANDS

For information on deer hunting on public lands, see page 42 and visit the Delaware Division of Fish and Wildlife wildlife areas webpage at <https://dnrec.delaware.gov/fish-wildlife/wildlife-areas/>.

SELLING DEER PARTS OR DEER MEAT

No person shall purchase, sell or expose for sale, or transport, ship or possess with the intent to sell, any deer or any part of such deer, except

for the hides, completed taxidermy mounts, or antlers of lawfully killed deer, at any time.

Therefore, deer butchers may only charge for a service and may only charge those to whom they are providing the service. It is illegal to sell deer meat in Delaware. This includes the "recouping" of processing fees for items or meat not picked up by the legal owner.

SIKA DEER

WHAT TO DO IF YOU HARVEST ONE

Follow the same steps as you would if you harvested a white-tailed deer and register the deer as described on page 19 of this guide. During the registration process you will be asked if the deer you harvested was a white-tailed deer or sika deer. Please select sika deer. To aid in the management of sika deer, hunters that register a sika may receive a follow-up phone call, so that biologists can collect additional information surrounding the harvest.

WHERE ARE THEY FOUND?

Sika deer inhabit marshes, swamps, and associated woodlands and agricultural fields. Sika Deer are a small elk introduced from Asia (China, Japan, Korea, Taiwan) by private citizens into Maryland in 1916. Recently, their range has expanded and some individuals have been found in Delaware. As a result, the Division will allow Delaware hunters to harvest sika deer

while hunting for white-tailed deer. The sika deer population in Delaware is still very small and the Division would like to keep it that way. Sika deer are not native to the State, so following the Division's goal of not promoting nonnative species they may be harvested.

WHAT DO THEY LOOK LIKE?

They are 2.5 feet high at the shoulder, weigh 50-100 pounds and the sika deer coat is dark brown to black. Some even have faint white parallel spots on their back. They also have a white rump. Males (stags) are larger than females (hinds) and have antlers. Males also have a dark shaggy mane running down their neck.

FREQUENTLY ASKED QUESTIONS

Q: Will sika deer compete with white-tailed deer?

A: Research conducted in Maryland indicates that white-tailed deer and sika deer can coexist but recent surveys have shown that in some areas sika deer are more plentiful than white-tailed deer which suggests that sika deer may exclude and push white-tailed deer away from established territories. However, more research is needed to confirm this relationship.

Q: Will sika deer breed with white-tailed deer?

A: No, sika deer will not breed with a white-tailed deer as they are a separate species. Additionally, the breeding season for sika deer occurs in mid to late October, while the breeding season for white-tailed deer occurs in mid-November.

Q: Are sika deer related to white-tailed deer?

A: Sort of. Both sika deer and white-tailed deer are members of the deer family (Cervidae), but are of a different genus Cervus (sika deer) and Odocoileus (white-tailed deer). Sika deer are actually more closely related to Rocky Mountain elk than they are to white-tailed deer.

Delaware Wildlife Management Zones

WILDLIFE MANAGEMENT ZONE BOUNDARY DESCRIPTIONS

Zone 1A

All land north of the line created beginning at the Delaware Memorial Bridge and following Interstate 295 to its intersection with Interstate 95 to the Delaware/Maryland border.

Zone 1B

All land south of the line created beginning at the Delaware Memorial Bridge and following Interstate 295 to its intersection with Interstate 95, thence to the Delaware-Maryland border to the C&D Canal.

Zone 2

Land bordered north by C&D Canal, south by Route 6, east by Route 13, and west by the Maryland State Line.

Zone 3

Land bordered north by the C&D Canal, south by Route 6, east by the Delaware River, and west by Route 13.

Zone 4

Land bordered north by Route 6, south by Route 8, east by Route 13, and west by the Maryland State Line.

Zone 5

Land bordered north by Route 6, south by Road 18, east by Delaware Bay, and west by Routes 13 and 113.

Zone 6

Land bordered north by Route 8, south by Route 12, east by Routes 13 and 113, and west by the Maryland State Line.

Zone 7

Land bordered north by Route 12, south by Route 16, east by Route 13, and west by the Maryland State Line.

Zone 8

Land bordered north by intersection of Routes 13 and 113, south by Route 16, east by Route 113 and west by Route 13.

Zone 9

Land bordered north by Road 18, south by Route 1, east by Delaware Bay and Atlantic Ocean and west by Routes 113 and 1.

Zone 10

Land bordered north by Route 16, south by Route 20, east by Route 13, and west by the Maryland State Line.

Zone 11

Land bordered north by Route 16, south by Route 9, east by Route 113 and west by Route 13.

Zone 12

Land bordered north by intersection of Routes 113 and 1, south by Route 9, east by Route 1 and west by Route 113.

Zone 13

Land bordered north by Route 20, south by Maryland State Line, east by Route 13, and west by Maryland State Line.

Zone 14

Land bordered north by Route 9, south by Route 24, east by Route 113, and south by Route 24.

Zone 15

Land bordered north by Route 9, south by south shore of Indian River Bay, east by the Atlantic Ocean, and west by Route 113.

Zone 16

Land bordered north by Route 24, south by Maryland State Line, east by Route 113, and west by Route 13.

Zone 17

Land bordered north by Indian River Bay, south by the Maryland State Line, east by the Atlantic Ocean, and west by Route 113.

Delaware Deer Harvest at a Glance

Deer hunting in the First State has come a long way since 1954, when hunters harvested just 505 deer in the state's first recorded season. At the time, some worried that such numbers might be unsustainable—but history has shown otherwise. Today, Delaware's deer population remains strong, with annual harvests exceeding 16,000 in three of the last four seasons. In fact, this year's harvest of 18,823 deer marks the highest ever recorded in the state.

Delaware hunters are vital in maintaining a healthy and balanced deer population. Responsible hunting helps prevent overpopulation, which can lead to habitat destruction, increased vehicle collisions, and disease among deer herds. By participating in regulated hunting seasons, hunters contribute to conservation efforts that benefit both wildlife and the environment.

For more details on recent harvest numbers, visit de.gov/deer.

SMALL GAME SEASONS AND BAG LIMITS (INCLUDING SUNDAYS)

All seasons and limits subject to change. Please stay current by consulting the online version of this guide by visiting <http://www.eregulations.com/delaware/hunting/> or call 302-739-9912.

SEASONS	DATES	LIMIT*	ADDITIONAL INFORMATION
Gray Squirrel	Sept. 15–Feb. 28 Closed during Nov. General Firearm Deer Season	Daily 6	Gray squirrels may be hunted with shotguns statewide, .17 through .22 cal. rimfire and .17 cal. pellet firearms and muzzleloading rifles up to .36 cal. south of the C&D Canal. Only shotguns may be used north of the C&D Canal. When a squirrel season overlaps with a deer firearms season, squirrel hunters must wear 400 square inches of hunter orange displayed on the head, chest and back.
		Possession 12	
Cottontail Rabbit	Nov. 23–Feb. 28	Daily 4	Rabbits may be hunted with shotguns, compound, recurve, and longbows. Rabbit hunters must wear at least 400 square inches of hunter orange material displayed on head, chest, and back when hunting during any deer firearms season.
		Possession 8	
Groundhogs	July 1–June 30	No limit	Groundhogs are an unprotected species and may be hunted with longbows, crossbows, shotguns, muzzle-loaders, handguns, and rimfire or centerfire rifles. A hunting license is not required to hunt groundhogs.
Ring-necked Pheasant (Male Only)	Nov. 23–Feb. 28	Daily 2	Pheasants may be hunted with shotguns and longbows. Pheasant hunters must wear at least 400 square inches of hunter orange material displayed on head, chest, and back when hunting during any deer firearms season.
		Possession 4	
Bobwhite Quail (Pen-raised and released birds only)	Nov. 23–Feb. 28 Season closed for wild quail	No limit	It is unlawful to hunt wild quail. Quail may not be hunted without a permit from the Division and only pen-raised and released birds may be hunted. Please visit the Division's website for an application, de.gov/hunting under 'Licensing and Permits'

* No person shall have more than two times the daily bag limit at any one time when it is lawful to possess such wildlife. Any game bird or game animal that has been processed and stored for consumption at a person's permanent residence shall not count against the hunter's possession limit.

Hours: Upland game (except raccoons, opossums and frogs) 1/2 hr. before sunrise to 1/2 hr. after sunset. Raccoons and frogs may be hunted at night. Season for hunting on private shooting preserves is October 15–March 31.

NOTE: A minimum of 400 square inches of hunter orange worn on the head, chest, and back is required when hunting small game on a State Wildlife Area.

BULLFROG AND TURTLE SEASONS

SEASONS	DATES	LIMIT*	ADDITIONAL INFORMATION
Bullfrogs or Green Frogs	May 1–Sept. 30	Daily 24	May be taken with a valid hunting or fishing license. Daily and possession limits are aggregate between species. Collection by hand or using a hook, spear, or gig is permitted.
		Possession 48	
Snapping Turtle**	June 15–May 15	No limit	Snapping turtle minimum length is 11 inches on the curvature of the top shell. Traps must be tagged with trapper's name and address or current year's license number. Baited fish hooks are unlawful. A free snapping turtle permit number must be obtained and will be issued at the time of the trapping license purchase. Those interested in trapping on Division of Fish and Wildlife lands and state-owned ponds will need to contact the Regional Manager for an additional permit for those lands.
Diamondback Terrapin	Season Closed		

* No person shall have more than two times the daily bag limit at any one time when it is lawful to possess such wildlife. Any game animal that has been processed and stored for consumption at a person's permanent residence shall not count against the hunter's possession limit.

** Delaware Snapping Turtle Regulations require anyone who traps snapping turtles to obtain a free Snapping Turtle Permit Number and complete a MANDATORY harvest and effort report which is due by July 30. Failure to file a complete and accurate report may disqualify the trapper from obtaining a snapping turtle permit in the future. Please be sure to request this on your trapping application if needed. An additional snapping turtle permit is required for State Wildlife Areas and state-owned ponds and may be obtained through the regional office located within the county in which trapping is intended. Trapping snapping turtles on State Wildlife Areas is NOT exempt from the Conservation Access Pass if required.

DELAWARE SQUIRRELS

Sussex County hosts two species of diurnal tree squirrel: Gray and Delmarva Fox

Gray squirrels are quite common while Delmarva fox squirrels are so rare they are on the state Endangered Species list.

If you hold a Delaware hunting license, you are permitted to hunt gray squirrels but **NOT fox squirrels**. Before you shoot, take a good look at the squirrel in your crosshairs! In addition to looking different, Delmarva fox squirrels also behave differently; are more likely to walk on the ground rather than jump from tree to tree as with gray squirrels.

Delmarva fox squirrels are most likely to be found at, and around, the following areas to Assawoman Wildlife Area, Nanticoke Wildlife Area, Prime Hook NWR, Redden State Forest, and Trap Pond State Park. The squirrels have expanded out to surrounding woodlands so please take special care in those areas. In the case of Trap Pond, you are especially likely to see them in the Raccoon Pond Tract but they have also spread out as far as seven miles from the park.

If you have seen a Delmarva fox squirrel, please call the Species Conservation and Research office at 302-735-3600 or report the observation online at <https://dnrec.delaware.gov/fish-wildlife/conservation/fox-squirrel/sightings/>. If you have a camera, take a picture. Hunters often see the squirrels while hunting and we would love to hear about it if you do.

