

CLEAN, DRAIN AND DRY

HELP PROTECT NEVADA'S WATERS

Stop the spread of aquatic hitchhikers!
CLEAN, DRAIN and **DRY** your:

- Waders
- Fishing Gear
- Canoes/Kayaks
- Buckets
- Boats
- Fishing Poles

If it gets wet, it could harbor Aquatic Invasive Species.

KNOWN NEVADA INVADERS

Quagga Mussels

Northern Pike

Eurasian Watermilfoil

New Zealand Mudsnail

Inspect and decontaminate your watercraft and equipment

Here are some methods to minimize your chances of accidentally transporting invasive species. By following these steps you can help protect your valuable fishing and boating resources for the future:

CLEAN Remove all mud, plants and animals from every part of your boat, trailer and equipment.

DRAIN Remove all drain plugs and water from your boat including live-wells, ballast, hull, and engine-cooling water when you leave the waterbody.

DRY Allow boat, equipment, and gear to completely dry before deploying into another waterway.

NOTE: When transferring your watercraft from one water to another or across state borders, you may be required to have your watercraft inspected or decontaminated. For additional information, visit www.westernais.org.

- **NEVER** release plants, fish or animals into a body of water unless they came out of that body of water.
- **AIS DECAL** requirement (NRS 88.536) includes in-state and out-of-state motorized watercraft as well as most non-motorized watercraft including paddle-craft, canoes and kayaks. Watercraft that are capable of retaining water are required to display the decal.