Gray Squirrel

FUR: Darker gray with rusty brown highlights

EARS: Longer and pointy

BELLY: White

SIZE: Smaller with less bushy tail

Delmarva Fox Squirrel

FUR: Silver gray with creamy to white belly, ears and muzzle (rarely have any brown fur)

EARS: Shorter and wider

BELLY: Creamy white

SIZE: 1½ times larger with fuller tail

TURKEY SEASON

Delaware's spring wild turkey hunting season will run from April 10, 2027–May 9, 2027. A special two-day hunt for youth and non-ambulatory hunters will occur on Saturday April 3rd and Sunday April 4th. Turkeys may be hunted 1/2 hour before sunrise until 1:00 PM. **Hunting on Sundays is now permitted for all gamebirds, including turkeys.** Public land permits can only be used on the property and season segment for which they are issued. Applications must be post-marked by January 8, 2027 to be processed for the lottery drawing.

Segment dates (A–D) for Public Land Permits are:

- (A) April 10–April 16
- (B) April 17–April 23
- (C) April 24–April 30
- (D) May 1–May 9

TURKEY HARVEST REPORT CARDS

All hunters legally allowed to hunt turkeys, will receive a Turkey Harvest Report Card which will show their turkey "tag" available to the hunter if they are legally allowed to hunt turkeys in Delaware. All hunters that have completed a Division approved turkey education course will receive a turkey harvest report card when they purchase a license or

obtain their LEN. Additionally, youth hunters under that age of 13 will also receive a turkey harvest report card when they obtain their LEN because they are eligible to hunt turkeys without taking the course, provided they are accompanied by an adult that has a hunting license or LEN and has completed the course. If you have taken the turkey education course but do not receive a turkey harvest report card when you obtained your license or LEN, please contact the hunter education program at 302-735-3600 x1. All hunters that completed the Division approved turkey education course after purchasing their license, or obtaining their LEN, will need to go to their Digital DNREC account at <https://de.gov/digitaldnrec> and reprint their license. The reprinted license will have a validation that shows they completed the course and they will be able to print their turkey harvest report card. For more information about the turkey education course please see page 48.

Upon successfully harvesting a turkey, and before the animal is moved from the place of kill, the hunter must complete the appropriate section of their Turkey Harvest Report Card. This section must be punched and the date of harvest must be recorded. Once the turkey is registered (no more than 24 hours following harvest) the turkey registration number is to be recorded in permanent ink on the card. **IMPORTANT:** Hunters shall not remove the "tag" from their Turkey Harvest Report Card for any reason, including being attached to a turkey and the card should be kept as a complete document.

Both the Turkey Harvest Report Card and Delaware Hunting License or LEN card must be in a hunter's possession while a hunter is hunting turkeys. If a hunter has already harvested a turkey and recorded their harvest information on their card the harvest information will automatically be printed on the newly issued card. If a harvested turkey is no longer in a hunter's immediate possession, a Turkey Possession Tag must be affixed to the bird. See the Turkey Possession Tags section on this page for more information.

TURKEY POSSESSION TAGS

Hunters that successfully harvest a turkey are not required to attach a tag to their turkey at the place of kill before the turkey is moved, however they must complete the appropriate section on the Turkey Harvest Report Card. See Turkey Harvest Report Card section on this page for more information. The only time a physical tag is required to be affixed to a turkey is if the turkey is no longer in the hunter's immediate possession, at which time the successful hunter must affix a Turkey Possession Tag. These tags can be found in the middle of the paper version of this guide, within your Digital DNREC account (<https://de.gov/digitaldnrec>), on the FW website, at de.gov/hunting or a hunter may make their own Turkey Carcass Tags provided they include the hunters' name, license number, harvest date and turkey registration number once the turkey has been registered.

Examples of what constitutes a turkey leaving a hunter's immediate possession include dropping it off at a processor or taxidermist. A good rule of thumb, if a Natural Resource Police Officer encountered a hunter's turkey and the hunter wasn't available to talk with the Officer, than the turkey needs to have a Turkey Possession Tag affixed to the animal. For questions, please call 302-735-3600.

LEGAL BIRDS AND BAG LIMIT

Bearded birds only. Bag limit is one turkey per season.

CALLS

All **non-electronic** calls are legal. For safety reasons, and to avoid potentially "calling" other hunters closer to your location, hunters should use caution if imitating a male gobbling call.

Continued on page 31

FIRST TIME TURKEY HUNTERS

All first time Delaware turkey hunters must successfully complete a Division approved Turkey Hunting Safety Course. This includes both public and private hunters. Public land hunters must have completed the Turkey Hunting Safety Course before they can apply for a public land turkey permit.

To register for a classroom Turkey Hunting Safety Course, call the Hunter Education Office at 302-735-3600 x 1.

Delaware also accepts two online turkey courses:

todayshunter.com/turkey101/
(Certification Fee \$29.99)

<https://recademics.com/hunting/delaware/turkey>
(Certification Fee \$25.00)

Note: Upon completion of the online course, students must contact the Hunter Education office at huntereducation@delaware.gov or 302-735-3600 x 1 to update their account to reflect course completion. Students will be required to submit a copy of their course completion certificate. Please include a phone number where the Hunter Education Office may call, in case there are any questions.

Continued from page 30

LEGAL FIREARMS, BOWS, AND SHOT SIZES

1. Shotguns (10, 12, 16, 20, 28, and .410 gauge), including smoothbore muzzleloading shotguns – 20, 16, 12, 10 gauge – legal shot sizes: #4 or smaller. All shot types are legal, including those comprised of tungsten super shot (TSS).
2. Longbow/compound/crossbow – Minimum broadhead width of 7/8 inches.
3. Crossbows may be used for turkey hunting. Crossbows must meet the same standards as for deer hunting.

CLOTHING

For safety reasons, it will be illegal to wear any visible garment having the colors red, white or blue.

BLINDS/DECOYS

Temporary blinds of vegetation or camouflage material are legal. Artificial turkey decoys are legal. Decoys may have no parts from a formerly live turkey.

RESTRICTIONS

Dogs or bait may not be used. All bait must be removed at least 10 days prior to hunting. Hunters may not drive turkeys or shoot them while they are at roost.

MANDATORY TURKEY SAFETY COURSE

Before hunting turkeys in Delaware for the first time, all hunters age 13 and older must complete a mandatory turkey education course. For more information, please see pages 30 and 48 of this guide. Upon successful completion of this course, hunters will need to reprint their hunting license (if they already have a license) as completion of the course will be indicated on the license. Hunters that have already successfully completed the course will no longer need to carry a card as proof of completion as long as their hunting license indicates they have completed the course. In addition, public land hunters must have an annual permit from the Division if hunting on a State Wildlife Area or from the Delaware Department of Agriculture if hunting on a State Forest.

Youth under the age of 13 are not required to complete a mandatory turkey education course but they must have a License Exempt Number and be under direct supervision by a person 21 years or older while hunting. See pages 17 and 18 for information related to the requirements for an accompanying adult.

PUBLIC LAND TURKEY PERMITS

A permit is needed to hunt turkey on public lands. See page 46 for the permit application form to hunt on State Wildlife Areas and federal National Wildlife Refuges. See page 43 for information on how to hunt on State Forest Lands. Hunters may only receive one public land permit each season, either a State Wildlife Area, National Wildlife Refuge, or a State Forest permit. The State Forest Lottery will be held after the State Wildlife Area and National Wildlife Refuge Lottery. Hunters that successfully receive a State Wildlife Area or National Wildlife Refuge permit, and applied for a State Forest permit, will have their State Forest application removed before the lottery takes place and they will not be eligible for the State Forest lottery. This system maximizes the number of individual hunters that have an opportunity to hunt on public lands each season.

YOUTH AND NON-AMBULATORY TURKEY HUNT

Open statewide. Any youth under 16 years of age and individuals that are non-ambulatory, and use a wheelchair for mobility, may hunt. Young hunters must be under direct supervision by an adult 21 years of age or older. Hunters 13–15 years old must have a valid Delaware junior hunting license and must have taken a Basic Hunter Safety course as well as a Delaware approved turkey hunter safety course.

Adult companions must be licensed to hunt in Delaware (or exempt) and must have taken a

Delaware approved turkey hunter safety class. Adult companions may not possess a firearm during the hunt. Young hunters must be of sufficient size and physical strength to safely handle a firearm.

The normal bag limits and regulations apply and all turkeys taken must be registered.

All state wildlife areas and state forests open for turkey hunting will be open for the Youth and Non-Ambulatory Turkey Hunt. Hunters may go to any areas they choose. If overcrowding occurs, the Division may add this hunt to its pre-season lottery system in future seasons.

For more information on youth hunting, see the Youth Hunting section on pages 17 and 18.

WILD TURKEY RESEARCH

HARVESTING LEG BANDED TURKEYS

To better understand turkey ecology and hunter success, wild turkeys have been captured and marked with leg bands and some have been fitted with radio transmitters to track their movements. Hunters should treat turkeys with transmitters and leg bands as they would an unmarked turkey. So that we can accurately evaluate turkey survival, hunters should not target marked birds or refrain from harvesting marked birds if they can tell they are banded prior to harvest as this will influence our research results. If a marked turkey is legal for harvest, then it may be harvested. If a hunter harvests a marked turkey, they are asked to call the phone number listed on the metal leg band, or the Division at 302-735-3600 so that information concerning the harvested turkey can be collected. Furthermore, hunters must still register their turkey in the same manner described within this Guide.

WILD TURKEY SIGHTING SURVEY

During the months of July and August, the Division asks hunters and the general public to submit their observations of turkeys as part of an annual survey of the population. Survey forms may be found in June on the Division's website at de.gov/turkeysurvey or may be obtained by calling 302-735-3600.

MIGRATORY BIRD HUNTING SECTION

DELAWARE MIGRATORY GAMEBIRD SEASON SUMMARY (INCLUDING SUNDAYS)

DUCKS	SEASON DATES	DAILY BAG LIMIT	POSSESSION LIMIT
Ducks (Regular Season)	Oct. 31–Nov. 7	6	18
	Nov. 25–Nov. 29		
	Dec. 16–Jan. 31		
September Teal	Sept. 5–Sept. 13	6	18
Limited to the designated teal zone south of the C&D Canal to north of Route 9 in Lewes, and east of Routes 13, 113/113A, and 1. Bag limit may include any combination of blue-winged and/or green-winged teal. See page 34 for a map of the zone.			
Youth, Veteran's, Active Military Waterfowl Hunt Youth must be under age 16.	Oct. 24 and February 7	See applicable species bag limits	See applicable species pos- session limits
During the Youth Waterfowl Hunt, participating eligible hunters may harvest ducks, mergansers, coots, moorhens, gallinules, Canada geese, snow geese, brant, and swans. The daily bag limit for each of these species is the same as their regular seasons.			
Daily Bag Limits and Possession Limits			
The daily limit of 6 ducks (excluding mergansers and coots) may include, in any combination, up to: 4 mallards (2 hens); 2 black ducks; 3 pintail; 2 canvasback, 3 wood ducks; 2 redheads; 1 scaup (2 per day from Jan. 12–Jan. 31), 6 teal; 6 shovelers; 6 gadwall; 6 wigeon; 6 goldeneye; 6 ring-necked ducks; 6 bufflehead; 6 ruddy ducks; 1 mottled duck; 1 fulvous whistling-duck; 4 total sea ducks (no more than 3 scoters; 3 eiders (1 hen); 3 long-tailed ducks). The possession limit is 3 times the daily limit. The season on harlequin ducks remains closed.			
Sea Ducks* Scoters, Eiders, and Long-tailed ducks	Same as Duck Season	See duck bag limits	See duck possession limits
* There is no longer a special sea duck zone with its own separate season dates or daily bag and possession limits. The season dates for sea ducks are the same as the Regular Duck Season and the Daily Bag and Possession Limits are included as part of the regular daily bag and possession limits. The shooting of crippled waterfowl from a motorboat under power will be permitted in the area not less than 800 yards (1/2) mile seaward from the Delaware Bay shore or the Atlantic Ocean shore beginning at an east-west line between Port Mahon and the Elbow Cross Navigation Light, south to the Delaware-Maryland line.			
Coots	Same as Duck Season	15	45
Mergansers**	Same as Duck Season	5	15
** There is no longer any bag limit restrictions on hooded mergansers. The daily bag limit of 5 may be an aggregate of hooded mergansers, common mergansers, and red-breasted mergansers.			
GEESSE AND BRANT	SEASON DATES	DAILY BAG LIMIT	POSSESSION LIMIT
Canada Goose (Resident)			
See map on page 34 for the boundaries of the Special Teal Zone.			
Outside the September Teal Zone	Sept. 1–Sept. 25	15	45
Inside the September Teal Zone	Sept. 1–Sept. 4 ¹	15	15
	Sept. 5–Sept. 13 ²		
	Sept. 14–Sept. 25 ¹		
¹ Inside the September Teal Zone during these dates, special hunting methods allowed. See pages 34 and 35 for more details.			
² Inside the September Teal Zone during these dates, special hunting methods are NOT allowed. See pages 34 and 35 for more details.			
Canada Goose (Migratory) Including White-fronted geese	Nov. 25–Nov. 29	2	6
	Dec. 23–Jan. 31	2	6
Brant	Dec. 19–Jan. 2	1	3
	Jan. 16–Jan. 30	1	3
Snow Goose Including Ross' goose	Nov. 25–Jan. 31	25	No limit
	Feb. 1–Feb. 6	25	No limit
	Feb. 8–Mar. 10	25	No limit
Bombay Hook National Wildlife Refuge open Mon., Wed., and Fri. with permission of Refuge Manager.			
Snow Goose Conservation Order	Potentially suspended. Please check https://dnrec.delaware.gov/fish-wildlife/hunting/migratory-birds/ for further information after July 2026.		
When the regular season is open and no other waterfowl seasons are open, unplugged shotguns and e-callers may be used to harvest snow geese. In addition, during the CO, shooting hours will be extended to ½ hour after sunset and both daily bag limits and possession limits will be eliminated. Hunters who wish to participate in the CO must register for a free, annual permit, available by visiting https://de.gov/DigitalDNREC . Participants are required to re-visit this website after the CO has closed to report their harvest to the Division of Fish and Wildlife. Snow geese, including Ross' geese, may be harvested on Sunday, February 7, 2027 within the regular season framework. No liberal methods allowed during the Conservation Order may be allowed this day and a daily bag limit of 25 applies.			
SWANS	SEASON DATES	DAILY BAG LIMIT	POSSESSION LIMIT
Tundra Swan (By special permit ONLY)	Nov. 8–Jan. 31	1 per season	1 per season
Mute Swan	Legal to take during any open waterfowl season	No limit	No limit
(Closed during the Snow Goose Conservation Order)			
Trumpeter Swan	Closed Season	0 - Closed Season	0 - Closed Season

MIGRATORY BIRD HUNTING SECTION

OTHER SPECIES	SEASON DATES	DAILY BAG LIMIT	POSSESSION LIMIT
Mourning Dove	Sept. 1–Sept. 27 ¹	15	45

Moorhens and Gallinules	Sept. 1–Nov. 9	15	45
Crow ⁴ Friday, Saturday and Sunday only	July 3rd, 2026–Mar. 26, 2027 and Jun. 24–27, 2027	No Limit	No Limit

To view regulations for hunting of migratory game birds, see:

- USFWS complete Federal Regulations (50 CFR Part 20): <https://www.ecfr.gov/current/title-50/chapter-I/subchapter-B/part-20>
- Synopsis of Federal Regulations: <http://de.gov/migbirdhuntref>

NOTE: When State law is different from the Federal law the hunter must comply with the most restrictive law.

NOTE: The shooting hours for all mute swans and migratory game birds, including waterfowl except during the Snow Goose Conservation Order, are 1/2 hour before sunrise until sunset.

NOTE: No person shall have more than three times the daily bag limit of migratory birds at any one time when it is lawful to possess such wildlife. Any migratory bird that has been processed and stored for consumption at a person's permanent residence shall not count against the hunter's possession limit.

NOTE: You cannot put or leave waterfowl at any place or in the custody of another person unless you tag the birds with your signature, address, number of birds identified by species, and the date you killed them.

DISCLAIMER:

Season dates and bag limits are contingent upon approval from the US Fish and Wildlife Service. Please check <https://www.eregulations.com/delaware/hunting/migratory-bird-seasons-bag-limits> in September for the final season dates and bag limits.

HARVEST INFORMATION PROGRAM – H.I.P.

If you are a Delaware migratory bird hunter (ducks, geese, swans, doves, woodcock, rails, snipe, and coots), you **MUST** obtain a new H.I.P. number each year which are valid from July 1st through June 30th of the following year. Note: If the only migratory birds that you intend to hunt are crows, you do not need to obtain a H.I.P. number. H.I.P. is the “Harvest Information Program” which is required by the U.S. Fish and Wildlife Service (USFWS). Under the Harvest Information Program, migratory bird hunters need a special permit to hunt. A H.I.P. number is specific to each state so a hunter will need a different number for each state they hunt migratory birds in. To get the permit, hunters have to provide their name and address, and answer a few questions about their previous year’s hunting effort and success. This information is collected by the state, remains totally confidential, and goes immediately to the USFWS which randomly selects hunters to receive a survey form. If you are going to hunt migratory birds in Delaware, you **MUST** have a H.I.P. number. To obtain your number please visit <https://de.gov/DigitalDNREC> or call toll free 1-855-335-4868.

THIS PERMIT IS FREE. Hunters shall record their 6-digit H.I.P. number on their hunting license. If the H.I.P. number is obtained at the same time the license is acquired, or if a hunter reprints their license after receiving their number, it will automatically be printed on the license.

NON-RESIDENT 3-DAY HUNTING LICENSE

- The non-resident 3-day hunting license may be used to hunt waterfowl provided the hunter has purchased the Federal Duck Stamp and state waterfowl (duck) stamp and has a H.I.P. number.
- When purchasing your waterfowl (duck) stamp on the electronic systems, the stamp image is printed on your license if you purchase your hunting license at the same time. If you purchase the stamp separately you will receive the stamp image. The Division no longer mails original waterfowl (duck) stamps automatically at the end of the season (June 30th of each year). If you would like an original stamp sent to you please answer “yes” to the question at the time of purchase or call 302-739-9918 and provide your name, address and order ID number after you purchase the electronic stamp.

YOUTH, VETERANS, AND ACTIVE MILITARY WATERFOWL HUNTING DAYS

In 2025–2026, we included Veterans and Active Military personnel for our two special hunt days, and it will be the same for the 2026–2027 Waterfowl Hunting Season. This hunting season, the two special hunt days will

be Saturday, October 24, 2026 and Sunday, February 7, 2027.

Youth participation will be open statewide on private and public lands, including state wildlife areas; however, Veterans and Active Military personnel will be limited to private lands only. The federal National Wildlife Refuges will be open on Saturday, October 24, 2026 and Sunday, February 7, 2027 for youth hunters only. The lottery drawing for state blinds is 2 hours before sunrise except for the Little Creek WA where the drawing is 2 1/2 hours before sunrise. Hunters should arrive a 1/2 hour before the lottery to sign-up.

Youth includes children under 16 years old, and they must be under direct supervision by a licensed adult 21 years of age or older. No state or federal stamps are required. Hunters that are 13–15 years old must purchase a Delaware junior hunting license. Regular season limits and waterfowl hunting regulations apply. Adult companions must be licensed to hunt in Delaware (or exempt) but may not possess a firearm during the hunt. For more information on youth hunting, see the Youth Hunting section on pages 17 and 18.

Active Military includes members of Armed Forces on active duty, including National Guard and Reserves (other than active duty for training). Veterans includes those who served in the active military, naval or air service and who were discharged or released therefrom under conditions other than dishonorable. Participants in Veterans/Active Military Waterfowl Hunting Days must carry while hunting one of the documents which applies to their status to be eligible to participate:

1. Active military identification card
2. Copy of honorable discharge certificate DD-214

Participants must have a hunting license, HIP certification, and state and federal duck stamps. Regular season limits and waterfowl hunting regulations apply.

SEPTEMBER RESIDENT GOOSE SPECIAL HUNTING METHODS INSIDE AND OUTSIDE OF THE SEPTEMBER TEAL ZONE

In 2025–2026, we included special hunting methods during the September Resident Canada Goose Season with some restrictions around the September Teal season and it will be the same for the 2026–2027 Waterfowl Hunting Season, except a difference in hunting season dates due to the earlier teal season. These special hunting methods include extended shooting hours of ½ hour before sunrise through ½ hour after sunset, unplugged shotguns, and

Continued on page 36

MIGRATORY BIRD HUNTING SECTION

Continued from page 35

the use of electronic calls. However, by federal law, the special hunting methods may not be allowed when another waterfowl season is open. Due to the overlap of the later portion of the resident Canada goose season with the September Teal Season, the September Teal Zone (map on page 34), will be open to resident Canada goose hunting and teal hunting at same time, from Sat. September 5–13, but the special hunting methods (extended shooting hours, unplugged shotguns, and the use of electronic calls) will NOT be allowed during this time. Inside the September Teal Zone, these special hunting methods will be allowed for resident Canada geese from September 1–4 and September 14–25 because the September Teal Season is not open then. Outside of the September Teal Zone, these special hunting methods will be allowed during the entire September Resident Canada Goose season from September 1–25.

MANY WATERFOWL REGULATIONS WERE ADOPTED THROUGH FEDERAL REGULATIONS.

HUNTING FROM BOATS

During the waterfowl season, it shall be unlawful for any person to hunt from a boat of any

kind that is within 1,500 feet of an established blind, unless they have permission from the blind owner, except that:

- Any person may retrieve crippled waterfowl by the use of a boat in accordance with Federal Regulations
- Any person may use a boat for transportation to and from an established blind lawfully used by such person
- Any person may hunt from a boat that is firmly secured and enclosed in an established blind.

During the waterfowl season, it shall be unlawful for any person to hunt from a boat, or a floating or fixed blind in the Little River in areas bounded on both sides by land administered by the Division.

During the waterfowl season, it shall be unlawful for any person to hunt within 900 feet of the shoreline (high tide line) of the Delaware River and Bay, between the Appoquinimink River and the Smyrna River, without written permission of the closest adjoining landowner(s). Furthermore, it shall be unlawful for any person to hunt within 1,500 feet of the shoreline (high tide line) of the Delaware River and Bay, between the Smyrna River and the Murderkill River, without written permission of the closest adjoining landowner(s).

It shall be unlawful for tender boats servicing gunning (layout) rigs to be further than 1,500 feet from the rig or to conduct any activity, except to pick up downed birds or service the rig.

SNOW GEESE

Hunters are reminded that Delaware and Maryland have a reciprocal agreement for hunting snow geese. Delaware hunters can hunt snow geese in Maryland with their Delaware hunting license provided they have a Maryland Migratory Game Bird Stamp, a Federal Duck Stamp, a Maryland H.I.P. number and are in compliance with Maryland Hunter Safety laws. Delaware resident guide license holders should refer to the "Delaware Guide/Hunt License" section on page 11 for information related to reciprocity in other states. Maryland resident hunters can hunt snow geese in Delaware with their Maryland resident hunting license provided they obtain a Delaware License Exempt Number (LEN) specifically for hunting snow geese and they must obtain a Delaware Waterfowl (Duck) Stamp, a Federal Duck Stamp, a Delaware H.I.P. number and are in compliance with the Delaware Hunter Safety laws. When obtaining the LEN, Maryland residents will be asked to provide their Maryland DNR ID number. For more information about how to obtain a LEN see page 9. This agreement only applies to residents of Maryland and Delaware.

CONSERVATION ORDER

Since 1965, the Canadian Wildlife Service has conducted an annual photographic survey in southern Quebec in May to count greater snow geese. In 2025, the greater snow goose population estimate was 428,000 birds, which is below the population goal range of 500,000 – 750,000 birds and 32% lower than the 2024 survey estimate of 628,000 birds. Since the population objective is below the goal range, there has been discussion amongst the states that offer the CO to suspend the CO until the population rebounds. Survey results for 2027 will not be available until July, after the hunting guide is printed. If the population is below 500,000, we may suspend the CO for 2027. In anticipation of this, we have pushed the regular season snow goose season dates to November 25-January 31; February 1-February 5, and February 6-March 10. If the population estimate is above 500,000 in July, we will continue with the CO from March 11-April 9, 2027. The results of the continuation or suspension of the CO will be posted on the Division of Fish and Wildlife website.

If the CO for 2027 is held, the following applies: it will reopen during the winter and spring after other waterfowl hunting is closed. When the CO is open, snow goose hunters can use unplugged shotguns and electronic calls. Hunting hours are extended to a half hour before sunrise to a half hour after sunset and daily bag and possession limits are removed. All snow goose hunters during the CO must have a valid hunting license or a Delaware

Upland Bird Hunting and Dog Training

Bird Hunting At Its Best!

360 acres of managed cover, farm fields and wooded area.

Birds Offered:
Pheasant, Chukar and Quail.

Hunting Season:
Open October 1st through March 31st, seven days a week. Only one hunt party is on the preserve at a time, so every hunt is a private hunt.

Dog Training:
Gun dog training offered for all pointing & flushing breeds.
Annual Huntsmith training seminars.

www.masondixonoutfitters.com | Pylesville, MD

NON-TOXIC SHOT

Non-toxic shot, as approved by the U.S. Fish and Wildlife Service, is required for all waterfowl hunting within the State of Delaware. **There are no exceptions.** For a list of currently approved non-toxic shot types visit <http://de.gov/migbirdhuntref>.

WILDLIFE VIEWING OVERLOOK SPOTLIGHT

Assawoman Wildlife Area

The Assawoman Wildlife Area is a popular destination in eastern Sussex County on the Little Assawoman Bay. The wildlife area offers diverse opportunities for hunting, fishing, hiking and wildlife viewing. Historically, this site featured a 50 foot tall observation tower overlooking Mulberry Pond. However, this former fire-tower styled structure offered limited accessibility for many visitors. In response, a new larger facility was designed to accommodate all visitors and enhance public opportunities for outdoor nature-based recreation.

Nestled along Mulberry Pond within the Assawoman Wildlife Area, the new wildlife viewing boardwalk was constructed in early 2026. The boardwalk features a loop trail that leads visitors to an ADA accessible ramp, offering forest views, as well as a series of observation platforms overlooking Mulberry Pond and Sixty-Five Acre Pond. These managed impoundments support a rich diversity of wildlife, including wading birds, migratory shorebirds and wintering waterfowl. Take the opportunity to look out for the elusive Delmarva Fox Squirrel and do your part by reporting a sighting.

Come discover new wildlife viewing opportunities at the Assawoman Wildlife Area.

SWAN IDENTIFICATION

Tundra Swan

- Regulated season by permit only:
» 1 Permit/person/season
- **Adult:** large and entirely white with a long neck, with black wedge shaped bill showing a small yellow spot on the black facial skin in front of the eye
- **Juvenile:** pale dusky-brown/gray with extensive white highlights and a mostly pink bill with black tip

Mute Swan

- Currently allowed to be harvested during any waterfowl season
- Unlimited take
- Non-native/exotic
- **Adult:** large and entirely white with a long neck, bright orange bill, black skin around face with large black knob at the base of the upper part of the bill
- **Juvenile:** pale dusky-brown/gray with extensive white highlights and a mostly pink bill with black base. Small black knob at the base of the upper part of the bill

Trumpeter Swan

- Closed Season
- Few records in Delaware
- **Adult:** large and entirely white with a long neck, with black wedge shaped bill, black facial skin in front of the eye
- **Juvenile:** pale dusky-brown/gray with extensive white highlights and a pink center to a black bill

2026/27 Application for Tundra Swan Permit

Application Information:

- Print all information clearly. Illegible information could result in application being rejected.
- Submitting more than one application per individual will result in disqualification.
- Awarded permits are non-transferrable. Only successful applicants will be notified.
- Successful hunters chosen during the lottery must obtain a valid hunting license or License Exempt Number by September 15, 2026

Hunter's Name: _____

Date of Birth: _____

Address: _____

Telephone Number: _____

City, State, Zip: _____

Email Address: _____

License # or LEN: _____

*Mail swan applications to: **Wildlife Section, Tundra Swan Permit Application, 6180 Hay Point Landing Road, Smyrna, DE 19977**

The Wildlife Section must receive the Tundra Swan Permit application by **4:00 PM on Friday, August 14, 2026**. Late applications will not be accepted. No exceptions.

MIGRATORY BIRD HUNTING SECTION

Continued from page 37

License Exempt Number (LEN) if exempt from licensing requirements. Licensed hunters age 16 or older must purchase a Delaware Waterfowl Stamp. Maryland residents that can legally hunt in Maryland and have not purchased a Delaware nonresident license or obtained a Delaware LEN, may hunt snow geese in Delaware without a license if they obtain a snow goose-specific Delaware LEN. Hunters under this exemption must still purchase a Delaware Waterfowl Stamp if they are age 16 or older. All other nonresident hunters must have a Delaware nonresident hunting license or a valid Delaware LEN. Hunters age 16 or older must purchase a Delaware Waterfowl Stamp unless exempt from Delaware licensing requirements. A federal migratory bird (duck) stamp and a Delaware Harvest Information Program (HIP) number, are not required to participate in the CO. Holders of a Delaware resident guide license should refer to the "Delaware Guide/Hunt License" section on page 11 for information related to reciprocity in other states. All hunters hunting during the snow goose CO must register for a free permit number before hunting. Your registration number can be obtained by visiting de.gov/DigitalDNREC or by calling 1-855-DEL-HUNT (1-855-335-4868). THIS PERMIT IS FREE. The need for the Delaware Waterfowl (Duck) Stamp follows the requirements on page 8 of this guide as related to hunter age. Hunters shall record their 6-digit snow goose CO number on their hunting license. If the snow goose CO number is obtained at the same time the license is acquired, or if a hunter reprints their license after receiving their number, it will automatically be printed on the license. Hunters will also be provided a log to help them keep track of their hunting effort during the CO. When they are finished hunting, or by April 30, 2027, hunters are required to report their hunting effort by visiting de.gov/DigitalDNREC and logging into their profile or by calling 302-735-3600.

TUNDRA SWANS

Tundra swans may be hunted by permit only. Hunters are eligible for one permit annually and are limited to one tundra swan per season. Permits will be issued through a random lottery. Hunters selected during the lottery will be notified in early September. The application for the lottery may be found below and all applicants must have a valid hunting license or valid License Exempt Number by September 15, 2026. If not, their permit will be forfeited and issued to another hunter. Permits are valid statewide but landowner permission is required to hunt on privately-owned land and hunters should refer to the information provided with their permit for rules concerning when and where tundra swan hunting is allowed on publicly-owned lands. Up to 272 permits will be issued during the 2026/27 tundra swan hunting season through a random lottery run by the Division. The number of permits available to non-residents will be capped and shall not exceed the percentage of non-resident hunters as determined from the most recent year for which hunting license

sales were certified (17.2%). For the 2026/27 swan season, up to 46 tundra swan permits will be awarded to non-residents. If permits remain available after all applying Delaware residents have been issued a permit, the cap may be exceeded and any additional permits will be issued to non-residents. The Division will issue a non-reusable tag with each permit that the successful hunter must immediately affix to the bird at the time of kill. Hunters that harvest a tundra swan are not required to register their bird in-person. Hunters must report their swan harvest using the Delaware Tundra Swan Survey and return envelope included with their permit. All hunters receiving a permit to hunt tundra swans in Delaware, must return the survey to the Division at the end of the tundra swan season even if they do not hunt, or hunted but did not harvest a tundra swan. Hunters who fail to return the survey will be ineligible for future tundra swan lotteries.

CAUTION: Shot carries beyond the lethal range. Hunters should use extreme caution when selecting the direction they shoot in.

WOOD DUCK BOX PROGRAM

Plastic Bellrose wood duck nest boxes are available to Delaware property owners for purchase through the Division of Fish and Wildlife's regional wildlife offices. Nest box costs are subsidized with State Waterfowl Stamp funds. Because of these subsidies, these \$60 nest boxes can be purchased from the Division for just \$30. Contact a Division of Fish and Wildlife regional manager to learn more!

New Castle County: 302-834-8433

Kent County: 302-284-4795

Sussex County: 302-539-3160

DELAWARE WATERFOWL (DUCK) STAMP PROGRAM

2027 Delaware Waterfowl (Duck) Stamp

The Division of Fish and Wildlife, in partnership with Delaware Ducks Unlimited, began the waterfowl stamp and print program in 1980 to raise funds for waterfowl conservation, including acquiring and improving the wetland habitats that are vital for the survival of migratory waterfowl. These funds improve waterfowl habitat in Delaware and Canada and help to ensure that waterfowl species will prosper and provide enjoyment for generations to come.

All 2026 entries submitted had to depict a Northern Shoveler in a marsh setting. The 2026 prints and stamps (as well as the 2024 and 2025 prints and stamps) will be available July 1, 2026. After June 30, 2027 the 2023 prints and stamps will be destroyed in accordance with the waterfowl stamp program policy. For information on the Delaware Waterfowl Stamp Program, or to reserve and purchase prints/stamps, contact the Division at 302-739-9918 or visit our website: <http://de.gov/waterfowlstamp>.

BOATING SAFETY

Each year more hunters die from drowning and the effects of hypothermia than from gunshot wounds. Statistics show that the majority of capsizing and falls overboard occur with boats less than 20 feet in length. Some boat designs are not as stable as others. Hunters often use smaller, more easily transportable crafts like john boats, bass boats or canoes. These types of boats, because of their flat bottoms or narrow beams, are more prone to swamping or capsizing. Personal Flotation Devices (PFD's) are essential and should be worn at all times. Special wearable flotation vests and coats for hunting are available and are comfortable and warm for the coldest duck and goose hunting days.

ENGINE/PROPULSION CUT-OFF SWITCHES

In 2021, the US congress passed the "Engine cut off switch mandatory wear" law. It requires the operator to wear the ECOS (engine cut off switch) device on certain recreational vessels less than 26 in length with an engine capable of 115 lbs., which equates to about three horsepower or more. It also requires operators to use ECOS link while navigating on plane or above displacement speed. Using the ECOSL is not required when the main helm is installed within an enclosed cabin. For more information regarding this law please refer to the U.S. Coast Guard's FAQs at <https://uscgboating.org/recreational-boaters/engine-cut-off-switch-faq.php>

PRIMARY CAUSES OF HUNTING-RELATED WATER DEATHS:

- Hypothermia – The rapid loss of body heat in cold water
- "Dry" Drowning – Constriction of the throat due to a sudden inrush of water, resulting in suffocation
- "Wet" Drowning – The displacement of air in the lungs with water
- Massive Heart Attacks in older, out-of-shape non-swimmers in cold water
- Being run over by own boat, especially when starting in gear and not wearing your engine cut-off switch

Most drownings could have been prevented. Drownings occur because the victim made the wrong decision; did not realize the dangers of boating in rough, cold water; was not properly prepared; had the wrong equipment; or failed to wear a PFD (life jacket).

BOATING SAFETY TIPS:

- Wear your PFD (life jacket)
- Never cross large bodies of water during rough weather in a boat that can't take the conditions due to size and/or overloading.
- Stay with your boat if you capsize and can't get to shore. Try to climb on it.
- Avoid standing up or moving around the boat.
- Never move about your boat with a loaded firearm.
- Read the capacity plate attached to the inside hull as a guide to keep from overloading your boat.
- Distribute your gear evenly.

DELAWARE SMALL BOAT EQUIPMENT REQUIREMENTS

EQUIPMENT	CLASS A (LESS THAN 16 FEET)	CLASS 1 (16 FEET TO LESS THAN 26 FEET)
1. Annual registration fee	\$20.00	\$40.00
2. Decals and boat number	Display properly on bow	Display properly on bow
3. Personal flotation Device (PFD)*Must be serviceable (see below)	One approved wearable PFD for each person on board	One approved wearable PFD for each person on board plus one throwable PFD.
4. Whistle	One hand, mouth or power operated, and audible at least one half (1/2) mile	One hand, mouth or power operated, and audible at least one half (1/2) mile
5. Fire Extinguisher Portable	One type B-1, if carrying passengers for hire, or if boat construction will permit entrapment of flammable vapors.	One type B-1, if carrying passengers for hire, or if boat construction will permit entrapment of flammable vapors.
6. Lights  STERN • White lights all around BOW • Red light (Port) • Green light (Starboard)		
7. Ventilation At least two ventilator ducts fitted with cowls or equivalent, if boat construction will permit entrapment of flammable vapors.		
8. Atlantic Ocean, Delaware Bay and Delaware River South of Artificial Island—U.S. Coast Guard regulations require all vessels to carry day and night distress signaling devices. Outboard motorboats less than 16' in length are exempt from daytime requirements.		
* Test for serviceability of PFD—All PFD's must be readily accessible, in serviceable condition, legibly marked with approval number of the U.S. Coast Guard and be of appropriate size. PFD's must have flotation material without rot or being waterlogged, untorn or damaged coverings and straps in good condition.		

- Don't drink alcohol. Alcohol lowers your body's core temperature and encourages individuals to take chances they wouldn't normally take. Guns, alcohol and/or drugs don't mix. It is illegal to be in possession of a firearm while under the influence of alcohol or drugs in a public place.

DID YOU KNOW?

CPR can save your life! Cold water not only kills, but in some instances, it preserves. Warming drowning victims from the inside out by CPR or warm, moist inhalation may bring them back to life!

TAKE A BOATING EDUCATION COURSE

Those persons born on or after January 1, 1978 must take an approved boating education course before operating a boat. Contact the Office of Boating Safety and Education for more information on taking a classroom course: 302-739-9915. OR Take an online course at <https://de.gov/boatsafety>.

FURBEARER TRAPPING SEASONS

SPECIES	SEASON
Muskrat, Mink, Otter Raccoon, Opossum, Nutria	Dec. 1–Mar. 10*
Beaver	Dec. 1–Mar. 20
Red Fox and Coyote	Nov. 1–Mar. 10
Groundhog	July 1–June 30 A trapping license is not required to trap groundhogs.

A .17 through .22 rimfire firearm may be used to dispatch furbearers caught in a trap.

There is no daily or possession limit for furbearers that have been trapped.

* In New Castle County, on embanked meadows, the season runs through March 20.

** The Department may extend muskrat trapping season if statewide muskrat population can sustain additional harvest and the following criteria are met, as determined by the National Weather Service station at Wilmington, Delaware:

- 7 days – the average mean temperature for February was below 30° F or the total February snowfall exceeded 20 inches
- 14 days – the average mean temperature for February was below 28° F or the total February snowfall exceeded 32 inches.

FURBEARER HUNTING SEASONS AND BAG LIMITS (INCLUDING SUNDAYS)

SPECIES	SEASON	LIMIT	NOTE
Raccoon and Opossum	Chase only season (no harvest allowed): Aug. 1–Oct. 31* Mar. 1–Mar. 31 Hunting season: Nov. 1–Feb. 28**	No Limit	* Chase Only Season: Season closed during the Oct. muzzleloader deer season. See page 20 for deer season dates. ** Hunting Season: Season closed during the Nov. youth and non-ambulatory hunt and Nov. general firearm deer seasons. Special hunting hours during the Oct. and Dec. antlerless, Jan. straight-walled pistol-caliber rifle and handgun, Jan. general firearm, and Jan. muzzleloader seasons are 1 hour after sunset until midnight. See page 20 for deer season dates. See Raccoons section on next page for special zone where season is open all year, including during the deer seasons listed above. Raccoons and opossums may be hunted with compound, recurve, longbow, shotgun, a .17 through .22 caliber rimfire firearm, or a muzzleloading rifle not larger than .36 caliber.
Red Fox	Chase only season (no harvest allowed): Oct. 1–Apr. 30* except season closed during deer shotgun, muzzleloader and antlerless seasons occurring Oct. thru Dec. Hunt: Nov. 1–Feb. 28**	No Limit	* Season closed during the Oct. muzzleloader, Oct. antlerless, Nov. youth and non-ambulatory hunt, Nov. general firearm, and Dec. antlerless seasons. Season open on Tuesday, Wednesday and Thursday on private land only during the Jan. straight-walled pistol-caliber rifle and handgun, Jan. general firearm, and Jan. muzzleloader deer seasons provided the owner of the private land has authorized such fox chasing to occur thereon. See page 20 for deer season dates. ** Red fox may be harvested with a compound, recurve, longbow, crossbow, shotgun, muzzleloading rifle, rimfire or centerfire rifle up to .25 caliber. Red fox may not be harvested with handguns or straight-walled pistol-caliber rifles. See next page for firearm restrictions during firearms deer seasons.
Coyote	July 1–June 30 (aka year round)	No Limit	Coyotes may be harvested with compound, recurve, longbow, crossbow, shotgun, muzzleloading rifle, rimfire, or centerfire rifle up to .25 caliber. Coyotes may not be harvested with handguns or straight-walled pistol-caliber rifles. See next page for firearm restrictions during firearms deer seasons.
Beaver	Dec. 1–Mar. 20	No Limit	Beavers may be hunted with shotguns, compound, recurve, or longbows.

• Only raccoons and opossums may be hunted at night with the aid of a light.
• Electronic calls may be used to hunt raccoons, opossums, red fox, and coyotes.

STATE WILDLIFE AREAS

Each year the Division accepts sealed bids for persons to trap on its wildlife areas. Bidding information is published in September and bids are opened in October. Bid information can be obtained through the Office of Management and Budget Bid Solicitation website at <http://bids.delaware.gov> or by calling the Division at 302-739-9912. No trapping is allowed on any Division lands without a permit.

TRAPPING PROHIBITIONS – IT IS UNLAWFUL TO:

- Use traps to take wildlife except muskrats, mink, otter, beaver, raccoons, opossum, groundhogs, nutria, red foxes, and coyotes. Rabbits may be trapped by landowners, their tenants, or their respective children during the open season.
- Use any type of trap, except for muskrats, without marking the trap with a metal tag stating the trapper's license number and year or the trapper's name and address.
- Set traps on public or private land without first acquiring written permission from the landowner. For your convenience, trappers who wish to trap on private property may use the Private Land Trapping Permission Form on page 10 in this guide.
- Fail to visit traps, except those set for muskrats, at least once every 24 hours.
- Set traps any time before the opening day of a season or any time after the last day of a season. (There is no provision in Delaware's laws to set up traps the day before a season opens or to allow the removal of traps for several days after a season closes.)
- Set foothold traps with a jaw spread in excess of 6 ½ inches above the waterline or 7 ¾ inches beneath the waterline. "Waterline" shall refer to beneath the surface of the water or below the mean high tide line in an area ordinarily subject to the rise and fall of the tide. Jaw spread is measured as the widest distance from this inside of both jaws on a line drawn perpendicular through the jaw pivot points when the trap is in the set position.
- Set foothold traps in areas above the waterline without them having padded or offset jaws, or smooth jaws with a minimum thickness of 5/16 inch, with the exception being that coil-spring traps with a jaw spread of 4 inches or less and long-spring traps with a jaw spread of 4 ½ inches or less do not need to be padded or have offset jaws but must have a minimum jaw thickness of 1/8 inch. Jaw thickness is measured perpendicular across the face of the jaw where the two jaws meet when closed.
- Set foothold traps with toothed or serrated jaws.
- Set snares, now referred to as cable restraints, without the following criteria being met: comprised of stranded steel cable with a minimum diameter of 5/64 inches. Cable

Continued on page 41

FURBEARER TRAPPING AND HUNTING SECTION

Continued from page 40

restraints must be equipped with a relaxing-type lock. The cable may not exceed 7 feet in length from the anchor point to the relaxing lock and must be equipped with at least one swivel device, which allows for 360° rotation, between the loop and the anchor. The cable restraint must have stops affixed to the cable to ensure that the cable that makes up the loop may not have a circumference greater than 38 inches when fully open, or a circumference less than 6 ¼ inches when fully closed. Cable restraints with a maximum loop circumference of 12 ½ inches do not require cable stops. It shall be unlawful to set a cable restraint with the bottom of the loop any higher than 12 inches above the ground. Cable restraints must be maintained in good condition so that all components operate properly.

- Move, take, or damage any trap, or take, or attempt to take, wildlife from any trap without first acquiring specific advance permission.
- Use killer or conibear traps with a jaw spread in excess of 5 inches.
- Use diving or box traps for muskrats.
- Set traps (except box/cage traps) within 10' of exposed meat used as bait. The use of animal fur or feathers without any attached animal tissue is not restricted.
- Trap within 100 yards of an occupied structure (unless trapper is the owner or occupant, or has permission from the owner or occupant).

TRAP TAGS

- Every trapper (licensed or license exempt trapper) must place a trap tag on every trap they set in the field for the purpose of catching snapping turtles and furbearers, excluding muskrats. While traps that are set for muskrats are not required to be tagged, the Division recommends tagging these traps because sometimes these traps may capture an animal other than a muskrat. Tagging all traps would ensure a trapper remains compliant with the rules pertaining to trap tags for any furbearer they catch.
- A trap tag is used to enable a Natural Resource Police Officer or landowner to identify the owner of the trap. Trap tags must be metallic and must be affixed to all traps, except those set to capture muskrats. The tag

needs to have either the words "Trapping License, Delaware" and the trap owner's trapping license or license exempt number and the year of issuance or the owner's name and address.

TRAPPING FROM BOATS

An individual may use a boat to tend lawfully set traps for fur-bearing wildlife

RACCOONS

Raccoons may be trapped in season statewide with foothold traps, including foot encapsulating style traps, cable restraints, or box traps operated to confine but not harm the entrapped animal. The trap opening of box/cage traps may not exceed 195 square inches. At any time of the year.

Raccoons may be hunted and trapped any time of the year on private land in New Castle and Kent Counties east of Rte. 13 from Federal School Lane (near the Ommelanden Range in New Castle County) south to the St. Jones River in Kent County. Where Rte. 13 and Rte. 1 split in Dover, the westerly boundary follows Rte. 1 until it meets the St. Jones River with permission from the landowner. In all other areas of the state, the regular season applies. See previous page.

COYOTES

Reporting of harvested coyotes is no longer required. During any deer firearms season, it will be unlawful to hunt coyotes with any firearm that is not also legal for deer hunting except coyotes may never be harvested with a straight-walled pistol-caliber rifle or handgun. Hides of coyotes legally taken may be sold.

RIVER OTTER

Otters must be tagged by an authorized representative of the Division of Fish and Wildlife in accordance with CITES requirements. Please contact the Division at 302-735-3600 to make an appointment to have your otter tagged before it is sold or shipped out of state. Pelts and complete carcasses may be tagged at any point during processing; however, the animal must not be frozen when it arrives for tagging. Tags will not be distributed to trappers but instead must be affixed by a representative from the Division so bring your otter or pelt with you.

RED FOX

It is unlawful to kill a red fox that is being pursued by dogs. During any deer firearms season, it will be unlawful to hunt red fox with any firearm that is not also legal for deer hunting except red fox may never be harvested with a straight-walled pistol-caliber rifle or handgun. It is unlawful to hunt red fox with the aid of a light.

GRAY FOX

The collateral take of gray fox shall not be unlawful south of the Chesapeake and Delaware Canal during the established hunting and trapping seasons for red fox. No take is permitted north of the canal. Reporting of harvested gray fox is no longer required.

NUTRIA

Anyone that traps a nutria must report the harvest by contacting the Division of Fish and Wildlife at 302-735-3600 by the close of business on the day following the harvest. Harvest reports are an important way for Division biologists to track nutria distribution and abundance across the state. Captured nutria may not be released back into the wild alive and must be killed. Hides of nutria legally taken may be sold.

COYOTES

Adult coyotes generally weigh 20–45 pounds. Coyotes look similar to German Shepard dogs. They have erect, pointed ears, a slender muzzle, and a bushy tail. Most coyotes are brownish gray in color with a light gray to cream-colored belly although they can vary in color from reddish to even black. Coyote tracks are often confused with those made by a red fox or domestic dog likely due to the variation in size and shape of domestic dog breeds, some of which are similar to coyotes. Coyote tracks are smaller than many people think and are oval in shape, whereas dog tracks are generally more round. Additionally, the middle toe pads of a coyote track generally point inward whereas the toe pads of a domestic dog generally do not. For more information on coyotes in Delaware, please visit <https://dnrec.alpha.delaware.gov/fish-wildlife/hunting/coyotes/>

A – Zone refers to the Wildlife Management Zone(s) in which the public land is located. Refer to page 26 for zone boundaries.
 B – All public land turkey hunting by pre-season lottery only. See page 46 for application.
 X – Species allowed to be hunted here. See area map for specific seasons, rules, and locations.
 L – Hunting only available through daily lottery. See area map for lottery requirements.
 PL – Hunting on portions of area only available through daily lottery.
 T – Open for September Teal Season
 * Some tracts are managed as Quality Buck Areas. See area map for more details.
 ** Check area rules for the types of small game that may be hunted

HUNTING OPPORTUNITIES ON PUBLIC LANDS

WATERFOWL

Waterfowl hunters have a variety of opportunities to hunt on public lands in Delaware including marsh blinds/blind sites, upland blinds, goose pits, and upland fields. Refer to individual area maps for specific area rules and regulations.

The following areas are by permit only issued through a daily lottery:

- Augustine WA
- Cedar Swamp WA
- Woodland Beach WA
- Kelly Island (part of Bombay Hook National Wildlife Refuge)
- Little Creek WA (portions of)
- Ted Harvey CA (portions of)
- Assawoman WA (portions of)
- Prime Hook WA and Prime Hook National Wildlife Refuge (lotteries run through National Wildlife Refuge lottery system)

DEER

Deer hunters have a variety of opportunities to hunt on public lands in Delaware. Refer to individual area maps for specific area rules and regulations.

The following areas have firearm deer hunting by permit only issued through a daily lottery.

- White Clay Creek State Park
- Augustine WA
- Blackbird State Forest
- Cedar Swamp WA
- Woodland Beach WA (except the Lighthouse Island tract)
- Little Creek WA (portions of)
- Ted Harvey CA
- Assawoman WA (portions of)
- Deer hunting in eight Delaware State Parks is by permit only and hunters should contact the Park Office where they intend to hunt for specific site information. For more information call 302-739-9220 or visit <https://destateparks.com/Adventures/Hunting>.

QUALITY BUCK MANAGEMENT AREAS

The Cedar Swamp (except the Rocks tract) and Woodland Beach State Wildlife Areas as well as the Dulany Manor tract of Blackbird State Forest and the Chesapeake, Ellendale, Headquarters, and Jester tracts of Redden State Forest and Killens Pond State Park are Quality Buck Areas. All hunters (except hunters under 17 years of age and non-ambulatory hunters hunting on either the Cedar Swamp or Woodland Beach State Wildlife Areas) hunting these areas shall not take an antlered deer with a minimum outside antler spread of less than 15 inches at any time. Only bucks that qualify for the existing Quality Buck Tag are legal in these areas. Antlerless deer can still be legally harvested.

SMALL GAME / TURKEY

Small game hunters have a variety of opportunities to hunt on public lands in Delaware.

Continued on page 43

Continued from page 42

Refer to individual area maps for specific area rules and regulations.

The following areas have rabbit hunting by permit only issued through a daily lottery:

- Cedar Swamp WA
- Woodland Beach WA (portions of)
- Little Creek WA (portions of)
- Ted Harvey CA (portions of)
- Assawoman WA (portions of)

Turkey hunting is only available through a pre-season lottery. See page 46 for more information.

RULES FOR STATE WILDLIFE AREAS

WILDLIFE AREA MAPS

Did You Know?

Delaware's Wildlife Area Maps are now interactive and available online. You can now:

- Access them with your mobile device in the field.
- Zoom in and out for better details about your favorite spots.
- Get all the information on a wildlife area in one easy location.

Each Wildlife Area is complete with maps for:

- General Overview
- Sunday Hunting
- Hunting
- Birding

Go to <https://de.gov/wamaps> and click on the button for the online maps to access them today!

For paper maps of all state wildlife areas may be obtained from the Division of Fish and Wildlife Office, 89 Kings Hwy., Dover, Delaware 19901. Regulations covering each area are included. Individuals can receive up to 5 maps free. Additional maps will cost \$1.00 each. A complete booklet of maps can be obtained in person for a cost \$15.00. Maps are also available for free at <https://de.gov/wamaps>.

- Hunters should note that days open for hunting some species on public lands may vary from the general hunting season. Hunters should check the regulations for each public area they plan to hunt.
- To view public lands open to Sunday hunting, please visit the Sunday hunting website: <https://dnrec.alpha.delaware.gov/fish-wildlife/hunting/sunday/> or call the Wildlife Section office 302-739-9912.

DEER STAND / WATERFOWL BLIND LOTTERY PERMIT

Hunters that use a State Wildlife Area waterfowl blind or deer stand for hunting that is assigned through a daily lottery must purchase a \$20 annual Wildlife Area Deer Stand/Waterfowl Blind Lottery Permit. All individuals must be in possession of this permit when using the blind or stand. This permit is not required for youth hunters or their non-hunting accompanying adult when hunting during the special youth deer and waterfowl hunts. These permits can be purchased where hunting licenses are sold or online at <https://de.gov/DigitalDNREC>.

GENERAL RULES

Hunters are advised to check each area map for specific rules and information.

- A Conservation Access Pass is required for all vehicles using designated State Wildlife Areas, except for the C&D Canal Conservation Area. See pages 11 and 12 for more information.
- Driving or operating any unlicensed motor vehicle is prohibited.
- Driving any motorized vehicle off established and maintained roadways or driving in excess of 20 MPH on wildlife area roads is prohibited.
- Riding horses or bicycles (including electric bicycles) anywhere other than on established and maintained roads or trails that have been designated by the Division on current area maps is prohibited.
- Motorized electric carts, wagons, or wheelbarrows, may be used to transport hunting/fishing equipment or game/fish on lands administered by the Division, provided they are not ridden or used to transport any person.
- Operating or possessing radio-controlled drones, boats and other vehicles, or launching model rockets is prohibited on lands or waters administered by the Division without a permit from the Director.
- No person may trespass into areas closed by the Division.
- Entry is permitted between ½ hour before sunrise and ½ hour after sunset unless lawfully hunting, fishing or boating.
- No camping or swimming without special authorization of the Division.
- Furbearer hunting is permitted on many State Wildlife Areas. See area maps for details and locations.
- No dumping or littering, no target shooting including paintball.
- Using metal detectors is prohibited on lands or waters administered by the Division without a permit from the Division Director.
- Releasing or otherwise introducing any species of domestic or wild animal onto lands administered by the Division is prohibited, unless in accordance with the statutes or regulations governing dog training activities.
- Hunting is permitted only as specified on area maps available from the Division.
- Firearms are allowed except for designated prohibited areas; the Division may authorize firearm possession in designated prohibited areas.
- The discharge of any firearm including paintball guns, air rifles, bows, and crossbows is prohibited unless lawfully hunting or trapping.
- No rifled guns allowed on lands along the C&D Canal except muzzleloaders and shotguns during the deer seasons when it is lawful to use such firearms.
- Hunting is prohibited on all dikes and walking on dikes is prohibited during open waterfowl seasons.
- No trapping on state areas without a valid lease. Leases will be bid in October of each year.
- It shall be unlawful to participate in deer drives, except where authorized on current wildlife area maps between the hours of

9:00 a.m. and 3:00 p.m. No more than 6 hunters may participate in driving deer at any one time. Both resident and non-resident hunters may participate in deer drives.

- Small game hunting is closed during December and January General Firearm deer seasons. See area maps for details.
- Baiting for deer hunting is prohibited.
- Rabbit dogs may be trained on some areas on Sundays during September, October, and November except for the Sundays during firearm deer seasons. See specific wildlife area maps for dog training regulations.
- No permanent non-state deer stands are permitted. Temporary portable deer stands may be used on some areas (see individual area maps). Temporary portable stands may be erected at the owner's own risk after August 1st and must be removed by February 15th. Any stands left after this date will become property of the Division.
- The placement or use of trail cameras is prohibited on all state wildlife and fishing access areas.
- It shall be unlawful to possess, consume or be under the influence of alcoholic beverages, liquors or drugs while hunting or in the possession of firearms when on lands administered by the Division.
- Collection and removal of any wildlife species from a State Wildlife Area is prohibited unless otherwise provided by statute, regulation or authorized by the Division Director.

RULES FOR DELAWARE FOREST SERVICE LANDS

(BLACKBIRD, REDDEN, AND TABER STATE FORESTS)

(Administered by Delaware Forest Service, Department of Agriculture) Please contact each State Forest office for a list of any tract closures.

- For Redden State Forest information call: 302-856-2893.
- For Blackbird State Forest call: 302-653-6505.
- For Taber State Forest call: 302-698-4549.

TURKEY HUNTING ON STATE FOREST LANDS

The Delaware Forest Service will be issuing permits to hunt turkeys on State Forest Lands through a separate public lottery system not found within this guide. Hunters will no longer be eligible to receive a permit to hunt on both State Forests and State Wildlife Areas in the same season. The State Forest Lottery will be held after the State Wildlife Area Lottery. Hunters that successfully receive a State Wildlife Area permit, and applied for a State Forest permit, will have their State Forest application removed before the lottery takes place and they will not be eligible for the State Forest lottery. This change is being made to maximize the number of individual hunters that have an opportunity to hunt on publicly-owned land each season. Applications are due by January 8, 2027 and are available at State Forest offices or they may be found at <https://agriculture.delaware.gov/forest-service/forms-information/>

Continued on page 44

Continued from page 43

THE FOLLOWING RULES AND REGULATIONS APPLY TO ALL STATE FOREST LANDS:

- State Forests are year-round multiple use areas. Hunters share the use of State Forest Lands with other public users such as hikers, campers, horseback riders, firewood cutters, and loggers.
- No special permits are required to hunt on State Forest lands, except as specified in the DNREC Division of Fish and Wildlife annual Hunting and Trapping Guide. Properly licensed hunters may hunt during any open season except on areas designated, such as those marked with Wildlife Sanctuary, NO HUNTING, Safety Zones signs, or Closed to Public White-tailed Deer Hunting.
- Portions of State Forest tracts will be closed to public white-tailed deer hunting from September 1st–January 31st. Please contact each State Forest for a list of these closures.
- Hunting is only permitted as specified on State Forest maps available free-of-charge from State Forest offices and online at <https://agriculture.delaware.gov/forest-service/maps/>.
- Sunday hunting is prohibited on all State Forest property.
- No permanent deer stands, platforms, ladders, or blinds may be constructed. No screw-in steps, tree spikes, screws, or nails are allowed. All parts of temporary (portable) deer stands must be removed on the

final day of the January muzzleloader season; any stands remaining after this date will be removed and become property of the Delaware Forest Service. Stands may be placed after August 1 prior to the start of the new year's hunting season. Owners of deer stands left on Delaware State Forest lands during the designated time period are required to tag/clearly identify their stand with the owners name and phone number. Failure to do you will result in removal of the stand by Delaware Forest Service officials.

- Deer drives by any person or persons are not permitted on any State Forest land at any time.
- For deer hunting, only the entrails (internal organs known as viscera) may be left behind on State property. All other deer parts must be removed from State property.
- Portions of some State Forest tracts are only open to archery hunting for deer. Please contact your local State Forest office for more information.
- Small game hunting is closed on State Forest lands during firearm deer season.
- The Delaware Forest Service reserves the right to close to hunting specific State Forest tracts during specific hunting seasons. Therefore, it is important to consult the current hunting guide for a listing of these closures.
- Trapping rights may be leased for State Forest lands. No other trapping is permitted on State Forest lands.
- Target shooting is prohibited.

- Waterfowl hunting is permitted on State Forest property only in designated areas on designated days. Please refer to state forest regulations posted at each office and on the back of each map.
- Red fox hunting is allowed on State Forest lands but centerfire rifles are not permitted.
- No dumping or littering.
- Placing paint, ribbon, flagging, reflectors, etc., is not permitted.
- No living trees, shrubs or other vegetation may be cut, felled, uprooted, removed or otherwise injured or destroyed.
- No off-road vehicles registered or unregistered.
- Camping is available by permit in designated areas only.
- It is unlawful to use bait for hunting purposes on all State Forest lands.
- No parking in front of access gates to State Forest lands.

RESTRICTIONS APPLYING TO REDDEN STATE FOREST

- Headquarters, Jester, Ellendale and Chesapeake Tracts are Quality Buck only (doe harvest is permitted on these tracts).

RESTRICTIONS APPLYING TO BLACKBIRD STATE FOREST

Maps delineating these areas are available at Blackbird State Forest headquarters, on the

Continued on page 45

License \$\$\$\$ Working for You

Hunting and trapping license dollars are used to “match” federal aid dollars under the Wildlife Restoration Act. License funds cover 25% of approved project costs with Federal Aid covering the rest. Now that’s an investment you can “go wild” about.

Hunters exempted from purchasing a hunting license may voluntarily purchase a license which would allow the Division to match additional federal funds for those activities shown in the adjoining chart. The Division thanks all of those who volunteer to financially support wildlife conservation in this way.

Distribution of Wildlife Section Funding

Invading our Wetlands: Nutria!

Report sightings of this invasive species before it destroys our wetlands!

Distinguishing Characteristics

- Large blocky head and orange teeth
- Body length up to 24 inches, tail is round, slightly haired and up to 15 inches long
- Weighs up to 20 pounds
- Hump-back posture when walking
- Distinctive droppings up to 2 inches long and banana-shaped

877-463-6497
to report sightings

The Chesapeake Bay
Nutria Eradication Project

Continued from page 44

DDA website (agriculture.delaware.gov) or by calling 302-653-6505.

- Deer hunting is limited to numbered stands on Tybout, White Road, Dulany and South Barlow.
- For most firearm seasons, there will be a lottery held at Blackbird State Forest (BSF) headquarters, located on the Tybout tract, at 502 Blackbird Forest Road, 1.5 hours before legal hunting time.
- The Tybout and Barlow tracts will be closed for firearm hunting during the October Antlerless Season. Archery hunting will still be allowed on these areas during this season.
- During the January Handgun and Straight-walled Pistol-caliber Rifle season, the Tybout tract will be closed to all hunting. There will be no lottery held for the White Road, Barlow, and Dulany tracts during this season, it will be on a first come first serve basis.
- During the January General Firearm and January Muzzleloader seasons there will be limited lotteries held for the Tybout, White Road, Dulany, and Barlow tracts due to low hunter participation. Please contact BSF for further details.
- Dulany Tract is managed for Quality bucks only.
- No small game hunting on the Dulany and Tybout tracts.
- Archery hunting is permitted from BSF lottery stands.
- During Archery seasons bow hunters, using BSF stands, must be within 50 yards of their designated stand.
- Please note that archery hunting is the only type of hunting allowed on the Meadows and north Barlow Tracts. The Meadows Tract contains the BSF Education Center, which includes outdoor education trails, so hunters may encounter other individuals on this property.
- Stands will be available during the Archery seasons on a first-come, first-served basis.
- No more than one hunter may hunt from a stand at any one time.
- Squirrel hunting is not allowed with a rifle or muzzleloading rifle. Shotgun squirrel hunting is permitted.
- The trails of BSF trails are generally closed during firearm hunting seasons, but hunters may encounter other individuals on BSF properties.

RESTRICTIONS APPLYING TO TABER STATE FOREST.

- All hunters must sign in at kiosks.
- Squirrel hunting is not allowed with a rifle or muzzleloading rifle. Shotgun squirrel hunting is permitted.

RULES FOR DELAWARE STATE PARK LANDS

(ADMINISTERED BY DIVISION OF PARKS AND RECREATION)

State Parks are year-round multiple use areas. Hunters share park lands with other

All hunters wishing to hunt from a stand or blind designated for hunters with a disability must possess a valid State of Delaware Certified Hunter with Disabilities card. For more information about this program please call 302-739-9912.

recreational user groups including hikers, bikers, runners, equestrians and others.

Deer hunting is an important management tool used by natural resource managers to reduce the impact of deer on the natural communities in Delaware's state parks. Deer hunting is permitted in nine of Delaware's seventeen state parks. Limited small game and waterfowl hunting is also permitted in a few state parks.

Sunday hunting and hunting with a handgun are not permitted in Delaware state parks.

A State Park Registration fee (\$10) is required of all hunters to hunt on state park lands. Permits can be purchased online through Digital DNREC, at all authorized license agents and at the DNREC office license desk. One registration is good for all State Parks where hunting is permitted.

State Park Rules are generally more restrictive than on State Wildlife Areas. You can obtain the rules and maps specific for the park you intend to hunt, at that park's office, on the State Parks website at <https://www.destateparks.com/hunting>. You are required to read and understand the rules for each State Park where you intend to hunt.

RULES FOR BOMBAY HOOK AND PRIME HOOK NATIONAL WILDLIFE REFUGES

Stretched along the eastern coastline of Delaware near Milton and Smyrna and covering 26,000 acres, the Bombay Hook and Prime Hook National Wildlife Refuges provide habitat for a diversity of wildlife.

Game species are sought after by avid hunters on both refuges. Hunting, which is identified by the National Wildlife Refuge System Improvement Act of 1997 as one of the six priority wildlife-dependent recreational uses on refuges, is an important part of Delaware's heritage and tradition. Public hunting opportunities are available for deer, turkeys, upland game, webless migratory birds, and waterfowl on both refuges. A complete listing of hunting information and regulations can be accessed for Bombay Hook National Wildlife Refuge at <https://fws.gov/refuge/bombay-hook> or 302-653-9345 and for Prime Hook National Wildlife Refuge at <https://www.fws.gov/refuge/prime-hook> or 302-684-8419.

PUBLIC LANDS HUNTING AND TRAPPING SECTION

2027 Application for State Wildlife Area and National Wildlife Refuge Turkey Hunts

- **Print clearly.** Illegible information could result in application being rejected.
- **Submit only one application.** More than one application per individual will result in disqualification.
- **Select each area only once.** Listing an area more than once does not change your odds of being drawn.
- **Awarded permits are non-transferable.** You may only receive one public land permit each season, either a State Wildlife Area, Federal National Wildlife Refuge or a State Forest permit.
- If selected, failure to accurately complete and return the Division-provided Turkey Harvest survey card after the season will result in disqualification from the lottery in the following year.
- **All first-time Delaware Turkey Hunters must have satisfactorily completed a Division-approved Turkey Hunting Safety Course to be eligible to apply for a permit.** (Note: Youth under the age of 13 that will be directly supervised while hunting by a person 21 years or older that has completed the class are exempt.)
- All applicants will be reviewed to confirm the successful completion of the required turkey hunting safety course before being considered for the lottery. **If not already verified,** applicants are also required to submit proof of course completion by the application deadline. See page 48 for more information.
- Successful hunters chosen during the lottery must obtain a valid hunting license or License Exempt Number by January 27, 2027.

APPLICATIONS MUST BE POSTMARKED BY JANUARY 8, 2027.
ALL APPLICATIONS POSTMARKED AFTER THIS TIME WILL BE REJECTED.

DELAWARE HUNTER EDUCATION PROGRAM

THE DELAWARE HUNTER EDUCATION PROGRAM

Delaware's Hunter Education Program was established in 1970. Section 501, Title 7, Delaware Code, requires all persons born after January 1, 1967 to satisfactorily complete a Basic Hunter Education Course in order to obtain a Delaware hunting license or Youth Hunting License. Since 1970, tens of thousands of Delaware hunters have been certified by the volunteer instructors of the Delaware Hunter Education Program. The program has been extremely successful and effective in significantly reducing risk and accidents.

Emerging factors such as changing demographics and the decreasing amount of habitat and accessible open space for hunting have created new considerations for hunters, landowners, the Division of Fish and Wildlife and Delaware's general public who may or may

not be hunters themselves. In response, the Delaware Hunter Education Program has also changed to meet the demands and challenges of a new hunting era. In addition to a live firing requirement, today's curriculum includes an increased emphasis on safety and ethical behavior, landowner relations, wildlife identification, wildlife management and conservation, hunting laws and regulations.

The Delaware Hunter Education Program is committed to preserving Delaware's heritage of fair chase hunting. In addition to mandatory Basic Hunter Education, Turkey Education and Trapper Education courses, the program offers advanced courses in Bowhunting, Muzzleloading, Handgun Hunting for Deer, Successful Deer Hunting, Precision Firearms for Large Game, Young Waterfowler's Program, Deer Workshops, etc.

IMPORTANT NOTICE

Courses including live firing are offered free of charge throughout the year. Certification will not be issued to any person under the age of ten (10). All firearms and ammunition are provided by the Hunter Education Program. Please try to complete your training at least one month before you plan to hunt. Your certification cards can be printed online a few days after you complete the course. The card must be presented to purchase a Delaware hunting license.

ADVANCE REGISTRATION IS REQUIRED.

Seating is limited and classes will fill quickly as hunting season approaches. Delaware law now requires live firing of a shotgun as part of basic hunter education.

YOUTH PARTICIPANTS

Certification will not be issued to youths under the age of ten. Students under the age of twelve must be accompanied by a responsible adult. Parents are reminded that younger students require a level of maturity and vocabulary sufficient for understanding adult subject matter and completing assignments. Students of smaller physical body size may find it very difficult or impossible to successfully complete live firing exercises.

HUNTER EDUCATION RESOURCES

- Want to view information about the Delaware Hunter Education program and to see a list of the types of courses offered: <https://de.gov/huntersafety>
- Want to see where and when courses are offered - <https://dnrec.alpha.delaware.gov/fish-wildlife/hunter-education/course-calendar/>
- Need to register for a course, update your address, change your contact information or need a replacement Hunter Safety Card - <https://de.gov/DigitalDNREC>
- If you need assistance with anything else Hunter Education related, please call 302-735-3600 x 1 or email, huntereducation@delaware.gov

MANDATORY LIVE-FIRE REQUIREMENT AND RELEASE OF LIABILITY WAIVER

Since January 1, 2010, section 501 Delaware Code Title 7 has required all basic hunter education students to participate in a live firing experience with a trained firearms instructor in order to complete the course.

Insurance rules of the State of Delaware require all participants in any course which includes live firing to sign a "Release From Liability Waiver". This form is a legal release.

To register for a course or to learn more about the Release of Liability Waiver and Live-Fire Requirements go to: <https://de.gov/DigitalDNREC> or call 302-735-3600 x 1.

- Participants under 18 must have a parent/guardian sign with verification by a notary.
- Participants 18 or older must fill out, sign and either mail the waiver to the Hunter Education office or bring the waiver to class with you.

If you have any questions or want to make sure your waiver has arrived at our office, please call 302-735-3600 x 1.

DIGITAL
DNREC
CONNECT ANYTIME ANY DEVICE.

IMPORTANT ADVISORY

All residents and non-residents completing Basic Hunter Education in a state other than Delaware must upload a valid copy of his or her Hunter Safety Card **before** purchasing a hunting license. **Only a copy of your hunter safety card from the state where you completed the course will be accepted.**

IMPORTANT TIP

Do not upload a previously purchased hunting license, driver's license, concealed carry permit or anything other than proof of completing Basic Hunter Education in another state.

DELAWARE HUNTER EDUCATION PROGRAM

COURSE OFFERINGS AND LOCATIONS

Please note that our courses are taught by volunteer instructors who schedule most of their courses from late August through December. All class details are subject to change without notice based on availability of instructors and sufficient student participation. The classes listed below may not always be available. Not all of the printed locations may be used. The online schedule is the most accurate and will be updated immediately as soon as new courses are available and posted.

Plan Ahead!

Don't wait until the last minute to take the course!

Classes are usually available somewhere in the state during every month of the year. If you plan to go hunting in the coming season, and you need hunter education certification in order to buy a hunting license, check the latest online schedule today at <https://de.gov/huntersafety>.

Register for the course of your choice online at <https://de.gov/huntersafety> or call 302-735-3600 x 1 during business hours. All course schedules are subject to cancellation or change without notice. It can take several weeks to process tests and enter the results into our computer.

TRADITIONAL, LIVE BASIC HUNTER EDUCATION COURSES

Seating is limited. Advance online registration at <https://de.gov/huntersafety> is required for all courses or call 302-735-3600 x 1.

New hunters learn safety, ethics, firearm types, safe gun handling, marksmanship techniques, specialty hunting techniques, wildlife management, wildlife ID, survival, etc. Delaware requires hunter ed certification via traditional live course or via internet course and field day for all hunters born after January 1, 1967. The courses are recognized in all states and Canadian provinces.

Sign up for traditional basic hunter education course given live at one of the classroom locations throughout the state. Delaware law now requires all basic hunter education course participants to participate in a live firing experience with a trained instructor. Live firing of shotguns requires a liability release signed by students 18 or older or a notarized signature of parents/guardians of students under the age of 18. All students must have protective shooting glasses and hearing protection. Adult and youth firearms, targets and ammunition will be provided. All live courses are free of charge with most held in the late summer and fall. Pre-registration is required. To sign up, go to the Hunter Education Online Access at <https://de.gov/huntersafety> or call 302-735-3600 x 1.

ONLINE OPTION FOR BASIC HUNTER EDUCATION COURSES

Complete your hunter education coursework online with one of three private vendors. All three courses allow you to study and take the exam for free, with a fee due only when you are ready to have the vendor certify your successful completion. The State of Delaware has reviewed and approved these interactive courses but receives no portion of the vendor's fee. New hunters learn safety, ethics, firearm types, safe gun handling, hunting and marksmanship skills, specialty hunting techniques,

wildlife management, wildlife ID, survival, etc. Students with certificates in hand must then register and attend a specially designed, "hands-on" field day training session for final Delaware certification. Field day training for online courses includes Delaware laws and regulations, loading, unloading, safe handling and transporting of firearms; field skills involving blinds, boats and tree stands; zones of fire; obstacle crossing; operation of safeties and shotgun live firing.

Live firing of shotguns requires a liability release signed by students 18 or older or a notarized signature of parents/guardians of students under the age of 18. All students must have protective shooting glasses and hearing protection. Adult and youth firearms, targets and ammunition will be provided. For more information Delaware approved Internet courses visit <https://de.gov/huntersafety> or call 302-735-3600 x 1.

- BeaSafeHunter.org (\$28.95)
 - HunterCourse.com (\$29)
 - Hunter-Ed.com (\$39.95)
 - Recademics.com (\$39.99)
 - ilearntohunt.com (\$49.95)
- (Discount for military, fire, and police \$20)

IBEP BOWHUNTER EDUCATION

Seating is limited. Advance online registration at <https://de.gov/huntersafety> is required for all courses or call 302-735-3600 x 1.

Though not a Delaware requirement, this special course is required in many other states and provinces for bowhunters. Participants in this course learn bowhunting methods, game trailing and recovery, field experience, bowhunting safety, reading game signs, safe use of tree stands, calling, field dressing, and more. Youths under the age of 14 must attend with a responsible adult.

Live firing and a signed release of liability and advance online registration are required for participation at <https://de.gov/huntersafety>.

YOUNG WATERFOWLERS PROGRAM

Participation is limited. Advance online registration at <https://de.gov/huntersafety> is required for all courses or call 302-735-3600 x 1.

Always a favorite, these courses (approx 20 hours) provide youths between the ages of 12-16, exposure to the complete waterfowl experience. Everything from waterfowl ID, biology, blind construction and safety, decoy use, duck calling, camouflage technique, boating safety, bird recovery, laws and regulations, language and tradition, firearms, ammo and equipment will be covered. The course includes basic hunter education and finishes with an actual mentored waterfowl hunt. Participants must be hunter education qualified prior to hunting.

A signed release of liability and advance online registration at <https://de.gov/huntersafety> are required for participation.

MANDATORY TURKEY EDUCATION

Seating is limited. Confirm course dates. Advance online registration at <https://de.gov/huntersafety> is required for all courses or call 302-735-3600 x 1.

In addition to complying with other hunter education requirements, all hunters 13 years of age or older must successfully complete a Delaware-approved turkey hunter education course before they can legally hunt turkeys in Delaware.

Upon successful completion of this course, hunters will need to reprint their hunting license (if they already have a license) as completion of the course will be indicated on the license. Hunters that have already successfully completed the course will no longer need to carry a card as proof of completion as long as their hunting license indicates they have completed the course. In addition, public land hunters must have an annual permit from the Division if hunting on a State Wildlife Area or from the Delaware Department of Agriculture if hunting on a State Forest.

Online Turkey Course Option

Delaware also accepts an online turkey course: Note: Upon completion of the online course, students must contact the Hunter Education office at huntereducation@delaware.gov or 302-735-3600 (x 1) to update their account to reflect course completion. Students will be required to submit a copy of their course completion certificate. Please include a phone number where the Hunter Education Office may call, in case there are any questions.

- www.todayshunter.com/turkey101/ (Certification Fee \$29.99)
- <https://recademics.com/hunting/delaware/turkey> (Certification Fee \$25.00)

MANDATORY TRAPPER EDUCATION

Seating is limited. Advance online registration at <https://de.gov/huntersafety> is required for all courses or call 302-735-3600 x 1.

Trapper education is a mandatory prerequisite for purchasing a Delaware trapping license for all persons born after January 1, 1978. Class and Field work sessions include trapping history, heritage and ethics, furbearing animals of Delaware, trapping equipment, boating safety, hypothermia, practical water

DELAWARE MASTER HUNTER
Seating is limited. Advance online registration at <https://de.gov/huntersafety> is required for all courses or call 302-735-3600 x 1.

Not for Beginners.

You are already an experienced hunter. You love hunting; you read about it and think about it all year long. You are dedicated to the principles of ethical, responsible, fair chase hunting. You've learned a lot over the years but you are always ready to learn more. You want to keep yourself up to date with the latest hunting developments, trends, tactics, skills and regulations. You realize that there is a lot more

to learn about wildlife, wildlife management and the role of hunting in our modern society. You know that hunting is a controversial issue and you want to keep up to date on what's happening in Delaware. You'd like to benefit from the opportunity to learn from your peers and share some of the things you've learned the hard way. As a lifelong advocate and ambassador for hunting you want to help continue the heritage of hunting and ensure its future for the coming generations. You'd value the personal satisfaction of being a Delaware Master Hunter, officially qualified, certified and recognized by the State of Delaware.

If the above description sounds like you, you may be a candidate for the Delaware Master Hunter Program. Download an application and check the online schedule for dates at <https://de.gov/huntersafety> or call 302-735-3600 x 1 and ask for an application by mail for this unique, one-of-a-kind program. The Delaware Hunter Education Office of the Division of Fish and Wildlife will be glad to mail you an application form and an information sheet with details about the next course.

DIRECTIONS TO HUNTER/TRAPPER EDUCATION CLASSROOM LOCATIONS

CEDARFIELD RURITAN CLUB – MILFORD

From Route 113 South: Head South on Rt. 113. Before coming to the Rt. 113/Rt. 1 split you will see I.G. Burton car dealership on your right. HUNTER EDUCATION RANGE RULES

1. **ALWAYS CARRY ALL FIREARMS UNLOADED, ACTION OPEN WITH THE MUZZLE POINTED IN A SAFE DIRECTION.** (the only safe direction at the range is up & down range!)
2. Guns may only be loaded at shooting stations, immediately prior to shooting.
3. Keep gun pointed safely down range in the event of a malfunction.
4. Only participating shooters allowed on shooting fields. (no spectators or coaches)
5. Firearms instruction is only permitted by authorized program personnel
6. Participants must be alert at all times for anyone who might be in the firing area.
7. Mounting, shouldering, sighting or pointing of guns behind shooting stations is not allowed.
8. Use and abuse of alcoholic beverages, drugs or impairing medication is prohibited.
9. Guns and ammunition are subject to inspection at all times.
10. Shell picking or littering is not allowed.
11. Maximum size of lead shot is: # 7 ½ (.095 in) Maximum size of steel shot is: # 6 (.11 in).
12. Guns are to be fired from shoulder only. Absolutely no shooting at any live animals or birds.
13. Guns are to be loaded one shell at a time, except when shooting doubles.
14. Profanity, disruptive behavior and inappropriate clothing are not permitted.
15. Appropriate eye & ear protection must be worn.
16. Shooters under 12 years of age must be accompanied by an adult.
17. The range is not responsible for personal property. Leave no property or bags unattended.
18. Eating, drinking or smoking is not permitted inside the shooting field area.
19. To reduce the risk of lead contamination, thorough washing of face and hands is strongly recommended after shooting activities.
20. Decision of range officer is final.
